PROVECTUS PHARMACEUTICALS, INC.  
(A Development-Stage Company)

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS  
(unaudited)

1. BASIS OF PRESENTATION

The accompanying unaudited condensed financial statements have been prepared in accordance with generally accepted accounting principles for interim financial information pursuant to Regulation S-B. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. Operating results for the six months ended June 30, 2003 are not necessarily indicative of the results that may be expected for the year ended December 31, 2003.

2. GOING CONCERN

The Company will continue to require additional capital to develop its

## Edgar Filing: PROTECTUS PHARMACEUTICALS INC - Form 10QSB/A

products and develop sales and distribution channels for its products. However, the Company believes it lacks sufficient working capital to fund operations for the entire fiscal year ending December 31, 2003. Management believes there are a number of potential alternatives available to meet the Company's continuing capital requirements, including proceeding as rapidly as possible with the development of over-the-counter products that can be sold with a minimum of regulatory compliance and developing revenue sources through licensing of our existing intellectual property portfolio. In addition, the Company is pursuing actively additional debt and/or equity capital in order to support ongoing operations. There can be no assurance that the Company will be able to obtain sufficient additional working capital on commercially reasonable terms or conditions, or at all. The accompanying financial statements have been prepared assuming the Company will continue as a going concern. Continuing as a going concern is dependent upon successfully obtaining additional working capital as described above. The financial statements do not include any adjustments to reflect the possible future effects on the recoverability and classification of assets and amounts and classifications of liabilities that might result from the outcome of this uncertainty.

### 3. RECAPITALIZATION AND MERGER

On April 23, 2002, Provectus Pharmaceutical, Inc., a Nevada corporation and a "blank check" public company, acquired Provectus Pharmaceuticals, Inc., a privately held Tennessee corporation ("PPI"), by issuing 6,680,000 shares of common stock of Provectus Pharmaceutical to the stockholders of PPI in exchange for all of the issued and outstanding shares of PPI, as a result of which Provectus Pharmaceutical changed its name to Provectus Pharmaceuticals, Inc. (the "Company") and PPI became a wholly owned subsidiary of the Company. For financial reporting purposes, the transaction has been reflected in the accompanying financial statements as a recapitalization of PPI and the financial statements reflect the historical financial information of PPI which was incorporated on January 17, 2002. The issuance of 6,680,000 shares of common stock of Provectus Pharmaceutical, Inc. to the stockholders of PPI in exchange for all of the issued and outstanding shares of PPI was done in anticipation of PPI acquiring Valley Pharmaceuticals, Inc. which owned the intellectual property to be used in the Company's operations.

### 4. BASIC AND DILUTED LOSS PER COMMON SHARE

Basic and diluted loss per common share is computed based on the weighted average number of common shares outstanding. Loss per share excludes the impact of outstanding options, warrants, and convertible debt as they are antidilutive. Potential common shares excluded from the calculation at June 30, 2003 are 385,000 warrants, 352,000 options and 1,481,322 shares issuable upon conversion of convertible debt and interest. Additionally, the Company is committed to issue 80,000 warrants.

### 5. EQUITY TRANSACTIONS

(a) In 2003, the Company issued 64,000 shares to consultants in exchange for services rendered, consisting of 29,000 shares issued in January 2003 and 35,000 shares issued in March 2003. Consulting costs charged to operations were \$22,800.

PROTECTUS PHARMACEUTICALS, INC.  
(A Development-Stage Company)

(b) The Company has adopted the disclosure-only provisions of Statement of Financial Accounting Standards No. 123, Accounting for Stock Based Compensation (SFAS No. 123), but applies the intrinsic value method set forth in Accounting

## Edgar Filing: PROVECTUS PHARMACEUTICALS INC - Form 10QSB/A

Principles Board Opinion No. 25 for stock options granted to employees and directors.

On May 29, 2003, the Company issued 352,000 stock options to employees. The options vest over three years with 88,000 options vesting on the date of grant. The exercise prices range from \$0.26 to \$0.32 and all options were outstanding at June 30, 2003. The exercise price for all options is less than the market price on the date of grant. Accordingly, compensation expense of \$27,506 has been recorded in the second quarter of 2003.

