Greene County Bancorp, Inc.  
Reports Record Quarterly Earnings

Catskill, N.Y. -- (BUSINESS WIRE) – January 25, 2011-- Greene County Bancorp, Inc. (the “Company”) (NASDAQ: GCBC), the holding company for The Bank of Greene County and its subsidiary Greene County Commercial Bank, today reported net income for the six months and quarter ended December 31, 2010. Net income for the six months ended December 31, 2010 amounted to \$2.7 million or \$0.65 per basic share and \$0.64 per diluted share as compared to \$2.4 million or \$0.58 per basic and diluted share for the six months ended December 31, 2009, an increase of \$276,000, or 11.5%. Net income for the quarter ended December 31, 2010 amounted to \$1.4 million or \$0.33 per basic share and \$0.32 per diluted share as compared to \$1.2 million or \$0.29 per basic and diluted share for the quarter ended December 31, 2009, an increase of \$136,000, or 11.2%.

Donald E. Gibson, President & CEO, stated, “In light of the difficult general economic conditions, we are obviously pleased to report record earnings for the quarter and fiscal year to date. In addition, we are pleased to report our Germantown branch, which we opened in October, is off to a solid start and exceeding projections.”

The most significant factor contributing to the higher earnings was higher net interest income, which increased to \$9.7 million for the six months ended December 31, 2010 as compared to \$8.6 million for the six months ended December 31, 2009, an increase of \$1.1 million or 12.8%. Net interest income increased to \$4.9 million for the quarter ended December 31, 2010 as compared to \$4.3 million for the quarter ended December 31, 2009, an increase of \$547,000 or 12.6%. Net interest rate spread increased 11 basis points to 3.75% for the six months ended December 31, 2010 as compared to 3.64% for the six months ended December 31, 2009. Net interest rate spread remained constant at 3.65% for the quarters ended December 31, 2010 and 2009. Net interest margin increased 8 basis points to 3.92% for the six months ended December 31, 2010 as compared to 3.84% for the six months ended December 31, 2009. Net interest margin decreased 5 basis points to 3.80% for the quarter ended December 31, 2010 as compared to 3.85% for the quarter ended December 31, 2009. The increase in average balances of loans and securities, along with a decrease in rate paid on deposit accounts, primarily led to an increase in net interest income when comparing the six months and quarters ended December 31, 2010 and 2009.

Management continues to closely monitor asset quality and adjust the level of the allowance for loan losses when necessary. The provision for loan losses amounted to \$836,000 and \$677,000 for the six months ended December 31, 2010 and 2009, respectively, an increase of \$159,000 or 23.5%. The provision for loan losses amounted to \$483,000 and \$429,000 for the quarters ended December 31, 2010 and 2009, respectively, an increase of \$54,000, or 12.6%. The increase in the level of provision was partially a result of the shift to a greater level of commercial loans

and an increase in the amount of nonperforming assets. The commercial real estate and commercial loan portfolio has grown as a percent of total loans from 24.1% at December 31, 2009 to 25.6% at December 31, 2010. Generally, commercial loans are considered to have greater credit risk, and require a higher level of allowance for loan losses. Nonperforming assets amounted to \$6.2 million and \$3.6 million at December 31, 2010 and 2009, respectively, an increase of \$2.6 million or 72.2%. This increase was primarily made up of \$1.3 million in residential mortgage loans, \$605,000 in commercial real estate loans, and \$457,000 in multi-family mortgage loans. Net charge-offs amounted to \$211,000 and \$419,000 for the six months ended December 31, 2010 and 2009, respectively. The increase in the level of nonperforming assets reflected the decline in the overall economy. As a result, the level of allowance for loan losses to total loans receivable has been increased to 1.55% as of December 31, 2010 as compared to 1.28% as of December 31, 2009. At December 31, 2010, nonperforming assets were 1.16% of total assets and nonperforming loans were 2.01% of total loans. The Company has not been an originator of "no documentation" mortgage loans and the loan portfolio does not include any mortgage loans that the Company classifies as sub-prime.

Noninterest income increased \$23,000 and \$124,000 when comparing the six months and quarters ended December 31, 2010 and 2009, respectively. Noninterest income amounted to \$2.5 million and \$1.4 million for the six months and quarter ended December 31, 2010, respectively. The Company recorded a net gain on sale of investments during the quarter ended December 31, 2010 totaling \$212,000 and a net loss on sale of investments during the quarter ended December 31, 2009 totaling \$5,000. Excluding these items, noninterest income decreased \$194,000 when comparing the six months ended December 31, 2010 and 2009, and \$93,000 when comparing the quarters ended December 31, 2010 and 2009. These decreases were primarily the result of lower service charges on deposit accounts, primarily NSF fees, which decreased \$333,000 and \$152,000 for the six months and quarters ended December 31, 2010 and 2009, respectively. Debit card fees increased \$92,000 and \$43,000 when comparing the six months and quarters ended December 31, 2010 and 2009 as a result of a higher volume of transactions due to growth in the number of checking accounts with debit cards.

Noninterest expense increased \$560,000 or 8.4% to \$7.2 million for the six months ended December 31, 2010 as compared to \$6.7 million for the six months ended December 31, 2009. Noninterest expense increased \$414,000 or 12.5% to \$3.7 million for the quarter ended December 31, 2010 as compared to \$3.3 million for the quarter ended December 31, 2009. The increases for both the six months and the quarter ended December 31, 2010 were primarily the result of an increase in salaries and benefits as well as higher advertising and promotional expenses due to the opening of the new Germantown branch in October 2010.

Total assets grew \$36.1 million or 7.3% to \$531.4 million at December 31, 2010 as compared to \$495.3 million at June 30, 2010. Securities classified as both available for sale and held to maturity increased \$14.8 million to \$182.1 million at December 31, 2010 as compared to \$167.3 million at June 30, 2010. Net loans increased \$583,000 or 0.2% to \$296.2 million at December 31, 2010 as compared to \$295.6 million at June 30, 2010. Funding the growth in assets in the six months ended December 31, 2010 were increased deposits of \$44.2 million to \$465.9 million. The growth in deposits also was utilized to reduce short-term borrowings, which decreased \$9.1 million when comparing December 31, 2010 and June 30, 2010. Total shareholders' equity amounted to \$45.9 million at December 31, 2010, or 8.6% of total assets.

Headquartered in Catskill, New York, the Company provides full-service community-based banking in its twelve branch offices located in Greene, Columbia and Albany Counties. Customers are offered 24-hour services through ATM network systems, an automated telephone banking system and Internet Banking through its web site at <http://www.tbogc.com>.

This press release contains statements about future events that constitute forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Actual results could differ materially from those projected in the forward-looking statements. Factors that might cause such a difference include, but are not limited to, general economic conditions, changes in interest rates, regulatory considerations, competition, technological

developments, retention and recruitment of qualified personnel, and market acceptance of the Company's pricing, products and services.
