PERFORMANCE TECHNOLOGIES, INC.

**205 Indigo Creek Drive

**PROXY STATEMENT
GENERAL INFORMATION**

April 19, 2010

This proxy statement is solicited on behalf of the Board of Directors of Performance Technologies, Incorporated ("PT" , the Company , we , us , our) to be used at our Annual Meeting of Stockholders, which will be held at our principal executive office, 205 Indigo Creek Drive, Rochester, New York 14626, at 10:00 a.m., New York time, on Thursday, May 20, 2010 (the Meeting), and at any adjournments thereof. This proxy statement, the accompanying form of proxy, and our 2009 annual report to stockholders are first being mailed to our stockholders on or about April 19, 2010.

The proxy, when properly executed and received by our Secretary prior to the Meeting, will be voted as therein specified unless revoked by filing a written revocation or a duly executed proxy bearing a later date with our Secretary prior to the Meeting. A stockholder of record may also revoke a proxy in person at the Meeting. Unless authority to vote for one or more of the director nominees is specifically withheld, a signed proxy will be voted FOR the election of the director nominees named herein and, unless otherwise indicated, FOR the ratification of the selection of PricewaterhouseCoopers LLP as our independent registered public accounting firm for the fiscal year ending December 31, 2010.

The full cost of soliciting proxies will be borne by the Company. In addition to solicitation by use of the mails, directors, officers or our regular employees, without extra compensation, may solicit proxies personally, by telephone, email or facsimile transmission. We requested persons holding stock for others in their names or in the names of nominees to forward soliciting material to the beneficial owners of such shares and will, if requested, reimburse such persons for their reasonable expenses in so doing.

Important Notice Regarding the Availability of Proxy Materials for the Shareholder Meeting to Be Held on May 20, 2010

As required by rules adopted by the Securities and Exchange Commission, we are making this proxy statement, form of proxy and 2009 annual report to stockholders available to you on the internet at www.pt.com.

VOTES REQUIRED

Stockholders may vote by mail, telephone or the Internet. For some stockholders, information regarding telephone and Internet voting is included in the proxy card instructions. Our total outstanding shares of capital stock as of March 22, 2010, the record date for the Meeting (the Record Date), consisted of 11,116,397 shares of Common Stock, par value \$.01 per share (the Common Stock). Only holders of record of Common Stock on the books of the Company at the close of business on the Record Date are entitled to notice of and to vote at the Meeting and at any adjournments thereof. Each holder of Common Stock is entitled to one vote for each share of Common Stock registered in the holder's name. A majority of the outstanding shares of Common Stock, represented in person or by proxy at the Meeting, will constitute a quorum for the transaction of all business, as provided in the Company's by-laws.

Pursuant to the provisions of the Delaware General Corporation Law, directors shall be elected by a plurality of the votes cast by the holders of shares of our Common Stock present in person or represented by proxy at the Meeting and entitled to vote at the Meeting. Because directors are elected by a plurality of the votes cast, withholding authority to vote with respect to one or more nominees will have no effect on the outcome of the election, although such shares

would be counted as present for purposes of determining the existence of a quorum. Provided each nominee receives at least one vote in favor of his election, abstentions will have no effect on the election of directors.

The affirmative vote of a majority of the shares present or represented by proxy at the Meeting and entitled to vote at the Meeting is required to ratify the selection of PricewaterhouseCoopers LLP as our independent registered public accounting firm for the fiscal year ending December 31, 2010. Abstentions are treated as shares present and voting, so abstaining has the same effect as a negative vote.

With respect to routine matters, such as the ratification of the selection of the independent registered public accounting firm, a brokerage firm, bank or other nominee has authority (but is not required), under the rules governing self-regulatory organizations (the SRO rules), to vote its clients' shares if the clients do not provide instructions. When a brokerage firm, bank or other nominee votes its clients' securities on routine matters without receiving voting instructions, these shares are counted both for establishing a quorum to conduct business at the meeting and in determining the number of shares voted **FOR** or **AGAINST** such routine matters. The Securities and Exchange Commission recently approved an amendment to the rules applicable to brokers, which amendment makes the election of directors a non-routine matter.

With respect to non-routine matters, including the election of directors, a brokerage firm, bank or other nominee is not permitted under the SRO rules to vote its clients' shares if the clients do not specifically instruct their brokerage firm, bank or other nominee on how to vote their shares. The brokerage firm, bank or other nominee will so note on the vote card, and this constitutes a broker non-vote. Broker non-votes will be counted for purposes of establishing a quorum to conduct business at the meeting but not for determining the number of shares voted **FOR, AGAINST** or **ABSTAINING** from any non-routine matters. At the 2010 Annual Meeting of Shareholders, one non-routine matter, the election of two Class II directors of the Company with terms expiring in 2013, will be presented for a vote.

