Notes to Consolidated Financial Statements (Unaudited)

(Dollar and share amounts in thousands, except per share data)

Note 1 - Description of Business and Basis of Presentation

The accompanying unaudited consolidated financial statements have been prepared in accordance with generally accepted accounting principles for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. These financial statements should be read in conjunction with the audited consolidated financial statements of the Company for the fiscal year ended December 31, 2004, included in the Company's Annual Report on Form 10-K. Operating results for the three- and six-month periods ended June 30, 2005 are not necessarily indicative of the results that may be expected for the year ending December 31, 2005. The traditional semester programs in the education industry, with a summer break, result in significant seasonality in the operating results of Laureate Education, Inc. and subsidiaries (the Company). The consolidated balance sheet at December 31, 2004 has been derived from the audited financial statements at that date but does not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. Certain amounts previously reported for 2004 have been reclassified to conform to the 2005 presentation.

The Company is focused exclusively on providing a superior higher education experience to over 172,000 students through the leading global network of accredited campus-based and online universities and higher education institutions (higher education institutions). The Company's educational offerings are delivered through three separate reportable segments: Campus Based - Latin America (Latin America), Campus Based - Europe (Europe) and Laureate Online Education. The campus-based segments of Latin America and Europe own or maintain controlling interests in ten and seven separately accredited higher education institutions, respectively. The Latin America segment has locations in Mexico, Chile, Peru, Ecuador, Panama, and Costa Rica. The Europe segment has locations in Spain, Switzerland, and France. The Laureate Online Education segment provides career-oriented degree programs to working adult students through Walden E-Learning, Inc. (Walden), Laureate Online Education BV, and Canter and Associates (Canter).

Note 2 Significant Accounting Policies

Stock Based Compensation

The Company records compensation expense for all employee and director stock-based compensation plans using the intrinsic value method and provides pro forma disclosures of net income and net earnings per common share as if the fair value method had been applied in measuring stock compensation expense. Under the intrinsic value method, stock compensation expense is defined as the difference between the amount payable upon exercise of an option and the quoted market value of the underlying common stock on the date of grant or measurement date, or in the case of issuances of restricted stock, the quoted market value of unrestricted shares of common stock on the date of grant. Any resulting compensation expense is recognized ratably over the vesting period, or over the period that the restrictions lapse.

Edgar Filing: LAUREATE EDUCATION, INC. - Form 10-Q

The Company records compensation expense for all stock options granted to non-employees who are not directors in an amount equal to their estimated fair value at the earlier of the performance commitment date or the date at which performance is complete, determined using the Black-Scholes option pricing model. The compensation expense is recognized ratably over the vesting period.

For purposes of pro forma disclosures, the estimated fair value of the options is amortized to expense over the options' vesting periods.

Impact of Recently Issued Accounting Standards

In December 2004, the Financial Accounting Standards Board issued Statement of Financial Accounting Standards (SFAS) No. 123 (revised 2004) (SFAS 123R), *Share-Based Payment*. SFAS 123R requires all share-based payments to employees, including grants of employee stock options, to be recognized in the income statement based on their fair values. As permitted by SFAS 123, the Company currently accounts for share-based payments to employees using Accounting Principles Board Opinion 25, which generally recognizes no compensation expense for employee stock options with exercise prices at the date of grant equal to or greater than the quoted market value of the underlying stock. The adoption of the fair value method under SFAS 123R could have a significant impact on the results of operations. SFAS 123R also requires the benefits of tax deductions in excess of recognized compensation expense to be reported as a cash flow from financing activities rather than a cash flow from operating activities. This requirement will reduce net cash flow from operations and increase net cash flow from financing activities in the periods after adoption. The effective date is the first annual reporting period beginning after June 15, 2005. The Company is currently evaluating pricing models and the transition provisions of this standard and will begin applying the provisions of SFAS 123R in the first quarter of 2006.

Note 3 - Discontinued Operations

During the first quarter of 2005, the Company closed the sale of its Wall Street Institute (WSI) business. During 2004, the Company terminated its program in India and sold its remaining K-12 educational services businesses. The operations and cash flows of the business components comprising WSI, India, and K-12 educational services businesses were eliminated from ongoing operations as a result of the sale or abandonment and the Company will not have any significant continuing

involvement in the operations after the disposal transactions. Therefore, these operations are classified as discontinued operations for all periods.

