**Team Financial, Inc. and Subsidiaries**

**Notes to Unaudited Consolidated Financial Statements**

**Three and six month periods ended June 30, 2004 and 2003**

**(1) Basis of Presentation**

The accompanying unaudited consolidated financial statements of Team Financial, Inc. and Subsidiaries have been prepared in accordance with accounting principles generally accepted in the United States of America for interim financial information and with the instructions to Form 10-Q and Rule 10-01 of Regulation S-X. Accordingly, they do not include all of the information and footnotes necessary for a comprehensive presentation of financial condition and results of operations required by accounting principles generally accepted in the United States of America for complete financial statements. In the opinion of management, all normal recurring adjustments necessary for a fair presentation of results have been included. The consolidated financial statements should be read in conjunction with the audited consolidated financial statements included in our Annual Report on Form 10-K for the fiscal year ended December 31, 2003.

The interim consolidated financial statements include the accounts of Team Financial, Inc. and its wholly owned subsidiaries. Intercompany balances and transactions have been eliminated. The December 31, 2003 consolidated statement of financial condition has been derived from the audited consolidated financial statements as of that date. Certain amounts in the 2003 financial statements have been reclassified to conform to the 2004 presentation. The results of the interim periods ended June 30, 2004, are not necessarily indicative of the results that may occur for the year ending December 31, 2004.

**(2) Recent Accounting Pronouncements**

In January 2003, the Financial Accounting Standards Board issued Interpretation No. 46, *Consolidation of Variable Interest Entities*, (FIN 46). FIN 46 provides guidance on how to identify a variable interest entity (VIE) and determine when the assets, liabilities, non-controlling interests and results of operations of a VIE need to be included in a company's financial statements. VIEs are generally defined in FIN 46 as entities that either do not have sufficient equity to finance their activities without support from other parties or whose equity investors lack a controlling financial interest. In December 2003, the FASB issued a revised FIN 46 (FIN 46R), which required public companies to apply FIN 46 to special purpose entities by periods ending after December 15, 2003. We have a statutory trust, Team Financial Capital Trust I (the Trust) that was formed for the purpose of issuing Trust Preferred Securities. As a result of applying FIN 46R, the Trust is not consolidated in the financial statements of Team Financial, Inc. The impact of deconsolidating the Trust at December 31, 2003 was reporting \$16.0 million in subordinated obligation by Team Financial, Inc., representing \$15.5 million in subordinated debentures issued by Team Financial, Inc. in 2001, solely held by the Trust, and \$480,000 of common interest, on the financial statements of Team Financial Inc. The \$15.5 million Trust Preferred Securities issued by the Trust in 2001 will remain on the records of the Trust. The \$480,000 subordinated obligation reported by Team Financial Inc. is offset by an identical amount representing Team Financial, Inc.'s investment in the Trust and is included in other assets.

We continue to include the preferred securities in our Tier I capital for regulatory capital purposes.

**(3) Stock Compensation and Income Per Share**

Basic income per share excludes dilution and is computed by dividing income available to common shareholders by the weighted average number of common shares outstanding for the period. Diluted income per share reflects the potential dilution that could occur if securities or other contracts to issue common stock were exercised or converted into common stock.

We account for employee options under the intrinsic-value method prescribed by Accounting Principles Board Opinion No. 25 *Accounting for Stock Issued to Employees* with pro forma disclosures of net income and income per share, as if the fair value method of accounting defined in Statement of Financial Accounting Standards No. 123 *Accounting for Stock Based Compensation* (SFAS 123) had been applied. SFAS 123 establishes a fair value based method of accounting for stock based employee compensation plans. Under the fair value method, compensation cost is measured at the grant date based on the value of the award and is recognized over the vesting period. Under SFAS 123, our net income and net income per share would have decreased as reflected in the following pro forma amounts.

**(4) Stock Repurchase Program**

Under the stock repurchase program, we purchased 25,000 shares of common stock during the quarter ended June 30, 2004 at an average price of \$12.00. During the six months ended June 30, 2004, 50,000 shares of common stock were purchased at an average price of \$12.24. At June 30, 2004, 223,778 shares of common stock had been repurchased since the inception of the program in 2001 at an average price of \$10.62 per share. There are 76,222 shares of common stock remaining to be repurchased under the program.

**(5) Dividends Declared**

On May 25, 2004, we declared a quarterly cash dividend of \$0.08 per share to all shareholders of record on June 30, 2004, payable July 21, 2004.

