PROXY STATEMENT

**FOR ANNUAL MEETING OF STOCKHOLDERS
AUGUST 19, 2002**

This Proxy Statement is furnished in connection with the solicitation by the Board of Directors of Infonet Services Corporation, a Delaware corporation, of proxies from the holders of our issued and outstanding Class B common shares of stock, \$.01 par value per share (together with our Class A common shares, the Common Shares), to be exercised at the Annual Meeting of Stockholders, referred to as the Annual Meeting, to be held on August 19, 2002 at the Ritz-Carlton, Marina del Rey located at 4375 Admiralty Way, Marina del Rey, California 90292 at 10:00 a.m., local time, and at any adjournment or postponement of the meeting for the purposes set forth in the accompanying Notice of Annual Meeting. The terms Infonet, us, we and our as used in this statement refer to Infonet Services Corporation.

This Proxy Statement and enclosed form of proxy are first being mailed to our stockholders on or about July 15, 2002.

At the Annual Meeting, our stockholders will be asked to consider and vote upon the following proposals:

1. To elect nine directors to serve until the Annual Meeting of stockholders in the year 2003 and until their successors are duly elected and qualified;
2. To ratify the appointment of Deloitte & Touche LLP as our independent auditor for the fiscal year ending March 28, 2003; and
3. To transact any other business that properly comes before the meeting or any adjournment(s) or postponement(s) of the Annual Meeting.

Only the holders of record of our Common Shares at the close of business on June 27, 2002, referred to as the Record Date, are entitled to notice of and to vote at the Annual Meeting. Each Class B common share is entitled to one vote on all matters, while each Class A common share is entitled to ten votes on all matters, except for the election of the Class B common share directors, in which the Class A common shares do not vote. As of the Record Date, 469,552,476 of our Common Shares representing 1,922,182,698 votes were outstanding, reflecting 161,403,358 of our Class A common shares outstanding representing 1,614,033,580 votes and 308,149,118 of our Class B common shares outstanding representing 308,149,118 votes. A majority of the Common Share votes outstanding at the Record Date must be represented at the Annual Meeting in person or by proxy to constitute a quorum for the transaction of business at the Annual Meeting. Abstentions and broker non-votes (i.e., shares held by a broker or nominee which are represented at the meeting, but with respect to which such broker or nominee is not instructed or authorized to vote on a particular proposal) will count toward the presence of a quorum.

The Common Shares represented by all properly executed proxies returned to us will be voted at the Annual Meeting as instructed or, if no instruction is given, they will be voted **FOR** the nine director nominees and **FOR** the ratification of the appointment of Deloitte & Touche LLP as our independent auditor for the fiscal year

ending March 28, 2003. As to any other business that properly comes before the Annual Meeting, all properly executed proxies will be voted by the persons named therein in accordance with their discretion. We do not presently know of any other business that may properly come before the Annual Meeting. Any person giving a proxy has the right to revoke it at any time before it is exercised at the Annual Meeting: (a) by filing with the Secretary of Infonet a duly signed revocation or a proxy bearing a later date or (b) by electing to vote in person at the Annual Meeting. Mere attendance at the Annual Meeting will not revoke a proxy.

If the Annual Meeting is postponed or adjourned for any reason, at any subsequent reconvening of the Annual Meeting all proxies will be voted in the same manner as those proxies would have been voted at the original convening of the Annual Meeting (except for any proxies that were theretofore effectively revoked or withdrawn).

We will bear the cost of soliciting proxies from our stockholders. In addition to solicitation by mail, our directors, officers and employees may solicit proxies by telephone, electronic mail or otherwise. Those directors, officers and employees of Infonet will not be additionally compensated for any solicitation, but may be reimbursed for out-of-pocket expenses incurred in connection with the solicitation. Brokerage firms, fiduciaries and other custodians who forward soliciting material to the beneficial owners of Common Shares held of record by them will be reimbursed for their reasonable expenses incurred in forwarding the material.

Our Class B common shares are traded on the New York Stock Exchange, Inc., or NYSE, and the Frankfurt Stock Exchange under the ticker symbol IN. On June 27, 2002, the closing price for our Class B common shares on the NYSE was \$2.29 per share.

NO PERSON IS AUTHORIZED TO GIVE ANY INFORMATION OR TO MAKE ANY REPRESENTATIONS OTHER THAN THOSE CONTAINED IN THIS PROXY STATEMENT. IF ANY REPRESENTATION OR INFORMATION IS GIVEN OR MADE, YOU MUST NOT RELY ON THAT INFORMATION AS HAVING BEEN AUTHORIZED BY US AND THE DELIVERY OF THIS PROXY STATEMENT UNDER NO CIRCUMSTANCES SHALL CREATE ANY IMPLICATION THAT THERE HAS BEEN NO CHANGE IN THE AFFAIRS OF INFONET SINCE THE DATE HEREOF.

