Item 11. Executive Compensation

Compensation Discussion and Analysis

Overview

The following provides a brief overview of the more detailed disclosure set forth in the Compensation Discussion and Analysis below:

The objectives of our compensation program are to: (i) attract and retain talented executive officers; (ii) align the financial interests of executive officers with those of our stockholders; and (iii) pay for performance.

In making its fiscal year 2007 compensation decisions, the compensation committee consulted with a third-party compensation consultant and compared the compensation of our executive officers with a peer group of 14 other semiconductor companies.

Our executive compensation consists primarily of: (i) a base annual salary; (ii) incentive-based compensation; and (iii) long-term equity awards. We also provide certain perquisites to our executive officers.

We encourage a pay-for-performance environment by linking short-term incentive-based compensation to the achievement of overall company and individual performance goals. Achievement of performance goals by our named executive officers (as defined in the "Summary Compensation Table" below) during fiscal year 2007 ranged from 72% to 94%.

We use equity-based compensation as a means to align the interests of our executive officers with those of our stockholders and to preserve our cash on hand.

Following the conclusion of fiscal year 2007, we granted special bonuses with retention features to our chief executive officer and chief financial officer.

We have entered into change of control agreements with our executive officers, but our executive officers do not have employment or severance agreements.

We believe that our compensation program successfully achieves its objectives.

Objectives of Compensation Programs and Compensation Program Design

The compensation committee establishes our executive compensation philosophy and oversees our executive compensation programs. Under the compensation committee's supervision, in fiscal year 2007, we implemented compensation policies, plans and programs intended to achieve the following objectives:

Attract and retain talented executive officers. We are engaged in a very competitive and highly cyclical industry, and our success depends upon our ability to attract and retain qualified executives through competitive compensation arrangements.

Align the financial interests of executive officers with those of our stockholders. We want and expect our executive officers to think and act in both the near-term and long-term interests of our stockholders.

Pay for performance. We provide executive officers with incentive opportunities linked to achievement of both overall company and individual performance goals. Incentive programs are designed to reward business plan achievement.

We carry out these objectives by providing market competitive salaries, achieving an appropriate mix of cash and equity compensation, setting compensation based on individual and overall company performance and occasionally granting retention bonuses.

Total Compensation Program Design

The compensation committee considers the total compensation, earned or potentially available, of the executive officers in establishing each component of compensation. In its review, the committee considers information regarding our general industry and direct peer group, national surveys of other U.S. semiconductor and high technology companies, reports of our third-party compensation consultants and performance judgments as to the past and expected future contributions of individual executive officers.

Our total compensation package generally includes a base annual salary, short-term incentive awards and long-term incentive awards. We target the short-term incentives of the chief executive officer to equal 100% of his base annual salary. We target the short-term incentives of all other named executive officers to equal 55% of their respective base annual salaries. The different incentive targets are a result of Mr. Halim's higher level of responsibility and the industry standard of providing the chief executive officer with higher incentive targets. In nearly all situations, our short-term incentive awards take the form of equity. We will occasionally provide non-equity incentive awards to recognize special achievement and value to our company or for competitive reasons.

Our annual incentive compensation plan for the executive officers, including the chief executive officer, is based on both the overall financial performance of the company and the performance of the executive with respect to his individual assigned goals. In any given fiscal year, that performance is measured against the specific performance criteria adopted by the compensation committee for use in that particular fiscal year. Performance criteria typically include financial metrics, such as revenue growth, operating profitability and attainment of strategic business development goals. In addition, executive officer incentive compensation awards may be adjusted by an individual performance multiplier. The chief executive officer's annual incentive plan has the same components as the executive officer plan. This award may also be adjusted by the board based on individual performance. For all executive officers, the annual incentive award value is generally targeted at the median of corresponding awards for our peer group.

The fiscal year 2007 base salaries and target incentives for the named executive officers are set forth in the table below.

Named Executive Officer	Base Annual Salary(1)	Target Incentive(2)
Raouf Y. Halim	\$ 500,000	100%
Simon Biddiscombe	300,000	55%
Gerald J. Hamilton	240,000	55%
Thomas J. Medrek	300,000	55%
Wayne K. Nesbit	300,000	55%

(1) Base annual salary is effective as of January 1, 2007. Some of the figures reported in this table will not match the figures reported in the "Summary Compensation Table" below because of the effective date, which does not correspond to our fiscal year.

(2) Target incentive represents a target amount of base annual salary for short-term incentive awards.

Role of Executive Officers and Compensation Consultants in Compensation Decisions

The compensation committee solicits recommendations from our chief executive officer for our other executive officers, and then reviews and approves the total compensation for all of our executive officers. The compensation committee may request additional information from the chief executive officer and may also solicit the perspective and input of third-party compensation consultants. In fiscal year 2007, the compensation committee elected to continue its engagement with a third-party compensation consultant, Semler Brossy.

Semler Brossy was specifically engaged to consult on stock plan summaries and provisions and trends in equity participation. For fiscal year 2007, we provided Semler Brossy with a list of our peer companies and requested that it report on the practices of each. The report included information on equity practices, such as burn rates, overhang, forms of equity and allocation of equity awards between officers and non-officers. The report also included information on trends, including changes in equity participation eligibility and the mix of cash and equity in total compensation.

Additional information on the peer companies that Semler Brossy examined is discussed below under the caption "Item 11. Executive Compensation Compensation Discussion and Analysis Objectives of Compensation Programs and Compensation Program Design Peer Group."

Goal Setting and Performance Evaluation

Executive officer performance evaluations, including evaluations of the named executive officers, take place every year and are completed immediately following the conclusion of our fiscal year. To help achieve our strategic goals and annual objectives, we have developed an integrated performance management program, which has an overall purpose of strengthening results at the individual and organizational level. The program is designed to align individual performance with strategic business goals and annual objectives. It is intended to foster two-way communication to provide all employees, including executive officers, with the resources, information and support needed to be successful. The performance management program's primary objectives are to ensure that individual contributions and results are directed toward achieving our business plan based on our strategic and tactical goals. It also links rewards to performance and recognizes outstanding performance with corresponding compensation action. The process begins with establishing overall company and individual performance goals for the chief executive officer and for other executive officers at the beginning of the fiscal year. These goals are based on our annual operating plan, which is reviewed by the board.

