EDGEWELL PERSONAL CARE COMPANY
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(unaudited, in millions, except per share data)

Note 1 - Background and Basis of Presentation

Background

Edgewell Personal Care Company, and its subsidiaries (collectively, "Edgewell" or the "Company"), is one of the world's largest manufacturers and marketers of personal care products in the wet shave, sun and skin care, feminine care and infant care categories. Edgewell has a portfolio of over 25 brands and a global footprint in more than 50 countries.

The Company conducts its business in the following four segments:

Wet Shave consists of products sold under the Schick®, Wilkinson Sword®, Edge®, Skintimate®, Shave Guard and Personna® brands, as well as non-branded products. Our wet shave products include razor handles and refillable blades, disposable shave products and shaving gels and creams.

Sun and Skin Care consists of Banana Boat® and Hawaiian Tropic® sun care products, Bulldog® and Jack Black® men's skin care products, Wet Ones® wipes and Playtex® household gloves until the sale of the gloves business in October 2017. Refer to Note 2 for additional details regarding the acquisition of Jack Black, L.L.C. ("Jack Black") and Note 3 for additional details on the sale of the Playtex household gloves business.

Feminine Care includes tampons, pads and liners sold under the Playtex Gentle Glide® and Sport®, Stayfree®, Carefree® and o.b.® brands.

All Other includes infant care products, such as bottles, cups and pacifiers, under the Playtex®, OrthoPro® and Binky® brand names, as well as the Diaper Genie® and Litter Genie® disposal systems.

Basis of Presentation

The accompanying unaudited condensed consolidated financial statements include the accounts of the Company and its controlled subsidiaries and have been prepared in accordance with United States ("U.S.") generally accepted accounting principles ("GAAP"), under the rules and regulations of the U.S. Securities and Exchange Commission (the "SEC"). The preparation of the unaudited condensed consolidated financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amount of assets and liabilities, disclosure of contingent assets and liabilities and the reported amounts of revenues and expenses. Actual results may differ materially from those estimates. All intercompany balances and transactions have been eliminated in consolidation and, in the opinion of management, all normal recurring adjustments considered necessary for a fair presentation have been included in the interim results reported. The fiscal year-end balance sheet data was derived from audited consolidated financial statements, but do not include all of the annual disclosures required by GAAP; accordingly, these unaudited condensed consolidated financial statements should be read in conjunction with the Company's audited annual consolidated financial statements included in its Annual Report on Form 10-K filed with the SEC on November 20, 2017.

Acquisition of Jack Black. On March 1, 2018, the Company completed the acquisition of Jack Black, a luxury men's skincare products company based in the United States. The results of Jack Black for the post-acquisition period are included within the Company's results for the three and six months ended March 31, 2018. For more information on the acquisition, see Note 2 of Notes to Condensed Consolidated Financial Statements.

Recently Adopted Accounting Pronouncements. In August 2014, the Financial Accounting Standards Board ("FASB") issued a new Accounting Standards Update ("ASU") which requires management to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the entity's ability to continue as a going concern within one year after the date that the financial statements are issued. This evaluation should be based on relevant conditions and events that are known and reasonably knowable at the date that the financial statements are issued. The adoption of this guidance as of October 1, 2017 did not have an impact on the financial statements or the related disclosures.

In July 2015, the FASB issued a new ASU which aligns the measurement of inventory under GAAP more closely with International Financial Reporting Standards. Under the new guidance, an entity that measures inventory using FIFO or average cost should measure inventory at the lower of cost or net realizable value. Net realizable value is the estimated selling price in the ordinary course of business, less reasonably predictable costs of completion, disposal and transportation. The adoption of this guidance on a prospective basis as of October 1, 2017 did not have a material impact on the financial statements or the related disclosures.

In March 2016, the FASB issued an ASU which simplifies several aspects of the accounting for share-based payment transactions, including requiring excess tax benefits and tax deficiencies to be recognized as income tax benefits or expenses in the consolidated statement of earnings. The standard requires cash flows from excess tax benefits and deficiencies, previously classified as a financing activity, to be classified as an operating activity in the consolidated statement of cash flows. The Company adopted these provisions of the guidance prospectively in the first six months of fiscal 2018. As a result, the Company recognized tax deficiencies of \$0.6 through income taxes during the first six months of fiscal 2018 rather than additional paid-in capital. The tax deficiencies were recorded as an operating activity in the Condensed Consolidated Statement of Cash Flows during the first six months of fiscal 2018. Also, as part of the adoption, a \$9.7 adjustment was recorded to increase retained earnings and deferred tax assets to recognize the cumulative amount of previously unrecognized excess tax benefits as of October 1, 2017. Additionally, the ASU requires the presentation of employee taxes paid when an employer withholds shares for tax withholding purposes to be presented as a financing activity in the statement of cash flows as opposed to as an operating activity. This aspect of the new guidance was required to be adopted retrospectively. As such, \$15.5 of cash outflows for tax withholding payments were reclassified from an operating activity to a financing activity in the Condensed Consolidated Statement of Cash Flows for the first six months of fiscal 2017. Finally, under the ASU, the Company elected to record forfeitures as they occur. This election did not have a material impact on the financial statements.

In March 2018, the FASB issued an ASU which amends the accounting standards codification to reflect to the guidance related to the enactment of the Tax Cuts and Jobs Act (the "Tax Act") issued in the SEC Staff Accounting Bulletin No. 118. The Company adopted this standard in the second quarter of fiscal 2018. Refer to Note 5 for disclosures related to the Tax Act.

Recently Issued Accounting Pronouncements. In May 2014, the FASB issued an ASU which provides a single comprehensive revenue recognition model for all contracts with customers to improve comparability within industries, across industries and across capital markets. During 2016, the FASB issued three ASUs clarifying the revenue recognition implementation guidance on various topics included within the original ASU. The new guidance will be effective for the Company beginning October 1, 2018, with the option of using either a full retrospective or modified retrospective method. The Company is still evaluating the method of adoption.

During fiscal 2017, the Company established a cross-functional implementation team, including representatives from all of its businesses globally, to analyze the current processes in place for the recognition of revenue and identify potential differences that would result from application of the new guidance. This initial assessment includes analysis of significant types of arrangements, processes and systems, and reviews of representative contracts. Additionally, the Company has begun reviewing the enhanced disclosure requirements under the new standard. Revenues are primarily generated from the sale of finished products to customers. Those sales predominantly contain a single delivery element and revenue is recognized at a single point in time when ownership, risks and rewards transfer. While the assessment is not complete, the timing of revenue recognition is not expected to be materially impacted by the new standard. The Company is still assessing the impact of the standard on its consolidated financial statements and on related disclosures.

In August 2016, the FASB issued an ASU intended to address diversity in how certain cash receipts and cash payments are presented and classified in the statement of cash flows. The amendments provide guidance on specific cash flow issues, including debt prepayment or debt extinguishment costs, the sale of accounts receivable, contingent consideration payments on business combinations, proceeds from the settlement of insurance claims and distributions received from equity method investees, among others. The update will be effective for the Company beginning October 1, 2018, with early adoption permitted. The Company is in the process of evaluating the impact the guidance will have on its financial statements.

In February 2018, the FASB issued an ASU which addresses the recently enacted Tax Act. Specifically, the guidance allows the Company to elect to reclassify any "stranded tax" created as a result of the Tax Act from Accumulated Other Comprehensive Loss to Retained Earnings. The new guidance will be effective for the Company beginning October 1, 2018, with early adoption permitted. The Company plans to adopt this standard at the beginning of the fourth quarter of fiscal 2018. The Company is still assessing the effect of the standard on its consolidated financial statements and disclosures but does not expect the impact to be material. Refer to Note 5 for further disclosures

regarding the Tax Act.

Note 2 - Acquisition

Jack Black, L.L.C.

On March 1, 2018, the Company completed the acquisition of Jack Black, a men's luxury skincare products company based in the U.S., for \$90.3, net of cash acquired. The acquisition creates opportunities to expand Edgewell's personal care portfolio into a growing global category where it can leverage its international geographic footprint. The acquisition was financed through available operating cash.

7

The Company has recognized the assets and liabilities of Jack Black based on preliminary estimates of their acquisition date fair values. The determination of the fair values of the acquired assets and assumed liabilities, including goodwill and other intangible assets, requires significant judgment. As of March 31, 2018, this valuation analysis was not complete, including the allocations to goodwill and other intangible assets, and the related deferred tax impacts. The Company expects to complete the valuation no later than the end of fiscal 2018.

As of March 31, 2018, net assets acquired totaled \$93.9 and consisted of working capital and other net assets of \$10.2 (including cash of \$3.6), other intangible assets of \$46.7 and goodwill of \$37.0, representing the value of expansion into new markets. Goodwill is expected to be deductible for tax purposes. The intangible assets acquired consisted primarily of the Jack Black trade name, customer relationships and product formulations. Amortization expense for the current period was estimated using a weighted-average useful life of 14.8 years for those assets preliminarily identified as definite-lived; however, the Company is still in the process of evaluating the useful lives of the acquired intangible assets. All assets are included in the Company's Sun and Skin Care segment.

Acquisition and integration costs related to Jack Black totaled \$2.6 in the second quarter of fiscal 2018 and are included in Selling, General and Administrative expense on the Consolidated Statement of Earnings.

Note 3 - Divestiture

The Company completed the sale of its Playtex® gloves business to a household products company for \$19.0 on October 26, 2017. The sale allows the Company to better focus and utilize its resources on its other product lines. Total assets sold were approximately \$3.1, resulting in a pre-tax gain on sale of \$15.9.

Note 4 - Restructuring Charges

Project Fuel

In February 2018, the Company announced Project Fuel, an enterprise-wide transformational initiative that is designed to address all aspects of the Company's business and cost structure. The project will incorporate the Company's Zero Based Spending and global productivity initiatives, and will include a new global restructuring initiative. Initial costs for Project Fuel relate to efforts to fully define the scope and reach of the project. In addition, the Company has incurred severance costs related to the reduction of overhead at some of the Company's manufacturing facilities. While the Company is incurring costs for Project Fuel in fiscal 2018, the majority of costs and savings under Project Fuel are expected to take place during fiscal 2019 through fiscal 2021.

In addition to the expected cost savings and improved profitability, Project Fuel is designed to strengthen the Company's challenger culture and reinforce its consumer-centric organizational focus. It is also designed to simplify the organization and streamline ways of working in order to increase competitiveness, speed and agility, and ensure the Company has the skills, capabilities and investments needed to compete in a rapidly changing world.