For stock options granted to employees during the second quarter of 2003, the Company has estimated the fair value of each option granted using the Black-Scholes option pricing model with the following assumptions:

	2003
Weighted average fair value per options granted	\$ 0.60
Significant assumptions (weighted average)	
Risk-free interest rate at grant date	2.0%
Expected stock price volatility	150%
Expected option life (years)	10

If the Company had elected to recognize compensation expense based on the fair value at the grant dates, consistent with the method prescribed by SFAS No. 123, net loss per share would have been changed to the pro forma amount indicated below:

	2003
Net loss, as reported	\$ (1,778,806)
Add stock based employee compensation expense included in reported net loss	27,506
Less total stock-based employee compensation expense determined under the fair value based method for all awards	(57,200)
Pro forma net loss	\$ (1,808,500)
Basic and diluted loss per common share, as reported	\$ (0.19)
Basic and diluted loss per common share, pro forma	\$ (0.19)

(c) The Company applies the recognition provisions of SFAS No. 123, Accounting for Stock-Based Compensation, in accounting for stock options and warrants issued to nonemployees. In 2003, the Company issued 385,000 warrants in

## Edgar Filing: PROVECTUS PHARMACEUTICALS INC - Form 10QSB/A

exchange for consulting services rendered, consisting of 25,000 warrants issued in January 2003 and 360,000 warrants issued in February 2003. As the fair market value of these services was not readily determinable, these services were valued based on the fair market value, determined using the Black-Scholes option pricing model. Fair market value for warrants ranged from \$0.21 to \$0.51. Consulting costs charged to operations were \$57,177. At June 30, 2003, \$84,174 has been classified as prepaid consulting expense as this amount represents payments for services to be provided in the future.

### ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OR PLAN OF OPERATION.

The following discussion is intended to assist in the understanding and assessment of significant changes and trends related to our results of operations and our financial condition together with our consolidated subsidiaries. This discussion and analysis should be read in conjunction with the consolidated financial statements and notes thereto included elsewhere in this Quarterly Report on Form 10-QSB. Historical results and percentage relationships set forth in the statement of operations, including trends which might appear, are not necessarily indicative of future operations.

#### OVERVIEW

#### HISTORY

Provectus Pharmaceuticals, Inc., formerly known as "Provectus Pharmaceutical, Inc." and "SPM Group, Inc.," was incorporated under Colorado law on May 1, 1978. SPM Group, Inc. ceased operations in 1991, and became a development-stage company effective January 1, 1992, with the new corporate purpose of seeking out acquisitions of properties, businesses, or merger candidates, without limitation as to the nature of the business operations or geographic location of the acquisition candidate.

On April 1, 2002, SPM Group, Inc. changed its name to "Provectus Pharmaceutical, Inc." and reincorporated in Nevada in preparation for a transaction with Provectus Pharmaceuticals, Inc., a privately-held Tennessee corporation ("PPI"). On April 23, 2002, an Agreement and Plan of Reorganization between Provectus Pharmaceutical and PPI was approved by the written consent of a majority of the outstanding shares of Provectus Pharmaceutical, pursuant to which 6,680,000 shares of common stock of Provectus Pharmaceutical were exchanged for all of the issued and outstanding shares of PPI. As part of the acquisition, Provectus Pharmaceutical changed its name to "Provectus Pharmaceuticals, Inc." and PPI became a wholly owned subsidiary of the Company. For accounting purposes, this transaction was treated as a recapitalization of PPI and the issuance of shares of PPI for Provectus Pharmaceutical, Inc. The historical financial information set forth in this report is PPI's historical financial statements from the date of PPI's incorporation, January 17, 2002.

On November 19, 2002, Provectus Pharmaceuticals acquired Valley Pharmaceuticals, Inc. ("Valley"), a privately-held Tennessee corporation formerly known as Photogen, Inc., by merging its subsidiary PPI with and into Valley and naming the surviving corporation "Xantech Pharmaceuticals, Inc." By acquiring Valley, we acquired our most important intellectual property, including issued U.S. patents and patentable inventions, which we intend to use to develop:

- o prescription drugs, medical and other devices (including laser devices) and over-the-counter pharmaceutical products in the fields of dermatology and oncology, and
- o technologies for the preparation of human and animal vaccines,

## Edgar Filing: PROVECTUS PHARMACEUTICALS INC - Form 10QSB/A

diagnosis of infectious diseases and enhanced production of genetically engineered drugs.

