Management's Discussion and Analysis of Financial Condition and Results of Operations

Overview

Bonso Electronics designs, develops, manufactures, assembles and markets a comprehensive line of electronic scales, weighing instruments, health care products and pet electronics products.

During the six-month period ended September 30, 2017, our net sales decreased approximately \$3,946,000, or 38.8%, as compared to the six-month period ended September 30, 2016. The primary reason for the decrease in net sales was the decreased overall demand for our products during the period. We recognized net income of approximately \$688,000 for the six-month period ended September 30, 2017, as compared to net income of approximately \$1,098,000 during the six-month period ended September 30, 2016.

On July 11, 2017, the Company signed a letter of intent with a property developer in Shenzhen - Shenzhen Fangda Property Development Co., Ltd. ("Fangda"), to cooperate in reconstructing and redeveloping the Shenzhen factory. A copy of the letter of intent was filed with the Form 20-F on August 15, 2017. On Nov 6, 2017, the Company entered into a definitive agreement with Fangda. A copy of the summary of the agreement is attached to this Form 6-K as exhibit 99.1.

On March 23, 2018, the Company issued a press release disclosing its results of operations for the six-month period ended September 30, 2017. A copy of this press release is attached to this Form 6-K as exhibit 99.2.

Results of Operations

Six-Month Period Ended September 30, 2017 Compared to the Six-Month Period Ended September 30, 2016

Net Sales. During the six-month period ended September 30, 2017, our sales decreased 38.8%, or approximately \$3,946,000, from approximately \$10,163,000 for the six-month period ended September 30, 2016 to approximately \$6,217,000. The decreased sales were primarily the result of a decrease in overall demand for our products during the period.

**Cost of Sales.** During the six-month period ended September 30, 2017, cost of sales decreased to approximately \$4,516,000 from approximately \$7,006,000 during the six-month period ended September 30, 2016, a decrease of approximately \$2,490,000, or 35.5%. As a percentage of sales, the cost of sales increased from 68.9% to 72.6%. Cost of sales decreased primarily because of a lower demand for our products during the period.

**Gross Margin.** As a result of the factors noted above, gross margin as a percentage of revenue decreased to 27.4% during the six-month period ended September 30, 2017 as compared to 31.1% during the same period in the prior year.

**Selling Expenses.** Selling expenses decreased by 17.2%, or approximately \$26,000, from approximately \$151,000 for the six-month period ended September 30, 2016 to approximately \$125,000 for the six-month period ended September 30, 2017. The decrease was primarily the result of fewer shipments arranged during the six-month period ended September 30, 2017, compared to the same period in the prior year.

**Salaries And Related Costs.** Salaries and related costs decreased by 36.2% or approximately \$427,000 from approximately \$1,179,000 for the six-month period ended September 30, 2016 to approximately \$752,000 for the six-month period ended September 30, 2017. This decrease was a result of the reduction in total staff.

**Research And Development Expenses.** Research and development expenses decreased by 32.0%, or approximately \$33,000, from approximately \$103,000 for the six-month period ended September 30, 2016 to approximately \$70,000 for the six-month period ended September 30, 2017. This decrease was a result of the reduction in the number of engineering staff. As a percentage of sales, research and development expenses increased from 1.0% to 1.1%.

**Administration And General Expenses.** Administration and general expenses decreased by 29.5%, or approximately \$451,000, from approximately \$1,531,000 for the six-month period ended September 30, 2016 to approximately \$1,080,000 for the six-month period ended September 30, 2017. The decrease was primarily the result of a decrease in charitable donation, maintenance costs, and automobile expenses.

**Other Income.** Other income increased approximately \$320,000, or 39.0%, from approximately \$821,000 for the six-month period ended September 30, 2016 to approximately \$1,141,000 for the six-month period ended September 30, 2017. The increase was a result of increased rental income generated from the lease out of additional production facilities.

**Income From Operations.** As a result of the above changes, income from operations was approximately \$815,000 for the six-month period ended September 30, 2017, compared to an income from operations of approximately \$1,014,000 for the six-month period ended September 30, 2016, a decrease of approximately \$199,000.

**Interest Income.** Interest income increased from approximately \$4,000 for the six-month period ended September 30, 2016 to approximately \$15,000 for the six-month period ended September 30, 2017. The increase occurred because the Company had increased amounts on deposit with banks during the six-month period ended September 30, 2017.

**Interest Expenses.** Interest expenses decreased 75.0%, or approximately \$18,000 from approximately \$24,000 for the six-month period ended September 30, 2016 to approximately \$6,000 for the six-month period ended September 30, 2017. The decrease in interest expenses was the result of the decreased utilization of the Company's banking facilities.

**Foreign Exchange Gain / (Loss).** Foreign exchange gain decreased approximately \$286,000 from a gain of approximately \$150,000 for the six-month period ended September 30, 2016 to a loss of approximately \$136,000 for the six-month period ended September 30, 2017. The decrease in foreign exchange gain was primarily attributable to a loss in exchange to Chinese Yuan from United States Dollars, as a result of the appreciation of the Chinese Yuan against the United States Dollar during the six-month period ended September 30, 2017.

**Net Income.** As a result of the above changes, net income decreased from a net income of approximately \$1,098,000 for the six-month period ended September 30, 2016 to a net income of approximately \$688,000 for the six-month period ended September 30, 2017, a decrease of approximately \$410,000.

**Foreign Currency Translation Adjustments, Net of Tax.** Foreign currency translation adjustments, net of tax increased from a loss of approximately \$676,000 for the six-month period ended September 30, 2016 to a gain of approximately \$455,000 for the six-month period ended September 30, 2017, an increase of approximately \$1,131,000. The gain was primarily attributable to the result of the revaluation of assets denominated in Chinese Yuan due to different CNY/USD exchange rates at the balance sheet dates of March 31, 2017 and September 30, 2017.

**Comprehensive Income.** As a result of the factors described above, comprehensive income increased from an income of approximately \$422,000 for the six-month period ended September 30, 2016, to an income of approximately \$1,143,000 for the six-month period ended September 30, 2017.

## Liquidity and Capital Resources

We have financed our growth and cash needs to date primarily from internally generated funds and bank debt. We do not use off-balance sheet financing arrangements, such as securitization of receivables or obtaining access to assets through special purpose entities, as sources of liquidity. Our primary uses of cash have been to fund operations, expansions and upgrades of our manufacturing facilities.

As of September 30, 2017 we had approximately \$7,044,000 in cash and cash equivalents as compared to approximately \$3,745,000 as of March 31, 2017. Our working capital position improved during the six-month period ended September 30, 2017. At September 30, 2017 working capital was \$3,364,000 compared to \$2,499,000 at March 31, 2017. We believe that the improvement was the result of income generated from operations, during the six-month period ended September 30, 2017.

We believe that our cash flows from operations, our current cash balance and funds available under our working capital and credit facilities will be sufficient to meet our working capital needs and planned capital expenditures for the next twelve months.

## Stock Repurchase Program

On September 17, 2015, the Company's Board of Directors authorized an additional \$1,500,000 for the Company's repurchase of its common stock under the same repurchase program. This authorization to repurchase shares increased the amount authorized for repurchase from \$1,500,000 to \$3,000,000. The following table contains the Company's purchases of equity securities during the six-month period ended September 30, 2017.