The chief executive officer's performance evaluation is coordinated by the chairman of the governance committee, with input from all independent board members. The chief executive officer is evaluated on performance against the annual operating plan, which is summarized in an annual score card. The score card contains a percent achievement reached for each company metric, as well as an overall weighted average achievement percentage on all company performance goals. An annual 360 degree feedback assessment is also conducted for purposes of providing additional developmental feedback to the chief executive officer. The chairman of the governance committee reviews the corporate performance score card and the 360 feedback results with the other board members, obtains their feedback on the chief executive officer's performance and completes the review. The governance committee then reports its findings to the compensation committee for use in its determination of appropriate compensation actions.

The board frequently discusses with the chief executive officer the performance of the executive officers. The chief executive officer incorporates this feedback into the evaluations of the other named executive officers and our other executive officers. The performance evaluations for the named executive officers are the same as those discussed below under the caption "Item 11. Executive Compensation Compensation Discussion and Analysis Elements of Compensation Incentive Based Compensation."

Peer Group

In setting the base annual salary, individual bonus target amount and equity grant guidelines for executive officers, the compensation committee, with assistance from our third-party compensation consultant, reviews information relating to the executive compensation of direct competitors, other local semiconductor companies and leading national semiconductor companies. We include our direct competitors and other local semiconductor companies because we compete with them for business, as well as talent. We include leading national semiconductor companies because they have a large

influence on industry compensation practices. Our self-selected peer group has remained essentially the same for the past several years. In analyzing the peer group, the compensation committee distinguishes emerging peers from mature peers. The peer group companies for fiscal year 2007 include the following:

Emerging Peers

Applied Micro Circuits Corporation

PMC-Sierra, Inc.

Vitesse Semiconductor Corporation

NetLogic Microsystems, Inc.

Transwitch Corporation

Maxim Integrated Products, Inc.

Conexant Systems, Inc.

Skyworks Solutions, Inc.

Microsemi Corporation

Mature Peers

Broadcom Corporation

Qualcomm, Inc.

Advanced Micro Devices, Inc.

Intel Corporation

Texas Instruments, Inc.

The compensation committee reviews the compensation levels of our emerging peers when considering the amount of executive officer base annual salary and total compensation. For fiscal year 2007, the compensation committee believes that the base annual salary and total compensation provided to each executive officer was within the range of total compensation paid to similarly situated executive officers at emerging peers. The compensation committee targets our executive officers' base salaries and total compensation at the median of our emerging peers.

Edgar Filing: MINDSPEED TECHNOLOGIES, INC - Form 10-K/A

The compensation committee reviews the data of both our emerging and mature peers in designing our equity-compensation policies. It typically considers our emerging peers' run-rate, overhang and form of equity policies. Additionally, it reviews our emerging peers' policies regarding allocation of equity awards between executives and non-executives, percentage of employees receiving grants, vesting practices, hiring grant practices and other trends.

For fiscal year 2007, the compensation committee also used the Radford High Tech survey database, which provides data specific to high technology and semiconductor industry compensation practices. The examination of the Radford High Tech survey and peer group compensation practices allows us to accurately follow industry norms in an effort to ensure that our compensation policies are current and competitive.

Elements of Compensation

Executive compensation consists primarily of: (i) a base annual salary; (ii) incentive-based compensation; and (iii) long-term equity awards. This mix of payments allows us to provide compensation that directly addresses our compensation goals of retention, alignment of executive and stockholder interests and linking pay with performance. We also provide our executive officers with other benefits, including perquisites, change of control agreements and retirement savings plans. After the conclusion of fiscal year 2007, the compensation committee also granted special cash bonuses to certain executive officers as described below. All executive officers are subject to at will employment. We do not have employment or severance agreements with any of them. Please see our "Summary Compensation Table" below for information on the total compensation awarded to each named executive officer during fiscal year 2007.

Base Annual Salary

The base annual salaries we provide to our executive officers are intended as compensation for each executive officer's ongoing contributions to the performance of the operational area(s) for which they are responsible. In keeping with our compensation philosophy to attract and retain individuals of high quality, executive officer base salaries have been targeted to be competitive with base salaries paid to executive officers of our emerging peers, as described above, based on data reviewed by the compensation committee. The compensation committee determines the market median by reviewing information contained in survey data, proxy statements, other SEC filings and advice from our third-party compensation consultant. The base salaries for our executive officers also reflect input from our chief executive officer based on individual performance and retention goals.

The base annual salary levels of each of our executive officers are reviewed annually and adjusted from time to time to recognize individual performance, promotions, competitive compensation levels, retention requirements, internal pay equity and other subjective factors. In addition to adjustments made for competitive and retention reasons, the compensation committee has periodically adjusted executive officer base salaries based on its assessment of each executive's performance and history with us and our overall budgetary considerations for salary increases.

For fiscal year 2007, an annual review of base salaries was conducted by the compensation committee on November 16, 2006, and the following base annual salary changes for certain named executive officers were approved, with an effective date of January 1, 2007:

Simon Biddiscombe From \$275,000 to \$300,000

Wayne K. Nesbit From \$290,000 to \$300,000

For fiscal year 2008, the compensation committee approved the following base annual salary changes for certain named executive officers:

Simon Biddiscombe From \$300,000 to \$330,000 (effective October 1, 2007)

Gerald J. Hamilton From \$240,000 to \$250,000 (effective January 7, 2008)

The recent increased salaries are specifically meant to recognize the performance of individual executive officers and to keep our salaries competitive. Mr. Biddiscombe's salary recognizes his contribution to our financial growth over the second half of fiscal year 2007 and his vital role in our future plans. Mr. Hamilton's salary recognizes his role in reducing our sales cost structure and improving collaboration between our marketing and sales teams.

