PROSPECTUS SUPPLEMENT
(To prospectus dated July 20, 2009)

7,700,000 Shares

Bemis Company, Inc.

Common Stock

We are offering 7,700,000 shares of our common stock. Our common stock is listed on the New York Stock Exchange under the symbol "BMS". On July 22, 2009, the last reported sale price of our common stock as reported on the New York Stock Exchange was \$27.10 per share.

Investing in our common stock involves risks. Before buying any shares, you should read carefully the discussion of material risks of investing in our common stock under the heading "Risk Factors" beginning on page S-11 of this prospectus supplement and in the documents incorporated by reference in this prospectus supplement and the accompanying prospectus.

	Per Share	Total
Public offering price	\$ 26.00	\$200,200,000
Underwriting discounts and commissions	\$1.17	\$9,009,000
Proceeds, before expenses, to us	\$ 24.83	\$191,191,000

We have granted to the underwriters the right to purchase up to an additional 1,155,000 shares to cover any overallocments. The underwriters can exercise this right at any time within 30 days after this offering.

Neither the Securities and Exchange Commission nor any state securities commission has approved or disapproved of these securities or passed upon the accuracy or adequacy of this prospectus supplement or the accompanying prospectus. Any representation to the contrary is a criminal offense.

The underwriters expect to deliver the shares against payment on July 28, 2009.

ABOUT THIS PROSPECTUS SUPPLEMENT

This document is in two parts. The first part is this prospectus supplement, which contains the terms of this offering of shares. The second part, the accompanying prospectus dated July 20, 2009, gives more general information, some of which may not apply to this offering.

This prospectus supplement and the information incorporated by reference in this prospectus supplement may add to, update or change the information in the accompanying prospectus. If information in this prospectus supplement is inconsistent with information in the accompanying prospectus, this prospectus supplement will apply and will supersede that information in the accompanying prospectus.

It is important for you to read and consider all information contained or incorporated by reference in this prospectus supplement and the accompanying prospectus in making your investment decision. You should also read and consider the information in the documents to which we have referred you in "Where You Can Find More Information" in the accompanying prospectus.

No person is authorized to give any information or to make any representations other than those contained or incorporated by reference in this prospectus supplement or the accompanying prospectus and, if given or made, such information or representations must not be relied upon as having been authorized. This prospectus supplement and the accompanying prospectus do not constitute an offer to sell or the solicitation of an offer to buy any securities other than the securities described in this prospectus supplement or an offer to sell or the solicitation of an offer to buy such securities in any circumstances in which such offer or solicitation is unlawful. Neither the delivery of this prospectus supplement and the accompanying prospectus, nor any sale made hereunder, shall under any circumstances create any implication that there has been no change in our affairs since the date of this prospectus supplement, or that the information contained or incorporated by reference in this prospectus supplement or the accompanying prospectus is correct as of any time subsequent to the date of such information.

The distribution of this prospectus supplement and the accompanying prospectus and the offering of the shares in certain jurisdictions may be restricted by law. This prospectus supplement and the accompanying prospectus do not constitute an offer, or an invitation on our behalf or the underwriters or any of them, to subscribe to or purchase any of the shares of common stock, and may not be used for or in connection with an offer or solicitation by anyone, in any jurisdiction in which such an offer or solicitation is not authorized or to any person to whom it is unlawful to make such an offer or solicitation. See "Underwriting."

In this prospectus supplement, unless otherwise stated or the context otherwise requires, references to "we," "us," "our" and "Company" refer to Bemis Company, Inc. and its consolidated subsidiaries. If we use a capitalized term in this prospectus supplement and do not define the term in this document, it is defined in the accompanying prospectus.

Some of the market and industry data and forecasts included in this prospectus supplement are based on independent industry sources. Although we believe that these independent sources are reliable, we have not independently verified the accuracy and completeness of this information, nor have we independently verified the underlying economic assumptions relied upon in preparing any data or forecasts. In addition, statements in this prospectus supplement about the Alcan Packaging Food Americas business of Rio Tinto plc ("Rio Tinto") are made primarily on the basis of information furnished by management of Rio Tinto during negotiations regarding the sale of that business to us.

