### **Forward-Looking Statements**

This report contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995 concerning, among other things, the prospects and developments of The GSI Group, Inc. (the "Company") and business strategies for our operations, all of which are subject to risks and uncertainties. Among these forward-looking statements and among those risks and uncertainties, are obtaining suitable financing to support our growth in operations; possible acquisition or divestiture transactions; managing our growth to achieve operating efficiencies; successfully competing in our markets; adequately protecting our proprietary information and technology from competitors; assuring that our products are not rendered obsolete by products or technologies of competitors; successfully managing product liability risks; and avoiding problems with third parties, including key personnel, upon whom we may be dependent. These forward-looking statements are included in various sections of this report. These statements are identified as "forward-looking statements" or by their use of terms (and variations thereof) such as "will," "may," "can," "anticipate," "intend," "continue," "estimate," "expect," "plan," "should," "outlook," "believe," and "seek" and similar terms (and variations thereof) and phrases.

When a forward-looking statement includes a statement of the assumptions or bases underlying the forward-looking statement, we caution that, while we believe such assumptions or bases to be reasonable and make them in good faith, assumed facts or bases almost always vary from actual results, and the differences between assumed facts or bases and actual results can be material, depending upon the circumstances. Where, in any forward-looking statement, we or our management express an expectation or belief as to future results, we express that expectation or belief in good faith and believe it has a reasonable basis, but we can give no assurance that the statement of expectation or belief will result or be achieved or accomplished.

Our actual results may differ significantly from the results discussed in the forward-looking statements.

**THE GSI GROUP, INC.**  
**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**

**1. Summary of Significant Accounting Policies**

The financial statements have been prepared by The GSI Group, Inc. (the "Company"), without audit, pursuant to the rules and regulations of the Securities and Exchange Commission. Certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been condensed or omitted pursuant to such rules and regulations, although the Company believes that the disclosures are adequate to make the information not misleading. The condensed consolidated balance sheet of the Company as of December 31, 2006 has been derived from the audited consolidated balance sheet of the Company as of that date. Certain information and note disclosures normally included in the Company's annual financial statements prepared in accordance with Generally Accepted Accounting Principles (GAAP) have been condensed or omitted. These condensed consolidated financial statements should be read in conjunction with the consolidated financial statements and related notes contained in the Company's December 31, 2006 Form 10-K as filed with the Securities and Exchange Commission.

In the opinion of management, the accompanying unaudited condensed consolidated financial statements contain all adjustments necessary to present fairly the financial position of the Company as of March 31, 2007 and the results of operations and cash flows for the periods of three months ended March 31, 2007 and 2006. Those adjustments consist only of normal recurring adjustments.

The results of operations for the period of three months ended March 31, 2007 and 2006 are not necessarily indicative of the operating results for the full year. The accompanying financial statements reflect the consolidated results of the Company. All inter-company transactions and balances have been eliminated.

Foreign income taxes		220		365
Other		(141)		(75)
<b>Total</b>		<b>\$ 2,980</b>		<b>\$ 2,117</b>

#### 5. Income Tax Reserves

In July 2006, the Financial Accounting Standards Board ("FASB") issued FASB Interpretation No. 48 ("FIN 48"), "Accounting for Uncertainty in Income Taxes," which clarifies the accounting treatment of uncertain tax positions in the financial statements in accordance with FASB Statement No. 109, "Accounting for Income Taxes." FIN 48 provides guidance on the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. FIN 48 also provides guidance on de-recognition, classification, interest and penalties, accounting in interim periods, and required disclosures. It is effective for fiscal years beginning after December 15, 2006.

The Company adopted FIN 48 on January 1, 2007. The adoption has resulted in a transition adjustment reducing beginning retained earnings by \$158 thousand and increased Other Long Term Liabilities. The Company has also accrued \$172 thousand as part of Other Accrued Expenses in Current Liabilities. If recognized the tax portion of the adjustment would affect the effective tax rate. Interest costs and penalties related to the income taxes are classified as

interest expense and other, respectively in the Company's financial statements.