The Company incurred restructuring charges of \$3.7 related to Project Fuel in the three months ended March 31, 2018.

	Three Months Ended March 31, 2018

Total Restructuring	\$ 1.5	\$ 0.7	\$ 0.1	\$ 1.4	\$ 1.4	\$ 3.7

2013 Restructuring

In November 2012, the Company's Board of Directors (the "Board") authorized an enterprise-wide restructuring plan (the "2013 Restructuring"). The 2013 Restructuring originally included several initiatives focused on reducing costs in general and administrative functions, as well as reducing manufacturing and operating costs associated with the Company's discontinued operations. In January 2014, the Board authorized an expansion of scope of the previously announced 2013 Restructuring, which included rationalization and streamlining of the Edgewell operating facilities and other cost saving initiatives. Restructuring charges have primarily related to plant closure, accelerated depreciation charges, severance and related benefit costs. Costs under this plan totaled \$170.1. Due to an increase in Wet Shave footprint costs and a delay in the transition of manufacturing in the Company's Feminine Care segment from Montreal to Dover, Delaware, some anticipated savings are not expected to be realized until fiscal 2019. The Company does not expect costs related to the 2013 Restructuring program to be material in fiscal 2018 or in future periods.

Expenses incurred under the 2013 Restructuring are reflected below, including the estimated impact of allocating such charges to segment results. 2013 Restructuring charges were only allocated to the Company's Wet Shave, Sun and Skin Care and Feminine Care segments for the three and six months ended March 31, 2017. The Company does not include restructuring costs in the results of its reportable segments.

In addition, pre-tax costs of \$0.1 and \$0.4 for the three and six months ended March 31, 2017, associated with obsolescence charges related to the exit of certain non-core product lines as part of the 2013 Restructuring were included in Cost of products sold.

Note 5 - Income Taxes

For the three and six months ended March 31, 2018, the Company had income tax expense of \$20.7 and \$47.1, respectively, on Earnings before income taxes of \$85.8 and \$118.9, respectively. The effective tax rate for the three and six months ended March 31, 2018 was 24.1% and 39.7%, respectively. The difference between the federal statutory rate and the effective rate for the six months ended March 31, 2018 is primarily due to a \$17.4 net transitional charge resulting from the enactment of The Tax Act, as discussed below.

For the three and six months ended March 31, 2017, the Company had an income tax expense of \$23.8 and \$35.2 on Earnings before income taxes of \$89.5 and \$134.4, respectively. The effective tax rate for the three and six months ended March 31, 2017 was 26.6% and 26.2%, respectively. The difference between the federal statutory rate and the effective rate for both periods is due to a higher mix of earnings in lower tax rate jurisdictions and was favorably impacted by restructuring charges in higher tax rate jurisdictions.

U.S. Tax Reform

On December 22, 2017, the U.S. government enacted the Tax Act. This new comprehensive tax legislation reduces the U.S. federal corporate tax rate from 35% to 21% but also limits and/or eliminates certain deductions while creating new taxes on certain foreign sourced earnings. Since the Company has a September 30 fiscal year end, the lower U.S. corporate income tax rate will be phased in, resulting in a blended U.S. statutory federal rate of approximately 24.5% for the fiscal year ending September 30, 2018 and 21% for subsequent fiscal years. The reduction in the U.S. corporate tax rate requires the Company to remeasure its U.S. deferred tax assets and liabilities based on the rates at which they are expected to reverse in the future, which can be 24.5% or 21%. The Tax Act also imposed a one-time transition tax on historical earnings of certain foreign subsidiaries that were not previously taxed by the U.S. Due to the Company's fiscal year end, certain tax provisions of the new Tax Act will impact the Company in fiscal 2018 while others will be effective in subsequent years. For the six months ended March 31, 2018, the estimated impact of the one-time transition tax on foreign earnings was \$96.7, offset by the estimated benefit of remeasurement of U.S. deferred tax assets and liabilities of \$79.3. The net impact of these transitional provisions resulted in a net charge of \$17.4 for the year, which was included as a component of income tax expense. The Company has tax loss

carryforwards and tax credits, a portion of which are expected be used to partially offset amounts payable over eight years related to the one-time transition tax on foreign earnings.

The tax law changes included in the Tax Act are broad and complex. The final impact may differ from those estimates, possibly materially, due to, among other things, changes in interpretation of the Tax Act, legislative action to address questions that arise because of the Tax Act, changes in accounting standards for income taxes or related interpretations in response to the Tax Act, or updates or changes to estimates the Company used to calculate the transition impacts, including impacts from changes to earnings estimates, foreign income tax estimates and foreign exchange rates. The Securities and Exchange Committee ("SEC") has issued rules under SAB 118 that would allow for a measurement period of up to one year after the enactment date of the Tax Act to finalize the recording of the related tax impacts. For the quarter ended March 31, 2018, the Company recorded a net charge of \$1.2 related to adjustments to transition impacts. As of March 31, 2018, amounts recorded for the Tax Act remain provisional for the transition tax, remeasurement of deferred taxes and reassessment of permanently reinvested earnings

Note 6 - Earnings per Share

Basic earnings per share is based on the average number of common shares outstanding during the period. Diluted earnings per share is based on the average number of shares used for the basic earnings per share calculation, adjusted for the dilutive effect of share options and restricted share equivalent ("RSE") awards.

Following is the reconciliation between the number of weighted-average shares used in the basic and diluted earnings per share calculation:

	Three Months Ended March 31, 2018		Six Months Ended March 31, 2017	
Basic weighted-average shares outstanding	54.0	57.4	54.7	57.5
Effect of dilutive securities:				
RSE awards	0.1	0.3	0.2	0.3
Total dilutive securities	0.1	0.3	0.2	0.3
Diluted weighted-average shares outstanding	54.1	57.7	54.9	57.8

For the three and six months ended March 31, 2018, the calculation of diluted weighted-average shares outstanding excludes 0.6 of share options because the effect of including these awards was anti-dilutive. For the three and six months ended March 31, 2018, the calculation of diluted weighted-average shares outstanding excludes 0.1 of RSE awards because the effect of these awards was anti-dilutive. For the three and six months ended March 31, 2017, the calculation of diluted weighted-average shares outstanding excludes 0.6 of share options because the effect of including these awards was anti-dilutive.

Note 7 - Goodwill and Intangible Assets

The following table sets forth goodwill by segment:

	Sun Wet and Feminine All Shave Skin Care Other Care				Total
Balance at October 1, 2017	\$971.2	\$195.6	\$209.5	\$69.6	\$1,445.9

Balance at March 31, 2018	\$976.4	\$233.4	\$208.1	\$69.6	\$1,487.5

Total amortizable intangible assets were as follows:

	March 31, 2018			September 30, 2017		
	Gross Carrying Amount	Accumulated Amortization	Net	Gross Carrying Amount	Accumulated Amortization	Net
Trade names and brands	\$204.5	\$ 20.7	\$183.8	\$188.6	\$ 16.0	\$172.6
Technology and patents	79.5	75.9	3.6	77.9	74.4	3.5
Customer related and other	183.4	93.4	90.0	151.5	89.8	61.7
Total amortizable intangible assets	\$467.4	\$ 190.0	\$277.4	\$418.0	\$ 180.2	\$237.8

Amortization expense was \$4.2 and \$8.6 for the three and six months ended March 31, 2018, respectively, and \$4.1 and \$8.1 for the three and six months ended March 31, 2017, respectively. Estimated amortization expense for amortizable intangible assets for the remainder of fiscal 2018 and for fiscal 2019, 2020, 2021, 2022 and 2023 is approximately \$9.3, \$18.1, \$17.5, \$16.9, \$16.8 and \$16.7, respectively, and \$182.1 thereafter. Amortizable intangible assets include \$15.2 of trade names and brands, \$1.2 of technology and patents, and \$30.3 of customer related and other as a result of the Jack Black acquisition. The Company is still in the process of evaluating the value and useful lives of these intangible assets. See Note 2 of the Notes to Condensed Consolidated Financial Statements for more information on the Jack Black acquisition.

The Company had indefinite-lived intangible assets of \$836.7 (\$186.9 in Wet Shave, \$476.1 in Sun and Skin Care, \$29.9 in Feminine Care and \$143.8 in All Other) at March 31, 2018, an increase of \$2.8 from September 30, 2017 related to foreign currency translation rates.

Goodwill and intangible assets deemed to have an indefinite life are not amortized, but reviewed annually during the fourth fiscal quarter for impairment of value or when indicators of a potential impairment are present. The Company continuously monitors events which could trigger an interim impairment analysis, such as changing business conditions and environmental factors. The Company's stock price has declined since September 30, 2017. A prolonged decrease in the Company's stock price could be an indication of a triggering event. An interim impairment analysis may indicate that carrying amounts of goodwill and other intangible assets require adjustment or that remaining useful lives should be revised. The Company noted there was no indication of a triggering event in the second quarter of fiscal 2018. Refer to the sensitivity analysis in Note 8 to the Company's audited annual consolidated financial statements included in its Annual Report on Form 10-K filed with the SEC on November 20, 2017.

During fiscal 2017, the Company recorded impairment charges of \$312.0 and \$7.0 on its Playtex and Edge brand names, respectively. The impairment of Playtex and Edge in fiscal 2017 was the result of intense competition in the Feminine Care and Wet Shave segments which resulted in decreased market share. Based on the impairment taken and continued competitive pressure on the Playtex and Edge brands, the intangible assets associated with the brand names were converted to definite-lived assets as of July 1, 2017 and assigned a useful life of 20 years. The conversion of the Playtex and Edge brand names to definite-lived intangible assets increased amortization expense by \$1.8 and \$3.6 for the three and six months ended March 31, 2018, respectively.

Note 9 - Accounts Receivable Facility

On September 15, 2017, the Company entered into a \$150 uncommitted master accounts receivable purchase agreement with The Bank of Tokyo-Mitsubishi UFJ, Ltd., New York Branch, as the purchaser. Transfers under this agreement are accounted for as sales of receivables, resulting in the receivables being de-recognized from the consolidated balance sheet. As of March 31, 2018, the discount rate used to determine the purchase price for the subject receivables is based upon LIBOR plus a margin applicable to the specified obligor.