Accordingly, if you do not vote your proxy, your brokerage firm, bank or other nominee may either: (i) vote your shares on routine matters and cast a broker non-vote on non-routine matters, or (ii) leave your shares un-voted altogether. Therefore, we encourage you to provide instructions to your brokerage firm, bank or other nominee by voting your proxy. This action ensures that your shares and voting preferences will be fully represented at the meeting.

CORPORATE GOVERNANCE

Overview

The Company has a history of good corporate governance practices, which have aided our long-term success. The Board of Directors (the Board) and management have recognized for many years the need for sound corporate governance practices in fulfilling their respective duties and responsibilities to our stockholders.

The Board provides oversight with respect to our overall performance, strategic direction and key corporate policies. It approves major initiatives, advises on key financial and business objectives, and monitors progress with respect to these matters. Members of the Board are kept informed of our business by various reports and documents provided to them on a regular basis, including operating and financial reports made at Board and committee meetings by the chairman and other officers. The Board has three standing committees, the principal responsibilities of which are described below.

On an annual basis, each director and executive officer is obligated to complete a director and officer questionnaire. The questionnaire requires disclosure of any transactions with the Company in which the director or executive officer, or any member of his or her immediate family, has a direct or indirect material interest. The Board is charged with addressing any conflict of interest involving the chairman, the chief executive officer, the chief financial officer, or any elected officer of the Company.

Director Independence

Each year, the Board affirmatively determines the independence of each director and nominee for election as a director as required by the NASDAQ Listing Standards.

Based on these standards, the Board affirmatively determined that each of the following non-employee directors is independent and has no relationship with the Company, except as a director and, if applicable, stockholder of the Company:

- | | | |
|--------------------------|--------------------------|-----------------------|
| (1) Dennis C. Connors | (3) Stuart B. Meisenzahl | (5) Robert L. Tillman |
| (2) Charles E. Maginness | (4) E. Mark Rajkowski | |

In addition, based on such standards, the Board affirmatively determined that John M. Slusser is not independent because he is the chairman, president and chief executive officer of the Company.

Board Leadership and Risk Management

Current Leadership Structure

John M. Slusser holds the position of Chairman, Chief Executive Officer and President. The Board currently believes that the Company and its stockholders are best served by having Mr. Slusser serve in both positions. As PT's founder, Mr. Slusser is most familiar with our business and the unique challenges we face in the current environment. The Board believes Mr. Slusser is best positioned to set the agenda items and lead discussions on the important matters affecting us. Mr. Slusser's wealth of knowledge regarding Company operations and the markets in which we compete qualifies him to best identify matters for Board review and deliberation. Additionally, the combined role of Chairman and CEO facilitates centralized Board leadership in one person so there is no ambiguity about accountability. This structure also eliminates conflict between two leaders and minimizes the likelihood of two spokespersons sending different messages. Other than Mr. Slusser, all members of the Board are independent and our key committees are comprised solely of independent Board members. In addition, at each regularly scheduled Board meeting, independent directors are provided an opportunity to meet in an executive session without Mr. Slusser present to review Company performance, management effectiveness, proposed programs and transactions and items for subsequent Board meeting agendas.

Table of Contents

The Board's Role in Risk Oversight

Our Board is responsible for oversight of PT's risk assessment and risk management process. The Audit Committee is responsible for financial and accounting risk oversight, including risk associated with financial statements and internal controls. The Compensation Committee is responsible for compensation risk oversight, including the design of compensation programs. Our Board is responsible for enterprise-wide risk management oversight, including risks associated with our operations and strategic direction. Our Board performs this function in a number of ways, including:

at its regularly scheduled meetings, the Board receives management updates on our business operations, financial results, and strategy, and discusses risks related to the business; and

at its regularly scheduled meetings, the Board receives committee reports and management updates on risks overseen by the Board committees, and discusses such risks.

Management is responsible for day-to-day risk management. This risk management responsibility includes identifying, evaluating and addressing potential risks that may exist at the enterprise, operational, strategic, financial, regulatory and/or reporting levels and reporting material and significant risks to the Board. In addition, our Chief Financial Officer reports to our Audit Committee on financial statement and internal controls risk.