The Company's income tax years 2003-2006 remain open to examination by US state and federal tax jurisdictions. In our major non-U.S. jurisdictions, tax years are typically subject to examination for three to six years. Further, the Company is unaware of any positions for which it is reasonably possible that the total amounts of unrecognized tax benefits will significantly increase or decrease within the next twelve months.

**9**

---

## **6. Commitments and Contingencies**

Sales of agricultural equipment are seasonal, with farmers traditionally purchasing grain storage, drying and handling equipment in the summer and fall in conjunction with the harvesting season, and protein (swine and poultry) producers purchasing equipment during prime construction periods in the spring, summer and fall. The Company's sales and net income have historically been lower during the first and fourth fiscal quarters as compared to the second and third quarters.

As of March 31, 2007 the Company had \$0.0 million of revolving loans outstanding and \$5.4 million of standby letters of credit under the credit facility, which reduced the overall availability under the credit facility to \$54.6 million.

### ***Revolving Credit Facility***

On May 16, 2005, concurrently with the issuance of \$110,000,000 of 12% Senior Notes due 2013 and the closing of the acquisition of The GSI Group, Inc. (the "Company") by GSI Holdings Corp. ("GSI Holdings"), an affiliate of Charlesbank Equity Fund V, Limited Partnership, the Company refinanced its existing credit facility with a five-year asset-backed revolving credit facility provided by lenders led by Wachovia Capital Finance Corporation (Central) ("Wachovia"), as the agent. The maximum amount of revolving credit available under the Company's refinanced credit facility (the "Credit Facility") is \$60.0 million and the Company has the option to increase the facility in increments of \$5.0 million up to a maximum of \$75.0 million (subject to compliance with the covenants in the indenture). Up to \$15 million of the facility is available for issuances of letters of credit.

The Credit Facility provides floating rate revolving loans bearing interest at a rate equal to 0.0% to 0.5% over Wachovia's prime rate or 1.50% to 2.00% over LIBOR, in each case based on the excess availability under the borrowing base from time to time.

The Company's obligations under its Credit Facility are secured by a first priority lien on, and pledge of, substantially all of its and any subsidiary guarantors' current and future assets. In addition, GSI Holdings pledged all of its shares of the Company's common stock, as well as any rights that it may have under the stock purchase agreement with the Company's selling stockholders, as additional collateral security.

The Credit Facility contains certain covenants. The Company's ability to make borrowings under the Credit Facility is subject to customary representations, warranties and covenants. The Credit Facility also contains various customary events of default. The Credit Facility permits loans from GSI Holdings Corp. (a related party) to the Company up to \$1 million dollars. As of March 31, 2007 the amount loaned by GSI Holdings Corp. to the Company was \$600,000. This amount is included in "Current Maturities of Long Term Debt", as there is no formal written agreement as to the terms of the loan between the related parties.

### ***Senior Notes due 2013***

On May 16, 2005, concurrently with the refinancing of its existing revolving credit facility with Wachovia Capital Finance Corporation and the closing of the acquisition of The GSI Group, Inc. (the "Company") by GSI Holdings Corp. ("GSI Holdings"), an affiliate of Charlesbank Equity Fund V, Limited Partnership, the Company issued and sold \$110,000,000 aggregate principal amount of Senior Notes due 2013 (the "Notes"). Payment on the Notes is guaranteed on an unsecured basis by GSI Holdings and by all of the Company's domestic material subsidiaries. None of the Company's domestic subsidiaries are currently material subsidiaries. The Notes were issued under an Indenture among the Company, the Guarantors and U.S. Bank National Association, as trustee (the "Indenture"). The Notes have a fixed annual interest rate of 12%, which will be paid semiannually in arrears on May 15 and November 15.

Prior to May 15, 2008, the Company may redeem up to 35% of the Notes at a redemption price of 112.000% of the principal amount, plus accrued and unpaid interest from the proceeds of certain equity offerings; provided that: (i) at least 65% of the aggregate principal amount of Notes originally issued under the Indenture (excluding Notes held by the Company and its subsidiaries) remains outstanding immediately after the occurrence of such redemption and (ii) the redemption occurs within 90 days of the date of the closing of such equity offering. Except pursuant to the preceding sentence, the Notes will not be redeemable at the Company's option prior to May 15, 2009.