WSI Business

The WSI business owns and operates English-language learning centers in four countries and is a franchisor of English language learning centers in 21 countries. On December 31, 2004, the Company and WSI Education S.a.r.l. executed an Agreement for Purchase of Shares that provided for the sale of substantially all of the Company's WSI business units and investments. At that time, the purchase price was estimated to be \$40,000 based on eight times the projected 2004 earnings before interest, taxes, depreciation, and amortization (EBITDA) of \$5,000. At closing, the consideration for the sale of the shares comprising the WSI business unit consisted of the following:

Cash of \$15,000;

A subordinated note in the amount of \$15,000, bearing interest at 12.5%; and

An estimated \$10,000 other receivable payable in cash. This receivable is included in current other receivables in the accompanying consolidated balance sheet.

Subsequent to the closing date of February 28, 2005, the final base purchase price was determined to be \$40,000 as estimated in December 2004. The Company is entitled to additional consideration if the operating results of WSI exceed specified levels of earnings in 2005 and 2006, up to a maximum of \$11,500.

In addition, the Company agreed to continue to finance the \$15,000 subordinated note received at closing with a senior promissory note bearing market interest (initially at 8%) with a step up provision of 0.5% per annum. The note matures in July 2010. Additionally, the Company will receive a payment of \$2,000 in recognition of net working capital conveyed at closing.

During the fourth quarter of 2004, the Company recorded an estimated loss on disposal of WSI of \$10,187, net of income tax expense of \$3,202. The loss reflected the change in the net realizable value of the net assets of the WSI business (including changes in the carrying value of the net assets resulting from foreign currency fluctuations) adjusted for estimated costs to close the WSI sale and accrued expenses related to indemnifications specified in the agreement.

During the second quarter of 2005, the Company recorded an additional estimated loss on disposal of \$3,114, consisting primarily of income tax expense of \$2,491. This additional expense resulted from a change in the Company's estimate of the tax liabilities incurred in connection with this transaction. The loss reflected the write off of additional net assets of WSI from the time of the definitive agreement, December 31, 2004, through the close of the transaction.

Summarized Financial Information of Discontinued Operations

Note 8 - Income Taxes

Edgar Filing: LAUREATE EDUCATION, INC. - Form 10-Q

The Company's income tax provisions for all periods consist of federal, state, and foreign income taxes. The tax provisions for the three- and six-month periods ended June 30, 2005 and 2004 were based on the estimated effective tax rates applicable for the 2005 and 2004 full years, after giving effect to significant items related specifically to the interim periods, including the mix of income for the period between higher and lower taxed jurisdictions. The Company's effective tax rate from continuing operations was 14.3% and 14.0% for the three- and six-months ended June 30, 2005 respectively and 17.6% and 16.9% for the three- and six-months ended June 30, 2004, respectively. The increase in the forecasted effective rate from the first quarter to the second quarter is due to changes in the mix of earnings between higher and lower taxed jurisdictions. The Company has operations in multiple countries, many of which have statutory tax rates lower than the United States. Generally lower tax rates in these foreign jurisdictions result in an effective tax rate significantly lower than the United States statutory rate.

In June of 2004, the Internal Revenue Service (IRS) completed their field examination of the Company s 1998 and 1999 federal income tax returns. In connection with this examination, the Company received notice of certain adjustments proposed by the IRS, primarily related to transfer pricing and the timing of certain deductions.

The Company vigorously disagrees with the proposed adjustments and intends to aggressively contest the proposed adjustments through applicable IRS and judicial procedures, as appropriate. Although the final resolution of the proposed adjustments is uncertain, based on current information, in the opinion of the management, the ultimate disposition of these matters will not have a material adverse effect on the Company s consolidated financial position, liquidity or results of operations.

Note 9 Stockholders Equity

Edgar Filing: LAUREATE EDUCATION, INC. - Form 10-Q

The components of stockholders' equity are as follows:

	Common Stock	Additional Paid-In Capital	Retained Earnings	Accumulated Other Comprehensive Income	Total Stockholders Equity
Balance at December 31, 2004	\$ 488	\$ 474,928	\$ 355,989	\$ 47,230	\$ 878,635
Options exercised for purchase of 741 shares of common stock, including income tax benefit of \$8,374	7	16,903			16,910
Non-cash stock compensation		1,194			1,194
Other	1	(399)			(398)
Comprehensive income:					
Net income for the six months ended June 30, 2005			24,402		24,402
Foreign currency translation adjustment				(22,550)	(22,550)
Unrealized gain on available-for-sale securities				53	53