**(6) Investment Securities**

The following tables summarize the amortized cost, gross unrealized gains and losses, and fair value of investment securities at June 30, 2004 and December 31, 2003.

Management does not believe that any of the securities with unrealized losses at June 30, 2004 are other than temporarily impaired due to changes in market rate from the date of purchase to June 30, 2004.

#### (7) **Goodwill**

Additional goodwill of \$925,000 recorded during the six months ended June 30, 2004 related to cash consideration paid in the first quarter 2004 to the former owners of the Quarles Agency, Inc, the insurance agency acquired in 2002. This payment of \$925,000 plus interest was contingently payable starting in 2004 based on the agency meeting certain revenue benchmarks during 2003. The contingent payment of \$925,000 was recorded as additional goodwill and the related interest was expensed during the first quarter of 2004. An additional contingent payment of \$925,000 plus interest could be distributable in 2005 if revenue benchmarks are achieved during 2004.

#### (8) **Notes payable and Other Borrowings**

The term note payable and the line of credit existing at December 31, 2003 were renegotiated during the first quarter of 2004, which resulted in combining the term note into the line of credit. The term note was paid off using borrowings under the line of credit. The line of credit maximum credit limit was \$6,000,000 and matured June 30, 2004. Management is in the process of negotiating a renewal of the line of credit. At June 30, 2004 the outstanding balance on the line of credit was \$3,407,000.

The following table summarizes the advances from the Federal Home Loan Bank and other borrowings at the specified periods:

#### (9) Commitments and Contingencies

Commitments to extend credit to our customers with unused approved lines of credit were \$61,913,000 at June 30, 2004. Additionally, the contractual amount of standby letters of credit at June 30, 2004 was approximately \$2,174,000. These commitments involve credit risk in excess of the amount stated in the consolidated balance sheet. Exposure to credit loss in the event of nonperformance by the customer is represented by the contractual amount of those instruments.

We entered into a contingent contract in connection with the acquisition of The Quarles Agency, Inc. in 2002. Contingent upon insurance agency revenue benchmark of \$4,000,000 each year ending 2003 and 2004, The Quarles Agency, Inc.'s shareholders will receive cash consideration of \$1,850,000 plus interest thereon at the Prime Rate published in the Wall Street Journal minus one percent. The cash consideration will be paid in two annual contingent payments of \$925,000 each beginning in 2004. Insurance revenues during 2003 met the \$4,000,000 benchmark and therefore, the first annual payment of \$925,000 plus interest was distributed in the first quarter 2004. If insurance revenues during 2004 meet the benchmark, another payment of \$925,000 plus interest will be distributable in 2005.

Item 2: **MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

**OVERVIEW**

Team Financial, Inc. is a financial holding company incorporated in the State of Kansas. Our common stock is listed on the Nasdaq National Market ( NASDAQ ) under the symbol TFIN .

We offer full service community banking and financial services through 19 locations in Kansas, Missouri, Nebraska, Oklahoma and Colorado through our wholly owned banking subsidiaries, TeamBank N.A and Colorado National Bank. Our presence in Kansas consists of seven locations in the Kansas City metropolitan area and three locations in southeast Kansas. We operate two locations in western Missouri, three in the metropolitan area of Omaha, Nebraska, two in Colorado Springs, Colorado and one in Monument, Colorado. Additionally, we provide insurance services in the Tulsa, Oklahoma metropolitan area.

Results of operations depend primarily on net interest income, which is the difference between interest income from interest-earning assets and interest expense on interest-bearing liabilities. Results of operations are also affected by non-interest income, such as service charges, insurance agency commissions, loan fees, and gains and losses from the sales of mortgage loans. The principal operating expenses, aside from interest expense, consist of compensation and employee benefits, occupancy costs, data processing expense and provisions for loan losses.

**FINANCIAL CONDITION**

Total assets at June 30, 2004, were \$647.4 million compared to \$649.8 million at December 31, 2003, a decrease of \$2.4 million. Loans receivable increased \$16.4 million to \$364.5 million at June 30, 2004, from \$348.1 million at December 31, 2003. The increases in loans receivable were funded with decreases in investment securities, which decreased \$15.1 million to \$206.2 million at June 30, 2004 from \$221.3 million at December 31, 2003 and through federal funds purchased and repurchase agreements which increased \$4.5 million to \$11.7 million at June 30, 2004 from \$7.2 million at December 31, 2003.

