FRIENDLY ICE CREAM CORPORATION AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

1. BASIS OF PRESENTATION AND SIGNIFICANT ACCOUNTING POLICIES

Interim Financial Information -

The accompanying condensed consolidated financial statements as of June 27, 2004 and for the three and six months ended June 27, 2004 and June 29, 2003 are unaudited, but, in the opinion of management, include all adjustments which are necessary for a fair presentation of the consolidated financial position, results of operations, cash flows and comprehensive loss of Friendly Ice Cream Corporation (FICC) and subsidiaries (unless the context indicates otherwise, collectively, the Company). Such adjustments consist solely of normal recurring accruals. Operating results for the three and six month periods ended June 27, 2004 and June 29, 2003 are not necessarily indicative of the results that may be expected for the entire year due, in part, to the seasonality of the Company s business. Historically, higher revenues and operating income have been experienced during the second and third fiscal quarters. The Company s consolidated financial statements, including the notes thereto, which are contained in the 2003 Annual Report on Form 10-K should be read in conjunction with these condensed consolidated financial statements. Capitalized terms not otherwise defined herein should be referenced to the 2003 Annual Report on Form 10-K.

Use of Estimates in the Preparation of Financial Statements -

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the dates of the financial statements and the reported amounts of revenues and expenses during the reporting periods. The critical accounting policies and most significant estimates and assumptions relate to revenue recognition, insurance reserves, recoverability of accounts receivable, valuation allowances and pension and other post-retirement benefits expense. Actual amounts could differ significantly from the estimates.

Revenue Recognition -

The Company s revenues are derived primarily from the operation of full-service restaurants, the distribution and sale of premium ice cream desserts through retail and institutional locations and franchising. The Company recognizes restaurant revenue upon receipt of payment from the customer and retail revenue, net of discounts and allowances, upon delivery of product. Reserves for discounts and allowances from retail sales are estimated and accrued when revenue is recorded. Actual amounts could differ materially from the estimates. Franchise royalty income, generally calculated as 4% of net sales of franchisees, is recorded monthly based upon the actual sales reported by each franchisee for the month

Edgar Filing: FRIENDLY ICE CREAM CORP - Form 10-Q

just completed. Franchise fees are recorded as revenue upon completion of all significant services, generally upon opening of the restaurant.

Shipping and Handling Costs -

Costs related to shipping and handling are included in cost of sales in the accompanying condensed consolidated statements of operations for all periods presented.

Insurance Reserves -

The Company is self-insured through retentions or deductibles for the majority of its workers' compensation, automobile, general liability, employer's liability, product liability and group health insurance programs. Self-insurance amounts vary up to \$500,000 per occurrence. Insurance with third parties, some of which is then reinsured through Restaurant Insurance Corporation (RIC), the Company's wholly owned subsidiary, is in place for claims in excess of these self-insured amounts. RIC reinsures 100% of the risk from \$500,000 to \$1,000,000 per occurrence through September 2, 2000 for FICC's workers' compensation, general liability, employer's liability and product liability insurance. Subsequent to September 2, 2000, the Company discontinued its use of RIC as a captive insurer for new claims. FICC's and RIC's liabilities for estimated incurred losses are actuarially determined and recorded in the accompanying condensed consolidated financial statements on an undiscounted basis. Actual incurred losses may vary from the estimated incurred losses and could have a material effect on the Company's insurance expense.

Accounts Receivable and Allowance for Doubtful Accounts -

At June 27, 2004 and December 28, 2003, accounts receivable of \$14,400,000 and \$10,384,000 were net of allowances for doubtful accounts totaling \$723,000 and \$696,000, respectively. Accounts receivable consists primarily of amounts due from the sale of products to franchisees and supermarkets. Accounts receivable also includes amounts related to franchise royalties, rents and other miscellaneous items.

The Company recognizes allowances for doubtful accounts to ensure receivables are not overstated due to uncollectibility. Bad debt reserves are maintained for customers in the aggregate based on a variety of factors, including the length of time receivables are past due, significant one-time events and historical experience. An additional reserve for individual accounts is recorded when the Company becomes aware of a customer's inability to meet its financial obligations, such as in the case of bankruptcy filings or deterioration in the customer's operating results or financial position. If circumstances related to customers change, estimates of the recoverability of receivables would be further adjusted.

Pension and Other Post-Retirement Benefits -

The determination of the Company's obligation and expense for pension and other post-retirement benefits is dependent upon the selection of certain assumptions used by actuaries in calculating such amounts. Those assumptions include, among other things, the discount rate, expected long-term rate of return on plan assets and rates of increase in health care costs. In accordance with accounting principles generally accepted in the United States, actual results that differ from the assumptions are accumulated and amortized over future periods and, therefore, generally affect the recognized expense and recorded obligation in such future periods. Significant differences in actual experience or significant changes in the assumptions may materially affect the future pension and other post-retirement obligations and expense.

Cash and Cash Equivalents -

The Company considers all investments with an original maturity of three months or less when purchased to be cash equivalents.

Restricted Cash -

RIC is required to hold assets in trust whose value is at least equal to certain of RIC's outstanding estimated insurance claim liabilities. Accordingly, as of June 27, 2004 and December 28, 2003, cash of \$2,162,000 and \$1,671,000, respectively, was restricted.

Inventories -

Inventories are stated at the lower of first-in, first-out cost or market and consisted of the following at June 27, 2004 and December 28, 2003 (in thousands):

| | June 27, 2004 | December 28, 2003 |
|------------------|------------------|----------------------|
| Raw materials | \$ 2,451 | \$ 1,557 |
| Goods in process | 185 | 114 |
| Finished goods | 15,071 | 13,998 |
| Total | \$ 17,707 | \$ 15,669 |

Long-Lived Assets -

In accordance with Statement of Financial Accounting Standard (SFAS) No. 144, Accounting for the Impairment or Disposal of Long-Lived Assets, which was adopted in 2002, the Company reviews its Non-Friendly Marks, which were assigned to the Company by Hershey in September 2002, for impairment on a quarterly basis. The Company recognizes impairment has occurred when the carrying value of the Non-Friendly Marks exceeds the estimated future discounted cash flows of the trademarked products. Additionally, the Company reviews long-lived assets related to each restaurant to be held and used in the business quarterly for impairment, or whenever events or changes in circumstances indicate that the carrying amount of a restaurant may not be recoverable. The Company evaluates restaurants using a two-year history of cash flow as the primary indicator of potential impairment. Based on the best information available, the Company writes down an impaired restaurant to its estimated fair market value, which becomes its new cost basis. Estimated fair market value is based on the Company's experience selling similar properties and local market conditions, less costs to sell for properties to be disposed of. In addition, restaurants scheduled for closing are reviewed for impairment and depreciable lives are adjusted. The impairment evaluation is based on the estimated cash flows from continuing use through the expected disposal date and the expected terminal value.

Store closure costs include costs of disposing of the assets as well as other facility-related expenses from previously closed stores. These store closure costs are expensed as incurred. Additionally, at the date the closure occurs, the Company records a liability for the amount of any remaining operating lease obligations subsequent to the expected closure date, net of estimated sublease income, if any.

Edgar Filing: FRIENDLY ICE CREAM CORP - Form 10-Q

SFAS No. 144 also requires the results of operations of a component entity that is classified as held for sale or that has been disposed of to be reported as discontinued operations in the statement of operations if certain conditions are met. These conditions include commitment to a plan of disposal after the effective date of this statement, elimination of the operations and cash flows of the component entity from the ongoing operations of the company and no significant continuing involvement in the operations of the component entity after the disposal transaction. The results of operations of stores meeting all of these conditions that were disposed of in 2004 or classified as held for sale at June 27, 2004 were not material for the quarters or six months ended June 27, 2004 and June 29, 2003.

Considerable management judgment is necessary to estimate future cash flows, including cash flows from continuing use, terminal value, closure costs and sublease income. Accordingly, actual results could vary significantly from estimates.

During the six months ended June 27, 2004, it was determined that the carrying value of a vacant restaurant land parcel and the carrying value of one restaurant property exceeded their estimated fair values less cost to sell. The carrying values were reduced by an aggregate of \$91,000.

Other Assets -

Other assets included notes receivable of \$4,583,000 and \$4,638,000, which were net of allowances for doubtful accounts totaling \$263,000 and \$313,000, as of June 27, 2004 and December 28, 2003, respectively. Also included in other assets as of June 27, 2004 and December 28, 2003 were payments made to fronting insurance carriers of \$1,213,000 and \$1,211,000, respectively, to establish loss escrow funds.

Other Accrued Expenses-

Other accrued expenses consisted of the following at June 27, 2004 and December 28, 2003 (in thousands):

| | June 27, 2004 | December 28, 2003 |
|-------------------------------|--------------------------|------------------------------|
| Accrued meals and other taxes | \$ 3,200 | \$ 2,947 |
| Accrued advertising | 3,097 | 1,554 |
| Accrued rent | 2,434 | 2,416 |
| Gift cards outstanding | 2,096 | 3,975 |
| Accrued bonus | 1,753 | 2,853 |
| Accrued construction costs | 1,050 | 2,331 |
| Unearned revenues | 898 | 894 |
| All other | 1,836 | 2,085 |
| Total | \$ 16,364 | \$ 19,055 |

Income Taxes -

The Company accounts for income taxes in accordance with SFAS No. 109, *Accounting for Income Taxes*, which requires recognition of deferred tax assets and liabilities for the expected future tax consequences of events that have been included in the financial statements or tax returns. A valuation allowance is recorded for deferred tax assets whose realization is not likely. The Company records income taxes based on the effective rate expected for the year with any changes in the valuation allowance reflected in the period of change. As of June 27, 2004 and December 28, 2003, a valuation allowance of \$10,130,000 existed related to state NOL carryforwards due to restrictions on the usage of state NOL carryforwards and short carryforward periods for certain states. Taxable income by state for future periods is difficult to estimate. The amount and timing of any future taxable income may affect the usage of such carryforwards, which could result in a material change in the valuation allowance.

Derivative Instruments and Hedging Agreements -

The Company enters into commodity option contracts from time to time to manage dairy cost pressures. The Company's commodity option contracts do not meet hedge accounting criteria as defined by SFAS No. 133, *Accounting for Derivative Instruments and Hedging Activities*, and, accordingly, are marked to market each period, with the resulting gains or losses recognized in cost of sales. For the three months ended June 27, 2004 and June 29, 2003, losses of approximately \$251,000 and \$27,000, respectively, were included in cost of sales related to these option contracts. For the six months ended June 27, 2004 and June 29, 2003, gains of approximately \$520,000 and losses of approximately \$280,000, respectively, were included in cost of sales related to these option contracts.

Marketable Securities -

The Company accounts for marketable securities in accordance with SFAS No. 115, *Accounting for Certain Investments in Debt and Equity Securities*. At June 27, 2004, the Company's investments in marketable securities were classified as available-for-sale, and as a result, were reported at fair value. Unrealized gains and losses are reported as a component of accumulated other comprehensive loss in stockholders' deficit. The Company follows its investment managers' methods of determining the cost basis in computing realized gains and losses on the sale of its available-for-sale securities, which is the average cost method. Realized gains and losses are included in other expenses, principally debt retirement costs in the accompanying condensed consolidated statements of operations.