Balance at June 30, 2005	\$ 496	\$ 492,626	\$ 380,391	\$ 24,711	\$ 898,224

Note 10 Comprehensive Income

The components of comprehensive income, net of related income taxes, are as follows:

	Three months ended June 30,		Six months ended June 30,	
	2005	2004	2005	2004
Net income	\$ 19,806	\$ 20,810	\$ 24,402	\$ 20,426
Foreign currency translation adjustment	(6,047)	(8,005)	(22,550)	(13,879)
Unrealized gain on available-for-sale securities, net of tax	39		53	
Minimum pension liability adjustment		(213)	(22)	(207)
Comprehensive income	\$ 13,798	\$ 12,592	\$ 1,883	\$ 6,340

The foreign currency translation adjustment of \$22,550 for the six months ended June 30, 2005 relates to the effects of translating the financial statements of the Company's foreign subsidiaries to U.S. Dollars, and primarily reflects the devaluation of the Euro and Swiss Franc against the U.S. Dollar during that period.

Note 12 Commitments and Contingencies*Purchase Obligations*

Edgar Filing: LAUREATE EDUCATION, INC. - Form 10-Q

As part of the 2004 acquisition of Ecole Centrale d Electronique (ECE), the Company committed to purchase the remaining 30% ownership from the sellers on December 31, 2008 for approximately \$8,472. The purchase obligation is denominated in Euros, and is subject to foreign currency exchange rate risk on the date of payment.

As part of the 2004 acquisition of Institut Francais de Gestion, SAS (IFG), the Company committed to additional capital contributions, which will increase the Company's share of ownership. The agreement provides that, no later than July 31, 2006 and July 31, 2007, the Company must contribute approximately \$1,517 and \$2,260, respectively, resulting in an increase in ownership share of 16% and 23%, respectively. In addition, during the period October through November 2008, the sellers may exercise a put option requiring the Company to purchase the remaining 10% ownership for approximately \$968. The purchase obligation is denominated in Euros, and is subject to foreign currency exchange rate risk on the dates of payment.

Loss Contingencies

The Company is subject to legal actions arising in the ordinary course of its business. In management's opinion, the Company has adequate legal defenses and/or insurance coverage with respect to the eventuality of such actions and does not believe any settlement would materially affect the Company's financial position.

Contingent Payments

In connection with certain acquisitions, variable amounts of contingent consideration are payable to the seller based upon specified terms. All existing contingent consideration agreements are predicated upon improved operating profitability of the acquired entities and utilize multiples consistent with those used to calculate the initial purchase price. The Company will record the contingent consideration when the contingencies are resolved and the additional consideration is payable.

Additional amounts of contingent consideration are due the sellers of Universidad de Las Americas (UDLA) based on operating results for the three years ending December 31, 2006. On the later of March 31, 2006 or 45 days after the Company receives the audited financial statements of Decon, the holding company that controls and operates UDLA, the Company is obligated to the sellers for an amount equal to 60% of six times (i) average EBIT for 2004 and 2005, less (ii) 2000 EBIT; this result is reduced by (iii) 42% of certain specified debt. Assuming EBIT remains at 2004 levels for 2005, the Company would be obligated to the sellers for approximately \$60,866. No later than March 31, 2007, the Company is obligated to the sellers for an amount equal to 20% of four times (i) average EBIT for 2005 and 2006; this result is reduced by (ii) 20% of certain specified debt and (iii), \$6,500. Assuming EBIT remains at 2004 levels for 2005 and 2006, the Company would be obligated to the sellers for approximately \$12,559. The Company has pledged its shares of Decon to satisfy its payment obligations to the sellers. The Company cannot dispose of, lien or encumber the shares without the prior approval of the sellers.

Effective April 1, 2008 the minority owners of UDLA have the right to require the Company to purchase their remaining 20% interest in Decon for a variable purchase price based on average EBIT for certain specified periods. Effective April 1, 2009 the Company has a call right to acquire the remaining 20% interest under a similar methodology for certain specified periods.

Effective April 1, 2009 the minority owners of UNAB and Academia de Idiomas y Estudios Profesionales (AIEP) have the right to require the Company to purchase their 20% interest for a variable purchase price based on average EBIT for certain specified periods. Effective April 1, 2009 the Company has a call right to acquire this 20% interest under a similar methodology for certain specified periods.

