SCHEDULE 14A
(Rule 14a-101)

INFORMATION REQUIRED IN PROXY STATEMENT

SCHEDULE 14A INFORMATION
Proxy Statement Pursuant to Section 14(a) of
the Securities Exchange Act of 1934

Filed by the Registrant

Filed by a Party other than the Registrant

Check the appropriate box:

- Preliminary Proxy Statement
- Confidential, for Use of the Commission Only (as permitted by Rule 14a-6(e)(2))**
- Definitive Proxy Statement
- Definitive Additional Materials
- Soliciting Material Pursuant to §240.14a-12

EVERGREEN RESOURCES, INC.

(Name of Registrant as Specified In Its Charter)

(Name of Person(s) Filing Proxy Statement, if other than the Registrant)

Payment of Filing Fee (Check the appropriate box):

- No fee required.
- Fee computed on table below per Exchange Act Rules 14a-6(i)(1) and 0-11.
 - (1) Title of each class of securities to which transaction applies:

(2) Aggregate number of securities to which transaction applies:

(3) Per unit price or other underlying value of transaction computed pursuant to Exchange Act Rule 0-11 (set forth the amount on which the filing fee is calculated and state how it was determined):

(4) Proposed maximum aggregate value of transaction:

Edgar Filing: EVERGREEN RESOURCES INC - Form DEFA14A

(5) Total fee paid:

- o Fee paid previously with preliminary materials.
- o Check box if any part of the fee is offset as provided by Exchange Act Rule 0-11(a)(2) and identify the filing for which the offsetting fee was paid previously. Identify the previous filing by registration statement number, or the Form or Schedule and the date of its filing.

(1) Amount Previously Paid:

(2) Form, Schedule or Registration Statement No.:

(3) Filing Party:

(4) Date Filed:

Persons who are to respond to the collection of information contained in this form are not required to respond unless the form displays a currently valid OMB control number.

On August 2, 2004, Evergreen Resources, Inc. ("Evergreen"), issued a press release in which some of the terms of the proposed merger of Evergreen with a wholly owned subsidiary of Pioneer Natural Resources Company ("Pioneer") were discussed. Set forth below is the text of the press release.

#####

Evergreen Resources Reports Second Quarter 2004 Results

DENVER, Aug. 2 /PRNewswire-FirstCall/ As previously reported, the boards of directors of Evergreen Resources, Inc. (NYSE: EVG) and Pioneer Natural Resources Company (NYSE: PXD) approved a strategic merger valued at approximately \$2.1 billion, in which Evergreen will become a subsidiary of Pioneer and Evergreen shareholders will receive new shares of Pioneer common stock and cash. Pioneer will continue to be headquartered in Dallas, and will retain Evergreen's Denver offices as its base of operations in the Rockies. Completion of the merger is subject to the approval of the Securities and Exchange Commission as well as the shareholders of both Evergreen and Pioneer. The merger is expected to be completed in early September.

In other merger-related news, Evergreen announces that it has not received an acceptable offer for the company's interests in the Forest City Basin in eastern Kansas, in which it holds a 100% working interest in 766,000 net acres and 60 well bores. Evergreen's objective has been to sell these interests prior to the completion of the merger. The company is pursuing other alternatives to monetize these interests. In the event that Evergreen is unable to sell the Kansas properties, Pioneer will acquire them pursuant to the terms of the merger agreement, which will amount to approximately \$15 million or 35 cents per Evergreen common share.

Today, Evergreen announced second quarter 2004 earnings of \$18.1 million or 39 cents per diluted share as compared to earnings of \$18.4 million or 46 cents per diluted share in the second quarter of 2003. Oil and natural gas revenues in 2004's second quarter totaled \$66.3 million, up 25% over \$53.0 million in the second quarter of 2003. The increase in oil and natural gas revenues over the second quarter of 2003 was due to increases in natural gas production in the Raton Basin and oil and gas production from the Piceance, Uintah and Western Canada Sedimentary Basins, in which interests were acquired in October 2003.

On an equivalent units-of-production basis, Evergreen produced 150.8 million cubic feet equivalent (MMcfe) per day in the second quarter of 2004, or a total of 13.7 billion cubic feet equivalent (Bcfe), up 23% from a daily average of 122.8 MMcfe or a total of 11.2 Bcfe in the corresponding 2003 period. Total second quarter production was comprised of 13.5 billion cubic feet (Bcf) of natural gas and 29,507 barrels of crude oil and natural gas liquids.

Edgar Filing: EVERGREEN RESOURCES INC - Form DEFA14A

As of June 30, 2004, Evergreen had 1,316 net producing wells, 1,055 of which were in the Raton Basin. At the end of last year's second quarter, the company had 909 net producing wells, all of which were in the Raton Basin. Evergreen drilled 59 Raton Basin wells in the second quarter of 2004. Also during the second quarter, the company drilled 10 exploratory wells on its coal bed methane (CBM) acreage in the Forest City Basin of eastern Kansas; five wells in the Piceance Basin of western Colorado; and eight wells in the south-central Alberta portion of the Western Canada Sedimentary Basin.