Lease Guarantees and Contingencies -

Primarily as a result of the Company's franchising efforts, the Company remains liable for certain lease assignments and guarantees. These leases have varying terms, the latest of which expires in 2020. As of June 27, 2004, the potential amount of undiscounted payments the Company could be required to make in the event of non-payment by the primary lessee was \$9,700,000. The present value of these potential payments discounted at the Company's pre-tax cost of debt at June 27, 2004 was \$7,450,000. The Company generally has cross-default provisions with franchisees that would put them in default of their franchise agreement in the event of non-payment under the lease. The Company believes these cross-default provisions significantly reduce the risk that the Company will be required to make payments under these leases and, historically, the Company has not been required to make such payments. Additionally, as of June 27, 2004, the Company has no reason to believe that the franchisees will be unable to fulfill their obligations. Accordingly, no liability has been recorded for exposure under such leases at June 27, 2004 and December 28, 2003.

(Loss) Earnings Per Share -

Basic (loss) earnings per share is calculated by dividing net (loss) income by the weighted average number of common shares outstanding during the period. Diluted (loss) earnings per share is calculated by dividing net (loss) income by the weighted average number of shares of common stock and common stock equivalents outstanding during the period. Common stock equivalents are dilutive stock options and warrants that are assumed exercised for calculation purposes. The number of common stock options which could dilute basic earnings per share in the future, that were not included in the computation of diluted earnings per share because to do so would have been antidilutive, was 284,289 and 191,110 for the three months ended June 27, 2004 and June 29, 2003, respectively. The number of common stock options which could dilute basic earnings per share in the future, that were not included in the computation of diluted earnings per share because to do so would have been antidilutive, was 289,195 and 191,110 for the six months ended June 27, 2004 and June 29, 2003, respectively.

Edgar Filing: FRIENDLY ICE CREAM CORP - Form 10-Q

Presented below is the reconciliation between basic and diluted weighted average shares for the three and six months ended June 27, 2004 and June 29, 2003 (in thousands):

| | For the Three Months Ended | | | |
|--|----------------------------|------------------|------------------|------------------|
| | Basic | Basic | Diluted | Diluted |
| | June 27, 2004 | June 29, 2003 | June 27, 2004 | June 29, 2003 |
| Weighted average number of common shares outstanding during the period | 7,611 | 7,441 | 7,611 | 7,441 |
| Adjustments: | | | | |
| Assumed exercise of stock options | | | | 133 |
| Weighted average number of shares outstanding | 7,611 | 7,441 | 7,611 | 7,574 |

| | For the Six Months Ended | | | |
|--|--------------------------|------------------|------------------|------------------|
| | Basic | Basic | Diluted | Diluted |
| | June 27, 2004 | June 29, 2003 | June 27, 2004 | June 29, 2003 |
| Weighted average number of common shares outstanding during the period | 7,569 | 7,428 | 7,569 | 7,428 |
| Adjustments: | | | | |
| Assumed exercise of stock options | | | | 136 |
| Weighted average number of shares outstanding | 7,569 | 7,428 | 7,569 | 7,564 |

Stock-Based Compensation -

The Company accounts for stock-based compensation for employees under Accounting Principles Board (APB) Opinion No. 25, Accounting for Stock Issued to Employees, and elected the disclosure-only alternative under SFAS No. 123, Accounting for Stock-Based Compensation. Stock-based compensation cost of approximately \$222,000 related to modified option awards was included in net loss for the six months ended June 27, 2004 for the Company's Stock Option Plan and the Company's 2003 Incentive Plan. No stock-based compensation cost was included in net income for the six months ended June 29, 2003 for the Company's Stock Option Plan or the Company's 2003 Incentive Plan, as all options granted during this period had an exercise price equal to the market value of the stock on the date of grant.

In December 2002, the Financial Accounting Standards Board (FASB) issued SFAS No. 148, Accounting for Stock-Based Compensation Transition and Disclosure, which amends SFAS No. 123. SFAS No. 148 allows for three methods of transition for those companies that adopt SFAS No. 123's provisions for fair value recognition. SFAS No. 148's transition guidance and provisions for annual disclosures are effective for fiscal years ending after December 15, 2002. In accordance with SFAS No. 148, the Company will continue to disclose the required pro-forma information in the notes to the consolidated financial statements.

Edgar Filing: FRIENDLY ICE CREAM CORP - Form 10-Q

In accordance with SFAS No. 148, the following table presents the effect on net (loss) income and net (loss) income per share had compensation cost for the Company's stock plans been determined consistent with SFAS No. 123 (in thousands, except per share data):

| | For the Three Months Ended | | For the Six Months Ended | |
|---|----------------------------|------------------|--------------------------|------------------|
| | June 27, 2004 | June 29, 2003 | June 27, 2004 | June 29, 2003 |
| Net (loss) income as reported | \$ (1,302) | \$ 3,090 | \$ (6,431) | \$ 1,601 |
| Add stock-based compensation expense included in reported net loss, net of related income tax benefit | | | 131 | |
| Less stock-based compensation expense determined under fair value method for all stock options, net of related income tax benefit | (106) | (75) | (211) | (176) |
| Pro forma net (loss) income | \$ (1,408) | \$ 3,015 | \$ (6,511) | \$ 1,425 |
| Basic net (loss) income per share, as reported | \$ (0.17) | \$ 0.42 | \$ (0.85) | \$ 0.22 |
| Basic net (loss) income per share, pro forma | \$ (0.18) | \$ 0.41 | \$ (0.86) | \$ 0.19 |
| Diluted net (loss) income per share, as reported | \$ (0.17) | \$ 0.41 | \$ (0.85) | \$ 0.21 |
| Diluted net (loss) income per share, pro forma | \$ (0.18) | \$ 0.40 | \$ (0.86) | \$ 0.19 |

Reclassifications -

Certain prior year amounts have been reclassified to conform with current year presentation, including \$782,000 and \$1,557,000 from operating expenses to general and administrative expenses for the three and six months ended June 29, 2003, respectively.

Recently Issued Accounting Pronouncements -

In January 2003, the FASB issued Interpretation No. 46, Consolidation of Variable Interest Entities, an Interpretation of Accounting Research Bulletin (ARB) No. 51 (FIN 46). FIN 46 requires certain variable interest entities to be consolidated by the primary beneficiary of the entity if the equity investors in the entity do not have the characteristics of a controlling financial interest or do not have sufficient equity at risk for the entity to finance its activities without additional subordinated financial support from other parties. FIN 46 is effective for all entities subject to this interpretation no later than the end of the first period that ends after March 15, 2004. The adoption of FIN 46 in 2003 had no material impact on the Company's results of operations or financial position.

2. DEBT

Debt at June 27, 2004 and December 28, 2003 consisted of the following (in thousands):

| | June 27, 2004 | December 28, 2003 |
|--|------------------|----------------------|
| New Senior Notes, 8 3/8%, due June 15, 2012 | \$ 175,000 | \$ |
| Senior Notes, 10 1/2%, originally due December 1, 2007 | | 175,977 |
| Revolving credit loans, due June 30, 2007 | | |
| Mortgage loans, due July 1, 2004 through January 1, 2022 | 52,537 | 53,087 |
| Total debt | 227,537 | 229,064 |
| Less: current portion | (1,196) | (1,127) |
| Total long-term debt | \$ 226,341 | \$ 227,937 |

In November 1997, FICC entered into a credit facility that included revolving credit loans, term loans and letters of credit (the Old Credit Facility). Also in November 1997, FICC completed a public offering of \$200,000,000 of senior notes (the Senior Notes).

In December 2001, the Company completed a financial restructuring plan (the Refinancing Plan) which included the repayment of the \$64,545,000 outstanding under the Old Credit Facility and the purchase of \$21,273,000 in Senior Notes with the proceeds from \$55,000,000 in long-term mortgage financing (the Mortgage Financing) and a \$33,700,000 sale and leaseback transaction (the Sale/Leaseback Financing). In addition, FICC secured a new \$30,000,000 revolving credit facility (the New Credit Facility) of which up to \$20,000,000 is available to support letters of credit. On July 3, 2003, FICC obtained a limited waiver to the New Credit Facility allowing the purchase of certain of the Senior Notes in an amount up to \$3,000,000, subject to certain conditions. In July 2003, FICC purchased \$2,750,000 in aggregate principal amount of the Senior Notes for \$2,826,000, the then current market value.

In February 2004, the Company announced a cash tender offer and consent solicitation for the \$175,977,000 of Senior Notes to be financed with the proceeds from a private offering of new senior notes (the "New Senior Notes"), available cash and an amended New Credit Facility (the "2004 Refinancing"). In March 2004, \$127,357,000 of aggregate principal amount of Senior Notes were purchased at the tender offer and consent solicitation price of 104% of the principal amount and \$476,000 of aggregate principal amount of Senior Notes were purchased at the tender offer price of 102% of the principal amount. In April 2004, the remaining \$48,144,000 of Senior Notes were redeemed in accordance with the Senior Notes indenture at 103.5% of the principal amount. The Senior Notes would have matured on December 1, 2007. Interest on the Senior Notes was payable at 10.5% per annum semi-annually on June 1 and December 1 of each year. In connection with the tender offer, the Company wrote off unamortized deferred financing costs of \$2,445,000 and paid a premium of \$6,790,000 that was included in the accompanying condensed consolidated statement of operations for the six months ended June 27, 2004.

The \$175,000,000 of New Senior Notes issued in March 2004 are unsecured senior obligations of FICC, guaranteed on an unsecured senior basis by FICC's Friendly's Restaurants Franchise, Inc. subsidiary, but are effectively subordinated to all secured indebtedness of FICC, including the indebtedness incurred under the New Credit Facility. The New Senior Notes mature on June 15, 2012. Interest on the New Senior Notes is payable at 8.375% per annum semi-annually on June 15 and December 15 of each year commencing June 15, 2004. The New Senior Notes are redeemable, in whole or in part, at any time on or after June 15, 2008 at FICC's option at redemption prices from 104.188% to 100.00%, based on the redemption date. In addition, at any time prior to June 15, 2007, FICC may redeem, subject to certain conditions, up to 35% of the aggregate principal amount of the New Senior Notes with the proceeds of one or more qualified equity offerings, as defined, at a redemption price of 108.375% of the principal amount, plus accrued interest.

In connection with the 2004 Refinancing, the New Credit Facility was amended in March 2004. The total commitment amount was increased from \$30,000,000 to \$35,000,000 and the maturity date was extended from December 17, 2005 to June 30, 2007, in addition to other changes.

Edgar Filing: FRIENDLY ICE CREAM CORP - Form 10-Q

The New Credit Facility is secured by substantially all of the assets of FICC and two of its six subsidiaries, Friendly's Restaurants Franchise, Inc. and Friendly's International Inc. These two subsidiaries also guarantee FICC's obligations under the New Credit Facility.

The New Credit Facility includes certain restrictive covenants including limitations on indebtedness, restricted payments such as dividends and stock repurchases and sales of assets and of subsidiary stock. Additionally, the New Credit Facility limits the amount which the Company may spend on capital expenditures, restricts the use of proceeds, as defined, from asset sales and requires the Company to comply with certain financial covenants. On July 23, 2004, the Company successfully obtained a limited waiver regarding a quarterly EBITDA covenant of its New Credit Facility.

The New Credit Facility has an annual clean-up provision, commencing in 2005, which obligates the Company to repay in full all revolving credit loans on or before September 30 (or, if September 30 is not a business day, as defined, then the next business day) of each year and maintain a zero balance on such revolving credit for at least 30 consecutive days, to include September 30, immediately following the date of such repayment.

