5

MEDICAL ADVISORY SYSTEMS, INC.

SUMMARY OF ACCOUNTING POLICIES

=====

BASIS OF PRESENTATION

The consolidated financial statements include the accounts of Medical Advisory Systems, Inc. (MAS or the Company) and its wholly-owned subsidiaries, Travelers Angel Assistance, Inc., MAS Laboratories, Inc., Doc-Talk, LLC, and TLC., Inc. Significant intercompany accounts and transactions have been eliminated in consolidation.

The Company has a 2.3% ownership interest in AmericasDoctor.com. The Company accounts for this investment using the cost method (See Note 2).

In May 2000, the Company purchased a 12% ownership interest in CICP, the holding company for CORIS Group International ("CORIS"). The Company accounts for this investment using the cost method (See Note 2).

In December 2000, the Company purchased a 15% ownership interest in Jaspin Interactive, Inc. The Company accounts for this investment using the cost

Edgar Filing: MEDICAL ADVISORY SYSTEMS INC - Form 10QSB/A

method (See Note 2).

BUSINESS OPERATIONS

The Company provides interactive medical information services via "chats" over the internet and telephone, provides telemedicine services, training, and pharmaceuticals to the worldwide maritime industry and other individuals or entities located in remote locations worldwide, operates as an Application Service Provider (ASP), provides WEB hosting services, and operates an out-patient medical clinic. MAS Laboratories is currently inactive. The Company provides these various services through four operating segments as described more fully in Note 7.

RISKS AND UNCERTAINTIES

The Company provides medical information and assistance services and related products and services through various methods of distribution. In 2001, the majority of the Company's revenues resulted from providing 24/7 medical response and assistance services. In October 2001, the Company announced a new travel insurance product directed toward American tourists traveling outside the United States. While the profitability of delivering medical response and assistance services increased in 2001, the Company is unsure what the impact will ultimately be on the future profitability of travel assistance services given the significant decline in travel after the attacks on the United States in September 2001.

6

MEDICAL ADVISORY SYSTEMS, INC.

SUMMARY OF ACCOUNTING POLICIES

=====

In September 2001, AmericasDoctor.com cancelled its contract with the Company to provide internet "chats" with doctors located in its call center which is staffed 24 hours-a-day (see Note 2). The Company has the ability to provide the internet "chat" for new customers.

As discussed in Note 8, in November 2001 the Board of Directors approved an agreement and plan of merger pursuant to which the Company would acquire the Advanced Wireless Group of Applied Digital Solutions, Inc. ("ADS"). As a result of this transaction, ADS will own 82.1% of the Company's outstanding common stock and will be able to control the board of directors. If the merger is ultimately completed, a new senior management team has been identified by ADS to direct the Company. The Company cannot predict what changes, if any, the new management team will make in the existing business plan.

USE OF ESTIMATES

The preparation of financial statements in conformity with generally accepted accounting principles

Edgar Filing: MEDICAL ADVISORY SYSTEMS INC - Form 10QSB/A

requires management to make estimates and assumptions particularly regarding valuation of accounts receivable, recognition of liabilities and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

CONCENTRATIONS OF CREDIT RISK

Financial instruments and related items that potentially subject the Company to concentrations of credit risk consist primarily of cash and cash equivalents and trade receivables. The Company places its cash and temporary cash investments with high credit quality institutions. At times, such investments may be in excess of the FDIC insurance limit. The Company's customers are not concentrated geographically and it periodically reviews its trade receivables in determining its allowance for doubtful accounts

CASH EQUIVALENTS

For purposes of the statements of cash flows, the Company considers all highly liquid debt instruments purchased with a maturity date of three months or less to be cash equivalents. The Company had temporary investments of \$162,659 on January 31, 2002.

INVENTORIES

Inventories are stated at the lower of cost or market determined by the first-in, first-out (FIFO) method. Inventories consist of pharmaceuticals available for sale.

MEDICAL ADVISORY SYSTEMS, INC.

SUMMARY OF ACCOUNTING POLICIES

=====

PROPERTY AND EQUIPMENT

Property and equipment are stated at cost. Depreciation is computed over their estimated useful lives by the straight-line method (see Note 1).

DEFERRED INVESTMENT ADVISORY COSTS

Deferred investment advisory and public relations costs consist of the estimated fair value of warrants issued to certain third parties for public and investor relations services to be rendered over one and two year periods. These amounts are being amortized on a straight line basis over the lives of the service agreements.