Incentive-Based Compensation

Cash Incentive Awards

We typically do not offer cash incentive awards. Our short-term incentive based compensation usually takes the form of equity awards, which allows us to preserve our cash on hand. The only named executive officer to receive a cash bonus award during fiscal year 2007 was Mr. Hamilton, our senior vice president of worldwide sales. We decided to offer Mr. Hamilton a cash incentive plan for competitive reasons, after determining that sales executives in our industry often receive cash incentive awards as part of their compensation package.

We awarded a total cash bonus of \$122,826 to Mr. Hamilton pursuant to an individual bonus plan after consideration of his performance during fiscal year 2007. The bonus was based on the following factors: (i) achievement of a fiscal year revenue target (weighted 40%); (ii) design win execution against fiscal year plan (weighted 40%); and (iii) a budget reduction for the worldwide sales department (weighted 20%).

Edgar Filing: MINDSPEED TECHNOLOGIES, INC - Form 10-K/A

In calculating the bonus award, the compensation committee determined that Mr. Hamilton achieved a substantial portion of his revenue goal and design win goals (for a number of key design wins) and 100% of the budget reduction goal (the worldwide sales department met its goal to reduce spending by 10%), resulting in the overall achievement of 93.6% of the goals set forth for the fiscal year. The fiscal year 2007 revenue target is based on our internal annual operating plan and is confidential as discussed below under the caption "Item 11. Executive Compensation Compensation Discussion and Analysis Elements of Compensation Incentive-Based Compensation Equity Incentive Awards."

Equity Incentive Awards

In November 2006, we awarded each of our named executive officers shares of performance-based restricted stock. These shares of restricted stock were granted pursuant to the Mindspeed Achievement Plan, or MAP, which allows the compensation committee to issue performance-based equity awards as part of our 2003 long-term incentives plan. The terms of the awards provide that the shares of restricted stock vest to the extent that the officer achieved individual and overall company goals specified for such officer during fiscal year 2007.

The determination of whether each named executive officer has met the MAP goals for a given fiscal year rests with the compensation committee. Management reports on the accomplishments of the officers, but the compensation committee has the responsibility of determining to what extent those accomplishments meet the pre-established MAP goals. While the use of the MAP goals is intended to establish a rigorous process for tracking and evaluating performance, the compensation committee's assessment of performance against particular goals often involves some degree of subjective evaluation of non-quantitative measures. The compensation committee does not apply a mechanical formula in determining achievement of the goals but takes into account the level of performance compared to the goal and may take into account other considerations such as improvement compared to prior years, positioning for future success and the need to motivate and retain the current management team.

The factors used to determine individual performance and the relative weight given to each factor is set forth in the table below for fiscal year 2007. The different factors and relative weights reflect differences in the job responsibilities of our named executive officers.

Named Executive Officer	Performance Factors (and Weight)
Raouf Y. Halim	Fiscal year revenue, operating profit and cash burn targets: 50% Design win execution against the fiscal year plan: 20% Product delivery date performance: 15% Individual organization development goals: 15%
Gerald J. Hamilton	Fiscal year revenue target: 40% Design win execution against fiscal year plan: 40% Individual organization operating expense controls: 20%
Simon Biddiscombe Thomas J. Medrek Wayne K. Nesbit	Fiscal year revenue, operating profit and cash burn targets: 50% Individual organization development goals: 50%

Mr. Halim. Based on the performance evaluation described above under the caption "Item 11. Executive Compensation Compensation Discussion and Analysis Objectives of Compensation Programs and Compensation Program and Design Goal Setting and Performance Evaluation," the compensation committee determined that Mr. Halim be awarded 50% of the financial performance factors for fiscal year 2007. While the company did not fully meet the revenue, operating profit and cash burn targets, significant progress was made, particularly during the second half of the year. The

compensation committee also noted that operating profit and cash burn each improved roughly by 30% as compared to fiscal year 2006. Cash burn and operating profit are non-GAAP measures. Our calculation of operating profit excludes stock-based compensation expense, employer taxes on stock-based compensation and special charges. We calculate cash burn as the net increase or decrease in cash and cash equivalents excluding sales and purchases of marketable securities. We use non-GAAP measures for the MAP because these measures help us internally to evaluate our operating performance excluding items that are considered by management to be outside of our core operating results.

The specific revenue, operating profit and cash burn targets are based on the company's internal annual operating plan and are confidential. The targets correlate with the maximum award levels that the executives can achieve and thus require strong performance. Executives will not receive more than 100% of their equity incentive award, even if the company exceeds its performance goals. As an indication of the level of difficulty in achieving the overall performance objectives, in fiscal year 2007, the overall percentage of awards the named executive officers received (including the achievement of non-financial goals) ranged from 72% to 94%. In fiscal year 2006, the percentage of overall awards executive officers received (including the achievement of non-financial goals) ranged from 92% to 100%.

The compensation committee determined that Mr. Halim met 100% of his non-financial goals. We had a number of key design wins, especially in the voice-over-Internet Protocol and high-performance analog markets. We also achieved most of our milestones on schedule in fiscal year 2007 for our key product programs. With respect to organization development, a number of key promotions and hires were made in fiscal year 2007, including the creation of two business units that had previously made up the high-performance analog business (lightspeed connectivity solutions and high-performance analog, consisting of our switching and signal conditioning products). Based on the overall assessment of Mr. Halim's performance against his MAP goals, the compensation committee determined that 75% of the shares of restricted stock comprising his equity incentive award would vest for fiscal year 2007.

Mr. Hamilton. Mr. Hamilton's criteria for earning shares of restricted stock under the MAP plan is the same as his criteria for earning the cash incentive award described above under the caption "Item 11. Executive Compensation Compensation Discussion and Analysis Elements of Compensation Incentive-Based Compensation Cash Incentive Awards." Based on the analysis set forth in that section, the compensation committee determined that 93.6% of the shares of restricted stock comprising Mr. Hamilton's equity incentive award would vest for fiscal year 2007.

