## NOTES TO THE CONSOLIDATED CONDENSED INTERIM FINANCIAL STATEMENTS

(In the notes all amounts are shown in U.S. dollars, unless otherwise stated)

### 1 General information

Tenaris S.A. (the "Company") was established as a public limited liability company (Société Anonyme) under the laws of the Grand-Duchy of Luxembourg on December 17, 2001. The Company holds, either directly or indirectly, controlling interests in various subsidiaries in the steel pipe manufacturing and distribution businesses. References in these Consolidated Condensed Interim Financial Statements to "Tenaris" refer to Tenaris S.A. and its consolidated subsidiaries. A list of the principal Company's subsidiaries is included in Note 29 to the Company's audited Restated Consolidated Financial Statements for the year ended December 31, 2014.

The Company's shares trade on the Buenos Aires Stock Exchange, the Italian Stock Exchange and the Mexican Stock Exchange; the Company's American Depositary Securities ("ADS") trade on the New York Stock Exchange.

These Consolidated Condensed Interim Financial Statements were approved for issuance by the Company's board of directors on August 5, 2015.

#### Restatement of 2014 Financial Statements

On May 28, 2015, the Company restated its Consolidated Financial Statements for the year ended December 31, 2014 to reduce the carrying amount of the Company's investment in Usiminas. All information as of December 31, 2014 included in these Consolidated Condensed Interim Financial Statements is derived from the Company's audited Restated Consolidated Financial Statements for the year ended December 31, 2014.

### 2 Accounting policies and basis of presentation

These Consolidated Condensed Interim Financial Statements have been prepared in accordance with IAS 34, "Interim Financial Reporting". The accounting policies used in the preparation of these Consolidated Condensed Interim Financial Statements are consistent with those used in the audited Restated Consolidated Financial Statements for the year ended December 31, 2014. These Consolidated Condensed Interim Financial Statements should be read in conjunction with the audited Restated Consolidated Financial Statements for the year ended December 31, 2014, which have been prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standard Board ("IASB") and adopted by the European Union ("EU").

The preparation of Consolidated Condensed Interim Financial Statements in conformity with IFRS requires management to make certain accounting estimates and assumptions that might affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities as of the balance sheet dates, and the reported amounts of revenues and expenses for the reported periods. Actual results may differ from these estimates.

Material inter-company transactions, balances and unrealized gains (losses) on transactions between Tenaris' subsidiaries have been eliminated in consolidation. However, since the functional currency of some subsidiaries is its respective local currency, some financial gains (losses) arising from inter-company transactions are generated. These are included in the Consolidated Condensed Interim Income Statement under Other financial results.

There were no changes in valuation techniques during the period and there have been no changes in the risk management department or in any risk management policies since the year ended December 31, 2014.

Whenever necessary, certain comparative amounts have been reclassified to conform to change in presentation in current period.

None of the accounting pronouncements issued after December 31, 2014 and as of the date of these Financial Statements have a material effect on the Company's financial condition or result of operations.

## Contingencies, commitments and restrictions to the distribution of profits

## Contingencies

This note should be read in conjunction with Note 25 to the Company's audited Restated Consolidated Financial Statements for the year ended December 31, 2014.

Tenaris is from time to time subject to various claims, lawsuits and other legal proceedings, including customer claims, in which third parties are seeking payment for alleged damages, reimbursement for losses or indemnity. Some of these claims, lawsuits and other legal proceedings involve highly complex issues, and often these issues are subject to substantial uncertainties. Accordingly, potential liability with respect to a large portion of such claims, lawsuits and other legal proceedings cannot be estimated with certainty. Management with the assistance of legal counsel periodically reviews the status of each significant matter and assesses potential financial exposure. If a potential loss from a claim, lawsuit or proceeding is considered probable and the amount can be reasonably estimated, a provision is recorded. Accruals for loss contingencies reflect a reasonable estimate of the losses to be incurred based on information available to management as of the date of preparation of the financial statements, and take into consideration litigation and settlement strategies. The Company believes that the aggregate provisions recorded for potential losses in these financial statements are adequate based upon currently available information. However, if management's estimates prove incorrect, current reserves could be inadequate and Tenaris could incur a charge to earnings which could have a material adverse effect on Tenaris' results of operations, financial condition, net worth and cash flows.

