EXECUTIVE COMPENSATION

Compensation Committee Report on Executive Compensation

The Company operates in the highly competitive global logistics services industry. The Company believes that the quality of its service depends upon the quality of its officers and employees. In order to succeed, the Company believes that it must be able to attract and retain qualified executives.

The Compensation Committee of the Board of Directors was established to develop and implement compensation policies, plans and programs which seek to:

attract and retain key executives critical to the long-term success of the Company;

enhance the profitability of the Company, and thus shareholder value, by aligning closely the financial interests of the Company's senior managers with those of its shareholders; and

support the short- and long-term strategic goals and objectives of the Company.

Compensation for each of the Named Executive Officers, as well as other senior executives, consists of a base salary, annual incentive bonus compensation, and long-term incentives in the form of stock options. The Compensation Committee considers the competitiveness of the entire compensation package of an executive officer relative to that paid by similar companies when determining base salaries, percentage allocation of the bonus program, and grant of stock options. The Company's objective is to offer a total compensation package which gives the executive the opportunity to be paid at a level which is superior to that offered by the Company's competitors in the global logistics services industry.

Base Salary. Throughout its history, the Company has followed the policy of offering its officers and other key managers a compensation package which is weighted toward incentive-based compensation. Accordingly, the Company believes that annual base salaries of its executive officers are generally set well below competitive levels paid to senior executives with comparable qualifications, experience and responsibilities at other comparably-sized companies engaged in similar businesses as the Company. This belief is based on the general knowledge of the Compensation Committee and management of compensation practices in the industry and, in part, on a review of compensation disclosures in the proxy statements of such comparably-sized companies, including certain companies in the industry group index shown in the stock performance graph elsewhere in this Proxy Statement.

Base salaries for executives are reviewed by the Compensation Committee on an annual basis as part of an overall examination of compensation. The base salary may be changed based on the Compensation Committee's decision that an individual's contribution, duties, and responsibilities to the Company have changed.

The Compensation Committee believes that the total compensation of the Chairman and Chief Executive Officer should be closely linked to operating income, and as a result, the fixed portion (represented by base salary) of the compensation package for this position has remained at the current level since June 1, 1987.

Incentive Compensation. The Company has maintained an incentive bonus program for executive officers since the inception of the Company. In January 1985, the Compensation Committee fixed the aggregate amount of bonuses available under the program at ten percent of pre-bonus operating

income. Factors considered in determining the percentage to be made available for distribution included the number of executives participating in the bonus program, as well as the level of Company operations. The Compensation Committee also considered the aggregate amount of discretionary bonuses paid to executive officers in each of the years from 1982 to 1984, which approximated ten percent of operating income during those years.

The Compensation Committee believes that setting the aggregate executive bonus at a fixed percentage of operating income, with fluctuations in bonuses paid tied to actual changes in operating income, provides both a better incentive to the executives than discretionary bonuses or alternative targeted performance goals, and a more direct relationship between the executives' incentive compensation and shareholders' return. By placing emphasis on growth in operating income, any change in compensation is directly proportional to the profit responsibility of the executive team.

On May 7, 1997 the shareholders approved and ratified the 1997 Executive Incentive Compensation Plan (the "1997 Compensation Plan") which brought the long-established executive incentive compensation plan into technical compliance with Section 162(m) of the Internal Revenue Code of 1986, as amended (the "Code") a provision which applied to the Company for the first time in 1997. The Compensation Committee is responsible for administration of the 1997 Compensation Plan.

Except for Mr. Wang, all bonuses accrued for Named Executive Officers and selected other senior officers after the July 1, 1997 effective date were computed and paid from a pool consisting of ten percent of pre-bonus operating income established and maintained according to the terms of the 1997 Compensation Plan. From the inception of the Company to March 31, 1999, Mr. Wang's bonus was paid from a share in the Company standard bonus program for operating units in the Far East under Mr. Wang's supervision. Effective April 1, 1999, Mr. Wang's bonus was computed and paid under the 1997 Compensation Plan.