Table of Contents

FORWARD-LOOKING STATEMENTS

This prospectus supplement, the accompanying prospectus and the documents incorporated by reference herein and therein contain certain estimates, predictions, and other "forward-looking statements" (as defined in the Private Securities Litigation Reform Act of 1995, and within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended). Forward-looking statements are generally identified with the words "believe," "expect," "anticipate," "intend," "estimate," "target," "may," "will," "would," "plan," "project," "should," "continue," or the negative thereof or other similar expressions, or discussion of future goals or aspirations, which are predictions of or indicate future events and trends and which do not relate to historical matters. Such statements are based on information available to management as of the time of such statements and relate to, among other things, expectations of the business environment in which we operate, projections of future performance (financial and otherwise), including those of acquired companies, perceived opportunities in the market and statements regarding our mission and vision. Forward-looking statements involve known and unknown risks, uncertainties and other factors, which may cause actual results, performance or achievements to differ materially from anticipated future results, performance or achievements expressed or implied by such forward-looking statements. We undertake no obligation to publicly update or revise any forward-looking statement, whether as a result of new information, future events, or otherwise.

Factors that could cause actual results to differ from those expected include, but are not limited to, our ability to realize the expected benefits of our proposed acquisition of the Alcan Packaging Food Americas business of Rio Tinto, general economic conditions caused by inflation, interest rates, consumer confidence, rates of unemployment and foreign currency exchange rates; investment performance of assets in our pension plans; competitive conditions within our markets, including the acceptance of our new and existing products; customer contract bidding activity; threats or challenges to our patented or proprietary technologies; raw material costs, availability, and terms, particularly for polymer resins and adhesives; price changes for raw materials and our ability to pass these price changes on to our customers or otherwise manage commodity price fluctuation risks; unexpected energy surcharges; broad changes in customer order patterns; our ability to achieve expected cost savings associated with cost management initiatives; the presence of adequate cash available for investment in our business in order to maintain desired debt levels; a failure in our information technology infrastructure or applications; changes in governmental regulation, especially in the areas of environmental, health and safety matters, fiscal incentives, and foreign investment; unexpected outcomes in our current and future administrative and litigation proceedings; unexpected outcomes in our current and future tax proceedings; changes in domestic and international tax laws; costs associated with the pursuit of business combinations (pursuant to FAS No. 141(R)); changes in our labor relations; and the impact of changes in the world political environment including threatened or actual armed conflict. These and other risks, uncertainties, and assumptions identified from time to time in our filings with the Securities and Exchange Commission, including without limitation, our Annual Report on Form 10-K for the year ended December 31, 2008 (the "2008 10-K").

Table of Contents

NON-GAAP FINANCIAL MEASURES AND RECONCILIATION

We define EBITDA as earnings before interest, taxes, depreciation, and amortization. We have included the EBITDA financial measure herein because we believe it is used by our investors as a supplemental financial measure to:

assess financial performance of our assets without regard to financing methods, capital structures or historical costs basis;
and

compare the operating performance of our assets with the performance of other companies that have different financing and capital structures.

EBITDA should not be considered as an alternative to net income or income from continuing operations, operating income, cash flows from operating activities or any other measure of financial performance calculated and presented in accordance with Generally Accepted Accounting Principles ("GAAP"). The EBITDA measure that we present may not be comparable to EBITDA of other companies, because other companies may not calculate EBITDA in the same manner as we do.

Management believes that the presentation of EBITDA is useful because it provides a reliable and consistent approach to measuring the Company's performance from year to year and in assessing the Company's performance against other companies. Management believes that such information helps investors compare operating results and corporate performance exclusive of the impact of the Company's capital structure and the method by which assets were acquired. The following table reconciles EBITDA to net income, its most directly comparable financial measure calculated and presented in accordance with GAAP, for the periods indicated:

Reconciliation of EBITDA to Net income

Financial Measure (in millions)	Twelve Months Ended June 30, 2009
Net income	\$ 168
Income taxes	94
Interest expense	31
Depreciation and amortization	156
 Earnings before interest taxes depreciation and amortization	 \$ 449

Table of Contents

PROSPECTUS SUPPLEMENT SUMMARY

This summary highlights selected information about us. It may not contain all of the information that may be important to you in deciding whether to invest in the notes. You should read this entire prospectus supplement and the accompanying prospectus, including our financial statements and related notes, together with the information incorporated by reference, before making an investment decision. Unless otherwise indicated, references to the "LTM Period" refer to the twelve month period ended June 30, 2009.