IMPAIRMENT OF LONG-LIVED ASSETS

Long-lived assets and certain identifiable intangibles held and used by the Company are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. In addition, assets to

Edgar Filing: MEDICAL ADVISORY SYSTEMS INC - Form 10QSB/A

be disposed of are reported at the lower of the carrying amount or the fair value less costs to sell.

REVENUE RECOGNITION

Revenues from contracts that provide unlimited services are recognized ratably over the term of the contract. Revenues from contracts based on usage are recognized when the services are rendered. Other revenues are recognized at the time services or goods are provided.

INCOME TAXES

The Company accounts for income taxes in accordance with Statement of Financial Accounting Standards No. 109. Accounting for Income Taxes ("SFAS 109"). Under SFAS 109, deferred taxes are determined using the liability method which requires the recognition of deferred tax assets and liabilities based on differences between financial statement and income tax bases using presently enacted tax rates.

STOCK BASED COMPENSATION

The Company accounts for stock based compensation using the intrinsic value method prescribed in Accounting Principle Board Opinion No. 25, "Accounting for Stock Issued to Employees." The Company has adopted the disclosure-only provisions of Statement of Financial Accounting Standards No. 123, "Accounting for Stock Based Compensation" with respect to options and warrants granted to employees.

8

MEDICAL ADVISORY SYSTEMS, INC.

SUMMARY OF ACCOUNTING POLICIES

=====

EARNINGS PER SHARE

The Company follows Statement of Financial Accounting Standards No. 128, "Earnings Per Share," specifying the computation, presentation and disclosure requirements of earnings per share information. Basic earnings per share have been calculated based upon the weighted, average number of common shares outstanding. Stock options and warrants have been excluded as common stock equivalents in the calculation of diluted earnings per share because they are anti-dilutive.

COMPREHENSIVE INCOME

Statement of Financial Accounting Standards No. 130, "Reporting Comprehensive Income" ("SFAS 130"), establishes standards for reporting and display of comprehensive income, its components and accumulated balances. Comprehensive income is defined to include all changes in equity except those resulting from investments by owners and distributions to owners. Among other disclosures, SFAS 130 requires that all items that are required to be recognized under current accounting standards as components of

comprehensive income be reported in a financial statement that is displayed with the same prominence as other financial statements. The Company previously adopted SFAS 130 and has no items of comprehensive income to report.

RECENT ACCOUNTING  
PRONOUNCEMENTS

In June 2001, the FASB issued Statement of Financial Accounting Standards No. 141, "Business Combinations" (SFAS No. 141). SFAS No. 141 changed the accounting for business combinations, requiring that all business combinations be accounted for using the purchase method and that intangible assets be recognized as assets apart from goodwill if they arise from contractual or other legal rights, or if they are separable or capable of being separated from the acquired entity and sold, transferred, licensed, rented or exchanged. SFAS No. 141 is effective for all business combinations initiated after June 30, 2001.

MEDICAL ADVISORY SYSTEMS, INC.

SUMMARY OF ACCOUNTING POLICIES

=====

In June 2001, the FASB issued Statement of Financial Standards No. 142, "Accounting for Goodwill" ("SFAS 142"). SFAS 142 establishes accounting standards for existing goodwill related to purchase business combinations. Under the Statement, the Company would discontinue the periodic amortization of goodwill effective with adoption of the new Statement. Also, the Company would have to test any remaining goodwill for possible impairment within six months of adopting the Statement, and periodically thereafter, based on new valuation criteria set forth in the Statement. Further, the Statement has new criteria for purchase price allocation. The Statement becomes effective January 1, 2002. If the proposed merger is completed, the transaction would be subject to the requirements of SFAS 141 and 142.

In August 2001, the FASB approved Statement of Financial Accounting Standards No. 144 "Accounting for the Impairment or Disposal of Long-Lived Assets" ("SFAS 144"). SFAS 144 supersedes SFAS 121 "Accounting for Impairment of Long-Lived Assets and for Long Lived Assets to be Disposed Of" and the accounting and reporting provisions of the Accounting Principles Board Opinion No. 30, "Reporting the Results of Operations - Reporting the Effects of Disposal of a Segment of a Business, and Extraordinary, Unusual and Infrequently Occurring Events and Transactions." SFAS 144 established a single accounting model, based on the framework established in SFAS 121. SFAS 144 retains the requirements of SFAS 121 to recognize an impairment

Edgar Filing: MEDICAL ADVISORY SYSTEMS INC - Form 10QSB/A

loss only if the carrying amount of a long-lived asset is not recoverable from its undiscounted cash flows and measure an impairment loss as the difference between the carrying amount and fair value of the asset. SFAS 144 excludes goodwill from its scope, describes a probability weighted cash flow estimation approach, and established a "primary asset" approach to determine the cash flow estimation period for groups of assets and liabilities. SFAS 144 is effective for fiscal years beginning after December 15, 2001 and interim periods within those fiscal years, with early application encouraged. The Company believes that adoption of SFAS 144 will not have a material impact on its financial position or results of operations.

