FREQUENTLY ASKED QUESTIONS

Q: Why have I received this material?

A: Our Board of Directors has sent you this proxy material and invitation to the Annual Shareholders Meeting to ask for your vote as a WPS Resources' shareholder to re-elect three members of the Board of Directors.

Q: How are Directors elected?

A: A plurality of votes cast at the annual meeting is required for the election of directors (assuming a quorum is present). At the Annual Meeting, we will be electing three directors. "Plurality" means that the three individuals who receive the largest number of votes will be elected as directors. Shares not voted at the annual meeting, whether due to abstentions, broker non-votes, or otherwise, and votes withheld will not affect the election of directors, except to the extent that the failure to vote for an individual results in another individual receiving a larger number of votes.

Q: What constitutes a quorum?

A: A quorum is the number of shares that must be in attendance at a meeting to lawfully conduct business. Votes of a majority of the shares entitled to vote will constitute a quorum. As of the record date of March 27, 2003, we had 32,178,630 shares eligible to vote. Votes of 16,089,316 shares will constitute a quorum.

Q: Are there any other issues to be voted on?

A: There are no additional items to be voted on at this Annual Meeting of Shareholders.

Q: Is my vote confidential?

A: Yes. Whether you vote your shares by mail, telephone, or the Internet your vote will be received directly by American Stock Transfer & Trust Company, our independent stock transfer agent. American Stock Transfer & Trust Company will serve as inspector, count all the proxies submitted, and report the vote at the Annual Shareholder Meeting on May 15, 2003. How you vote will be held in confidence by American Stock Transfer & Trust Company.

Q: Do I need to attend the Annual Meeting in order to vote?

A: No. You can vote at any time prior to the Annual Meeting by completing and mailing the enclosed proxy card, by telephone, or the Internet. You may also vote at the Annual Meeting in person by submitting your proxy card at the meeting.

Q: Who can vote?

A: Anyone who owns WPS Resources common stock as of the close of business on March 27, 2003 can vote. Each of your shares is entitled to one vote.

Q: How do I vote?

A: You may vote your shares in any one of three different methods:

- 1) Complete, sign, and date each proxy card you receive and return it in the prepaid envelope;
- 2) Vote your proxy over the telephone by calling toll-free (800) 776-9437; or
- 3) Vote over the Internet at <http://www.voteproxy.com>.

Edgar Filing: WPS RESOURCES CORP - Form DEF 14A

Instructions on how to vote your shares over the telephone or Internet are provided on your proxy card. Your completed proxy will be voted in accordance with your instructions. If you return your proxy card and do not mark any selections, your proxy will be voted FOR the re-election of Kathryn M. Hasselblad-Pascale, William F. Protz, Jr., and Larry L. Weyers. You have the right to change your vote any time before the meeting by:

- 1) notifying us in writing,
- 2) revoting over the telephone or Internet,
- 3) voting in person at the Annual Meeting, or
- 4) returning a later-dated proxy card.

By voting your shares, you also authorize your shares to be voted on any other business that may properly come before the Annual Meeting or any adjournment or postponement thereof in accordance with the best judgment of the appointed proxies, Larry L. Weyers and Barth J. Wolf.

You may vote over the telephone or the Internet until midnight Eastern daylight time on May 14, 2003.

Q: Do I need to return the proxy card if I vote over the telephone or Internet?

A: If you vote your proxy over the Internet or telephone, you *should not* mail your proxy card. If you return your proxy card after voting over the Internet or telephone, it will be counted as if you intended to change your vote.

Q: How are shares held in the Employee Stock Ownership Plan Trust voted?

A: If you own stock in the Wisconsin Public Service Employee Stock Ownership Plan, you are provided a proxy card which, when returned, will serve as voting instructions to the plan trustee. The trustee of the plan, as of the record date, is State Street Bank and Trust Company in Boston, Massachusetts. The trustee will vote the plan shares in the manner indicated on the proxy card submitted. Any proxies not returned by participants will not be voted.

Q: When are the 2004 shareholder proposals due?