*Investment Securities*

Total investment securities were \$206.2 million at June 30, 2004, compared to \$221.3 million at December 31, 2003, a decrease of \$15.1 million, or 6.8%. Approximately \$10.2 million of the decrease in investment securities was the result of applying cash received from principal pay downs of mortgage backed securities and maturities of government agency securities to fund loan growth rather than re-investing in securities. Approximately \$4.4 million of the decrease was due to a decrease in the market value of the securities from December 31, 2003.

**Loans Receivable**

Edgar Filing: TEAM FINANCIAL INC /KS - Form 10-Q

Loans receivable increased \$16.4 million, or 4.7%, to \$364.5 million at June 30, 2004, compared to \$348.1 million at December 31, 2003. This increase was primarily due to increases in the commercial and commercial real estate portfolios in our markets of \$17.6 million, or 11.0%, to \$177.9 million at June 30, 2004, compared to \$160.3 million at December 31, 2003.

The following table presents the composition of the loan portfolio by type of loan at the dates indicated.

Edgar Filing: TEAM FINANCIAL INC /KS - Form 10-Q

Included in one-to-four family real estate loans were loans held for sale of approximately \$1.9 million at June 30, 2004 and \$1.2 million at December 31, 2003.

### Non-performing Assets

Non-performing assets consist of loans 90 days or more delinquent and still accruing interest, non-accrual loans, restructured loans and assets acquired through foreclosure. Loans are generally placed on non-accrual status when principal or interest is 90 days or more past due, unless the loans are well-secured and in the process of collection. Loans may be placed on non-accrual status earlier when, in the opinion of management, reasonable doubt exists as to the full, timely collection of interest or principal.

The following table summarizes non-performing assets:

	June 30, 2004		December 31, 2003	
	(Dollars in thousands)			
Non-performing assets:

Total non-performing assets	\$ 6,153	\$	8,377
Non-performing loans as a percentage of total loans	1.46%		2.09%
Non-performing assets as a percentage of total assets	0.95%		1.29%

Non-performing assets totaled approximately \$6.2 million at June 30, 2004, compared to \$8.4 million at December 31, 2003, representing a decrease of \$2.2 million or 26.2%. The decrease in non-performing assets was primarily a result of a decrease in non-accrual loans of approximately \$1.9 million due to the receipt of principal in the second quarter of June 30, 2004 on a loan of approximately \$2.0 million recorded as non-accrual at December 31, 2003.

Non-performing loans of approximately \$5.3 million at June 30, 2004 were comprised of several non-accrual loans totaling \$3.6 million and restructured loans totaling \$1.2 million. Loans reported as non-accrual at June 30, 2004 included several loans. The largest loan included in non-accrual was a loan of approximately \$1.3 million to an individual for a single-family dwelling. Other significant loans included in non-accrual at June 30, 2004 were \$375,000 with a trenching company, \$320,000 with an aluminum extrusion company, \$250,000 with a real estate development company, \$250,000 with an individual for a single family dwelling, \$200,000 to a land developer and \$200,000 to a roofing company. These loans, aggregating approximately \$2.9 million, had specific reserves of approximately \$900,000 at June 30, 2004. Management does not anticipate a loss on these credits in excess of the specific reserves.

At December 31, 2003, loans included in non-performing included \$2.6 million with a residential property developer, \$1.3 million with an individual for a single-family dwelling, \$382,000 with a trenching company and \$316,000 with an aluminum extrusion company.

Other real estate owned was approximately \$844,000 at June 30, 2004, compared to \$1.1 million at December 31, 2003. Other real estate owned at June 30, 2004 consisted of three commercial buildings totaling approximately \$194,000, seven one-to-four family properties totaling \$278,000, and three parcels of land totaling \$372,000. These 13 properties are all located within our market areas. Management is working to sell the real estate as soon as practical. During the six months ended June 30, 2004, management sold 12 other real estate properties for a net loss of approximately \$86,000.

Non-performing assets as a percent of total assets decreased to .95% at June 30, 2004, compared to 1.29% at December 31, 2003. The loan portfolio is continuously monitored for possible non-performing assets as information becomes available. The magnitude of any increase in non-performing loans is not determinable.

