SECURITIES AND EXCHANGE COMMISSION
WASHINGTON, D.C. 20549

FORM 10-Q

(Mark One)

x QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended March 31, 2018
or

o TRANSITION REPORT PURSUANT TO SECTION 13 OR 15 (d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from ______________________________ to ______________________________

Commission File Number: 0-31525

AMERICAN RIVER BANKSHARES

(Exact name of registrant as specified in its charter)

California	68-0352144
(State or other jurisdiction of incorporation or organization)	(I.R.S. Employer Identification No.)
3100 Zinfandel Drive, Suite 450, Rancho Cordova, California	95670
(Address of principal executive offices)	(Zip Code)

(916) 851-0123
(Registrant's telephone number, including area code)

Not Applicable
(Former name, former address and former fiscal year, if changed since last report.)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.

Yes x No o

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files).

Yes x No o

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company, or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company," and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer o　　Accelerated filer x

Non-accelerated filer o (Do not check if a smaller reporting company)

Smaller reporting company o

Emerging growth company o

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act. o

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).

Yes o No x

Indicate the number of shares outstanding of each of the issuer's classes of common stock, as of the latest practicable date:

No par value Common Stock – 5,884,855 shares outstanding at May 3, 2018

AMERICAN RIVER BANKSHARES

NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS

March 31, 2018

1. CONSOLIDATED FINANCIAL STATEMENTS

In the opinion of management, the unaudited consolidated financial statements contain all adjustments (consisting of only normal recurring adjustments) necessary to present fairly the consolidated financial position of American River Bankshares (the "Company") at March 31, 2018 and December 31, 2017, the results of its operations and statement of comprehensive income for the three month periods ended March 31, 2018 and 2017, its cash flows for the three-month periods ended March 31, 2018 and 2017 and its statement of changes in shareholders' equity for the three months ended March 31, 2018 and 2017 in conformity with accounting principles generally accepted in the United States of America.

Certain disclosures normally presented in the notes to the annual consolidated financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been omitted. The Company believes that the disclosures are adequate to make the information not misleading. These interim consolidated financial statements should be read in conjunction with the consolidated financial statements and notes thereto included in the Company's annual report on Form 10-K for the year ended December 31, 2017. The results of operations for the three-month period ended March 31, 2018 may not necessarily be indicative of the operating results for the full year.

In preparing such financial statements, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities as of the date of the balance sheet and revenues and expenses for the period. Actual results could differ significantly from those estimates.

Management has determined that since all of the banking products and services offered by the Company are available in each branch office of American River Bank, all branch offices are located within the same economic environment and management does not allocate resources based on the performance of different lending or transaction activities, it is appropriate to aggregate all of the branch offices and report them as a single operating segment. No client accounts for more than ten percent (10%) of revenues for the Company or American River Bank.

Adoption of New Accounting Standard: On January 1, 2018, the Company adopted ASU 2014-09 "*Revenue from Contracts with Customers*" and all subsequent amendments to the ASU (collectively, "ASC 606"), which (i) creates a single framework for recognizing revenue from contracts with customers that fall within its scope and (ii) revises when it is appropriate to recognize a gain (loss) from the transfer of nonfinancial assets, such as Other Real Estate

Owned ("OREO"). The majority of the Company's revenues come from interest income and other sources, including loans, leases, and securities that are outside the scope of ASC 606. The Company's services that fall within the scope of ASC 606 are presented within Non-Interest Income and are recognized as revenue as the Company satisfies its obligation to the customer. Services within the scope of ASC 606 include deposit service charges on deposits, interchange income, and the sale of OREO. Refer to Note 13 "*Revenue from Contracts with Customers*" for further discussion on the Company's accounting policies for revenue sources within the scope of ASC 606.

2. STOCK-BASED COMPENSATION

Equity Plans

On March 17, 2010, the Board of Directors adopted the 2010 Equity Incentive Plan (the "2010 Plan"). The 2010 Plan was approved by the Company's shareholders on May 20, 2010. In 2000, the Board of Directors adopted and the Company's shareholders approved a stock option plan (the "2000 Plan"), under which 22,022 stock options remain outstanding at March 31, 2018. At March 31, 2018, there were 33,300 stock options and 41,080 restricted shares outstanding and the total number of authorized shares that remain available for issuance under the 2010 Plan was 1,303,420. The 2010 Plan provides for the following types of stock-based awards: incentive stock options; nonqualified stock options; stock appreciation rights; restricted stock; restricted performance stock; unrestricted Company stock; and performance units. Awards under the 2000 Plan were either incentive stock options or nonqualified stock options. Under the 2010 Plan, the awards may be granted to employees and directors under incentive and nonqualified option agreements, restricted stock agreements, and other awards agreements. The 2010 Plan and the 2000 Plan (collectively the "Plans") require that the option price may not be less than the fair market value of the stock at the date the option is awarded. The option awards under the Plans expire on dates determined by the Board of Directors, but not later than ten years from the date of award. The vesting period is generally five years; however, the vesting period can be modified at the discretion of the Company's Board of Directors. Outstanding option awards under the Plans are exercisable until their expiration, however, no new options will be awarded under the 2000 Plan. New shares are issued upon exercise of an option.

The award date fair value of awards is determined by the market price of the Company's common stock on the date of award and is recognized ratably as compensation expense or director expense over the vesting periods. The shares of common stock awarded pursuant to such agreements vest in increments over one to five years from the date of award. The shares awarded to employees and directors under the restricted stock agreements vest on the applicable vesting dates only to the extent the recipient of the shares is then an employee or a director of the Company or one of its subsidiaries, and each recipient will forfeit all of the shares that have not vested on the date his or her employment or service is terminated.

Equity Compensation

For the three-month periods ended March 31, 2018 and 2017, the compensation cost recognized for equity compensation was $72,000 and $102,000, respectively. The recognized tax benefit for equity compensation expense was $18,000 and $37,000, for the three-month periods ended March 31, 2018 and 2017, respectively.

At March 31, 2018, the total compensation cost related to nonvested stock option awards not yet recorded is $53,000. This amount will be recognized over the next 2.5 years and the weighted average period of recognizing these costs is expected to be 0.8 years. At March 31, 2018, the total compensation cost related to restricted stock awards not yet recorded is $421,000. This amount will be recognized over the next 4.2 years and the weighted average period of recognizing these costs is expected to be 1.2 years.

Equity Plans Activity

Stock Options

There were no stock options awarded during the three-month periods ended March 31, 2018 and 2017. A summary of option activity under the Plans as of March 31, 2018 and changes during the period then ended is presented below:

Options	Shares	Weighted Average Exercise Price	Weighted Average Remaining Contractual Term	Aggregate Intrinsic Value ($000)
Outstanding at January 1, 2018	97,543	$ 11.26	3.1 years	$ 419
Granted	—	—	—	—
Exercised	7,086	9.19	—	—
Expired, forfeited or cancelled	35,135	15.67	—	—
Outstanding at March 31, 2018	55,322	$ 8.72	2.0 years	$ 375
Vested at March 31, 2018	43,276	$ 8.57	1.8 years	$ 300
Non-vested at March 31, 2018	12,046	$ 9.24	2.9 years	$ 75

Restricted Stock

There were 11,599 shares of restricted stock awarded during the three-month period ended March 31, 2018 and 15,033 shares of restricted stock awarded during the three-month period ended March 31, 2017. There were 14,917 and zero restricted stock awards that were fully vested during the three-month periods ended March 31, 2018 and 2017,

respectively. The intrinsic value of nonvested restricted stock at March 31, 2018 was $637,000.

Restricted Stock	Shares	Weighted Average Grant Date Fair Value
Nonvested at January 1, 2018	49,053	$ 12.27
Awarded	11,599	15.30
Less: Vested	14,917	9.41
Less: Expired, forfeited or cancelled	4,655	13.69
Nonvested at March 31, 2018	41,080	$ 10.66

Other Equity Awards

There were no stock appreciation rights; restricted performance stock; unrestricted Company stock; or performance units awarded during the three-month periods ended March 31, 2018 or 2017 or outstanding at March 31, 2018 or December 31, 2017.

The intrinsic value used for stock options and restricted stock was derived from the market price of the Company's common stock of $15.51 as of March 31, 2018.

3. COMMITMENTS AND CONTINGENCIES

In the normal course of business there are outstanding various commitments to extend credit which are not reflected in the financial statements, including loan commitments of approximately $8,089,000 and standby letters of credit of approximately $121,000 at March 31, 2018 and loan commitments of approximately $10,923,000 and standby letters of credit of approximately $121,000 at December 31, 2017. Such commitments relate primarily to real estate construction loans, revolving lines of credit and other commercial loans. However, all such commitments will not necessarily culminate in actual extensions of credit by the Company during 2018 as some of these are expected to expire without being fully drawn upon.

Standby letters of credit are commitments issued to guarantee the performance or financial obligation of a client to a third party. These guarantees are issued primarily relating to purchases of inventory, insurance programs, performance obligations to government agencies, or as security for real estate rents by commercial clients and are typically short-term in nature. Credit risk is similar to that involved in extending loan commitments to clients and accordingly, evaluation and collateral requirements similar to those for loan commitments are used. The majority of all such commitments are collateralized. The fair value of the liability related to these standby letters of credit, which represents the fees received for issuing the guarantees, was not significant at March 31, 2018 or December 31, 2017.

4. EARNINGS PER SHARE COMPUTATION

Basic earnings per share is computed by dividing net income by the weighted average common shares outstanding for the period (5,996,146 shares and 6,564,281 shares for the three-month periods ended March 31, 2018 and 2017, respectively). Diluted earnings per share reflect the potential dilution that could occur if securities or other contracts to issue common stock, such as stock options or restricted stock, result in the issuance of common stock. Diluted earnings per share is computed by dividing net income by the weighted average common shares outstanding for the period plus the dilutive effect of stock based awards (36,641 shares for the three-month period ended March 31, 2018 and 76,311 shares for the three-month period ended March 31, 2017). For the three-month periods ended March 31, 2018 and 2017, there were zero and 38,018 stock options, respectively, that were excluded from the calculation as they were considered antidilutive. Earnings per share is retroactively adjusted for stock dividends and stock splits, if applicable, for all periods presented.

5. INVESTMENT SECURITIES

The amortized cost and estimated fair values of investment securities at March 31, 2018 and December 31, 2017 consisted of the following (dollars in thousands):

Available-for-Sale

	March 31, 2018			
	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Estimated Fair Value
Debt securities:				
US Government Agencies and Sponsored Agencies	$259,125	$ 819	$ (4,116)	$255,828
Obligations of states and political subdivisions	22,945	316	(303)	22,958
Corporate bonds	6,491	120	(62)	6,549
US Treasury securities	2,986	—	(1)	2,985
	$291,547	$ 1,255	$ (4,482)	$288,320

	December 31, 2017			
	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Estimated Fair Value
Debt securities:				
US Government Agencies and Sponsored Agencies	$233,956	$ 1,184	$ (2,271)	$232,869
Obligations of states and political subdivisions	22,281	528	(94)	22,715
Corporate bonds	6,490	160	(24)	6,626
Equity securities:				
Corporate stock	51	61	—	112
	$262,778	$ 1,933	$ (2,389)	$262,322

Net unrealized losses on available-for-sale investment securities totaling $3,227,000 were recorded, net of $998,000 in tax assets, as accumulated other comprehensive loss within shareholders’ equity at March 31, 2018. Proceeds and gross realized gains from the sale and call of available-for-sale investment securities for the three-month period ended March 31, 2018 totaled $500,000 and $1,000, respectively. There were no transfers of available-for-sale investment securities for the three-month period ended March 31, 2018.

Net unrealized gains on available-for-sale investment securities totaling $1,321,000 were recorded, net of $528,000 in tax liabilities, as accumulated other comprehensive income within shareholders’ equity at March 31, 2017. Proceeds and gross realized gains from the sale and call of available-for-sale investment securities for the three-month period ended March 31, 2017 totaled $8,472,000 and $56,000, respectively. There were no transfers of available-for-sale investment securities for the three-month period ended March 31, 2017.