Prior to its acquisition, Valley was considered to be in the development stage and had not generated any revenues from the assets we acquired.

On December 5, 2002, Provectus Pharmaceuticals acquired the assets of Pure-ific L.L.C., a Utah limited liability company, and created a wholly owned subsidiary, Pure-ific Corporation, to operate that business. By acquiring Pure-ific L.L.C., we acquired the product formulations for Pure-ific personal sanitizing sprays, along with the "Pure-ific" trademarks. With this acquisition, we intend to continue development and begin to market a line of personal sanitizing sprays and related products to be sold over the counter under the "Pure-ific" brand name.

### DESCRIPTION OF BUSINESS

Provectus Pharmaceuticals, Inc., a Nevada corporation ("Provectus"), and its two wholly owned subsidiaries, Xantech Pharmaceuticals, Inc. ("Xantech") and Pure-ific Corporation ("Pure-ific"), develop, license and market and plan to sell products in three sectors of the healthcare industry:

- o Over-the-counter ("OTC") products;
- o Prescription drugs; and
- o Medical device systems

We manage Provectus, Xantech and Pure-ific on an integrated basis, and when we refer to "we" or "us" or "the Company" in this Quarterly Report on Form 10-QSB, we refer to all three corporations considered as a single unit. Our principal executive offices are located at 7327 Oak Ridge Highway, Suite A, Knoxville, Tennessee 37931, telephone 865/769-4011.

Through discovery and use of state-of-the-art scientific and medical technologies, the founders of our pharmaceutical business have developed a suite of core technologies that support multiple products in the prescription drug, medical device and OTC products categories. Our prescription drug products encompass the areas of dermatology and oncology and involve several types of drugs, including those produced by advanced biotechnology methods. Our medical device systems include therapeutic and cosmetic lasers, while our OTC products address markets primarily involving skincare applications. Because our prescription drug candidates and medical device systems are in the early stages of development, they are not yet on the market and there is no assurance that they will advance to the point of commercialization.

### Over-the-Counter Pharmaceuticals

Our OTC products are designed to be safer and more specific than competing products. Our technologies offer practical solutions for a number of intractable maladies, using ingredients that have limited or no side effects compared with existing products.

We have developed GloveAid, a hand cream with both antiperspirant and antibacterial properties, to increase the comfort of users' hands during and after the wearing of disposable gloves. Our Pure-ific line of products includes two quick-drying sprays, Pure-ific and Pure-ific Kids, that immediately kill up to 99.9% of germs on skin and prevent regrowth for 6 hours. Pure-ific products help prevent the spread of germs and thus complement our other OTC products designed to treat irritated skin or skin conditions such as acne, eczema,

## Edgar Filing: PROVECTUS PHARMACEUTICALS INC - Form 10QSB/A

dandruff and fungal infections. We began limited distribution of Pure-ific during the first half of 2003. During this time our Pure-ific website has been successfully launched enabling fulfillment of online orders. We also have begun limited distribution of Pure-ific in Mexico and Central America. We intend to continue developing our distribution network for these products and expect to expand the Pure-ific product line to include additional applications.

A number of dermatological conditions, including psoriasis, eczema, and acne, result from a superficial infection which triggers an overwhelming immune response. We anticipate developing OTC products similar to the GloveAid line for the treatment of mild to moderate cases of psoriasis, eczema, and acne.

### Prescription Drugs

We are developing a number of prescription drugs which we expect will provide minimally invasive treatment of chronic severe skin afflictions such as psoriasis, eczema, and acne; and several life-threatening cancers such as those of the liver, breast and prostate. We believe that our products will be safer and more specific than currently existing products. Use of topical or other direct delivery formulations allows these potent products to be conveniently and effectively delivered only to diseased tissues, thereby enhancing both safety and effectiveness. All of these products are in the pre-clinical or clinical trial stage.