Evergreen's average natural gas sales price in 2004's second quarter was \$4.83 per thousand cubic feet (Mcf), a 2% increase over the company's \$4.74-per-Mcf average in the second quarter of 2003. Including the effects of hedging, the company received an average price of \$4.74 per Mcf for its Raton Basin gas production, \$5.23 per Mcf for its gas production in the Piceance and Uintah Basins, and \$5.74 per Mcf for its Canadian gas production.

Evergreen realized an average price of \$30.99 per barrel for its crude oil and liquids production in the Piceance and Uintah Basins and received an average realized price of \$31.53 per barrel for the company's crude oil and liquids production in Canada.

Lease operating expenses on a per-Mcfe basis in the second quarter of 2004 increased 13% over the prior-year period to 53 cents per Mcfe from 47 cents per Mcfe. The increase was due to higher costs from the Piceance, Uintah and Canadian properties. The Raton Basin lease operating costs were 44 cents per Mcfe in the second quarter of 2004 as compared to 47 cents per Mcfe in last year's second quarter.

Depreciation, depletion and amortization expense in the second quarter increased 47% to 81 cents per Mcfe from 55 cents per Mcfe in the corresponding 2003 period. The increase is primarily due to the acquisition of the oil and gas properties in the Piceance, Uintah and Western Canada Sedimentary Basins in the fourth quarter of 2003.

General and administrative expenses totaled \$5.7 million in the second quarter of 2004 as compared to \$3.3 million in 2003's second quarter. The increase was due to additional personnel and related salaries and payroll costs, costs associated with compliance with Section 404 of the Sarbanes Oxley Act of 2002, legal fees and other professional services, office expense and technology costs, and costs associated with the company's Canadian office.

Evergreen's interest expense in the second quarter of 2004 totaled \$3.7 million as compared to \$2.1 million in the same period of 2003. The increase was due to higher debt outstanding in 2004 and an increase in the weighted average interest rate due to the issuance of 5.875% fixed-rate debt used to repay lower adjustable-rate debt. On a per-unit-of-production basis, interest expense increased to 27 cents per Mcfe from 19 cents per Mcfe in 2003's second quarter. At June 30, 2004, long-term debt totaled approximately \$298 million as compared to \$230 million as of June 30, 2003.

Capital expenditures in the second quarter of 2004 were \$60.2 million. These capital costs included \$39.4 million for operations in the Raton Basin, including \$17.0 million for drilling and completion operations, \$8.6 million for gas collection facilities and compression, \$6.0 million for equipment and \$7.7 million of other costs primarily related to recompletions and remedial costs. Approximately \$6.0 million was used for domestic exploration projects in Kansas and Alaska, \$7.5 million was invested in operations in Canada, and \$6.3 million was directed to operations in the Piceance and Uintah Basins.

Hedging Position

Remaining Contract Period	Market	Volume in Mcf/day	Weighted Average \$/Mcf
July 04-Oct 04	Midcontinent	65,000	4.86

Operations Update

Raton Basin

Since the first of the year, Evergreen has drilled 107 CBM and tight gas sand wells in the Raton Basin and currently has 49 wells awaiting completion operations or pipeline hookup. Second quarter production from the Raton Basin averaged 132.6 MMcf of gas per day. Currently, a total of 1,118 gross CBM and tight gas sand wells are currently producing at a daily rate of approximately 137 MMcf of gas from the Basin.

Edgar Filing: EVERGREEN RESOURCES INC - Form DEFA14A

Piceance and Uintah Basins

On Evergreen's properties in the Piceance and Uintah Basins in western Colorado and eastern Utah, respectively, the company produced at a daily net rate of 6.7 MMcfe from 140 net wells in the second quarter. This average daily rate represented a sequential quarterly increase of 13%. The company holds a total of 225,000 net acres in the Piceance and Uintah Basins.

Canada

Evergreen's net production in south-central Alberta, Canada averaged 11.5 MMcfe per day from 95 net wells. This average daily rate represented a sequential quarterly increase of 26%. Evergreen holds a total of approximately 105,000 net acres in Alberta, Canada.

Alaska

Evergreen completed its 2004 drilling program in Alaska with the drilling of its fifth stratigraphic core hole in the Cook Inlet-Susitna Basin near Anchorage. Results of these core holes are being evaluated.

Evergreen Resources is an independent energy company engaged primarily in the operation, development, production, exploration and acquisition of North American unconventional natural gas properties. Evergreen is one of the leading developers of coal bed methane reserves in the United States. Evergreen's current operations are principally focused on developing and expanding its coal bed methane project located in the Raton Basin in southern Colorado. The Company is also expanding its conventional and unconventional projects in the Piceance Basin in western Colorado, the Uintah Basin in eastern Utah, and in the Western Canada Sedimentary Basin in south-central Alberta. Evergreen has also initiated coal bed methane projects in the Cook Inlet-Susitna Basin in Alaska and the Forest City Basin in eastern Kansas.