The date of this proxy statement is July 8, 2002.

Mr. Collazo did not cancel any options.

Pension Plan

Our pension plan is a contributory defined pension plan in which substantially all of our domestic employees are eligible to participate. The pension benefits received by a retiring employee are calculated by multiplying the employee's total eligible compensation for each year of participation by 2.25%. Eligible compensation consists of base compensation plus non-discretionary bonuses and commissions. Compensation deferred under the Infonet Deferred Income Plan, income related to the 1998 Stock Option Plan, 1999 Stock Option Plan, 2000 Omnibus Stock Plan, reimbursements, fringe benefits or other forms of special pay are not eligible compensation. Pension benefits are paid monthly from the retirement date until the participant's death. Normal retirement is at age 65; however, participants may retire as early as age 55 with a reduced benefit. Participants are required to contribute 3% of pay, after tax, up to a specified maximum. We pay the cost of benefits not provided by participant contributions.

As of March 29, 2002, the following Named Executive Officers, upon retirement at age 65, would be entitled to annual retirement benefits under the pension plan as follows: José A. Collazo \$59,453, Akbar H. Firdosy \$27,603, Paul A. Galleberg \$8,056, John C. Hoffman \$30,536 and John M. Williams \$15,449.

Supplemental Executive Retirement Plan

Our Supplemental Executive Retirement Plan, or SERP, is a defined benefit retirement plan in which three of our executive officers, including two Named Executive Officers, participated during the fiscal year ended March 29, 2002. The SERP benefits received by a retiring executive are calculated by multiplying the executive's average compensation during his final 36 months of employment under the SERP by a factor of 38%, 43% or 50%, depending on whether the sum of years of service and the age of the participant exceeds 65, 75 or 85 years as of the date of termination of employment. The annual SERP benefit is reduced by the annual pension plan benefit described above. Eligible compensation consists of base compensation plus non-discretionary bonuses and commissions. Compensation deferred under the Infonet Deferred Income Plan, income related to the 1998 Stock Option Plan, 1999 Stock Option Plan, 2000 Omnibus Stock Plan, reimbursements, fringe benefits or other forms of special pay are not eligible compensation. In lieu of the benefits described above, the SERP provides beneficiaries of participants who die while employed by us with a death benefit equal to 250% of the a participant's average compensation during his final 36 months of employment. The SERP also provides participants and their spouses and dependents with certain post-employment health care coverage.

As of March 29, 2002, Messrs. Collazo and Hoffman, the Named Executive Officers who participate in the SERP, upon retirement at age 65, would be entitled to annual SERP benefits of \$0 and \$198,565, respectively. Mr. Collazo's and Mr. Hoffman's rights to receive SERP benefits have vested. The then current actuarial value of Mr. Collazo's SERP benefit was transferred from the SERP to the Infonet Deferred Income Plan in the amounts of \$5,636,041 in August 1999 and \$982,630 in August 2001, as permitted under the SERP. Mr. Collazo recognized imputed income for FICA and FUTA tax purposes as a result of these transfers.

Senior Executive Supplemental Benefits Plan

Effective as of May 7, 2002, we adopted the Senior Executive Supplemental Benefits Plan, or the Supplemental Benefits Plan. The Supplemental Benefits Plan provides for enhanced retirement benefits for certain key executives designated for participation in the Supplemental Benefits Plan by our Compensation Committee. First, the Supplemental Benefits Plan provides for a Company matching contribution on behalf of designated executives equal to any amounts deferred by them under the Infonet Deferred Income Plan up to a limit of 3% of the excess of a participant's gross cash compensation, including amounts deferred under the Infonet Deferred Income Plan, our 401(k) plan and Internal Revenue Code Section 125 plan, over the annual compensation limit under Internal Revenue Code Section 401(a)(17), currently \$200,000. Matching contributions under the Supplemental Benefits Plan are made promptly after the end of each calendar year. All of our Named Executive Officers are eligible to participate in this portion of the Supplemental Benefits Plan.

The Supplemental Benefits Plan also provides certain designated executives with an excess pension benefit equal to the amount, if any, by which the designated executive's accrued benefit under the pension plan is, or has previously been, reduced to comply with Internal Revenue Code Section 415 or because the compensation taken into account for purposes of the executive's pension plan accruals exceeded the annual compensation limit under Internal Revenue Code Section 401(a)(17). Of our Named Executive Officers, Messrs. Firdosy, Galleberg and Williams are eligible for these excess pension benefits. Excess pension benefits under the Supplemental Benefits Plan are payable at the same time and in the same manner as a participant's benefits are paid under the pension plan, with corresponding adjustments for early or postponed retirement.