Account receivables sold under this agreement for the three and six months ended March 31, 2018 were \$281.5 and \$491.6, respectively. The trade receivables sold that remained outstanding under this agreement as of March 31, 2018 and September 30, 2017 were \$115.3 and \$81.7, respectively. The dilution reserve, which represents the Company's retained interest in sold receivables, was \$11.5 and \$8.2 as of March 31, 2018 and September 30, 2017, respectively, and was recognized on the Consolidated Balance Sheets as a receivable. The difference between the carrying amount of the trade receivables sold and the sum of the cash received was recorded as a loss on sale of receivables in Other expense (income), net in the Consolidated Statement of Earnings. For the three and six months ended March 31, 2018, the loss on sale of trade receivables was \$0.6 and \$1.0, respectively.

Note 10 - Debt

The detail of long-term debt was as follows:

	March 31, September 30,	
	2018	2017
Senior notes, fixed interest rate of 4.7%, due 2021, net ⁽¹⁾	\$ 598.5	\$ 598.3

(1) At March 31, 2018, the balance for the senior notes due 2021, the senior notes due 2022 and the term loan are reflected net of debt issuance costs of \$1.5, \$1.7 and \$0.2, respectively. At September 30, 2017, the balance for the senior notes due 2021, the senior notes due 2022 and the term loan are reflected net of debt issuance costs of \$1.7, \$1.9 and \$0.3, respectively.

(2) At March 31, 2018 and September 30, 2017, the balance for the senior notes due 2022 is reflected net of discount of \$0.6 and \$0.7, respectively.

The Company had outstanding international borrowings, recorded in Notes payable, of \$21.6 and \$19.4 as of March 31, 2018 and September 30, 2017, respectively.

Note 11 - Retirement Plans

The Company has several defined benefit pension plans covering employees in the U.S. and certain employees in other countries, which are included in the information presented below. The plans provide retirement benefits based on years of service and earnings. The Company also sponsors or participates in a number of other non-U.S. pension and postretirement arrangements, including various retirement and termination benefit plans, some of which are required by local law or coordinated with government-sponsored plans, which are not significant in the aggregate and, therefore, are not included in the information presented below.

The Company's net periodic pension and postretirement benefit (credit) cost for these plans was as follows:

	Three Months Ended		Six Months Ended	
	March 31,		March 31,	
	2018	2017	2018	2017
Service cost	\$1.6	\$1.9	\$3.1	\$3.7

Note 12 - Shareholders' Equity

In January 2018, the Board approved an authorization to repurchase up to 10.0 shares of the Company's common stock, replacing the previous stock repurchase authorization from May 2015. During the six months ended March 31, 2018, the Company repurchased 2.1 shares of its common stock for \$124.4, all of which were purchased under the previous authorization from May 2015. The Company has 10.0 shares remaining under the January 2018 Board authorization to repurchase its common shares in the future. Future share repurchases, if any, would be made in the open market, privately negotiated transactions or otherwise, in such amounts and at such times as the Company deems appropriate based upon prevailing market conditions, business needs and other factors.

During the six months ended March 31, 2018, the Company paid \$0.1 in cash dividends related to the vesting of RSE awards, which had been declared and accrued during prior fiscal years. The Company has not declared any dividends since the third quarter of fiscal 2015, and does not currently intend to declare dividends in the foreseeable future.

Note 13 - Accumulated Other Comprehensive Loss

Note 14 - Financial Instruments and Risk Management

At times, the Company enters into contractual arrangements (derivatives) to reduce its exposure to foreign currency risk. The Company has master netting agreements with all of its counterparties that allow for the settlement of contracts in an asset position with contracts in a liability position in the event of default. The Company manages counterparty risk through the utilization of investment grade commercial banks, diversification of counterparties and its counterparty netting arrangements. The section below outlines the types of derivatives that existed at March 31, 2018 and September 30, 2017, as well as the Company's objectives and strategies for holding derivative instruments.

Foreign Currency Risk

A significant share of the Company's sales is tied to currencies other than the U.S. dollar, the Company's reporting currency. As such, a weakening of currencies relative to the U.S. dollar can have a negative impact to reported earnings. Conversely, strengthening of currencies relative to the U.S. dollar can improve reported results. The primary currencies to which the Company is exposed include the Euro, the Japanese Yen, the British Pound, the Canadian Dollar, the Czech Koruna and the Australian Dollar.

Additionally, the Company's foreign subsidiaries enter into internal and external transactions that create non-functional currency balance sheet positions at the foreign subsidiary level. These exposures are generally the result of intercompany purchases, intercompany loans and, to a lesser extent, external purchases, and are revalued in the foreign subsidiary's local currency at the end of each period. Changes in the value of the non-functional currency balance sheet positions in relation to the foreign subsidiary's local currency results in an exchange gain or loss recorded in Other (income) expense, net. The primary currency to which the Company's foreign subsidiaries are exposed is the U.S. dollar.

Cash Flow Hedges

At March 31, 2018, the Company maintained a cash flow hedging program related to foreign currency risk. These derivative instruments have a high correlation to the underlying exposure being hedged and have been deemed highly effective for accounting purposes in offsetting the associated risk.

The Company entered into a series of forward currency contracts to hedge cash flow uncertainty associated with currency fluctuations. These transactions are accounted for as cash flow hedges. The Company had unrealized pre-tax losses of \$3.8 and \$1.6 at March 31, 2018 and September 30, 2017, respectively, on these forward currency contracts accounted for as cash flow hedges, which are included in AOCI. Assuming foreign exchange rates versus the U.S. dollar remain at March 31, 2018 levels over the next twelve months, the majority of the pre-tax loss included in AOCI at March 31, 2018 is expected to be included in Other (income) expense, net. Contract maturities for these hedges extend into fiscal 2019. There were 64 open foreign currency contracts at March 31, 2018 with a total notional value of \$135.3.

Derivatives not Designated as Hedges

The Company entered into foreign currency derivative contracts which are not designated as cash flow hedges for accounting purposes to hedge balance sheet exposures. Any gains or losses on these contracts are expected to be offset by exchange gains or losses on the underlying exposures, thus they are not subject to significant market risk. The change in estimated fair value of the foreign currency contracts for the three and six months ended March 31, 2018 resulted in losses of \$2.6 and \$2.8, respectively, and was recorded in Other (income) expense, net. The change in estimated fair value of the foreign currency contracts for the three and six months ended March 31, 2017 resulted in a loss of \$2.2 and a gain of \$0.4, respectively. There were five open foreign currency derivative contracts which were not designated as cash flow hedges at March 31, 2018, with a total notional value of \$59.0.

The following table provides estimated fair values of derivative instruments:

	Fair Value of Asset (Liability)	
	⁽¹⁾	
	March 31, 2018	September 30, 2017
Derivatives designated as cash flow hedging relationships:

Derivatives not designated as cash flow hedging relationships:		
Foreign currency contracts	\$(2.6)	\$0.4

⁽¹⁾ All derivative assets are presented in Other current assets or Other assets. All derivative liabilities are presented in Other current liabilities or Other liabilities.

The following table provides the amounts of gains and losses on derivative instruments:

	Three Months Ended March 31, 2018		Six Months Ended March 31, 2017	
Derivatives designated as cash flow hedging relationships:

Derivatives not designated as cash flow hedging relationships:				
Foreign currency contracts				
(Loss) gain recognized in income ⁽²⁾	\$(2.6)	\$(2.2)	\$(2.8)	\$0.4

- (1) Each of these derivative instruments had a high correlation to the underlying exposure being hedged for the periods indicated and had been deemed highly effective in offsetting associated risk.
- (2)(Loss) gain was recorded in Other (income) expense, net.

The following table provides financial assets and liabilities for balance sheet offsetting:

Net amounts of assets (liabilities) presented in the balance sheet	\$0.2	\$ (6.6)	\$2.4	\$ (3.6)

(1) All derivative assets are presented in Other current assets or Other assets.

(2) All derivative liabilities are presented in Other current liabilities or Other liabilities.

Fair Value Hierarchy

Accounting guidance on fair value measurements for certain financial assets and liabilities requires that assets and liabilities carried at fair value be classified in one of the following three categories:

Level 1: Quoted market prices in active markets for identical assets or liabilities.

Level 2: Observable market based inputs or unobservable inputs that are corroborated by market data.

Level 3: Unobservable inputs reflecting the reporting entity's own assumptions or external inputs from inactive markets.

Under the fair value accounting guidance hierarchy, an entity is required to maximize the use of quoted market prices and minimize the use of unobservable inputs. The following table sets forth the Company's financial assets and liabilities, which are carried at fair value and measured on a recurring basis during the period, all of which are classified as level 2 within the fair value hierarchy:

	March 31, 2018		September 30, 2017	
Assets (Liabilities) at estimated fair value:				
Deferred compensation	\$ (52.9)	\$ (60.9)		
Derivatives - foreign currency contracts	(6.4)	(1.2)		
Net liabilities at estimated fair value	\$ (59.3)	\$ (62.1)		

At March 31, 2018 and September 30, 2017, the Company had no level 1 or level 3 financial assets or liabilities, other than pension plan assets.

At March 31, 2018 and September 30, 2017, the fair market value of fixed rate long-term debt was \$1,089.4 and \$1,143.8, respectively, compared to its carrying value of \$1,096.3 and \$1,095.7, respectively. The estimated fair value of the long-term debt is estimated using yields obtained from independent pricing sources for similar types of borrowing arrangements. The estimated fair value of variable-rate debt, excluding revolving credit facilities, which consists of bank debt, was \$185.0 compared to its carrying value of \$184.8 and \$184.7 at March 31, 2018 and September 30, 2017, respectively. The estimated fair value is equal to the face value of the debt. The estimated fair value of long-term debt, excluding revolving credit facilities, has been determined based on level 2 inputs.

Due to the nature of cash and cash equivalents and short-term borrowings, including notes payable, carrying amounts on the balance sheets approximate fair value. Additionally, the carrying amounts of the Company's revolving credit facilities, which are classified as long-term debt on the balance sheet, approximate fair value due to the revolving nature of the balances. The estimated fair value of cash and cash equivalents, short-term borrowings and the revolving credit agreements have been determined based on level 2 inputs.

At March 31, 2018, the estimated fair value of foreign currency contracts is the amount that the Company would receive or pay to terminate the contracts, considering first the quoted market prices of comparable agreements or, in the absence of quoted market prices, factors such as interest rates, currency exchange rates and remaining maturities.

The estimated fair value of the deferred compensation liability is determined based upon the quoted market prices of the investment options that are offered under the plan.