A: In order to be included in next year's proxy statement, shareholder proposals must be submitted in writing by December 13, 2003. Proposals should be submitted to Barth J. Wolf, Secretary and Manager Legal Services, WPS Resources Corporation, P. O. Box 19001, Green Bay, WI 54307-9001.

shareholder communications over the Internet. You will receive the material quicker, you will reduce costs for WPS Resources, and help the environment. Agreements with Named Executive Officers

Edgar Filing: WPS RESOURCES CORP - Form DEF 14A

Individual employment and severance agreements exist with each of the Named Executive Officers. The agreements are intended to retain the services of these officers in the event of a change in control of WPS Resources. Each agreement entitles the officer to a continuation of salary and benefits for a maximum period of three years after a change in control. Each employment and severance agreement also provides a cash termination payment should there be a termination of the officer's employment after a change of control or in anticipation of a change in control. Generally, total termination payments provided are not to exceed the present value of 2.99 times the executive's average annual salary and annual bonuses for the five years immediately preceding a change of control. Certain Named Executive Officers may receive termination payments, plus a tax gross up payment exceeding 2.99 times average annual salary, portions of which may not be tax deductible by WPS Resources. The termination payments replace all other severance payments to which the executive may be entitled under current severance agreements. In addition, Wisconsin Public Service has provided Joseph P. O'Leary an additional severance plan providing for payment of one times annual salary if his employment is terminated within three years of employment for any reason other than cause or voluntary change of employment. This agreement does not apply in the event of a change of control.

As of December 31, 2002, WPS Resources had not granted any SARs to any employee.

All options for WPS Resources common stock reported above will vest at a rate of 25% per year beginning on December 12, 2003 and ending on December 12, 2006. The year-end closing price of WPS Resources stock was \$38.82. There were no stock appreciation rights granted to any employee in 2002.

The grant date present value in column (f) above is based on option values of \$5.15 per option granted on December 12, 2002. This value was calculated using the standard Binomial Model. For purposes of determining the value of these options, the following assumptions were made:

Option Value	\$5.15
Annual dividend yield	6.23%
Volatility	20.08%
Risk free rate of return	4.43%
Time of exercise	10 years

The annual dividend yield assumption was based on actual dividends and stock prices of WPS Resources common stock over the prior 36-month period to determine an annualized 12-month yield. The risk free rate of return equals the interest rate on 10-year treasuries on the grant date. Due to the lack of experience with the plan, the time of exercise was assumed to be the maximum exercise period of the options. Expected volatility is based on the monthly price of WPS Resources common stock over the three years prior to the grant date.

Performance Shares are a part of the WPS Resources 2001 Omnibus Incentive Compensation Plan. The program sets performance goals, based on total shareholder return, at the start of each three-year period. Comparison of WPS Resources' total shareholder return to the shareholder return of a peer group of major publicly traded energy service companies, for the three-year period, determines if the performance share awards are issued, and if so, how many. The number of shares awarded individuals within the plan is based on market levels of incentive compensation and competitiveness of the total compensation package. Award levels are targeted to meet the median of the range of similar awards paid by comparable companies.

Compensation for pension purposes differs from the amounts in the annual compensation columns of the Summary Compensation Table for the Chief Executive Officer and all other Named Executive Officers. Pension Compensation for the Named Executive Officers is:

Gerald L. Mroczkowski	322,947	34

Annual benefits payable from the Pension Plan were subject to a maximum limitation of \$160,000 for 2002 under the Internal Revenue Code. The amount of compensation considered for purposes of the Pension Plan was limited to \$200,000 for 2002 under the Internal Revenue Code. The Pension Restoration Plan provides additional pension benefits for Pension Restoration Plan participants to compensate for any loss of

Edgar Filing: WPS RESOURCES CORP - Form DEF 14A

benefit payable under the Pension Plan caused by the maximum benefit limitation, compensation limitation, or any salary deferral under the WPS Resources Corporation Deferred Compensation Plan. Retirement benefits presented in the Pension Plan Tables include the Pension Restoration Benefit.

The WPS Resources Corporation Supplemental Retirement Plan provides supplemental monthly payments to its participants. Certain executive officers, including the Chief Executive Officer and each of the other Named Executive Officers, participate in the Supplemental Retirement Plan. Retirement benefits presented in the Pension Plan Tables above do not include benefits under the Supplemental Retirement Plan.