Nominations of Directors

Identifying Candidates

The Nominating Committee has a written charter available in the Investors section of our website at www.pt.com, which specifically sets forth the duties of the Nominating Committee. The Nominating Committee is responsible for identifying and screening potential director candidates and recommending qualified candidates to the Board for nomination. The Committee uses its network of contacts to compile a list of potential candidates, but may also engage, if it deems appropriate, a professional search firm. In addition, the Nominating Committee considers recommendations of potential candidates from current directors, management and stockholders. The Committee intends to evaluate candidates, whether the candidate was recommended by a stockholder or by the Nominating Committee, in the same manner. Stockholders who wish to recommend individuals for consideration by the Nominating Committee to become nominees for election to the Board may do so by delivering a written recommendation to the attention of the Nominating Committee at the address set forth on the cover of this proxy statement. Submissions must include the full name of the proposed nominee, a description of the proposed nominee's business experience for at least the previous five years, complete biographical information, a description of the proposed nominee's qualifications as a director and a representation that the nominating stockholder is a beneficial or record owner of our Common Stock. In addition, any such submission must be accompanied by the written consent of the proposed nominee to be named as a nominee and to serve as a director if elected.

Qualifications and Diversity

The Nominating Committee selects individuals as director nominees based on their business and professional accomplishments, integrity, demonstrated ability to make independent analytical inquiries, ability to understand our business, absence of conflicts of interest, and willingness to devote the necessary time to Board duties. Neither the Board nor the Nominating Committee has set minimum requirements with respect to age, education or years of business experience or set specific required skill sets for directors, but the Committee requires that each director has a proven record of success and leadership. The Nominating Committee seeks to structure the Board of Directors such that it consists of a diverse group of individuals, each with a unique combination of skills, experience, and

background. The Committee has no set diversity policy or targets, but will place appropriate emphasis on certain skills, experience, or background that it determines add or would add value to our Board. Knowledge of our industry and strategic perspective, as well as financial and accounting expertise and experience on other Boards are examples of attributes that our Board and the Nominating Committee consider to be key. The Nominating Committee also considers effective interaction among Board members and between the Board of Directors and management to be crucial factors in considering individuals for nomination.

Table of Contents

Candidate Selection Process

New candidates for director nominees are reviewed in the context of the current composition of the Board, our operating requirements and the long-term interests of our stockholders. In conducting this assessment, the Nominating Committee considers diversity, maturity, skills and such other factors as it deems appropriate given our current needs and the needs of our Board to maintain a balance of knowledge, experience and capability. In the case of incumbent directors whose terms of office are set to expire, the Nominating Committee reviews such directors' overall service to us during their terms, including the number of meetings attended, level of participation, quality of performance and any other relationships and transactions that might impair such directors' independence. In the case of new director candidates, the Nominating Committee also determines whether the nominee is independent, which determination is based upon applicable NASDAQ Listing Standards, applicable rules and regulations of the United States Securities and Exchange Commission (the "SEC"), and the advice of counsel, if necessary. The Nominating Committee conducts inquiries into the backgrounds and qualifications of possible candidates after considering the function and needs of the Board.

Regardless of how a candidate is brought to the Nominating Committee's attention, qualified candidates are asked to conduct one or more personal interviews with members of the Board. Chosen candidates are extended invitations to join the Board. If a candidate accepts, he or she is formally nominated.

Code of Business Conduct and Ethics

The Company's Code of Business Conduct and Ethics (the "Code") applies to all directors, officers and employees or associates of the Company and its subsidiary companies. Table of Contents**MEETINGS AND COMMITTEES OF THE BOARD****The Board**

Each director is expected to devote sufficient time, energy and attention to ensure diligent performance of his duties and to attend all Board, committee and stockholders meetings. Our Board held nine meetings during 2009, of which four were regularly scheduled meetings and five were held to address particular matters. All of the directors attended at least 75 percent of the Board and committee meetings that required their attendance. As required by the NASDAQ Listing Standards, it is the policy of the Board that the independent members of the Board meet regularly in executive (private) sessions at which only independent directors are present. We believe that it is important for our directors to attend the Annual Meeting of Stockholders and expect them to do so each year, barring unforeseen circumstances. All of our directors attended the 2009 Annual Meeting of Stockholders.

Committees of the Board

The Board has three standing committees to facilitate and assist the Board in the execution of its responsibilities. The committees are currently the Audit Committee, the Nominating Committee and the Compensation Committee. In accordance with the NASDAQ Listing Standards, all the committees are comprised solely of non-employee, independent directors. The table below shows current membership for each of the Board committees:

Audit Committee	Nominating Committee	Compensation Committee
Dennis C. Connors	Dennis C. Connors	Charles E. Maginness*
Stuart B. Meisenzahl	Charles E. Maginness	Stuart B. Meisenzahl
E. Mark Rajkowski*	Robert L. Tillman*	Robert L. Tillman

* Denotes Committee Chairperson

In addition to the three standing committees mentioned above, on occasion the Board convenes a special Strategic Planning Committee to provide input and advice to senior management with respect to certain initiatives and other matters related to the strategic direction of the Company. This committee is comprised of Dennis C. Connors, Charles E. Maginness, John M. Slusser and Robert L. Tillman, all of whom (with the exception of Mr. Slusser) are independent directors. This special committee did not meet during 2009.