On or after May 15, 2009, the Company may redeem all or a part of the Notes upon not less than 30 nor more than 60 days' notice, at the redemption prices (expressed as percentages of principal amount) listed below plus accrued and unpaid interest and liquidated damages, if any, on the Notes redeemed, to the applicable redemption date, if redeemed during the twelve-month period beginning on May 15 of the years indicated below, subject to the rights of holders of Notes on the relevant record date to receive interest on the relevant interest payment date: 2009 at a redemption price of 106.000%; 2010 at a redemption price of 103.000%; and 2011 and thereafter at a redemption price of 100.000%.

Upon a change of control, as defined in the Indenture, the Company is required to offer to purchase all of the Notes then outstanding for cash at 101% of the aggregate principal amount thereof plus accrued and unpaid interest and liquidated damages, if any, on the Notes repurchased to the date of purchase, subject to the rights of holders of Notes on the relevant record date to receive interest due on the relevant interest payment date.

The Company's credit facility contains a number of covenants that, among other things, restrict our ability to dispose of assets, incur additional indebtedness, pay or make dividends or distributions to the Company's stockholder, create liens on assets, enter into sale and leaseback transactions and otherwise restrict our general corporate activities. The Company is also required to comply with a fixed charge coverage ratio if a "trigger event" has occurred. The Company's credit facility contains various events of default, including defaults relating to payments, breaches of representations, warranties and covenants, certain events of bankruptcy and insolvency, defaults on other indebtedness, certain liens and encumbrances on assets and certain changes of control of the Company. Borrowings under the credit facility are secured by substantially all of the Company's assets. Beginning January 1, 2007 the Company is a "voluntary filer" of reports under the Securities and Exchange Act of 1934, but covenants under the credit facility require it to file timely and complete Forms 10-K, 10-Q and 8-K.

## 7. Business Segment

Under SFAS No. 131, "Disclosure About Segments of an Enterprise and Related Information" ("SFAS 131"), the Company has no separately reportable segments. Per the disclosure requirements of SFAS 131, the Company reports sales by each group of product lines. Prior to 2006, the Company presented disclosure for three product lines, which included grain, poultry and swine. During 2006, the Company integrated poultry and swine into one product line (protein) due to the similar economic characteristics, including: distribution channels, production processes, types of customers and nature of product offerings. Amounts for the first three months of 2007 and 2006 are as shown in the table below:

### **Sales by Product Line for the Period of Three Months Ending (in thousands):**

	March 31, 2007	March 31, 2006
Grain product line	\$ 72,071	\$ 49,535
Protein product line	35,540	42,717
Sales	\$ 107,611	\$ 92,252

For the first three months of 2007 and 2006, sales in Brazil were \$10,782 and \$12,065, respectively. Long-lived assets in Brazil were \$6,884 at March 31, 2007 (in thousands.)

## **ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS.**

The following discussion of the financial condition and results of operations of the Company should be read in conjunction with the Consolidated Financial Statements and the notes included in Item 1 hereof.

### **General**

The GSI Group, Inc. (the Company) is a major worldwide manufacturer of a wide range of agricultural equipment. The Company believes that it is the largest global manufacturer of grain storage systems and one of the largest global providers of protein production equipment to swine and poultry producers. The Company markets its agricultural equipment primarily under its GSI<sup>®</sup>, FFI<sup>®</sup>, Zimmerman<sup>®</sup>, AP<sup>®</sup>, Cumberland<sup>®</sup> and Agromarau brand names in approximately 75 countries through a network of over 1,000 independent dealers, with whom the Company generally has long-term relationships. The Company's leading market position in the industry reflects both the strong, long-term relationships it has developed with its customers as well as the breadth, quality and reliability of its products.