The Supplemental Benefits Plan also provides for an enhanced SERP benefit. Mr. Collazo is eligible for enhanced SERP benefits under the plan. Mr. Collazo's benefit under the SERP upon his termination of employment on or after attaining age 62 is calculated by multiplying his average compensation during his final 36 months of employment by 60%, minus his annual pension benefit described above as well as any amounts Mr. Collazo previously withdrew from the SERP and transferred to the Infonet Deferred Income Plan. The enhanced SERP benefit is payable pursuant to the terms and conditions of the SERP, which are incorporated into the Supplemental Benefits Plan.

Employment and Other Agreements

We have entered into revised employment agreements with Messrs. Collazo, Firdosy and Galleberg, effective April 24, 2001. Each agreement has an initial three-year term that automatically renews for additional 24 month terms unless notice is given not later than 24 months prior to the expiration date of each term. The salary to be received by each of Messrs. Collazo, Firdosy and Galleberg is his respective base salary in effect as of April 24, 2001 and will be reviewed annually in accord with our salary review policies. Each will be eligible to participate in all benefit programs we offer other than the SERP and the enhanced SERP benefit under the Supplemental Benefits Plan, in which Messrs. Firdosy and Galleberg do not participate.

Each of the employment agreements may be terminated by us or the respective executive without further obligation on the part of either party if we terminate the executive's employment for cause or if the executive resigns for other than good reason, as those terms are defined in the agreements.

If any of Messrs. Collazo, Firdosy or Galleberg is terminated without cause or resigns for good reason or in the event of a change in control, as those terms are defined in the agreements, then he would:

- be entitled to receive, for a period of two years or until the expiration of the term of his employment agreement, whichever is longer, separation payments equal to his average total cash compensation received during the 12 month period immediately preceding the triggering event;

- be entitled to accelerated vesting of outstanding stock options and be entitled to exercise such options for the remainder of the respective option term;

- be entitled to continued medical and dental insurance and continued accrual of all other Benefits (as defined in the employment agreement) during the severance period;

- be subject to a limited non-compete clause for the term of the severance period; and

- be entitled to a gross-up for any excise taxes that may be levied on the separation payments, as well as any income or excise taxes levied on such gross-up payment.

All of our other executive officers are appointed annually and serve at the discretion of the Board.

Option Exchange Program

In January 2002, we implemented an Option Exchange Program to address the substantial loss in value of the outstanding stock options held by our employees and the inability of these options to provide a valuable incentive for employees to remain in our employ. Under the Option Exchange Program, we offered to exchange outstanding stock options to purchase shares of our Class B Common Stock held by eligible employees with a per share exercise price equal to or greater than \$13.00, for a replacement option covering the same number of shares, to be granted at least six months and one day following the date we cancelled the options accepted for exchange, referred to as the replacement grant date. The replacement options will have an exercise price equal to the market value of our Class B common stock on the replacement grant date. By making this offer to exchange options with an exercise price of \$13.00 or greater for replacement options that will have an exercise price equal to the market value of our Class B common stock on the replacement grant date, we intend to provide eligible employees with the benefit of owning options that may have a greater potential to increase in value over time, thereby creating better performance incentives for our employees.

On February 12, 2002, eligible employees in the Option Exchange Program tendered and we cancelled options to acquire 6,351,250 shares of Class B common stock (representing 99.2% of the options eligible for exchange). Accordingly, the Compensation Committee will grant 6,351,250 replacement options on a date specified that is within the 30-day period following August 14, 2002. The participants in the Option Exchange Program will receive no vesting credit with respect to the cancelled options. Regardless of the vesting schedule of the cancelled options, the replacement options will vest as to 20% of the replacement option shares on the six-month anniversary of the replacement grant date, and on each one-year anniversary of the replacement grant date, so that each replacement option will be fully vested on the fourth anniversary of the replacement grant date. All replacement options will be non-qualified options, irrespective of whether the cancelled options were incentive stock options or non-qualified stock options.

Eligible options granted under our 1999 Stock Option Plan and exchanged for new options will be replaced with options granted under our 1999 Stock Option Plan, and eligible options granted under our 2000 Omnibus Stock Plan and exchanged for new options will be replaced with options granted under our 2000 Omnibus Stock Plan. Each replacement option will be granted pursuant to a new option agreement between us and the employee. The replacement option will have substantially similar terms and conditions as the cancelled option, except for the exercise price, vesting schedule and classification of the options as non-qualified stock options.