RECLASSIFICATIONS

Certain prior year balances have been reclassified to conform with the current year presentation.

10

MEDICAL ADVISORY SYSTEMS, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

1. PROPERTY AND EQUIPMENT

Property and equipment consists of the following:

	October 31, 2001	JANUARY 31, 2002	Use
Land	\$ 65,078	\$ 65,078	
Buildings and improvement	1,660,703	1,660,703	10
Furniture, fixtures and equipment	1,036,028	989,454	
	2,761,809	2,715,235	
Less: Accumulated depreciation and amortization	1,188,803	1,231,546	
	\$1,573,006	\$1,483,689	

2. INVESTMENT IN AFFILIATES

Investment in affiliates consists of the following:

October 31,  
2001

Edgar Filing: MEDICAL ADVISORY SYSTEMS INC - Form 10QSB/A

AmericasDoctor.com	\$131,000
CORIS	513,750
Jaspin Interactive	309,000
-----	
	\$953,750
=====	

The Company initially recorded its investment in AmericasDoctor.com using the equity method and the excess of the investment over the Company's share of AmericasDoctor.com's net assets was recorded as goodwill, which the Company periodically reviews for impairment, and was assigned a five-year life. The investment balance at January 31, 2002 represented the remaining balance of goodwill. On October 31, 1999, the Company's ownership interest was reduced to 5.3% and further reduced to 2.3% on January 6, 2000 which it remains at January 31, 2002. Effective November 1, 1999, the Company began to account for its investment using the cost method.

In the fourth quarter of 2001, Americasdoctor.com notified the Company that it was terminating its contract for services. This notification caused the Company to review the carrying value of this investment. The Company analyzed current financial information, discussed liquidity concerns with senior

MEDICAL ADVISORY SYSTEMS, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

management and ultimately determined that the carrying value of the investment was impaired. Accordingly, the Company recorded a write-down of the investment of \$508,171. The Company continues to review the carrying value of this investment as current financial information becomes available.

In May 2000, the Company purchased 12% of the outstanding common stock of CORIS of Paris, France for \$400,000 in cash and 10,000 shares of its common stock with a fair value of \$113,750 for a total investment of \$513,750. CORIS provides medical and non-medical travel assistance and insurance claims services to the travel industry and insurance clients through an independent network of 24-hour call centers in 37 countries. The investment agreement with CORIS calls for the development of international internet medical "chat" services and foreign language chat services in the U.S, using CORIS 24-hour call centers to provide infrastructure and personnel. It also calls for CORIS to serve as the international

Edgar Filing: MEDICAL ADVISORY SYSTEMS INC - Form 10QSB/A

arm of MAS' application service provider ("ASP") operations. This investment has been accounted for using the cost method.

In December 2000, the Company purchased a 15% ownership interest in Jaspin Interactive, Inc., ("Jaspin") a privately held company in Dulles, Virginia. The Company paid \$159,000 and issued 40,000 shares of the Company's common stock in exchange for shares of Jaspin. Jaspin is an Internet and Online business solutions provider and software development company. Under the investment agreement, the Company will have the right to use Jaspin's proprietary software and will provide ASP and WEB hosting services to Jaspin. This investment has been accounted for using the cost method.

3. RELATED PARTY  
TRANSACTIONS

Hall & Associates, P.A., Hall & AmDoc Associates, P.A., and Hall & DocTalk, Associates, P.A., which are owned by the Company's Chief Executive Officer, Thomas M. Hall, M.D., provide medical professional services to MAS. Amounts paid to these companies represent fees for professional services rendered and premiums on professional liability insurance. During the three months ended January 31, 2001 and 2002, the Company paid Hall & Associates, P.A., Hall & AmDoc, Associates, P. A, and Hall & DocTalk, Associates, P.A., a combined total of \$655,567 and \$71,912, respectively, in fees and professional liability insurance premiums. At January 31, 2002, total payments due to these affiliates were \$225. There were no amounts payable to these affiliates at January 31, 2001.