Note 15 - Commitments and Contingencies

The Company and its affiliates are subject to a number of legal proceedings in various jurisdictions arising out of its operations during the ordinary course of business. Many of these legal matters are in preliminary stages and involve complex issues of law and fact, and may proceed for protracted periods of time. The amount of liability, if any, from these proceedings cannot be determined with certainty. The Company reviews its legal proceedings and claims, regulatory reviews and inspections and other legal proceedings on an ongoing basis and follows appropriate accounting guidance when making accrual and disclosure decisions. The Company establishes accruals for those contingencies when the incurrence of a loss is probable and can be reasonably estimated, and discloses the amount accrued and the amount of a reasonably possible loss in excess of the amount accrued, if such disclosure is necessary for its financial statements to not be misleading. The Company does not record liabilities when the likelihood that the liability has been incurred is probable, if the amount cannot be reasonably estimated. Based upon present information, the Company believes that its liability, if any, arising from such pending legal proceedings, asserted legal claims and known potential legal claims, which are likely to be asserted, is not reasonably likely to be material to the Company's financial position, results of operations or cash flows, taking into account established accruals for estimated liabilities.

Note 16 - Segment Data

Segment performance is evaluated based on segment profit, exclusive of general corporate expenses, share-based compensation costs, Jack Black acquisition and integration costs, costs associated with restructuring initiatives, the gain on the sale of the Playtex gloves business and the amortization of intangible assets. Financial items, such as interest income and expense, are managed on a global basis at the corporate level. The exclusion of such charges from segment results reflects management's view on how it evaluates segment performance.

The Company's operating model includes some shared business functions across the segments, including product warehousing and distribution, transaction processing functions and in most cases a combined sales force and management teams. The Company applies a fully allocated cost basis, in which shared business functions are allocated between the segments. Such allocations are estimates, and do not represent the costs of such services if performed on a stand-alone basis.

Segment net sales and profitability are presented below:

Note 17 - Guarantor and Non-Guarantor Financial Information

The Company's senior notes issued in May 2011 and May 2012 (collectively, the "Notes") are fully and unconditionally guaranteed on a joint and several basis by the Company's existing and future direct and indirect domestic subsidiaries that are guarantors of any of the Company's credit agreements or other indebtedness for borrowed money (the "Guarantors"). The Guarantors are 100% owned either directly or indirectly by the Company and jointly and severally guarantee the Company's obligations under the Notes and substantially all of the Company's other outstanding indebtedness. The Company's subsidiaries organized outside of the U.S. and certain domestic subsidiaries which are not guarantors of any of the Company's other indebtedness (collectively, the "Non-Guarantors"), do not guarantee the Notes. The subsidiary guarantee with respect to the Notes is subject to release upon sale of all of the capital stock of the Subsidiary Guarantor; if the guarantee under the Company's credit agreements and other indebtedness for borrowed money is released or discharged (other than due to payment under such guarantee); or when the requirements for legal defeasance are satisfied or the obligations are discharged in accordance with the indenture.

Set forth below are the condensed consolidating financial statements presenting the results of operations, financial position and cash flows of the Parent Company, Edgewell Personal Care Company, the Guarantors on a combined basis, the Non-Guarantors on a combined basis and eliminations necessary to arrive at the information for the Company, as reported on a consolidated basis. Eliminations represent adjustments to eliminate investments in subsidiaries and intercompany balances and transactions between or among the Parent Company, the Guarantors and the Non-Guarantors.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

(in millions, except per share data, unaudited)

The following discussion and analysis of our financial condition and results of operations should be read in conjunction with our unaudited condensed consolidated financial statements and the accompanying notes included in this Quarterly Report on Form 10-Q, and our Annual Report on Form 10-K filed with the Securities and Exchange Commission (the "SEC") on November 20, 2017. The following discussion may contain forward-looking statements that reflect our plans, estimates and beliefs and involve risks, uncertainties and assumptions. Our actual results could differ materially from those discussed in these forward-looking statements. Factors that could cause or contribute to these differences include those discussed within "Forward-Looking Statements" below, and in Item 1A. Risk Factors and "Forward-Looking Statements" included within our Annual Report on Form 10-K.

Non-GAAP Financial Measures. While we report financial results in accordance with accounting principles generally accepted in the United States ("reported" or "GAAP"), this discussion also includes Non-GAAP measures. These Non-GAAP measures are referred to as "adjusted" or "organic" and exclude items such as the disposition of the Playtex gloves business, the impact of the Tax Cuts and Jobs Act (the "Tax Act"), costs associated with the acquisition and integration of Jack Black, L.L.C. ("Jack Black"), restructuring charges and amortization of intangibles.

Reconciliations of Non-GAAP measures are included within this Management's Discussion and Analysis of Financial Condition and Results of Operations.

This Non-GAAP information is provided as a supplement to, not as a substitute for, or as superior to, measures of financial performance prepared in accordance with GAAP. We use this Non-GAAP information internally to make operating decisions and believe it is helpful to investors because it allows more meaningful period-to-period comparisons of ongoing operating results. The information can also be used to perform trend analysis and to better identify operating trends that may otherwise be masked or distorted by the types of items that are excluded. This Non-GAAP information is a component in determining management's incentive compensation. Finally, we believe this information provides a higher degree of transparency. The following provides additional detail on our Non-GAAP measures:

We analyze our net sales and segment profit on an organic basis to better measure the comparability of results between periods. Organic net sales and segment profit exclude the impact of changes in foreign currency, acquisitions and dispositions. This information is provided because these types of fluctuations can distort the underlying change in net sales and segment profit either positively or negatively. For the three and six months ended March 31, 2018, the impact of acquisitions includes net sales and segment profit activity for Jack Black, which was acquired in March 2018. For the six months ended March 31, 2018, the impact of acquisitions also includes October 2017 net sales and segment profit for Bulldog Skincare Holdings Limited ("Bulldog"), which was acquired in October 2016.

Adjusted net earnings and adjusted earnings per share are defined as net earnings and diluted earnings per share excluding items such as Jack Black integration costs, restructuring charges, the gain on the disposition of the gloves business, the related tax effects of these items and the impact of the Tax Act.

Adjusted effective tax rate is defined as the effective tax rate excluding items such as Jack Black integration costs, restructuring charges, the gain on the disposition of the gloves business, the related tax effects of these items and the impact of the Tax Act from the income tax provision and earnings before income taxes.

Free cash flow is defined as operating cash flows less any capital expenditures in current year.

All comparisons are with the same period in the prior year, unless otherwise noted.

Industry and Market Data. Unless we indicate otherwise, we base the information concerning our industry contained or incorporated by reference herein on our general knowledge of and expectations concerning the industry. Our market position, market share and industry market size is based on our estimates using internal data and data from various industry analyses, our internal research and adjustments and assumptions that we believe to be reasonable. We have not independently verified data from industry analyses and cannot guarantee accuracy or completeness. In addition, we believe that data regarding the industry, market size and our market position and market share within such industry provide general guidance but are inherently imprecise. Further, our estimates and assumptions involve risks and uncertainties and are subject to change based on various factors, including those discussed in the "Risk Factors" section of our Annual Report on Form 10-K. These and other factors could cause results to differ materially

from those expressed in the estimates and assumptions.

Retail sales for purposes of market size, market position and market share information are based on retail sales in United States ("U.S.") dollars.

Trademarks and Trade Names. We own or have rights to use trademarks and trade names that we use in conjunction with the operation of our business, which appear throughout this Quarterly Report on Form 10-Q. We also may refer to brand names, trademarks, service marks and trade names of other companies and organizations, and these brand names, trademarks, service marks and trade names are the property of their respective owners.

Forward-Looking Statements. This document contains both historical and forward-looking statements. Forward-looking statements are not based on historical facts, but instead reflect our expectations, estimates or projections concerning future results or events, including, without limitation, the future earnings and performance of Edgewell Personal Care Company or any of our businesses. These statements generally can be identified by the use of forward-looking words or phrases such as "believe," "expect," "expectation," "anticipate," "may," "could," "intend," "belief," "estimate," "plan," "target," "predict," "likely," "will," "should," "forecast," "outlook," or other similar words or phrases. These statements are not guarantees of performance and are inherently subject to known and unknown risks, uncertainties and assumptions that are difficult to predict and could cause our actual results to differ materially from those indicated by those statements. We cannot assure you that any of our expectations, estimates or projections will be achieved. The forward-looking statements included in this document are only made as of the date of this document, and we disclaim any obligation to publicly update any forward-looking statement to reflect subsequent events or circumstances. Numerous factors could cause our actual results and events to differ materially from those expressed or implied by forward-looking statements, including, without limitation:

- We face risks associated with global economic conditions.
- Competition in our industries may hinder our ability to execute our business strategy, achieve profitability, or maintain relationships with existing customers.
- Loss of any of our principal customers could significantly decrease our sales and profitability.
- Our inability to execute a successful e-commerce strategy could have a significant impact on our business.
- Changes in production costs, including raw material prices, could erode our profit margins and negatively impact operating results.
- Loss of reputation of our leading brands or failure of our marketing plans could have an adverse effect on our business.
- We are subject to risks related to our international operations, including currency fluctuations, which could adversely affect our results of operations.
- We face risks arising from our ongoing efforts to achieve cost savings.
- If we cannot continue to develop new products in a timely manner, and at favorable margins, we may not be able to compete effectively.
- We may not be able to continue to identify and complete strategic acquisitions and effectively integrate acquired companies to achieve desired financial benefits.
- A failure of a key information technology system or a breach of our information security could adversely impact our ability to conduct business.
- Our business is subject to increasing global regulation, including product related regulations and environmental regulations, that may expose us to significant liabilities.
- Our access to capital markets and borrowing capacity could be limited.
- Impairment of our goodwill and other intangible assets would result in a reduction in net income.
- Legislative changes in applicable tax laws, policies and regulations or unfavorable resolution of tax matters may result in additional tax liabilities, which could adversely impact our cash flows and results of operations.
- Our manufacturing facilities, supply channels or other business operations may be subject to disruption from events beyond our control.
- We have a substantial level of indebtedness and are subject to various covenants relating to such indebtedness, which could limit our discretion to operate and grow our business.
- Our business is subject to seasonal volatility.
- There can be no guarantee that we will repurchase stock.
- We do not expect to pay dividends for the foreseeable future.
 - If we fail to adequately protect our intellectual property rights, competitors may manufacture and market similar products, which could adversely affect our market share and results of operations.
 - Our financial results could be adversely impacted by the United Kingdom's departure from the European Union.