Additional amounts of contingent consideration, not to exceed \$10,000, are due the sellers of KIT eLearning BV equal to four times the average of the audited earnings before interest, income taxes, depreciation and amortization for the calendar years ending December 31, 2006 and 2007. KIT eLearning BV was acquired on March 31, 2004 and is operated as Laureate Online Education BV.

Guarantees

Subsequent to the June 2003 divestiture of the Company's K-12 business segments, all leases related to Sylvan Learning Centers were renegotiated or assigned in the name of Educate, Inc. (Educate) during the third quarter of 2003. Leases with remaining payments of \$5,802 through December 2008 are guaranteed by the Company. Under the terms of the Asset Purchase Agreement with Educate, the Company is indemnified against any losses suffered as a result of these lease guarantees. During 2004, the Company entered into an agreement to guarantee lease payments owed by Kendall College to Key Equipment Finance. Leases with remaining payments of \$4,710 through December 2011 are guaranteed by the Company. The fair value of the guarantees have been recorded as other long-term liabilities in the consolidated balance sheets.

Standby Letters of Credit

The Company has \$15,296 outstanding in standby letters of credit. The Company is self-insured for workers compensation and other insurable risks up to predetermined amounts above which third party insurance applies. The Company is contingently liable to insurance carriers under certain of these policies and has provided a letter of credit in favor of the insurance carriers for \$1,258. The Company has also issued a standby letter of credit in the amount of \$1,468 assuring the collectibility of a line of credit at AIEP, which is being used for working capital purposes. The outstanding balance on the line of credit was \$1,382 at June 30, 2005. In the first quarter of 2005, the company issued a \$12,000 standby letter of credit in favor of WSI Education S.a.r.l. for a tax indemnification related to the sale of WSI.

Commitments

Under terms of note agreements with Kendall College, the Company has committed to provide additional funding to Kendall College of up to \$3,600.

Note 13 - Business and Geographic Segment Information

The Company is focused exclusively on providing a superior higher education experience to its over 172,000 students through a leading global network of accredited campus-based and online higher education institutions. The Company's educational services are offered through three reportable segments: Latin America, Europe and Laureate Online Education.

The accounting policies of the segments are the same as those described in the significant accounting policies. The Company evaluates performance based on profit or loss from operations before income taxes, corporate general and administrative expenses, non-cash stock compensation expense and campus-based overhead expenses.

The Latin America segment consists of eight separately accredited universities and two accredited professional institutes, and has operations in Mexico, Chile, Peru, Ecuador, Panama, and Costa Rica. Latin America higher education institutions currently enroll approximately 134,000 full-time students and offer more than 100 degree programs through 36 campuses. The schools primarily serve 18- to 24-year-old students as well as working adults and offer an education that emphasizes career-oriented fields of study with undergraduate and graduate degrees in a wide range of disciplines, including international business, law, health sciences, information technology and engineering.

The Europe segment consists of one accredited university and several other accredited post-secondary institutions, and has operations in Spain, Switzerland, and France. Europe higher education institutions currently enroll approximately 15,000 full-time students and offer more than 75 degree programs through 8 campuses. The schools primarily serve 18- to 24-year-old students and offer an education that emphasizes career-oriented fields of study with undergraduate and graduate degrees in a wide range of disciplines, including international business, hotel management, health sciences, architecture and engineering.

The Company believes that all of its campus-based higher education institutions benefit from strong academic reputations and brand awareness, and established operating histories. Each school also has flexible, non-tenured, teaching-focused faculty and is led by an experienced local management team.

The Laureate Online Education segment offers undergraduate and graduate degree programs to working professionals through distance learning. Laureate Online Education consists of Walden, Canter, and Laureate Online Education BV, which collectively offer degree programs including education, psychology, health and human services, management, engineering, and information technology. Laureate Online Education institutions currently enroll approximately 23,000 students.

Edgar Filing: LAUREATE EDUCATION, INC. - Form 10-Q

These reportable segments are business units that offer distinct services and are managed separately. The campus-based reportable segments of Latin America and Europe are not aggregated with Laureate Online Education as Laureate Online Education offers services to a different class of customer, through a different delivery system, and with different economic characteristics. The Latin America and Europe segments are managed separately and have certain differences in classes of customer and economic characteristics, and thus are not aggregated together.

Prior to 2004, the Company's reportable segments consisted of Campus Based and Laureate Online Education. The segment information for the three- and six- month periods ended June 30, 2004 has been reclassified to conform to current year presentation.