Benefits under the Supplemental Retirement Plan are payable if the participant retires or terminates employment after having attained age 55 and having completed at least 10 years of credited service or five years in the event of termination following a change in control. An eligible participant with 15 or more years of credited service will receive a monthly benefit equal to 60% of the participant's "Final Average Earnings," reduced by the monthly Pension Plan benefit and Restoration Plan benefit to which the participant is entitled or would be entitled had the participant elected an annuity form of payment. "Final Average Earnings" mean one thirty-sixth of the base salary and annual bonus paid to the participant during the month in which the participant's employment is terminated and the immediately preceding 35 months, or during the three calendar years immediately preceding the calendar year in which the participant's employment is terminated. If the participant has fewer than 15 years of credited service, the

60% target benefit percentage is reduced by 4% for each year by which the participant's years of credited service is less than 15 years.

Estimated annual benefits to be received by each of the Named Executive Officers under the Supplemental Retirement Plan based on current employment status are as follows:

Audit Committee Report⁽¹⁾

March 10, 2003

The Audit Committee has reviewed and discussed with management the audited financial statements of WPS Resources as of and for the year ended December 31, 2002. In addition, we have discussed with Deloitte & Touche LLP, the independent accountants for WPS Resources, the matters required by Statements on Auditing Standards (SAS) No. 61, "Communications with Audit Committees", as amended by SAS No. 89, "Audit Adjustments", and SAS No. 90, "Audit Committee Communications".

The Audit Committee also has received the written disclosures and the letter from Deloitte & Touche LLP required by Independence Standards Board Standard No. 1, and has discussed the firm's independence with respect to WPS Resources. We have also discussed with management of WPS Resources and Deloitte & Touche such other matters and received such assurances from them as we deemed appropriate.

Based on the foregoing review and discussions and relying thereon, we have recommended to the WPS Resources' Board of Directors the inclusion of the Audited Financial Statements in the WPS Resources' Annual Report for the year ended December 31, 2002 on Form 10-K.

The Board has reappointed Deloitte & Touche LLP to serve as our independent public accountants for calendar year 2003. Representatives of Deloitte & Touche LLP will be at the Annual Meeting and will have a chance to make a statement if they desire. They will also be available to respond to your questions.

PRINCIPAL ACCOUNTANTS

Change in Principal Accountants

On May 28, 2002, the Audit Committee of WPS Resources' Board of Directors dismissed Arthur Andersen LLP as the principal accountants of WPS Resources and its subsidiary, Wisconsin Public Service, following the completion of Arthur Andersen's limited review of their results of operations for the first quarter ending March 31, 2002. Prior to this decision, Arthur Andersen had been engaged by WPS Resources and Wisconsin Public Service as their principal accountants to audit their financial statements and those of their subsidiaries.

The reports of Arthur Andersen on the financial statements of WPS Resources and Wisconsin Public Service as of December 31, 2001 and 2000 did not contain an adverse opinion or disclaimer of opinion and were not qualified or modified as to uncertainty, audit scope or accounting principles.

During 2000, 2001, or the period January 1, 2002 to May 28, 2002, there had been no disagreements with Arthur Andersen regarding accounting principles or practices, financial statement disclosures, or auditing scope or procedure, which if not resolved to the satisfaction of Arthur Andersen would have caused them to make reference thereto in their report for those periods.

Effective May 28, 2002, the Audit Committee of WPS Resources' Board of Directors appointed Deloitte & Touche LLP as its new independent accountants, to act as the principal accountants in auditing the financial statements of WPS Resources and its subsidiaries. Neither WPS Resources nor any of its subsidiaries has consulted with Deloitte & Touche regarding any matters described in Item 304(a)(2)(i) or (ii) of Regulation S-K in 2000, 2001, or the period January 1, 2002 to May 28, 2002.

Principal Accountants' Fees

In connection with the fiscal year ended December 31, 2002, Deloitte & Touche provided various audit and non-audit services to WPS Resources and billed WPS Resources for these services as follows:

- a) *Audit Fees.* Aggregate fees billed to WPS Resources by Deloitte & Touche for professional services rendered for the audit and review of WPS Resources financial statements for the fiscal year ended December 31, 2002 and re-audit for the years ended December 31, 2000 and 2001 totaled \$1,485,805.
- b) *Financial Information Systems Design and Implementation Fees.* Deloitte & Touche did not render any services to WPS Resources respecting financial information systems design and implementation during the fiscal year ended December 31, 2002.
- c) *All Other Fees.* Aggregate fees billed to WPS Resources by Deloitte & Touche for audit related services rendered for the fiscal year ended December 31, 2002 to WPS Resources, including tax related services, totaled \$231,550.