Our business involves the potential for product liability and other claims against us, which could affect our results of operations and financial condition and result in product recalls or withdrawals.

Our business could be negatively impacted as a result of stockholder activism or an unsolicited takeover proposal or a proxy contest.

We may not be able to attract, retain and develop key personnel.

• We may experience losses or be subject to increased funding and expenses related to our pension plans.
• Certain provisions in our articles of incorporation and bylaws, and of Missouri law, could deter or delay a third-party's effort to acquire us, especially if the Board determines it is not in the best interest of our shareholders.

Overview

Edgewell Personal Care Company, and its subsidiaries (collectively, "Edgewell"), is one of the world's largest manufacturers and marketers of personal care products in the wet shave, sun and skin care, feminine care and infant care categories. We have a portfolio of over 25 brands and a broad global footprint that operates in more than 50 countries.

We conduct our business in the following four segments:

Wet Shave consists of products sold under the Schick®, Wilkinson Sword®, Edge®, Skintimate®, Shave Guard and Personna® brands, as well as non-branded products. Our wet shave products include razor handles and refillable blades, disposable shave products and shaving gels and creams.

Sun and Skin Care consists of Banana Boat® and Hawaiian Tropic® sun care products, Bulldog® and Jack Black® men's skin care products, Wet Ones® wipes and Playtex® household gloves until the sale of the gloves business in October 2017. Refer to Note 2 of our Notes to the Condensed Consolidated Financial Statements for additional details regarding the acquisition of Jack Black and Note 3 of our Notes to the Condensed Consolidated Financial Statements for additional details on the sale of the Playtex household gloves business.

Feminine Care includes tampons, pads and liners sold under the Playtex Gentle Glide® and Sport®, Stayfree®, Carefree® and o.b.® brands.

All Other includes infant care products, such as bottles, cups and pacifiers, under the Playtex®, OrthoPro® and Binky® brand names, as well as the Diaper Genie® and Litter Genie® disposal systems.

The personal care product categories are highly competitive, both in the U.S. and on a global basis, as large manufacturers with global operations compete for consumer acceptance and, increasingly, limited retail shelf space. Competition is based upon brand perception, product performance, customer service and price. The markets are generally characterized by the frequent introduction of new products, accompanied by major advertising and promotional programs. Our priority is to deliver our strategic objectives, focusing on maximizing sales and profit growth through innovation, product line extensions and share gains, and we continue to target improved working capital management as a key business objective.

Significant Events

Acquisitions

On March 1, 2018, we completed the acquisition of Jack Black, a leading U.S. based luxury men's skincare products company based in the United States, for approximately \$90.3, net of cash acquired. The acquisition will create opportunities to expand our personal care portfolio in growing categories in the U.S. and globally, while nurturing the brand equity of Jack Black. The results of Jack Black for the post-acquisition period are included within the Company's results for the three and six months ended March 31, 2018. Refer to Note 2 of our Notes to Condensed Consolidated Financial Statements for further discussion related to the acquisition of Jack Black.

On October 31, 2016, we completed the acquisition of Bulldog, a men's grooming and skincare products company based in the United Kingdom for \$34.0, net of cash acquired. The acquisition created opportunities to expand our personal care portfolio into a growing global category where we can leverage our international geographic footprint. The acquisition was financed through available foreign cash. The results of Bulldog for the post-acquisition period are included within our results for the second quarter and first six months of fiscal 2018 and 2017.

Project Fuel

In February 2018, we launched Project Fuel, an enterprise-wide transformational initiative designed to address all aspects of our business and cost structure. The project will incorporate our existing ZBS and global productivity initiatives and will include a new global restructuring initiative. While we are incurring costs for Project Fuel beginning in fiscal 2018, the majority of costs and savings under Project Fuel are expected to take place during fiscal 2019 through fiscal 2021.

In addition to the expected cost savings and improved profitability, Project Fuel is designed to strengthen our challenger culture and reinforce our consumer-centric organizational focus. It is also designed to simplify the organization and streamline ways of working in order to increase competitiveness, speed and agility, and ensure we have the skills, capabilities and investments needed to compete in a rapidly changing world.

For further information on our restructuring projects, see Note 4 of Notes to Condensed Consolidated Financial Statements.

Sale of Playtex Gloves Business

We completed the sale of the Playtex® gloves business to a household products company for \$19.0 on October 26, 2017. The sale allows us to better focus and utilize resources on other product lines. Total assets sold were approximately \$3.1 resulting in a pre-tax gain on sale of \$15.9.

Executive Summary

Following is a summary of key results for the second quarter and first six months of fiscal 2018. Net earnings and earnings per share ("EPS") for the time periods presented were impacted by the acquisition of Jack Black, the gain on the sale of the Playtex gloves business, restructuring activities, the related tax impact from those costs and the impact of the Tax Act as described in the table below. The impact of these items on reported net earnings and EPS are provided as a reconciliation of net earnings and EPS to adjusted net earnings and adjusted diluted EPS, which are Non-GAAP measures.

Second Quarter of Fiscal 2018

Net sales in the second quarter of fiscal 2018 were \$608.1, down 0.5% compared to the prior year quarter, inclusive of a 0.4% increase as a result of the Jack Black acquisition, a 0.6% decline from the Playtex gloves divestiture and a 3.1% increase due to currency movements. Excluding the impact of the Jack Black acquisition and currency movements, organic net sales decreased 3.4% in the second quarter as compared to the prior year period, related to declines in Wet Shave, Infant and Feminine Care.

Net earnings in the second quarter of fiscal 2018 were \$65.1 as compared to \$65.7 in the prior year. On an adjusted basis, as illustrated in the following table, net earnings for the second quarter of fiscal 2018 increased 1.9% to \$70.9. The improvement was primarily driven by decreased Advertising and sales promotion expense ("A&P") and Research and development expense ("R&D") compared to the prior year quarter.

Net earnings per diluted share during the second quarter of fiscal 2018 were \$1.20 compared to \$1.14 in the prior year period. On an adjusted basis, as illustrated in the following table, net earnings per diluted share during the second quarter of fiscal 2018 were \$1.31 compared to \$1.21 in the prior year.

	Quarter Ended March 31,			
	Net Earnings		Diluted EPS	
	2018	2017	2018	2017
Net Earnings and Diluted EPS - GAAP	\$65.1	\$65.7	\$1.20	\$1.14
Jack Black acquisition and integration costs	2.6	—	0.05	—
Restructuring and related costs ⁽¹⁾	3.7	5.6	0.07	0.10

Adjusted Net Earnings and Adjusted Diluted EPS - Non-GAAP	\$70.9	\$69.6	\$1.31	\$1.21

Weighted-average shares outstanding - Diluted 54.1 57.7

(1) Includes pre-tax Cost of products sold of \$0.1 for the second quarter of fiscal 2017 associated with obsolescence charges related to the exit of certain non-core product lines as part of the 2013 Restructuring.

(2) Includes the impact of the Tax Act totaling \$1.2 in Income tax expense for the second quarter of fiscal 2018 in addition to the tax impact of the other adjustments to Net Earnings and Diluted EPS - GAAP.

First Six Months of Fiscal 2018

Net sales for the first six months of fiscal 2018 decreased 1.8% to \$1,076.4, inclusive of a 0.4% increase as a result of the acquisitions of Jack Black and Bulldog, a 0.6% decline from the sale of the Playtex gloves business and a 2.6% increase due to currency movements. Excluding the impact of the acquisition and currency movements, organic net sales decreased 4.2% in the first six months of fiscal 2018 as compared to the prior year period, as declines in Wet Shave, Feminine Care and Infant were partially offset by growth in Sun and Skin Care.

Net earnings for the first six months of fiscal 2018 were \$71.8 as compared to \$99.2 in the prior year. On an adjusted basis, as illustrated in the following table, net earnings for the first six months of fiscal 2018 decreased 23.9% to \$82.2. The change was primarily due to a decline in gross margin percentage compared to the prior year period partially offset by lower A&P spend.

Net earnings per diluted share during the first six months of fiscal 2018 were \$1.31 compared to \$1.72 in the prior year period. On an adjusted basis, as illustrated in the following table, net earnings per diluted share during the first six months of fiscal 2018 were \$1.50 compared to \$1.87 in the prior year.

	Six Months Ended March 31,			
	Net Earnings		Diluted EPS	
	2018	2017	2018	2017
Net Earnings and Diluted EPS - GAAP	\$71.8	\$99.2	\$1.31	\$1.72

Adjusted Net Earnings and Adjusted Diluted EPS - Non-GAAP	\$82.2	\$108.0	\$1.50	\$1.87

Weighted-average shares outstanding - Diluted 54.9 57.8

(1) Includes pre-tax Cost of products sold of \$0.4 for the first six months of fiscal 2017 associated with obsolescence charges related to the exit of certain non-core product lines as part of the 2013 Restructuring.

(2) Includes the impact of the Tax Act totaling \$17.4 in Income tax expense for the first six of fiscal 2018 in addition to the tax impact of the other adjustments to Net Earnings and Diluted EPS - GAAP.

Operating Results

The following table presents changes in net sales for the second quarter and first six months of fiscal 2018, as compared to the corresponding periods in fiscal 2017, and provides a reconciliation of organic net sales to reported amounts.

Net Sales

Net Sales - Total Company

Quarter and Six Months Ended March 31, 2018

	Q2	%Chg	Six Months	%Chg
Net sales - prior year	\$611.0		\$1,096.0	
Organic	(20.8)	(3.4)%	(45.8)	(4.2)%
Impact of Playtex gloves sale	(3.8)	(0.6)%	(7.0)	(0.6)%
Impact of acquisitions	2.4	0.4 %	4.7	0.4 %
Impact of currency	19.3	3.1 %	28.5	2.6 %
Net sales - current year	\$608.1	(0.5)%	\$1,076.4	(1.8)%

For the second quarter of fiscal 2018, net sales were \$608.1, a 0.5% decrease when compared with the prior year period. Excluding the impact of acquisitions, the Playtex gloves sale and currency movements, organic net sales decreased 3.4% versus the prior year period. From a geographic perspective, organic net sales in North America declined 7%, while increasing 4% in total International markets. Volumes were lower in North America Wet Shave, Infant Care and Feminine Care, offset in part by higher volumes in global Sun and Skin Care and International Wet Shave. Price mix was unfavorable in the quarter due to higher Sun Care returns and an increase in Wet Shave promotional spend in North America.