The \$35,000,000 revolving credit commitment less outstanding letters of credit is available for borrowing to provide working capital and for other corporate needs. As of June 27, 2004 and December 28, 2003, total letters of credit outstanding were \$14,474,000 and \$13,550,000, respectively. During the six months ended June 27, 2004 and June 29, 2003, there were no drawings against the letters of credit.

The revolving credit loans bear interest at the Company's option at either (a) the Base Rate plus the applicable margin in effect from time to time (the Base Rate) (6.50% at June 27, 2004) or (b) the Eurodollar rate plus the applicable margin in effect from time to time (the Eurodollar Rate) (5.76% at June 27, 2004). As of June 27, 2004 and December 28, 2003, there were no revolving credit loans outstanding and \$20,526,000 and \$16,450,000, respectively, was available for borrowing.

In connection with the Mortgage Financing in December 2001, three new limited liability companies (LLCs) were organized. Friendly Ice Cream Corporation is the sole member of each LLC. FICC sold 75 of its operating Friendly's restaurants to the LLCs in exchange for the proceeds from the Mortgage Financing. Promissory notes were issued for each of the 75 properties. Each LLC is a separate entity with separate creditors who will be entitled to be satisfied out of such LLC's assets. Each LLC is a borrower under the Mortgage Financing.

The Mortgage Financing has a maturity date of January 1, 2022 and is amortized over 20 years. Interest on \$10,000,000 of the original \$55,000,000 from the Mortgage Financing is variable and is the sum of the 30-day LIBOR rate in effect (1.33% at June 27, 2004) plus 6% on an annual basis. Changes in the interest rate are calculated monthly and recognized annually when the monthly payment amount is adjusted. Changes in the monthly payment amounts owed due to interest rate changes are reflected in the principal balances, which are re-amortized over the remaining life of the mortgages. The remaining \$45,000,000 of the original \$55,000,000 from the Mortgage Financing bears interest at a fixed annual rate of 10.16%. Each promissory note may be prepaid in full. The variable rate notes are subject to prepayment penalties during the first five years. The fixed rate notes may not

be prepaid without the Company providing the note holders with a yield maintenance premium.

The Mortgage Financing requires the Company to maintain a fixed charge coverage ratio, as defined, of at least 1.10 to 1 and each LLC to maintain a fixed charge coverage ratio, as defined, on an aggregate restaurant basis of at least 1.25 to 1, in each case calculated as of the last day of each fiscal year. The Company is in compliance with these covenants.

3. INTANGIBLE ASSETS AND DEFERRED COSTS

Intangible assets and deferred costs as of June 27, 2004 and December 28, 2003 were (in thousands):

| | June 27, 2004 | December 28, 2003 |
|--|------------------|----------------------|
| 1988 Non-Friendly Marks amortized over 40 years on a straight-line basis | \$ 18,650 | \$ 18,650 |
| Deferred financing costs amortized over the terms of the related loans on an effective yield basis | 10,121 | 10,486 |
| Other | 876 | 876 |
| Intangible assets and deferred costs | 29,647 | 30,012 |
| Less: accumulated amortization | (8,475) | (12,122) |
| Net | \$ 21,172 | \$ 17,890 |

In connection with the 2004 Refinancing, the Company wrote off unamortized deferred financing costs related to the tender offer for the Senior Notes in March 2004 and the redemption of the remaining Senior Notes in April 2004 of \$1,788,000 and \$657,000, respectively. The \$2,445,000 was included in other expenses, principally debt retirement costs in the accompanying condensed consolidated statement of operations for the six months ended June 27, 2004. Additionally, the Company incurred \$6,550,000 of costs associated with the issuance of the New Senior Notes and the amendment to the New Credit Facility, which were included in intangible assets and deferred costs in the accompanying condensed consolidated balance sheet as of June 27, 2004. These costs will be amortized over the terms of the New Senior Notes and the amended New Credit Facility.

Amortization expense was \$452,000 and \$428,000 for the three months ended June 27, 2004 and June 29, 2003, respectively. Amortization expense was \$898,000 and \$856,000 for the six months ended June 27, 2004 and June 29, 2003, respectively.

Edgar Filing: FRIENDLY ICE CREAM CORP - Form 10-Q

Future amortization expense related to these intangible assets and deferred costs as of June 27, 2004 was (in thousands):

| Year | Amount |
|------------|-----------|
| 2004 | \$ 915 |
| 2005 | 1,783 |
| 2006 | 1,778 |
| 2007 | 1,608 |
| 2008 | 1,441 |
| Thereafter | 13,647 |
| Total | \$ 21,172 |

4. EMPLOYEE BENEFIT PLANS

The components of net periodic pension benefit for the three and six months ended June 27, 2004 and June 29, 2003 were (in thousands):

| | For the Three Months Ended | | For the Six Months Ended | |
|------------------------------------|----------------------------|------------------|--------------------------|------------------|
| | June 27, 2004 | June 29, 2003 | June 27, 2004 | June 29, 2003 |
| Service cost | \$ | \$ 553 | \$ | \$ 1,105 |
| Interest cost | 1,675 | 1,606 | 3,302 | 3,212 |
| Expected return on assets | (2,364) | (2,274) | (4,695) | (4,549) |
| Net amortization: | | | | |
| Unrecognized prior service benefit | | (320) | | (640) |
| Unrecognized net actuarial loss | 182 | 151 | 335 | 302 |
| Net periodic pension benefit | \$ (507) | \$ (284) | \$ (1,058) | \$ (570) |

Edgar Filing: FRIENDLY ICE CREAM CORP - Form 10-Q

The Company provides health care and life insurance benefits to certain groups of employees upon retirement. The components of the net postretirement benefit cost for the three and six months ended June 27, 2004 and June 29, 2003 were (in thousands):

| | For the Three Months Ended | | For the Six Months Ended | |
|--|----------------------------|------------------|--------------------------|------------------|
| | June 27, 2004 | June 29, 2003 | June 27, 2004 | June 29, 2003 |
| Service cost | \$ 28 | \$ 25 | \$ 56 | \$ 49 |
| Interest cost | 116 | 117 | 232 | 235 |
| Recognized actuarial loss | 23 | 16 | 45 | 31 |
| Net amortization of unrecognized prior service benefit | (35) | (36) | (71) | (71) |
| Net postretirement benefit cost | \$ 132 | \$ 122 | \$ 262 | \$ 244 |

During January 2004, the FASB issued FASB Staff Position (FSP) 106-1, Accounting and Disclosure Requirements Related to the Medicare Prescription Drug, Improvement and Modernization Act of 2003 (the Act), which permits a sponsor of a postretirement health care plan that provides a prescription drug benefit to make a one-time election to defer accounting for the effects of the Act. The guidance in this FSP is effective for interim or annual financial statements of fiscal years ending after December 7, 2003. The election to defer accounting for the Act is a one-time election that must be made before net periodic postretirement benefit costs for the period that includes the Act's enactment date are first included in reported financial information pursuant to the requirements of SFAS No. 106, Employers' Accounting for Postretirement Benefits Other than Pensions. In accordance with FSP 106-1, the Company has elected to defer accounting for the effects of the Act and accordingly, the measures of the accumulated postretirement benefit obligation and the net postretirement benefit cost do not reflect the effects of the Act.

The Company's election to defer accounting for the effects of the Act may not be changed and the deferral will continue to apply until authoritative guidance on the accounting for the federal subsidy is issued, or until the guidance in the following sentence applies. The election to defer expires if, subsequent to January 31, 2004, but prior to the issuance of additional authoritative guidance, a significant event occurs that ordinarily would call for remeasurement of a plan's assets and obligations—for example, a plan amendment, settlement, or curtailment. Upon the occurrence of such an event, the Company would be required to account for that event pursuant to the guidance in SFAS No. 106 and also reflect in its accounting for postretirement benefits other than pensions its best estimate of the effects of the Act, including the federal subsidy (if applicable based on the terms of the plan and the sponsor's analysis of generally accepted accounting principles) and any effects on participation rates and health care cost estimates.

Authoritative guidance on accounting for the federal subsidy is pending. The expected effects of the Act will be factored into the Company's year-end measurement of postretirement benefit costs for fiscal 2004. If the final authoritative accounting guidance is issued after the provisions of the Act are reflected in the year-end measurement of the obligation and net postretirement benefit costs estimate for fiscal 2004, the guidance could require the Company to change previously reported information. The Company has not yet determined the impact of the Act on these benefits.

5. SEGMENT REPORTING

Operating segments are components of an enterprise about which separate financial information is available that is evaluated regularly by the chief operating decision-maker, or decision-making group, in deciding how to allocate resources and in assessing performance. The Company's chief operating decision-maker is the Chief Executive Officer and President of the Company. The Company's operating segments include restaurant, foodservice and franchise. The revenues from these segments include both sales to unaffiliated customers and intersegment sales, which generally are accounted for on a basis consistent with sales to unaffiliated customers. Intersegment sales and other intersegment transactions have been eliminated in the accompanying condensed consolidated financial statements.

The Company's restaurants target families with children and adults who desire a reasonably priced meal in a full-service setting. The Company's menu offers a broad selection of freshly-prepared foods, which appeal to customers throughout all dayparts. The menu currently features over 100 items comprised of a broad selection of breakfast, lunch, dinner and afternoon and evening snack items. Foodservice operations manufactures frozen dessert products and distributes such manufactured products and purchased finished goods to the Company's restaurants and franchised operations. Additionally, it sells frozen dessert products to distributors and retail and institutional locations. The Company's franchise segment includes a royalty based on franchise restaurant revenue. In addition, the Company receives rental income from various franchised restaurants. The Company does not allocate general and administrative expenses associated with its headquarters operations to any business segment. These costs include expenses of the following functions: legal, accounting, personnel not directly related to a segment, information systems and other headquarters activities.

The accounting policies of the operating segments are the same as those described in the summary of significant accounting policies except that the financial results for the foodservice operating segment, prior to intersegment eliminations, have been prepared using a management approach, which is consistent with the basis and manner in which the Company's management internally reviews financial information for the purpose of assisting in making internal operating decisions. Using this approach, the Company evaluates performance based on stand-alone operating segment income (loss) before income taxes and generally accounts for intersegment sales and transfers as if the sales or transfers were to third parties, that is, at current market prices.

Edgar Filing: FRIENDLY ICE CREAM CORP - Form 10-Q

EBITDA represents net income (loss) before (i) benefit from (provision for) income taxes, (ii) other expenses, principally debt retirement costs, (iii) interest expense, net, (iv) depreciation and amortization, (v) write-downs of property and equipment, (vi) net periodic pension benefit and (vii) other non-cash items. The Company has included information concerning EBITDA in this Form 10-Q because the Company's management incentive plan pays bonuses based on achieving EBITDA targets and the Company believes that such information is used by certain investors as one measure of a company's historical ability to service debt. EBITDA should not be considered as an alternative to, or more meaningful than, earnings (loss) from operations or other traditional indications of a company's operating performance.

6. RESTRUCTURING RESERVES

During March 2004, the Company recorded a pre-tax restructuring charge of \$2,627,000 for severance and outplacement services associated with reduction in force actions taken during the first quarter of 2004 that reduced headcount by approximately 20 permanent positions.