The following table sets forth information on the Company's reportable segments:

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The statements contained herein include forward-looking statements within the meaning of Section 21E of the Securities Exchange Act of 1934, as amended. Forward-looking statements include information about possible or assumed results of operations, business strategies, financing plans, competitive position and potential growth opportunities. Forward-looking statements include all statements that are not historical facts and are generally accompanied by words such as may, will, intend, anticipate, believe, estimate, expect, should or similar expressions. Forward-looking statements also relate to the Company's contingent payment obligations relating to acquisitions, future capital requirements, potential acquisitions and the Company's future development plans and are based on current expectations. Forward-looking statements involve various risks, uncertainties and assumptions.

Future events and actual results could differ materially from those set forth in the forward-looking statements as a result of many factors. These factors may include, without limitation: the Company's ability to continue to make acquisitions and to successfully integrate and operate acquired businesses; changes in student enrollment; the effect of new technology applications in the educational services industry; failure to maintain or renew required regulatory approvals, accreditations or authorizations; the Company's ability to effectively manage business growth; possible increased competition from other educational service providers; the effect on the business and results of operations of fluctuations in the value of foreign currencies; and the many risks associated with the operation of an increasingly global business, including complicated legal structures, legal, tax and economic risks and the risk of changes in the business climate in the markets where the Company operates. These forward-looking statements are based on estimates, projections, beliefs and assumptions of management and speak only as of the date made and are not guarantees of future performance.

Overview

Laureate is focused exclusively on providing a superior higher education experience to its over 172,000 students through the leading global network of accredited campus-based and online higher education institutions. The Company's educational services are offered through three separate reportable segments: Campus Based - Latin America (Latin America), Campus Based - Europe (Europe) and Laureate Online Education. Latin America and Europe own or maintain controlling interests in ten and seven separately accredited higher education institutions, respectively. The Latin America segment has locations in Mexico, Chile, Peru, Ecuador, Panama, and Costa Rica. The Europe segment has locations in Spain, Switzerland, and France. The Laureate Online Education segment provides career-oriented degree programs to approximately 23,000 students through Walden E-Learning, Inc. (Walden), Laureate Education Online BV, and Canter and Associates (Canter).

Sale of Business Units

On February 28, 2005, the Company closed the sale of its Wall Street Institute (WSI) business to WSI Education S.a.r.l.. The WSI business was classified as a discontinued operation in both 2004 and 2005. See Note 3 to the unaudited consolidated financial statements for more information regarding this transaction.

Seasonality

Edgar Filing: LAUREATE EDUCATION, INC. - Form 10-Q

Most of the schools in the Company's network have a summer break when classes are generally not in session and during which minimal revenues are recognized. Operating expenses, however, do not fully correlate to the enrollment and revenue cycles, as the schools continue to incur fixed costs during summer breaks. As a result, the fourth quarter is the Company's strongest quarter because all of its higher education institutions are in session. The second quarter is also strong as most schools have classes in session, although the Company's largest school, located in Mexico, is in session for only part of that quarter. The first and third quarters are weaker quarters because the majority of the Company's schools have summer breaks for some portion of one of these two quarters. Due to this seasonality, revenues and profits in any quarter are not necessarily indicative of results in subsequent quarters.

The following chart shows the enrollment cycles for each higher education institution. In the chart, shaded areas represent periods when classes are generally in session and revenues are recognized. Areas that are not shaded represent summer breaks during which revenues are not typically recognized. For the Campus Based Latin America and Campus Based Europe segments, the large circles indicate the Primary Enrollment start dates of the Company's schools, and the small circles represent Secondary Enrollment start dates (smaller intake cycles). For the Online segment, the large circles

represent large enrollment intakes, the medium circles represent moderate enrollment intakes, and the X indicates minor enrollment intakes. Enrollment and revenue recognition are year round for the Online segment.

Notes:

- (1) Mexico Region includes Mexico, Costa Rica and Panama
- (2) Andean Region includes Chile, Ecuador and Peru
- (3) In addition to the above indicated intakes, the Online segment has many other smaller intakes happening during the fiscal year.

The Company's segment direct costs include all expenses incurred by operating units, including selling and administrative expenses. The Company's campus-based segments' overhead represents centralized costs incurred in support of the international network of universities, relating primarily to strategic planning, resource allocation, identification of acquisition targets, and oversight of acquisition transactions. These centralized costs are not properly allocable to the operating results of Latin America and Europe.

The following comparison of results of operations focuses on the continuing operations of the Company.