For the first six months of fiscal 2018, net sales decreased 1.8%. Excluding the impact of acquisitions, the Playtex gloves sale and currency movements, organic net sales decreased 4.2% versus the prior year period. From a geographic perspective, organic net sales in North America declined 7%, while increasing 1% in total International markets. The decline in organic net sales was primarily due to declines in Wet Shave, primarily in North America, driven by competitive pressure and category declines and Feminine Care volume declines, partially offset by growth in Skin Care in Bulldog and Wet Ones.

For further discussion regarding net sales, including a summary of reported versus organic changes, see "Segment Results."

Gross Profit

Gross profit was \$302.1 during the second quarter of fiscal 2018, as compared to \$309.6 in the prior year period.

Gross margin as a percent of net sales for the second quarter of fiscal 2018 was 49.7%, representing a 100 basis point decline over the prior year gross margin of 50.7%, primarily driven by unfavorable price mix due to increased Sun Care returns and higher promotional activity in support of new Wet Shave products. Volume mix negatively impacted margin by 10 basis points, while cost mix had a 30 basis point negative impact, largely driven by unfavorable transactional currency.

Gross profit was \$502.4 during the first six months of fiscal 2018, as compared to \$537.6 in the prior year period.

Gross margin as a percent of net sales for the first six months of fiscal 2018 was 46.7%, down 240 basis points as compared to the prior year period. The decline was primarily driven by lower sales volumes in Wet Shave and Feminine Care, unfavorable price mix from Wet Shave promotions and Sun Care returns and higher product costs, partially offset by favorable foreign currency impact.

Selling, General and Administrative Expense

SG&A was \$103.5 in the second quarter of fiscal 2018, or 17.0% of net sales, as compared to \$103.9 in the prior year period, or 17.0% of net sales. Excluding \$2.6 of acquisition and integration costs associated with Jack Black and unfavorable currency translation, SG&A as a percent of net sales improved 50 basis points over the prior year. The operational improvement in SG&A was largely driven by savings generated through our Zero Based Spending ("ZBS") savings initiative, lower compensation expense and reduced headcount, partially offset by higher e-commerce investments.

SG&A was \$200.7 in the first six months of fiscal 2018, or 18.6% of net sales, as compared to \$197.7 in the prior year period, or 18.0% of net sales. The increase in the current year period was primarily related to the \$2.6 of acquisition and integration costs associated with Jack Black. Excluding the \$2.6 million of acquisition and integration costs associated with Jack Black, SG&A as a percent of net sales increased 40 basis points over the prior year.

Advertising and Sales Promotion Expense

For the second quarter of fiscal 2018, A&P was \$75.6, down \$6.9 as compared to the prior year period. A&P spending as a percent of net sales was 12.4%, as compared to 13.5% in the prior year period. The decrease in A&P was primarily driven by reduced brand support within Feminine Care and a \$4.5 reduction in spend generated by our ZBS initiative to centralize creative asset development for our global brands.

For the first six months of fiscal 2018, A&P was \$124.6, down \$8.5 as compared to the prior year period. A&P spending as a percent of net sales was 11.6%, as compared to 12.1% in the prior year period. The decrease was driven by higher prior year spend in Wet Shave in support of new product innovation in men's Hydro® in North America, lower Feminine Care spend compared to the prior year period and an \$8.5 million reduction in spend generated by our ZBS initiative to centralize creative asset development for our global brands.

Research and Development Expense

R&D for the second quarter of fiscal 2018 was \$15.5, compared to spending of \$17.5 in the prior year period. As a percent of sales, R&D declined 40 basis points to 2.5% in the current quarter from 2.9% in the prior year period.

R&D for the first six months of fiscal 2018 was \$31.6, compared to \$33.8 in the prior year period. As a percent of sales, R&D declined 20 basis points to 2.9% in the first six months of fiscal 2018 from 3.1% in the prior year.

Interest Expense Associated with Debt

Interest expense associated with debt for the second quarter of fiscal 2018 was \$18.2, an increase from the prior year period expense of \$17.3. For the first six months of fiscal 2018, interest expense was \$36.0 compared to \$34.7 in the prior year period. The increase in interest expense primarily relates to increased interest rates for variable rate debt.

Other (Income) Expense, Net

Other (income) expense, net was income of \$0.2 during the second quarter of fiscal 2018, compared to income of \$6.6 in the second quarter of fiscal 2017. Other (income) expense, net was expense of \$2.8 during the first six months of fiscal 2018, compared to income of \$8.5 during first six months of fiscal 2017. The current year periods reflect the negative impact of foreign currency exchange contract gains and losses and the revaluation of nonfunctional currency balance sheet exposures.

Income Tax Provision

The effective tax rate for the second quarters of fiscal 2018 and 2017 was 24.1% and 26.6%, respectively. The effective tax rate for the first six months of 2018 and 2017 was 39.7% and 26.2%, respectively. The effective tax rate for the first six months of fiscal 2018 includes a \$17.4 increase in tax expense related to net charges from the Tax Act, which more than offset the lower U.S. Federal tax rate. Excluding the gain on the sale of the Playtex gloves business, net tax expense from the Tax Act, costs related to the acquisition and integration of Jack Black and restructuring charges, the adjusted effective tax rate was 24.8% and 26.6% for the first six months of fiscal 2018 and 2017, respectively. Our adjusted effective tax rate for fiscal 2018 is expected to be in the range of 22% to 24%; however, the adjusted effective tax rate is dependent upon the mix of earnings in various tax jurisdictions.

The following table presents a reconciliation of the adjusted effective tax rate, which is a Non-GAAP measure:

	Six Months Ended March 31, 2018			Six Months Ended March 31, 2017		
	Reported	Adjustments (1)	Adjusted (Non-GAAP)	Reported	Adjustments (1)	Adjusted (Non-GAAP)
Earnings before income taxes	\$ 118.9	\$ (9.6)	\$ 109.3	\$ 134.4	\$ 12.8	\$ 147.2
Income tax provision	47.1	(20.0)	27.1	35.2	4.0	39.2
Net earnings	\$ 71.8	\$ 10.4	\$ 82.2	\$ 99.2	\$ 8.8	\$ 108.0
Effective tax rate	39.7 %			26.2 %		
Adjusted effective tax rate			24.8 %			26.6 %

Includes adjustments for the impact of the Tax Act, the gain on sale of the Playtex gloves business, Jack Black (1) acquisition and integration charges and restructuring charges. See reconciliation of net earnings to adjusted net earnings.

Savings Initiatives

Our ZBS initiative was established to capture savings and establish cost-conscious spending policies consistent with our strategic needs. Net cost savings from our ZBS initiative are anticipated to be between \$25 to \$30 in fiscal 2018, which will be reinvested into marketing spend and our strategic growth initiatives.

In February 2018, we launched Project Fuel, an enterprise-wide transformational initiative designed to address all aspects of our business and cost structure. The project will incorporate our existing ZBS and global productivity initiatives and will include a new global restructuring initiative. While we are incurring costs for Project Fuel beginning in fiscal 2018, the majority of costs and savings under Project Fuel are expected to take place during fiscal 2019 through fiscal 2021.

Project Fuel is expected to achieve an estimated \$225 million in total gross savings through the end of the 2021 fiscal year. These savings initiatives will materially affect Supply Chain, Operations, Commercial and Sales Organizations, and Corporate G&A, and will affect all business Segments. It is expected that the savings generated will be used to fuel investments in strategic growth initiatives and brands, offset operational headwinds from inflation and other input costs, and improve our overall profitability.

In the second quarter, Project Fuel costs totaled \$3.7 related to severance and consulting charges. For fiscal year 2018, Project Fuel related restructuring charges and capital expenditures are expected to be approximately \$40 and \$16, respectively. We estimate one-time pre-tax charges related to Project Fuel to be approximately \$120 to \$130 million, with an additional capital investment of \$60 to \$70 million through the end of the 2021 fiscal year to implement the restructuring element of Project Fuel. We anticipate that the majority of the one-time charges associated with these initiatives will be incurred by the end of the 2019 fiscal year.

Segment Results

Segment performance is evaluated based on segment profit, exclusive of general corporate expenses, share-based compensation costs, costs associated with restructuring initiatives and the amortization of intangible assets. Financial items, such as interest income and expense, are managed on a global basis at the corporate level. The exclusion of such charges from segment results reflects management's view on how it evaluates segment performance.

Our operating model includes some shared business functions across the segments, including product warehousing and distribution, transaction processing functions and, in most cases, a combined sales force and management teams. We apply a fully allocated cost basis, in which shared business functions are allocated between the segments. Such allocations are estimates, and do not represent the costs of such services if performed on a stand-alone basis.

The following tables present changes in segment net sales and segment profit for the second quarter and first six months of fiscal 2018, as compared to the corresponding periods in fiscal 2017, and provide a reconciliation of organic segment net sales and organic segment profit to reported amounts. For a reconciliation of segment profit to Earnings before income taxes, see Note 16 of Notes to Condensed Consolidated Financial Statements.

Wet Shave

Net Sales - Wet Shave

Quarter and Six Months Ended March 31, 2018

	Q2	%Chg	Six Months	%Chg
Net sales - prior year	\$342.6		\$648.8	
Organic	(13.6)	(4.0)%	(33.3)	(5.1)%
Impact of currency	16.2	4.8 %	23.8	3.6 %
Net sales - current year	\$345.2	0.8 %	\$639.3	(1.5)%

Wet Shave net sales for the second quarter of fiscal 2018 increased 0.8%, inclusive of a 4.8% increase due to currency movements. Excluding the impact of currency movements, organic net sales decreased \$13.6, or 4.0%. Men's Systems organic net sales were flat, as sales growth from International Hydro and Private Label was largely offset by declines in North America. Women's Systems organic net sales declined low-single digits as growth from Intuition f.a.b. product and strong growth in Asia and Latin America was more than offset by overall declines in North America and Europe. Disposables organic net sales were down mid-single digits, largely driven by declines in North America, while International grew modestly.

Wet Shave net sales for the first six months of fiscal 2018 decreased 1.5%, inclusive of a 3.6% increase due to currency movements. Excluding the impact of currency movements, organic net sales decreased \$33.3, or 5.1%. Men's Systems volumes declined as North America distribution losses were partially offset by International growth. Women's Systems declined as growth related to the launch of Intuition f.a.b. was offset by declines in North America. Disposable and Shave Prep volumes were down, primarily due to category declines in North America.