Held-to-Maturity

March 31, 2018

	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Estimated Fair Value
Debt securities:				
US Government Agencies and Sponsored Agencies	$ 357	$ 23	$ —	$ 380

December 31, 2017

	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Estimated Fair Value
Debt securities:				
US Government Agencies and Sponsored Agencies	$ 378	$ 26	$ —	$ 404

There were no sales or transfers of held-to-maturity investment securities for the periods ended March 31, 2018 and March 31, 2017. Investment securities with unrealized losses at March 31, 2018 and December 31, 2017 are summarized and classified according to the duration of the loss period as follows (dollars in thousands):

March 31, 2018	Less than 12 Months		12 Months or More		Total	
	Fair Value	Unrealized Losses	Fair Value	Unrealized Losses	Fair Value	Unrealized Losses
Available-for-Sale						
Debt securities:						
US Treasury securities	$2,985	$ (1)	$—	$ —	$2,985	$ (1)
US Government Agencies and Sponsored Agencies	151,042	(2,620)	46,871	(1,496)	197,913	(4,116)
Obligations of states and political subdivisions	1,560	(97)	4,508	(206)	6,068	(303)
Corporate bonds	2,429	(62)	—	—	2,429	(62)
	$158,016	$ (2,780)	$51,379	$ (1,702)	$209,395	$ (4,482)

December 31, 2017	Less than 12 Months		12 Months or More		Total	
	Fair Value	Unrealized Losses	Fair Value	Unrealized Losses	Fair Value	Unrealized Losses
Available-for-Sale						
Debt securities:						
US Government Agencies and Sponsored Agencies	$119,455	$ (1,148)	$49,258	$ (1,123)	$168,713	$ (2,271)
Obligations of states and political subdivisions	1,130	(9)	4,654	(85)	5,784	(94)
Corporate bonds	1,967	(24)	—	—	1,967	(24)
	$122,552	$ (1,181)	$53,912	$ (1,208)	$176,464	$ (2,389)

There were no held-to-maturity investment securities with unrealized losses as of March 31, 2018 or December 31, 2017.

At March 31, 2018, the Company held 229 securities of which 91 were in a loss position for less than twelve months and 35 were in a loss position for twelve months or more. Of the 35 securities in a loss position for greater than twelve months at March 31, 2018, four were municipal securities and 31 were US Government Agencies and Sponsored Agencies securities. At December 31, 2017, the Company held 217 securities of which 64 were in a loss position for less than twelve months and 35 were in a loss position for twelve months or more. Of the 35 securities in a loss position for greater than twelve months at December 31, 2017, four were municipal securities and 31 were US Government Agencies and Sponsored Agencies securities.

The unrealized loss on the Company's investment securities is primarily driven by interest rates. Because the decline in market value is attributable to a change in interest rates and not credit quality, and because the Company has the ability and intent to hold these investments until recovery of fair value, which may be until maturity, management does not consider these investments to be other-than-temporarily impaired.

The amortized cost and estimated fair values of investment securities at March 31, 2018 by contractual maturity are shown below (dollars in thousands).

	Available-for-Sale		Held-to-Maturity	
	Amortized Cost	Estimated Fair Value	Amortized Cost	Estimated Fair Value
Within one year	$2,986	$2,985		
After one year through five years	5,752	5,741		
After five years through ten years	18,253	18,407		
After ten years	5,431	5,359		
	32,422	32,492		
Investment securities not due at a single maturity date:				
US Government Agencies and Sponsored Agencies	259,125	255,828	$ 357	$ 380
	$291,547	$288,320	$ 357	$ 380

Expected maturities will differ from contractual maturities because the issuers of the securities may have the right to call or prepay obligations with or without call or prepayment penalties.

6. IMPAIRED AND NONPERFORMING LOANS AND LEASES AND OTHER REAL ESTATE OWNED

At March 31, 2018 and December 31, 2017, the recorded investment in nonperforming loans and leases was approximately $1,855,000 and $1,892,000, respectively. Nonperforming loans and leases include all such loans and leases that are either placed on nonaccrual status or are 90 days past due as to principal or interest but still accrue interest because such loans are well-secured and in the process of collection. The Company considers a loan to be impaired when, based on current information and events, it is probable that it will be unable to collect all amounts due (principal and interest) according to the contractual terms of the original loan agreement. At March 31, 2018, the recorded investment in loans and leases that were considered to be impaired totaled $12,465,000. Of the total impaired loans of $12,465,000, loans totaling $5,974,000 were deemed to require no specific reserve and loans totaling $6,491,000 were deemed to require a related valuation allowance of $524,000. At December 31, 2017, the recorded investment in loans and leases that were considered to be impaired totaled $13,757,000 and had a related valuation allowance of $355,000.

At March 31, 2018 and December 31, 2017, the recorded investment in other real estate owned (“OREO”) was $961,000. During the first quarter of 2018, the Company did not add any new or sell or impair any of the OREO properties. The March 31, 2018 and December 31, 2017 OREO balance of $961,000 consisted of one commercial land property.

Nonperforming loans and leases and other assets and OREO at March 31, 2018 and December 31, 2017 are summarized as follows (in thousands):

	March 31, 2018		December 31, 2017	
Nonaccrual loans and leases that are current to terms (less than 30 days past due)	$ 1,562		$ 1,603	
Nonaccrual loans and leases that are past due	293		289	
Loans and leases past due 90 days and accruing interest	—		—	
Other real estate owned	961		961	
Total nonperforming assets	$ 2,816		$ 2,853	
Nonperforming loans and leases to total loans and leases	0.61	%	0.60	%
Total nonperforming assets to total assets	0.41	%	0.44	%

Impaired loans and leases as of and for the periods ended March 31, 2018 and December 31, 2017 are summarized as follows:

(in thousands)	As of March 31, 2018			As of December 31, 2017		
	Recorded Investment	Unpaid Principal Balance	Related Allowance	Recorded Investment	Unpaid Principal Balance	Related Allowance
With no related allowance recorded:

7. TROUBLED DEBT RESTRUCTURINGS

During the periods ended March 31, 2018 and 2017, there were no loans that were modified as troubled debt restructurings.

There were no payment defaults during the three months ended March 31, 2018 or March 31, 2017 on troubled debt restructurings made in the preceding twelve months. At March 31, 2018 and December 31, 2017, there were no unfunded commitments on those loans considered troubled debt restructures. See also “Impaired Loans and Leases” in Item 2.

8. ALLOWANCE FOR LOAN AND LEASE LOSSES

The Company’s loan and lease portfolio allocated by management’s internal risk ratings as of March 31, 2018 and December 31, 2017 are summarized below:

March 31, 2018	Credit Risk Profile by Internally Assigned Grade

9. BORROWING ARRANGEMENTS

At March 31, 2018, the Company had $17,000,000 of unsecured short-term borrowing arrangements with two of its correspondent banks. There were no advances under the borrowing arrangements as of March 31, 2018 or December 31, 2017.

The Company has a line of credit available with the Federal Home Loan Bank of San Francisco (the “FHLB”) which is secured by pledged mortgage loans and investment securities. Borrowings may include overnight advances as well as loans with terms of up to thirty years. Advances (both short-term and long-term) totaling $15,500,000 were outstanding from the FHLB at March 31, 2018, bearing interest rates ranging from 1.18% to 1.90% and maturing between July 20, 2018 and April 12, 2021. Advances totaling $15,500,000 were outstanding from the FHLB at December 31, 2017, bearing interest rates ranging from 1.18% to 1.90% and maturing between July 20, 2018 and April 12, 2021. Remaining amounts available under the borrowing arrangement with the FHLB at March 31, 2018 and December 31, 2017 totaled $116,757,000 and $117,546,000, respectively. In addition, the Company has a secured borrowing agreement with the Federal Reserve Bank of San Francisco. The borrowing can be secured by pledging selected loans and investment securities. Borrowings generally are short-term including overnight advances as well as loans with terms up to ninety days. Amounts available under this borrowing arrangement at March 31, 2018 and December 31, 2017 were $8,318,000 and $9,085,000, respectively. There were no advances outstanding under this borrowing arrangement as of March 31, 2018 and December 31, 2017.

10. INCOME TAXES

The Company files its income taxes on a consolidated basis with its subsidiaries. The allocation of income tax expense (benefit) represents each entity’s proportionate share of the consolidated provision for (benefit from) income taxes.

The Company accounts for income taxes using the balance sheet method, under which deferred tax assets and liabilities are recognized for the tax consequences of temporary differences between the reported amounts of assets and liabilities and their respective tax basis. Deferred tax assets and liabilities are adjusted for the effects of changes in tax laws and rates on the date of enactment. On the consolidated balance sheet, net deferred tax assets are included in accrued interest receivable and other assets.

The benefit of a tax position is recognized in the financial statements in the period during which, based on all available evidence, management believes it is more likely than not that the position will be sustained upon examination, including the resolution of appeals or litigation processes, if any. Tax positions that meet the more-likely-than-not recognition threshold are measured as the largest amount of tax benefit that is more than 50 percent likely of being realized upon settlement with the applicable taxing authority. The portion of the benefits associated with tax positions taken that exceeds the amount measured as described above, if applicable, is reflected as a liability for unrecognized tax benefits in the accompanying balance sheet along with any associated interest and penalties that would be payable to the taxing authorities upon examination. The Company recognizes accrued interest and penalties related to unrecognized tax benefits, if applicable, as a component of interest expense in the consolidated statement of income. There have been no unrecognized tax benefits or accrued interest and penalties for the three-month periods ended March 31, 2018 and 2017.

20

11. FAIR VALUE MEASUREMENTS

The following tables present information about the Company's assets and liabilities measured at fair value on a recurring and nonrecurring basis as of March 31, 2018 and December 31, 2017. They indicate the fair value hierarchy of the valuation techniques utilized by the Company to determine such fair value. In general, fair values determined by Level 1 inputs utilize quoted prices (unadjusted) in active markets for identical assets or liabilities that the Company has the ability to access. Fair values determined by Level 2 inputs utilize inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. Level 2 inputs include quoted prices for similar assets and liabilities in active markets, and inputs other than quoted prices that are observable for the asset or liability, such as interest rates and yield curves that are observable at commonly quoted intervals. Level 3 inputs are unobservable inputs for the asset or liability, and include situations where there is little, if any, market activity for the asset or liability. In 2018, the Company adopted the provisions of Accounting Standard Update 2016-01 "*Recognition and Measurement of Financial Assets and Financial Liabilities*" ("ASU 2016-01"). ASU 2016-01 requires the Company to use the exit price notion when measuring the fair value of financial instruments. The Company used the exit price notion for valuing financial instruments in 2018 and the entry price notion for valuing financial instruments in 2017. In certain cases, the inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, the level in the fair value hierarchy within which the fair value measurement in its entirety falls has been determined based on the lowest level input that is significant to the fair value measurement in its entirety. The Company's assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment and considers factors specific to the asset or liability.

Estimated fair values are disclosed for financial instruments for which it is practicable to estimate fair value. These estimates are made at a specific point in time based on relevant market data and information about the financial instruments. These estimates do not reflect any premium or discount that could result from offering the Company's entire holdings of a particular financial instrument for sale at one time, nor do they attempt to estimate the value of anticipated future business related to the instruments. In addition, the tax ramifications related to the realization of unrealized gains and losses can have a significant effect on fair value estimates and have not been considered in any of these estimates.

The carrying amounts and estimated fair values of the Company's financial instruments are as follows (dollars in thousands):

	Carrying	Fair Value Measurements Using:			
March 31, 2018	Amount	Level 1	Level 2	Level 3	Total

Accrued interest payable	65	4	61	—	65

Because no market exists for a significant portion of the Company's financial instruments, fair value estimates are based on judgments regarding current economic conditions, risk characteristics of various financial instruments and other factors. These estimates are subjective in nature and involve uncertainties and matters of significant judgment and therefore cannot be determined with precision. Changes in assumptions could significantly affect the fair values presented.

The following methods and assumptions were used by the Company to estimate the fair values of its financial instruments at December 31, 2017:

Cash and due from banks: The carrying amounts of cash and short-term instruments, including Federal funds sold, approximate fair values and are classified as Level 1.

Interest-bearing deposits in banks: The fair values of interest-bearing deposits in banks are estimated by discounting their future cash flows using rates at each reporting date for instruments with similar remaining maturities offered by comparable financial institutions and are classified as Level 2.

Investment securities: For investment securities, fair values are based on quoted market prices, where available, and are classified as Level 1. If quoted market prices are not available, fair values are estimated using quoted market prices for similar securities and indications of value provided by brokers and are classified as Level 2.

FHLB stock: It is not practicable to determine the fair value of FHLB stock due to restrictions placed on its transferability.

Loans and leases: Fair values of loans, excluding loans held for sale, are estimated as follows: For variable rate loans that reprice frequently and with no significant change in credit risk, fair values are based on carrying values resulting

in a Level 3 classification. Fair values for other loans are estimated using discounted cash flow analyses, using interest rates currently being offered for loans with similar terms to borrowers of similar credit quality also resulting in a Level 3 classification.

Deposits: The fair values disclosed for demand deposits (e.g., interest and non-interest checking, passbook savings, and certain types of money market accounts) are, by definition, equal to the amount payable on demand at the reporting date (i.e., their carrying amount) resulting in a Level 1 classification. For time deposits, the fair values for fixed rate certificates of deposit are estimated using a discounted cash flow methodology that applies market interest rates to a schedule of aggregated expected monthly maturities on time deposits resulting in a Level 2 classification.