Our most advanced prescription drug candidate for treatment of topical diseases on the skin is Xantryl, a topical gel. PV-10, the active ingredient in Xantryl, is "photoactive": it reacts to light of certain wavelengths, increasing its therapeutic effects. PV-10 also concentrates in diseased or damaged tissue but quickly dissipates from healthy tissue. By developing a "photodynamic" treatment regimen (one which combines a photoactive substance with activation by

a source emitting a particular wavelength of light) around these two properties of PV-10, we can deliver a higher therapeutic effect at lower dosages of active ingredient, thus minimizing potential side effects including damage to nearby healthy tissues. PV-10 is especially responsive to green light, which is strongly absorbed by the skin and thus only penetrates the body to a depth of about three to five millimeters. For this reason, we have developed Xantryl combined with green-light activation for topical use in surface applications where serious damage could result if medicinal effects were to occur in deeper tissues. We are researching the use of Xantryl with green-light activation to treat multiple dermatological conditions, including acute psoriasis, actinic keratosis, and severe acne.

### Oncology

Oncology is another major market where our planned products may afford competitive advantage compared to currently available options. We are developing Provecta, a sterile injectible form of PV-10, for direct injection into tumors. Because PV-10 is retained in diseased or damaged tissue but quickly dissipates from healthy tissue, we believe we can develop therapies that confine treatment to cancerous tissue and reduce collateral impact on healthy tissue. We are researching the use of PV-10 for the treatment of cancers of the liver, breast and prostate.

### Medical Devices

We are developing medical devices to address two major markets:

- o cosmetic treatments, such as reduction of wrinkles and elimination of spider veins and other cosmetic blemishes; and

## Edgar Filing: PROVECTUS PHARMACEUTICALS INC - Form 10QSB/A

- o therapeutic uses, including photoactivation of Xantryl other prescription drugs and non-surgical destruction of certain skin cancers.

We expect to develop medical devices through partnerships with third-party device manufacturers or, if appropriate opportunities arise, through acquisition of one or more device manufacturers.

### Research and Development

We have placed most research activities on hold as we attempt to conserve available capital and achieve full capitalization of the Company through equity and convertible debt offerings, generation of product revenues, and other means. In the interim, we are maintaining our research facilities in anticipation of a resumption of our research programs. All ongoing research and development activities are directed toward supporting our OTC product launches and maintaining our intellectual property portfolio.

### GOING CONCERN

In connection with their audit report on our consolidated financial statements as of December 31, 2002, BDO Seidman LLP, our independent certified public accountants, expressed substantial doubt about our ability to continue as a going concern because such continuance is dependent upon our ability to raise capital or achieve profitable operations.

Our technologies are in early stages of development. We have generated minimal initial revenues from sales and operations but we do not expect to generate sufficient revenues to enable us to be profitable for several calendar quarters. In November 2002, we obtained \$1 million from Gryffindor Capital Partners I, L.L.C., a Delaware limited liability company ("Gryffindor") through the sale, pursuant to a Convertible Secured Promissory Note and Warrant Purchase Agreement dated November 26, 2002 (the "Gryffindor Agreement") between the Company and Gryffindor, of our Convertible Secured Promissory Note dated November 26, 2002 in the original principal amount of \$1 million (the "Note") and Common Stock Purchase Warrants dated November 26, 2002 (the "Warrants"). In addition, at critical junctures during 2002 and 2003 we have obtained approximately \$129,000 in additional funding through short-term loans from Eric A. Wachter, our Vice President - Pharmaceuticals, a member of our Board of Directors, and a major stockholder. These funds allowed us to complete our planned corporate reorganization and acquisitions, complete initial production runs for several of our OTC products, and maintain our facilities and intellectual property portfolio. We require additional funding to continue initial production and distribution of OTC products in order to achieve meaningful sales volumes. In addition, we must raise substantial additional

funds in order to fully implement our integrated business plan, including execution of the next phases in clinical development of our pharmaceutical products and resumption of research programs currently suspended.

Ultimately, we must achieve profitable operations if we are to be a viable entity. We intend to proceed as rapidly as possible with the development of OTC products that can be sold with a minimum of regulatory compliance and with the development of revenue sources through licensing of our existing intellectual property portfolio. Although we believe that there is a reasonable basis for our expectation that we will successfully raise the needed funds, we cannot assure you that we will be able to raise sufficient capital to sustain operations before we can commence revenue generation or that we will be able to achieve, or maintain, a level of profitability sufficient to meet our operating expenses.

## Edgar Filing: PROVECTUS PHARMACEUTICALS INC - Form 10QSB/A

### PLAN OF OPERATION

With the reorganization of Provectus and PPI and the acquisition and integration into the Company of Valley and Pure-ific, we believe we have obtained a unique combination of OTC products and core intellectual properties. This combination represents the foundation for a successful operating company that we believe will provide both short-term profitability and long-term growth. In 2003, through careful control of expenditures, commencing sales of OTC products, and issuance of debt and equity, we plan to build on that foundation to increase stockholder value.