Audit Committee

The Audit Committee has three members and met eight times during 2009. The Audit Committee is responsible for reviewing our financial reporting procedures and attending to related matters, as discussed in the Audit Committee's charter. The written charter for the Audit Committee, which was adopted by the Board, more specifically sets forth the duties of the Audit Committee and is available in the Investors section of our website at www.pt.com. All of the members of the Audit Committee are financially literate and qualify as being independent under the NASDAQ Listing Standards and applicable SEC rules. In addition, the Board has determined that Mr. Rajkowski qualifies as an audit committee financial expert under applicable SEC rules.

The Audit Committee's responsibilities, which are set forth in detail in its charter, include the following:

Establish policies and procedures for, and review and approve the appointment, compensation and termination of, the independent registered public accounting firm;

Review with the independent registered public accounting firm and financial management of the Company and approve the scope of the audit;

Pre-approve all audit and permissible non-audit fees;

Hold meetings periodically with the independent registered public accounting firm, the Board and management to review and monitor the adequacy and effectiveness of reporting, internal controls and compliance with Company policies;

Review consolidated financial statements and disclosures;

Review with management and the registered independent public accounting firm and approve disclosure controls and procedures and accounting principles and practices; and

Perform other functions or duties deemed appropriate by the Board.

Table of Contents

Nominating Committee

The Nominating Committee has three members and did not meet during 2009. The director nominees were nominated for re-election by the full Board. The Committee is comprised solely of non-employee directors, all of whom the Board has determined are independent pursuant to the NASDAQ Listing Standards. The Board has adopted a charter for the Nominating Committee, which is available in the Investors section of our website at www.pt.com.

The Nominating Committee's responsibilities, which are set forth in detail in its charter, include the following:

- Develop qualifications/criteria for selecting and evaluating director nominees and evaluating current directors;
- Consider and propose director nominees for election at the Annual Meeting of Stockholders;
- Select candidates to fill Board vacancies as they may occur;
- Make recommendations to the Board regarding Board committee memberships;
- Consider the independence of each director and nominee for director; and
- Perform other functions or duties deemed appropriate by the Board.

Compensation Committee

The Compensation Committee has three members and met once during 2009. The Compensation Committee is comprised solely of non-employee directors, all of whom the Board has determined are independent pursuant to the NASDAQ Listing Standards. The Board has adopted a charter for the Compensation Committee, which is available in the Investors section of our website at www.pt.com.

The Compensation Committee's responsibilities, which are set forth in detail in its charter, include the following:

- Establish the base salary, incentive compensation and any other compensation for the Company's president and chief executive officer, review the chief executive officer's recommendations for the compensation of certain executive officers reporting to him, and set and approve such compensation;
- Monitor the Company's management incentive and stock-based compensation plans and discharge the duties imposed on the Committee by the terms of those plans; and
- Perform other functions or duties deemed appropriate by the Board.

Compensation decisions for the executive officers of the Company and the Company's directors are made by the Compensation Committee. Periodically, the Compensation Committee has engaged outside executive compensation consultants to assist in evaluating the components of the executive compensation program, although no such firm was engaged during 2009. The competitive analysis developed by these firms has been helpful in constructing the compensation package for the chief executive officer and the other executive officers.

The Compensation Committee's chairman reports the Committee's recommendations on executive compensation to the Board. The Compensation Committee has authority under its charter to retain, approve fees for and terminate advisors and consultants as it deems necessary to assist in the fulfillment of its responsibilities.

PROPOSAL 1

ELECTION OF DIRECTORS

Our Board currently consists of six members: John M. Slusser, Dennis C. Connors, Charles E. Maginness, Stuart B. Meisenzahl, E. Mark Rajkowski, and Robert L. Tillman. The Board is divided into three equal classes with staggered terms. At this year's Annual Meeting, proxies will be solicited to re-elect Stuart B. Meisenzahl and John M. Slusser as Class II directors to serve until the 2013 annual meeting or until their successors are elected and qualified. Each of these nominees has agreed to serve as a director if elected. Proxies may not be voted for more than two Class II directors. After the election at the Annual Meeting, we will have directors in each of our three classes, a majority of whom will be independent under the NASDAQ Listing Standards. The terms of our directors are staggered so that only one class is elected at each Annual Meeting of Stockholders.