Mr. Biddiscombe. The compensation committee determined that Mr. Biddiscombe be awarded 50% of the financial performance factors, based on the same analysis as set forth for Mr. Halim above, and 100% of his individual organization development goals for fiscal year 2007. Mr. Biddiscombe's individual goals were comprised of the following, each weighted at 10% of his overall award: (i) ensuring integrity in financial reporting; (ii) management of cash and working capital; (iii) auditing management and planning; (iv) management of business law and securities law issues; and (v) management of our patent, trademark and trade secret portfolios. Based on the overall assessment of Mr. Biddiscombe's performance against his MAP goals, the compensation committee determined that 75% of the shares of restricted stock comprising his equity incentive award would vest for fiscal year 2007.

Mr. Medrek. The compensation committee determined that Mr. Medrek be awarded 50% of the financial performance factors, based on the same analysis as set forth for Mr. Halim above, and the following percentages of his individual goals for fiscal year 2007: (i) engineering execution 95% (20% weighting of overall award); (ii) offshoring execution and forecast accuracy 100% (10% weighting of overall award); and (iii) design wins and market execution 90% (20% weighting of overall award). Based on the overall assessment of Mr. Medrek's performance against his MAP goals, the

compensation committee determined that 72.6% of the shares of restricted stock comprising his equity incentive award would vest for fiscal year 2007.

Mr. Nesbit. The compensation committee determined that Mr. Nesbit be awarded 50% of the financial performance factors, based on the same analysis as set forth for Mr. Halim above, and the following percentages of his individual goals for fiscal year 2007: (i) inventory management 95% (20% weighting of overall award); (ii) customer satisfaction 90% (20% weighting of overall award); and (iii) quality improvement 100% (10% weighting of overall award). Based on the overall assessment of Mr. Nesbit's performance against his MAP goals, the compensation committee determined that 72.6% of the shares of restricted stock comprising his equity incentive award would vest for fiscal year 2007.

The table below summarizes the number of shares earned by each named executive officer pursuant to their performance-based equity incentive awards based on the analysis above. To the extent that the named executive officer did not meet all of his performance goals, shares did not vest and were subsequently forfeited. The final column of the table presents the percentage of performance goals achieved by each named executive officer in the prior fiscal year in order to provide greater context regarding performance goals and the level of difficulty for their achievement.

Named Executive Officer	Number of Performance Based Restricted Shares Awarded	Fiscal Year 2007 Performance Achievement	Number of Restricted Shares Vested	Number of Restricted Shares Forfeited	Fiscal Year 2006 Performance Achievement
Raouf Y. Halim	125,000	75%	93,750	31,250	95%
Simon Biddiscombe	50,000	75%	37,500	12,500	97%
Gerald J. Hamilton	31,250	93.6%	29,250	2,000	100%
Thomas J. Medrek	31,250	72.6%	22,688	8,562	92%
Wayne K. Nesbit	31,250	72.6%	22,688	8,562	94%

The incentive equity awards provided under this plan are consistent with our compensation goals and philosophy. In order to pay for performance, the vesting criteria of the restricted stock award link overall company and individual performance with the eventual actual value of the award. Furthermore, by offering equity rather than cash, we believe that we can better align our executive's interests with those of our stockholders.

Long-Term Equity Awards

Our long-term compensation consists of restricted stock and option awards provided under our 2003 long-term incentives plan. In determining the timing and size of our awards, we follow our policy of attempting to provide compensation that is competitive with our peers. Additionally, we consider the number and status of past long-term awards when deciding to make a new grant.

We routinely grant eligible employees equity awards at the time of hire and also provide equity awards covering substantially all employees annually. The vesting periods vary with respect to each individual award, but awards generally vest within four years. The exercise price of all stock options is set at the fair market value of the company's stock on the grant date.

Our long-term compensation award of stock options and restricted stock is consistent with our goals for compensation, particularly in aligning the interests of our executive officers with our stockholders. The award provides compensation beyond a salary and assists us in recruiting and retaining executive officers. The awards are useful in retention because of their vesting requirements, which provide that upon termination of employment, only options currently vested may be exercised and unvested stock grants are forfeited. Thus, this long-term compensation award gives executive officers an incentive to remain with the company through the award's entire vesting period.

Edgar Filing: MINDSPEED TECHNOLOGIES, INC - Form 10-K/A

During fiscal year 2007, we granted stock options to all of our named executive officers as part of our long-term compensation. The awards are scheduled to vest as to 12.5% of the underlying award in May 2008 and 12.5% of the underlying award every three months for 21 months thereafter. The number of options awarded varied with respect to each individual due to differences in each individual's compensation targets and role within the company. See the "Grants of Plan Based Awards" table below for information on the number of options awarded to each named executive officer during fiscal year 2007. For information about awards granted in previous years, see our "Outstanding Equity Awards at Fiscal Year-End" table below.

Special Bonuses

Following the conclusion of fiscal year 2007, the compensation committee approved special cash bonuses of \$250,000 to Mr. Halim and \$100,000 to Mr. Biddiscombe. Each of these bonuses is subject to a special bonus letter agreement. The special bonuses must be repaid to the company if the executive officer voluntarily leaves the company or is terminated for cause on or prior to November 23, 2008, the first anniversary of the special bonus award. The compensation committee determined these payments to be appropriate to help ensure management continuity and to recognize the importance of Mr. Halim and Mr. Biddiscombe in continuing through 2008 the progress made in the second half of 2007.

The compensation committee also granted a special equity award to Mr. Biddiscombe in February 2007, to recognize his contributions and encourage his continued commitment to our company. The award included 100,000 shares of restricted stock and 175,000 stock options (which was in excess of the guideline of 62,500 stock options that he otherwise would have received as part of our broad-based grant of stock options to employees in February 2007). The stock options will vest as to 12.5% of the underlying award in May 2008 and 12.5% of the underlying award every three months for 21 months thereafter. The shares of restricted stock will vest as to 33.33% of the underlying award in February 2008 and as to 8.33% of the underlying award every three months for two years thereafter. For valuation of these awards, see our "Grants of Plan-Based Awards" table below.