All officers of the Company who receive an annual base salary equal to or less than \$120,000 are eligible for inclusion in the 1997 Compensation Plan at the discretion of the Compensation Committee. Individual eligibility and allocation is determined quarterly. Any portion of bonus established in the 1997 Compensation Plan which is not allocated by action of the Compensation Committee may be allocated to key officers determined to be eligible in the discretion of the Chief Executive Officer. However, allocations made by the Chief Executive Officer cannot increase the compensation of any Named Executive Officer nor can such an allocation cause any individual to become a Named Executive Officer.

The percentage of the bonus pool allocated to the Chairman and Chief Executive Officer has changed periodically to allow increased allocations to other executives and as a result of changes in the total number of participating executives. During 2002, the portion of the executive bonus pool allocated by the Compensation Committee to the Chairman and Chief Executive Officer increased by less than two percent as a result of a decrease in the total number of participants.

The 1997 Compensation Plan as adopted by the shareholders and administered by the Compensation Committee mirrors the compensation program that has been in place in each operating office since the inception of the Company. The Company has maintained a consistent compensation philosophy: offer a confident and capable individual a modest base salary and the opportunity to share in a fixed and determinable percentage of the operating profit generated by the business unit under his

or her control. Growth in individual compensation will only occur in conjunction with an increase in the contribution to Company profits. Along with the branch manager, key department managers and supervisors share in the distribution of this branch bonus pool.

Key elements of this compensation philosophy include encouraging each manager to think and act as an entrepreneur, establishing compensation levels that are not perceived as being arbitrary, developing financial rewards that are team-oriented, and closely aligning the interests of the individual employee with the goals of the Company and returns to the shareholders.

Long-Term Incentives. The Compensation Committee believes that stock option grants afford a desirable, long-term compensation method because they closely ally the interests of management with shareholder value. During 2002, the Compensation Committee granted stock options for 2,615,050 shares to 1,384 employees including each of the Named Executive Officers. Except in the case of the Chairman and Chief Executive Officer, the Compensation Committee granted stock options based upon recommendations made by senior management. Prior to approving any stock option grants, the Compensation Committee reviews and considers factors such as the employee's current position, length of service, and any prior stock option grants.

During the 2002 stock option review process, stock option grants for the Named Executive Officers were granted from shares authorized under the 1985 and 1997 Stock Option Plans. Except for one grant of 10,000 shares, all options issued to employees in 2002 were granted with an exercise price equal to 100% of market value with 50% vesting three years from the date of grant, 75% vesting after four years, 100% vesting after five years and these options had an expiration date ten years from the date of grant. The remaining 10,000 shares were granted from the 1997 Stock Option Plan with an exercise price equal to 120% of market value with 100% vesting in three years and expiring five years from the date of grant.

Each executive officer of the Company currently holds unvested stock options. The Compensation Committee believes that unvested options promote stability in the management team and provide a continuing incentive for focus on sustained long-term growth in shareholder value.

Post Employment Personal Services Agreement. The employment contract of the Chairman and Chief Executive Officer contains a provision calling for post employment personal services for a minimum of sixty days per year including up to twenty days of business travel annually. Subject to earlier termination as described below, the personal services agreement will run for a period of ten years or until age seventy whichever comes first. In exchange, the Chairman and Chief Executive Officer will receive an annual payment initially equal to the base salary received for the most recent twelve months of service. Payments after the first year will be indexed for changes to the CPI or similar index. If the Chairman and Chief Executive Officer were to retire in 2003 the initial annual payment would be \$110,000 and the agreement would run through March 17, 2013 unless terminated as provided below. The contract also extends coverage under the Company's standard benefits package as amended from time to time. The Chairman and Chief Executive Officer is prohibited from competing with the Company during the term of the personal services agreement. The obligation of the Company for such compensation is subject to termination in the event of death, disability or willful failure to perform and would also terminate in the event that employment was terminated with cause.