Our Business

We believe we are the largest producer of flexible packaging in North and South America as measured by annual sales in 2008, with a focus on utilizing proprietary technologies to design and manufacture differentiated products that offer extended shelf life, product freshness and consumer appeal. More than half of our net sales have been to customers in the packaged food market segments that utilize our flexible packaging for a broad range of products throughout the grocery store, including packaging for bacon, hot dogs, cheese, candy, frozen foods, cereals, snacks, fresh produce, coffee, condiments, pet food, toilet tissue and baked goods. Our flexible packaging business also provides packaging for medical, pharmaceutical, lawn and garden, industrial, display and other end markets. In addition to flexible packaging, we produce pressure sensitive adhesive products that we sell to label converters and customers in graphic and technical markets. We serve a variety of customers, including leading worldwide food and consumer products companies, from 61 manufacturing facilities throughout North America, South America, Europe and Asia. The combination of our modern manufacturing facilities and our emphasis on technological improvements has enabled us to provide innovative products for over 150 years, allowing our customers to distinguish their products in the marketplace and grow their sales.

For the LTM Period, we generated net sales of \$3.6 billion and Earnings Before Interest Taxes Depreciation and Amortization ("EBITDA") of \$449 million. Over the past five calendar years, our net sales have grown at a compound annual rate of 7.5 percent. Approximately 35 percent of our net sales were outside North America in fiscal 2008.

On July 5, 2009, we agreed to acquire the Alcan Packaging Food Americas business of Rio Tinto for approximately \$1.2 billion (the "Acquisition"; see "Recent Developments" in this Prospectus Supplement Summary). Headquartered in Chicago, IL, Alcan Packaging Food Americas designs, manufactures and sells a broad range of specialty flexible packaging products through 23 manufacturing plants located throughout North America, South America and New Zealand. Alcan Packaging Food Americas generated 2008 net sales of \$1.5 billion.

Business Segments

Our business activities are organized around two major business segments: flexible packaging and pressure sensitive materials.

Flexible Packaging (83 percent of 2008 net sales; 88 percent of 2008 net sales pro forma for the Acquisition)

The Flexible Packaging business segment manufactures a broad range of products which are typically plastic-based and offer varying levels of technical sophistication depending on the specific needs of the application. We have a broad range of capabilities including polymer chemistry, film extrusion, coating and laminating, printing, and converting. More than half of our flexible packaging sales are derived from multilayer products which provide barrier protection from oxygen, moisture, light and high temperature packaging processes. These barrier properties improve product shelf life and preserve freshness. Our flexible packaging products include blown and cast stretch-film products, carton sealing tapes and application equipment, custom thermoformed plastic packaging, multi-wall paper bags, printed paper roll stock, and bag closing materials.

Table of Contents

Our flexible packaging products serve a wide range of branded and private label food applications, including processed meat and cheese, liquids, frozen foods, cereals, snacks, fresh produce, coffee, condiments, candy, pet food and baked goods. Our non-food flexible packaging sales are to the medical, health and hygiene, industrial, lawn and garden, and pharmaceutical market segments.

Pressure Sensitive Materials (17 percent of 2008 net sales; 12 percent of 2008 net sales pro forma for the Acquisition)

The Pressure Sensitive Materials business segment manufactures adhesive coated paper and film substrates which are sold into three main markets:

Label markets Rolls of adhesive backed papers, films and metalized film printing substrates for package labeling, bar code labels and laser printing applications

Graphic markets Papers and films used principally for indoor and outdoor signage and vehicle graphic applications

Technical markets Engineered adhesive papers with specific performance characteristics for different industrial applications in the electronics, automotive, construction, medical and pharmaceutical markets

Industry Overview

We compete in the global flexible packaging market and believe we are the largest producer of flexible packaging in North and South America as measured by 2008 sales. The majority of our net sales are derived from the North American market, which generated approximately \$26 billion in industry sales in 2007 according to the Flexible Packaging Association. Food represents the largest end market served by flexible packaging, accounting for over half of the total North American flexible packaging market in 2007.