#### **Allowance for loan losses**

The allowance for loan losses is based on industry standards, historical experience, an evaluation of economic conditions and information regarding the collectibility of specific loans. The loan portfolio is regularly reviewed for delinquencies and other quality indicators. The evaluation of the allowance for loan losses is based on various estimates and assumptions. Actual losses may differ due to changing conditions or information that is currently not available.

The following table summarizes our allowance for loan losses:

<b>Six Months Ended June 30,</b>	
<b>2004</b>	<b>2003</b>

Edgar Filing: TEAM FINANCIAL INC /KS - Form 10-Q

	(Dollars in thousands)	
Allowance at beginning of period	\$ 4,506	\$ 4,611
Provision for estimated loan losses	560	487
Loans charged off	(434)	(663)
Recoveries	121	209
Allowance at end of period	\$ 4,753	\$ 4,644
Annualized net charge-offs as a percent of total loans	0.17%	0.26%
Allowance as a percent of total loans	1.30%	1.35%
Allowance as a percent of non-performing loans	89.53%	59.68%

Allowance for loan losses was 1.30% of total loans at June 30, 2004 compared to 1.35% at June 30, 2003 and 1.29% at December 31, 2003. The allowance for loan losses as a percent of non-performing loans increased to 89.53% at June 30, 2004, compared to 62.10% at December 31, 2003 and 59.68% at June 30, 2003. These increases were primarily due to the

receipt of approximately \$2.0 million of principal payments during the second quarter in 2004 on a large loan classified as non-accrual at December 31, 2003 and June 30, 2003.

#### **Premises and equipment, net**

Premises and equipment, net of accumulated depreciation, increased \$1.9 million to \$16.0 million at June 30, 2004 from \$14.1 million at December 31, 2003. This increase was primarily due to purchases of fixed assets for two new branch locations in Colorado. One branch in Colorado Springs opened in March 2004 and another branch in Monument, Colorado opened in June 2004.

#### **Goodwill**

Goodwill increased by \$925,000 to \$15.5 million at June 30, 2004 from \$14.5 million at December 31, 2003 related to cash consideration paid in the first quarter of 2004 to the former owners of The Quarles Agency, Inc, the insurance agency acquired in 2002. This payment of \$925,000 plus interest was contingently payable starting in 2004 based on the agency meeting certain revenue benchmarks during 2003. The contingent payment of \$925,000 was recorded as additional goodwill and the related interest was expensed during the quarter ended March 31, 2004. An additional contingent payment of \$925,000 plus interest could be distributable in 2005 if revenue benchmarks are achieved during 2004.

#### **Other Assets**

Other assets decreased \$4.7 million to \$4.1 million at June 30, 2004 from \$8.8 million at December 31, 2003. This decrease was primarily due to the timing of insurance premium billings related to one large insurance customer at December 31, 2003. At June 30, 2004, accounts receivables due from insurance customers were \$1.5 million and offsetting other liabilities for amounts due to insurance providers were \$1.3 million. At December 31, 2003, accounts receivables due from insurance customers were approximately \$6.0 million and offsetting other liabilities for amounts due to insurance providers were \$5.7 million.

#### **Deposits**

Total deposits increased approximately \$1.2 million to \$447.4 million at June 30, 2004 from \$446.2 million at December 31, 2003. This increase was primarily a result of an increase in money market deposits of approximately \$4.7 million offset by a decrease in certificates of deposit of approximately \$3.5 million.

#### **Federal funds purchased and securities sold under agreements to repurchase**

Federal funds purchased and securities sold under agreements to repurchase increased \$4.5 million, to \$11.7 million at June 30, 2004 compared to \$7.2 million at December 31, 2003. The increase is related to the increase in loan receivables described above.

**Regulatory Capital**

We are subject to regulatory capital requirements administered by the Federal Reserve, the Federal Deposit Insurance Corporation and the Comptroller of the Currency. Failure to meet the regulatory capital guidelines may result in the initiation by the Federal Reserve of appropriate supervisory or enforcement actions. As of June 30, 2004, we met all capital adequacy requirements to which we are subject. Regulatory capital ratios at June 30, 2004, were as follows:

<b>Ratio</b>	<b>Actual</b>	<b>Minimum Required</b>
Total capital to risk weighted assets	12.61%	8.00%
Core capital to risk weighted assets	11.43%	4.00%
Core capital to average assets	7.33%	4.00%

## Liquidity

Liquidity is continuously forecasted and managed in order to satisfy cash flow requirements of depositors and borrowers and meet other operating cash flow needs. We have developed internal and external sources of liquidity to meet our liquidity needs. These sources include, but are not limited to, the ability to raise deposits through branch promotional campaigns, maturity of overnight funds, short term investment securities classified as available-for-sale and draws on credit facilities established through the Federal Home Loan Bank. The most liquid assets are cash and cash equivalents and investment securities available-for-sale. The levels of these assets are dependent on our operating, financing, lending, and investing activities during any given period. At June 30, 2004, and December 31, 2003, these liquid assets totaled \$223.9 million and \$240.1 million, respectively.