Employees eligible to participate in the Option Exchange Program included employees residing in Australia, Belgium, France, Germany, Hong Kong, Italy, Luxembourg, Mexico, the Netherlands, Switzerland, the United Kingdom or the United States. The members of our Board of Directors, including Jose A. Collazo, our Chairman of the Board, Chief Executive Officer and President, were not eligible to participate in the Option Exchange Program.

Ten-Year Option Repricings

Except for this Option Exchange Program, we have not implemented any other option repricing or option cancellation/re-grant program. The following table sets forth certain information concerning participation by our Named Executive Officers in the Option Exchange Program.

COMPENSATION COMMITTEE REPORT ON EXECUTIVE COMPENSATION

Compensation Philosophy

Infonet's compensation philosophy is to relate the compensation of Infonet's executive officers to measures of Company performance that contribute to increased value for Infonet's stockholders. To assure that compensation policies are appropriately aligned with the value Infonet creates for stockholders, Infonet's compensation philosophy for executive officers takes into account the following goals:

enhancing stockholder value;

representing a competitive and performance-oriented environment that motivates executive officers to achieve a high level of individual, business unit and corporate results in the business environment in which they operate;

relating incentive-based compensation to the performance of each executive officer, as measured by financial and strategic performance goals; and

enabling Infonet to attract and retain top quality management.

The Compensation Committee of the Board, which we will refer to as the Compensation Committee, periodically reviews the components of compensation for Infonet's executive officers on the basis of this philosophy and periodically evaluates the competitiveness of its executive officer compensation program relative to comparable companies. When the Compensation Committee determines that executive officer compensation adjustments or incentive awards are necessary or appropriate, it makes such modifications as it deems appropriate.

Executive Compensation Components

The major components of compensation for executive officers, including our Chief Executive Officer (CEO), are base salary, cash incentive awards and stock option grants. Each component of the total executive officer compensation package emphasizes a different aspect of our compensation philosophy.

The Compensation Committee conducts annually a full review of Infonet's performance and its executive officers, including the CEO, in assessing compensation levels. The Compensation Committee considers various qualitative and quantitative indicators of both Infonet and the individual performance of its executive officers. This review evaluates Infonet's performance both on a short- and long-term basis. The Compensation Committee may consider quantitative measures such as revenue growth, growth in EBITDA, growth in operating and net income and other measures of profitability. The Compensation Committee may also consider qualitative measures such as leadership, experience, strategic direction and overall contribution to Infonet. In addition, the Compensation Committee evaluates compensation in light of the compensation practices of other companies in the telecommunications industry and peer group companies as may be determined by the Compensation Committee. These companies are used as a reference standard for establishing levels of base salary, incentive awards and stock options. For the fiscal year ended March 29, 2002 (Fiscal 2002), executive officer compensation was targeted to be approximately between the 50th and 75th percentile relative to peer group companies in the telecommunications industry.

Base Salary. Base salaries for executive officers, including the CEO, are initially set upon hiring based on recruiting requirements (i.e., market demand), competitive pay practices, individual experience and breadth of knowledge, internal equity considerations and other objective and subjective factors. Increases to base salary are determined by the Compensation Committee. Increases are determined primarily on an evaluation of competitive data, the individual's performance and contribution to Infonet, and Infonet's overall performance. Base salaries are periodically reviewed by the Compensation Committee.

Incentive Awards. Infonet relies to a large degree on incentive compensation to attract, retain and reward executives of outstanding abilities and to motivate them to perform to the full extent of their abilities. The Compensation Committee sets target awards for Messrs. Collazo, Firdosy and Galleberg, and the CEO approves target awards for our other executive officers, subject to review by the Compensation Committee. In each case, target awards are determined for each individual on the basis of a variety of factors, which may include competitive incentive award levels, level of responsibility, ability to influence financial results, strategic performance goals on a corporate or business unit level, stock price increases and, on occasion, subjective factors.

Stock Option Grants and Option Exchange Program. The only current long-term incentive opportunity for executive officers is the award of grants under the 1998 Stock Option Plan, 1999 Stock Option Plan, 2000 Omnibus Stock Plan and other stock plans that may be approved by the Board and the stockholders. In contrast to incentive awards that are paid for prior accomplishments, stock option grants represent incentives tied to future stock appreciation. They are intended to provide executive officers with a direct incentive to enhance stockholder value. Options generally vest over a four, five or six-year period with a maximum term of ten years. Option grants are awarded at the discretion of the Compensation Committee primarily based on an evaluation of competitive data and the anticipated contribution that the executive officer will make to Infonet.

