Item 8.01. Other Events

OGE Energy Corp. (the "Company") is the parent company of Oklahoma Gas and Electric Company ("OG&E"), a regulated electric utility with approximately 836,000 customers in Oklahoma and western Arkansas. In addition, the Company holds a 25.7 percent limited partner interest and a 50 percent general partner interest in Enable Midstream Partners, LP.

As previously reported, on August 25, 2016, OG&E filed a general rate case with the Arkansas Public Service Commission ("APSC"). The rate filing requested a \$16.5 million rate increase based on a 10.25 percent return on equity. The rate increase was based on a June 30, 2016 test year and included a recovery of over \$3.0 billion of electric infrastructure additions since the last Arkansas general rate case in 2011. The increase also reflects increases in operation and maintenance expenses, including vegetation management, and increased recovery of depreciation and dismantlement costs.

In April 2017, OG&E entered into a settlement with the staff of the APSC and other intervenors. The settlement provides for a \$7.1 million annual rate increase and a 9.50 percent return on equity on a 50.0 percent equity capital structure. The settlement also provides that OG&E will be regulated under a formula rate rider, which should result in a more efficient process as the return on equity, depreciation rates and capital structure should not change from what is approved by the APSC in the current rate case proceeding unless differences of plus or minus 50 basis points in return on equity were to occur. Adjustments are limited to plus or minus four percent of revenue for each rate class for the 12 months preceding the projected year. The initial term for the formula rate rider is not to exceed five years, unless additional approval is obtained from the APSC. OG&E expects to make its first filing under the Arkansas Formula Rate Rider in October 2018.

The APSC approved the settlement on May 18, 2017. The settlement agreement and approval from the APSC are attached as exhibits and incorporated herein by reference.
