ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

General

Alec Bradley Cigar Corporation (the "Company") was organized under the laws of the State of Florida on July 15, 1996. The Company is an importer and distributor of cigars. The Company primarily sells to two types of customers:

1. Distributors, including but not limited to wine and liquor wholesalers; and
2. Retailers, including but not limited to tobacco shops, convenience stores, bars, restaurants and country clubs.

Management's discussion and analysis contains various forward-looking statements. These statements consist of any statement other than a recitation of historical fact and can be identified by the use of forward-looking terminology such as "may," "expect," "anticipate," "estimate" or "continue" or use of negative or other variations or comparable terminology.

The Company cautions that these statements are further qualified by important factors that could cause actual results to differ materially from those contained in the forward-looking statements, that these forward-looking statements are necessarily speculative, and there are certain risks and uncertainties that could cause actual events or results to differ materially from those referred to in such forward-looking statements.

The following discussion should be read in conjunction with the information contained in the financial information and the notes thereto appearing elsewhere in this report.

Fiscal Three Months ending March 31, 2004 Compared to Fiscal Three Months ending March 31, 2003

Revenues

## Edgar Filing: ALEC BRADLEY CIGAR CORP/FL - Form 10QSB

Revenues for three months of 2004 were \$375,075, a decrease of approximately \$92,000, or 19.7% from \$467,106 for 2003. Management believes that the decrease was attributable to poor winter conditions across the country during the first quarter of 2004 as compared to 2003. As many states prohibit smoking indoors, such winter conditions deterred consumers from smoking cigars and therefore decreased sales. The Company's gross profit decreased for 2004 as compared to 2003 to \$165,157, a decrease of approximately \$48,300, or 22.6%, from \$213,459. Gross profit, as a percentage of sales were 44.0% and 45.7% respectively for the three month periods ending March 31, 2004 and 2003. The decrease in gross profit dollars was directly attributable to the decrease in sales (units and dollars).

### Selling Expenses

Selling expenses for 2004 were \$53,936, a decrease of approximately \$4,400, or 7.5%, from \$58,311 in 2003. Selling expenses include all compensation and related benefits for the sales personnel and advertising and promotional costs. Selling expenses represented 14.4% of revenues in 2004, compared to 12.5% in 2003. The decrease was primarily attributable to decreases in commission expense of approximately \$6,400 and advertising of approximately \$3,500 and offset by increase in freight of approximately \$4,000 and trade show expenses of \$1,500.

9

### General and administrative expenses

General and administrative expenses for 2004 were \$102,060, an increase of approximately \$16,100, or 18.7%, from \$85,974 in 2003. General and administrative expenses primarily include salaries, supplies, and general operating expenses. The increase in general and administrative expenses is primarily attributable to the increases in rent of \$5,000, payroll and related costs of \$3,500, office expenses of \$5,000 and insurance of 1,300. General and administrative expenses represented 27.2% of revenues in 2004, compared to 18.4% in 2003.

### Liquidity and Capital Resources

During 2004, cash utilized by operations was \$137,852 and primarily resulted from decreases in accounts payable of \$289,525, taxes payable of \$28,259. This was partially funded by decreases in accounts receivable of \$41,122, inventory of \$59,054 and prepaid expenses of \$69,005, income from operations plus the effect of non-cash items (depreciation expense). The Company's cash balance as of March 31, 2004 decreased by approximately \$37,900 from December 31, 2003 to \$70,509.

The Company's working capital was approximately \$237,700 at March 31, 2004, compared to approximately \$227,000 at December 31, 2003. The increase in working capital was primarily attributable to the Company profits for the three month period ended March 31, 2004 of \$9,161 plus the effect of net of non-cash items (depreciation expense) of \$1,590.

The Company has negotiated a new line of credit with its bank. Management believes that the cash generated from the Company's operations and the existing credit terms will be adequate to support its short-term cash requirements for capital expenditures and maintenance of working capital.

### ITEM 3. CONTROLS AND PROCEDURES

#### EVALUATION OF DISCLOSURE CONTROLS AND PROCEDURES