Due to the substantial decline in our Class B common stock price, a significant number of the outstanding options held by Infonet's executive officers and other key employees had exercise prices significantly above current market prices for the Class B common stock. These options were originally issued to promote the Company's long-term growth and success and the creation of stockholder value by (i) encouraging employees to focus on critical long-range objectives; (ii) encouraging the attraction and retention of employees with exceptional qualifications; and (iii) linking employees' interests directly to those of stockholders through increased stock ownership. Since these options have exercise prices that are significantly higher than the current market price of Infonet's Class B common stock, the Compensation Committee believes that these options are unlikely to be exercised in the foreseeable future and therefore do not serve their original purpose.

To address the substantial loss in value of the outstanding stock options held by the Infonet's employees and the inability of these options to provide a valuable incentive to remain in Infonet's employ, Infonet implemented an Option Exchange Program in January 2002. Under the Option Exchange Program, Infonet offered to exchange outstanding stock options to purchase shares of its Class B common stock held by eligible employees with a per share exercise price of \$13.00 or greater, for replacement options covering the same number of shares, to be granted at least six months and one day following the date of cancellation of the options accepted for exchange. The replacement options will have an exercise price equal to the market value of the Class B common stock on the replacement grant date. On February 12, 2002, eligible employees in the Option Exchange Program tendered and we cancelled options to acquire 6,351,250 shares of Class B Common Stock (representing 99.2% of the options eligible for exchange). Accordingly, the Compensation Committee will grant 6,351,250 replacement options on a date specified that is within the 30-day period following August 14, 2002. All of Infonet's Named Executive Officers, excluding Jose A. Collazo, participated in the Option Exchange Program. Mr. Collazo, Infonet's Chairman of the Board, Chief Executive Officer and President, along with the other members of the Board of Directors, were not eligible to participate in the Option Exchange Program.

The Compensation Committee believes that this program was necessary because equity incentives in the form of stock option grants form a critical component of the compensation package provided to key employees of Infonet and play a substantial role in Infonet's ability to retain the services of individuals essential to its long-term success. The Compensation Committee felt that Infonet's ability to retain key employees would be significantly impaired unless option value was restored. By making the offer to exchange outstanding options for replacement options that will have an exercise price equal to the market value of Class B common stock on the replacement grant date, the Compensation Committee intended to provide eligible employees with the benefit of owning options that may have a greater potential to increase in value over time, thereby creating better performance incentives for its employees.

In order to assure that the Option Exchange Program serves the primary purposes of assuring the continued service of key employees and helping to create stockholder value, the Compensation Committee imposed several limitations. No employee is eligible to receive a replacement option unless that individual continues to be employed by Infonet through the replacement grant date. To assure that the replacement option will not be treated as a variable award for financial accounting purposes, which could otherwise have a negative impact upon the Company's earnings, no replacement option or other options will be granted within six months and one day after the cancellation of the option submitted for exchange. As a result, in order to receive the replacement option, the employee has to remain employed by Infonet until the replacement grant date, which cannot be before August 15, 2002. The participants in the Option Exchange Program will receive no vesting credit with respect to the cancelled options. Regardless of the vesting schedule of the cancelled options, the replacement options will vest as to 20% of the replacement option shares on the six-month anniversary of the replacement grant date, and on each one-year anniversary of the replacement grant date, so that the option will be fully vested on the fourth anniversary of the replacement grant date. Lastly, irrespective of whether the cancelled options were incentive stock options or non-qualified stock options, all replacement options will be non-qualified options, which provide certain tax advantages for the Company. As a result of the foregoing, the Compensation Committee believed that the Option Exchange Program struck an appropriate balance between the interests of the Company's employees and those of the stockholders.

Supplemental Executive Retirement Plan. Infonet has a Supplemental Executive Retirement Plan, or SERP, which is a non-qualified, non-contributory pension plan. The SERP is a defined benefit retirement plan for specified key executives and provides for benefits based on years of service, the age of the participant, and the participant's average compensation during his or her final period of employment under the SERP.

Supplemental Benefits Plan. Infonet has adopted a Senior Executive Supplemental Benefits Plan, or Supplemental Benefits Plan, which is a non-qualified, non-contributory pension plan. The Supplemental Benefits Plan provides for matching contributions on participants' contributions under the Infonet Deferred Income Plan. The Supplemental Benefits Plan also provides for benefits in excess of the benefits available to participants under the pension plan as a result of the limitations under Sections 401(a)(17) and 415 of the Internal Revenue Code. Finally, the Supplemental Benefits Plan provides for increased benefits calculated in the same manner as benefits payable under the SERP, or enhanced SERP benefits. The Compensation Committee believes that the Supplemental Benefits Plan is competitive with the compensation practices of other companies.