12

MEDICAL ADVISORY SYSTEMS, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

4. STOCK WARRANTS

In March 2001, the Company issued 35,000 options to purchase its common stock to an outside consulting firm as consideration for providing marketing services for one year. The holder of the warrants may purchase 35,000 common shares at \$3.90 per share. These options vest ratably over a three-year period. The Company determined the estimated aggregate fair value of the options on the date of grant to be \$66,500 based on the Black-Scholes valuation model. The Company recorded the \$66,500 as prepaid marketing cost and is amortizing this cost to expense over 12 months, the term of the agreement.

There were 240,000 warrants outstanding at January 31, 2001 and 2002.

5. STOCK OPTIONS

The Company has a nonqualified stock option plan to

Edgar Filing: MEDICAL ADVISORY SYSTEMS INC - Form 10QSB/A

provide key employees and non-employees the opportunity to participate in equity ownership. Options may be granted at or below the fair market value of the stock and have a five-year life (increased to ten years in December 1999). Options granted to certain individuals vest ratably over three years. The Company has reserved 1,000,000 common shares for exercise of these stock options.

The following table summarizes the changes in options outstanding and the related prices for the shares of the Company's common stock issued to key employees of the Company for the nine months ended January 31, 2002:

	Numbers of Shares	Exercise Price Per Share
Options outstanding October 31, 2001	1,527,820	\$0.50 to \$10.00
Options exercised	(6,000)	\$0.50
Options outstanding January 31, 2002	1,521,820	\$0.50 to \$10.00
Weighted average price of options outstanding		\$4.96

13

MEDICAL ADVISORY SYSTEMS, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

If the Company had elected to recognize compensation based on the fair value at the grant dates for options issued under the plan described above, consistent with the method prescribed by SFAS No. 123, net income (loss) applicable to common shareholders and earning (loss) per share would have been changed to the pro forma amounts indicated below:

THREE MONTHS ENDED JANUARY 31,	2001	2002
Net income (loss) applicable to common shareholders:		

Edgar Filing: MEDICAL ADVISORY SYSTEMS INC - Form 10QSB/A

as reported	\$ (305,293)	\$ (312,7
pro forma	\$ (337,144)	\$ (451,7
Basic and diluted earnings (loss) per share:		
as reported	\$ (0.06)	\$ (0.
as pro forma	\$ (0.07)	\$ (0.

6. INCOME TAXES The Company has estimated its annual effective tax rate at 0% due to the uncertainty over the level of earnings in 2002. Also, the Company has net operating loss carry-forwards of approximately \$1.0 million for income tax reporting purposes for which no income tax benefit has been recorded due to the uncertainty over the generation of taxable income in 2002.

7. OPERATING SEGMENTS The Company has four operating segments: Interactive medical information services, 24/7 medical response and assistance services, Pharmaceutical kits and equipment and ASP and WEB hosting services. The Interactive medical information services segment provides 24 hour a day medical information to the public via the internet as well as via the telephone to individuals, groups and associations. The 24/7 medical response and assistance services segment provides medical advice to ocean-going vessels and medical travel assistance services to multi-national corporations, the international travel industry and health maintenance organizations. The Pharmaceutical kits and equipment segment provides customized pharmaceutical and medical supply kits to the maritime and aviation industries. In the ASP and WEB hosting services segment, the Company functions as a provider of software application services and WEB hosting services. The Company evaluates performance based on the operating results of the respective segments. The accounting policies of the segments are the same as those described in the summary of accounting policies.

MEDICAL ADVISORY SYSTEMS, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

8. PROPOSED MERGER In November 2001, the Board of Directors approved an agreement and plan of merger pursuant to which the Company would acquire the Advanced Wireless Group of ADS, an affiliate and beneficial owner of 16.6% of the Company's common stock. As consideration for the merger, the Company will issue 18,750,000 shares of common stock to ADS. As a result, ADS will own 82.1% of the Company's outstanding shares of common stock and will be able to control the Company's board of directors. The merger will be accounted for using the purchase method of accounting. Given ADS's ownership of the Company at the completion of the merger, ADS will be considered to be the acquirer for accounting purposes. Accordingly, this transaction will be accounted for as a reverse acquisition of the Company by ADS. The agreement is subject to the approval of IBM Credit Corporation, a secured lender of ADS and the Company's stockholders and other closing conditions.