Other Compensation Policies

Perquisites and Personal Benefits

We provide our executive officers, including our chief executive officer, with perquisites and other personal benefits that we believe are reasonable, competitive and consistent with other semiconductor companies and our overall executive compensation program. The perquisites and personal benefits that we regularly offer include retirement savings plan matching contributions, deferred compensation plan contributions, life insurance premiums, excess personal liability insurance premiums, an annual physical examination, airline club fees, club dues and financial services.

In determining the appropriate level of perquisites and personal benefits, we periodically review the Ayco Executive Benefits & Perquisite survey, as well as information provided in the proxy statements and SEC filings of our peer group. We believe that these benefits help us to hire and retain qualified executives and enable them to perform their job responsibilities with fewer distractions. For valuation of perquisites and other benefits provided during fiscal year 2007, see footnote 3 of our "Summary Compensation Table" below.

Timing of Grants of Equity Awards

We have generally considered grants of stock options and restricted stock to our executive officers on an annual basis at regularly scheduled meetings of the compensation committee. Formal approval of grants of equity awards is obtained on the date of grant. We do not have, and do not intend to have, any program, plan or practice to time the grant of equity awards in coordination with the release of

material non-public information. We also do not have, and do not intend to have, any program, plan or practice to time the release of material non-public information for the purpose of affecting the value of executive compensation. The exercise price for stock options we have granted equals the closing price of our common stock on the grant date.

Policy Regarding Deductibility of Compensation

Section 162(m) of the Internal Revenue Code, enacted in 1993, generally disallows a tax deduction to public companies for compensation over \$1 million paid to the chief executive officer or any of the other four most highly compensated executive officers. However, certain compensation meeting a tax law definition of "performance-based" is generally exempt from this deduction limit. We do not currently have a policy regarding qualification of cash compensation, such as salary and bonuses, for deductibility under Section 162(m). We have included provisions in our 2003 long-term incentives plan designed to enable grants of options to executives affected by Section 162(m) to qualify as "performance-based" compensation. Such grants cannot qualify until they are made by a committee consisting of "outside directors" under Section 162(m). In fiscal year 2007, our executives did not receive compensation at a level that exceeds the \$1 million limit. However, the compensation committee believes that in certain circumstances factors other than tax deductibility take precedence when determining the forms and levels of executive compensation most appropriate and in the best interests of us and our stockholders. Given our changing industry and business, as well as the competitive market for outstanding executives, the compensation committee believes that it is important to retain the flexibility to design compensation programs consistent with its overall executive compensation philosophy even if some executive compensation is not fully deductible. Accordingly, the compensation committee may from time to time deem it appropriate to approve elements of compensation for certain executive officers that are not fully deductible.

Change of Control Agreements

Each of the named executive officers has entered into our standard change of control agreement, which provides under certain circumstances for payments upon termination of employment in connection with a change of control of the company. Payments made under the agreement are subject to a "double trigger," meaning that both a change of control and a termination are required. We believe that a change of control agreement is necessary to diminish the inevitable distraction of executive officers by virtue of the personal uncertainties and risks created by a pending or threatened change of control. This agreement intends to encourage the executive officer's full attention and dedication and to provide a compensation and benefits arrangement satisfactory to the executive officer and competitive with other corporations.

For the purposes of this agreement, a change of control generally means:

the acquisition by any individual, entity or group of beneficial ownership of 20% or more of either the then outstanding shares of our common stock or the combined voting power of the then outstanding voting securities entitled to vote generally in the election of directors;

a change in the composition of a majority of the board, which is not supported by the current board;

a major corporate transaction, such as a reorganization, merger or consolidation or sale or other disposition of all or substantially all of our assets, which results in a change in the majority of the board or of more than 60% of our stockholders; or

approval by our stockholders of the complete liquidation or dissolution of our company.

Edgar Filing: MINDSPEED TECHNOLOGIES, INC - Form 10-K/A

An executive who terminates his own employment for good reason or whose employment is terminated by us for reasons other than for cause, disability or death (qualified terminations) in connection with a change of control is entitled to the following payouts and benefits:

three times the executive officer's base annual salary for the chief executive officer and two times the base annual salary for all other executive officers;

three times the executive officer's bonus under our annual incentive plans for the chief executive officer and two times the bonus for all other executive officers;

accrued vacation pay to the extent that it remains unpaid;

continued coverage under our welfare benefit plans for two years after termination, including, without limitation, medical, prescription, dental, disability, employee life, group life, accidental death and travel accident insurance plans and programs to the extent applicable generally to other peer executives of our company and its affiliated companies;

outplacement services, the scope and provider of which shall be selected by the executive officer in his sole discretion;

other benefits including those that the executive officer is eligible to receive under any plan, program, policy or practice or contract or agreement; and

a gross-up payment, defined as the amount equal to the excise tax on any payment by us pursuant to the change of control agreement as imposed by section 4999 of the Internal Revenue Code and all taxes associated with the payment of that excise tax.

We believe that providing for payment under the change of control agreements upon a double trigger of a change of control and a qualified termination achieves the balanced result of focusing the executive officer and protecting our company's best interests. For more information regarding potential payments under the change of control agreements, see the "Potential Payments Upon Termination or Change-in-Control" table below.

Retirement Plans

Executive officers are eligible to participate in two of our retirement plans, our retirement savings plan and our deferred compensation plan. Our retirement savings plan operates as a defined contribution tax-qualified plan, and our deferred compensation plan is an unfunded nonqualified plan. The difference between these plans from our perspective is that under a tax-qualified plan we are eligible for a tax deduction in the year the compensation is earned, and under a nonqualified plan we are eligible for a tax deduction in the year the compensation is actually paid. These plans serve to offer our executive officers with competitive benefits and allow us to recognize their present and future contributions to our company.

