Item 2.02. Results of Operations and Financial Condition.

The press release dated November 6, 2012 concerning financial results of Carrizo Oil & Gas, Inc. (the “Company”) for the quarter ended September 30, 2012, furnished as Exhibit 99.1 to this report, is incorporated by reference herein. The press release contains measures which may be deemed “non-GAAP financial measures” as defined in Item 10 of Regulation S-K of the Securities Exchange Act of 1934, as amended. We discuss EBITDA, as defined in the press release, on a total and a per share basis for the quarters ended September 30, 2012 and 2011 and the nine months ended September 30, 2012 and 2011. We believe that EBITDA, as defined, may provide additional information about our ability to meet our future requirements for debt service, capital expenditures and working capital. EBITDA, as defined, is a financial measure commonly used in the oil and gas industry and should not be considered in isolation or as a substitute for net income, operating income, cash flows from operating activities or any other measure of financial performance presented in accordance with U.S. generally accepted accounting principles (“GAAP”) or as a measure of a company’s profitability or liquidity. Because EBITDA, as defined, excludes some, but not all, items that affect net income, the EBITDA, as defined, presented in the press release may not be comparable to similarly titled measures of other companies. The most comparable GAAP financial measure, net income, and information reconciling the GAAP and non-GAAP measures were included in the press release.

We discuss Adjusted Net Income, excluding certain non-cash items as defined in the press release, on a total and a per share basis for the quarters ended September 30, 2012 and 2011 and the nine months ended September 30, 2012 and 2011. We believe that this information will help investors compare results between periods and identify operating trends that would otherwise be masked by those certain non-cash items. The most comparable GAAP financial measure, net income (loss), and information reconciling the GAAP and non-GAAP measures were included in the press release.

We discuss adjusted revenues including the impact of realized gain on derivatives, net for the quarters ended September 30, 2012 and 2011 and the nine months ended September 30, 2012 and 2011. We believe that this information will help investors understand our actual results, which are impacted by our oil and gas derivatives. The most comparable GAAP financial measure, total oil and gas revenues, and information reconciling the GAAP and non-GAAP measures were included in the press release.

None of the information furnished in Item 2.02 and the accompanying exhibit will be deemed “filed” for purposes of Section 18 of the Securities Exchange Act of 1934, as amended, nor will it be incorporated by reference into any registration statement filed by the Company under the Securities Act of 1933, as amended, unless specifically identified therein as being incorporated therein by reference. The furnishing of the information in this Item 2.02 and the accompanying exhibit is not intended to, and does not, constitute a determination or admission by the Company, that the information in this Item 2.02 and the accompanying exhibit is material or complete, or that investors should consider this information before making an investment decision with respect to any security of the Company.

Item 9.01. Financial Statements and Exhibits.