Short-term and long-term borrowings: The fair value of short-term borrowings is estimated to be the carrying amount and is classified as Level 1. The fair value of long-term borrowings is estimated using a discounted cash flow analysis using interest rates currently available for similar debt instruments and are classified as Level 2.

Accrued interest receivable and payable: The carrying amount of accrued interest receivable approximates fair value resulting in a Level 3 classification and the carrying amount of accrued interest payable approximates fair value resulting in a Level 2 classification.

Off-balance sheet instruments: Fair values for off-balance sheet, credit-related financial instruments are based on fees currently charged to enter into similar agreements, taking into account the remaining terms of the agreements and the counterparties' credit standing. The fair value of commitments was not material at March 31, 2018 and December 31, 2017.

Assets and liabilities measured at fair value on a recurring and non-recurring basis are presented in the following table:

Description		Fair Value Measurements Using			Total Gains
(dollars in thousands)	Fair Value	Level 1	Level 2	Level 3	(Losses)
March 31, 2018					
Assets and liabilities measured on a recurring basis:					
Available-for-sale securities:					
US Government Agencies and Sponsored Agencies	$255,828	$—	$255,828	$—	$ —
Obligations of states and political subdivisions	22,958	—	22,958	—	—
Corporate bonds	6,549	—	6,549	—	—
US Treasury securities	2,985	2,985	—	—	—
Total recurring	$288,320	$2,985	$285,335	$—	$ —
Assets and liabilities measured on a nonrecurring basis:					
Impaired loans:					
Commercial	$1,362	$—	$—	$1,362	$ —
Total nonrecurring	$1,362	$—	$—	$1,362	$ —

Description		Fair Value Measurements Using			Total Gains
(dollars in thousands)	Fair Value	Level 1	Level 2	Level 3	(Losses)
December 31, 2017					
Assets and liabilities measured on a recurring basis:					
Available-for-sale securities:					
US Government Agencies and Sponsored Agencies	$232,869	$—	$232,869	$—	$—
Corporate Debt securities	6,626	—	6,626		
Obligations of states and political subdivisions	22,715	—	22,715	—	—
Corporate stock	112	66	46	—	—
Total recurring	$262,322	$66	$262,256	$—	$—
Assets and liabilities measured on a nonrecurring basis:					
Impaired loans:					
Commercial	$1,598	$—	$—	$1,598	$(1,073)
Real estate:					
Commercial	178	—	—	178	—
Residential	329	—	—	329	—
Other real estate owned Land	961	—	—	961	—
Total nonrecurring	$3,066	$—	$—	$3,066	$(1,073)

There were no transfers between Levels 1 and 2 during the three-month period ended March 31, 2018 or the twelve months ended December 31, 2017.

The following methods were used to estimate the fair value of each class of financial instrument above:

Available-for-sale securities – Fair values for investment securities are based on quoted market prices, if available, and are considered Level 1, or evaluated using pricing models that vary by asset class and incorporate available trade, bid and other market information and are considered Level 2. Pricing applications apply available information, as applicable, through processes such as benchmark curves, benchmarking to like securities, sector groupings and matrix pricing.

Impaired loans – The fair value of collateral dependent impaired loans adjusted for specific allocations of the allowance for loan losses is generally based on recent real estate appraisals and/or evaluations. These appraisals and/or evaluations may utilize a single valuation approach or a combination of approaches including comparable sales, cost and the income approach. Adjustments are routinely made in the appraisal process by the independent appraisers to adjust for differences between the comparable sales and income and other available data. Such adjustments are usually significant and typically result in a Level 3 classification of the inputs for determining fair value. The valuation technique used for all Level 3 nonrecurring impaired loans is the sales comparison approach less a reserve for past dues taxes and selling costs ranging from 8% to 10%.

Other real estate owned – Certain commercial and residential real estate properties classified as OREO are measured at fair value, less costs to sell. Fair values are based on recent real estate appraisals and/or evaluations. These appraisals and/or evaluations may use a single valuation approach or a combination of approaches including comparable sales, cost and the income approach. Adjustments are routinely made in the appraisal process by the independent appraisers to adjust for differences between the comparable sales and income and other available data. Such adjustments are usually significant and typically result in a Level 3 classification of the inputs for determining fair value. The valuation technique used for all Level 3 nonrecurring OREO is the sales comparison approach less selling costs ranging from 8% to 10%.

12. RECENTLY ISSUED ACCOUNTING PRONOUNCEMENTS

In May 2014, the Financial Accounting Standards Board (the "FASB") and the International Accounting Standards Board (the "IASB") jointly issued a comprehensive new revenue recognition standard that will supersede nearly all existing revenue recognition guidance under GAAP and International Financial Reporting Standards ("IFRS"). Previous revenue recognition guidance in GAAP consisted of broad revenue recognition concepts together with numerous revenue requirements for particular industries or transactions, which sometimes resulted in different accounting for economically similar transactions. In contrast, IFRS provided limited revenue recognition guidance and, consequently, could be difficult to apply to complex transactions. Accordingly, the FASB and the IASB initiated a joint project to clarify the principles for recognizing revenue and to develop a common revenue standard for U.S. GAAP and IFRS that would: (1) remove inconsistencies and weaknesses in revenue requirements; (2) provide a more robust framework for addressing revenue issues; (3) improve comparability of revenue recognition practices across entities, industries, jurisdictions, and capital markets; (4) provide more useful information to users of financial statements through improved disclosure requirements; and (5) simplify the preparation of financial statements by reducing the number of requirements to which an entity must refer. To meet those objectives, the FASB issued Accounting Standards Update ("ASU") No. 2014-09, "*Revenue from Contracts with Customers.*" The standard's core principle is that a company will recognize revenue when it transfers promised goods or services to customers in an amount that reflects the consideration to which the company expects to be entitled in exchange for those goods or services. In doing so, companies generally will be required to use more judgment and make more estimates than under current guidance. These may include identifying performance obligations in the contract, estimating the amount of variable consideration to include in the transaction price and allocating the transaction price to each separate performance obligation. The standard was initially effective for public entities for interim and annual reporting periods beginning after December 15, 2016; early adoption was not permitted. However, in August 2015, the FASB issued ASU No. 2015-14, "*Revenue from Contracts with Customers - Deferral of the Effective Date*" which deferred the effective date by one year (i.e., interim and annual reporting periods beginning after December 15, 2017). For financial reporting purposes, the standard allows for either full retrospective adoption, meaning the standard is applied to all of the periods presented, or modified retrospective adoption, meaning the standard is applied only to the most current period presented in the financial statements with the cumulative effect of initially applying the standard recognized at the date of initial application. In addition, the FASB has begun to issue targeted updates to clarify specific implementation issues of ASU 2014- 09. These updates include ASU No. 2016-08, "*Principal versus Agent Considerations (Reporting Revenue Gross versus Net),*" ASU No. 2016-10, "*Identifying Performance Obligations and Licensing,*" ASU No. 2016-12, "*Narrow-Scope Improvements and Practical Expedients,*" and ASU No. 2016-20 "*Technical Corrections and Improvements to Topic 606, Revenue from Contracts with Customers.*" The Company has assessed its revenue streams and reviewed its contracts that could potentially be affected by the ASU including deposit related fees, interchange fees, and merchant income, to determine the potential impact the new guidance is expected to have on the Company's financial position, results of operations or cash flows. The Company adopted ASU No. 2014-09 on January 1, 2018. The effects of adopting ASU No. 2014-09 did not change the amounts of revenue recorded for the Company's in-scope revenue streams.

In January 2016, the FASB issued ASU No. 2016-01, "*Recognition and Measurement of Financial Assets and Financial Liabilities.*" This ASU addresses certain aspects of recognition, measurement, presentation, and disclosure of financial instruments by making targeted improvements to GAAP as follows: (1) require equity investments (except those accounted for under the equity method of accounting or those that result in consolidation of the investee) to be measured at fair value with changes in fair value recognized in net income. However, an entity may choose to measure equity investments that do not have readily determinable fair values at cost minus impairment, if any, plus or minus changes resulting from observable price changes in orderly transactions for the identical or a similar investment of the same issuer; (2) simplify the impairment assessment of equity investments without readily determinable fair values by requiring a qualitative assessment to identify impairment. When a qualitative assessment indicates that impairment

exists, an entity is required to measure the investment at fair value; (3) eliminate the requirement to disclose the fair value of financial instruments measured at amortized cost for entities that are not public business entities; (4) eliminate the requirement for public business entities to disclose the method(s) and significant assumptions used to estimate the fair value that is required to be disclosed for financial instruments measured at amortized cost on the balance sheet; (5) require public business entities to use the exit price notion when measuring the fair value of financial instruments for disclosure purposes; (6) require an entity to present separately in other comprehensive income the portion of the total change in the fair value of a liability resulting from a change in the instrument-specific credit risk when the entity has elected to measure the liability at fair value in accordance with the fair value option for financial instruments; (7) require separate presentation of financial assets and financial liabilities by measurement category and form of financial asset (that is, securities or loans and receivables) on the balance sheet or the accompanying notes to the financial statements; and (8) clarify that an entity should evaluate the need for a valuation allowance on a deferred tax asset related to available-for-sale securities in combination with the entity’s other deferred tax assets. ASU No. 2016-01 is effective for interim and annual reporting periods beginning after December 15, 2017. Early application was permitted as of the beginning of the fiscal year of adoption only for provisions (3) and (6) above. Early adoption of the other provisions mentioned above were not permitted. The Company adopted ASU No. 2016-01 on January 1, 2018. The effects of adopting ASU No. 2016-01 resulted in the Company using the exit price notion for valuing financial instruments in 2018, but did not have a material impact on the Company’s financial position, results of operations or cash flows.

In February 2016, the FASB issued ASU No. 2016-02, “*Leases.*” Under the new guidance, lessees will be required to recognize the following for all leases (with the exception of short-term leases): 1) a lease liability, which is the present value of a lessee’s obligation to make lease payments, and 2) a right-of-use asset, which is an asset that represents the lessee’s right to use, or control the use of, a specified asset for the lease term. Lessor accounting under the new guidance remains largely unchanged as it is substantially equivalent to existing guidance for sales-type leases, direct financing leases, and operating leases. Leveraged leases have been eliminated, although lessors can continue to account for existing leveraged leases using the current accounting guidance. Other limited changes were made to align lessor accounting with the lessee accounting model and the new revenue recognition standard. All entities will classify leases to determine how to recognize lease-related revenue and expense. Quantitative and qualitative disclosures will be required by lessees and lessors to meet the objective of enabling users of financial statements to assess the amount, timing, and uncertainty of cash flows arising from leases. The intention is to require enough information to supplement the amounts recorded in the financial statements so that users can understand more about the nature of an entity’s leasing activities. ASU No. 2016-02 is effective for interim and annual reporting periods beginning after December 15, 2018; early adoption is permitted. All entities are required to use a modified retrospective approach for leases that exist or are entered into after the beginning of the earliest comparative period in the financial statements. They have the option to use certain relief; full retrospective application is prohibited. The Company is currently evaluating the provisions of ASU No. 2016-02. Based on the initial evaluation of the Company’s current lease obligations, the Company has determined that the provisions of ASU No. 2016-02 may result in an increase in assets to recognize the present value of the lease obligations with a corresponding increase in liabilities, however, the Company does not expect this to have a material impact on the Company’s financial position, results of operations or cash flows.

In June 2016, the FASB issued ASU No. 2016-13, “*Measurement of Credit Losses on Financial Instruments.*” This ASU significantly changes how entities will measure credit losses for most financial assets and certain other instruments that aren’t measured at fair value through net income. In issuing the standard, the FASB is responding to criticism that today’s guidance delays recognition of credit losses. The standard will replace today’s “incurred loss” approach with an “expected loss” model. The new model, referred to as the current expected credit loss (“CECL”) model, will apply to: (1) financial assets subject to credit losses and measured at amortized cost, and (2) certain off-balance sheet credit exposures. This includes, but is not limited to, loans, leases, held-to-maturity securities, loan commitments, and financial guarantees. The CECL model does not apply to available-for-sale (“AFS”) debt securities. For AFS debt securities with unrealized losses, entities will measure credit losses in a manner similar to what they do today, except that the losses will be recognized as allowances rather than reductions in the amortized cost of the securities. As a result, entities will recognize improvements to estimated credit losses immediately in earnings rather than as interest income over time, as they do today. The ASU also simplifies the accounting model for purchased credit-impaired debt securities and loans. ASU 2016-13 also expands the disclosure requirements regarding an entity’s assumptions, models, and methods for estimating the allowance for loan and lease losses. In addition, entities will need to disclose the amortized cost balance for each class of financial asset by credit quality indicator, disaggregated by the year of origination. ASU No. 2016-13 is effective for interim and annual reporting periods beginning after December 15, 2019; early adoption is permitted for interim and annual reporting periods beginning after December 15, 2018. Entities will apply the standard’s provisions as a cumulative-effect adjustment to retained earnings as of the beginning of the first reporting period in which the guidance is effective (i.e., modified retrospective approach). While the Company is currently evaluating the provisions of ASU No. 2016-13 to determine the potential impact the new standard will have on the Company’s Consolidated Financial Statements, it has taken steps to prepare for the implementation when it becomes effective, such as forming an internal task force, gathering pertinent data, consulting with outside professionals, evaluating its current IT systems, and evaluating software products.