Comparison of results for the three months ended June 30, 2005 to results for the three months ended June 30, 2004.

Revenues. Total revenues increased by \$59.5 million, or 38%, to \$217.8 million for the three months ended June 30, 2005 (the 2005 fiscal quarter) from \$158.3 million for the three months ended June 30, 2004 (the 2004 fiscal quarter). This revenue increase was driven primarily by increased total enrollment at the Company's higher education institutions, plus the impact of acquisitions within the last two years.

Latin America revenue for the 2005 fiscal quarter increased by \$36.1 million, or 43%, to \$119.2 million compared to the 2004 fiscal quarter. Enrollment increases of 17.6% in schools owned in both fiscal quarters added revenues of \$13.8 million over the 2004 fiscal quarter. The acquisition of Universidad Peruana de Ciencias Aplicadas (UPC) and Universidad Latinoamericana de Ciencia y Tecnologia (ULACIT) as well as the acquisition of two campuses at Universidad del Valle de Mexico (UVM) within the last 12 months contributed additional revenue of \$17.2 million. For schools owned in both fiscal quarters, the Company increased local currency tuition by a weighted average of 2.8%, which served to increase revenues by \$3.7 million. Each institution in the segment offers programs at various prices based upon degree program. For the 2005 fiscal quarter, the effects of product mix resulted in a \$4.2 million reduction in revenue compared to the 2004 fiscal quarter, primarily due to lower-priced working adult and high school enrollments. The effects of currency translation increased revenues by \$5.6 million, primarily due to the strengthening of the Chilean Peso and Mexico Peso relative to the U.S. Dollar. Latin America revenue represented 55% of total revenues for the 2005 fiscal quarter, and 53% of total revenues for the 2004 fiscal quarter.

Europe revenue for the 2005 fiscal quarter increased by \$12.5 million, or 31%, to \$53.0 million compared to the 2004 fiscal quarter. Enrollment increases of 1% in schools owned in both fiscal quarters added revenues of \$0.3 million over the 2004 fiscal quarter. The acquisition of Ecole Centrale d'Electronique (ECE) and Institut Francais de Gestion (IFG) within the last 12 months contributed additional revenue of \$10.8 million. For schools owned in both fiscal quarters, the Company increased local currency tuition by a weighted average of 6.0%, which served to increase revenues by \$2.4 million. Each institution in the segment offers programs at various prices based upon degree or certificate program. For the 2005 fiscal quarter, the effects of product mix resulted in a \$2.8 million reduction in revenue compared to the 2004 fiscal quarter, primarily due to lower-priced post-graduate enrollment growth in Spain and Hospitality exceeding undergraduate enrollment growth. The effects of currency translation increased revenues by \$1.8 million, due to the strengthening of the Euro and Swiss Franc against the U.S. Dollar. Europe revenue represented 24% of total revenues for the 2005 fiscal quarter and 26% for the 2004 fiscal quarter.

Laureate Online Education revenue increased by \$10.9 million, or 32%, to \$45.6 million for the 2005 fiscal quarter compared to the 2004 fiscal quarter. Enrollment increases of 29% added revenues of \$7.0 million. Tuition increases accounted for \$1.5 million of additional revenues, and other factors, primarily a favorable change in degree program mix, added \$2.4 million. Laureate Online Education revenue represented 21% of total revenues for the 2005 fiscal quarter, and 22% of total revenues for the 2004 fiscal quarter.

Direct Costs. Total direct costs of revenues increased by \$49.7 million, or 39%, to \$178.1 million for the 2005 fiscal quarter from \$128.4 million for the 2004 fiscal quarter. Direct costs represented 82% of total revenues in the 2005 fiscal quarter and 81% of total revenues for the 2004 fiscal quarter.

Latin America direct costs increased by \$27.2 million to \$89.6 million, or 75% of Latin America revenue for the 2005 fiscal quarter, compared to \$62.4 million or 75% of Latin America revenue for the 2004 fiscal quarter. An increase of \$9.9 million in direct costs reflected higher expenses due to increased enrollments and expanded operating activities compared to the 2004 fiscal quarter. Acquired businesses increased direct costs by \$13.5 million. For the 2005 fiscal quarter, the effects of currency translations increased direct costs by \$3.9 million, primarily the strengthening of the Chilean Peso and Mexican Peso against the U.S. Dollar.