This press release contains forward-looking statements within the meaning of federal securities laws, including statements regarding, among other things, the company's growth strategies; anticipated trends in the company's business and its future results of operations; market conditions in the oil and gas industry; the ability of the company to make and integrate acquisitions; and the impact of government regulations. These forward-looking statements are based largely on the company's expectations and are subject to a number of risks and uncertainties, many of which are beyond the company's control. Actual results could differ materially from those implied by these forward-looking statements as a result of, among other things, a decline in natural gas production, a decline in natural gas prices, incorrect estimations of required capital expenditures, increases in the cost of drilling, completion and gas collection, an increase in the cost of production and operations, an inability to meet projections, and/or changes in general economic conditions. In light of these and other risks and uncertainties of which the company may be unaware or which the company currently deems immaterial, there can be no assurance that actual results will be as projected in the forward-looking statements. These and other risks and uncertainties are described in more detail in the company's most recent Annual Report on Form 10-K filed with the Securities and Exchange Commission.

Legal Information

This filing contains forward-looking statements within the meaning of federal securities laws, including statements regarding, among other things, Evergreen's growth strategies; anticipated trends in Evergreen's business and its future results of operations; market conditions in the oil and gas industry; the ability of the company to make and integrate acquisitions; and the impact of government regulations. These forward-looking statements are based largely on Evergreen's expectations and are subject to a number of risks and uncertainties, many of which are beyond Evergreen's control. Actual results could differ materially from those implied by these forward-looking statements as a result of, among other things, a decline in natural gas production, a decline in natural gas prices, incorrect estimations of required capital expenditures, increases in the cost of drilling, completion and gas collection, an increase in the cost of production and operations, an inability to meet projections, and/or changes in general economic conditions. In light of these and other risks and uncertainties of which Evergreen may be unaware or which Evergreen currently deems immaterial, there can be no assurance that actual results will be as projected in the forward-looking statements. These and other risks and uncertainties are described in more detail in Evergreen's most recent Annual Report on Form 10-K filed with the Securities and Exchange Commission.

This filing also contains forward looking statements regarding Evergreen's proposed merger with a wholly owned subsidiary of Pioneer. Forward-looking statements relating to expectations about future results or events regarding the proposed merger are based upon information available to Evergreen as of today's date, and Evergreen does not assume any obligation to update any of these statements. The forward-looking statements are not guarantees of the future performance of Pioneer, Evergreen or the combined company, and actual results may vary materially from the results and expectations discussed. For instance, although Pioneer and Evergreen have signed an agreement for a subsidiary of Pioneer to merge with Evergreen, there is no assurance that they will complete the proposed merger. The merger agreement will terminate if the companies do not receive necessary approval of each of Pioneer's and Evergreen's stockholders or government approvals or fail to satisfy conditions to closing. Additional risks and uncertainties related to the proposed merger include, but are not limited to, conditions in the financial markets relevant to the proposed merger, the successful integration of Evergreen into Pioneer's business, and each company's ability to compete in the highly competitive oil and gas exploration and production industry. The revenues, earnings and business prospects of Pioneer, Evergreen and the combined company and their ability to achieve planned business objectives will be subject to a number of risks and uncertainties. These risks and uncertainties include, among other things, volatility of oil and gas prices, product supply and demand, competition, government regulation or action, foreign currency valuation changes, foreign government tax and regulation changes, litigation, the costs and results of drilling and operations, Pioneer's and Evergreen's ability to replace reserves, implement its business plans, or complete its development projects as scheduled, access to and cost of capital, uncertainties about estimates of reserves, quality of technical data, environmental and weather risks, acts of war or terrorism. These and other risks are identified from time to time in Pioneer's and Evergreen's SEC reports and public announcements.

The proposed merger of Evergreen with a wholly owned subsidiary of Pioneer will be submitted to each of Pioneer's and Evergreen's stockholders for their consideration, and Pioneer will file with the SEC a registration statement containing the joint proxy statement prospectus to be used by Pioneer to solicit approval of its stockholders to issue additional stock in the merger and to be used by Evergreen to solicit the approval of its stockholders for the proposed merger. Pioneer and Evergreen will also file other documents concerning the proposed merger. You are urged to read the registration statement and the joint proxy statement prospectus regarding the proposed merger when they become available and any other relevant documents filed with the SEC, as well as any amendments or supplements to those documents, because they will contain important information. You will be able to obtain a free copy of the joint proxy statement prospectus including the registration statement, as well as other filings containing information about Evergreen at the SEC's Internet Site (<http://www.sec.gov>). Copies of the joint proxy statement prospectus can also be obtained, without charge, by directing a request to Evergreen Resources, Inc., John B. Kelso, 1401 17th Street, Suite 1200, Denver, Colorado 80202, or via telephone at 303-298-8100.

Evergreen and its directors and executive officers may be deemed to be participants in the solicitation of proxies from the stockholders of Evergreen in connection with the proposed merger. Pioneer and its directors and executive officers may be deemed to be participants in the solicitation of proxies from the stockholders of Pioneer in connection with the proposed merger. Additional information regarding the interests of those participants may be obtained by reading the joint proxy statement prospectus regarding the proposed merger when it becomes available.