## RESULTS OF OPERATIONS

### Net Interest Income

Net interest income before provision for loan losses for the three months ended June 30, 2004 totaled \$4.9 million compared to \$4.4 million for the same period in 2003, an increase of \$500,000, or 11.4%. Net interest income before provision for loan losses for the six months ended June 30, 2004, totaled \$9.5 million compared to \$9.0 million for the same period in 2003, an increase of \$500,000, or 5.6%.

Net interest margin, adjusted for the tax effect of tax exempt securities, as a percent of average earning assets was 3.53% for the three months ended June 30, 2004, compared to 3.13% for the three months ended June 30, 2003. Tax equivalent net interest margin as a percent of average earning assets was 3.46% for the six months ended June 30, 2004, compared to 3.29% for the six months ended June 30, 2003. The average cost of interest-bearing liabilities decreased 28 and 27 basis points for the respective three and six months ended June 30, 2004, compared to the same periods in 2003. The average rate of interest-earning assets increased 20 basis points for the quarter ended June 30, 2004 compared to the quarter ended June 30, 2003. The average rate of interest earning assets decreased 7 basis points for the six months ended June 30, 2004 compared to the same period in 2003. The result was an increase in the net interest income of \$496,000 and \$481,000 including the tax equivalent impact on tax exempt securities for the three and six months ended June 30, 2004 compared to the same periods in 2003.

The following tables present certain information relating to net interest income for the three and six months ended June 30, 2004 and 2003. The average rates are derived by dividing annualized interest income or expense by the average balance of assets and liabilities, respectively, for the periods shown.

The following table presents the components of changes in net interest income, on a tax equivalent basis, attributed to volume and rate. Changes in interest income or interest expense attributable to volume changes are calculated by multiplying the change in volume by the average interest rate during the prior year's respective three or six months periods. The changes in interest income or interest expense attributable to change in interest rates are calculated by multiplying the change in interest rate by the average volume during the prior year's respective three or six months periods. The changes in interest income or interest expense attributable to the combined impact of changes in volume and change in interest rate

are calculated by multiplying the change in rate by the change in volume.

- (1) Loans are net of deferred loan fees.
- (2) Non-accruing loans are included in the computation of average balances.
- (3) Loan fees are included in interest income. These fees for the three months ended June 30, 2004 and 2003 were \$232,000 and \$255,000, and for the six months ended June 30, 2004 and 2003 were \$484,000 and \$497,000.
- (4) Yield is adjusted for the tax effect of tax exempt securities. The tax effects for the three months ended June 30, 2004 and 2003 were \$217,000 and \$220,000, and for the six months ended June 30, 2004 and 2003 were \$434,000 and \$439,000.
- (5) 2003 restated for deconsolidation of a wholly owned subsidiary as a result of adopting FIN 46. See Note 2, Recent Accounting Pronouncements, in the unaudited consolidated financial statements.

*Interest-earning assets*

## Edgar Filing: TEAM FINANCIAL INC /KS - Form 10-Q

The average rate on interest-earning assets was 5.69% for the three months ended June 30, 2004, representing an increase of 20 basis points from 5.49% for the same three months ended 2003. The average rate on interest-earning assets was 5.66% for the six months ended June 30, 2004, representing a slight decrease of 7 basis points from 5.73% for the same six months ended 2003. Interest-earning assets are comprised of loans receivable, investment securities, interest-bearing deposits and an investment in a non-consolidated wholly owned subsidiary that was formed for the purpose of issuing Trust Preferred Securities.

The average rate on loans receivable decreased 39 basis points to 6.45% for the three months ended June 30, 2004, compared to 6.84% for the three months ended June 30, 2003. The average rate on loans receivable decreased 52 basis

points to 6.46% for the six months ended June 30, 2004, compared to 6.98% for the six months ended June 30, 2003. This decrease in average interest rate was offset by an increase in the average balance of loans receivable of approximately \$16.3 million from June 30, 2003.