13. REVENUE FROM CONTRACTS WITH CUSTOMERS

On January 1, 2018 the Company adopted ASC Topic 606, as revised under ASU's 2014-09, 2014-08 and 2016-20, using the modified retrospective method as of January 1, 2018. Other income disclosures for periods beginning after January 1, 2018 are presented under revised ASC Topic 606, which have not materially changed from the prior year amounts. Consistent with Topic 606, noninterest income covered by this guidance is recognized as services are transferred to our customers in an amount that reflects the consideration we expect to be entitled to in exchange for those services.

Deposit Service Charges — Deposit service charges primarily consist of fees earned from our treasury management services. These services include bill pay, ACH, positive pay, lockbox, remote deposit capture, online banking and cash vault, among others. Customers are given the option to pay for these services in cash or by offsetting the fees for these services against an earnings credit that is given for maintaining noninterest-bearing deposits. The Company's performance obligations on its treasury services are satisfied either at the time of the transaction or over the course of a month. Most customers pay deposit charges on a monthly basis.

Merchant and Bankcard Fees — The Company earns various types of network transaction fees from third party payment network providers which consist of (i) interchange fees earned from the payment network as a debit card issuer and (ii) ongoing merchant fees earned by the Company for referring our clients to the payment processing provider which allows our clients to accept credit cards as a form of payment. The Company is an issuer of debit cards only as it relates to Merchant and Bankcard fees. Interchange income, which is settled on a daily basis, is recognized as settlement occurs. Chargebacks have not historically been, nor are they expected to be significant to the overall fee revenue and will be recognized upon occurrence. Referral and merchant fees are recognized when the transaction occurs.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

The following is management's discussion and analysis of the significant changes in American River Bankshares' (the "Company") balance sheet accounts between December 31, 2017 and March 31, 2018 and its income and expense accounts for the three-month periods ended March 31, 2018 and 2017. The discussion is designed to provide a better understanding of significant trends related to the Company's financial condition, results of operations, liquidity, capital resources and interest rate sensitivity. This discussion and supporting tables and the consolidated financial statements and related notes appearing elsewhere in this report are unaudited. Interest income and net interest income are presented on a fully taxable equivalent basis (FTE) within management's discussion and analysis. Certain matters discussed or incorporated by reference in this Quarterly Report on Form 10-Q including, but not limited to, matters described in "Item 2 - Management's Discussion and Analysis of Financial Condition and Results of Operations," are "forward-looking statements" within the meaning of Section 21E of the Securities Exchange Act of 1934, as amended, Section 27A of the Securities Act of 1933, as amended, and subject to the safe-harbor provisions of the Private Securities Litigation Reform Act of 1995. Such forward-looking statements may contain words related to future projections including, but not limited to, words such as "believe," "expect," "anticipate," "intend," "may," "will," "should," "c "would," and variations of those words and similar words that are subject to risks, uncertainties and other factors that could cause actual results to differ significantly from those projected. Factors that could cause or contribute to such differences include, but are not limited to, the following:

- the legislation promulgated by the United States Congress and actions taken by governmental agencies that may impact the U.S. financial system;
- the risks presented by economic volatility and recession, which could adversely affect credit quality, collateral values, including real estate collateral, investment values, liquidity and loan originations and loan portfolio delinquency rates;
- variances in the actual versus projected growth in assets and return on assets;
- potential loan and lease losses;
- potential expenses associated with resolving nonperforming assets as well as regulatory changes;
- changes in the interest rate environment including interest rates charged on loans, earned on securities investments and paid on deposits and other borrowed funds;
- competitive effects;
- potential declines in fee and other noninterest income earned associated with economic factors, as well as regulatory changes;
- general economic conditions nationally, regionally, and within our operating markets could be less favorable than expected or could have a more direct and pronounced effect on us than expected and adversely affect our ability to continue internal growth at historical rates and maintain the quality of our earning assets;
- changes in the regulatory environment including increased capital and regulatory compliance requirements and government intervention in the U.S. financial system;
- changes in business conditions and inflation;
- changes in securities markets, public debt markets, and other capital markets;
- potential data processing, cybersecurity and other operational systems failures, breach or fraud;
- potential decline in real estate values in our operating markets;
- the effects of uncontrollable events such as terrorism, the threat of terrorism or the impact of military conflicts in connection with the conduct of the war on terrorism by the United States and its allies, negative financial and economic conditions, natural disasters, and disruption of power supplies and communications;
- changes in accounting standards, tax laws or regulations and interpretations of such standards, laws or regulations;
- projected business increases following any future strategic expansion could be lower than expected;
- the goodwill we have recorded in connection with acquisitions could become impaired, which may have an adverse impact on our earnings;
-

the reputation of the financial services industry could experience deterioration, which could adversely affect our ability to access markets for funding and to acquire and retain customers; and

- the efficiencies we may expect to receive from any investments in personnel and infrastructure may not be realized.

The factors set forth under "Item 1A - Risk Factors" in the Company's Annual Report on Form 10-K for the year ended December 31, 2017, and other cautionary statements and information set forth in this Quarterly Report on Form 10-Q should be carefully considered and understood as being applicable to all related forward-looking statements contained in this Quarterly Report on Form 10-Q, when evaluating the business prospects of the Company and its subsidiaries.

Forward-looking statements are not guarantees of performance. By their nature, they involve risks, uncertainties and assumptions. The future results and shareholder values may differ significantly from those expressed in these forward-looking statements. You are cautioned not to put undue reliance on any forward-looking statement. Any such statement speaks only as of the date of this report, and in the case of any documents that may be incorporated by reference, as of the date of those documents. We do not undertake any obligation to update or release any revisions to any forward-looking statements, to report any new information, future event or other circumstances after the date of this report or to reflect the occurrence of unanticipated events, except as required by law. However, your attention is directed to any further disclosures made on related subjects in our subsequent reports filed with the Securities and Exchange Commission (the "SEC") on Forms 10-K, 10-Q and 8-K.

Use of Non-GAAP Financial Measures

This Quarterly Report on Form 10-Q ("Form 10Q") contains certain non-GAAP (Generally Accepted Accounting Principles) financial measures in addition to results presented in accordance with GAAP. These measures include tangible book value and taxable equivalent basis. Management has presented these non-GAAP financial measures in this Form 10Q because it believes that they provide useful and comparative information to assess trends in the Company's financial position reflected in the current quarter and year-to-date results and facilitate comparison of our performance with the performance of our peers.

Net Interest Margin and Efficiency Ratio (non-GAAP financial measures)

In accordance with industry standards, certain designated net interest income amounts are presented on a taxable equivalent basis, including the calculation of net interest margin and the efficiency ratio. The Company believes the presentation of net interest margin on a taxable equivalent basis using a 21% effective tax rate for 2018 and a 34% effective tax rate for 2017 allows comparability of net interest margin with industry peers by eliminating the effect of the differences in portfolios attributable to the proportion represented by both taxable and tax-exempt loans and investments. The efficiency ratio is a measure of a banking company's overhead as a percentage of its revenue. The Company derives this ratio by dividing total noninterest expense by the sum of the taxable equivalent net interest income and the total noninterest income.

Tangible Equity (non-GAAP financial measures)

Tangible common shareholders' equity (tangible book value) excludes goodwill and other intangible assets. The Company believes the exclusion of goodwill and other intangible assets to create "tangible equity" facilitates the comparison of results for ongoing business operations. The Company's management internally assesses its performance based, in part, on these non-GAAP financial measures.

Critical Accounting Policies

General

The Company's financial statements are prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP"). The financial information contained within our statements is, to a significant extent, financial information that is based on measures of the financial effects of transactions and events that have already occurred. In addition, GAAP itself may change from one previously acceptable method to another method. Although the economics of our transactions would be the same, the timing of events that would impact our transactions could change.

Allowance for Loan and Lease Losses

The allowance for loan and lease losses is an estimate of the probable incurred credit loss risk inherent in our loan and lease portfolio as of the balance sheet date. The allowance is based on two basic principles of accounting: (1) "Accounting for Contingencies," which requires that losses be accrued when it is probable that a loss has occurred at the balance sheet date and such loss can be reasonably estimated; and (2) the "Receivables" topic, which requires that losses be accrued on impaired loans based on the differences between the value of collateral, present value of future cash flows or values that are observable in the secondary market and the loan or lease balance.

The allowance for loan and lease losses is determined based upon estimates that can and do change when the actual risk, loss events, or changes in other factors, occur. The analysis of the allowance uses an historical loss view as an indicator of future losses and as a result could differ from the actual losses incurred in the future. If the allowance for loan and lease losses falls below that deemed adequate (by reason of loan and lease growth, actual losses, the effect of changes in risk factors, or some combination of these), the Company has a strategy for supplementing the allowance for loan and lease losses, over the short-term. For further information regarding our allowance for loan and lease losses, see "Allowance for Loan and Lease Losses Activity" discussion later in this Item 2.

Stock-Based Compensation

The Company recognizes compensation expense over the vesting period in an amount equal to the fair value of all share-based payments which consist of stock options and restricted stock awarded to directors and employees. The fair value of each stock option award is estimated on the date of the award and amortized over the service period using a Black-Scholes-Merton based option valuation model that requires the use of assumptions. Critical assumptions that affect the estimated fair value of each award include expected stock price volatility, dividend yields, option life and the risk-free interest rate.

General Development of Business

The Company is a bank holding company registered under the Bank Holding Company Act of 1956, as amended. The Company was incorporated under the laws of the State of California in 1995. As a bank holding company, the Company is authorized to engage in the activities permitted under the Bank Holding Company Act of 1956, as amended, and regulations thereunder. Its principal office is located at 3100 Zinfandel Drive, Suite 450, Rancho Cordova, California 95670 and its telephone number is (916) 854-0123. The Company employed an equivalent of 89 full-time employees as of March 31, 2018.

The Company owns 100% of the issued and outstanding common shares of its banking subsidiary, American River Bank (the "Bank"), and American River Financial, a California corporation which has been inactive since its incorporation in 2003.

American River Bank was incorporated and commenced business in Fair Oaks, California, in 1983 and thereafter moved its headquarters to Sacramento, California in 1985. American River Bank operates five full service offices in Sacramento and Placer Counties including the main office located at 1545 River Park Drive, Suite 107, Sacramento and branch offices in Sacramento, Gold River, and Roseville; two full service offices in Sonoma County in Healdsburg and Santa Rosa; and three full service offices in Amador County in Jackson, Pioneer, and Ione.

In 2000, the Company acquired North Coast Bank as a separate bank subsidiary. North Coast Bank was incorporated and commenced business in 1990 as Windsor Oaks National Bank in Windsor, California. In 1997, the name was changed to North Coast Bank. Effective December 31, 2003, North Coast Bank was merged with and into American River Bank. On December 3, 2004, the Company acquired Bank of Amador located in Jackson, California. Bank of Amador was merged with and into American River Bank.

The Bank’s deposits are insured by the Federal Deposit Insurance Corporation (the “FDIC”) up to applicable legal limits. On July 21, 2010, President Obama signed the Dodd-Frank Wall Street Reform and Consumer Protection Act (the “Dodd-Frank Act”). The Dodd-Frank Act includes a permanent increase to $250,000 as the maximum FDIC insurance limit per depositor retroactive to January 1, 2008 and the extension of unlimited FDIC insurance for noninterest-bearing transaction accounts effective December 31, 2010 through December 31, 2012. On November 9, 2010, the FDIC implemented a final rule to permanently increase the maximum insurance limit to $250,000 under the Dodd-Frank Act. The unlimited insurance coverage for noninterest bearing transaction accounts was not extended and terminated on December 31, 2012. The $250,000 maximum deposit insurance amount per depositor remains in effect.

American River Bank does not offer trust services or international banking services and does not plan to do so in the near future. American River Bank's primary business is serving the commercial banking needs of small to mid-sized businesses within those counties listed above. American River Bank accepts checking and savings deposits, offers money market deposit accounts and certificates of deposit, makes secured and unsecured commercial, secured real estate, and other installment and term loans and offers other customary banking services. American River Bank also conducts lease financing for certain types of business equipment. American River Bank owns 100% of two inactive companies, ARBCO and American River Mortgage. ARBCO was formed in 1984 to conduct real estate development and has been inactive since 1995. American River Mortgage has been inactive since its formation in 1994. During 2017 and 2018, the Company conducted no significant activities other than holding the shares of its subsidiaries. However, it is authorized, with the prior approval of the Board of Governors of the Federal Reserve System (the "Federal Reserve Board"), the Company's principal regulator, to engage in a variety of activities which are deemed closely related to the business of banking. The common stock of the Company is registered under the Securities Exchange Act of 1934, as amended, and is listed and traded on the Nasdaq Global Select Market under the symbol "AMRB."