On October 10, 2001, the Company eliminated approximately 70 positions at corporate headquarters. In addition, approximately 30 positions in the restaurant construction and fabrication areas were eliminated by December 30, 2001. The purpose of the reduction was to streamline functions and reduce redundancy among its business segments. As a result of the elimination of the positions and the outsourcing of certain functions, the Company reported a pre-tax restructuring charge of \$2,536,000 for severance, rent and unusable construction supplies in the year ended December 30, 2001.

In March 2000, the Company's Board of Directors approved a restructuring plan that provided for the immediate closing of 81 restaurants at the end of March 2000 and the disposition of an additional 70 restaurants over the next 24 months. As a result of this plan, the Company reported a pre-tax restructuring charge of \$12,056,000 for severance, rent, utilities and real estate taxes, demarking, lease termination costs and certain other costs associated with the closing of the locations, along with a pre-tax write-down of property and equipment for these locations of approximately \$17,000,000 in the year ended December 31, 2000. The Company reduced the restructuring reserve by \$400,000 and \$1,900,000 during the years ended December 29, 2002 and December 30, 2001, respectively, since the reserve exceeded estimated remaining payments.

Edgar Filing: FRIENDLY ICE CREAM CORP - Form 10-Q

The following represents the reserves and activity associated with the March 2004, October 2001 and March 2000 restructurings (in thousands):

| | Restructuring Reserves as of December 28, 2003 | For the Six Months Ended June 27, 2004 | | Restructuring Reserves as of June 27, 2004 |
|---------------------------------|--|--|------------|--|
| | | Expense | Costs Paid | |
| Rent | \$ 319 | \$ | \$ (119) | \$ 200 |
| Utilities and real estate taxes | 40 | | (13) | 27 |
| Severance pay | | 2,549 | (762) | 1,787 |
| Outplacement services | | 78 | (78) | |
| Other | 82 | | (41) | 41 |
| Total | \$ 441 | \$ 2,627 | \$ (1,013) | \$ 2,055 |

| | Restructuring Reserves as of December 29, 2002 | For the Six Months Ended June 29, 2003 | | Restructuring Reserves as of June 29, 2003 |
|---------------------------------|--|--|------------|--|
| | | Expense | Costs Paid | |
| Rent | \$ 679 | \$ | \$ (128) | \$ 551 |
| Utilities and real estate taxes | 121 | | (59) | 62 |
| Equipment | 77 | | (77) | |
| Other | 60 | | (24) | 36 |
| Total | \$ 937 | \$ | \$ (288) | \$ 649 |

Based on information currently available, management believes that the restructuring reserves as of June 27, 2004 were adequate and not excessive.

7. GAIN ON LITIGATION SETTLEMENT

In January 2004, a settlement was reached in a lawsuit filed by the Company against a former administrator of one of the Company's benefit plans. The settlement was based on the administrator's alleged failure to adhere to the terms of a contract and resulted in a one-time payment to the Company of \$3,775,000, which was received on April 2, 2004. As a result of this lawsuit, the Company incurred professional fees of approximately \$500,000 which were included in the consolidated statement of operations for the year ended December 28, 2003 and an additional \$131,000 in professional fees, which were offset against the payment in the accompanying condensed consolidated statement of operations for the six months ended June 27, 2004.

8. FRANCHISE TRANSACTIONS

On March 5, 2004, the Company sold the real property and equipment for one franchised location and assigned the lease and sold the equipment for a second franchised location to the existing franchisee. Gross proceeds from the sale were approximately \$485,000, of which \$70,000 was for franchise fees and \$415,000 was for the sale of assets and lease assignment. In March 2004, the Company recorded \$70,000 as franchise fee revenue and recognized a gain of approximately \$248,000 related to the sale of assets.

On January 15, 2004, the Company entered into an agreement granting Central Florida Restaurants LLC (Central Florida) certain limited exclusive rights to operate and develop Friendly s full-service restaurants in designated areas within the Orlando, Florida market (the Central Florida Agreement). Pursuant to the Central Florida Agreement, Central Florida purchased certain equipment assets, lease and sublease rights and franchise rights in 10 existing Friendly s restaurants and committed to open an additional 10 restaurants over the next six years with an option for 15 more restaurants in the following five years. Gross proceeds from the sale were approximately \$3,150,000 of which \$310,000 was for franchise fees for the initial 10 restaurants. In January 2004, the Company recorded \$310,000 as franchise fee revenue and recognized a gain of approximately \$658,000 related to the sale of the assets for the 10 locations.

During July 2003, the Company entered into a development agreement granting Jax Family Rest., Inc. (Jax) certain limited exclusive rights to operate and develop Friendly s full-service restaurants in designated areas within Baker, Clay, Nassau, Putnam and St. John s counties, Florida (the Jax Agreement). Pursuant to the Jax Agreement, Jax agreed to open 10 new restaurants over the next seven years. The Company received development fees of \$155,000, which represent one-half of the initial franchise fees. The \$155,000 will be recognized into income as restaurants are opened. During the quarter ended June 27, 2004, Jax opened one new restaurant.

In December 2000, the Company and its first franchisee, Friendco Restaurants Inc. (Friendco), a subsidiary of Davco Restaurants, Inc. (Davco), agreed to terminate Friendco s rights as the exclusive developer of new Friendly s restaurants in Maryland, Delaware, the District of Columbia and northern Virginia. Friendco also obtained the right to close existing franchised locations subject, however, to liquidated damages on 22 of its 48 franchise agreements. During the year ended December 30, 2001, Friendco transferred its rights to three franchised locations to a third party and closed two restaurants. During the year ended December 29, 2002, Friendco transferred its rights to 24 additional franchised locations to six separate third parties and closed six restaurants. During the year ended December 28, 2003, Friendco closed five restaurants and transferred its rights to three additional franchised locations to two third parties. During June 2003, the Company entered into a Settlement Agreement and Mutual General Release with Davco releasing Davco from all obligations and guarantees related to leases associated with the franchised locations and providing for a payment of \$250,000 to the Company, which was recorded as revenue in the year ended December 28, 2003. During the six months ended June 27, 2004, Friendco transferred its rights to one franchised location to a third party and at June 27, 2004, retained four franchised restaurants.

9. DEFERRED COMPENSATION PLAN

During 2004, the Company established a nonqualified deferred compensation plan (Deferred Comp Plan) that was developed as a retirement plan for a select group of management employees that are not allowed to participate in the Company's Employee Savings and Investment Plan. There are various types of compensation that can be deferred into the Deferred Comp Plan, e.g., regular salary, annual bonus or long-term bonus. There is also a Company contribution that is associated with the Deferred Comp Plan for participants that choose to defer a percentage of their salary.

The Company accounts for the Deferred Comp Plan in accordance with Emerging Issues Task Force No. 97-14, Accounting for Deferred Compensation Arrangements Where Amounts Are Held in a Rabbi Trust and Invested. The investments of the rabbi trust are included in other assets in the accompanying condensed consolidated balance sheet as of June 27, 2004. A corresponding liability is included in other long-term liabilities.

The Deferred Comp Plan assets consist of investments in marketable securities, classified as available-for-sale and reported at fair value with the unrealized gains and losses reported as a component of accumulated other comprehensive loss in stockholders' deficit. The Company follows its investment managers' methods of determining the cost basis in computing realized gains and losses on the sale of its available-for-sale securities, which is the average cost method. Realized gains and losses are included in other expenses, principally debt retirement costs in the accompanying condensed consolidated statements of operations and the offsetting compensation expense is included in general and administrative expenses. Net unrealized losses of \$9,000 were recorded as of June 27, 2004 and net realized losses of \$1,000 were recorded during the six months ended June 27, 2004.

10. SUPPLEMENTAL CONDENSED CONSOLIDATING FINANCIAL INFORMATION

FICC's obligations related to the New Senior Notes are guaranteed fully and unconditionally by one of FICC's wholly owned subsidiaries. There are no restrictions on FICC's ability to obtain dividends or other distributions of funds from this subsidiary, except those imposed by applicable law. The following supplemental financial information sets forth, on a condensed consolidating basis, balance sheets, statements of operations and statements of cash flows for FICC (the Parent Company), Friendly's Restaurants Franchise, Inc. (the Guarantor Subsidiary) and Friendly's International, Inc., Restaurant Insurance Corporation, Friendly's Realty I, LLC, Friendly's Realty II, LLC and Friendly's Realty III, LLC (collectively, the Non-guarantor Subsidiaries). All of the LLCs' assets were owned by the LLCs, which are separate entities with separate creditors which will be entitled to be satisfied out of the LLCs' assets. Separate complete financial statements and other disclosures of the Guarantor Subsidiary as of June 27, 2004 and December 28, 2003 and for the three months and six months ended June 27, 2004 and June 29, 2003 were not presented because management has determined that such information is not material to investors.

Investments in subsidiaries are accounted for by the Parent Company on the equity method for purposes of the supplemental consolidating presentation. Earnings of the subsidiaries are, therefore, reflected in the Parent Company's investment accounts and earnings. The principal elimination entries eliminate the Parent Company's investments in subsidiaries and intercompany balances and transactions.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion should be read in conjunction with the Condensed Consolidated Financial Statements of the Company and the notes thereto included elsewhere herein.

Forward Looking Statements

Statements contained herein that are not historical facts constitute forward looking statements as that term is defined in the Private Securities Litigation Reform Act of 1995. All forward looking statements are subject to risks and uncertainties which could cause results to differ materially from those anticipated. These factors include the Company's highly competitive business environment, exposure to commodity prices, risks associated with the foodservice industry, the ability to retain and attract new employees, government regulations, the Company's high geographic concentration in the Northeast and its attendant weather patterns, conditions needed to meet restaurant re-imaging and new opening targets and costs associated with improved service and other initiatives. Other factors that may cause actual results to differ from the forward looking statements contained herein and that may affect the Company's prospects in general are included in the Company's other filings with the Securities and Exchange Commission.

Overview

The Company's revenues are derived primarily from the operation of full-service restaurants, the distribution and sale of premium ice cream desserts through retail and institutional locations and franchising. As of June 27, 2004, Friendly's operated 360 full-service restaurants, franchised 179 full-service restaurants and seven non-traditional units and manufactured a full line of premium ice cream desserts distributed through more than 4,500 supermarkets and other retail locations in 13 states.