## Edgar Filing: MEDICAL ADVISORY SYSTEMS INC - Form 10QSB/A

### ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATION

#### FORWARD-LOOKING INFORMATION

This Form 10-QSB contains certain "forward-looking statements" that represent Medical Advisory Systems, Inc. ("MAS") (AMEX: "DOC"), expectations or beliefs, including, but not limited to, statements concerning industry performance and MAS's operations, performance, financial condition, plans, growth and strategies. Statements contained in this Form 10-QSB that are not statements of historical fact may be deemed to be forward-looking statements. Without limiting the generality of the foregoing, words such as "may," "will," "expect," "anticipate," "intend," "could," "estimate," "continue" or the negative or other variations thereof or comparable terminology are intended to identify forward-looking statements. These statements by their nature involve substantial risks and uncertainties, certain of which are beyond MAS's control. Actual results may also differ materially depending on a variety of important factors, many of which are beyond the control of MAS.

The following selected financial data and Management's Discussion and Analysis of Financial Conditions and Results of Operations should be read in conjunction with the Company's first quarter ended January 31, 2001 and 2002 financial statement and notes thereto, included elsewhere in this Form 10-QSB.

#### OVERVIEW

During the quarter ended January 31 ("fiscal quarter") 2002, MAS continued with its efforts to diversify its sources of revenue in order to reduce its dependence on any one segment as a primary generator of revenue. MAS continues to explore strategic alliances and investments in entities that can maximize the profitability of its 24/7 physician-staffed medical call center and the recently completed ASP facility.

In May 2000, MAS purchased 12% of the outstanding common stock of CORIS for \$400,000 in cash and 10,000 in shares of its common stock with a fair value of \$113,750 for a total investment of \$513,750. CORIS provides medical and non-medical travel assistance and insurance claims services to the travel industry and insurance clients through an independent network of 24-hour call centers in 37 countries. The investment agreement with CORIS calls for the development of international internet medical chat services and foreign language chat services in the U.S., using CORIS's 24-hour call centers to provide infrastructure and personnel. It also calls for CORIS to serve as the international arm of MAS's ASP operations. This investment has been accounted for using the cost method.

In December 2000, MAS purchased 15.0% of the issued and outstanding common shares of Jaspin Interactive, Inc., a software and web development company headquartered in Dulles, Virginia, for \$159,000 in cash and 40,000 restricted shares of MAS's common stock. The alliance provides MAS with the right to use Jaspin Interactive's proprietary ChatCentre and RoomCentre software, as well as benefit from upgrades and technical support. MAS uses this software to support its medical and informational chat services. This alliance did not generate any revenue or expense for the quarter ended January 31, 2002.

In February 2001, Digital Angel Corporation, a wholly owned subsidiary of Applied Digital Solutions, Inc, purchased a 16.6% interest in MAS from Mr. Ronald Pickett, MAS's chairman, his two minor children and Dr. Thomas Hall, MAS's Chief Executive Officer. Through this transaction, Digital Angel will have use of MAS's secure, FDA-compliant ASP computer facility for management of sensitive data and a 24/7 physician-staffed medical call center. MAS and Digital

## Edgar Filing: MEDICAL ADVISORY SYSTEMS INC - Form 10QSB/A

Angel are currently developing various business and revenue models for the on-going development and launch of a joint product offering.

On September 6, 2001, MAS announced a new traveler assistance and insurance service, "Travelers Angel Protection Plan." The product was offered in limited release in November 2001. This program is being brought to the public by Travelers Angel Assistance, Inc., a wholly owned subsidiary of MAS. The Travelers Angel Protection Plan product has a number of protection and assistance benefits that are beneficial to both U.S. travelers and travel

17

MEDICAL ADVISORY SYSTEMS, INC

MANAGEMENT DISCUSSION & ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATION

=====  
agents. The benefits of this program include: trip cancellation/interruption insurance, air flight accident insurance, baggage loss insurance, 24/7 telephone access to U.S. licensed physicians and medical repatriation benefits. An unrelated third party insurance company is underwriting the insurance component of the product. Initially, an existing network of travel agents will market the product. MAS expects to generate sales of the product during fiscal year 2002. This product did not produce any revenue or expense in the quarter ended January 31, 2002.