Overview

The Company recorded net income of $1,353,000 for the quarter ended March 31, 2018, which was an increase of $169,000 (14.3%) compared to $1,184,000 reported for the same period of 2017. Diluted earnings per share for the first quarter of 2018 was $0.22, an increase of 22.2% compared to the $0.18 per share reported in the first quarter of 2017. The return on average equity ("ROAE") and the return on average assets ("ROAA") for the first quarter of 2018 were 7.39% and 0.80%, respectively, as compared to 5.74% and 0.74%, respectively, for the same period in 2017.

Total assets of the Company increased by $39,525,000 (6.0%) from $655,622,000 at December 31, 2017 to $695,147,000 at March 31, 2018. Net loans totaled $299,066,000 at March 31, 2018, a decrease of $9,647,000 (3.1%) from $308,713,000 at December 31, 2017. Deposit balances at March 31, 2018 totaled $600,187,000, an increase of $44,107,000 (7.9%) from $556,080,000 at December 31, 2017.

The Company ended the first quarter of 2018 with a leverage capital ratio of 8.7%, a Tier 1 capital ratio of 17.0%, and a total risk-based capital ratio of 18.3% compared to 9.5%, 18.1%, and 19.3%, respectively, at December 31, 2017. Table One below provides a summary of the components of net income for the periods indicated (See the "Results of Operations" section that follows for an explanation of the fluctuations in the individual components).

Table One: Components of Net Income

(dollars in thousands)	For the three months ended March 31,	
	2018	2017

Interest income*	$ 5,126	$ 5,151
Interest expense	(329)	(242)
Net interest income*	4,797	4,909
Provision for loan and lease losses	—	—

Net income (annualized) as a percentage of average total assets	0.80 %	0.74 %

* Fully taxable equivalent basis (FTE)

Results of Operations

Net Interest Income and Net Interest Margin

Net interest income represents the excess of interest and fees earned on interest earning assets (loans and leases, securities, Federal funds sold and investments in time deposits) over the interest paid on interest-bearing deposits and borrowed funds. Net interest margin is net interest income expressed as a percentage of average earning assets. The Company’s net interest margin was 3.29% for the three months ended March 31, 2018 and 3.44% for the three months ended March 31, 2017.

31

The fully taxable equivalent interest income component for the first quarter of 2018 decreased $25,000 (0.5%) to $5,126,000 compared to $5,151,000 for the three months ended March 31, 2017. The decrease in the fully taxable equivalent interest income for the first quarter of 2018 compared to the same period in 2017 is broken down by rate (up $52,000) and volume (down $77,000). The yield on earning assets decreased from 3.61% during the first quarter of 2017 to 3.51% during the first quarter of 2018. The yield on earning assets decreased despite the increase in interest income due to interest earned on Federal funds sold, which increased from zero in 2017 to $50,000 in 2018 but the overall yield decrease is due to a lower income from tax exempt loans and securities. The yield on tax exempt loans and securities is related to the lower Federal tax rate. The tax benefit is more valuable at higher tax rates. The Company’s Federal tax rate decreased from 34% in 2017 to 21% in 2018, thus reducing the tax benefit and lowering the tax exempt yield. The yield on tax exempt loans decreased from 4.93% in 2017 to 4.45% in 2018 and the yield on tax exempt securities decreased from 3.75% in 2017 to 3.39% in 2018. Both of these decreases in yields resulted despite minimal fluctuations in average balances outstanding. The volume decrease of $77,000 was primarily from a decrease in average loans ($144,000) partially offset by an increase in investments ($66,000). Average loans decreased $12,847,000 (4.0%) from $320,113,000 during the first quarter of 2017 to $307,266,000 during the first quarter of 2018 and the average investment balances increased $11,108,000 (4.3%) from $258,001,000 during the first quarter of 2017 to $269,109,000 during the first quarter of 2018.

Interest expense was $329,000 or $87,000 (36.0%) higher in the first quarter of 2018 versus $242,000 in the first quarter of 2017. The net $87,000 increase in interest expense during the first quarter of 2018 compared to the first quarter of 2017 was due entirely to higher rates (up $87,000). The increase in deposit expense can be attributed to an increase in rates paid on time deposit balances. Some of these time deposits are indexed to the three-month or six-month treasury rates which have increased over the past twelve months. Interest expense on time deposits related to rate was $62,000.

Table Two, Analysis of Net Interest Margin on Earning Assets, and Table Three, Analysis of Volume and Rate Changes on Net Interest Income and Expenses, are provided to enable the reader to understand the components and trends of the Company’s interest income and expenses. Table Two provides an analysis of net interest margin on earning assets setting forth average assets, liabilities and shareholders’ equity; interest income earned and interest expense paid and average rates earned and paid; and the net interest margin on earning assets. Table Three sets forth a summary of the changes in interest income and interest expense from changes in average asset and liability balances (volume) and changes in average interest rates.

Table Two: Analysis of Net Interest Margin on Earning Assets

Three Months Ended March 31,	2018			2017		
(Taxable Equivalent Basis) (dollars in thousands)	Avg Balance	Interest	Avg Yield (4)	Avg Balance	Interest	Avg Yield (4)

Noninterest bearing demand deposits	217,583			203,947		
Other liabilities	7,259			7,719		
Total liabilities	609,146			569,130		
Shareholders' equity	74,246			83,635		
	$683,392			$652,765		
Net interest income & margin (3)		$4,797	3.29 %		$4,909	3.44 %

(1) Loan interest includes loan fees of $131,000 and $66,000, respectively, during the three months ended March 31, 2018 and March 31, 2017. Average loan balances include non-performing loans.

(2) Includes taxable-equivalent adjustments that primarily relate to income on certain loans and securities that is exempt from federal income taxes. The effective federal statutory tax rate was 21% for 2018 and 34% for 2017.

(3) Net interest margin is computed by dividing net interest income by total average earning assets.

(4) Average yield is calculated based on actual days in the period (90 days) and annualized to actual days in the year (365 days).

Table Three: Analysis of Volume and Rate Changes on Net Interest Income and Expenses
Three Months Ended March 31, 2018 over 2017 (dollars in thousands)

Increase (decrease) due to change in:

Interest-earning assets:	Volume	Rate (4)	Net Change
Taxable net loans and leases (1)(2)	$(138)	$36	$(102)
Tax-exempt net loans and leases (3)	(6)	(17)	(23)
Taxable investment securities	58	4	62
Tax exempt investment securities (3)	8	(21)	(13)
Corporate stock	—	(3)	(3)
Federal funds sold	—	50	50
Interest-bearing deposits in banks	1	3	4
Total	(77)	52	(25)
Interest-bearing liabilities:			
Interest checking and money market	4	19	23
Savings deposits	1	—	1
Time deposits	(5)	62	57
Other borrowings	—	6	6
Total	—	87	87
Interest differential	$(77)	$(35)	$(112)

(1) The average balance of nonaccrual loans is immaterial as a percentage of total loans and has been included in net loans.
(2) Loan interest includes loan fees of $131,000 and $66,000, respectively, during the three months ended March 31, 2018 and March 31, 2017 which have been included in the interest income computation.
(3) Includes taxable-equivalent adjustments that primarily relate to income on certain loans and securities that is exempt from federal income taxes. The effective federal statutory tax rate was 21% for 2018 and 34% for 2017.
(4) The rate/volume variance has been included in the rate variance.

Provision for Loan and Lease Losses

The Company did not provide any provision for loan and lease losses for the first quarter of 2018 or 2017. The Company experienced net loan and lease recoveries of $10,000 or (0.01%) (on an annualized basis) of average loans and leases for the three months ended March 31, 2018 compared to net loan and lease recoveries of $11,000 or (0.01%) (on an annualized basis) of average loans and leases for the three months ended March 31, 2017. The Company continued to experience an overall improvement in the credit quality of the loan and lease portfolio and a reduction of credit losses. For additional information see the “Allowance for Loan and Lease Losses Activity.”

Noninterest Income

Table Four below provides a summary of the components of noninterest income for the periods indicated (dollars in thousands):

Table Four: Components of Noninterest Income

	Three Months Ended	
	March 31,	
	2018	2017
Service charges on deposit accounts	$ 117	$ 117
Gain on sale/call of securities	1	56
Merchant fee income	110	92
Bank owned life insurance	75	78
Other	69	76
Total noninterest income	$ 372	$ 419

Noninterest income decreased $47,000 (11.2%) to 372,000 for the three months ended March 31, 2018 as compared to $419,000 for the three months ended March 31, 2017. The decrease in noninterest income was primarily related to lower gains from sales of securities, which decreased from $56,000 in 2017 to $1,000 in 2018.

Noninterest Expense

Noninterest expense decreased $80,000 (2.3%) to a total of $3,350,000 in the first quarter of 2018 compared to $3,430,000 in the first quarter of 2017. Salary and employee benefits expense increased $36,000 (1.7%) from $2,170,000 during the first quarter of 2017 to $2,206,000 during the first quarter of 2018. The increase in salaries and benefits resulted from an increase in other employee benefits, including health insurance and 401(k) matching, which increased $70,000 (20.0%) from $350,000 in 2017 to $420,000 in 2018. Placement fees paid to employment agencies represent $55,000 of the $70,000 increase. On a quarter-over-quarter basis, occupancy expense decreased $7,000 (2.6%) and furniture and equipment expense decreased $13,000 (8.6%). OREO related expenses decreased $15,000 (75.0%) during the first quarter of 2018 from $20,000 in the first quarter of 2017 to $5,000 in the first quarter of 2018. Other expense decreased $81,000 (10.6%) to $686,000 in the first quarter of 2018 compared to $767,000 in the first quarter of 2017. There were numerous line items that make up the $81,000 reduction in other expenses including a $25,000 one-time rebate from the Company's debit card processor and lower overall correspondent bank charges due to higher average balances resulting in higher earnings credits exceeding service charges. The fully taxable equivalent efficiency ratio increased from 64.4% for the first quarter of 2017 to 64.8% for the first quarter of 2018. This increase in the efficiency ratio is primarily related to the decrease in the tax equivalent net interest income.

Provision for Income Taxes

Federal and state income taxes for the quarter ended March 31, 2018 decreased $210,000 (34.1%) from $616,000 in the first quarter of 2017 to $406,000 in the first quarter of 2018. The effective tax rate for the quarter ended March 31,

2018 was 23.1% compared to 34.2% for the first quarter of 2017. The lower tax expense and effective tax rate in 2018 resulted from the passage of "H.R.1" commonly referred to as the "Tax Cuts and Jobs Act" which was signed into law by President Trump on December 22, 2017. The Company's federal income tax rate was reduced to 21% effective January 1, 2018, which was a reduction from the Company's 2017 rate of 34%.

Balance Sheet Analysis

The Company's total assets were $695,147,000 at March 31, 2018 as compared to $655,622,000 at December 31, 2017, representing an increase of $39,525,000 (6.0%). The average assets for the three months ended March 31, 2018 were $683,392,000, which represents an increase of $30,627,000 or 4.7% over the balance of $652,765,000 during the three-month period ended March 31, 2017.

Federal Funds

The balance held in correspondent banks classified as Federal funds at March 31, 2018, was $38,000,000 compared to zero at December 31, 2017. The rate paid to the Company on the Federal funds at March 31, 2018 was 1.69%. The primary reason for the increase in Federal funds in 2018 is directly related to the increase in deposit balances during the same period.

Investment Securities

Table Five below summarizes the values of the Company's investment securities held on March 31, 2018 and December 31, 2017.

Table Five: Investment Securities Composition

(dollars in thousands)		
Available-for-sale (at fair value)	March 31, 2018	December 31, 2017
Debt securities:		
US Government Agencies and Sponsored Agencies	$ 255,828	$ 232,869
Obligations of states and political subdivisions	22,958	22,715
Corporate bonds	6,549	6,626
US Treasury securities	2,985	—
Corporate stock	—	112
Total available-for-sale investment securities	$ 288,320	$ 262,322
Held-to-maturity (at amortized cost)		
Debt securities:		
US Government Agencies and Sponsored Agencies	$ 357	$ 378
Total held-to-maturity investment securities	$ 357	$ 378

The Company classifies its investment securities as available-for-sale or held-to-maturity. The Company's intent is to hold all securities classified as held-to-maturity until maturity and management believes that it has the ability to do so. Securities available-for-sale may be sold to implement asset/liability management strategies and in response to changes in interest rates, prepayment rates and similar factors. Net unrealized losses on available-for-sale investment securities totaling $3,227,000 were recorded, net of $998,000 in tax assets, as accumulated other comprehensive loss within shareholders' equity at March 31, 2018 and net unrealized gains on available-for-sale investment securities totaling $456,000 were recorded, net of $135,000 in tax liabilities, as accumulated other comprehensive income within shareholders' equity at December 31, 2017.