Following is a summary of the Company-operated and franchised units:

| | For the Three Months Ended | | For the Six Months Ended | |
|--------------------------|----------------------------|------------------|--------------------------|------------------|

35

Three months ended June 27, 2004 compared with three months ended June 29, 2003

Revenues:

Total revenues decreased \$8.2 million, or 5.2%, to \$147.5 million for the second quarter ended June 27, 2004 from \$155.7 million for the same quarter in 2003. Restaurant revenues decreased \$8.6 million, or 7.0%, to \$114.4 million for the three months ended June 27, 2004 from \$123.0 million for the same period in 2003. Comparable company-operated restaurant revenues decreased 3.0% from the 2003 quarter to the 2004 quarter as decreases occurred in all dayparts. Sales growth in fast food restaurants and higher gas prices may have had a negative impact on comparable sales. This was the first decline in comparable sales since the fourth quarter of fiscal 2000. Seven and 13 locations were re-imaged during the quarters ended June 27, 2004 and June 29, 2003, respectively. The opening of three new restaurants over the past 15 months increased restaurant revenues by \$1.0 million. The closing of ten locations and the re-franchising of 18 locations over the past 15 months resulted in declines of \$1.4 million and \$4.9 million, respectively, in restaurant revenues in the second quarter of 2004 as compared to the same period in 2003. Foodservice (product sales to franchisees and retail customers) revenues decreased \$0.1 million or 0.4% to \$29.8 million for the second quarter ended June 27, 2004 from \$29.9 million for the same quarter in 2003. Franchised restaurant product revenues increased by \$2.3 million while sales to foodservice retail supermarket customers declined by \$2.4 million. Case volume in the Company's retail supermarket business fell by 14.3% for the quarter ended June 27, 2004 when compared to the quarter ended June 29, 2003. Franchise royalty and fee revenues increased \$0.6 million, or 20.1%, to \$3.3 million for the three months ended June 27, 2004 compared to \$2.7 million for the same period in 2003. Royalties on franchised restaurant sales increased \$0.3 million. Comparable franchised revenues grew 0.8% from the quarter ended June 29, 2003 to the quarter ended June 27, 2004. Including results of the current quarter, the Company has reported thirteen consecutive quarters of positive comparable franchised restaurant sales. The opening of eight new franchise restaurants and 18 re-franchised restaurants during the last 15 months increased royalty revenues by \$0.3 million. The closing of five under-performing locations during the same period had little impact. Initial franchise fees were higher by \$0.2 million during the three months ended June 27, 2004 when compared to the same period in 2003 due to the refranchising of one company-operated restaurant and the opening of two new restaurants and one new cafe during the quarter ended June 27, 2004 versus no new openings during the quarter ended June 29, 2003. Additionally, an increase in rental income for leased and subleased franchise locations of \$0.1 million contributed to the higher revenues. These increases were partially offset by \$0.3 million received in the 2003 quarter pursuant to an agreement terminating Friendco's rights as the exclusive developer of new Friendly's restaurants in Maryland, Delaware, the District of Columbia and northern Virginia. There were 186 and 162 franchise units open at June 27, 2004 and June 29, 2003, respectively.

Cost of sales:

Cost of sales increased \$0.8 million, or 1.4%, to \$56.0 million for the second quarter ended June 27, 2004 from \$55.2 million for the same period in 2003. Cost of sales as a percentage of total revenues was 37.9% and 35.5% for the quarters ended June 27, 2004 and June 29, 2003, respectively. Higher commodity costs, especially for cream, raw milk and vanilla had an unfavorable impact on cost of sales as a percentage of total revenues. Market losses on options for butter futures contracts were greater in the three months ended June 27, 2004 when compared to the three months ended June 29, 2003. A shift in sales mix from company-operated restaurant sales to foodservice sales also had an unfavorable effect. Foodservice sales to franchisees and supermarket customers (20.2% and 19.2% of total revenues for the three months ended June 27, 2004 and June 29, 2003, respectively) have a higher food cost as a percentage of revenue than sales in company-operated restaurants to restaurant patrons. The growth in franchise royalty, fee and rental revenues reduced cost of sales, as a percentage of total revenues, by 0.2% for the three months ended June 27, 2004 when compared to the three months ended June 29, 2003. Foodservice retail sales promotional allowances, recorded as offsets to revenues, were increased by 3.8% in the 2004 quarter as a percentage of gross retail sales when compared to the 2003 quarter as a result of a change in mix of promotional activities. This increase had an unfavorable impact on the overall cost of sales as a percentage of total revenues. Distribution costs were higher in the quarter ended June 27, 2004 when compared to the same quarter in 2003 as a result of the unfavorable impact of new federal restrictions imposed on driver hours, higher fuel costs and increases in liability insurance. Restaurant cost of sales as a percentage of restaurant revenues increased to 27.3% in the second quarter of 2004 from 26.6% in the second quarter of 2003. The increase in the 2004 quarter when compared to the 2003 quarter was in part due to commodity cost increases mentioned above that had not yet been offset by menu price increases. The conversion during the first quarter of 2004 from a 64-ounce container to a 56-ounce container only partially offset the increases in ice cream ingredient costs. The Company expects cream prices to continue to exceed prices experienced in 2003. A table showing the average monthly price of a pound of AA butter obtained from market quotes provided by the USDA's Agricultural Marketing Service is included elsewhere herein.

Labor and benefits:

Labor and benefits decreased \$1.6 million, or 3.7%, to \$42.2 million for the three months ended June 27, 2004 from \$43.8 million for the three months ended June 29, 2003. Labor and benefits as a percentage of total revenues increased to 28.6% in the 2004 quarter from 28.1% in the 2003 quarter. As a percentage of restaurant revenues, labor and benefits increased to 36.8% in the 2004 quarter from 35.6% in the 2003 quarter. The increase in labor and benefits was due to training costs associated with the rollout of a new point of sale register system in the remaining 159 Company-operated restaurants during the quarter, higher insurance and payroll tax costs and increases in restaurant general manager compensation. In April 2004, the Company initiated a program to reinforce proper labor scheduling techniques. Scheduling improved in the second quarter of 2004 when compared to the same period in 2003. Revenue derived from franchised locations and retail supermarket customers, which do not have any associated restaurant labor and benefits, reduced the impact of the higher restaurant labor and benefits as a percentage of total revenues.

Operating expenses:

Operating expenses decreased \$2.0 million, or 6.6%, to \$27.8 million in the three months ended June 27, 2004 from \$29.8 million for the three months ended June 29, 2003. Operating expenses as a percentage of total revenues were 18.8% and 19.1% in the 2004 and 2003 periods, respectively. The decrease in dollars resulted from lower restaurant advertising, maintenance costs and utility costs in the 2004 period when compared to the 2003 period. These decreases were partially offset by higher general liability insurance in the 2004 period when compared to the 2003 period.

General and administrative expenses:

General and administrative expenses were \$9.8 million and \$9.9 million for the quarters ended June 27, 2004 and June 29, 2003, respectively. General and administrative expenses as a percentage of total revenues increased to 6.6% in the 2004 period from 6.4% in the 2003 period. The percentage increase is primarily the result of higher costs for group insurance, computer equipment rentals and legal and professional fees. These increases were partially offset by lower salaries and wages.

Depreciation and amortization:

Depreciation and amortization was \$5.6 million and \$5.7 million for the quarters ended June 27, 2004 and June 29, 2003, respectively. Depreciation and amortization as a percentage of total revenues was 3.8% and 3.7% in the 2004 and 2003 quarters, respectively.

Loss on disposals of other property and equipment, net:

The loss on disposals of other property and equipment, net, was \$0.3 million and \$0.8 million for the quarters ended June 27, 2004 and June 29, 2003, respectively. The table below identifies the components of the loss on disposals of other property and equipment, net, as shown on the accompanying condensed consolidated statements of operations (in thousands):

| | For the Three Months Ended | |
|--|-----------------------------------|--------------------------|
| | June 27, 2004 | June 29, 2003 |
| Restaurant assets retired due to remodeling | \$ 173 | \$ 455 |
| Restaurant equipment assets retired due to replacement | 87 | 92 |
| Loss on property held for disposition | | 141 |
| Loss on property not held for disposition | 62 | |
| All other | 15 | 147 |
| Loss on disposals of other property and equipment, net | \$ 337 | \$ 835 |

Other expenses, principally debt retirement costs:

Other expenses, principally debt retirement costs represents the \$1.7 million premium and the write off of unamortized deferred financing costs of approximately \$0.6 million in connection with the tender offer for the \$176.0 million of Senior Notes. In March 2004, \$127.8 million of aggregate principal amount of Senior Notes were purchased pursuant to the tender offer and in April 2004, the remaining \$48.2 million of Senior Notes were redeemed in accordance with the Senior Notes indenture at 103.5% of the principal amount.

Interest expense, net:

Interest expense, net of capitalized interest and interest income, was \$5.4 million and \$6.1 million, respectively, for the quarters ended June 27, 2004 and June 29, 2003, primarily as a result of the lower interest rates associated with the New Senior Notes in the 2004 period as compared to the 2003 period.

Benefit from (provision for) income taxes:

The benefit from income taxes was \$0.6 million, or 30.0%, for the three months ended June 27, 2004. At this time, the Company estimates that the effective tax rate for 2004 will be 30.0%. The Company records income taxes based on the effective rate expected for the year with any changes in the valuation allowance reflected in the period of change. The provision for income taxes was \$1.2 million, or 28.0%, for the three months ended June 29, 2003. The rate in 2003 was increased in the fourth quarter due to a one-time pension curtailment gain of \$8.1 million in 2003. The tax rate for the 2003 fiscal year was 32.5%.

Net (loss) income:

Net loss was \$1.3 million for the second quarter ended June 27, 2004 as compared to net income of \$3.1 million for the second quarter ended June 29, 2003, for the reasons discussed above.

Six months ended June 27, 2004 compared with six months ended June 29, 2003

Revenues:

Total revenues decreased \$6.0 million, or 2.1%, to \$278.3 million for the six months ended June 27, 2004 from \$284.3 million for the same period in 2003. Restaurant revenues decreased \$7.4 million, or 3.3%, to \$218.8 million for the six months ended June 27, 2004 from \$226.2 million for the same period in 2003. Comparable company-operated restaurant revenues increased 0.2% from the 2003 period to the 2004 period as declines occurred in lunch and afternoon snack dayparts. Record snowfall during the first quarter of 2003 had an unfavorable impact on restaurant revenues in the first quarter of 2003. This had a favorable impact on restaurant revenues when compared to the first quarter of the current year, as operating days lost due to weather closings were minimal in 2004. However, sales growth in the fast food restaurant segment and higher gas prices may have contributed to a decline in comparable restaurant revenues during the second quarter. Seven and 24 restaurants were re-imaged during the six months ended June 27, 2004 and June 29, 2003, respectively. The opening of three new restaurants over the past 18 months increased restaurant revenues by \$2.1 million. The closing of 12 locations and the re-franchising of 18 restaurants over the past 18 months resulted in declines of \$3.2 million and \$7.8 million, respectively, in restaurant revenues in the 2004 period as compared to the same period in 2003. Foodservice (product sales to franchisees and retail customers) revenues were \$53.2 million for the six months ended June 27, 2004 and June 29, 2003. Franchised restaurant product revenues increased by \$3.8 million while sales to foodservice retail supermarket customers declined by \$3.8 million. Case volume in the Company's retail supermarket business fell by 12.6% for the six months ended June 27, 2004 when compared to the six months ended June 29, 2003. During the quarter ended March 28, 2004, the Company reduced the size of its retail supermarket ice cream container to a 56-ounce product from a 64-ounce product. Franchise royalty and fee revenues increased \$1.3 million, or 27.2%, to \$6.3 million for the six months ended June 27, 2004 compared to \$5.0 million for the same period in 2003. Royalties on franchised restaurant sales increased \$0.6 million as the number of franchised units increased and comparable franchised revenues grew 3.2% from the six months ended June 29, 2003 to the six months ended June 27, 2004. The opening of ten new franchise restaurants and eighteen re-franchised restaurants during the last 18 months increased royalty revenues by \$0.4 million while the closing of 5 under-performing locations during the same period had little impact. Initial franchise fees were higher by \$0.4 million during the six months ended June 27, 2004 when compared to the same period in 2003 due to the refranchising of 18 company-operated restaurants, the opening of four new restaurants and the opening of one new café during the six months ended June 27, 2004 versus two new restaurant openings during the six months ended June 29, 2003. Additionally, an increase in rental income for leased and subleased franchise locations of \$0.3 million contributed to the higher revenues. These increases were partially offset by \$0.3 million received in the 2003 period pursuant to an agreement terminating Friendco's rights as the exclusive developer of new Friendly's restaurants in Maryland, Delaware, the District of Columbia and northern Virginia. There were 186 and 162 franchise units open at June 27, 2004 and June 29, 2003, respectively.