In the short term, we intend to develop our business by marketing, manufacturing, and distributing our existing OTC products, principally GloveAid and Pure-ific. In the longer term, we expect to continue the process of developing, testing and obtaining FDA approval of prescription drugs and medical devices. Additionally, we intend to restart our research programs that will identify additional conditions that our intellectual properties may be used to treat and additional treatments for those and other conditions.

Research and development costs in comprising the total of \$80,503 for the three months ending June 30, 2003 include depreciation expense of \$53,815, consulting of \$11,535, insurance of \$4,956, office and other expense of \$373, payroll of \$1,424, and rent and utilities of \$8,400. Research and development costs comprising the total of \$236,286 for the six months ending June 30, 2003 include depreciation expense of \$137,656, consulting of \$26,423, insurance of \$4,956, office and other expense of \$828, payroll of \$48,435, rent and utilities of \$16,800, and taxes and fees of \$1,188.

### CASH FLOW

As of June 30, 2003, we held approximately \$35,193 in cash. We have reduced our cash expenditure rate by suspending payment of salaries and most of our research programs; in addition, we are seeking to improve our cash flow by commencing sales of OTC products. Even with these reductions, however, at our current expenditure rate this amount will be sufficient to meet our needs only until the end of August 2003. Moreover, even if we are successful in improving our current cash flow position, we nonetheless will require additional funds to meet our short-term and long-term needs. We anticipate these funds will come from the proceeds of private placements or public offerings of debt or equity securities, but we cannot assure you that we will be able to obtain such funds.

### CAPITAL RESOURCES

As noted above, our present cash flow is not sufficient to meet our short-term operating needs for initial production and distribution of OTC products in order to achieve meaningful sales volumes, much less to meet our longer-term needs for investment in our business through execution of the next phases in clinical development of our pharmaceutical products and resumption of our currently suspended research programs. We anticipate that the majority of the funds for our operating and development needs in 2003 will come from the proceeds of private placements or public offerings of debt or equity securities. We are currently in discussions with multiple funding sources and feel confident adequate operating funding and development funding will result. While we believe that we have reasonable basis for our expectation that we will be able to raise additional funds, we cannot give you an assurances that we will be able to do so on commercially reasonable terms. In addition, any such financing may result in significant dilution to stockholders.

### FORWARD-LOOKING STATEMENTS

## Edgar Filing: PROVECTUS PHARMACEUTICALS INC - Form 10QSB/A

This Quarterly Report on Form 10-QSB contains forward-looking statements regarding, among other things, our anticipated financial and operating results. Forward-looking statements reflect our management's current assumptions, beliefs, and expectations. Words such as "anticipate," "believe," "estimate," "expect," "intend," "plan," and similar expressions are intended to identify forward-looking statements. While we believe that the expectations reflected in our forward-looking statements are reasonable, we can give no assurance that such expectations will prove correct. Forward-looking statements are subject to risks and uncertainties that could cause our actual results to differ materially from the future results, performance, or achievements expressed in or implied by any forward-looking statement we make. Some of the relevant risks and uncertainties that could cause our actual performance to differ materially from the forward-looking statements contained in this report are discussed under the heading "Risk Factors" and elsewhere in our Annual Report on Form 10-KSB, which was filed with the SEC on April 15, 2003. We caution investors that these discussions of important risks and uncertainties are not exclusive, and our business may be subject to other risks and uncertainties which are not detailed there.

Investors are cautioned not to place undue reliance on our forward-looking statements. We make forward-looking statements as of the date on which this Quarterly Report on Form 10-QSB is filed with the SEC, and we assume no obligation to update the forward-looking statements after the date hereof whether as a result of new information or events, changed circumstances, or otherwise, except as required by law.