The Company manufactures grain and protein equipment. The Company offers a broad range of products that permits customers to purchase their grain and protein production equipment needs from one supplier. The Company believes that its ability to offer integrated systems provides it with a competitive advantage by enabling its customers to purchase complete, integrated production systems from a single supplier who can offer high-quality installation and service.

Sales of agricultural equipment are seasonal, with farmers traditionally purchasing grain storage bins and grain conditioning and handling equipment in the summer and fall in conjunction with the harvesting season, and swine and poultry producers purchasing equipment during prime construction periods in the spring, summer and fall. The Company's sales, operating income and net income have historically been lower during the first and fourth fiscal quarters as compared to the second and third quarters. Traditionally, this has caused the Company to have increased working capital needs during the second and third quarters as material is purchased and converted to inventory during the year.

The Company's international sales have historically comprised a significant portion of our total sales. In the first three months of 2007 and 2006, the Company's international sales accounted for 34.6% and 35.9%, of total sales, respectively. International operations generally are subject to various risks that are not present in domestic operations, including restrictions on dividends, restrictions on repatriation of funds, unexpected changes in tariffs and other trade barriers, difficulties in staffing and managing foreign operations, political instability, fluctuations in currency exchange rates, reduced protection for intellectual property rights in some countries, seasonal reductions in business activity and potentially adverse tax consequences, any of which could adversely impact our international operations.

### **Items Affecting Comparability**

We believe the discussion and analysis of The GSI Group, Inc.'s financial condition and combined results of operations set forth below are not indicative, nor should they be relied upon as an indicator of our future performance. Please refer to the footnotes to the Financial Statements included in Item 1 of this report, including "Summary of Significant Accounting Policies" for important additional information concerning the basis of presentation of financial information included in this report.

**Historical Performance**

The following table sets forth a summary of the Company's operations and their percentages of total revenue for the periods indicated (in thousands, except share data):

	(Unaudited)			
	Three months ended March 31, 2007		2006	
	Amount	%	Amount	%
Sales	\$ 107,611	100.0	\$ 92,252	100.0
Cost of sales	83,194	77.3	72,037	78.1
Warranty expense	71	0.0	175	0.2
Total cost of sales	\$ 83,265	77.4	\$ 72,212	78.3
Gross profit	24,346	22.6	20,040	21.7
Selling, general and administrative expenses	12,957	12.0	11,037	12.0
Amortization expense	1,066	1.0	1,123	1.2
Total operating expenses	\$ 14,023	13.0	\$ 12,160	13.2
Operating income	\$ 10,323	9.6	\$ 7,880	8.5
Other income (expense):				
Interest expense	(3,177)	(3.0)	(3,652)	(4.0)
Other, net	104	0.1	514	0.6
Income before income tax expense and minority interest	\$ 7,250	6.7	\$ 4,742	5.1
Minority interest in net income of subsidiary	--	0.0	(155)	(0.2)
Income tax provision	2,980	2.8	2,117	2.3
Net income	\$ 4,270	5.3	\$ 2,470	2.7
Basic and diluted earnings per share	\$ 5.16		\$ 2.99	
Weighted average common shares outstanding	826,948		826,948	

*Three Months Ended March 31, 2007 Compared to Three Months Ended March 31, 2006*

Sales increased 16.6% or \$15.3 million to \$107.6 million in the first quarter of 2007 compared to \$92.3 million in the first quarter of 2006. Grain equipment sales increased by 45.5% during the first quarter of 2007, as compared to the first quarter 2006. Protein equipment sales decreased 16.8% to \$35.5 million in the first quarter of 2007, as compared to the first quarter of 2006. The increase in grain equipment was due to higher volume driven by expected increases in planted acreage for corn, higher farm commodity prices, and higher international sales. Protein equipment was

negatively impacted by higher feed costs.

Cost of goods sold increased 15.4% or \$11.1 million to \$83.3 million in the first quarter of 2007 compared to \$72.2 million in the first quarter of 2006. The increase was primarily due to increased sales volume which was partially offset by increased cost of goods sold. Material costs in 2007 were higher primarily due to the cost of steel.