Cost of sales:

Cost of sales increased \$0.3 million, or 0.4%, to \$101.5 million for the six months ended June 27, 2004 from \$101.2 million for the same period in 2003. Cost of sales as a percentage of total revenues was 36.5 % and 35.6% for the six months ended June 27, 2004 and June 29, 2003, respectively. Higher commodity costs, especially for cream, raw milk and vanilla had an unfavorable impact on cost of sales as a percentage of total revenues. A shift in sales mix from company-operated restaurant sales to foodservice sales added to the increase in cost of sales as a percentage of total revenues. Foodservice sales to franchisees and retail supermarket customers (19.1% and 18.7% of total revenues for the six months ended June 27, 2004 and June 29, 2003, respectively) have a higher food cost as a percentage of revenue than sales in company-operated restaurants to restaurant patrons. The growth in franchise royalty, fee and rental revenues reduced cost of sales, as a percentage of total revenues, by 0.2% for the six months ended June 27, 2004 when compared to the six months ended June 29, 2003. Foodservice retail sales promotional allowances, recorded as offsets to revenues, increased by 3.0% in the 2004 period as a percentage of gross retail sales when compared to the 2003 period as a result of a change in mix of promotional activities. This increase had an unfavorable impact on the overall cost of sales as a percentage of total revenues. Distribution costs were higher in the six months ended June 27, 2004 when compared to the same period in 2003 as a result of the unfavorable impact of new federal restrictions imposed on driver hours, higher fuel costs and increases in liability insurance. Restaurant cost of sales as a percentage of restaurant revenues increased to 26.8% in the six months ended June 27, 2004 from 26.7% for the same period in 2003 as menu price increases have lagged increases in the commodity costs mentioned above. Cream prices for the six months ended June 27, 2004 were higher than the first six months of 2003. The conversion during the first quarter of 2004 from a 64-ounce container to a 56-ounce container partially offset higher prices for cream and other commodities. The Company expects that cream prices will continue to exceed prices experienced in 2003. Additionally, the benefits derived from options for butter futures contracts realized in the first quarter of 2004 did not continue in the second quarter and are not likely to benefit the remainder of fiscal 2004.

The table below shows the average monthly price of a pound of AA butter. The prices represented were obtained from market quotes provided by the USDA's Agricultural Marketing Service.

| Month: | 2004 | 2003 | 2002 | 2001 | 2000 | 1999 |
|------------------|-----------|-----------|-----------|-----------|-----------|-----------|
| January | \$ 1.4320 | \$ 1.0815 | \$ 1.3454 | \$ 1.2531 | \$ 0.9090 | \$ 1.4222 |
| February | 1.7132 | 1.0405 | 1.2427 | 1.3852 | 0.9245 | 1.3153 |
| March | 2.1350 | 1.0915 | 1.2473 | 1.5708 | 1.0200 | 1.2927 |
| April | 2.2204 | 1.0906 | 1.1712 | 1.8217 | 1.0691 | 1.0298 |
| May | 2.0363 | 1.0919 | 1.0590 | 1.8713 | 1.2450 | 1.1289 |
| June | 1.9300 | 1.1142 | 1.0427 | 1.9783 | 1.2440 | 1.4931 |
| July | | 1.1985 | 1.0302 | 1.8971 | 1.1790 | 1.3444 |
| August | | 1.1708 | 0.9752 | 2.0880 | 1.1933 | 1.3963 |
| September | | 1.1731 | 0.9635 | 2.0563 | 1.1727 | 1.3393 |
| October | | 1.1846 | 1.0315 | 1.4070 | 1.1462 | 1.1248 |
| November | | 1.2057 | 1.0425 | 1.3481 | 1.6490 | 1.0675 |
| December | | 1.2969 | 1.1198 | 1.2793 | 1.3700 | 0.9163 |
| Mathematical Avg | | \$ 1.1450 | \$ 1.1059 | \$ 1.6630 | \$ 1.1768 | \$ 1.2392 |

The cost of cream, the principal ingredient used in making ice cream, affects cost of sales as a percentage of total revenues, especially in foodservice's retail business. A \$0.10 increase in the cost of a pound of AA butter adversely affects the Company's annual cost of sales by approximately \$1.0 million. This adverse impact may be offset by price increases or other factors. However, no assurance can be given that the Company will be able to offset any cost increases in the future and future increases in cream prices could have a material adverse effect on the Company's results of operations. To minimize risk, alternative supply sources continue to be pursued.

The Company purchases butter option contracts to minimize the impact of increases in the cost of cream. When available, options on butter futures are purchased to cover up to 50% of the cream needs of the manufacturing plant. Option contracts are offered in the months of March, May, July, September, October and December; however, there is often not enough open interest in them to allow the Company to buy even very limited coverage without paying high premiums.

Labor and benefits:

Labor and benefits increased \$0.2 million, or 0.2%, to \$82.1 million for the six months ended June 27, 2004 from \$81.9 million for the six months ended June 29, 2003. Labor and benefits as a percentage of total revenues increased to 29.5% in the 2004 period from 28.8% in the 2003 period. As a percentage of restaurant revenues, labor and benefits increased to 37.5% in the 2004 period from 36.2% in the 2003 period. The increase in labor and benefits was due to training costs associated with the rollout of a new point of sale register system in 300 restaurants during the six month period and declines in labor scheduling efficiencies, especially during off meal periods during the winter months. Day to day weather changes, particularly in the winter months, can result in over scheduling labor when daypart sales fall short of expectations. In April 2004, the Company initiated a program to reinforce proper labor scheduling techniques. Payroll taxes and insurance costs also increased in the 2004 period when compared to the 2003 period. Revenue increases derived from franchised locations and retail supermarket customers, which do not have any associated restaurant labor and benefits, reduced the impact of the higher restaurant labor and benefits as a percentage of total revenues.

Operating expenses:

Operating expenses decreased \$1.2 million, or 2.2%, to \$52.8 million in the six months ended June 27, 2004 from \$54.0 million for the six months ended June 29, 2003. Operating expenses as a percentage of total revenues were 19.0% in the 2004 and 2003 periods. The decrease in dollars resulted from lower advertising, maintenance costs and utility costs. These decreases were partially offset by higher general liability insurance and restaurant menu and kid premium supply costs in the 2004 period when compared to the 2003 period.

General and administrative expenses:

General and administrative expenses were \$20.5 million and \$20.0 million for the six months ended June 27, 2004 and June 29, 2003, respectively. General and administrative expenses as a percentage of total revenues increased to 7.3% in the 2004 period from 7.0% in the 2003 period. The dollar increase is primarily the result of higher costs for group insurance, computer equipment rentals and legal and professional fees. These increases were partially offset by lower salaries and wages. The 2004 period also included a charge for future rents associated with a vacated training facility.

Restructuring expenses:

Restructuring expenses of \$2.6 million related to severance and other benefits associated with reduction in force actions taken during the first quarter of 2004 that reduced headcount by approximately 20 permanent positions.

Gain on litigation settlement:

In January 2004, a settlement was reached in a lawsuit filed by the Company against a former administrator of one of the Company's benefit plans. The settlement was based on the administrator's alleged failure to adhere to the terms of a contract and resulted in a one-time payment to the Company of approximately \$3.8 million, which was received on April 2, 2004. As a result of this lawsuit, the Company incurred professional fees of approximately \$0.5 million which were included in the consolidated statement of operations for the year ended December 28, 2003 and an additional \$0.2 million in professional fees, which were offset against the payment in the accompanying condensed consolidated statement of operations for the six months ended June 27, 2004.

Depreciation and amortization:

Depreciation and amortization was \$11.2 million and \$11.4 million for the six months ended June 27, 2004 and June 29, 2003, respectively. Depreciation and amortization as a percentage of total revenues was 4.0% in the 2004 and 2003 periods.

Gain on franchise sales of restaurant operations and properties:

Gain on franchise sales of restaurant operations and properties was \$0.9 million in the six months ended June 27, 2004. During the six months ended June 27, 2004, the Company recognized a gain of approximately \$0.7 million associated with the sale of certain equipment assets, lease and sublease rights and franchise rights in 10 existing Company-operated restaurants to franchisees. Additionally, the Company sold the real property and equipment for one franchised location and assigned the lease and sold the equipment for a second franchised location to the existing franchisee, resulting in a gain of approximately \$0.2 million.

Loss on disposals of other property and equipment, net:

The loss on disposals of other property and equipment, net, was \$0.5 million and \$1.4 million for the six months ended June 27, 2004 and June 29, 2003, respectively. The table below identifies the components of the loss on disposals of other property and equipment, net as shown in the accompanying condensed consolidated statements of operations (in thousands):

Edgar Filing: FRIENDLY ICE CREAM CORP - Form 10-Q

For the Six Months Ended
June 27, **June 29,**
2004 **2003**

Other expenses, principally debt retirement costs:

Other expenses, principally debt retirement costs represents the \$6.8 million premium and the write off of unamortized deferred financing costs of approximately \$2.5 million in connection with the tender offer for the \$176.0 million of Senior Notes. In March 2004, \$127.8 million of aggregate principal amount of Senior Notes were purchased pursuant to the tender offer and in April 2004, the remaining \$48.2 million of Senior Notes were redeemed in accordance with the Senior Notes indenture at 103.5% of the principal amount.

Interest expense, net:

Interest expense, net of capitalized interest and interest income, was \$11.4 million and \$12.2 million for the six months ended June 27, 2004 and June 29, 2003, respectively. Total outstanding debt, including capital lease and finance obligations, decreased from \$237.9 million at June 29, 2003 to \$235.9 million at June 27, 2004. In March 2004, \$127.8 million of aggregate principal amount of Senior Notes were purchased in a tender offer with the proceeds from the issuance of \$175.0 million of New Senior Notes with a lower interest rate and in April 2004, the remaining \$48.2 million of Senior Notes were redeemed in accordance with the Senior Notes indenture at 103.5% of the principal amount.

Benefit from (provision for) income taxes:

The benefit from income taxes was \$2.8 million, or 30.0%, for the six months ended June 27, 2004. At this time, the Company estimates that the effective tax rate for 2004 will be 30.0%. The Company records income taxes based on the effective rate expected for the year with any changes in the valuation allowance reflected in the period of change. The provision for income taxes was \$0.6 million, or 28.0%, for the six months ended June 29, 2003. The rate in 2003 was increased in the fourth quarter due to a one-time pension curtailment gain of \$8.1 million in 2003. The tax rate for the 2003 fiscal year was 32.5%.

Net (loss) income:

Net loss was \$6.4 million for the six months ended June 27, 2004 as compared to net income of \$1.6 million for the six months ended June 29, 2003, for the reasons discussed above.