The Audit Committee has considered whether the provision of the non-audit services related to sections (b) and (c) above was compatible with maintaining the independence of Deloitte & Touche and determined that such services did not adversely affect the independence of Deloitte & Touche.

Compensation and Nominating Committee Report

The Compensation and Nominating Committee of the Board of Directors establishes and administers the executive compensation programs of WPS Resources and its subsidiaries. The Committee consists of three independent members of the Board of Directors.

The integrated executive compensation programs are designed to:

establish a connection between executive compensation and increasing shareholder value, customer satisfaction, and employer responsibility;

attract, retain, motivate, and develop a highly competent executive staff; and

achieve a balance between base pay and short-term bonus and long-term incentives.

The Committee continues to emphasize the importance of linking executive and shareholder interests by continuing stock ownership guidelines established in 1996 and changed in 2001 to further establish that link.

The current target level for ownership of WPS Resources Common Stock by the Chief Executive Officer is three times annual salary. The target level for Senior Vice Presidents is two times annual salary. The target level for Vice Presidents is one times annual salary and for other executives one half of annual salary. Each employee subject to the guidelines is expected to achieve the ownership target by January 1, 2006 or within five years from the date on which the employee became subject to the guidelines, whichever is later. Common Stock beneficially held in an executive's Employee Stock Ownership Plan account, any other beneficially owned Common Stock, including that earned through incentive plan awards, and Common Stock equivalents earned through non-qualified deferred compensation programs are included in determining compliance with the guidelines. Shares that executives have the right to acquire through the exercise of stock options or performance shares for which incentive targets have not yet been met are not included in the calculation of stock ownership for guideline purposes until the options are exercised or attainment of the incentive targets are certified by the Board.

The executive compensation program consists of:

annual base salary;

annual at risk short-term incentive compensation; and

long-term incentive plan stock options and performance share awards.

Short-term and long-term incentive pay target award levels are based on a competitive analysis of the compensation paid by similarly sized energy services companies and general industry companies that takes into consideration the level of long-term incentives in the market, as well as the competitiveness of the total compensation package. Award ranges, as well as individual award levels, are established based on responsibility level and market competitiveness. Generally, award levels were targeted at the median of the range of such awards paid by comparable companies.

The Compensation and Nominating Committee reserves the right to recommend revised compensation levels after considering qualitative and quantitative facts and circumstances surrounding actual or projected financial results and the appropriate balance between base salary, annual incentive programs, and long-term incentive programs.

Base Salary

Base salary for the Chief Executive Officer, other Named Executive Officers, and other officers is determined through a market-based analysis of compensation of similar executive positions throughout the energy industry. The Committee targets the 50th percentile of data from comparable energy services

companies. In general, any executive's position relative to the market target is a function of that executive's background and experience. Market targets are reviewed annually.

Short-Term Incentive Compensation

For the utility operations, short-term incentive compensation is targeted to the median of equally blended energy services and general industry data of similarly sized companies. For the non-utility businesses, short-term incentive compensation targets were determined analyzing median competitive industry specific compensation data. In 2002, annual incentive compensation bonuses were provided through the 2001 Omnibus Incentive Compensation Plan, and are based on attaining defined performance goals, which are established each year by the Committee. The performance goals relate to:

Utility Operations:

customer satisfaction compared to competitors,

system reliability number and length of energy outages,

safety the number and severity of accidents,

rate levels a comparison of rates relative to competitors,

employee diversity, and

net income.

Non-Utility Operations:

asset growth and

net income.

The Board believes it is important to establish performance targets and incentives that align executive compensation with long-term performance, promote value driven decision making by executives, and provide total compensation levels that are competitive in the market.

Long-Term Incentive Compensation

In 2002, 50% of each executive's long-term incentive compensation was provided through stock options and 50% was provided through performance share awards. Performance share awards are based on total shareholder return of WPS Resources Common Stock compared to the return on the Common Stock of other energy services companies. All long-term incentive compensation is provided pursuant to the 2001 Omnibus Incentive Compensation Plan approved at the 2001 Annual Shareholders Meeting.

