Yes No

The Company anticipates net income of \$34.4 million, or \$0.27 per share for the three months ended March 31, 2015 compared to net income of \$60.5 million, or \$0.43 per share, for the three months ended March 31, 2014. The Company expects revenue of \$510.4 million for the three months ended March 31, 2015, a decrease of 7% compared to the three months ended March 31, 2014.

The Company anticipates that its pre-tax income during the first quarter of 2015 was impacted by the following significant items: a \$26.9 million gain from the sale of Freddie Mac performing loan mortgage servicing rights (MSRs) with an unpaid principal balance (UPB) of approximately \$9.1 billion, a \$12.9 million gain on the sale of certain legacy performing and non-performing whole loans, a \$(17.8) million impairment charge due to a decline in the fair value of the Company's government insured MSRs primarily resulting from the Federal Housing Administration (FHA) reducing the mortgage insurance premium rate by 50 bps during the quarter, \$(9.0) million of monitor costs, \$(8.4) million of strategic advisor expenses and \$(8.3) million of fair value related changes. The Lending segment generated \$16.0 million of pre-tax income during the quarter.

The financial results and other financial data presented above are preliminary, based upon the Company's estimates and subject to completion of the Company's final financial closing procedures. Moreover, this data has been prepared on the basis of currently available information. The Company's independent auditor has not audited or reviewed, and does not express an opinion with respect to, this data. This data does not constitute a comprehensive statement of the Company's financial results for the quarter ended March 31, 2015 or of its financial position for any period, and the Company's final data could differ materially from its preliminary data.