Section 162(m). Section 162(m) of the Internal Revenue Code of 1986 limits the deductibility of certain annual compensation payments in excess of \$1 million to a company's executive officers. It is the objective of the Compensation Committee to administer compensation plans in compliance with the provisions of Section 162(m) where feasible and where consistent with Infonet's compensation philosophy as stated above. Infonet already has in place stock incentive plans pursuant to which stock-based incentives may be awarded in compliance with Section 162(m). Infonet's annual incentive pay, however, does not qualify as performance-based compensation under Section 162(m).

2002 Executive Compensation Review

Based on the factors set forth above and an evaluation of market compensation data compiled by an executive compensation consultant engaged by the Compensation Committee, the Compensation Committee approved salary increases for certain executive officers and Fiscal 2002 incentive awards, as well as stock option grants for the CEO. No options were granted to any executives who participated in the Option Exchange Program. In determining salary increases and Fiscal 2002 incentive awards for Infonet's corporate officers, the Compensation Committee reviewed the performance of Infonet against its goals and the relative performance of Infonet as compared to peer group companies. The objective criteria reviewed by the Compensation Committee were revenue, EBITDA and quality of service. For purposes of determining Fiscal 2002 incentive awards, these criteria were weighted approximately 42.5%, 42.5% and 15%, respectively, for Infonet's corporate officers, including the CEO. Although Infonet's original goals set before the beginning of Fiscal 2002 were modified due

to the general downturn in the telecommunications sector and the modified goals were not completely met, the Compensation Committee, in its discretion, determined to pay partial amounts of incentive compensation in recognition of Infonet's partial achievement of its goals and Infonet's relatively good financial performance as compared to the financial performance of other peer group companies.

CERTAIN TRANSACTIONS

Stockholders Agreement

Immediately prior to the consummation of our initial public offering, we entered into a revised stockholders agreement with all of our Class A stockholders. We originally had entered into a stockholders agreement with our then-existing stockholders in 1988. The revised stockholders agreement provides that each Class A stockholder holding at least 14.95 million shares of our Class A common stock will have the right to designate one of our directors, and each Class A stockholder agreed to vote all of its shares of common stock in favor of the directors designated by the other Class A stockholders and for our president as a director. Accordingly, seven of the nine directors on our Board will be appointed by our Class A stockholders. Each Class A stockholder has a right of first refusal to acquire any Class A common stock proposed to be sold or otherwise transferred by another Class A stockholder. We have agreed in the stockholders agreement to include, at the request of any Class A stockholder, shares of that Class A stockholder in a registered offering of stock by us or another Class A stockholder, through provisions commonly referred to as piggyback registration rights. We have also agreed, subject to limitations, to undertake up to two registered offerings of Class B common shares upon demand by each Class A stockholder up to a maximum of two per year. At KPN Telecom B.V.'s request, we undertook, and subsequently terminated, a registration of their 54,386,078 shares of Class B common stock during the fiscal year ended March 29, 2002. Each Class A stockholder has agreed to maintain a country representative to support our marketing efforts and our clients in that stockholder's home country.

Commercial Contracts with Related Parties

Some of our country representatives are related parties where either (1) we hold a more than twenty but less than fifty percent ownership interest in the country representative or (2) a country representative is owned, directly or indirectly, by one of our stockholders. In each such case, our agreement with the related party acting as our country representative is our standard service agreement. Each service agreement has a term of up to five years, and gives the country representative the right to sell our services and use our trademarks, marketing and operating documentation and our training materials and services. In the agreements, we receive the right to set revenue targets, terminate the agreement if the revenue targets are not met, jointly determine staffing of the country office with the country representative and appoint members of the country representative's advisory review board. The agreements outline monthly fees the country representatives pay us for access to our network and the fees we pay the country representatives for the service and customer support they provide. Additionally, we have alternate sales channel agreements with some of our stockholders that allow these stockholders to resell our services under their brand names or to package them with other services they provide to their customers. These alternate sales channel agreements are generally under the same terms as alternate sales channel agreements we enter into with other communications providers. For the fiscal year ended March 29, 2002, \$277.5 million of revenues were generated by all of these related parties and \$206.3 million was payable to related parties acting as our country representatives.

From time to time we have granted options to acquire Class B common shares to employees of our country representatives under our stock option plans, and we may continue to do so in the future.

From time to time we lease or purchase transmission capacity from our stockholders where they are existing local carriers. These leases are short term and at tariff rates in regulated markets and at standard market rates in unregulated markets.