Set forth below is a description of Tenaris' material ongoing legal proceedings:

§

Tax assessment in Italy

An Italian subsidiary of Tenaris received on December 24, 2012 a tax assessment from the Italian tax authorities related to allegedly omitted withholding tax on dividend payments made in 2007. The assessment, which was for an estimated amount of EUR282 million (approximately \$316 million), comprising principal, interest and penalties, was appealed with the tax court in Milan. In February 2014, the tax court issued its decision on this tax assessment, partially reversing the assessment for 2007 and lowering the claimed amount to approximately EUR9 million (approximately \$10 million), including principal, interest and penalties. On October 2, 2014, the Italian tax authorities appealed against the tax court decision on the first assessment. On June 12, 2015, the tax court accepted the defense arguments by the Tenaris subsidiary and rejected the appeal by the Italian tax authorities, thus reversing the entire 2007 assessment and recognizing that the dividend payment was exempt from withholding tax.

§ Tax assessment in Italy (Cont.)

On December 24, 2013, the Italian subsidiary received a second tax assessment from the Italian tax authorities related to allegedly omitted withholding tax on dividend payments made in 2008. This second assessment, based on the same arguments of the first assessment, is for an estimated amount, as of June 30, 2015, of EUR248 million (approximately \$277 million), comprising principal, interest and penalties. On February 20, 2014, the assessment for 2008 was appealed with the tax court in Milan. A first hearing on this appeal was held on June 22, 2015, and a new hearing will take place on October 12, 2015.

Based on the tax court decisions on the first assessment, Tenaris believes that it is not probable that the ultimate resolution of either the first or the second tax assessment will result in a material obligation.

§ CSN claims relating to the January 2012 acquisition of Usiminas shares

In 2013, Confab was notified of a lawsuit filed in Brazil by Companhia Siderúrgica Nacional (CSN) and various entities affiliated with CSN against Confab and the other entities that acquired a participation in Usiminas' control group in January 2012.

The CSN lawsuit alleges that, under applicable Brazilian laws and rules, the acquirers were required to launch a tag-along tender offer to all non-controlling holders of Usiminas ordinary shares for a price per share equal to 80% of the price per share paid in such acquisition, or BRL28.8, and seeks an order to compel the acquirers to launch an offer at that price plus interest. If so ordered, the offer would need to be made to 182,609,851 ordinary shares of Usiminas not belonging to Usiminas' control group, and Confab would have a 17.9% share in that offer.

On September 23, 2013, the first instance court issued its decision finding in favor of Confab and the other defendants and dismissing the CSN lawsuit. The claimants appealed the court decision and the defendants filed their response to the appeal. It is currently expected that the court of appeals will issue its judgment on the appeal within 2015.

The Company is aware that on November 10, 2014, CSN filed a separate complaint with Brazil's securities regulator Comissão de Valores Mobiliários (CVM) on the same grounds and with the same purpose as the lawsuit referred to above. The CVM proceeding is underway and the Company has not yet been served with process or requested to provide its response.

Finally, on December 11, 2014, CSN filed a claim with Brazil's antitrust regulator Conselho Administrativo de Defesa Econômica (CADE). In its claim, CSN alleged that the antitrust clearance request related to the January 2012 acquisition, which was approved by CADE without restrictions in August 2012, contained a false and deceitful description of the acquisition aimed at frustrating the minority shareholders' right to a tag-along tender offer, and requested that CADE investigate and reopen the antitrust review of the acquisition and suspend the Company's voting rights in Usiminas until the review is completed. On May 6, 2015, CADE rejected CSN's claim. CSN did not appeal the decision and on May 19, 2015, CADE finally closed the file.

Tenaris believes that all of CSN's claims and allegations are groundless and without merit, as confirmed by several opinions of Brazilian legal counsel and previous decisions by CVM, including a February 2012 decision determining that the above mentioned acquisition did not trigger any tender offer requirement, and, more recently, the first instance court decision on this matter first referred to above. Accordingly, no provision was recorded in these Consolidated Condensed Interim Financial Statements.

## 11 Contingencies, commitments and restrictions to the distribution of profits (Cont.)

## Commitments

Set forth is a description of Tenaris' main outstanding commitments:

§ A Tenaris company is a party to a contract with Nucor Corporation under which it is committed to purchase on a monthly basis a minimum volume of hot-rolled steel coils at prices that are negotiated annually by reference to prices to comparable Nucor customers. The contract became effective in May 2013 and will be in force until December 2017; provided, however, that either party may terminate the contract at any time after January 1, 2015 with 12-month prior notice. Due to the current weak pipe demand associated with the reduction in drilling activity, the Company reached a temporary agreement with Nucor to purchase steel volumes in accordance with its needs. As of June 30, 2015, the estimated aggregate contract amount through June 30, 2016, calculated at current prices, is approximately \$249 million.