10

The Compensation Committee recognizes the key role that continuity in personal relationships play in the global logistics services business. This agreement calling for personal services assures the Company of the post-retirement involvement and loyalty of the Chairman and Chief Executive Officer. In addition, this agreement anticipates and facilitates the eventual orderly transition from one Chief Executive Officer to another.

Policy on Deductibility of Compensation. Under Section 162(m) of the Code, the Federal income tax deduction for certain types of compensation paid to the Company's Chief Executive Officer and to the four highest compensated officers whose compensation must be reported to shareholders under the Securities Exchange Act of 1934, as amended (the "Exchange Act"), is limited to \$1,000,000 per officer per taxable year unless such compensation meets certain requirements. The Compensation Committee believes that this limitation will not apply to compensation accrued in 2002. In making future compensation decisions, the Compensation Committee intends to take into account and mitigate to the extent feasible the effect of Section 162(m) as it discharges its responsibilities, although in certain cases the Compensation Committee may award compensation to covered officers which is not fully deductible as a result of this limitation.

Since 1985, the Compensation Committee of the Board of Directors has set the aggregate amount of executive bonuses at ten percent of pre-bonus operating income. All bonuses were computed and paid according to the terms of the 1997 Compensation Plan.
- (2) These amounts include the Company's matching contributions of \$.50 for each \$1.00 of employee savings, up to a maximum annual Company contribution of \$1,500 per qualified employee, under an employee savings plan intended to qualify under Section 401(k) of the Code.

Rommel C. Saber	40,000	1.5	28.58	5/8/2012	719,200	1,822,000

- (1) The above grants were made on May 8, 2002 pursuant to the Company's 1985 and 1997 Stock Option Plans ("Option Plans"). All options granted in fiscal 2002 are subject to a vesting schedule. Subject to earlier vesting under the conditions set forth in the Option Plans, fifty percent of the options will be exercisable commencing three years from the date of the grant and twenty-five percent will be exercisable four and five years after the date of the grant, respectively. See "Change in Control Arrangements."
- (2) The options expire ten years after the date of the grant.
- (3) Realizable values are reported net of the option exercise price and ignoring tax consequences. The dollar amounts under these columns are the result of calculations using the standard 5% and 10% rates set by the Securities and Exchange Commission (the "SEC"). Actual gains, if any, on stock option exercises are dependent on future appreciation in value of all outstanding Common Stock. The potential realizable value calculation assumes that the option holder remains employed through the vesting period and then waits until the end of the option term to exercise the option.

Represents the difference between the closing price of the Company's Common Stock on the date of exercise and the exercise price of the options, multiplied by the number of options exercised.

(2)

This value is calculated based on the closing price of the Company's Common Stock at December 31, 2002, less the exercise price multiplied by the number of in-the-money options held. The calculation ignores tax consequences. There is no guarantee that if and when these options are exercised they will have this value.

Employment Contracts

The Company has entered into employment agreements with the following Named Executive Officers which provide for the base salaries and expiration dates indicated below:

Name and Current Position	Current Base Annual Salary	Expiration Date
Peter J. Rose Chairman and Chief Executive Officer	\$ 110,000	May 2003
James L.K. Wang President-Asia	\$ 100,000	May 2003
Glenn M. Alger President and Chief Operating Officer	\$ 100,000	May 2003
Robert L. Villanueva Executive Vice President- The Americas	\$ 100,000	May 2003
Rommel C. Saber Executive Vice President- Europe, Africa & Near/Middle East	\$ 100,000	May 2003

Each of the above employment agreements is automatically renewable upon expiration for additional one-year periods unless either party elects otherwise. Each agreement includes a covenant of the employee not to compete with the Company during its term and for a period of six months following termination, at the option of the Company, provided that no change in control shall have occurred. See "Change in Control Arrangements" below. The Company has the right to terminate any of these agreements at any time. If the Company terminates an agreement without cause during the term thereof, the employee is entitled to receive an amount equal to his last six-months compensation. In other circumstances, such persons will receive a lump sum payment equal to six months base salary in the event the Company elects the post-employment covenant not to compete.