Liquidity and Capital Resources

The Company's primary sources of liquidity and capital resources are cash generated from operations and, if needed, borrowings under its revolving credit facility. Net cash provided by operating activities was \$0.2 million and \$13.8 million for the six months ended June 27, 2004 and June 29, 2003, respectively. Additional sources of liquidity consist of capital and operating leases for financing leased restaurant locations (in malls and shopping centers and land or building leases), restaurant equipment, manufacturing equipment, distribution vehicles and computer equipment. Additionally, sales of under-performing existing restaurant properties and other assets (to the extent FICC's and its subsidiaries' debt instruments permit) are sources of cash. The amount of debt financing that FICC will be able to incur is limited by the terms of its New Credit Facility and New Senior Notes Indenture. Below was the financing status of the Company's operating restaurants at June 27, 2004:

| | |
|------------------------------------|-----|
| Owned and mortgaged | 72 |
| Sold and leased back | 61 |
| Owned land and building | 35 |
| Leased land, owned building | 82 |
| Leased land and building | 110 |
| Total Company-operated restaurants | 360 |

The restaurants above not identified as owned and mortgaged or sold and leased back secure the Company's obligations under the New Credit Facility. In addition to the 72 properties identified as owned and mortgaged, the Company owns an additional three properties in this category that are now operated by a franchisee. Of the 35 restaurant properties identified as owned land and building, six were available to be sold, if necessary, and of the 82 restaurant properties identified as leased land, owned building, one was available to be mortgaged, if necessary.

The Company's cash flows were used primarily to pay expenses associated with the tender offer for the Senior Notes, to maintain existing restaurant and plant facilities, to continue to renovate and re-image existing restaurants and for general corporate purposes. During the six months ended June 27, 2004 and June 29, 2003, the Company spent \$8.3 million and \$16.2 million, respectively, on capital expenditures, of which \$1.1 million and \$4.8 million, respectively, was for the renovation of restaurants under its revitalization and re-imaging programs. Capital expenditures were offset by proceeds from the sales of property and equipment of \$3.4 million for the six months ended June 27, 2004. There were no proceeds from the sales of property and equipment during the six months ended June 29, 2003.

The Company had a working capital deficit of \$13.3 million and \$4.2 million as of June 27, 2004 and December 28, 2003, respectively. The working capital needs of companies engaged in the restaurant industry are generally low and as a result, restaurants are frequently able to operate with a working capital deficit because: (i) restaurant operations are conducted primarily on a cash (and cash equivalent) basis with a low level of accounts receivable; (ii) rapid turnover allows a limited investment in inventories; and (iii) cash from sales is usually received before related expenses for food, supplies and payroll are paid.

Net cash used in financing activities was \$8.0 million and \$1.2 million for the six months ended June 27, 2004 and June 29, 2003, respectively.

In November 1997, FICC entered into a credit facility that included revolving credit loans, term loans and letters of credit (the Old Credit Facility). Also in November 1997, FICC completed a public offering of \$200 million of senior notes (the Senior Notes). In December 2001, the Company completed a financial restructuring plan (the Refinancing Plan) which included the repayment of the \$64.5 million outstanding under the Old Credit Facility and the purchase of approximately \$21.3 million in Senior Notes with the proceeds from \$55.0 million in long-term mortgage financing (the Mortgage Financing) and a \$33.7 million sale and leaseback transaction (the Sale/Leaseback Financing). In addition, FICC secured a new \$30.0 million revolving credit facility (the New Credit Facility) of which up to \$20.0 million is available to support letters of credit. On July 3, 2003, FICC obtained a limited waiver to the New Credit Facility allowing the purchase of certain of the Senior Notes in an amount up to \$3.0 million, subject to certain conditions. In July 2003, FICC purchased approximately \$2.7 million in aggregate principal amount of the Senior Notes for approximately \$2.8 million, the then current market value.

In February 2004, the Company announced a cash tender offer and consent solicitation for the \$176.0 million of Senior Notes to be financed with the proceeds from a private offering of new senior notes (the New Senior Notes), available cash and an amended New Credit Facility (the 2004 Refinancing). In March 2004, \$127.4 million of aggregate principal amount of Senior Notes were purchased at the tender offer and consent solicitation price of 104% of the principal amount and \$0.4 million of aggregate principal amount of Senior Notes were purchased at the tender offer price of 102% of the principal amount. In April 2004, the remaining \$48.2 million of Senior Notes were redeemed in accordance with the Senior Notes indenture at 103.5% of the principal amount. The Senior Notes would have matured on December 1, 2007. Interest on the Senior Notes was payable at 10.5% per annum semi-annually on June 1 and December 1 of each year. In connection with the tender offer, the Company wrote off unamortized deferred financing costs and incurred other direct expenses of \$9.2 million that were included in the accompanying condensed consolidated statement of operations for the six months ended June 27, 2004.

The \$175.0 million of New Senior Notes issued in March 2004 are unsecured senior obligations of FICC, guaranteed on an unsecured senior basis by FICC's Friendly's Restaurants Franchise, Inc. subsidiary, but are effectively subordinated to all secured indebtedness of FICC, including the indebtedness incurred under the New Credit Facility. The New Senior Notes mature on June 15, 2012. Interest on the New Senior Notes is payable at 8.375% per annum semi-annually on June 15 and December 15 of each year commencing June 15, 2004. The New Senior Notes are redeemable, in whole or in part, at any time on or after June 15, 2008 at FICC's option at redemption prices from 104.188% to 100.00%, based on the redemption date. In addition, at any time prior to June 15, 2007, FICC may redeem, subject to certain conditions, up to 35% of the aggregate principal amount of the New Senior Notes with the proceeds of one or more qualified equity offerings, as defined, at a redemption price of 108.375% of the principal amount, plus accrued interest.

In connection with the 2004 Refinancing, the New Credit Facility was amended in March 2004. The total commitment amount was increased from \$30.0 million to \$35.0 million and the maturity date was extended from December 17, 2005 to June 30, 2007, in addition to other changes.

The New Credit Facility is secured by substantially all of the assets of FICC and two of its six subsidiaries, Friendly's Restaurants Franchise, Inc. and Friendly's International Inc. These two subsidiaries also guarantee FICC's obligations under the New Credit Facility.

Edgar Filing: FRIENDLY ICE CREAM CORP - Form 10-Q

The New Credit Facility includes certain restrictive covenants including limitations on indebtedness, restricted payments such as dividends and stock repurchases and sales of assets and of subsidiary stock. Additionally, the New Credit Facility limits the amount which the Company may spend on capital expenditures, restricts the use of proceeds, as defined, from asset sales and requires the Company to comply with certain financial covenants. On July 23, 2004, the Company successfully obtained a limited waiver regarding a quarterly EBITDA covenant of its New Credit Facility.

The New Credit Facility has an annual clean-up provision, commencing in 2005, which obligates the Company to repay in full all revolving credit loans on or before September 30 (or, if September 30 is not a business day, as defined, then the next business day) of each year and maintain a zero balance on such revolving credit for at least 30 consecutive days, to include September 30, immediately following the date of such repayment.

The \$35.0 million revolving credit commitment less outstanding letters of credit is available for borrowing to provide working capital and for other corporate needs. As of June 27, 2004 and December 28, 2003, total letters of credit outstanding were approximately \$14.5 million and \$13.6 million, respectively. During the six months ended June 27, 2004 and June 29, 2003, there were no drawings against the letters of credit.

The revolving credit loans bear interest at the Company's option at either (a) the Base Rate plus the applicable margin as in effect from time to time (the Base Rate) (6.50% at June 27, 2004) or (b) the Eurodollar rate plus the applicable margin as in effect from time to time (the Eurodollar Rate) (5.76% at June 27, 2004). As of June 27, 2004 and December 28, 2003, there were no revolving credit loans outstanding and \$20.5 million and \$17.4 million, respectively, was available for borrowing.

The Company anticipates requiring capital in the future principally to maintain existing restaurant and plant facilities and to continue to renovate and re-image existing restaurants. Capital expenditures for 2004, including assets to be acquired under capital leases, are anticipated to be between \$20.0 million and \$25.0 million in the aggregate, of which \$15.0 million to \$20.0 million is expected to be spent on restaurant operations. The Company's actual 2004 capital expenditures may vary from these estimated amounts. The Company believes that the combination of the funds anticipated to be generated from operating activities and borrowing availability under the New Credit Facility will be sufficient to meet the Company's anticipated operating requirements, capital requirements and obligations associated with the restructuring reserves.

In January 2004, a settlement was reached in a lawsuit filed by the Company against a former administrator of one of the Company's benefit plans. The settlement was based on the administrator's alleged failure to adhere to the terms of a contract and resulted in a one-time payment to the Company of approximately \$3.8 million, which was received on April 2, 2004. As a result of this lawsuit, the Company incurred professional fees of approximately \$0.5 million which were included in the consolidated statement of operations for the year ended December 28, 2003 and an additional \$0.2 million in professional fees, which were offset against the payment in the accompanying condensed consolidated statement of operations for the six months ended June 27, 2004. The net cash proceeds were used in April 2004 in connection with the redemption of the remaining \$48.2 million of Senior Notes.

On March 5, 2004, the Company sold the real property and equipment for one franchised location and assigned the lease and sold the equipment for a second franchised location to the existing franchisee. Gross proceeds from the sale were approximately \$0.5 million, of which \$0.1 million was for franchise fees and \$0.4 million was for the sale of assets and lease assignment.

Edgar Filing: FRIENDLY ICE CREAM CORP - Form 10-Q

On January 15, 2004, the Company entered into an agreement granting Central Florida Restaurants LLC (Central Florida) certain limited exclusive rights to operate and develop Friendly s full-service restaurants in designated areas within the Orlando, Florida market (the Central Florida Agreement). Pursuant to the Central Florida Agreement, Central Florida purchased certain equipment assets, lease and sublease rights and franchise rights in 10 existing Friendly s restaurants and committed to open an additional 10 restaurants over the next six years with an option for 15 more restaurants in the following five years. Gross proceeds from the sale were approximately \$3.2 million of which approximately \$0.3 million was for franchise fees for the initial 10 restaurants.

During July 2003, the Company entered into a development agreement granting Jax Family Rest., Inc. (Jax) certain limited exclusive rights to operate and develop Friendly s full-service restaurants in designated areas within Baker, Clay, Nassau, Putnam and St. John s counties, Florida (the Jax Agreement). Pursuant to the Jax Agreement, Jax agreed to open 10 new restaurants over the next seven years. The Company received development fees of \$0.2 million, which represent one-half of the initial franchise fees. Jax opened one new restaurant during the three months ended June 27, 2004.

The following represents the contractual obligations and commercial commitments of the Company as of June 27, 2004 (in thousands):

| Contractual Obligations: | Total | Payments Due by Period | | | |
|---------------------------------------|------------|------------------------|--------------------------|--------------------------|--------------------------|
| | | Remainder of 2004 | Fiscal Years 2005 & 2006 | Fiscal Years 2007 & 2008 | Fiscal Years Beyond 2008 |
| Short-term and long-term debt | \$ 227,537 | \$ 577 | \$ 2,636 | \$ 3,179 | \$ 221,145 |
| Capital lease and finance obligations | 11,812 | 1,050 | 3,835 | 3,359 | 3,568 |
| Operating leases | 144,683 | 9,470 | 31,610 | 24,102 | 79,501 |
| Purchase commitments | 62,771 | 62,410 | 338 | 23 | |

| Other Commercial Commitments: | Total | Amount of Commitment Expiration by Period | | | |
|-------------------------------|-----------|---|--------------------------|--------------------------|--------------------------|
| | | Remainder of 2004 | Fiscal Years 2005 & 2006 | Fiscal Years 2007 & 2008 | Fiscal Years Beyond 2008 |
| Letters of credit | \$ 14,474 | \$ | \$ | \$ 14,474 | \$ |

Seasonality

Due to the seasonality of ice cream consumption, and the effect from time to time of weather on patronage of the restaurants, the Company s revenues and operating income are typically higher in its second and third quarters.