Our Board recommends the election of the two nominees named below, each of whom is currently a director. Our Board does not contemplate that any of the nominees will be unable to serve as a director, but if this should occur prior to the voting of the proxies, the persons named in the enclosed proxy reserve the right to vote for such substitute nominee or nominees as they, in their discretion, shall determine.

Information about the Directors

The following table sets forth certain information with respect to the two directors who are nominated for re-election as Class II directors at the Meeting for a three-year term expiring in 2013.

EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

Overview of Compensation Program

The Compensation Committee (the Committee) of the Board has responsibility for establishing, implementing and continually monitoring adherence with the Company's compensation philosophy. The Committee ensures that the total compensation paid to its executive officers is fair, reasonable and competitive. Generally, the types of compensation and benefits provided to its executive officers are similar to those provided to other executive officers in a peer group of publicly traded technology companies.

Throughout this proxy statement, the individuals who served as the Company's chief executive officer and chief financial officer during 2009, as well as the other individuals included in the 2009 Summary Compensation Table on page 16, are referred to as the Named Executive Officers.

Compensation Philosophy and Objectives

Each year, the Company establishes a plan with certain goals and objectives for the fiscal year that includes revenue, earnings per share and other long-term strategic goals to be accomplished. The Company's overall executive compensation program is designed to reward the achievement of these specific annual goals and to align our executives' interests with those of the stockholders.

In order to attract and retain executive officers, a company must offer compensation which is competitive with its peers. The Committee evaluates both performance and compensation to ensure that the Company maintains its ability to attract and retain superior employees in key positions and that compensation provided to key employees remains competitive relative to the compensation paid to similarly situated executives in peer companies. To that end, the Committee believes executive compensation packages provided by the Company to its Named Executive Officers should include both cash and stock-based compensation (the Compensation Elements) that reward performance as measured against established goals. When possible, the Company endeavors to use similar policies and compensation mechanisms for all its management employees.

The Company does not believe that any of its compensation policies or decisions are reasonably likely to have a materially adverse effect on the Company.

Role of Executive Officers in Compensation Decisions

The Committee makes all decisions related to the compensation of the Named Executive Officers. The chief executive officer annually reviews the performance of each Named Executive Officer other than himself and provides recommendations to the Committee with respect to base salary and long-term incentive award compensation. The conclusions reached and recommendations in connection with these reviews are presented to the Committee for its consideration. The Committee can exercise its discretion in modifying any recommended adjustments or awards to Named Executive Officers.

Setting Executive Compensation

Based on the foregoing objectives, the Committee believes that it structures the Company's long-term incentive awards to motivate executives to achieve both the short and long-term business goals set by the Company and reward the executives for achieving such goals. In furtherance of this, the Committee periodically has engaged outside executive

compensation consultants to conduct a review of its total compensation program for the chief executive officer as well as for other key executives. Executive compensation consultants provide the Committee with relevant market data to consider when making compensation decisions for the chief executive officer and other executive officers. The last engagement of a compensation consultant was in 2006 and the Committee continues to receive periodic updates from this consultant on compensation trends and approaches.

In making compensation decisions, the Committee compares each compensation element and total compensation against a peer group of publicly-traded, technology companies with revenues generally between \$30 million and \$100 million (collectively, the Compensation Peer Group). The Compensation Peer Group consists of companies which the Committee believes can employ similarly situated executives. The companies comprising the Compensation Peer Group are:

Table of Contents

Communications Systems, Inc.	Interphase Corporation	Occam Networks, Inc.
Dataram Corporation	Lantronix, Inc.	Veraz Networks, Inc.
Ditech Networks, Inc.	Network Engines, Inc.	Xeta Technologies, Inc.
Endwave Corporation	Network Equipment Technologies, Inc.	

The Compensation Peer Group is updated each year to remove companies for which compensation data is no longer publicly available and to add replacement companies that meet the group criteria.

The Committee's overall compensation objective is to target the total compensation of the Company's Named Executive Officers at the midpoint of the Compensation Peer Group which the Committee believes will allow the Company to achieve a competitive position amongst its peers in the attraction and retention of executive officers. As such, the Committee seeks to target cash compensation for Named Executive Officers in the second quartile of compensation paid to similarly situated executives, provided, however, that variations to this objective may occur as dictated by several factors including the experience level of the individual, market data, individual and corporate performance, the general and industry-specific business environment, as well as the roles and responsibilities of each executive officer. Data provided by compensation consultants and our experience in hiring a new Chief Executive Officer during 2005 indicated that the then-current total compensation of our Named Executive Officers had historically fallen behind and below this target level. Since then, it has been the Committee's stated goal to increase the total compensation of our Named Executive Officers, over time and as the financial performance of the Company permits, to the midpoint of the Compensation Peer Group. During the two most recent fiscal years, progress toward meeting this goal has been adversely affected by changes in the Company's business caused by weakness in the Telecommunications industry, necessary restructuring of the Company's business in response to this economic weakness and the initiation of a new sales and marketing program which requires a significant investment of resources. These circumstances are currently ongoing.