### ITEM 3. CONTROLS AND PROCEDURES.

- (a) Evaluation of Disclosure Controls and Procedures. Our chief executive officer and chief financial officer have evaluated the effectiveness of the design and operation of our "disclosure controls and procedures" (as that term is defined in Rule 13a-14(c) under the Exchange Act) as of June 30, 2003, the end of the fiscal quarter covered by this Quarterly Report on Form 10-QSB. Based on that evaluation, the chief executive officer and chief financial officer have concluded that our disclosure controls and procedures are effective to ensure that material information relating to the Company and the Company's consolidated subsidiaries is made known to such officers by others within these entities, particularly during the period this Quarterly Report on Form 10-QSB was prepared, in order to allow timely decisions regarding required disclosure.
- (b) Changes in Internal Controls. There has been no change in our internal control over financial reporting that occurred during the fiscal quarter covered by this Quarterly Report on Form 10-QSB that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

## PART II OTHER INFORMATION

### ITEM 1. LEGAL PROCEEDINGS.

As previously reported, on April 17, 2003, during the fiscal quarter covered by this Quarterly Report on Form 10-QSB, a suit was filed in the Third Judicial District Court, Salt Lake County, Utah (the "Court") by Kelly Adams, on

## Edgar Filing: PROVECTUS PHARMACEUTICALS INC - Form 10QSB/A

behalf of himself and "as representative of certain Stockholders of Provectus Pharmaceuticals, Inc., a Nevada corporation." The suit named PPI and Michael L. Labertew, an attorney in Salt Lake City, Utah, as defendants, and sought to rescind the Agreement and Plan of Reorganization dated April 22, 2002 by which we acquired PPI and PPI's former stockholders acquired majority ownership of our common stock. (This transaction is discussed in more detail in Part I above under the heading "Management's Discussion and Analysis or Plan of Operation.-Overview-History.")

As previously reported, on April 29, 2003, without giving the Company or PPI notice of the motion or an opportunity to respond to it, the Court granted Mr. Adams's ex parte motion for a temporary restraining order (the "TRO") preventing PPI from issuing additional shares of stock for a 10-day period commencing on April 29, 2003. Mr. Adams also moved for a preliminary injunction that, if granted, would have imposed the same restrictions until the completion of the proceedings.

As previously reported, on May 12, 2003 PPI filed its Consolidated Memorandum in Opposition to Plaintiff's Motion for Preliminary Injunction and Memorandum in Support of Motion to Dismiss in response to the entry of the TRO and Mr. Adams's motion for a preliminary injunction; and on May 13, 2003, the Court conditionally lifted the TRO against the Company pending a hearing scheduled for May 16, 2003. On May 16, 2003, the Court held a hearing on Mr. Adams's motion for a preliminary injunction, at which the Court denied the motion for a preliminary injunction, citing Mr. Adams's failure to meet his burden under Utah law.

As previously reported, on May 21, 2003, the Court entered a written order memorializing its May 16, 2003 ruling dissolving the TRO and denying Mr. Adams's preliminary injunction motion. In dissolving the TRO and refusing to grant the preliminary injunction, the Court cited Mr. Adams's inability to establish any significant harm that would result to Mr. Adams if the preliminary injunction were not granted, the significant harm that would result to the Company if the preliminary injunction were granted, and Mr. Adams's failure to show a substantial likelihood that he would prevail on the merits of his lawsuit. The Court specifically cited Mr. Adams's failure to show a substantial likelihood that he would prevail on the issues of (i) whether he had standing as a proper plaintiff to assert his alleged cause of action and (ii) whether rescission was an available and appropriate remedy in this case. The Court's order allows Mr. Adams to amend his complaint.

As previously reported, on June 16, 2003 the Company and its subsidiary Xantech Pharmaceuticals, Inc., a Tennessee corporation and the successor by merger to PPI ("Xantech"), executed a Settlement Agreement (the "Settlement Agreement") with the plaintiff, Mr. Adams, and with Justeene Blankenship, Nicholas Julian, and Pacific Management Services, Inc., the corporation formerly operated by Mr. Julian and Ms. Blankenship ("Pacific"). Pursuant to the Agreement, Mr. Adams agreed to dismiss the litigation pending in the Court with prejudice and, in connection therewith, to file the Settlement Agreement with the Court to govern the future relations between the parties. In addition, the parties to the Settlement Agreement entered into mutual releases and certain other covenants and agreements. A copy of the Settlement Agreement was filed as Exhibit 10.14 to the Company's Current Report on Form 8-K dated June 16, 2003, as filed with the SEC on June 26, 2003, and is incorporated herein by reference.