§ A Tenaris company, entered into various contracts with suppliers pursuant to which it committed to purchase goods and services for a total amount of approximately \$444.7 million related to the investment plan to expand Tenaris' U.S. operations with the construction of a state-of-the-art seamless pipe mill in Bay City, Texas. As of June 30, 2015 approximately \$570 million had already been invested.

## Restrictions to the distribution of profits and payment of dividends

As of December 31, 2014, equity as defined under Luxembourg law and regulations consisted of:

(all amounts in thousands of U.S. dollars)

|   |            |
|---|------------|
| Share capital   | 1,180,537  |
| Legal reserve   | 118,054    |
| Share premium   | 609,733    |
| Retained earnings including net income for the year ended December 31, 2014 | 21,072,180 |
| Total equity in accordance with Luxembourg law                              | 22,980,504 |

At least 5% of the Company's net income per year, as calculated in accordance with Luxembourg law and regulations, must be allocated to the creation of a legal reserve equivalent to 10% of the Company's share capital. As of June 30, 2015, this reserve was fully allocated and additional allocations to the reserve are not required under Luxembourg law. Dividends may not be paid out of the legal reserve.

The Company may pay dividends to the extent, among other conditions, that it has distributable retained earnings calculated in accordance with Luxembourg law and regulations.

At December 31, 2014, distributable amount under Luxembourg law totals \$21.7 billion, as detailed below:

(all amounts in thousands of U.S. dollars)

## Investments in non-consolidated companies

## a) Ternium

Ternium S.A. (“Ternium”), is a steel producer in Latin America with production facilities in Mexico, Argentina, Colombia, United States and Guatemala and is one of Tenaris’ suppliers of round steel bars and flat steel products for its pipes business.

At June 30, 2015, the closing price of Ternium’s ADSs as quoted on the New York Stock Exchange was \$17.3 per ADS, giving Tenaris’ ownership stake a market value of approximately \$397.6 million (Level 1). At June 30, 2015, the carrying value of Tenaris’ ownership stake in Ternium, based on Ternium’s IFRS financial statements, was approximately \$499.8 million.

## b) Usiminas

Usiminas is a Brazilian producer of high quality flat steel products used in the energy, automotive and other industries and it is Tenaris’ principal supplier of flat steel in Brazil for its pipes and industrial equipment businesses.

The last public available information for Usiminas is as of March 31, 2015, which was approved on April 22, 2015. Usiminas’ interim accounts for the three-months period ended March 31, 2015, stated that revenues, post-tax loss from continuing operations and shareholders’ equity amounted to \$934 million, \$86 million and \$5,126 million, respectively.

At June 30, 2015, the closing price of the Usiminas’ ordinary shares as quoted on the BM&FBovespa Stock Exchange was BRL13.3 (approximately \$4.3) per share, giving Tenaris’ ownership stake a market value of approximately \$106.8 million (Level 1). At June 30, 2015, the carrying value of Tenaris’ ownership stake in Usiminas, was approximately \$94.1 million.

## c) Techgen, S.A. de C.V. (“Techgen”)

Techgen is a Mexican project company currently undertaking the construction and operation of a natural gas-fired combined cycle electric power plant in the Pesquería area of the State of Nuevo León, Mexico. As of February 2014, Tenaris, Ternium and Tecpetrol International S.A. (a wholly-owned subsidiary of San Faustin S.A., the controlling shareholder of both Tenaris and Ternium) completed their initial investments in Techgen. Techgen is currently owned 48% by Ternium, 30% by Tecpetrol and 22% by Tenaris. Tenaris and Ternium also agreed to enter into power supply and transportation agreements with Techgen, pursuant to which Ternium and Tenaris will contract 78% and 22%, respectively, of Techgen’s power capacity of between 850 and 900 megawatts.

§ Techgen is a party to transportation capacity agreements with Kinder Morgan Gas Natural de Mexico, S. de R.L. de C.V., Kinder Morgan Texas Pipeline LLC and Kinder Morgan Tejas Pipeline LLC for a purchasing capacity of 150,000 MMBtu/Gas per day starting on June 1, 2016 and ending on May 31, 2036. As of June 30, 2015, the outstanding value of this commitment was approximately \$285 million. Tenaris’ exposure under the guarantee in connection with these agreements amounts to \$62.6 million, corresponding to the 22% of the agreements’ outstanding value as of June 30, 2015.