Segment Profit - Wet Shave

Quarter and Six Months Ended March 31, 2018

	Q2	%Chg	Six Months	%Chg
Segment profit - prior year	\$73.2		\$145.2	
Organic	(7.9)	(10.8)%	(26.9)	(18.5)%
Impact of currency	4.5	6.2 %	6.2	4.2 %
Segment profit - current year	\$69.8	(4.6)%	\$124.5	(14.3)%

Wet Shave segment profit for the second quarter of fiscal 2018 was \$69.8, down \$3.4 or 4.6%, inclusive of the impact of currency movements. Excluding the impact of currency movements, organic segment profit decreased \$7.9, or 10.8%, primarily due to decreased gross margins driven by unfavorable impact of lower volumes, increased product costs, and unfavorable price mix from increased promotions and returns. A&P spending was lower in the quarter, reflecting the benefit of ZBS savings and the timing of spend related to new product launches in the year.

Wet Shave segment profit for the first six months of fiscal 2018 was \$124.5, down \$20.7 or 14.3%, inclusive of the impact of currency movements. Excluding the impact of currency movements, organic segment profit decreased \$26.9, or 18.5%, primarily due to lower sales volumes in Men's Systems, Disposables, and Shave Prep, unfavorable price mix following increased promotional coupon use, and unfavorable cost mix from higher materials cost and operational variances from production. The negative impacts were partially offset by lower A&P spending, mainly for Hydro branded razors.

Sun and Skin Care

Sun and Skin Care segment net sales and segment profit are affected by the seasonality of sun care products. As a result, segment net sales and segment profit tend to be higher in the second and third quarters of the fiscal year.

Net Sales - Sun and Skin Care

Quarter and Six Months Ended March 31, 2018

	Q2	%Chg	Six Months	%Chg
Net sales - prior year	\$ 150.6		\$ 208.2

Impact of currency	2.6	1.7 %	3.5	1.6 %
Net sales - current year	\$ 152.3	1.1 %	\$ 211.4	1.5 %

Sun and Skin Care net sales for the second quarter of fiscal 2018 increased 1.1%, inclusive of a 1.6% increase due to acquisitions, a 2.5% decline due to the Playtex gloves sale and a 1.7% increase due to currency movements. Excluding the impact of acquisitions, the Playtex gloves sale and currency movements, organic net sales increased \$0.5, or 0.3%, driven by growth of Sun Care volumes in North America, largely offset by price mix from higher returns. Bulldog net sales increased over 100% compared to the prior year, and Wet Ones, due to the flu season in North America.

Sun and Skin Care net sales for the first six months of fiscal 2018 increased 1.5%, inclusive of a 2.3% increase due to acquisitions, a 3.4% decline due to the Playtex gloves sale and a 1.6% increase due to currency movements. Excluding the impact of acquisitions, the Playtex gloves sale and currency movements, organic net sales increased \$2.0, or 1.0%, with strong performance in Skin Care and Grooming as growth in Bulldog and Wet Ones during the first six months were offset by declines in Hawaiian Tropic and the exit of the private label Suncare business. Banana Boat experienced slight growth sales through the first six months of fiscal 2018.

Segment Profit - Sun and Skin Care

Segment profit - current year	\$ 48.9	(3.9)%	\$ 42.8	(17.2)%

Segment profit for the second quarter of fiscal 2018 was \$48.9, a decrease of \$2.0 or 3.9%, inclusive of the impact of acquisitions, the Playtex gloves sale and currency movements. Excluding the impact of acquisitions, the Playtex gloves sale and currency movements, organic segment profit decreased \$2.1, or 4.1%, driven primarily by declining price mix from unfavorable returns and higher warehouse and distribution costs, offset by increased volumes in Bulldog and Wet Ones.

Segment profit for the first six months of fiscal 2018 was \$42.8, a decrease of \$8.9 or 17.2%, inclusive of the impact of acquisitions, the Playtex gloves sale and currency movements. Excluding the impact of acquisitions, the Playtex gloves sale and currency movements, organic segment profit decreased \$6.7, or 13.0%, driven primarily by gross margin declines from unfavorable price mix due to higher returns and unfavorable costs mix, offset by increased volumes.

Feminine Care

Feminine Care net sales for the second quarter of fiscal 2018 decreased \$2.9, or 3.5%, inclusive of a 0.3% increase due to the impact of currency movements. Excluding the impact of currency movements, organic net sales decreased 3.8% due to the impact of currency movements largely driven by Tampons, specifically in the Gentle Glide and o.b. brands. Total Liners, led by Carefree, increased 5.7%, and total Pads were essentially flat in the quarter.

Feminine Care net sales for the first six months of fiscal 2018 decreased \$9.4, or 5.5%, inclusive of a 0.3% increase due to the impact of currency movements. Excluding the impact of currency movements, organic net sales decreased 5.8% driven by volume declines across Gentle Glide and o.b. branded tampons and Stayfree branded pads, partially offset by growth in Carefree branded liners.

Segment profit - prior year	\$1.6		\$9.9	
Organic	8.3	518.8%	4.8	48.5%
Impact of currency	0.2	12.5 %	0.4	4.0 %
Segment profit - current year	\$10.1	531.3%	\$15.1	52.5%

Feminine Care segment profit for the second quarter of fiscal 2018 was \$10.1, an increase of \$8.5, or 531.3%, inclusive of a 12.5% increase due to the impact of currency movements. Excluding the impact of currency movements, organic segment profit increased \$8.3, primarily as a result of lower product costs, A&P and overhead spending, partially offset by lower volumes.

Feminine Care segment profit for the first six months of fiscal 2018 was \$15.1, an increase of \$5.2, or 52.5%, primarily due to lower A&P and overhead spend related to the transition costs related to the shift of manufacturing from Montreal to Dover in the prior year period, partially offset by declining volumes.

(1)

Includes pre-tax Cost of products sold of \$0.1 and \$0.4 for the second quarter and first six months of fiscal 2017, respectively, associated with obsolescence charges related to the exit of certain non-core product lines as a part of the 2013 Restructuring.

For the second quarter of fiscal 2018, general corporate expenses were \$18.8, or 3.1% of net sales, as compared to \$23.5, or 3.8% of net sales, in the prior year quarter. For the first six months of fiscal 2018, general corporate expenses were \$37.2, or 3.5% of net sales, compared to \$39.9, or 3.6% of net sales, in the prior year period. For both the quarter and six month period, the decreases in general corporate expenses over the prior period were primarily related to lower share-based and deferred compensation expense, as well as savings related to our ZBS program.

Liquidity and Capital Resources

We manage our worldwide cash requirements by reviewing available funds among the many subsidiaries through which we conduct business and the cost effectiveness with which those funds can be accessed. We generally repatriate a portion of current year earnings from select non-US subsidiaries only if the economic cost of the repatriation is not considered material. As a result of the Tax Act signed December 22, 2017, we repatriated approximately \$300 of cash from certain foreign subsidiaries during the second quarter of fiscal 2018. We utilized repatriated cash to invest in Jack Black and to reduce borrowings under the U.S. revolving credit facility.

The counterparties to deposits consist of a number of major financial institutions. We consistently monitor positions with, and credit ratings of, counterparties both internally and by using outside ratings agencies.

Our total borrowings were \$1,425.7 at March 31, 2018, including \$307.8 tied to variable interest rates. Our total borrowings at September 30, 2017 were \$1,544.8.

As of March 31, 2018, we had outstanding borrowings of \$123.0 under our unsecured revolving credit facility in the U.S. (the "Revolving Facility") and \$8.0 of outstanding letters of credit. Taking into account outstanding borrowings and outstanding letters of credit at March 31, 2018, \$594.0 remains available under the Revolving Facility. At September 30, 2017, we had outstanding borrowings of \$245.0 under the Revolving Facility. As of March 31, 2018 and September 30, 2017, we had approximately \$185.0 outstanding under a term loan.

We had outstanding international borrowings, recorded in Notes payable, of \$21.6 and \$19.4 as of March 31, 2018 and September 30, 2017, respectively.

The minimum required contribution to our pension plans in fiscal 2018 is \$9.6; however, discretionary contributions may also be made. During the first six months of fiscal 2018, we contributed \$3.9 to our pension plans.

As of March 31, 2018, we were in compliance with the provisions and covenants associated with our debt agreements.

Cash Flows

A summary of our cash flow from operating, investing and financing activities is provided in the following table:

	Six Months Ended	
	March 31,	
	2018	2017
Net cash from (used by):		
Operating activities	\$73.4	\$15.1
Investing activities	(94.2)	(58.5)
Financing activities	(249.7)	(282.8)
Effect of exchange rate changes on cash	11.2	(9.8)
Net decrease in cash and cash equivalents	\$(259.3)	\$(336.0)

Operating Activities

Cash flow from operating activities was \$73.4 during the first six months of fiscal 2018, as compared to \$15.1 during the same period in the prior year. The improvement in operating cash flow was driven by changes in working capital, primarily in accounts receivable, inventory and other operating liabilities. Changes in cash flows from Operating activities resulting from the Tax Act include a reduction in Net Earnings from the net transition charge of \$17.4, a non-cash deferred tax adjustment and an offsetting change in operating assets and liabilities from the increase in current and long-term income taxes payable. The Company expects that fiscal 2018 free cash flow will be above 100% of GAAP net earnings.

Investing Activities

Cash flow used by investing activities was \$94.2 during the first six months of fiscal 2018 as compared to \$58.5 during the same period in the prior year. The change was primarily due to the \$90.3 acquisition of Jack Black in the second quarter of fiscal 2018, slightly offset by the \$19.0 sale of the Playtex gloves business in the first quarter fiscal 2018. In the prior year we purchased Bulldog for \$34.0. Capital expenditures were \$27.6 during the first six months of fiscal 2018 and \$30.4 during the same period in the prior year.

Financing Activities

Net cash used by financing activities was \$249.7 during the first six months of fiscal 2018 as compared to net cash from financing activities of \$282.8 during the same period in the prior year. The \$33.1 decrease in net cash used by financing activities was driven by smaller net repayments related to the Revolving Facility in the current year compared to the repayment of our former Netherlands credit facility for approximately \$277.0 in fiscal 2017. The decline in net debt repayments was offset by an increase in repurchases of common shares of \$65.9 in the six months ended March 31, 2018 when compared to the prior year period.

Share Repurchases

During the first six months of fiscal 2018, we repurchased 2.1 shares of our common stock for \$124.4. In January 2018, the Board approved an authorization to repurchase up to 10.0 shares of the Company's common stock, replacing the previous stock repurchase authorization from May 2015. Any future share repurchases would be made in the open market, privately negotiated transactions or otherwise, in such amounts and at such times as the Company deems appropriate based upon prevailing market conditions, business needs and other factors.