Management periodically evaluates each investment security in a loss position for other than temporary impairment relying primarily on industry analyst reports, observation of market conditions and interest rate fluctuations. Management has the ability and intent to hold securities with established maturity dates until recovery of fair value, which may be until maturity, and believes it will be able to collect all amounts due according to the contractual terms for all of the underlying investment securities; therefore, management does not consider these investments to be other-than-temporarily impaired.

Loans and Leases

The Company's historical lending activities have been in the following principal areas: (1) commercial; (2) commercial real estate; (3) multi-family real estate; (4) real estate construction (both commercial and residential); (5) residential real estate; (6) lease financing receivable; (7) agriculture; and (8) consumer loans. The Company's continuing focus in our market area, new borrowers developed through the Company's marketing efforts, and credit extensions expanded to existing borrowers resulted in the Company originating $1.7 million in new loans during the first three months of 2018. This production was offset by higher than anticipated pay downs and payoffs, and resulted in an overall net decrease in net loans and leases of $9,647,000 (3.1%) from December 31, 2017. Despite the decrease in net loans in 2018, the market in which the Company operates has begun to show demand for credit products as the continued low rate environment and expectations for economic expansion have increased refinancing as well as new loan activity.

A significant portion of the Company's loans and leases are direct loans and leases made to individuals and local businesses. The Company relies substantially on networking, local promotional activity, and personal contacts by American River Bank officers, directors and employees to compete with other financial institutions. The Company makes loans and leases to borrowers whose applications include a sound purpose and a viable primary repayment source, generally supported by a secondary source of repayment. Commercial loans consist of credit lines for operating needs and working capital, loans for equipment purchases, and various other business loan products. Consumer loans include a range of traditional consumer loan products such as personal lines of credit and homeowner equity lines of credit and loans to finance purchases of boats and recreational vehicles. Construction loans are generally comprised of commitments to customers within the Company's service area for construction of commercial properties and multi-family properties. Other real estate loans consist primarily of loans secured by first trust deeds on commercial, multi-family, and residential properties typically with maturities from 3 to 10 years and original loan-to-value ratios generally from 65% to 75%. In general, except in the case of loans under SBA programs, the Company does not make long-term mortgage loans. Table Six below summarizes the composition of the loan portfolio as of March 31, 2018 and December 31, 2017.

Table Six: Loan and Lease Portfolio Composition

(dollars in thousands)	March 31, 2018		December 31, 2017		Change in	Percentage
	$	%	$	%	dollars	change
Commercial	$20,747	7 %	$ 25,377	8 %	$ (4,630)	(18.2%)
Real estate						
Commercial	182,122	60 %	185,452	59 %	(3,330)	(1.8%)
Multi-family	76,329	25 %	78,025	25 %	(1,696)	(2.2%)
Construction	6,280	2 %	5,863	2 %	417	7.1 %
Residential	15,468	5 %	15,813	5 %	(345)	(2.2%)
Lease financing receivable	161	— %	205	— %	(44)	(21.5%)
Agriculture	1,715	1 %	1,713	1 %	2	0.1 %
Consumer	918	— %	945	— %	(27)	(2.9%)
Total loans and leases	303,740	100%	313,393	100 %	(9,653)	(3.1%)
Deferred loan and lease fees, net	(186)		(202)		16	
Allowance for loan and lease losses	(4,488)		(4,478)		(10)	
Total net loans and leases	$299,066		$ 308,713		$ (9,647)	(3.1%)

"Subprime" real estate loans generally refer to residential mortgages made to higher-risk borrowers with lower credit and/or income histories. Within the banking industry, many of these loans were originated with adjustable interest rates that reset upward after an introductory period. These "subprime" loans coupled with declines in housing prices led to an increase in default rates resulting in many instances of increased foreclosure rates as the adjustable interest rates reset to higher levels. The Company did not have any such "subprime" loans at March 31, 2018 and December 31, 2017.

Risk Elements

The Company assesses and manages credit risk on an ongoing basis through a total credit culture that emphasizes excellent credit quality, extensive internal monitoring and established formal lending policies. Additionally, the Company contracts with an outside loan review consultant to periodically review the existing loan and lease portfolio. Management believes its ability to identify and assess risk and return characteristics of the Company's loan and lease portfolio is critical for profitability and growth. Management strives to continue its emphasis on credit quality in the

loan and lease approval process, through active credit administration and regular monitoring. With this in mind, management has designed and implemented a comprehensive loan and lease review and grading system that functions to continually assess the credit risk inherent in the loan and lease portfolio.

Ultimately, underlying trends in economic and business cycles influence credit quality. American River Bank's business is concentrated in the Sacramento Metropolitan Statistical Area, which is a diversified economy, but with a large State of California government presence and employment base; in Sonoma County, which is focused on businesses within the two communities in which the Bank has offices (Santa Rosa and Healdsburg); and in Amador County, in which the Bank is primarily focused on businesses within the three communities in which it has offices (Jackson, Pioneer, and Ione). The economy of Sonoma County is diversified with professional services, manufacturing, agriculture and real estate investment and construction, while the economy of Amador County is reliant upon government, services, retail trade, manufacturing industries and Indian gaming. The Company had serviced markets in Santa Clara, Contra Costa, and Alameda Counties through a loan production office. In the fourth quarter of 2016, the Company discontinued operating the loan production office, however, the Company continues to have loans that were originated in these markets. The economies of Santa Clara, Contra Costa and Alameda Counties are diversified with professional services, manufacturing, technology related companies, real estate investment and construction.

The Company has significant extensions of credit and commitments to extend credit that are secured by real estate. The ultimate repayment of these loans is generally dependent on personal or business cash flows or the sale or refinancing of the real estate. The Company monitors the effects of current and expected market conditions and other factors on the collectability of real estate loans. The more significant factors management considers involve the following: lease rates and terms, vacancy rates, absorption and sale rates and capitalization rates; real estate values, supply and demand factors, and rates of return; operating expenses; inflation and deflation; and sufficiency of repayment sources independent of the real estate including, in some instances, personal guarantees.

In extending credit and commitments to borrowers, the Company generally requires collateral and/or guarantees as security. The repayment of such loans is expected to come from cash flows or from proceeds from the sale of selected assets of the borrowers. The Company's requirement for collateral and/or guarantees is determined on a case-by-case basis in connection with management's evaluation of the creditworthiness of the borrower. Collateral held varies but may include accounts receivable, inventory, property, plant and equipment, income-producing properties, residences and other real property. The Company secures its collateral by perfecting its security interest in business assets, obtaining deeds of trust, or outright possession among other means.

In management's judgment, a concentration exists in real estate loans, which represented approximately 92% of the Company's loan and lease portfolio at March 31, 2018 and 91% as of December 31, 2017. Management believes that the residential land portion of the Company's loan portfolio carries a reasonable level of credit risk. As of March 31, 2018, outstanding unimproved residential land commitments were $2,321,000 (or just 0.8% of the total real estate loans). Of the $2,321,000, $2,269,000 (98%) was represented by one amortizing loan, which was considered well-secured, with a favorable loan-to-value ratio. Management currently believes that it maintains its allowance for loan and lease losses at levels adequate to reflect the loss risk inherent in its total loan portfolio.

A decline in the economy in general, or decline in real estate values in the Company's market areas, in particular, could have an adverse impact on the collectability of real estate loans and require an increase in the provision for loan and lease losses. This could adversely affect the Company's future prospects, results of operations, profitability and stock price. Management believes that its lending practices and underwriting standards are structured with the intent to minimize losses; however, there is no assurance that losses will not occur. The Company's loan practices and underwriting standards include, but are not limited to, the following: (1) maintaining a thorough understanding of the Company's market area and originating a significant majority of its loans within that area, (2) maintaining a thorough understanding of borrowers' knowledge, capacity, and market position in their field of expertise, (3) basing real estate loan approvals not only on market demand for the project, but also on the borrowers' capacity to support the project financially in the event it does not perform to expectations (whether sale or income performance), and (4) maintaining conforming and prudent loan-to-value and loan-to-cost ratios based on independent outside appraisals and ongoing inspection and analysis by the Company's lending officers or contracted third-party professionals.

Northern California Wildfires

Beginning on October 8, 2017, much of the North Bay region of Northern California was struck by massive wildfires which destroyed numerous properties and adversely affected the region's economy. Our two offices in Healdsburg and Santa Rosa were not damaged. Some of the Company's clients did lose their homes, but we do not have loans on those

properties. We currently believe that losses, if any, to commercial or business properties that secure our loans is not material. At March 31, 2018, the Company had approximately 8% of total loans in the Sonoma County market, the majority of which are secured by commercial property. Management continues to closely monitor the situation and continues to respond to needs of clients and employees. It is not possible at this time to assess the full scope of this disaster or its long-term impact on our clients and the economy of the region. As of March 31, 2018, none of the loans in the Sonoma County market were greater than 30 days past due.

37

Nonperforming, Past Due and Restructured Loans and Leases

At March 31, 2018, nonperforming loans and leases (those loans and leases on nonaccrual status and those loans and leases still accruing and past due 90 days or more) were $1,855,000 or 0.61% of total loans and leases. The $1,885,000 in nonperforming loans and leases consisted of one commercial loan totaling $1,562,000, one commercial real estate loan totaling $289,000, and one consumer loan totaling $4,000. The $1,562,000 commercial loan is a shared national credit to a large retailer purchased by the Company in 2013. The initial loan balance was $3,000,000 and had paid as agreed, down to $2,692,000, until September 2017, when the retailer filed for bankruptcy reorganization. At that time the loan was placed on nonaccrual and the loan balance was subsequently reduced by $1,095,000 through a $1,073,000 loss charged to the loan and lease loss allowance and $57,000 applied to principal from payments made by the borrower. This bankruptcy filing occurred late in the third quarter and the Company has been using the latest information available to perform an impairment analysis. As more information becomes available, the Company will update the impairment analysis, which could lead to further charges to the loan loss allowance. As of March 31, 2018, the loan also has a $200,000 specific reserve to account for uncertainty, reducing the net exposure to $1,362,000. The overall level of nonperforming loans decreased $37,000 (2.0%) from $1,892,000 or 0.60% of total loans and leases at December 31, 2017 and consisted of the same three loans described above.

There were no loan or lease concentrations in excess of 10% of total loans and leases not otherwise disclosed as a category of loans and leases as of March 31, 2018. Management is not aware of any potential problem loans, which were accruing and current at March 31, 2018, where serious doubt exists as to the ability of the borrower to comply with the present repayment terms and that would result in a significant loss to the Company apart from those loans identified in the Bank's impairment analysis.

Table Seven below sets forth nonaccrual loans and loans past due 90 days or more as of March 31, 2018 and December 31, 2017.

Table Seven: Nonperforming Loans and Leases

(dollars in thousands)	March 31, 2018	December 31, 2017
Past due 90 days or more and still accruing:		
Commercial	$ —	$ —
Real estate	—	—
Lease financing receivable	—	—
Agriculture	—	—
Consumer	—	—
Nonaccrual:		
Commercial	1,562	1,597
Real estate	289	289
Lease financing receivable	—	—

Consumer	4	6
Total nonperforming loans	$ 1,855	$ 1,892

Impaired Loans and Leases

The Company considers a loan to be impaired when, based on current information and events, it is probable that it will be unable to collect all amounts due (principal and interest) according to the original contractual terms of the loan or lease agreement. The measurement of impairment may be based on (i) the present value of the expected cash flows of the impaired loan or lease discounted at the loan's or lease's original effective interest rate, (ii) the observable market price of the impaired loan or lease, or (iii) the fair value of the collateral of a collateral-dependent loan. The Company does not apply this definition to smaller-balance loans or leases that are collectively evaluated for credit risk. In assessing whether a loan or lease is impaired, the Company typically reviews loans or leases graded substandard or lower with outstanding principal balances in excess of $100,000, as well as loans considered troubled debt restructures with outstanding principal balances in excess of $25,000. The Company identifies troubled debt restructures by reviewing each renewal, modification, or extension of a loan with a screening document. This document is designed to identify any characteristics of such a loan that would qualify it as a troubled debt restructure. If the characteristics are not present that would qualify a loan as a troubled debt restructure, it is deemed to be a modification.