Under our retirement savings plan (a 401(k) retirement plan open to all of our domestic salaried employees), a participant may elect to defer compensation within certain contribution limitations. We retain the discretion to contribute to each participant's plan through profit sharing and matching of contributions. Our contributions are paid in the form of our common stock. For fiscal year 2007, we matched participants' contributions 50% for the first quarter, and 100% for the remainder of the year, of the first 4% of the participant's covered compensation. The matching contributions paid to the named executive officers under our retirement savings plan during fiscal year 2007 are listed in footnote 3 of our "Summary Compensation Table" below.

Under our deferred compensation plan, a select group of highly compensated employees and directors of our company may defer compensation subject to a minimum contribution. The plan has no maximum level of contribution. We match the participant's contribution under this plan in an amount

equal to the match the participant would have received under our retirement savings plan but for his or her participation in our deferred compensation plan and certain limitations imposed by the tax code less the match actually credited to the participant under our retirement savings plan. For more information about our deferred compensation plan and the named executive officers' contributions, please see our "Nonqualified Deferred Compensation" table below.

Overall Analysis

We operate in a highly competitive and cyclical industry. As a company, we have been focused on achieving profitability by reducing expenses and increasing our revenues. While we did not achieve all of our financial goals in fiscal year 2007, significant progress was made, particularly during the second half of the year. For each of the past four years, our net loss has decreased. We believe it is vital to retain and motivate our executive officers in order to achieve profitability. The base salaries and special bonuses paid to our named executive officers are intended to compensate them for services rendered and to prevent us from losing their services to other companies in our industry. We use equity-based compensation, particularly in the form of time-vested stock option grants, to align the interests of executive officers with those of stockholders and to provide a further retention incentive. Finally, our short-term incentives support our pay for performance philosophy by linking the vesting of restricted stock grants to the achievement of overall company and individual performance goals. Thus, we believe that our compensation program successfully achieves our objectives.

During fiscal 2008, we intend to continue monitoring the appropriate level of compensation of our executive officers through the use of our third-party compensation consultant, review of the Radford High Tech survey and comparison to the compensation practices of our peer group.

(1) Restricted stock awards granted November 16, 2006 in this column were granted pursuant to our 2003 long-term incentives plan and were earned and vested in proportion to the accomplishment of each executive officer's goals during fiscal year 2007. The figure shown in this column represents

Edgar Filing: MINDSPEED TECHNOLOGIES, INC - Form 10-K/A

the number of shares deemed earned for fiscal year 2007 performance, as determined by the compensation committee on November 15, 2007. All shares deemed unearned were forfeited. The earned shares are included in this table because as of the end of fiscal year 2007, the relevant performance condition had been satisfied, but the shares remained unvested until November 16, 2007.

(2)

The market value noted in this column was determined by multiplying the number of unvested shares by \$1.73, the closing price of our common stock on the last business day of fiscal year 2007.

Stock Option Award Vesting Schedule

The vesting schedule for stock option awards is set forth below.

Grant Date	Vesting
10/27/2000	Options vested as to 50% of the underlying award on each anniversary of the grant date for two years.
2/15/2001	Mr. Biddiscombe and Mr. Nesbit each received two sets of grants on this grant date. Mr. Biddiscombe's first grant of 14,298 options vested as to 25% of the underlying award on each anniversary of the grant date for four years. His second grant of 5,745 options vested as to 50% of the underlying award on each anniversary of the grant date for two years. Mr. Nesbit's first grant of 53,619 options vested as to 25% of the underlying award on each anniversary of the grant date for four years. His second grant of 7,041 options vested as to 50% of the underlying award on each anniversary of the grant date for two years.
3/30/2001	Options vested as to 50% of the underlying award on the first anniversary of the grant date and 25% on each anniversary of the grant date for two years thereafter.
4/3/2002	The options listed under this grant date were repriced options from earlier grants. Each repriced grant retained its original vesting schedule, but we note the original grant date below. Mr. Halim received a grant of 80,464 options on February 10, 2000, and a grant of 80,465 options on July 24, 2000. Mr. Hamilton received a grant of 3,576 options on July 24, 2000, and a grant of 6,258 options on September 26, 2001. Mr. Medrek received a grant of 7,602 options on October 19, 1999, a grant of 14,304 options on March 13, 2000, and a grant of 14,304 options on July 24, 2000. The vesting schedule for each of these grants provided for 25% of the underlying award to vest on each anniversary of the grant date for four years, except the vesting schedule for Mr. Medrek's award granted on October 19, 1999. This award was made under a plan of a company that we acquired, and we have no detailed information about its original vesting schedule. This award was fully vested as of December 31, 2004.
1/14/2002 4/26/2002 11/5/2002 6/9/2003 6/30/2003 8/15/2003 7/16/2004	Options vested as to 25% of the underlying award on each anniversary of the grant date for four years.

1/28/2005	Options vested as to 50% of the underlying award on the six month anniversary of the grant date and as to 50% of the underlying award on the one year anniversary of the grant date.
2/2/2007	Options will vest as to 12.5% of the underlying award on the 15 month anniversary of the grant date and as to 12.5% of the underlying award every three months for 21 months thereafter.

Restricted Stock Award Vesting Schedule

The vesting schedule for restricted stock awards is set forth below.

11/16/2006	The shares of restricted stock were earned and fully vested on the first anniversary of the grant date. Shares subject to this grant were earned based on achievement of overall company and individual performance goals. Shares that remained unearned based on these goals were forfeited on the first anniversary of the grant date. For a discussion of the vesting provisions of these awards, see "Item 11. Executive Compensation Compensation Discussion and Analysis Elements of Compensation Incentive-Based Compensation Equity Incentive Awards" above.

Option Exercises and Stock Vested

The following table sets forth information regarding the exercise of stock options and the vesting of restricted stock awards for each of our named executive officers during fiscal year 2007.