§ Techgen is a party to a contract with GE Power Systems, Inc. and General Electric International Operations Company, Inc. Mexico Branch for the purchase of power generation equipment and other services related to the equipment for an outstanding amount of approximately \$238 million. These agreements required Techgen to issue stand-by letters of credit up to an amount of \$47.5 million. Tenaris’ exposure under the guarantee in connection with these stand-by letters of credit issued by Techgen is of \$4.7 million.

§ Tenaris issued a Corporate Guarantee covering 22% of the obligations of Techgen under a syndicated loan agreement between Techgen and several banks led by Citigroup Global Markets Inc., Credit Agricole Corporate and Investment Bank, and Natixis, New York Branch acting as joint bookrunners. The loan agreement amounted to \$800 million and the proceeds will be used by Techgen in the construction of the facility. As of June 30, 2015, disbursements under the loan agreement amounted \$640 million, as a result the amount guaranteed by Tenaris was approximately \$140.8 million. If the loan is disbursed in full, the amount guaranteed by Tenaris will be approximately \$176 million. The main covenants under the Corporate Guarantee are limitations on the sale of certain assets and compliance with financial ratios (e.g. leverage ratio).

## 14 Fair Value

## § Measurement

IFRS 13 requires for financial instruments that are measured at fair value, a disclosure of fair value measurements by level.

The following table presents the assets and liabilities that are measured at fair value as of June 30, 2015 and December 31, 2014:

(\*) Main balances included in this level correspond to Available for sale assets related to Tenaris' interest in the nationalized Venezuelan companies. For further detail regarding Available for sale assets, see Note 30 to the Company's audited Restated Consolidated Financial Statements for the year ended December 31, 2014.

Level 1 - Quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices).

Level 3 - Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs).

There were no transfers between Level 1 and 2 during the period.

The fair value of financial instruments traded in active markets is based on quoted market prices at the reporting date. A market is regarded as active if quoted prices are readily and regularly available from an exchange, dealer, broker, industry group, pricing service, or regulatory agency, and those prices represent actual and regularly occurring market transactions on an arm's length basis. The quoted market price used for financial assets held by Tenaris is the current

bid price. These instruments are included in Level 1 and comprise primarily corporate and sovereign debt securities.

The fair value of financial instruments that are not traded in an active market (such as certain debt securities, certificates of deposits with original maturity of more than three months, forward and interest rate derivative instruments) is determined by using valuation techniques which maximize the use of observable market data where available and rely as little as possible on entity specific estimates. If all significant inputs required to value an instrument are observable, the instrument is included in Level 2. Tenaris values its assets and liabilities included in this level using bid prices, interest rate curves, broker quotations, current exchange rates, forward rates and implied volatilities obtained from market contributors as of the valuation date.

If one or more of the significant inputs are not based on observable market data, the instruments are included in Level 3. Tenaris values its assets and liabilities in this level using observable market inputs and management assumptions which reflect the Company's best estimate on how market participants would price the asset or liability at measurement date.

§

Estimation

Financial assets or liabilities classified as assets at fair value through profit or loss are measured under the framework established by the IASB accounting guidance for fair value measurements and disclosures.

The fair values of quoted investments are generally based on current bid prices. If the market for a financial asset is not active or no market is available, fair values are established using standard valuation techniques.

For the purpose of estimating the fair value of Cash and cash equivalents and Other Investments expiring in less than ninety days from the measurement date, the Company usually chooses to use the historical cost because the carrying amount of financial assets and liabilities with maturities of less than ninety days approximates to their fair value.

The fair value of all outstanding derivatives is determined using specific pricing models that include inputs that are observable in the market or can be derived from or corroborated by observable data. The fair value of forward foreign exchange contracts is calculated as the net present value of the estimated future cash flows in each currency, based on observable yield curves, converted into U.S. dollars at the spot rate of the valuation date.

Borrowings are comprised primarily of fixed rate debt and variable rate debt with a short term portion where interest has already been fixed, they are classified under other financial liabilities and measured at their carrying amount. Tenaris estimates that the fair value of its main financial liabilities is approximately 100.1% and 100.4% of its carrying amount including interests accrued as of June 30, 2015 and 2014, respectively. Tenaris estimates that a change of 100 basis points in the reference interest rates would have an estimated impact of approximately 0.4% and 0.3% in the fair value of borrowings as of June 30, 2015 and 2014, respectively. Fair values were calculated using standard valuation techniques for floating rate instruments and comparable market rates for discounting flows.