All employee option grants have per share exercise prices equal to the fair market value of a share of WPS Resources Common Stock on the date the options were granted. One quarter of the options granted vest each year on the grant anniversary date and have a ten-year term from the date of the grant.

Subject to meeting targeted goals, performance shares awarded under the 2001 Omnibus Incentive Compensation Plan are based on total shareholder return over a three-year period. At the end of the three-year period, a comparison of WPS Resources' total shareholder return to the shareholder return on Common Stock of a peer group of major publicly traded energy companies, for the three-year period, determines if performance share awards are issued, and if so, how many. The number of shares awarded individuals within the plan is based on market levels of incentive compensation and competitiveness of the total compensation package. Award levels are targeted to meet the median of the range of similar awards paid by comparable companies to executives at comparable responsibility levels.

Because each year's performance share targets are long-range targets measuring performance over a three-year period, key employees may have three performance share targets running at one time. For example, an employee may have incentive targets set in 2001 for the three-year period ending 2003, targets set in 2002 for the three-year period ending in 2004, and targets set in 2003 for the three-year period ending 2005.

Chief Executive Officer Compensation and Evaluation

The determination of the Chief Executive Officer's base salary, short-term incentive payments, and long-term incentive payments followed all of the policies and calculations set forth above. Mr. Weyers' annual base salary was \$539,300 for 2002. The base compensation value for Mr. Weyers was established after reviewing the median of market base salaries of \$590,000, as reported in the 2001 Towers Perrin Energy Services Industry Executive Compensation Data Base of energy services companies with revenues generally comparable to those of WPS Resources. Annual and long-term incentives are targeted to the median of equally blended energy services data and general industry data of similar size companies as provided by Towers Perrin. Many of the utilities in these surveys are members of the EEI 100 Index group, which is reflected on the Comparative Five-Year Investment Performance Graph set forth in this proxy statement. The composition of the two groups, however, is not identical. Based on these two surveys, 2001 reported median total short-term incentive and long-term incentive compensation was \$1,578,000. This compares to the total short-term incentive and long-term incentive compensation received by Mr. Weyers related to 2002 of \$1,221,737. The long-term component for 2002 includes the current values of stock options using the Binomial Valuation Model and the value of performance share awards using targeted goals and the grant date closing price of WPS Resources Common Stock.

Mr. Weyers short-term incentive compensation for 2002 under the 2001 Omnibus Incentive Compensation Plan was based on corporate and strategic goal achievement measured against predetermined standards. Each plan year, the Committee determines the performance levels and targets for Mr. Weyers. In 2002, that apportionment was 50% for corporate utility goals and 50% for nonutility business goals. Corporate utility performance is measured based on company-wide targets established at the beginning of the year for:

customer satisfaction,

system reliability,

safety,

Wisconsin Public Service rates versus peer company rates,

employee diversity, and

net income.

Nonutility business performance is measured based on the achievement of goals related to asset growth and net income. As a result of the company performance in comparison to the above targets in 2002, the short-term incentive compensation award for Mr. Weyers was 66.54% of annual salary or \$358,853.

Mr. Weyers was granted options to purchase 86,116 shares and was awarded 12,656 contingent performance shares on December 13, 2001 as part of his 2002 long-term incentive compensation. The value of the options as of the date of grant was \$431,441. The value of the performance shares as of the date of grant was \$431,443.

Policy on Deductibility of Compensation

Section 162(m) of the Internal Revenue Code limits the tax deduction for compensation paid to the Chief Executive Officer or other Named Executive Officers to \$1,000,000 unless certain requirements are met. Those requirements are:

the Committee consists entirely of outside directors,

compensation in excess of \$1,000,000 must be based upon the attainment of performance goals approved by shareholders, and

the Committee must certify the attainment of the applicable performance goals.

The Committee intends to meet all these requirements for compensation that may be paid in excess of \$1,000,000, however, it may in appropriate cases make payments even if the compensation is nondeductible under Section 162(m). The Committee does consist entirely of outside directors, the shareholders did approve the 2001 Omnibus Incentive Compensation Plan at the 2001 Annual Meeting, and the Committee will certify the attainment of the applicable performance goals to allow WPS Resources to comply with Internal Revenue Code requirements to deduct compensation in excess of \$1,000,000.