Europe direct costs increased by \$11.4 million to \$45.4 million, or 86% of Europe revenue for the 2005 fiscal quarter, compared to \$34.0 million, or 84% of Europe revenue for the 2004 fiscal quarter. The margin decline was due to the strategic acquisition of a relatively lower margin business. Higher enrollments and expanded operations at the higher education institutions compared to the 2004 fiscal quarter increased direct costs by \$0.5 million, and acquired businesses increased direct costs by \$9.4 million. For the 2005 fiscal quarter, the effects of currency translations increased direct costs by \$1.5 million, due to the strengthening of the Euro and Swiss Franc against the U.S. Dollar.

Campus-based segments' overhead expense increased by \$0.5 million to \$2.9 million for the 2005 fiscal quarter, compared to \$2.4 million for the 2004 fiscal quarter, representing 1.7% and 1.9% of total campus based revenues, respectively.

Laureate Online Education direct costs increased by \$10.6 million to \$40.2 million, or 88% of Laureate Online Education revenue for the 2005 fiscal quarter, compared to \$29.6 million, or 85% of Laureate Online Education revenue for the 2004 fiscal quarter. The increase in direct costs as a percentage of revenues reflects investment in brand development and student recruiting services. These investments were partially offset by increased efficiencies in program delivery as a result of higher enrollment volumes.

Other Operating Expenses. Other expenses decreased by \$1.6 million to \$6.1 million for the 2005 fiscal quarter from \$7.7 million for the 2004 fiscal quarter.

General and administrative expenses increased by \$0.3 million in the 2005 fiscal quarter to \$5.7 million from \$5.4 million in the 2004 fiscal quarter, reflecting the growth in the Company's global operations.

Non-cash stock compensation expense decreased \$1.9 million to \$0.4 million for the 2005 fiscal quarter compared to \$2.3 million for the 2004 fiscal quarter. The decrease was primarily due to a non-recurring variable stock option charge in the 2004 fiscal quarter related to the inadvertent exercise of stock options by employees on a net share basis.

Non-Operating Income/Expense. Non-operating income/expense decreased to an expense of \$0.4 million in the 2005 fiscal quarter from income of \$14.2 million in the 2004 fiscal quarter.

Interest and other income decreased \$12.7 million to \$3.3 million from \$16.0 million in the 2004 fiscal quarter, primarily due to a reduction in interest income related to the early repayment of a note receivable originally issued on June 30, 2003, as partial consideration for the sale of the Company's K-12 segments to Educate, Inc. ("Educate") with an original issue discount of \$13.4 million.

Interest expense increased \$1.1 million primarily due to indebtedness assumed in the Company's 2004 acquisitions.

Minority Interest in Income of Consolidated Subsidiaries, Net of Tax. Minority interest in income of consolidated subsidiaries increased \$0.1 million to \$6.2 million in the 2005 fiscal quarter from \$6.1 million in the 2004 fiscal quarter. This increase was primarily due to an increase in net income at Universidad de Las Americas ("UDLA") and Universidad Andres Bello ("UNAB") as well as the acquisition of UPC, partially offset by the impact of the Company's buy-out of

the ownership interests of the minority shareholders at Walden and Universidad Europea de Madrid (UEM) in September 2004 and December 2004, respectively.

Income Taxes. The Company has operations in multiple countries, many of which have statutory tax rates lower than those of the United States. Approximately 80% of the Company's revenues are generated outside the United States. Generally lower effective tax rates in these foreign jurisdictions result in an effective tax rate significantly lower than the United States statutory rate.

The tax provisions for the 2005 and 2004 fiscal quarters were based on the estimated effective tax rates applicable for the 2005 and 2004 full years, after giving effect to significant items related specifically to the interim periods, including the mix of income for the period between higher and lower taxed jurisdictions. The Company's effective tax rates from continuing operations were 14.3% and 17.6% for the 2005 and 2004 fiscal quarters, respectively.

Comparison of results for the six months ended June 30, 2005 to results for the six months ended June 30, 2004.

Revenues. Total revenues increased by \$111.5 million, or 38%, to \$401.9 million for the six months ended June 30, 2005 (the 2005 fiscal six-month period) from \$290.4 million for the six months ended June 30, 2004 (the 2004 fiscal six-month period). This revenue increase was driven primarily by increased total enrollment at the Company's higher education institutions, plus the impact of acquisitions within the last two years.