Commitments and Contingencies

Contractual Obligations

During the first six months of fiscal 2018, our net repayments on our revolving credit facilities were \$122.0. As of March 31, 2018, future repayments of debt are as follows: \$185.0 in fiscal 2019, \$123.0 in fiscal 2020, \$600.0 in fiscal 2021 and \$500.0 in fiscal 2022.

There have been no other material changes in our contractual obligations since the presentation in our Annual Report on Form 10-K, as filed with the SEC on November 20, 2017.

Environmental Matters

Our operations, like those of other companies, are subject to various federal, state, foreign and local laws and regulations intended to protect the public health and the environment. These regulations relate primarily to worker safety, air and water quality, underground fuel storage tanks and waste handling and disposal. It is difficult to quantify with certainty the cost of environmental matters, particularly remediation and future capital expenditures for environmental control equipment. Total environmental capital expenditures and operating expenses are not expected to have a material effect on our total capital and operating expenditures, consolidated earnings or competitive position. However, current environmental spending estimates could be modified as a result of changes in our plans or our understanding of underlying facts, changes in legal requirements, including any requirements related to global climate change, or other factors.

Legal and Other Contingencies

We, and our affiliates, are subject to a number of legal proceedings in various jurisdictions arising out of our operations during the ordinary course of business. Many of these legal matters are in preliminary stages and involve complex issues of law and fact, and may proceed for protracted periods of time. The amount of liability, if any, from these proceedings cannot be determined with certainty. We review our legal proceedings and claims, regulatory reviews and inspections and other legal proceedings on an ongoing basis and follow appropriate accounting guidance when making accrual and disclosure decisions. We establish accruals for those contingencies when the incurrence of a loss is probable and can be reasonably estimated, and disclose the amount accrued and the amount of a reasonably possible loss in excess of the amount accrued, if such disclosure is necessary for our financial statements to not be misleading. We do not record liabilities when the likelihood that the liability has been incurred is probable, but the amount cannot be reasonably estimated. Based upon present information, we believe that our liability, if any, arising from such pending legal proceedings, asserted legal claims and known potential legal claims, which are likely to be asserted, is not reasonably likely to be material to our financial position, results of operations or cash flows, taking into account established accruals for estimated liabilities.

Item 3. Quantitative and Qualitative Disclosures About Market Risk.

The market risk inherent in our financial instruments and positions represents the potential loss arising from adverse changes in currency rates, commodity prices and interest rates. At times, we enter into contractual arrangements (derivatives) to reduce these exposures. For further information on our foreign currency derivative instruments, see Note 14 of Notes to Condensed Consolidated Financial Statements. As of March 31, 2018, there were no open derivative or hedging instruments for future purchases of raw materials or commodities. Our exposure to interest rate risk relates primarily to our variable-rate debt instruments, which currently bear interest based on LIBOR plus margin. As of March 31, 2018, our outstanding variable-rate debt included \$123.0 on our revolving credit facility in the U.S. and \$185.0 on our term loan. Assuming a one-percent increase in the applicable interest rates, annual interest expense on these variable-rate debt instruments would increase by approximately \$3.1.

There have been no material changes in our assessment of market risk sensitivity since our presentation of "Quantitative and Qualitative Disclosures About Market Risk" in our Annual Report on Form 10-K, as filed with the SEC on November 20, 2017.

Item 4. Controls and Procedures.

Evaluation of Disclosure Controls and Procedures

We maintain disclosure controls and procedures designed to ensure that information required to be disclosed in reports filed under the Securities Act of 1934, as amended (the "Exchange Act"), is recorded, processed, summarized and reported within the specified time periods, and that such information is accumulated and communicated to management, including our Chief Executive Officer ("CEO") and Chief Financial Officer ("CFO"), as appropriate, to allow timely decisions regarding required disclosure.

Our management, with the participation of our CEO and CFO, evaluated the effectiveness of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act) as of March 31, 2018. Based on that evaluation, our CEO and CFO concluded that, as of that date, our disclosure controls and procedures were effective.

Changes in Internal Control over Financial Reporting

There were no changes in our internal control over financial reporting during the quarter ended March 31, 2018 that have materially affected, or are likely to materially affect, our internal control over financial reporting.

PART II - OTHER INFORMATION

Item 1. Legal Proceedings.

We, and our affiliates, are subject to a number of legal proceedings in various jurisdictions arising out of our operations during the ordinary course of business. Many of these legal matters are in preliminary stages and involve complex issues of law and fact, and may proceed for protracted periods of time. The amount of liability, if any, from these proceedings cannot be determined with certainty. We review our legal proceedings and claims, regulatory reviews and inspections and other legal proceedings on an ongoing basis and follow appropriate accounting guidance when making accrual and disclosure decisions. We establish accruals for those contingencies when the incurrence of a loss is probable and can be reasonably estimated, and disclose the amount accrued and the amount of a reasonably possible loss in excess of the amount accrued, if such disclosure is necessary for our financial statements to not be misleading. We do not record liabilities when the likelihood that the liability has been incurred is probable, but the amount cannot be reasonably estimated. Based upon present information, we believe that our liability, if any, arising from such pending legal proceedings, asserted legal claims and known potential legal claims, which are likely to be asserted, is not reasonably likely to be material to our financial position, results of operations or cash flows, taking into account established accruals for estimated liabilities.

Item 1A. Risk Factors.

Refer to Item 1A. Risk Factors in our Annual Report on Form 10-K for a detailed discussion of risk factors that could materially adversely affect our business, our operating results or our financial condition. The risk factors included below are revised from versions included in our Annual Report on Form 10-K.

Legislative changes in applicable tax laws, policies and regulations or unfavorable resolution of tax matters may result in additional tax liabilities, which could adversely impact our cash flows and results of operations.

Our businesses are subject to taxation in the U.S. and multiple foreign jurisdictions. On December 22, 2017, the U.S. government enacted comprehensive tax legislation commonly referred to as the Tax Cuts and Jobs Act (the "Tax Act"). The changes included in the Tax Act are broad and complex and the impact of the Tax Act is subject to change as a result of changes in interpretations of the Tax Act, legislative action to address questions that arise from the Tax Act, changes in accounting standards for income taxes or related interpretations, updates or changes to estimates of current year earnings, exchange rates and other factors. In addition, international tax reform remains a priority with the Organization for Economic Cooperation and Development's Action Plan on Base Erosion & Profit Shifting and other proposed foreign jurisdictional tax law changes. Given the uncertainty of the possible changes and their potential interdependency, we are unable to determine whether the net consolidated impact of changes in global tax legislation would be positive or negative. However, the impact of any legislative tax law, policy or regulation changes by federal, state and local and foreign authorities may result in additional tax liabilities which could adversely impact our cash flows and results of operations.

Significant estimation and judgment is required in determining our provisions for taxes in the U.S. and jurisdictions outside the U.S. In the ordinary course of our business, there are transactions and calculations in which the ultimate tax determination is uncertain. We are regularly under audit by tax authorities, and although we believe our tax positions are defensible and our tax provision estimates are reasonable, the final outcome of tax audits and related litigation could be materially different than that reflected in our income tax provisions and accruals. The unfavorable resolution of any audits or litigation could have an adverse impact on future operating results and our financial condition. More aggressive and assertive tax collection policies, particularly in jurisdictions outside the U.S., may increase the costs of resolving tax issues and enhance the likelihood that we will have increased tax liabilities going forward.

We face risks arising from our ongoing efforts to achieve cost savings.

In the normal course of business, we may initiate projects which change our footprint or our operations in order to gain efficiencies and reduce costs. The execution of cost savings initiatives may present a number of significant risks, including:

- actual or perceived disruption of service or reduction in service standards to customers;
- the failure to preserve adequate internal controls as we restructure our general and administrative functions, including our information technology and financial reporting infrastructure;
- the failure to preserve supplier relationships and distribution, sales and other important relationships and to resolve conflicts that may arise;
- loss of sales as we reduce or eliminate staffing on non-core product lines;
- diversion of management attention from ongoing business activities; and
- the failure to maintain employee morale and retain key employees while implementing benefit changes and reductions in the workforce.

Because of these and other factors, we cannot predict whether we will realize the purpose and anticipated benefits of these initiatives and, if we do not, our business and results of operations may be adversely affected.

In fiscal 2018, we launched Project Fuel, an enterprise-wide transformational initiative that is designed to address all aspects of our business and cost structure. The project will incorporate our Zero Based Spending and global productivity initiatives, and will include a new global restructuring initiative. The anticipated savings will provide ongoing financial and operational flexibility for reinvestment to reinforce growth and margin improvement objectives. Project Fuel follows on several years of productivity initiatives, as well as the initiatives launched with the overall Separation program. The achievement of our savings targets depends on our ability to successfully identify and realize savings opportunities. Events and circumstances, such as financial or strategic difficulties, delays and unexpected costs may occur that could result in our not realizing the anticipated benefits or our not realizing the anticipated

benefits on our expected timetable. If we are unable to realize the anticipated savings our results of operations, cash flows and financial condition may be adversely affected.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

The following table sets forth the purchases of the Company's securities by the Company and any affiliated purchasers within the meaning of Rule 10b-18(a)(3) (17 CFR 240.10b-18(a)(3)) during the second quarter of fiscal 2018.

Period	Total Number of Shares Purchased (1) (2)	Average Price Paid per share (3)	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs (2) (4)	Maximum Number that May Yet Be Purchased Under the Plans or Programs
January 1 to 31, 2018	153,694	\$ 60.13	153,605	10,000,000
February 1 to 28, 2018	—	—	—	10,000,000
March 1 to 31, 2018	—	—	—	10,000,000

(1) 89 shares purchased during the quarter relate to the surrender to the Company of shares of common stock to satisfy tax withholding obligations in connection with the vesting of restricted stock equivalent awards.

(2) In May 2015, the Company's Board of Directors approved an authorization to repurchase up to ten million shares of the Company's common stock. This authorization replaced a prior share repurchase authorization. During the second quarter of fiscal 2018, the Company repurchased 153,605 shares under this resolution.

(3) Includes \$0.02 per share of brokerage fee commissions.

(4) In January 2018, the Board approved an authorization to repurchase up to ten million shares of the Company's common stock, replacing the previous stock repurchase authorization from May 2015.