In November 2001, the Board of Directors approved an agreement and plan of merger pursuant to which MAS would acquire the Advanced Wireless Group of ADS, an affiliate and beneficial owner of 16.6% of the MAS common stock. As consideration for the merger, the Company will issue 18,750,000 shares of MAS common stock to ADS. As a result, ADS will own 82.1% of the outstanding shares of MAS common stock and will be able to control the MAS board of directors and decide all matters submitted to MAS stockholders for approval. The merger will be accounted for using the purchase method of accounting as a reverse acquisition of MAS by ADS. The agreement is subject to the approval of IBM Credit Corporation, a secured lender of ADS and the MAS's stockholders and other closing conditions. The Securities and Exchange Commission approved proxy materials, concerning the proposed merger with ADS, for mailing on February 14, 2002. MAS will hold a special meeting of stockholders on March 18, 2002 to ratify the Agreement and Plan of Merger.

RESULTS OF OPERATIONS

NET LOSS

The net loss for the first quarter of 2002 was \$312,785 compared to a net loss of \$305,293 for the same period in fiscal year 2001. The loss of the eRT contract and AmericasDoctor.com program was primarily responsible for the decline in revenues for the first quarter of fiscal 2002 as compared to the same period in fiscal 2001. However, this reduction in revenue was nearly offset by a corresponding reduction in operating expenses that resulted from a decrease in salaries and wages, non-cash management fees and depreciation and amortization expenses.

24/7 MEDICAL RESPONSE AND ASSISTANCE SERVICES

Revenues decreased 32.4% from \$990,000 for the first quarter of fiscal year 2001 to \$669,000 for the same period in fiscal year 2002. Operating expenses decreased 34.9% from \$797,000 for the first quarter of fiscal year 2001 to

Edgar Filing: MEDICAL ADVISORY SYSTEMS INC - Form 10QSB/A

\$519,000 for the same period in fiscal year 2002. For that same period, gross profits decreased 31.1% from \$193,000 in fiscal year 2001 to \$133,000 in fiscal year 2002. The decrease in revenue is attributable to an overall decrease in travel assistance cases, resulting from the significant decline in travel since the attacks on September 11, 2001. The corresponding decrease in operating expenses is attributable to a decrease in the third party expenses that MAS pays in connection with the management of travel assistance cases, ultimately billed back to customers. The decrease in gross profit is due primarily to an increase in costs of clinic services program and salaries and wages.

ASP AND WEB HOSTING SERVICES

Revenues decreased 94.0% from \$252,000 for the first quarter of fiscal year 2001 to \$15,000 for the same period in fiscal year 2002. Operating expenses increased 100.0% from \$7,000 for the first quarter in fiscal year 2001 to \$14,000 for the same period in fiscal year 2002. Gross profits decreased from \$245,000 for the first quarter fiscal 2001 to a break-even for the same period in fiscal 2002. Revenues decreased due to a loss of service revenue from eResearch Technologies (eRT), MAS's primary customer for this service. During the third quarter of fiscal year 2001, eRT insisted on renegotiating the monthly fee under the service agreement originally executed in March 2000. Ultimately, the service contract was cancelled in the fourth quarter, as the parties were unable to agree on a revised fee structure. As a result, MAS did not recognize any revenue from eRT in the first quarter of fiscal year 2002. Consequently, MAS, based on a further review of undiscounted cash flows, including the estimated fair market value of certain long-lived assets, recorded an impairment charge of approximately \$32,000 in the first quarter of fiscal year 2002.

MEDICAL ADVISORY SYSTEMS, INC

MANAGEMENT DISCUSSION & ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATION

=====

INTERACTIVE MEDICAL INFORMATION SERVICES

Revenues decreased 96.6% from \$205,000 in the first quarter of fiscal year 2001 to \$7,000 for the same period in fiscal year 2002. Operating expenses decreased 96.8% from \$186,000 in the first quarter of fiscal year 2001 to \$6,000 for the same period in fiscal year 2002. Gross profits were decreased 384.2% from \$19,000 for the first quarter in fiscal year 2001 to a loss of \$54,000 for the same period in fiscal year 2002. This segment includes the real-time internet chat service (DocChat) and the phone-based DocTalk service. Nearly all revenue and expenses in this segment relate to the DocChat program. MAS introduced its real time online internet chat service in the fourth quarter of 1998. MAS provided this product under contract exclusively to AmericasDoctor.com. Upon the introduction of this service, MAS experienced growth in the volume of its real time online internet chats. Beginning in the second quarter of fiscal year 2000, the volume of real time online internet chats began to decline due primarily to the elimination, by AmericasDoctor.com, of free unlimited consumer access to the chat feature of the AmericasDoctor.com website. The volume of real time online internet chats continued to decline from that time until all chats ceased when AmericasDoctor.com cancelled the call center agreement in late September 2001 after negotiations to continue the agreement failed. As AmericasDoctor.com was the primary customer under this program, MAS does not expect to generate any significant revenue or expenses from real time internet chat services in 2002.