At March 31, 2018, the recorded investment in loans and leases that were considered to be impaired totaled $12,465,000, all of which are considered performing loans and leases. Of the total impaired loans of $12,465,000, loans totaling $5,974,000 were deemed to require no specific reserve and loans totaling $6,491,000 were deemed to require a related valuation allowance of $524,000. Of the $5,974,000 impaired loans that did not carry a specific reserve there were $504,000 in loans or leases that had previous partial charge-offs and $5,470,000 in loans or leases that were analyzed and determined not to require a specific reserve or charge-off because the collateral value or discounted cash flow value exceeded the loan or lease balance. The recorded investment in loans and leases that were considered to be impaired totaled $13,757,000 at December 31, 2017. Of the total impaired loans of $13,757,000, loans totaling $7,601,000 were deemed to require no specific reserve and loans totaling $6,156,000 were deemed to require a related valuation allowance of $355,000.

The Company has been operating in a market that has recently experienced sporadic improvement in real estate values of commercial, residential, land, and construction properties. As such, the Company is focused on monitoring collateral values for those loans considered collateral dependent. For collateral dependent loans in excess of $250,000, the Company performs an internal evaluation or obtains an updated appraisal, as necessary, which is generally once every twelve months. In the first quarter of 2018, the Company had net loan recoveries of $10,000 with no added provision. In the first quarter of 2017, the Company had net loan recoveries of $11,000 with no added provision.

During the periods ended March 31, 2018 and March 31, 2017, there were no loans that were modified as troubled debt restructurings. There were no payment defaults during the three months ended March 31, 2018 or March 31, 2017 on troubled debt restructurings made in the preceding twelve months. At March 31, 2018 and December 31, 2017, there were no unfunded commitments on those loans considered troubled debt restructures.

Allowance for Loan and Lease Losses Activity

The Company maintains an allowance for loan and lease losses ("ALLL") to cover probable losses inherent in the loan and lease portfolio, which is based upon management's estimate of those losses. The ALLL is established through a provision for loan and lease losses and is increased by provisions charged against current earnings and recoveries and reduced by charge-offs. Actual losses for loans and leases can vary significantly from this estimate. The methodology and assumptions used to calculate the allowance are continually reviewed as to their appropriateness given the most recent losses realized and other factors that influence the estimation process. The model assumptions and resulting allowance level are adjusted accordingly as these factors change.

The adequacy of the ALLL and the level of the related provision for loan and lease losses is determined based on management's judgment after consideration of numerous factors including, but not limited to: (i) local and regional economic conditions, (ii) the financial condition of the borrowers, (iii) loan impairment and the related level of expected charge-offs, (iv) evaluation of industry trends, (v) industry and other concentrations, (vi) loans and leases which are contractually current as to payment terms but demonstrate a higher degree of risk as identified by management, (vii) continuing evaluations of the performing loan portfolio, (viii) ongoing review and evaluation of problem loans identified as having loss potential, (ix) quarterly review by the Board of Directors, and (x) assessments by banking regulators and other third parties. Management and the Board of Directors evaluate the ALLL and determine its appropriate level considering objective and subjective measures, such as knowledge of the borrower's business, valuation of collateral, the determination of impaired loans or leases and exposure to potential losses.

The ALLL totaled $4,488,000 or 1.48% of total loans and leases at March 31, 2018 compared to $4,478,000 or 1.43% of total loans and leases at December 31, 2017. The Company establishes general and specific reserves in accordance with accounting principles generally accepted in the United States of America. The ALLL is composed of categories of the loan and lease portfolio based on loan type and loan rating; however, the entire allowance is available to cover actual loan and lease losses. While management uses available information to recognize possible losses on loans and leases, future additions to the allowance may be necessary, based on changes in economic conditions and other matters. In addition, various regulatory agencies, as an integral part of their examination process, periodically review the Company's ALLL. Such agencies may require the Company to provide additions to the allowance based on their judgment of information available to them at the time of their examination.

The ALLL as a percentage of non-performing loans and leases was 241.9% at March 31, 2018 and 236.7% at December 31, 2017. The allowance for loans and leases as a percentage of impaired loans and leases was 36.0% at March 31, 2018 and 32.6% at December 31, 2017. Of the total non-performing and impaired loans and leases outstanding as of March 31, 2018, there were $2,424,000 in loans or leases that had been reduced by partial charge-offs of $1,478,000. As these loan or lease balances are charged off, the remaining balances, following analysis, normally do not initially require specific reserves and are not eligible for general reserves. The impact of this on credit ratios is such that the Company's ALLL as a percentage may be lower, because the partial charge-offs have reduced the potential future losses related to those credits.

The Company's policy with regard to loan or lease charge-offs continues to be that a loan or lease is charged off against the ALLL when management believes that the collectability of the principal is unlikely. As previously discussed in the "Impaired Loans and Leases" section, certain loans are evaluated for impairment. Generally, if a loan is collateralized by real estate and considered collateral dependent, the impaired portion will be charged off to the allowance for loan and lease losses unless it is in the process of collection, in which case a specific reserve may be warranted. If the collateral is other than real estate and considered impaired, a specific reserve may be warranted.

It is the policy of management to maintain the allowance for loan and lease losses at a level believed to be adequate for known and inherent risks in the portfolio. Our methodology incorporates a variety of risk considerations, both quantitative and qualitative, in establishing an allowance for loan and lease losses that management believes is appropriate at each reporting date. Based on information currently available to analyze inherent credit risk, including economic factors, overall credit quality, historical delinquencies and a history of actual charge-offs, management believes that the provision for loan and lease losses and the allowance for loan and lease losses are prudent and adequate. Adjustments may be made based on differences from estimated loan and lease growth, the types of loans constituting this growth, changes in risk ratings within the portfolio, and general economic conditions. However, no prediction of the ultimate level of loans and leases charged off in future periods can be made with any certainty.

Table Eight: Allowance for Loan and Lease Losses

(dollars in thousands)	Three Months Ended March 31,	
	2018	2017
Average loans and leases outstanding	$307,266	$320,113
Allowance for loan and lease losses at beginning of period	$4,478	$4,822
Loans and leases charged off:		
Consumer	—	—
Total	—	—
Recoveries of loans and leases previously charged off:		
Commercial	7	1
Real estate	2	9
Consumer	1	1
Total	10	11
Net loans and leases recovered	10	11
Additions to allowance charged to operating expenses	—	—
Allowance for loan and lease losses at end of period	$4,488	$4,833

Ratio of net recoveries to average loans and leases outstanding (annualized)	(0.01	%)	(0.01	%)
Provision of allowance for loan and lease losses to average loans and leases outstanding (annualized)	—		—	
Allowance for loan and lease losses to loans and leases net of deferred fees at end of period	1.48	%	1.52	%

40

Other Real Estate Owned

At March 31, 2018 and December 31, 2017, the Company had one other real estate owned ("OREO") property totaling $961,000. During the first quarter of 2018, the Company did not acquire or sell any OREO properties nor were there any impairment charges to this property. There was no valuation allowance at March 31, 2018 nor at year end 2017. The Company believes that the OREO property owned at March 31, 2018 was carried approximately at fair value.

Deposits

At March 31, 2018, total deposits were $600,187,000 representing a $44,107,000 (7.9%) increase from the December 31, 2017 balance of $556,080,000. The Company's deposit growth plan for 2018 is to concentrate its efforts on increasing noninterest-bearing demand, interest-bearing money market and NOW accounts, and savings accounts while allowing higher cost time deposits to mature and close or renew at lower rates. The Company experienced increases in interest-bearing checking ($7,085,000 or 10.9%), money market accounts ($34,425,000 or 26.5%), savings ($5,374,000 or 8.1%), and time ($66,000 or 0.1%) and a decrease in noninterest-bearing ($2,843,000 or 1.3%) deposits. The increase in money market accounts is related to the expansion of existing accounts, including approximately $22,000,000 from one deposit relationship resulting from the sale of their business during the quarter, and the addition of new deposit relationships.

Other Borrowed Funds

Other borrowings outstanding as of March 31, 2018 and December 31, 2017, consist of advances (both short-term and long-term) from the Federal Home Loan Bank of San Francisco ("FHLB"). Table Nine below summarizes these borrowings.

Table Nine: Other Borrowed Funds

(dollars in thousands)	March 31, 2018		December 31, 2017	
	Amount	Rate	Amount	Rate
Short-term borrowings:				
FHLB advances	$3,500	1.39%	$3,500	1.39%
Long-term borrowings:				
FHLB advances	$12,000	1.41%	$12,000	1.41%

The maximum amount of short-term borrowings at any month-end during the first three months of 2018 and 2017 was $3,500,000 and $3,500,000, respectively. The FHLB advances are collateralized by loans and securities pledged to the FHLB. The following is a breakdown of rates and maturities on FHLB advances (dollars in thousands):

	Short-term	Long-term
Amount	$ 3,500	$12,000
Maturity	2018	2019 to 2021
Weighted average rates	1.39 %	1.41 %

Capital Resources

The Company and American River Bank are subject to certain regulatory capital requirements administered by the Federal Reserve Board and the Federal Deposit Insurance Corporation (the “FDIC”). Failure to meet these minimum capital requirements can initiate certain mandatory, and possibly additional discretionary, actions by regulators that, if undertaken, could have a direct material effect on the Company’s consolidated financial statements. Under current capital adequacy guidelines and the regulatory framework for prompt corrective action, banks must meet specific capital guidelines that involve quantitative measures of their assets, liabilities and certain off-balance-sheet items as calculated under regulatory accounting practices. The Company’s and American River Bank’s capital amounts and classification are also subject to qualitative judgments by the regulators about components, risk weightings and other factors.

At March 31, 2018, shareholders' equity was $72,098,000, representing a decrease of $4,823,000 (6.3%) from $76,921,000 at December 31, 2017. The decrease results from repurchases of common stock ($4,099,000), the payment of cash dividends ($307,000) and the reductions from other comprehensive income ($1,908,000), exceeding net income for the period ($1,353,000), and the stock based compensation ($138,000). During the first quarter of 2018, the Company repurchased 264,178 shares of its common stock at an average price of $15.47 per share under the 2018 Stock Repurchase Program.

On January 24, 2018, the Company approved and authorized a 5% stock repurchase program for 2018 (the "2018 Program"). See Part II, Item 2, for additional disclosure regarding the 2018 Program. In addition, on February 14, 2018, the Company paid a $0.05 per common share cash dividend to shareholders of record on January 31, 2018. This 2018 quarterly dividend follows four quarterly cash dividends, totaling $0.20 per share, paid in 2017. The ratio of total risk-based capital to risk adjusted assets was 18.3% at March 31, 2018 and 19.3% at December 31, 2017. Tier 1 risk-based capital to risk-adjusted assets was 17.0% at March 31, 2018 and 18.1% at December 31, 2017. The leverage ratio was 8.7% at March 31, 2018 and 9.5% at December 31, 2017. Table Ten below lists the Company's and American River Bank's capital ratios at March 31, 2018 and December 31, 2017, as well as the minimum capital ratios for capital adequacy and the minimum requirement for a well-capitalized institution.

Table Ten: Capital Ratios

Capital to Risk-Adjusted Assets	March 31, 2018		December 31, 2017		Minimum Regulatory Capital Requirements 2018		2017	
American River Bankshares								
Leverage Ratio	8.7	%	9.5	%	7.1	%	5.3	%
Tier 1 Risk-Based Capital	17.0	%	18.1	%	9.1	%	7.3	%
Total Risk-Based Capital	18.3	%	19.3	%	11.1	%	9.3	%
American River Bank								
Leverage Ratio	8.6	%	9.3	%	7.1	%	5.3	%
Common Equity Tier 1 Risk-Based Capital	16.8	%	17.7	%	7.6	%	5.8	%
Tier 1 Risk-Based Capital	16.8	%	17.7	%	9.1	%	7.3	%
Total Risk-Based Capital	18.1	%	19.0	%	11.1	%	9.3	%

Capital ratios are reviewed on a regular basis to ensure that capital exceeds the prescribed regulatory requirements and is adequate to meet future needs. Management believes that both the Company and American River Bank met all of their capital adequacy requirements as of March 31, 2018 and December 31, 2017.

Effective January 1, 2015, bank holding companies with consolidated assets of $1 billion or more and banks like American River Bank must comply with new minimum capital ratio requirements to be phased-in between January 1, 2015 and January 1, 2019, which consist of the following: (i) a new common equity Tier 1 capital to total risk weighted assets ratio of 4.5%; (ii) a Tier 1 capital to total risk weighted assets ratio of 6%; (iii) a total capital to total

risk weighted assets ratio of 8%; and (iv) a Tier 1 capital to adjusted average total assets ("leverage") ratio of 4%.

In addition, a "capital conservation buffer," is established which when fully phased-in will require maintenance of a minimum of 2.5% of common equity Tier 1 capital to total risk weighted assets in excess of the regulatory minimum capital ratio requirements described above. The 2.5% buffer will increase the minimum capital ratios to (i) a common equity Tier 1 capital ratio of 7.0%, (ii) a Tier 1 capital ratio of 8.5%, and (iii) a total capital ratio of 10.5%. The new buffer requirement will be phased-in between January 1, 2016 and January 1, 2019. The buffer requirement for 2018 is 1.875% and will increase to 2.50% on January 1, 2019. If the capital ratio levels of a banking organization fall below the capital conservation buffer amount, the organization will be subject to limitations on (i) the payment of dividends; (ii) discretionary bonus payments; (iii) discretionary payments under Tier 1 instruments; and (iv) engaging in share repurchases.