Approximately \$200,000 of interest income on a non-accrual loan was reported in interest income during the quarter and six months ended June 30, 2004. Excluding this income, the average rate on loan receivables would have been 6.23% for the quarter ended June 30, 2004 and 6.35% for the six months ended June 30, 2004.

The average rate on taxable investment securities increased 53 basis points to 4.02% for the three months ended June 30, 2004 compared to 3.49% for the three months ended June 30, 2003 and 28 basis points to 4.04% for the six months ended June 30, 2004 compared to 3.76% for the six months ended June 30, 2003. The average rate on investment securities, adjusted for the tax effect of tax exempt securities, increased 59 basis points to 4.98% for the quarter ended June 30, 2004 compared to 4.39% for the quarter ended June 30, 2003 and 30 basis points to 4.46% for the six months ended June 30, 2004, compared to 4.16% for the six months ended June 30, 2003. This increase in average interest rate was offset by a decrease in the average balance during the three and six months ended June 30, 2004.

#### *Interest-bearing liabilities*

The average rate paid on interest-bearing liabilities decreased 28 basis points to 2.37% for the three months ended June 30, 2004, compared to 2.65% for the same three months ended 2003. The average rate paid on interest-bearing liabilities decreased 27 basis points to 2.42% for the six months ended June 30, 2004, compared to 2.69% for the same six months ended 2003. Interest-bearing liabilities are comprised of interest paid on savings and interest bearing checking deposits, time deposits, federal funds purchased and securities sold under agreements to repurchase, holding company notes payable, Federal Home Loan Bank advances and other borrowings, and subordinated debentures held by our subsidiary trust which issued the 9.50% preferred securities.

The average rate paid on interest-bearing savings and interest-bearing checking deposits decreased 18 basis points to 0.63% for the three months June 30, 2004 compared to 0.81% for the three months ended June 30, 2003. The average rate paid on time deposits decreased 47 basis points to 2.25% during the second quarter of 2004 from 2.72% during the second quarter of 2003. The average rate paid on interest-bearing savings and interest-bearing checking deposits decreased 21 basis points to 0.65% for the six months ended June 30, 2004, compared to 0.86% for the six months ended June 30, 2003. The average rate paid on time deposits decreased 52 basis points to 2.29% during the six months ended June 30 2004 compared to 2.81% during the six months ended June 30 2003.

The average rate paid on the 9.50% subordinated debentures, which was issued in connection with the sale by our wholly-owned subsidiary, Team Financial Capital Trust I, of 9.50% trust preferred securities was 9.79% for the six months ended June 30, 2004 and 2003. The difference between the contractual interest rate of 9.50% on the trust preferred securities and the 9.79% recorded interest rate, is the amortization of debt issuance costs. The debt issuance costs are being amortized over a 30-year period.

#### *Balance sheet management strategy*

We initiated a long-term balance sheet management strategy starting in the fourth quarter 2001 to increase the asset sensitivity of our balance sheet with the expectation of benefiting from an anticipated increase in interest rates and to borrow long-term borrowings during the period of historically low interest rates.

Under this strategy we borrowed \$88.0 million in Federal Home Loan advances and purchased short-term investment securities and funded loans. The Federal Home Loan Bank borrowings, which carry an average rate of 4.02%, consist of \$70.0 million in 10-year fixed rate advances convertible to floating rate advances if LIBOR increases to a range of 6.0% to 7.50% within the 10 years, \$10.0 million in 5-year fixed rate advances convertible to floating rate advances if LIBOR increases to 7.50% within the 5 years, \$5.0 million in 10-year floating rate advances and \$3.0 million in fixed rate advances.

The cumulative spread since the inception of the transactions through June 30, 2004, was approximately \$977,000. The spread during the three months ended June 30, 2004 was approximately \$175,000 compared to a spread of (\$206,000) during the three months ended June 30, 2003. The spread for the six months ended June 30, 2004 was approximately \$359,000 compared to the spread of (\$262,000) for the six months ended June 30, 2003.

A decreasing interest rate environment may cause an unfavorable impact on our net interest income and net interest margin and an increasing interest rate environment may increase net interest income over the remaining borrowing period, but the actual magnitude of this impact cannot be estimated. For further information on the effect of future interest rate changes on net interest income, see Asset and Liability Management section in Item 3 of this form.