MAS recently launched Travelers Angel, its new travel assistance product. This product includes an Interactive Medical Information service component (DocTalk)

Edgar Filing: MEDICAL ADVISORY SYSTEMS INC - Form 10QSB/A

in every policy sold. Therefore, revenue in this segment is expected to grow based on the success of the Travelers Angel program.

PHARMACEUTICAL KITS AND SERVICES

Revenues increased 4.3% from \$163,000 for the first quarter of fiscal year 2001 to \$170,000 for the same period in fiscal year 2002. Operating expenses increased by 12.6% from \$103,000 for the first quarter of fiscal year 2001 to \$116,000 for the same period in fiscal year 2002. For that same period gross profits decreased by 10% from \$60,000 in fiscal year 2001 to \$54,000 in fiscal year 2002. The continued growth of the revenue in the pharmaceutical segment is the result of an expanding customer base. However, the disparity between the increase in revenues and expenses, in this segment, is primarily the result of an ordinary increase in salaries and wages.

OTHER

Revenues increased 242.9% from \$14,000 for the first quarter of 2001 to \$48,000 for the first quarter of 2002. Operating expenses increased 138.5% from \$13,000 for the first quarter of 2001 to \$31,000 for the first quarter of 2002. Gross profits increased from \$1,000 for the first quarter of 2001 to \$2,000 for the same period in fiscal year 2002. This segment consists of the training program and the primary laser care clinic. The increase in gross profits is due primarily to an increase in the number of participants in the training programs.

SALARIES AND WAGES

Salaries and wages decreased 7.0% from \$273,000 for the first quarter of fiscal 2001 to \$254,000 for the same period in fiscal year 2002. The decrease is due to reduction in staffing and contract personnel related to the cancellation of the eRT\ASP contract.

MEDICAL ADVISORY SYSTEMS, INC

MANAGEMENT DISCUSSION & ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATION

=====

SELLING, GENERAL AND ADMINISTRATIVE

Selling, general and administrative expenses decreased 46.6% from \$363,000 for the first quarter of fiscal year 2001 to \$194,000 for the same period in fiscal year 2002. This is due primarily to a reduction of investor relations expenses and non-cash professional compensation expense related to options and warrants issued to third parties in exchange for services.

DEPRECIATION AND AMORTIZATION

Depreciation and amortization decreased 71.6% from \$204,000 for the first quarter of fiscal year 2001 to \$58,000 for the same period in fiscal year 2002. This reduction is due to the elimination of recurring depreciation and amortization caused by an impairment of long-lived assets recorded in the fourth quarter of fiscal 2001.

OTHER INCOME AND EXPENSE

Interest income decreased 87.5% from \$32,000 in the first quarter of fiscal 2001 to \$4,000 for that same period in fiscal 2002. This was primarily due to a reduction in MAS's cash accounts, which are MAS's primary investment vehicle.

## Edgar Filing: MEDICAL ADVISORY SYSTEMS INC - Form 10QSB/A

Interest expense also decreased from \$15,000 for the first quarter of fiscal year 2001 to \$2,000 for the same period in fiscal year 2002.

### INCOME TAX PROVISION

MAS did not record an income tax provision or benefit in the first quarter of fiscal year 2001 nor 2002 due to continuing losses. MAS maintains a valuation allowance for its entire deferred tax assets due to the uncertainty related to the generation of taxable income in fiscal year 2002.

### LIQUIDITY AND CAPITAL RESOURCES

Cash used in operating activities totaled \$617,000 during the first quarter of fiscal year 2002, and was due primarily to the net loss of \$313,000 as well as a net outflow of \$377,000 from the changes in working capital. The significant changes in working capital were a decrease of \$430,000 in accounts payable and accrued expenses in addition to an increase of \$136,000 in prepaid expenses offset by a decrease of \$193,000 in accounts receivable. There was no investment during this period but cash outflows from financing activities was \$8,000, due primarily to principal debt repayments.

MAS currently has a \$500,000 credit facility agreement with a bank. At January 31, 2002 there was no outstanding balance. The agreement extends through March 2002 and an annual renewal is expected. MAS believes that current levels of cash (\$763,693 at January 31, 2002) together with cash from operations and its existing credit facilities will be sufficient to meet its working capital requirements for the next twelve months.