Geographic Concentration

Approximately 93% of the Company-operated restaurants are located, and substantially all of its retail sales are generated, in the Northeast. As a result, a severe or prolonged economic recession or changes in demographic mix, employment levels, population density, weather, real estate market conditions or other factors specific to this geographic region may adversely affect the Company more than certain of its competitors which are more geographically diverse.

Significant Accounting Policies

Financial Reporting Release No. 60 issued by the Securities and Exchange Commission requires all companies to include a discussion of critical accounting policies or methods used in the preparation of financial statements. The following is a brief discussion of the more significant accounting policies and methods used by the Company. The Company's condensed consolidated financial statements, including the notes thereto, which are included elsewhere herein, should be read in conjunction with this discussion.

Use of Estimates in the Preparation of Financial Statements -

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the dates of the financial statements and the reported amounts of revenues and expenses during the reporting periods. The critical accounting policies and most significant estimates and assumptions relate to revenue recognition, insurance reserves, recoverability of accounts receivable, valuation allowances and pension and other post-retirement benefits expense. Actual amounts could differ significantly from the estimates.

Revenue Recognition -

The Company's revenues are derived primarily from the operation of full-service restaurants, the distribution and sale of premium ice cream desserts through retail and institutional locations and franchising. The Company recognizes restaurant revenue upon receipt of payment from the customer and retail revenue, net of discounts and allowances, upon delivery of product. Reserves for discounts and allowances from retail sales are estimated and accrued when revenue is recorded based on promotional planners prepared by the Company's retail sales force. Actual amounts could differ materially from the estimates. Franchise royalty income, generally calculated as 4% of net sales of franchisees, is recorded monthly based upon the actual sales reported by each franchisee for the month just completed. Franchise fees are recorded as revenue upon completion of all significant services, generally upon opening of the restaurant.

Insurance Reserves -

The Company is self-insured through retentions or deductibles for the majority of its workers' compensation, automobile, general liability, employer's liability, product liability and group health insurance programs. Self-insurance amounts vary up to \$0.5 million per occurrence. Insurance with third parties, some of which is then reinsured through Restaurant Insurance Corporation (RIC), the Company's wholly owned subsidiary, is in place for claims in excess of these self-insured amounts. RIC reinsures 100% of the risk from \$0.5 million to \$1.0 million per occurrence through September 2, 2000 for FICC's workers' compensation, general liability, employer's liability and product liability insurance. Subsequent to September 2, 2000, the Company discontinued its use of RIC as a captive insurer for new claims.

The Company's liabilities for estimated ultimate losses for workers' compensation, automobile, general liability, employer's liability and product liability are actuarially determined and recorded in the accompanying condensed consolidated financial statements on an undiscounted basis. The projections of estimated ultimate losses are based on commonly used actuarial procedures. These procedures take into consideration certain actuarial assumptions or management judgments regarding economic conditions, the frequency and severity of claims and claim settlement practices. While the estimated ultimate losses are reasonable, any actuarial estimate is subject to uncertainty due to the volatility inherent in casualty exposures and changes in the assumptions. The Company's provision for insurance expense reflects estimated amounts for the current year as well as revisions in estimates to prior years. Actual losses could vary significantly from the estimated losses and would have a material affect on the Company's insurance expense.

The Company records a liability for its group health insurance programs for all estimated unpaid claims based primarily upon loss development analyses derived from actual claim payment experience provided by the Company's third party administrators.

Concentration of Credit Risk -

Financial instruments, which potentially expose the Company to concentrations of credit risk, consist principally of accounts receivable. The Company performs ongoing credit evaluations of its customers and generally requires no collateral to secure accounts receivable. The credit review is based on both financial and non-financial factors. The Company maintains a reserve for potentially uncollectible accounts receivable based on its assessment of the collectibility of accounts receivable.

Pension and Other Post-Retirement Benefits -

Certain of the Company's employees are covered under a noncontributory defined benefit pension plan. The determination of the Company's obligation and expense for pension and other post-retirement benefits is dependent upon the selection of certain assumptions used by actuaries in calculating such amounts. Those assumptions include, among other things, the discount rate, expected long-term rate of return on plan assets and rates of increase in health care costs. In accordance with accounting principles generally accepted in the United States, actual results that differ from the assumptions are accumulated and amortized over future periods and, therefore, generally affect the recognized expense and recorded obligation in such future periods. Significant differences in actual experience or significant changes in the assumptions may materially affect the future pension and other post-retirement obligations and expense.

Long-Lived Assets -

In accordance with SFAS No. 144, *Accounting for the Impairment or Disposal of Long-Lived Assets*, the Company reviews its Non-Friendly Marks, which were assigned to the Company by Hershey in September 2002, for impairment on a quarterly basis. The Company recognizes impairment has occurred when the carrying value of the Non-Friendly Marks exceeds the estimated future discounted cash flows of the trademarked products. Additionally, the Company reviews long-lived assets related to each restaurant to be held and used in the business quarterly for impairment or whenever events or changes in circumstances indicate that the carrying amount of a restaurant may not be recoverable. The Company evaluates restaurants using a two-year history of cash flow as the primary indicator of potential impairment. Based on the best information available, the Company writes down an impaired restaurant to its estimated fair market value, which becomes its new cost basis. Estimated fair market value is based on the Company's experience selling similar properties and local market conditions, less costs to sell for properties to be disposed of. In addition, restaurants scheduled for closing are reviewed for impairment and depreciable lives are adjusted. The impairment evaluation is based on the estimated cash flows from continuing use through the expected disposal date and the expected terminal value.

Considerable management judgment is necessary to estimate future cash flows, including cash flows from continuing use, terminal value, closure costs and sublease income. Accordingly, actual results could vary significantly from these estimates.

Income Taxes -

The Company accounts for income taxes in accordance with SFAS No. 109, *Accounting for Income Taxes*, which requires recognition of deferred tax assets and liabilities for the expected future tax consequences of events that have been included in the financial statements or tax returns. Management records deferred tax assets to the extent it believes there will be sufficient future taxable income to utilize those assets prior to their expiration. To the extent deferred tax assets may be unable to be utilized, the Company records a valuation allowance against the unrealizable amount and records a charge against earnings.

The Company records income taxes based on the effective rate expected for the year with any changes in the valuation allowance reflected in the period of change. As of June 27, 2004 and December 28, 2003, a valuation allowance of \$10.1 million existed related to state NOL carryforwards due to restrictions on the usage of state NOL carryforwards and short carryforward periods for certain states. Due to ever-changing tax laws and income tax rates, significant judgment is required to estimate the effective tax rate expected to apply to tax differences that are expected to reverse in the future. Management must also make estimates about the sufficiency of taxable income in future periods to offset any deductions related to deferred tax assets currently recorded. Accordingly, management believes estimates related to income taxes are critical.

Derivative Instruments and Hedging Agreements -

The Company purchases butter option contracts to minimize the impact of increases in the cost of cream. When available, options on butter futures are purchased to cover up to 50% of the cream needs of the manufacturing plant. Option contracts are offered in the months of March, May, July, September, October and December; however, there is often not enough open interest in them to allow the Company to buy even very limited coverage without paying high premiums.

In addition to hedging, the Company pursues fixed price cream contracts to manage dairy cost pressures. The Company was unable to find a supplier interested in an agreement for a fixed-price load of cream for part of the year or the full year of 2003 or 2004. The situation surrounding the supply of cream (which depends on milk production, milk per cow, number of cows, butter inventories, etc.) is very uncertain in the wake of the National Milk Producers Federation's Cooperatives Working Together program.

The Company's commodity option contracts do not meet hedge accounting criteria as defined by SFAS No. 133, Accounting for Derivative Instruments and Hedging Activities, and, accordingly, are marked to market each period, with the resulting gains or losses recognized in cost of sales. For the quarter ended June 27, 2004, losses of approximately \$0.3 million were included in cost of sales related to these option contracts. There were no gains or losses recognized during the quarter ended June 29, 2003. For the six months ended June 27, 2004, gains of approximately \$0.5 million were included in cost of sales related to these option contracts as compared to losses of approximately \$0.3 million for the six months ended June 29, 2003.

Contingencies -

From time to time the Company is named as a defendant in legal actions arising in the ordinary course of its business. The Company does not believe that the resolutions of these claims will have a material adverse effect on the Company's consolidated financial condition or consolidated results of operations.

Stock-Based Compensation -

The Company accounts for stock-based compensation for employees under Accounting Principles Board (APB) Opinion No. 25, Accounting for Stock Issued to Employees, and elected the disclosure-only alternative under SFAS No. 123, Accounting for Stock-Based Compensation. Stock-based compensation cost of approximately \$0.2 million related to modified option awards was included in net loss for the six months ended June 27, 2004 for the Company's Stock Option Plan and the Company's 2003 Incentive Plan. No stock-based compensation cost was included in net income for the six months ended June 29, 2003 for the Company's Stock Option Plan or the Company's 2003 Incentive Plan, as all options granted during this period had an exercise price equal to the market value of the stock on the date of grant. In accordance with SFAS No. 148, Accounting for Stock Based Compensation-Transition and Disclosure, the Company will continue to disclose the required pro-forma information in the notes to the consolidated financial statements.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

There has been no material change in the Company's market risk exposure since the filing of the 2003 Annual Report on Form 10-K.

Item 4. Controls and Procedures

Edgar Filing: FRIENDLY ICE CREAM CORP - Form 10-Q

As of June 27, 2004, an evaluation was performed under the supervision and with the participation of the Company's management, including the Chief Executive Officer (CEO) and Chief Financial Officer (CFO), of the effectiveness of the design and operation of the Company's disclosure controls and procedures (as defined in Rule 13a-15(e) under the Exchange Act). Based on that evaluation, the Company's CEO and CFO concluded that the Company's disclosure controls and procedures were effective as of June 27, 2004.

PART II - OTHER INFORMATION

Item 4. Submission of matters to a vote of security holders

- (a) An annual meeting of the Company's shareholders was held on May 19, 2004.
- (b) Not applicable.
- (c) At the Annual Meeting of Shareholders, the shareholders voted on the following matters:
 - (1) The election of two directors to serve until the 2007 Annual Meeting of Shareholders and
 - (2) The ratification of the appointment of the independent auditors for 2004

The voting results were as follows:

| Directors | Affirmative Votes | Votes Withheld |
|-------------------|-------------------|----------------|
| Michael J. Daly | 6,183,204 | 253,495 |
| Burton J. Manning | 6,203,624 | 233,075 |

Additional Directors, whose terms of office as Directors continued after the meeting, are as follows:

| Term Expiring in 2005 | Term Expiring in 2006 |
|---------------------------|-----------------------|
| Steven L. Ezzes | Donald N. Smith |
| Charles A. Ledsinger, Jr. | |

The proposal to approve the appointment of independent auditors for 2004 was approved by shareholders as follows:

Edgar Filing: FRIENDLY ICE CREAM CORP - Form 10-Q

| Affirmative Votes | Negative Votes | Votes Withheld |
|-------------------|----------------|----------------|
| 6,311,764 | 121,305 | 3,630 |

There were no matters voted upon at the Company's annual meeting to which broker non-votes applied.

Item 6. Exhibits and reports on Form 8-K

(a) Exhibits

The exhibit index is incorporated by reference herein.