Name	Option Awards		Stock Awards	
	Number of Shares Acquired on Exercise (#)	Value Realized on Exercise \$(1)	Number of Shares Acquired on Vesting (#)	Value Realized on Vesting \$(2)

- (2) We computed the dollar amount realized upon vesting by multiplying the number of shares by the market price of the underlying securities on the vesting date.

Nonqualified Deferred Compensation

Our deferred compensation plan provides for the deferral of compensation on a basis that is not tax-qualified for a select group of highly compensated employees and directors. A participant may defer up to 100% of base annual salary, annual bonus and director fees. If a participant elects to defer from any of these three sources, he or she must defer at least \$2,000 from the source from which he or she deferred. A participant may also elect to defer 100% of restricted stock grants and qualifying gains with respect to the exercise of eligible stock options. If a participant elects to defer from one of these two sources, he or she must defer at least 25% from the source from which he or she deferred, provided that the amount is at least \$50,000 or 100% of the award.

We will provide a matching amount to each participant equal to the match the participant would have received under our retirement savings plan but for his or her participation in our deferred

compensation plan and the limitations of certain provisions of the Internal Revenue Code, less the match actually credited to the participant's retirement savings plan account. We may also, in our discretion, credit any amount we desire to any participant's account under the terms of our deferred compensation plan.

A participant may allocate and apportion his or her account funds (other than deferred restricted stock grants and stock option grants) in 5% increments into personally selected measurement funds. He or she may choose these funds from a pre-selected list, previously determined by our company, consisting of mutual funds, insurance company separate accounts, indexed rates or other investment vehicles. Interest and other plan earnings of individual accounts are determined by the performance of these measurement funds on a daily basis. These funds are used solely for measurement purposes, and participants hold no actual investment in them.

A participant or the beneficiary may pre-elect to receive benefits under the plan pursuant to an annual installment method of 2, 5, 10, 15 or 20 years or in a lump sum after retirement, death or other termination of employment. If the participant's account balance is less than \$15,500 at the time of retirement, death or other termination, the benefit must be paid as a lump sum.

The following table sets forth amounts deferred by the named executive officers under our deferred compensation plan during fiscal year 2007.

- (3) These amounts are not included in the "Summary Compensation Table" above because the earnings are not preferential or above-market.

Potential Payments upon Termination or Change-in-Control

Under the terms of our standard change of control agreement, deferred compensation plan and 2003 long-term incentives plan, our named executive officers may be entitled to certain payments upon termination of their employment. The following description of the plans is qualified by reference to the complete text of the plans, which have been filed with the SEC. We have not entered into severance agreements with any of our named executive officers.

The following table sets forth estimated payments that would be made to each of our named executive officers upon termination of employment under various circumstances, including: (i) death; (ii) a qualified termination in connection with a change of control; and (iii) termination for any other reason. The information set forth in the table assumes:

the termination event occurred on the last day of fiscal year 2007;

all payments are made in a lump sum on the date of termination;

we are current on all obligations owed the executive through the date of termination (including salary and bonus, but excluding accrued vacation); and

the executive does not find new employment with another employer within two years.

The actual amounts to be paid can only be determined at the time of the executive's termination of employment and may differ materially from the amounts set forth in the table below. The amounts set forth in the table below do not reflect the withholding of applicable state and federal taxes. Following the table is a description of the plans and agreements that affect potential payments upon death, termination or change of control.

(1) The multiple used for the multiplied salary for Mr. Halim as the chief executive officer is three. The multiple used for all other named executive officers is two. The multiplied salary amount is based on the named executive officer's base annual salary as of the end of fiscal year 2007.

(2) The multiple used for the multiplied bonus for Mr. Halim as the chief executive officer is three. The multiple used for all other named executive officers is two. The annual bonus amount used is based on individual target incentive amounts as established by the compensation committee for fiscal year 2007.

- (3) Welfare benefits include the following benefits:

Medical	\$ 15,000
Dental	1,800

Deferred Compensation Plan

Under the terms of our deferred compensation plan, a participating executive is entitled to receive the balance of his account upon termination of his employment. The method of distribution may vary depending on the exact nature of the termination, but in all cases a lump sum payment is an option. As noted above, the table assumes that the deferred compensation benefit is paid in a lump sum.

Participants in our deferred compensation plan are entitled to this benefit regardless of the reason for the termination. As of the end of fiscal year 2007, only Mr. Biddiscombe and Mr. Medrek had outstanding balances in our deferred compensation plan.

Accrued Vacation

Our named executive officers are entitled to payments for their accrued vacation time regardless of the reason for the termination of their employment. The amounts of these payments vary with respect to each individual officer.

2003 Long-Term Incentives Plan

Under the terms of our 2003 long-term incentives plan, the estate or beneficiaries of an executive whose employment is terminated by his or her death are entitled to exercise all outstanding options for up to three years following his or her death. The estate or beneficiaries may exercise these options regardless of whether the options had vested prior to the employee's death. The table accounts for this benefit by multiplying the number of outstanding but unvested options by the difference between the exercise price of the option and \$1.73, the price of our common stock on the last business day of fiscal year 2007. An employee terminated for reasons other than cause or his death may exercise only the options vested and exercisable as of the termination date for a period of three months following termination. An employee terminated for cause forfeits all options. No extra financial benefit from restricted stock awards is derived upon termination.

Assuming death on the last day of fiscal year 2007, only Mr. Hamilton would derive value from the terms of this plan. Because of the individual circumstances of their vesting dates and exercise prices, no other named executive officer would financially benefit from the acceleration of unvested options under this plan.

Change of Control Agreements

Each of the named executive officers has entered into our standard change of control agreement, which provides under certain circumstances for payments upon termination of employment in connection with a change of control of our company. Additional information regarding the change of control agreements is discussed above under the caption "Item 11. Executive Compensation Compensation Discussion and Analysis Other Compensation Policies Change of Control Agreements."

Director Compensation

The following table sets forth the compensation earned for services performed for us as a director by each member of the board of directors, other than any director who is also a named executive officer, during fiscal year 2007.