There is no pre-established policy or target for the allocation between base salary and long-term incentive compensation. Rather, the Committee utilizes the information provided by executive compensation consultants to determine the appropriate level and mix of incentive compensation. Each year, the objective is that the base salary and long-term incentive compensation allocation for each individual should be competitive with those individuals holding the same or similar roles and responsibilities within the Compensation Peer Group. Income from such incentive compensation is realized as a result of the performance of the Company or the individual, depending on the type of award, compared to established goals. In 2009, with respect to the aggregate of salary and long-term incentives for the Named Executive Officers, salary accounted for approximately 88% of this total while long-term incentives accounted for approximately 12% of this total.

2009 Executive Compensation Components

For the year ended December 31, 2009, the principal components of compensation for Named Executive Officers were as follows:

Base Salary; and

Long-term Incentive Award Compensation.

Base Salary

The Company provides Named Executive Officers and other employees with base salary to compensate them for services rendered during the year. The Committee's goal is to target the base salaries of the Named Executive Officers in the second quartile of the Compensation Peer Group, which the Committee believes is necessary to attract and retain executive officers. The Committee generally determines the base salary amounts on an annual basis. The Committee does not use a specific performance formula or a weighting of factors in determining base salary. Instead, base salary ranges for Named Executive Officers are determined for each executive based on their position and responsibility by using market data.

During its review of base salaries for executives, and its determination of base salaries going forward, the Committee primarily considers:

Market data provided by outside consultants;

Internal review of the executive's compensation, both individually and relative to other officers;

Individual performance of the executive and contributions to the business; and

Overall financial performance of the Company

Table of Contents

Salary levels are typically considered annually as part of the Company's performance review process as well as upon a promotion or other change in job responsibility. Merit-based increases to salaries of Named Executive Officers are based on the assessment of the individual's performance.

The base salaries for the chief executive officer and other Named Executive Officers became effective as of April 14, 2008 and remain unchanged for 2009. The Compensation Committee made the decision to accept management's recommendation to freeze 2009 base salaries due to the uncertain global economy and the necessity of containing 2009 expenses. These base salary levels were generally below the mid-point of the Compensation Peer Group data. Base salaries for the Named Executive Officers for the year ended December 31, 2009 are included in the third column of the 2009 Summary Compensation Table on page 16.

The Committee expects, over time, to increase base salaries to the midpoint of the Compensation Peer Group provided that increases to meet this goal can be justified by the Company's actual future financial performance.

Historically, the Committee has established a Short Term Incentive Program to recognize exceptional performance and to assist in catching up with the targeted compensation goal. During the past two years, the Company's financial performance did not meet the Committee's minimum expectations for such a program.

Long-Term Incentive Award Compensation

The Long-Term Incentive Awards Program, which is generally stock option-based compensation, is designed to align executive compensation with stockholder return, motivate and reward individual performance, and to attract and retain talented executive officers.

The Long-Term Incentive Awards Program assists the Company to:

Enhance the link between the creation of stockholder value and long-term executive incentive compensation;

Provide an opportunity for increased equity ownership by executives; and

Maintain competitive levels of total compensation.

In 2009, the Committee provided a pool of stock options approximating 2.0% of the total Common Stock outstanding to be awarded as stock option grants to the Named Executive Officers. Over the past three years, the Committee has established a similar percentage of options granted annually as a means of providing an appropriate balance between (a) potential dilution to Stockholder interests, (b) the benefits of having Named Executive Officers' incentives aligned with the value of the Company's common shares, and (c) the immediate impact of stock option grants on the Company's earnings per share. Data provided by compensation consultants indicates that this target generally places the long-term incentive compensation of the Named Executive Officers below the midpoint of the long-term incentive compensation of the Compensation Peer Group. The Company's forecasted financial performance for 2009 did not allow the Compensation Committee to make any meaningful progress in achieving its goal of granting stock options at the midpoint of the Compensation Peer Group.

Stock option awards vary among participants based on their positions within the Company with consideration by the Committee of total historical grants to each of the Named Executive Officers. The Committee has not adopted a set formula for the determination of the long-term incentive awards to executive officers. Instead, each executive officer (and other management employees) receives awards at the Committee's discretion based on various considerations,

including the employee's base salary, years of service, their relative contribution, performance and responsibility within the Company, the fair value of the Company's stock and the Company's overall performance. These factors, along with benchmarking of the Compensation Peer Group, are reviewed by the Committee when determining or recommending the awards for executive officers. The Compensation Committee meets annually to determine equity incentive awards, if any, for each Named Executive Officer.