The overall flexible packaging industry remains generally fragmented, with a large number of competitors serving various applications. Competition is largely based on service, innovation, quality and price.

Competitive Strengths

Leading market positions. We believe we are the largest producer of flexible packaging in North and South America based on 2008 sales. We serve a broad array of product categories, including packaging for bacon, hot dogs, cheese, candy, frozen foods, cereals, snacks, fresh produce, coffee, condiments, pet food, toilet tissue and baked goods. In addition, we are also one of the largest suppliers of pressure sensitive materials globally. We have built these leadership positions by consistently offering customers a broad range of sophisticated, high-quality products. We intend to continue to provide innovative product solutions and strong quality and service to our customers.

Focus on strong end markets. We primarily serve the food market, which accounted for approximately 57 percent of our 2008 net sales, and on a pro forma basis after giving effect to the Acquisition would have accounted for approximately 70 percent of our net sales. Packaged food products tend to exhibit stable demand in recessionary environments, particularly as away-from-home food consumption declines. We have historically seen strong growth in our food packaging sales, as new products and applications have been introduced into the retail consumer market. We have also increased our sales to the medical and pharmaceutical markets, which have been strong growth avenues given aging population trends and the increasing number of applications where we can utilize our multi-layer flexible packaging capabilities.

Table of Contents

Superior product design and development capabilities. We use our material science expertise to design and develop innovative packaging films that offer competitive performance attributes that we believe differentiate us from our competitors. We employ a team of research and development professionals who have years of experience working with chemical properties of specialty polymer resins and adhesives. We use polyethylene as well as a broad range of specialty resins and polymer formulations to produce unique packaging films. More than half of our products utilize innovative solutions developed through our modern research and development capabilities in recent years. Our product development capabilities enable us to capitalize on growth opportunities and continue to enhance our relationships with our customers.

Long-term relationships with a diverse group of established customers. We serve a broad base of customers throughout the world. Our customer base is comprised of regional and local food companies as well as established, global brand name food and consumer product companies. We have long-standing relationships with our top ten customers. In fiscal 2008, our top 10 customers collectively accounted for approximately 23 percent of our net sales, with no single customer representing more than 6 percent of net sales. More than half of our net sales are conducted under long-term customer contracts which provide for selling price adjustments in response to raw material price fluctuations. These long-term contracts, together with our ability to adjust selling prices in response to raw materials price increases for the remainder of our sales, mitigate our overall exposure to volatility in resin prices.

Strong, stable free cash flow. For the LTM period ended June 30, 2009 we generated \$433 million of operating cash flow, or 12.2 percent of our net sales, driven by cost controls and working capital management. Our free cash flow, defined as cash flow from operations less capital expenditures, has been driven by our resilient and growing end markets, modest capital expenditure requirements and focus on working capital management. We believe our manufacturing facilities are modern and maintained to very high operating standards. While we regularly invest in the growth of our business, particularly to develop manufacturing platforms for new products, our maintenance capital needs are limited. In 2009, we expect to spend \$100 - \$110 million in total capital expenditures compared to an average of \$161 million for 2005 through 2008. In 2007, we completed a multiyear capital expansion program to enhance our polyester platform and our medical device packaging capacity. Further, our ongoing implementation of our World Class Manufacturing program initiatives has focused on continuous improvements in operating efficiencies and levels of working capital. The stability of our strong cash flows is supported by our ability to consistently adjust selling prices to address increases in raw material costs, either through provisions in our customer contracts or according to typical industry practice.

Proven management team. We have an experienced and proven management team at both the executive and operating levels. Our Executive Chairman, CEO and CFO each have spent over 30 years at Bemis, and our overall management team has extensive manufacturing, technical, marketing and management experience. Over the past 10 years under this management team, Company sales with existing and new customers have grown, company-wide productivity has improved and the Company has acquired and integrated 10 businesses.