**13**

---

Gross profit increased to \$24.3 million in the first quarter of 2007 from \$20.0 million in the same period of 2006. This increase was primarily due to the reasons cited above.

As aggregate protein product margins are higher than grain products margins, there was also unfavorable product margin mix with lower protein and higher grain sales. In addition, there was a positive carryover impact from 2006 pricing actions.

Operating expenses increased 14.8% or \$1.8 million to \$14.0 million in the first quarter of 2007 from \$12.2 million in the same period of 2006. The increase was due to higher selling expenses related to higher sales volume, additional costs associated with the establishment of the current management team and higher support costs including legal, consulting, and information systems expenses.

Operating income increased to \$10.3 million in the first quarter of 2007 from \$7.9 million in the first quarter of 2006. Operating income margins increased to 9.6% of sales in 2007 from 8.5% in 2006.

Interest expense decreased \$0.5 million in the first quarter of 2007 as compared to the first quarter of 2006 due to repurchase of bonds during 2006.

Income tax expense increased \$0.9 million to \$3.0 million in the first quarter of 2007 from \$2.1 million in the same period of 2006.

### **Liquidity and Capital Resources**

The Company has historically funded capital expenditures, working capital requirements, debt service, stockholder dividends and stock repurchases from cash flow from its operations, augmented by borrowings made under various credit agreements and the sale of the Notes. The Company believes that existing cash, cash flow from operations and available borrowings under the Credit Facility will be sufficient to support its working capital, capital expenditures and debt service requirements for the foreseeable future.

The Company's working capital requirements for its operations are seasonal, with investments in working capital typically building in the second and third quarters and then declining in the first and fourth quarters. The Company defines working capital as current assets less current liabilities. As of March 31, 2007, the Company had \$51.6 million of working capital, a decrease of \$7.9 million from working capital as of December 31, 2006. The decrease in working capital was primarily due to decreases in accounts receivable, income tax receivable and other current assets and increases in accounts payable, accrued interest, payroll and payroll related expenses, current maturities of long term debt, other accrued expenses and customer deposits of \$36.7 million, partially offset by increases in cash, inventories, prepaids and deferred taxes and decreases in accrued warranty and accrued workers compensation of \$28.8 million.

Operating activities provided \$35.2 million and \$13.6 million in cash flow in the first three months of 2007 and 2006, respectively. This \$21.6 million increase in cash flow was primarily the result of increases in net income and changes in accounts receivable, income tax receivable, accounts payable, accrued expenses, and customer deposits of \$42.0 million, partially offset by decreases in deferred taxes, and changes in inventory and other current assets of \$6.8 million compared to the first three months of 2006.

Investing activities used \$3.7 million and \$3.7 million in cash flow in the first three months of 2007 and 2006, respectively. The cash was used primarily for the purchase of property plant and equipment.

Financing activities used \$10.9 million and \$8.9 million in cash flow in the first three months of 2007 and 2006, respectively. The cash was used primarily to pay down debt.

The Company believes that existing cash, cash flow from operations and available borrowings under its refinanced revolving credit facility will be sufficient to support its working capital, capital expenditures and debt service requirements for the foreseeable future. As of March 31, 2006, the Company had approximately \$56.4 million of availability under the credit facility. Additional details about long term debt is included in the footnotes to the Condensed Consolidated Financial Statements at Item 1, Financial Information.

**14**

---

**Inflation**

The Company believes that inflation has not had a material effect on its results of operations or financial condition during recent periods. As a significant portion of the cost of goods sold is based on commodity costs, the Company practice is to modify its price structure for these economic movements.

**Critical Accounting Policies**

There have been no material changes to the critical accounting policies since December 31, 2006.

**15**

---

### **ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK**

The Company is subject to market risk associated with adverse changes in interest rates and foreign currency exchange rates. The Company does not hold any market risk sensitive instruments for trading purposes. At March 31, 2007, principal exposed to interest rate risk was limited to \$0.0 million in variable rate debt. The interest rates on the Company's various debt instruments range from 0.0% to 12.0%. The Company measures its interest rate risk by estimating the net amount by which potential future net earnings would be impacted by hypothetical changes in market interest rates related to all interest rate sensitive assets and liabilities. By this measure, a change in the interest rate of 1% would change the Company's earnings by \$0.0 million.