Recent Contracts with our Stockholders

In our ongoing efforts to sell our services to multinational corporations, on September 30, 1999, we entered into agreements with AUCS Communications Services N.V., Unisource, then the owner of AUCS (Unisource has since been liquidated), and the three companies that own AUCS, which are KPN, Swisscom and Telia, three of our major stockholders. See [Principal and Management Stockholders](#).

Our agreements with KPN, Swisscom and Telia have given us access to multinational corporate clients previously served by AUCS. We have assumed the obligation to provide AUCS' multinational clients with the services previously provided to them by AUCS under the terms of an agreement that assigns existing distribution agreements to us. We also intend to provide some of these multinational clients with our services as a supplement or replacement for services previously provided by AUCS. We will continue to use the AUCS platform through October 1, 2002 to deliver all or some of the services provided to the multinational clients, which for convenience we refer to as the AUCS services.

We obtain the AUCS services provided to the multinational clients under the terms of a services agreement with AUCS, which is based on our standard services agreement. The pricing of the AUCS services provides us with an agreed-upon gross margin of approximately 20% on the provision of these services. The services agreement terminates October 1, 2002. For the fiscal year ended March 29, 2002, we generated \$146 million of total revenues and \$114 million of costs from the AUCS agreement.

Under the terms of a three-year management agreement between ourselves and AUCS, that expires October 1, 2002, we have been charged with, among other things, acting as a manager of AUCS and seeking to reduce AUCS' expenses over time. For the fiscal year ended March 29, 2002, we generated \$4 million of fees.

We expect many of the clients on the AUCS platform that ultimately transition to the Infonet platform to transition during September or October, 2002. We cannot estimate the number of clients using the AUCS platform that ultimately will transition to the Infonet platform. Revenue from these clients that transition to the Infonet platform will be recorded after the transition in the appropriate product-based category.

We also entered into a call option for the underlying tangible assets of AUCS. The option allows us to purchase prior to September 30, 2002, any and all of the AUCS tangible assets at fair market value not to exceed \$130 million. The call right allows us to purchase the assets of AUCS so that we can continue to offer the AUCS services to our clients if the services agreement is terminated. The call option may be subject to regulatory approval and is conditioned upon AUCS' ability to continue to fulfill its contractual obligations to third parties.

Prior to October 1, 2002, we expect to enter into a termination agreement to memorialize the termination of the management agreement, the services agreement and the call option deed. That termination agreement, if entered into, may provide for (i) the purchase of certain assets by us from AUCS, (ii) the provision of certain services by us to AUCS and by AUCS to us for a limited period of time after October 1, 2002 in order to ensure a smooth transition after the management agreement terminates and (iii) an agreed amount for an incentive payment to be made to us under the management agreement. At this time, although we expect to begin discussions regarding the termination agreement soon, we do not have any understanding with the other parties on the terms of any such agreement, including an estimate of the amount of any incentive payment that may be made to us under the terms of the management agreement.

Mr. de Jong, a current director and nominee for reelection to our Board, was a member of the Supervisory Board of AUCS during this period.

Loans to our Senior Management

During the fiscal year ended April 2, 1999, several members of our management team borrowed the purchase price for their stock pursuant to terms of our 1998 Stock Purchase Plan. Persons borrowing from us entered into loan, pledge and security agreements. Those agreements were amended as of December 31, 2001 to extend the due date from January 1, 2002 to November 30, 2004. Each loan is full recourse to, and secured by certain personal assets of, the borrower, and is at an annual interest rate of five percent. The amounts loaned to each executive officer during the fiscal year ended April 2, 1999 were: José A. Collazo, \$3,325,000; Akbar H. Firdosy, \$450,000; John C. Hoffman, \$750,000; Michael J. Timmins, \$750,000; Thomas E. Whidden, \$475,000; and John M. Williams, \$75,000. Each executive officer made payments to us on these loans during Fiscal 2002, and the principal and accrued interest on these loans as of June 28, 2002 was: José A. Collazo, \$3,843,800; Akbar H. Firdosy, \$514,200; John C. Hoffman, \$868,800; Michael J. Timmins, \$858,700; and Thomas E. Whidden, \$503,100. Mr. Williams repaid his loan in full on May 16, 2002.

During the fiscal year ended March 30, 2001, certain executive officers borrowed funds in connection with the replacement by the executive officer of certain loans previously made by third parties, as follows: Michael J. Timmins, \$523,900 and Thomas E. Whidden, \$843,000. Each loan is at an annual interest rate of LIBOR plus 75 basis points (2.63% on June 28, 2002), is payable on demand and is secured by Class B common shares held by the executive officer. The principal and accrued interest on Mr. Whidden's loan as of June 28, 2002 was \$908,117. Mr. Timmins repaid his loan in full in the amount of \$536,500 on April 5, 2001.