Our Growth Strategy

Focus on innovative packaging solutions to enhance sales

Utilizing our modern research and development capabilities, we intend to maintain our focus on the development of innovative packaging solutions to enhance our sales. We expect to continue to create product solutions that address specific customer and market needs. For example, our innovative solutions extend the shelf life of perishable or refrigerated products, protect food safety, and reduce the package weight compared to alternative packaging options, which addresses customer and retailer requirements for sustainability. We develop easy opening features for consumers that maintain the shelf

Table of Contents

life of the product and eliminate the need for scissors or knives for opening. Additionally, we continue to focus on medical and pharmaceutical end markets, which have experienced rapid growth in recent years, and we believe we can employ many of our existing food packaging technologies in these markets. For example, drug-coated medical devices require protection not only for sterility but shelf-life in order to maintain the potency of their drug coating.

The Acquisition will provide an entrance into several product segments and expand our market reach, including baby food, wet pet food, cookies and crackers, juice pouches and beverage labels.

Improve profitability through realization of acquisition synergies and continued emphasis on operational and manufacturing excellence

In connection with the Acquisition, we expect to generate \$65 million of annualized cost savings. (see "Recent Developments" in this Prospectus Supplement Summary).

In addition, we intend to improve our profitability through focusing on World Class Manufacturing program initiatives and implementing best practices across our facilities globally. In particular, we will continue to emphasize:

improving output on our existing equipment;

reducing waste;

pursuing purchasing savings; and

improving safety performance to reduce lost time and health care costs.

We believe our ongoing focus on World Class Manufacturing program initiatives and best practices has the opportunity to yield significant savings beyond the synergies associated with the Acquisition.

Utilize free cash flow to reduce debt, grow and maximize returns on invested capital

Over the years we generated significant operating cash flow, which has enabled us to grow our business, maintain our investment grade credit profile and consistently return capital to shareholders through our dividend and opportunistic share repurchases. We expect the Acquisition to expand our product offerings and increase our free cash flow.

Recent Developments

Pending Acquisition of Alcan Packaging Food Americas

On July 5, 2009, we entered into a Sale and Purchase Agreement (the "Transaction Agreement") with Alcan Holdings Switzerland AG ("AHS") and Alcan Corporation ("Alcan" and together with AHS, the "Sellers"). Pursuant to the Transaction Agreement, the Company agreed to acquire (the "Acquisition") the food packaging business and certain related assets of Sellers located in the United States, Canada, Argentina, Brazil, Mexico and New Zealand (the "Food Packaging Business" d/b/a "Alcan Packaging Food Americas").

The Purchase Price for the Acquisition is approximately \$1.2 billion payable at closing, subject to certain adjustments at closing (the "Purchase Price"). We estimate approximately \$100 million of tax benefits to us related to the structuring of much of the transaction as a purchase of assets. Under the terms of our agreement, we have the option to pay up to \$200 million of the Purchase Price in Bemis common stock issued pursuant to an equity commitment agreement. The acquisition is expected to close by the end of 2009, subject to certain closing conditions as described in the Transaction Agreement.

Table of Contents

Overview of Alcan Packaging Food Americas

Headquartered in Chicago, IL, Alcan Packaging Food Americas designs, manufactures and sells a broad range of specialty flexible packaging products through 23 manufacturing plants located throughout North America, South America and New Zealand. These manufacturing facilities are very modern and run with a focus on operational excellence. Alcan Packaging Food Americas offers customers a broad product portfolio with more than half of sales to the food market segments, including beverage, confectionary, meat and cheese, and dairy segments. Similar to our portfolio, most of Alcan Packaging Food Americas' products are film-based, utilizing multilayer formulations and barrier technology.

For calendar year 2008, Alcan Packaging Food Americas recorded revenue of \$1.5 billion.

Alcan Packaging Food Americas Acquisition Rationale

The acquisition of Alcan Packaging Food Americas provides several compelling benefits to us:

Enhances our focus on food packaging. On a pro forma basis, after giving effect to the Acquisition, our total net sales for 2008 would have been \$5.3 billion, and our flexible packaging net sales for 2008 would have been \$4.7 billion. On a pro forma basis after giving effect to the Acquisition, food and beverage packaging sales would increase to approximately 70 percent of our 2008 net sales as compared to 57 percent prior to the Acquisition. On a pro forma basis, after giving effect to the Acquisition, we would have had a total of over 20,000 employees and 84 modern manufacturing facilities in 2008. Alcan Packaging Food Americas is highly complementary to us in terms of products, customers and geographies. The increased breadth of our product portfolio will allow us to serve new end markets including baby food, wet pet food, cookies and crackers, juice pouches and beverage labels.