Change in Control Arrangements

The employment agreement for each executive officer allows the Company to extend the restriction on competition with the Company for at least six months following termination of the employment relationship. The extension is at the sole election of the Company unless the employee terminates the employment relationship by resigning during a specified period surrounding a "change in control," as defined below, in which case the employee may decline any offered lump sum payment and thereby avoid the accompanying restriction on competition.

Historically, most options granted under the Company's 1985 Plan and the 1997 Plan vest at the rate of 50% three years after the date of grant, an additional 25% four years after the date of grant,

and the balance five years after the date of grant. Certain options granted under the Company's 1997 Plan vest 100% after three years. However, both the 1985 Plan and the 1997 Plan provide that outstanding options will become immediately vested and fully exercisable in connection with the occurrence of a "change in control" of the Company.

"Change in Control" means either one of the following: (i) when any person (with certain exceptions) becomes the beneficial owner, directly or indirectly, of 50% or more of the combined voting power of the Company's then outstanding securities or (ii) shareholder approval of

a transaction involving the sale of all or substantially all of the assets of the Company or the merger of the Company with or into another corporation.

CERTAIN TRANSACTIONS

In connection with the acquisition of the assets of certain Far East affiliates including Taiwan effective January 1, 1984, the Company agreed to use its best efforts, so long as James L.K. Wang remains a shareholder of the Company and is employed by the Company or any of its affiliates or exclusive agents, to cause one person nominated by Mr. Wang to be elected to the Company's Board of Directors. In addition, the Company agreed that it will make no appointment of a manager for any Far East office without prior consultation with Mr. Wang so long as he remains a shareholder of the Company and is employed by the Company or one of its affiliates or exclusive agents. Pursuant to this agreement, Mr. Wang has been nominated for re-election to the Company's Board of Directors.

RELATIONSHIP WITH INDEPENDENT PUBLIC ACCOUNTANTS

The Company has selected KPMG LLP to continue as its principal independent public accountants for the current year. Representatives of KPMG LLP are expected to be present at the Annual Meeting and have the opportunity to make a statement, if they so desire, and to respond to appropriate questions.

Set forth below is information relating to the aggregate KPMG LLP fees for professional services rendered for the fiscal years ended December 31, 2002 and 2001.

Description of Professional Service	2002	2001
Audit Fees(1)	\$ 855,000	\$ 622,000
Audit Related Fees(2)	0	0
Tax Fees(3)	64,000	40,000
All Other Fees(4)	12,000	8,000

- (1) Includes fees associated with the annual audit, the reviews of the Company's quarterly reports on Form 10-Q, and statutory audits required internationally.
- (2) No fees were paid to KPMG LLP in either year for employee benefit plan audits, due diligence related to mergers and acquisitions, accounting consultations and audits in connection with acquisitions, internal control reviews and consultations concerning financial accounting and reporting standards.
- (3) Includes the fees for tax advice. No fees were paid to KPMG LLP in either year for tax compliance or for tax planning.

17

- (4) Includes fees for routine international governance issues. No fees were billed by or paid to KPMG LLP for professional services relating to financial information systems design and implementation during either 2002 or 2001.

In 2002, the Audit Committee adopted a policy that prohibits the Company from retaining its principal independent auditors for any new engagements other than those that could be described above as audit or audit related. This policy does not apply to the continuation of any engagements, if the completion of such work by KPMG LLP would be most efficient and cost effective. In all cases, the Audit Committee has determined that the provision of these services is compatible with KPMG LLP maintaining its independence.