Inflation

The impact of inflation on a financial institution differs significantly from that exerted on manufacturing or other commercial concerns primarily because its assets and liabilities are largely monetary. In general, inflation primarily affects the Company and its subsidiaries through its effect on market rates of interest, which affects the Company's ability to attract loan customers. Inflation affects the growth of total assets by increasing the level of loan demand and potentially adversely affects capital adequacy because loan growth in inflationary periods can increase at rates higher than the rate that capital grows through retention of earnings which may be generated in the future. In addition to its effects on interest rates, inflation increases overall operating expenses. Inflation has not had a significant effect upon the results of operations of the Company and its subsidiaries during the periods ended March 31, 2018 and 2017.

Liquidity

Liquidity management refers to the Company's ability to provide funds on an ongoing basis to meet fluctuations in deposit levels as well as the credit needs and requirements of its clients. Both assets and liabilities contribute to the Company's liquidity position. Federal funds lines, short-term investments and securities, and loan and lease repayments contribute to liquidity, along with deposit increases, while loan and lease funding and deposit withdrawals decrease liquidity. The Company assesses the likelihood of projected funding requirements by reviewing historical funding patterns, current and forecasted economic conditions and individual client funding needs. Commitments to fund loans and outstanding standby letters of credit at March 31, 2018 were approximately $8,089,000 and $121,000, respectively. Such loan commitments relate primarily to revolving lines of credit and other commercial loans and to real estate construction loans. Since some of the commitments are expected to expire without being drawn upon, the total commitment amounts do not necessarily represent future cash requirements.

The Company's sources of liquidity consist of cash and due from correspondent banks, overnight funds sold to correspondent banks, unpledged marketable investments and loans held for sale and/or pledged for secured borrowings. At March 31, 2018, consolidated liquid assets totaled $274.8 million or 39.5% of total assets compared to $226.3 million or 34.5% of total assets on December 31, 2017. In addition to liquid assets, the Company maintains two short-term unsecured lines of credit in the amount of $17,000,000 with two of its correspondent banks. At March 31, 2018, the Company had $17,000,000 available under these credit lines. Additionally, the Bank is a member of the FHLB. At March 31, 2018, the Bank could have arranged for up to $132,257,000 in secured borrowings from the FHLB. These borrowings are secured by pledged mortgage loans and investment securities. At March 31, 2018, the Company had advances, borrowings and commitments (including letters of credit) outstanding of $15,500,000, leaving $116,757,000 available under these FHLB secured borrowing arrangements. American River Bank also has a secured borrowing arrangement with the Federal Reserve Bank of San Francisco. The borrowing can be secured by pledging selected loans and investment securities. At March 31, 2018, the Company's borrowing capacity at the Federal Reserve Bank was $8,318,000. The Company serves primarily a business and professional customer base and, as such, its deposit base is susceptible to economic fluctuations. Accordingly, management strives to maintain a balanced position of liquid assets and borrowing capacity to offset the potential runoff of these volatile and/or cyclical deposits.

Liquidity is also affected by portfolio maturities and the effect of interest rate fluctuations on the marketability of both assets and liabilities. The Company can sell any of its unpledged securities held in the available-for-sale category to meet liquidity needs. Furthermore, the Bank can pledge additional unencumbered securities to borrow from the Federal Reserve Bank of San Francisco and the FHLB.

Off-Balance Sheet Items

The Company is a party to financial instruments with off-balance-sheet risk in the normal course of business in order to meet the financing needs of its customers and to reduce its exposure to fluctuations in interest rates. These financial instruments consist of commitments to extend credit and letters of credit. These instruments involve, to varying degrees, elements of credit and interest rate risk in excess of the amount recognized on the balance sheet.

The Company's exposure to credit loss in the event of nonperformance by the other party for commitments to extend credit and letters of credit is represented by the contractual amount of those instruments. The Company applies the same credit policies to commitments and letters of credit as it does for loans included on the consolidated balance sheet. As of March 31, 2018 and December 31, 2017, commitments to extend credit and standby letters of credit were the only financial instruments with off-balance sheet risk. The Company has not entered into any contracts for financial derivative instruments such as futures, swaps, options or similar instruments. Loan commitments and standby letters of credit were $8,210,000 and $11,044,000 at March 31, 2018 and December 31, 2017, respectively. As a percentage of net loans and leases these off-balance sheet items represent 2.7% and 3.6%, respectively.

The Company has certain ongoing commitments under operating leases. These commitments do not significantly impact operating results.

Website Access

The Company maintains a website where certain information about the Company is posted. Through the website, its Annual Report on Form 10-K, Quarterly Reports on Form 10-Q, Current Reports on Form 8-K, and amendments thereto, as well as Section 16 Reports and amendments thereto, are available as soon as reasonably practicable after such material is electronically filed with or furnished to the SEC. These reports are free of charge and can be accessed through the address www.americanriverbank.com by accessing the *Investor Relations* link, then the *Company News* link, then the *SEC Filings* link located at that address. Once you have selected the *SEC Filings* link you will have the option to access the Section 16 Reports or the reports filed on Forms 10-K, 10-Q and 8-K by the Company by selecting the appropriate link.

Item 3. Quantitative and Qualitative Disclosures About Market Risk.

Overview. Market risk is the risk of loss from adverse changes in market prices and rates. The Company's market risk arises primarily from interest rate risk inherent in its loan, investment and deposit functions. The goal for managing the assets and liabilities of the Company is to maximize shareholder value and earnings while maintaining a high quality balance sheet without exposing the Company to undue interest rate risk. The Board of Directors has overall responsibility for the interest rate risk management policies. The Company has an Enterprise Risk Management Committee, made up of Company management that establishes and monitors guidelines to control the sensitivity of earnings to changes in interest rates.

Asset/Liability Management. Activities involved in asset/liability management include but are not limited to lending, accepting and placing deposits and investing in securities. Interest rate risk is the primary market risk associated with asset/liability management. Sensitivity of earnings to interest rate changes arises when yields on assets change in a different time period or in a different amount from that of interest costs on liabilities. To mitigate interest rate risk, the structure of the balance sheet is managed with the goal that movements of interest rates on assets and liabilities are correlated and contribute to earnings even in periods of volatile interest rates. The asset/liability management policy sets limits on the acceptable amount of variance in net interest margin and market value of equity under changing interest environments. The Company uses simulation models to forecast earnings, net interest margin and market value of equity.

Simulation of earnings is the primary tool used to measure the sensitivity of earnings to interest rate changes. Using computer-modeling techniques, with specialized software built for this specific purpose for financial institutions, the Company is able to estimate the potential impact of changing interest rates on earnings, net interest margin and market value of equity. A balance sheet is prepared using detailed inputs of actual loans, securities and interest-bearing liabilities (i.e. deposits/borrowings). The balance sheet is processed using multiple interest rate scenarios. The scenarios include a rising rate forecast, a flat rate forecast and a falling rate forecast which take place within a one-year time frame. The net interest income is measured over one-year and two-year periods assuming a gradual change in rates over the twelve-month horizon. The simulation modeling attempts to estimate changes in the Company's net interest income utilizing a detailed current balance sheet. Table Eleven below summarizes the effect on net interest income (NII) of a ±100 and ±200 basis point change in interest rates as measured against a constant rate (no change) scenario.

Table Eleven: Interest Rate Risk Simulation of Net Interest as of March 31, 2018

(dollars in thousands)	$ Change in NII from Current 12 Month Horizon	$ Change in NII from Current 24 Month Horizon
Variation from a constant rate scenario		
+100bp	$ 378	$ 909
+200bp	$ 691	$ 1,646
-100bp	$ (677)	$ (1,737)
-200bp	$ (1,368)	$ (3,555)

After a review of the model results as of March 31, 2018, the Company does not consider the fluctuations from the base case, to have a material impact on the Company's projected results and are within the tolerance levels outlined in the Company's interest rate risk polices. The simulations of earnings do not incorporate any management actions, which might moderate the negative consequences of interest rate deviations. Therefore, they do not reflect likely actual results, but serve as reasonable estimates of interest rate risk.

Interest Rate Sensitivity Analysis. Interest rate sensitivity is a function of the repricing characteristics of the portfolio of assets and liabilities. These repricing characteristics are the time frames within which the interest-bearing assets and liabilities are subject to change in interest rates either at replacement, repricing or maturity. Interest rate sensitivity management focuses on the maturity of assets and liabilities and their repricing during periods of changes in market interest rates. Interest rate sensitivity is measured as the difference between the volumes of assets and liabilities in the current portfolio that are subject to repricing at various time horizons. The differences are known as interest sensitivity gaps. A positive cumulative gap may be equated to an asset sensitive position. An asset sensitive position in a rising interest rate environment will cause a bank's interest rate margin to expand. This results as floating or variable rate loans reprice more rapidly than fixed rate certificates of deposit that reprice as they mature over time. Conversely, a declining interest rate environment will cause the opposite effect. A negative cumulative gap may be equated to a liability sensitive position. A liability sensitive position in a rising interest rate environment will cause a bank's interest rate margin to contract, while a declining interest rate environment will have the opposite effect.

Item 4. Controls and Procedures.

The Company, under the supervision and with the participation of its management, including the Chief Executive Officer and the Chief Financial Officer, evaluated the effectiveness of the design and operation of the Company's "disclosure controls and procedures" (as defined in Rule 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended) as of March 31, 2018. Based on that evaluation, the Chief Executive Officer and the Chief Financial Officer concluded that the Company's disclosure controls and procedures are effective in timely making known to them material information relating to the Company and the Company's consolidated subsidiaries required to be disclosed in the Company's reports filed or submitted under the Exchange Act.

During the quarter ended March 31, 2018, there have been no changes in the Company's internal control over financial reporting that have significantly affected, or are reasonably likely to materially affect, these controls.

PART II – OTHER INFORMATION

Item 1. Legal Proceedings.

From time to time, the Company and/or its subsidiaries is a party to claims and legal proceedings arising in the ordinary course of business. The Company's management is not aware of any significant pending legal proceedings to which either it or its subsidiaries may be a party or has recently been a party, which will have a significant adverse effect on the financial condition or results of operations of the Company or its subsidiaries, taken as a whole.

Item 1A. Risk Factors.

There have been no significant changes in the risk factors previously disclosed in the Company's Form 10-K for the period ended December 31, 2017, filed with the Securities and Exchange Commission on February 27, 2018.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

On January 25, 2017, the Company approved and authorized a stock repurchase program for 2017 (the “2017 Program”). The 2017 Program authorized the repurchase during 2017 of up to 5% of the outstanding shares of the Company’s common stock, or approximately 333,086 shares based on the 6,661,726 shares outstanding as of December 31, 2016. Repurchases under the 2017 Program were made from time to time by the Company in the open market. All such transactions were structured to comply with SEC Rule 10b-18 and all shares repurchased under the 2017 Program were retired.

On January 24, 2018, the Company approved and authorized a stock repurchase program for 2018 (the “2018 Program”). The 2018 Program authorized the repurchase during 2018 of up to 5% of the outstanding shares of the Company’s common stock, or approximately 306,618 shares based on the 6,132,362 shares outstanding as of December 31, 2017. Any repurchases under the 2018 Program will be made from time to time by the Company in the open market as conditions allow. All such transactions will be structured to comply with SEC Rule 10b-18 and all shares repurchased under the 2018 Program will be retired. The number, price and timing of the repurchases will be at the Company’s sole discretion and the 2018 Program may be re-evaluated depending on market conditions, capital and liquidity needs or other factors. Based on such re-evaluation, the Board of Directors may suspend, terminate, modify or cancel the 2018 Program at any time without notice. The following table lists shares repurchased during the quarter ended March 31, 2018 and the maximum amount available to repurchase under the repurchase plan.

Period	(a) Total Number of Shares (or Units) Purchased	(b) Average Price Paid Per Share (or Unit)	(c) Total Number of Shares (or Units) Purchased as Part of Publicly Announced Plans or Programs	(d) Maximum Number (or Approximate Dollar Value) of Shares (or Units) That May Yet Be Purchased Under the Plans or Programs
Month #1 January 1 through January 31, 2018	—	—	—	306,618
Month #2 February 1 through February 28, 2018	95,909	$ 15.26	95,909	210,709
Month #3 March 1 through March 31, 2018	168,269	$ 15.59	168,269	42,440
Total	264,178	$ 15.47	264,178	N/A

Item 3. Defaults Upon Senior Securities.

None.

Item 4. Mine Safety Disclosures.

Not applicable.

Item 5. Other Information.

None.

Item 6. Exhibits.

Exhibit Number	Document Description