Stock options are awarded at the closing price of the Company's Common Stock on the NASDAQ Global Market on the date of the grant. The Company does not grant stock options with an exercise price that is less than the closing price of the Company's Common Stock on the grant date, nor does it grant options which are priced on a date other than the grant date.

Stock options granted to the Named Executive Officers by the Committee may contain various vesting provisions, including accelerated or contingent vesting. In the event of a change in control of the Company, the stock options granted to the Named Executive Officers prior to 2007, and the stock options awarded in 2007, 2008 and 2009 to Mr. Slusser and Mr. Lamb become fully vested and exercisable. We believe that accelerating the vesting of outstanding stock options in the event of a change in control is common both in our industry and in similar companies outside our industry. We believe that this policy aligns the interests of the Executive Officers with the interests of our stockholders by motivating each officer to work toward completion of a transaction and providing an incentive to remain with the Company prior to the occurrence of any such event.

Table of Contents

The vesting of stock options granted to the Named Executive Officers ceases upon termination of employment and exercise rights cease thirty days after termination of employment, except in the case of death, disability or retirement, in which case the exercise right ceases in one year. Prior to the exercise of an option, the holder has no rights as a stockholder with respect to the shares subject to such option, including voting rights.

Stock options granted to the Named Executive Officers have vesting provisions as follows: For 2009, stock options granted to Named Executive Officers vest over a three-year period (20% after one year, 50% after two years and 100% after three years) and have a five-year option term. For 2008, approximately 60% of the stock options granted to Named Executive Officers and options granted to key employees vest over a three-year period (20% after one year, 50% after two years and 100% after three years) and have a five-year option term. The remaining 40% of the stock options granted to Named Executive Officers contingently vest 100% only upon the Company's achievement of pre-tax earnings per share in any of the years 2008, 2009 or 2010 of \$.69 per share, or greater. The Company did not achieve this earnings per share target for 2008 or 2009; therefore, that portion of the stock options continues to remain unvested and unexercised. For 2007, 50% of the stock options granted to Named Executive Officers and options granted to key employees vest over a three-year period (20% after one year, 50% after two years and 100% after three years) and have a five-year option term. 50% of the stock options granted to Named Executive Officers contingently vest 100% only upon the Company's achievement of earnings per share in any of the years 2007, 2008 or 2009 of \$.40 per share or greater. The Company did not achieve this earnings per share target in any of the three years; therefore, that portion of the stock options expired unvested.

Total stock options granted to the Named Executive Officers in 2009 amounted to 200,000 shares.

The grant-date fair value of stock options granted during 2009, 2008 and 2007, calculated in accordance with the Financial Accounting Standards Board's Accounting Standards Codification Topic 718 (Topic 718) is included in the Stock Option Awards column of the 2009 Summary Compensation Table on page 16.

The Company has no set guidelines governing Company stock ownership or retention by its Executive Officers.

Retirement and Other Benefits

Savings Plan:

All employees in the United States are eligible to participate in the Performance Technologies Incorporated Retirement Savings Plan (Savings Plan).

The Savings Plan is a tax-qualified retirement savings plan pursuant to which all U.S.-based employees, including the Named Executive Officers, are able to contribute up to the lesser of 25% of their annual salary or the limit prescribed by the Internal Revenue Service on a before-tax basis. The Company may elect to match a percentage of the employees pay that is contributed to the Savings Plan. The Savings Plan contains vesting for matching contributions from the Company, pursuant to which employees vest 20% per year for their first five years of service with the Company. All employee contributions to the Savings Plan are fully vested upon contribution.

For 2009, the Company matched 25% of the first 4% of pay that was contributed by an employee to the Savings Plan through March 31, 2009, at which time the Company discontinued its match. The match may be reinstated when business conditions improve. For 2008, the Company matched 25% of the first 4% of pay that was contributed by an employee to the Savings Plan. Company contributions to the Savings Plan for the Named Executive Officers for the year ended December 31, 2009, are included in the All Other Compensation column of the 2009 Summary Compensation Table on page 16.

Medical Benefits and Flex Plan:

All employees in the United States are eligible to participate in the Company's Medical benefits and Flex Options Plan (Flex Plan). The Flex Plan provides employees with an annual benefit allowance to choose a variety of medical benefit options including comprehensive medical insurance, dental insurance and flexible spending accounts. Any unused benefit allowance can be contributed to the Savings Plan.