### RECENT ACCOUNTING PRONOUNCEMENTS

In June 2001, the FASB issued Statement of Financial Accounting Standards No. 141, "Business Combinations" (SFAS No. 141). SFAS No. 141 changed the accounting for business combinations, requiring that all business combinations be accounted for using the purchase method and that intangible assets be recognized as assets apart from goodwill if they arise from contractual or other legal rights, or if they are separable or capable of being separated from the acquired entity and sold, transferred, licensed, rented or exchanged. SFAS No. 141 is effective for all business combinations initiated after June 30, 2001.

20

MEDICAL ADVISORY SYSTEMS, INC

### MANAGEMENT DISCUSSION & ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATION

=====

In June 2001, the FASB issued Statement of Financial Standards No. 142, "Accounting for Goodwill" (SFAS 142). SFAS 142 establishes accounting standards for existing goodwill related to purchase business combinations. Under SFAS 142, MAS will discontinue the periodic amortization of goodwill effective with adoption of the SFAS 142. Also, MAS will have to test any remaining goodwill for possible impairment within six months of adopting SFAS 142, and periodically thereafter, based on new valuation criteria set forth in the statement. Further, SFAS 142 has new criteria for purchase price allocation. SFAS 142 became effective January 1, 2002. If the proposed merger is completed, the transaction would be subject to the requirements of SFAS 141 and 142.

In August 2001, the FASB approved Statement on Financial Accounting Standards No. 144, "Accounting for the Impairment or Disposal of Long-Lived Assets" (SFAS 144). SFAS 144 supersedes SFAS No. 121, "Accounting for Impairment of Long-Lived

Edgar Filing: MEDICAL ADVISORY SYSTEMS INC - Form 10QSB/A

Assets and for Long-Lived Assets to Be Disposed Of" and the accounting and reporting provisions of the Accounting Principles Board Opinion No 30, "Reporting the Results of Operations - Reporting the Effects of Disposal of a Segment of a Business, and Extraordinary, Unusual and Infrequently Occurring Events and Transactions." SFAS 144 establishes a single accounting model, based on the framework established in SFAS 121, for long-lived assets to be disposed of by sale and resolved significant implementation issues related to SFAS 121. SFAS 144 retains the requirements of SFAS 121 to recognize an impairment loss only if the carrying amount of a long-lived asset is not recoverable from its undiscounted cash flows and measure an impairment loss as the difference between the carrying amount and fair value of the asset. SFAS 144 excludes goodwill from its scope, describes a probability-weighted cash flow estimation approach, and establishes a "primary-asset" approach to determine the cash flow estimation period for groups of assets and liabilities. SFAS 144 is effective for fiscal years beginning after December 15, 2001, and interim periods within those fiscal years, with early application encouraged. MAS believes the adoption of SFAS 144 will not have a material impact on its financial position or results of operations.

PART II - OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

Silva, et al. v. Customized Services Administrators, Incorporated, dba CSA Travel Protection, Inc. et al., No. CV798528 (Santa Clara County Superior Court)

On May 29, 2001, Janet Silva, individually and as Guardian AD LITEM for Jonathan Silva, a minor, and the Estate of Clarence William Silva, Jr. (collectively, "Plaintiffs") filed suit against Customized Services Administrators, Incorporated ("CSA"), Princesmart, Inc. ("Princesmart"), Commercial Union Insurance Company ("Commercial Union"), CGU Insurance Group, and the Company (collectively the "Defendants") in the Superior Court of the State of California in and for the County of Santa Clara. The allegations of the complaint arise from a vacation guarantee insurance policy (the "Insurance Contract") allegedly purchased by Plaintiffs from Defendants on March 6, 2000. The complaint alleges, among other things, that Defendants breached the Insurance Contract, defrauded Plaintiffs, acted in bad faith, engaged in deceptive and unlawful business practices, resulting in the wrongful death of Clarence William Silva, Jr. (the "Deceased") and the intentional infliction of emotional distress on Plaintiffs. The complaint seeks the cost of funeral and burial expenses of the Deceased and amounts constituting the loss of financial support of the Deceased, general damages, attorney's fees and costs, and exemplary damages.

CSA has filed a cross-claim against the Company alleging that the Company should be held liable for any liability that CSA may have to Plaintiffs. The Company has denied the allegations of the complaint and the CSA cross-claim and is vigorously contesting all aspects of this action.