During the fiscal year ended 1997, we loaned \$100,000 to John C. Hoffman in connection with Mr. Hoffman's purchase of a club membership which he uses for business-related facilities and entertainment. The loan is non-interest bearing, is payable on demand and is secured by some of Mr. Hoffman's assets. The principal and accrued interest on this loan as of June 28, 2002 was \$100,000.

Performance Graph

As a part of the rules of the Securities and Exchange Commission, or the Commission, concerning executive compensation disclosure, we are obligated to provide a chart comparing the yearly percentage change in the cumulative total stockholder return on our Class B common shares over a five year period. However, since our Class B common shares have been publicly traded only since December 16, 1999, this information is provided from that date through March 29, 2002.

The following line graph compares the change in our cumulative stockholder return on our Class B common shares to the cumulative total return of the Standard & Poor's 500 Stock Index (S&P 500 Index) and Equant N.V., our most comparable peer issuer, from December 16, 1999, the effective date of our initial public offering, to March 29, 2002. The graph assumes the investment of \$100 in Infonet and each of the S&P 500 Index and Equant on December 16, 1999 and as required by the Commission, the reinvestment of all distributions. The return shown on the graph is not necessarily indicative of future performance.

SECTION 16(a) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

Section 16(a) of the Securities Exchange Act of 1934, as amended, requires our officers and directors, and persons who own more than ten percent of a registered class of our equity securities (collectively, *Insiders*), to file with the Securities and Exchange Commission initial reports of ownership and reports of changes in ownership of our Common Shares and other equity securities of Infonet. Insiders are required by regulation of the Commission to furnish us with copies of all Section 16(a) forms they file.

To our knowledge, based solely on review of the copies of such reports furnished to us or written representations that no other reports were required, during the fiscal year ended March 29, 2002, all Insiders complied with all Section 16(a) filing requirements applicable to them except that (i) Messrs. Sweers, Santero, and Quadri each failed to timely file a Form 3 and (ii) Mr. Hoffman failed to timely file a Form 4 reporting one transaction.

PROPOSAL 2: RATIFICATION OF APPOINTMENT OF INDEPENDENT AUDITOR

Subject to stockholder ratification, the Board, acting upon the recommendation of the Audit and Finance Committee, has reappointed the firm of Deloitte & Touche LLP, certified public accountants, as its independent auditor to examine the financial statements of Infonet for the fiscal year ending March 28, 2003. We are asking our stockholders to ratify this selection. The Board has been advised that Deloitte & Touche LLP is independent with regard to Infonet within the meaning of the Securities Act of 1933, as amended, and the applicable published rules and regulations thereunder. Infonet will continue to reserve the right to change its independent auditor if deemed appropriate.

Vote Required and Board Recommendation

The affirmative vote of a majority of the shares represented and entitled to vote at the Annual Meeting is required for ratification of the appointment of Deloitte & Touche LLP as the Company's independent auditor for the fiscal year ending March 28, 2003. Broker non-votes as to the ratification of the appointment of Deloitte & Touche LLP as the Company's independent auditor will not be treated as shares entitled to vote with respect to ratification and, thus, will not affect the vote on ratification. Abstentions, however, will have the same effect as votes against the proposal. Unless instructed to the contrary, the shares represented by the proxies will be voted **FOR** ratification of the appointment of Deloitte & Touche LLP as the Company's independent auditor.

The Board unanimously recommends a vote FOR ratification of the appointment of Deloitte & Touche LLP as the Company's independent auditor for the fiscal year ending March 28, 2003.

One or more representatives of Deloitte & Touche LLP are expected to be at the Annual Meeting. They will have an opportunity to make a statement and will be available to respond to appropriate questions.

19. Management shall furnish to the Committee a copy of each audit report prepared by the senior internal audit manager of the Company.

20. The Committee shall, at its discretion, meet with the senior internal audit manager to discuss any reports prepared by him or her or any other matters brought to the attention of the Committee by the senior internal auditor manager.

21. The senior internal audit manager shall be granted unfettered access to the Committee.

Other Responsibilities

23. Beginning in the year 2001, the Committee shall provide the report for inclusion in the Company's Annual Proxy Statement required by Item 306 of Regulation S-K of the Securities and Exchange Commission.

24. The Committee, through its Chair, shall report periodically, as deemed necessary or desirable by the Committee, but at least annually, to the full Board regarding the Committee's actions and recommendations, if any.

This charter governs the operations of the Audit and Finance Committee and it was approved by the board of directors as of June 8, 2000. The Audit and Finance Committee will review and reassess the charter at least annually.
