Item 5.02 Compensatory Arrangements of Certain Officers.

On October 23, 2014, Valero’s board of directors approved grants of long-term incentive awards to Valero’s “named executive officers” (as defined in Item 402(a)(3) of Regulation S-K). The grants were made under Valero’s 2011 Omnibus Stock Incentive Plan, and represented awards of (i) options to purchase shares of Valero’s common stock (“Common Stock”), (ii) restricted shares of Common Stock, and (iii) performance shares.

The stock options have an exercise price equal to the reported market price of the Common Stock on the date of grant, vest annually in one-third increments beginning October 23, 2015, and expire ten years from the date of grant. The options become exercisable, if at all, annually in equal one-third increments and are exercisable only if the reported market price of Valero’s Common Stock on the NYSE increases to a price that is 25 percent greater than the options’ exercise price.

The restricted shares vest (become nonforfeitable) in annual one-third installments over a period of three years beginning October 23, 2015.

The performance shares are subject to vesting in three annual increments based upon Valero’s total shareholder return (TSR) compared to its peers during one-year, two-year, and three-year performance periods (the first vesting date being in January 2016 for the performance period ending in 2015). On their vesting dates, the performance shares are payable in shares of Common Stock in amounts ranging from zero to 200 percent of the number of vested performance shares. Additional shares of Common Stock may be awarded on the vesting dates with respect to the computed value of dividend equivalents accrued (measured against the Common Stock) during the performance measurement periods, subject to Valero’s achievement of prescribed TSR rankings relative to Valero’s peers.

The specific long-term incentive grants made to Valero’s named executive officers on October 23, 2014 are listed below.