Perquisites and Other Personal Benefits:

The Company provides the Named Executive Officers with certain perquisites and other personal benefits that the Company and the Committee believe are consistent with its overall compensation program to better enable the Company to attract and retain employees for key positions. The Committee periodically reviews the levels of perquisites and other personal benefits provided to the Named Executive Officers.

Certain of the Named Executive Officers are provided an automobile allowance for the use of their personal automobiles. Upon relocation, Named Executive Officers may receive, at the discretion of the Compensation Committee, a relocation allowance to reimburse up to an aggregate amount in relocation and moving expenses actually incurred, as well as additional reimbursement for temporary housing and travel expenses. During 2009, no such relocation expenses were incurred.

Employment Contracts

The Company has not entered into any employment agreements with any of the Named Executive Officers.

Potential Payments upon Termination

The Committee views severance protection for executive officers as a necessary part of compensation to remain competitive in the market. The Named Executive Officers and certain other key executives are eligible for certain benefits in the event their employment is terminated without cause. These benefits are:

Subject to our regular payroll policies and practices, the continuation of salary, automobile, and health insurance benefits for six months after the date the executive employee's employment ends;

Accelerated vesting of all outstanding stock options that would have vested within one year from the date of termination; and

The payment of any earned but unpaid bonus for the prior year.

The Board has determined that cause means (i) continually and willfully failing to perform the lawful responsibilities assigned to the executive employee; (ii) engaging in conduct that is demonstrably and materially harmful to the Company, including, but not limited to, engaging in inappropriate conduct toward other personnel or customers of the Company, being under the influence of alcohol or non-prescription drugs while at work, failing to comply with the provisions of a confidentiality agreement; (iii) misappropriating the Company's property; (iv) being convicted of a felony or other crimes of moral turpitude; or (v) mishandling material, nonpublic information.

2010 Executive Compensation

For the year ending December 31, 2010, the principal components of compensation for Named Executive Officers are as follows:

Base Salary; and

Long-Term Incentive Award Compensation.

Base Salary and Annual Short-Term Incentive Award

As part of the Company's overall expense management given the challenging current economic conditions, the Chief Executive Officer recommended to the Compensation Committee that there be a freeze on executive management salaries for 2009. Further, the Chief Executive Officer recommended to the Compensation Committee that this freeze be continued in 2010, pending improvement in general business conditions and improvement in the Company's performance. These recommendations were accepted by the Compensation Committee. In addition, due to the challenging economic conditions and the Company's financial performance in 2009, the Committee did not establish an Annual Short-Term Incentive Award Program for 2010.

Long-Term Incentive Award Compensation

At its January 2010 meeting, the Board of Directors approved the award of time-vested non-qualified stock options to purchase common shares under the Registrant's 2003 Omnibus Incentive Plan and its 2001 Stock Option Plan to its executive officers and certain key employees, including grants to the Company's Named Executive Officers. The options which were granted to the Company's Named Executive Officers totaled 220,000 shares, were granted at an exercise price of \$2.97 and will vest in accordance with the following vesting schedule: 20% after one year, 50% after two years and 100% after three years. All of the stock options expire five years from the date of grant.

Table of Contents**Tax Deductibility of Compensation**

Section 162(m) of the Internal Revenue Code of 1986, as amended, generally disallows a tax deduction for compensation in excess of \$1 million paid in any taxable year to our chief executive officer and certain other highly compensated executive officers. However, certain compensation, including qualified performance-based compensation, will not be subject to the deduction limit if certain requirements are met. The Compensation Committee reviews the potential effect of Section 162(m) periodically when authorizing compensation payments that may be subject to the limit. Although currently the compensation payments made by the Company do not exceed the deduction limit in Section 162(m), the Compensation Committee has the discretion to consider such payments that it deems to be appropriate and in the best interests of the Company and its stockholders after taking into consideration changing business conditions and the performance of its employees.

COMPENSATION COMMITTEE REPORT

The Compensation Committee of the Company has reviewed and discussed the Compensation Discussion and Analysis required by Item 402(b) of Regulation S-K with management and, based on such review and discussions, the Compensation Committee recommended to the Board that the Compensation Discussion and Analysis be included in this Proxy Statement.

The following table sets forth the estimated payments that would be made in the event of a termination without cause for the Named Executive Officers who are currently employed by the Company as of December 31, 2009:

DIRECTOR COMPENSATION

The Company uses a combination of cash and stock option-based compensation to attract and retain qualified candidates to serve on the Board. In setting director compensation, the Company considers the significant amount of time that directors expend in fulfilling their duties to the Company as well as the skill level required by the Company of members of the Board. Board compensation is determined by the Compensation Committee of the Board.