#### Provision for Loan Losses

A provision for losses on loans is charged to earnings to bring the total allowance for loan losses to a level considered appropriate by management based on historical loss experience, the volume and type of lending conducted, the status of past due principal and interest payments, general economic conditions, particularly as such conditions relate to our market areas, and other factors related to the collectibility of the loan portfolio. After considering the above factors, management recorded a provision for loan losses on loans

totaling \$310,000 for the three months ended June 30, 2004, and \$142,000 for the three months ended June 30, 2003. **The provision for loan losses for the six months ended June 30, 2004, was \$560,000, compared to \$487,000 for the six months ended June 30, 2003.**

#### Non-Interest Income

The following table summarizes non-interest income for the three and six months ended June 30, 2004, compared to the same periods ended June 30, 2003.

	Three Months Ended		Six Months Ended	
	2004	2003	2004	2003
	(In thousands)			
Service charges	\$ 1,012	\$ 896	\$ 1,842	\$ 1,701
Trust fees	161	145	312	274
Insurance commissions	912	1,174	2,112	2,310
Brokerage service revenue	39	94	149	178
Gain on sales of mortgage loans	377	771	720	1,422
Gain (loss) on sales of investment securities	(35)	149	(29)	150
Mortgage servicing fees	75	87	152	168
Merchant processing fees	54	40	103	83
ATM and debit card fees	91	87	169	157
Bank owned life insurance income	210	224	425	453
Other	86	120	187	295
Total non-interest income	\$ 2,982	\$ 3,787	\$ 6,142	\$ 7,191

## Edgar Filing: TEAM FINANCIAL INC /KS - Form 10-Q

Non-interest income for the three months ended June 30, 2004, was approximately \$3.0 million, a decrease of \$800,000, or 21.1%, from \$3.8 million for the three months ended June 30, 2003. Non-interest income for the six months ended June 30, 2004 was \$6.1 million, a decrease of \$1.1 million, or 15.3%, from \$7.2 million for the six months ended June 30, 2003.

Insurance commissions decreased approximately \$262,000, or 22.3%, in the three months ended June 30, 2004 and \$198,000, or 8.6%, in the six months ended June 30, 2004 compared to the same time periods ended June 30, 2003. This decrease is due to a decrease in insurance policy renewals in 2004 compared to 2003.

Gain on sales of mortgage loans decreased \$394,000, or 51.1%, during the quarter ended June 30, 2004 and \$702,000, or 49.4%, during the six months ended June 30, 2004 compared to the same periods ended June 30, 2003. The decrease in gain on sales of mortgage loans experienced in 2004 was the result of the decrease in the volume of loans originated and sold compared to 2003. The gain on sales of mortgage loans experienced during the three or six months ended June 30, 2004

may not be indicative of gains in future periods. The magnitude of any future decreased gains cannot be quantified by management at this time.

The sale of a mutual fund investment in 2004 at a loss of \$35,000 resulted in a net loss during the quarter ended June 30, 2004 compared to the activity in the quarter ended June 30, 2003, which resulted in net gains of \$149,000. This created the decrease in the gain on sales of investment securities for the three and six months ended June 30, 2004 compared to the same time periods ended June 30, 2003.

### Non-Interest Expense

The following table presents non-interest expense for the three and six months ended June 30, 2004, compared to the same periods ended June 30, 2003.

	Three Months Ended June 30		Six Months Ended June 30	
	2004	2003	2004	2003
	(In thousands)			
Salaries and employee benefits	\$ 3,385	\$ 3,539	\$ 6,887	\$ 6,983
Occupancy and equipment	760	672	1,500	1,389
Data processing	640	531	1,252	1,031
Professional fees	382	304	669	615
Marketing	132	107	221	198
Supplies	91	102	191	210
Intangible asset amortization	263	347	513	676
Disposal of branch assets		258		258
Conversion		50		50
Other	974	891	1,922	1,768
Total non-interest expenses	\$ 6,627	\$ 6,801	\$ 13,155	\$ 13,178

Non-interest expense decreased \$200,000, or 2.9%, to \$6.6 million, for the three months ended June 30, 2004, compared to \$6.8 million for the three months ended June 30, 2003. Non-interest expense decreased \$23,000, or less than 1%, for the six months ended June 30, 2004 compared to the six months ended June 30, 2003.