Name(1)	Fees Earned or Paid in Cash \$(2)	Stock Awards \$(3)	Option Awards \$(4)	Total (\$)

Jerre L. Stead	72,500	31,650	37,762	141,912

(1) Mr. Halim serves as a member of the board of directors and also as one of our executive officers. Mr. Halim did not receive any compensation for serving as a member of the board of directors, but is compensated for serving as our chief executive officer.

(2) Represents the amount of cash compensation earned during fiscal year 2007 for service on the board of directors and committees of the board of directors, as applicable. For more information on how the directors were compensated, please see the explanation set forth below.

(3) These amounts reflect the dollar amount recognized for financial statement reporting purposes for the fiscal year ended September 30, 2007, in accordance with FAS 123R, of awards pursuant to our directors stock plan. Assumptions used in the calculation of these amounts are included in Note 10, "Stock-Based Compensation" to our audited financial statements for the fiscal year ended September 30, 2007 included in our annual report on Form 10-K filed originally with the SEC on November 30, 2007. However, as required, the amounts shown exclude the impact of estimated forfeitures related to service-based vesting conditions. However, as required, the amounts shown exclude the impact of estimated forfeitures related to service-based vesting conditions. Jerre L. Stead	198,656

- (5) Mr. Beall retired from the board of directors effective November 15, 2007. In connection with Mr. Beall's retirement, the board of directors and the compensation committee approved the acceleration of all unvested stock options and other equity awards held by Mr. Beall, in accordance with our directors stock plan and our 2003 stock option plan. All unexercised stock options held by Mr. Beall as of November 15, 2007 became fully vested and exercisable; provided that each such option will expire upon the earlier to occur of: (i) November 15, 2012; or (ii) the expiration date specified in such option. In addition, all shares of restricted stock held by Mr. Beall vested ten days after his retirement in accordance with the terms of our directors stock plan.
- (6) Mr. Gips' director fees have been deferred pursuant to our deferred compensation plan.

For board participation during fiscal year 2007, our non-employee directors each received annual base compensation of \$30,000. They each also received committee participation compensation equal to \$2,500 annually for service on the compensation committee and/or the governance committee (\$7,500 if serving as chairman of such committee) and \$5,000 annually for service on the audit committee (\$10,000 if serving as chairman of such committee). In addition, each non-employee director received \$1,250 per meeting for each board and committee meeting attended in person or by telephone. Mr. Decker, our non-employee chairman of the board, received an additional \$20,000 for his services. Beginning in fiscal year 2008, the additional compensation to be paid to Mr. Decker for his service as chairman of the board will be increased to \$50,000 annually.

Our directors stock plan provides that upon initial election to the board, each non-employee director is granted an option to purchase 40,000 shares of our common stock at an exercise price per share equal to its fair market value on the date of grant. The options become exercisable in four equal installments on each of the first, second, third and fourth anniversaries of the date the options are granted. In addition, each non-employee director is granted an option to purchase 20,000 shares of our common stock following each annual meeting of stockholders. Following the annual meeting of stockholders in March 2007, each non-employee director also received a grant of 15,000 shares of restricted stock pursuant to the terms of our directors stock plan. The vesting of these shares is in the same manner as the settlement of the restricted stock units described below. Our directors stock plan provides that following the 2008 annual meeting of stockholders and each annual meeting of stockholders thereafter, each non-employee director will be granted restricted stock units in an amount equal to the lesser of: (i) 15,000 restricted stock units; or (ii) the number of restricted stock units (rounded to the nearest whole unit) equaling \$45,000 divided by the closing price of our common stock

on the date of grant. The recipient of the restricted stock units does not have rights of a stockholder until the shares underlying the restricted stock units are settled. The units are not settled until ten days after: (i) the recipient retires from the board after attaining age fifty-five and completing at least five years of service as a director; or (ii) the recipient resigns from the board or ceases to be a director by reason of antitrust laws, compliance with our conflict of interest policies, death, disability or other circumstances, and the board has not determined (prior to the expiration of such ten day period) that such resignation or cessation of service as a director is adverse to our best interests.

Under the terms of our deferred compensation plan, a director may elect to defer all or part of his cash compensation and certain equity awards as described under the caption "Item 11. Executive Compensation Nonqualified Deferred Compensation" above. Each director also has the option each year to receive all or a portion of cash compensation due via shares of our common stock or restricted stock units valued at the closing price of our common stock on the date each payment would otherwise be made.

Review, Approval or Ratification of Transactions with Related Persons

Pursuant to the audit committee charter, which can be found at www.mindspeed.com, the audit committee is responsible for the review and approval of related person transactions, unless the transaction is approved by another independent body of the board. A related person is a director, executive officer, nominee for director or certain stockholders of our company since the beginning of the last fiscal year and their respective immediate family members. A related person transaction is a transaction involving our company and any related person when the amount involved exceeds \$120,000, and the related person has a material direct or indirect interest.

We identify transactions for review and approval through our code of business conduct and ethics which can be found at www.mindspeed.com. This code requires our employees to disclose any potential or actual conflicts of interest to our legal department or our human resources department. Directors must disclose potential or actual conflicts of interests to the chairman of the board, audit committee or compensation committee. This disclosure also covers potential conflicts involving immediate family members of the employees and directors. Each year we also require our directors and executive officers to complete a questionnaire intended to identify any transactions or potential transactions that must be reported according to SEC rules and regulations. This questionnaire also requires our directors and executive officers to promptly notify us of any changes during the course of the year.

Director Independence

Each year prior to our annual meeting, the board reviews and determines the independence of its directors. During this review, the board considers transactions and relationships between each director or any member of his or her immediate family and our company and its subsidiaries and affiliates. The board measures these transactions and relationships against the independence requirements of the SEC and The NASDAQ Stock Market, LLC. As a result of this review, the board affirmatively determined that Messrs. Decker, Gips, Hayashi, Louie, Madden and Stead, are "independent" in accordance with the applicable rules of NASDAQ.