As previously reported, on June 18, 2003 Mr. Adams and PPI submitted to the Court a Stipulated Order of Dismissal with Prejudice and Release of Stock Certificates (the "Order"). The Court entered the Order, thereby dismissing the litigation with prejudice, on June 25, 2003.

Edgar Filing: PROVECTUS PHARMACEUTICALS INC - Form 10QSB/A

ITEM 2. CHANGES IN SECURITIES AND USE OF PROCEEDS.

RECENT SALES OF UNREGISTERED SECURITIES

During the three months ended June 30, 2003, we did not sell any securities which were not registered under the Securities Act of 1933, as amended (the "Securities Act").

ITEM 3. DEFAULTS UPON SENIOR SECURITIES.

No response is required to this item.

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS.

We held our 2003 Annual Meeting of Stockholders on May 29, 2003 (the "Annual Meeting"). Proposals presented for a vote of our stockholders at the Annual Meeting were:

1. Election of four directors to serve on the Company's Board of Directors for a one-year term;
2. Action on a proposal to approve and adopt the following four amendments to the Articles of Incorporation of Provectus Pharmaceuticals, Inc.:
  - A. An amendment authorizing the future issuance of up to 25 million shares of preferred stock;
  - B. An amendment revising and improving the provisions of the Articles of Incorporation regarding indemnification of our directors, officers, employees and agents for costs they may incur if sued individually as a result of their service to us;
  - C. An amendment requiring the affirmative vote of 75% of the voting power of our outstanding stock for stockholder-initiated changes to our Bylaws and continuing to permit the Board to adopt, amend or repeal the Bylaws;
  - D. An amendment eliminating unnecessary and archaic verbiage in our Articles of Incorporation; and
3. Action on a proposal to approve and adopt the Provectus Pharmaceuticals, Inc. Amended and Restated 2002 Stock Plan.

Election of Directors

Each of the incumbent Directors was elected, with the following results:

	VOTES FOR -----	VOTES AGAINST -----	ABSTENTIONS BROKER NON- -----
H. Craig Dees, Ph.D.	7,775,565	700	0

## Edgar Filing: PROVECTUS PHARMACEUTICALS INC - Form 10QSB/A

Timothy C. Scott, Ph.D.	7,775,665	600	0
Eric A. Wachter, Ph.D.	7,775,665	600	0
Stuart Fuchs	7,775,665	600	0

### Approval of Amendments to the Company's Articles of Incorporation

In accordance with SEC rules, we presented as separate matters for voting the four proposed amendments to the Articles of Incorporation of Provectus Pharmaceuticals, Inc., as amended. Stockholder voting on each of the four amendments was independent from stockholder voting on any of the others; stockholders were permitted to vote for or against, or abstain from voting on, any one or more of them. We presented all four amendments together since we believed that all four matters would be desirable for governance of the Company following the Annual Meeting.

The proposed amendment to the Articles of Incorporation authorizing the future issuance of up to 25 million shares of preferred stock was approved, with the following results:

VOTES FOR -----	VOTES AGAINST -----	ABSTENTIONS AND BROKER NON-VOTES -----
7,312,531	12,310	602

The proposed amendment to the Articles of Incorporation revising and improving the provisions regarding indemnification of directors, officers, employees and agents was approved, with the following results:

VOTES FOR -----	VOTES AGAINST -----	ABSTENTIONS AND BROKER NON-VOTES -----
7,763,139	12,321	805

The proposed amendment to the Articles of Incorporation requiring the affirmative vote of 75% of the voting power of the outstanding stock for stockholder-initiated changes to the Bylaws was approved, with the following results:

VOTES FOR -----	VOTES AGAINST -----	ABSTENTIONS AND BROKER NON-VOTES -----
7,312,920	12,012	502

The proposed amendment to the Articles of Incorporation eliminating unnecessary and archaic verbiage was approved, with the following results:

ABSTENTIONS AND

## Edgar Filing: PROVECTUS PHARMACEUTICALS INC - Form 10QSB/A

VOTES FOR -----	VOTES AGAINST -----	BROKER NON-VOTES -----
7,774,657	1,000	608

### Approval of 2002 Stock Plan

The Provectus Pharmaceuticals, Inc. Amended and Restated 2002 Stock Plan was approved and adopted, with the following results:

VOTES FOR -----	VOTES AGAINST -----	ABSTENTIONS AND BROKER NON-VOTES -----
6,503,118	11,813	502

No other matters came before the Annual Meeting.