Data processing expense increased approximately 21.0% during the three and six months ended June 30, 2004 compared to the same periods ended June 30, 2003. This increase in expenses was offset by a decrease in disposal of branch assets of \$258,000. In 2003 costs to terminate a building lease and dispose of the fixed assets of a branch facility were incurred. There were no branch assets disposed of during the six months ended June 30, 2004.

### Income Tax Expense

## Edgar Filing: TEAM FINANCIAL INC /KS - Form 10-Q

We recorded income tax expense of \$165,000 for the three months ended June 30, 2004, a decrease of \$80,000 compared to an income tax expense of \$245,000 for the three months ended June 30, 2003. Income tax expense for the six months ended June 30, 2004 was \$357,000, a decrease of \$230,000 from \$587,000 recorded for the six months ended June 30, 2003.

The effective tax rate for the three months ended June 30, 2004, was 18.0%, compared to 20.1% for the three months ended June 30, 2003. The effective tax rate for the six months ended June 30, 2004, was 18.4%, compared to 23.0% for the six months ended June 30, 2003. The decrease in the effective tax rate was attributed to the increase in the non-taxable municipal interest income and income from the investment in bank-owned life insurance as compared to taxable interest income.

The effective tax rate is less than the statutory federal rate of 34.0% due primarily to municipal interest income and income from the investment in bank owned life insurance.

### Item 3: **QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK**

#### Asset and Liability Management

Asset and liability management refers to management's efforts to minimize fluctuations in net interest income caused by interest rate changes. This is accomplished by managing the repricing of interest rate sensitive interest-bearing assets and interest-bearing liabilities. Controlling the maturity of repricing of an institution's liabilities and assets in order to minimize interest rate risk is commonly referred to as gap management.

The following table indicates that at June 30, 2004, if there had been a sudden and sustained increase in prevailing market interest rates, our 2004 interest income would be expected to increase, while a decrease in rates would indicate a decrease in income.

Change in interest rates	Net interest income	(Decrease) increase	% change
	(Dollars in thousands)		
200 basis point rise	\$ 22,339	\$ 1,391	6.64%
100 basis point rise	21,643	695	3.32%
Base rate scenario	20,948		
100 basis point decline	18,788	(2,160)	(10.31)%
200 basis point decline	15,616	(5,332)	(25.45)%

### Item 4: **CONTROLS AND PROCEDURES**

#### *Evaluation of Disclosure Controls and Procedures*

As of June 30, 2004, management, including the Chief Executive Officer and Chief Financial Officer, performed an evaluation of the effectiveness of the design and operation of our disclosure controls and procedures pursuant to Rule 13a-15(e) and Rule 15d-15(e) of the Securities Exchange Act of 1934. Based upon that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures are effective in recording, processing, summarizing and reporting information required to be disclosed within the time periods specified in the Securities Exchange Commission's rules and forms.

#### *Change in Internal Controls*

Edgar Filing: TEAM FINANCIAL INC /KS - Form 10-Q

No changes in our internal controls over financial reporting have occurred during the last fiscal quarter that have materially affected, or are reasonably likely to materially affect, our internal controls over financial reporting.

**PART II OTHER INFORMATION**

## Item 1. LEGAL PROCEEDINGS

We are from time to time involved in routine litigation incidental to the conduct of our business. We believe that no pending litigation to which we are a party will have a material adverse effect on our liquidity, financial condition, or results of operations.

## Item 2. CHANGES IN SECURITIES, USE OF PROCEEDS AND ISSUER PURCHASES OF EQUITY SECURITIES

(e) The following table summarizes information about the shares of common stock we repurchased during the six months ended June 30, 2004.

Period	Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Program	Maximum Number of Shares That May Yet Be purchased Under The Program
January 1- January 31				126,222
February 1-February 29	10,000	12.59	10,000	116,222
March 1 - March 31	15,000	12.39	15,000	101,222
April 1-April 30				101,222
May 1-May 31	10,000	12.00	10,000	91,222
June 1- June 30	15,000	12.00	15,000	76,222
Total	50,000	\$ 12.24	50,000	

The Board of Directors approved a stock repurchase program, announced January 4, 2001, authorizing the repurchase of up to 300,000 shares of our common stock. The stock repurchase program does not have an expiration date. During the six months ended June 30, 2004, all stock repurchases were made pursuant to this repurchase plan.