Presents significant synergy opportunities. We expect that the Acquisition would result in approximately \$65 million in annual pre-tax cost savings to us and that we would achieve this run-rate level by the end of the second year following the Acquisition. Our goal is to realize approximately half of the targeted synergies in the first year following the Acquisition. We expect that the synergies will be primarily realized in procurement, corporate and SG&A efficiencies, and supply chain management.

Expands our technological expertise. We believe that the Acquisition will expand our material science expertise to new areas including foil-based flexible packaging, dual ovenable crystallized polyethylene terephthalate, or CPET, trays for microwave and conventional cooking, and oriented polypropylene film labels. The combined technological platforms of Bemis and Alcan Packaging Food Americas will enhance our ability to serve our customers and provide opportunities for sales growth.

The closing of the Acquisition is subject to various conditions and regulatory approval. The acquisition is expected to close by the end of 2009. We cannot, however, provide any assurance whether or when the Acquisition will be consummated. Funding for the Acquisition is expected to come from a combination of the proceeds of this offering, the issuance of \$800 million aggregate principal amount of notes in July 2009, the issuance of commercial paper, borrowings under new credit facilities (the "Acquisition Credit Facilities"), and available cash.

South American Rigid Packaging Acquisition

On June 3, 2009, we announced that we acquired the South American rigid packaging operations of Huhtamaki Oyj, a global manufacturer of consumer and specialty packaging. This rigid packaging business, which includes three facilities in Brazil and one facility in Argentina, recorded annual net sales of approximately \$86 million in 2008, primarily to dairy and food service markets. The purchase price of \$43.0 million was paid with a combination of \$32.3 million cash on hand, \$1.9 million of debt assumed, and a \$8.8 million note payable to the seller. As of June 30, 2009, \$1.5 million remained outstanding on the note payable which is due May 31, 2010.

Table of Contents

Corporate Information

Bemis Company, Inc. is a Missouri corporation. Our principal executive offices are located at One Neenah Center, 4th Floor, Neenah, Wisconsin 54957, and the telephone number is (920) 727-4100. Our common stock is listed under the symbol "BMS" on the New York Stock Exchange.

The Offering

The summary below describes the principal terms of the shares. Certain of the terms and conditions described below are subject to important limitations and exceptions. For a more detailed description of the shares, see the section entitled "Description of Common Stock" in the accompanying prospectus.

Issuer	Bemis Company, Inc.
Common Stock Offered	7,700,000 shares
Common Stock Outstanding after this Offering	107,633,360 shares(1)
Use of Proceeds	We anticipate that we will receive approximately \$190,856,000 million in net proceeds from the offering of the common stock, after deducting underwriting discounts and commissions and other estimated expenses of the offering. The net proceeds from the sale of the shares will be used to fund a portion of the cash consideration payable in connection with the Acquisition. This offering is not conditioned on the closing of the Acquisition and there can be no assurance that the Acquisition will be consummated. We expect that the total cash consideration payable in connection with the Acquisition will be approximately \$1.2 billion. In addition to the net proceeds from this offering, we expect to use net proceeds from the issuance of \$800 million aggregate principal amount of notes in July 2009, the issuance of commercial paper, borrowings under the Acquisition Credit Facilities, and available cash.
Transfer Agent	The transfer agent for the common stock is Wells Fargo Bank, N.A.
NYSE Symbol	BMS
Risk Factors	See "Risk Factors" and other information included or incorporated by reference in this prospectus supplement and the accompanying prospectus for a discussion of factors you should consider carefully before investing in our common stock.

(1) The number of shares of common stock outstanding immediately after this offering is based on 99,933,360 shares issued and outstanding as of June 30, 2009 and assumes no exercise of the underwriters' over-allotment option and no exercise of stock options granted to our employees, of which options to purchase up to 1,210,032 shares of common stock were exercisable at a weighted average exercise price of \$20.09 per share as of June 30, 2009.