### ITEM 5. OTHER INFORMATION.

The Company has entered into a Material Transfer Agreement dated as of July 31, 2003 (the "Material Transfer Agreement") with Schering-Plough Animal Health Corporation ("SPA"), the animal-health subsidiary of Schering-Plough Corporation, a major international pharmaceutical company. Under the Material Transfer Agreement, we will provide SPA with access to certain of our patented technologies, to permit SPA to evaluate those technologies for use in animal-health applications. If SPA determines that it can commercialize our technologies, then the Material Transfer Agreement obligates us and SPA to enter into a license agreement providing for us to license those technologies to SPA in exchange for certain progress payments upon the achievement of certain goals. We can give you no assurance that SPA will determine that it can commercialize our technologies or that the goals required for the Company to obtain progress payments from SPA will be achieved.

### ITEM 6. EXHIBITS AND REPORTS ON FORM 8-K.

- (a) Exhibits. Exhibits required by Item 601 of Regulation S-B are incorporated herein by reference and are listed on the attached Exhibit Index, which begins on page X-1 of this Quarterly Report on Form 10-QSB.
- (b) Reports on Form 8-K. During the fiscal quarter ended June 30, 2003, we filed the following Current Reports on Form 8-K:
  - 1. On May 22, 2003, we filed a Current Report on Form 8-K reporting, with respect to the litigation filed by Mr. Adams against PPI (which is discussed in more detail above under the heading "Legal Proceedings."), that, among other things: (i) on May 16, 2003 the Court had held its hearing on PPI's Consolidated Memorandum in Opposition to Plaintiff's Motion for Preliminary Injunction and Memorandum in Support of Motion to Dismiss in response to the entry of the TRO and Mr. Adams's motion for a preliminary injunction; (ii) following the hearing, the Court had dissolved the TRO and denied Mr. Adams's motion for a preliminary

## Edgar Filing: PROVECTUS PHARMACEUTICALS INC - Form 10QSB/A

injunction; and (iii) on May 21, 2003 the Court had entered a written order memorializing its May 16, 2003 ruling dissolving the TRO and denying Mr. Adams's preliminary injunction motion.

2. On June 26, 2003, we filed a Current Report on Form 8-K reporting, with respect to the litigation filed by Mr. Adams against PPI, that, among other things: (i) the Company and Xantech had executed the Settlement Agreement with Mr. Adams, Justeene Blankenship, Nicholas Julian, and Pacific; and (ii) the Court had dismissed the litigation with prejudice on June 25, 2003.

Provectus Pharmaceuticals, Inc.

Certification Pursuant to Rule 13a-14(a)  
Section 302 Certification

I, H. Craig Dees, Ph.D., the Chief Executive Officer of Provectus Pharmaceuticals, Inc., certify that:

1. I have reviewed this quarterly report on Form 10-QSB of Provectus Pharmaceuticals, Inc.;
2. Based on my knowledge, this quarterly report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this quarterly report;
3. Based on my knowledge, the financial statements, and other financial information included in this quarterly report, fairly present in all material respects the financial condition, results of operations and cash flows of the small business issuer as of, and for, the periods presented in this quarterly report;
4. The small business issuer's other certifying officers and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) for the small business issuer and have:
  - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the small business issuer, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this quarterly report is being prepared;
  - (b) Evaluated the effectiveness of the small business issuer's disclosure controls and procedures and presented in this quarterly report our conclusions about the effectiveness of the

Edgar Filing: PROVECTUS PHARMACEUTICALS INC - Form 10QSB/A

disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and

- (c) Disclosed in this report any change in the small business issuer's internal control over financial reporting that occurred during the small business issuer's most recent fiscal quarter (the small business issuer's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the small business issuer's internal control over financial reporting; and.
5. The small business issuer's other certifying officers and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the small business issuer's auditors and the audit committee of small business issuer's board of directors (or persons performing the equivalent function):
- (a) all significant deficiencies in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the small business issuer's ability to record, process, summarize and report financial data and have identified for the small business issuer's auditors any material weaknesses in internal controls; and
  - (b) any fraud, whether or not material, that involves management or other employees who have a significant role in the small business issuer's internal controls.