At March 31, 2007, approximately 14.0% of the Company's sales were derived from international operations with exposure to foreign currency exchange rate risk. The Company mitigates its foreign currency exchange rate risk principally by establishing local production facilities in the markets it serves and by invoicing customers in the same currency as the source of the products. The Company's exposure to foreign currency exchange rate risk relates primarily to the financial position and the results of operations of its Brazilian subsidiary. The Company's exposure to such exchange rate risk as it relates to the Company's financial position and results of operations would be adversely impacted by devaluation of the Brazilian Real per U.S. dollar. These amounts are difficult to estimate due to factors such as the inherent fluctuations of inter-company account balances, balance sheet accounts and the existing economic uncertainty and future economic conditions in the international marketplace.

### **ITEM 4. CONTROLS AND PROCEDURES**

#### **Overview**

In connection with the preparation of its Annual Report on Form 10-K for the fiscal year ended December 31, 2006, the Company's management identified material weaknesses in the Company's internal controls over financial reporting. As defined by the Public Company Accounting Oversight Board ("PCAOB") in Auditing Standard No. 2, a material weakness is a significant deficiency, or combination of significant deficiencies, that result in more than a remote likelihood that a material misstatement of the annual or interim financial statements will not be prevented or detected.

The identified material weaknesses in the Company's internal controls over financial reporting were discussed with the independent accounting firm, the Audit committee of the Board of Directors and the Board of Directors as a whole. The independent accounting firm, BKD, LLP, issued a "material weakness" letter in connection with the audit of the Company's financial statements for the year ended December 31, 2006. The conclusions of Company management regarding the effectiveness of the Company's disclosure controls and procedures as of March 31, 2007 are covered in more detail in the following paragraphs.

#### **Disclosure Controls and Procedures**

The Company maintains disclosure controls and procedures that are designed to ensure that information required to be disclosed in the reports it files or submits under the Securities Exchange Act of 1934, as amended, is recorded, processed, summarized and reported, within the time periods specified in the Securities and Exchange Commission's rules and forms, and that such information is accumulated and communicated to our management, including the Company's Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding disclosure. The Company's management, with the participation of its Chief Executive Officer and Chief Financial Officer, has performed an evaluation of the Company's disclosure controls and procedures as of March 31, 2007, the end of the period covered by this Quarterly Report on Form 10-Q. Based on that evaluation, which included a review of the matters discussed above, the Company's Chief Executive Officer and Chief Financial Officer concluded that the

Company's disclosure controls and procedures were not effective as of the end of the period covered by this Quarterly Report on Form 10-Q.

16

---

### **Changes in Internal Controls**

The Company's management believes that substantial remediation measures are required in order to improve the Company's internal controls. The Company believes that the material weaknesses identified resulted in part from inadequate staffing and training within the Company's finance and accounting group. The Company's management is in the process of recruiting and training additional accounting and financial management staff. Although the Company believes that progress has been made in addressing the material weaknesses in its internal controls discussed above, the Company's management intends to continue to work to improve its internal controls.

**PART II  
OTHER INFORMATION**

**ITEM 1. LEGAL PROCEEDINGS.**

There are no legal proceedings pending against the Company, which, in the opinion of management, would have a material adverse affect on the Company's business, financial position or results of operations.

**ITEM 6. EXHIBITS.**

**(a) Exhibits:**

A list of the exhibits included as part of this Form 10-Q is set forth in the Index to Exhibits that immediately precedes such exhibits, which is incorporated herein by reference.

**SIGNATURES**

**Pursuant to the requirements of the Securities Exchange Act of 1934, the Registrant has duly caused this report to be signed on its behalf by the undersigned thereunto duly authorized.**

Date: May 14, 2007

/s/ JOHN HENDERSON  
Chief Financial Officer  
The GSI Group, Inc.

## INDEX TO EXHIBITS