Latin America revenue for the 2005 fiscal six-month period increased by \$57.8 million, or 39%, to \$207.2 million compared to the 2004 fiscal six-month period. Enrollment increases of 17.6% in schools owned in both fiscal six-month periods added revenues of \$25.7 million over the 2004 fiscal six-month period. The acquisition of UPC and ULACIT as

well as the acquisition of two campuses at UVM within the last 12 months contributed additional revenue of \$28.5 million. For schools owned in both fiscal six-month periods, the Company increased local currency tuition by a weighted average of 2.8%, which served to increase revenues by \$7.3 million. Each institution in the segment offers programs at various prices based upon degree program. For the 2005 fiscal six-month period, the effects of product mix resulted in a \$8.8 million reduction in revenue compared to the 2004 fiscal six-month period, primarily due to lower-priced working adult and high school enrollments. The effects of currency translation increased revenues by \$5.1 million, primarily due to the strengthening of the Chilean Peso and Mexican Peso relative to the U.S. Dollar. Latin America revenue represented 52% of total revenues for both periods presented.

Europe revenue for the 2005 fiscal six-month period increased by \$28.0 million, or 34%, to \$109.6 million compared to the 2004 fiscal six-month period. Enrollment increases of 0.9% in schools owned in both fiscal six-month periods added revenues of \$0.5 million over the 2004 fiscal six-month period, and the acquisition of Institute of Executive Development (IEDE), ECE and IFG within the last 12 months contributed additional revenue of \$21.7 million. For schools owned in both fiscal six-month periods, the Company increased local currency tuition by a weighted average of 6%, which served to increase revenues by \$4.8 million. Each institution in the segment offers programs at various prices based upon degree or certificate program. For the 2005 fiscal six-month period, the effects of product mix resulted in a \$3.1 million reduction in revenue compared to the 2004 fiscal six-month period, primarily due to lower-priced post-graduate enrollment growth in Spain and Hospitality exceeding undergraduate enrollment growth. The effects of currency translation increased revenues by \$4.1 million, due to the strengthening of the Euro and Swiss Franc against the U.S. Dollar. Europe revenue represented 27% of total revenues for the 2005 fiscal six-month period and 28% for the 2004 fiscal six-month period.

Laureate Online Education revenue increased by \$25.7 million, or 43%, to \$85.0 million for the 2005 fiscal six-month period compared to the 2004 fiscal six-month period. Enrollment increases of 29%, excluding Laureate Online Education, B.V., added revenues of \$12.9 million, and the Laureate Online Education B.V. acquisition added revenues of \$2.9 million. Tuition increases accounted for \$2.6 million of additional revenues, and other factors, primarily a favorable change in degree program mix, added \$7.3 million. Laureate Online Education revenue represented 21% of total revenues for the 2005 fiscal six-month period, and 20% of total revenues for the 2004 fiscal six-month period.

Direct Costs. Total direct costs of revenues increased \$99.0 million, or 39%, to \$349.9 million for the 2005 fiscal six-month period from \$250.9 million for the 2004 fiscal six-month period. Direct costs represented 87% of total revenues in the 2005 fiscal six-month period and 86% of total revenues for the 2004 fiscal six-month period.

Latin America direct costs increased by \$47.8 million to \$172.8 million, or 83% of Latin America revenue for the 2005 fiscal six-month period, compared to \$125.0 million or 84% of Latin America revenue for the 2004 fiscal six-month period. An increase of \$17.9 million in direct costs reflected higher expenses due to increased enrollments and expanded operating activities compared to the 2004 fiscal six-month period. Acquired businesses increased direct costs by \$26.3 million. For the 2005 fiscal six-month period, the effects of currency translations increased direct costs by \$3.6 million, primarily the strengthening of the Chilean Peso and Mexican Peso against the U.S. Dollar.

Europe direct costs increased by \$26.7 million to \$93.2 million, or 85% of Europe revenue for the 2005 fiscal six-month period, compared to \$66.5 million, or 81% of Europe revenue for the 2004 fiscal six-month period. The margin decline was due to the strategic acquisition of a relatively lower margin business. Higher enrollments and expanded operations at the higher education institutions compared to the 2004 fiscal six-month period increased direct costs by \$3.1 million, and acquired businesses increased direct costs by \$20.3 million. For the 2005 fiscal six-month period, the effects of currency translations increased direct costs by \$3.3 million, due to the strengthening of the Euro and Swiss Franc against the U.S. Dollar.

Campus-based segments overhead expense increased by \$0.2 million to \$5.5 million for the 2005 fiscal six-month period, compared to \$5.3 million for the 2004 fiscal six-month period. These amounts represent 1.7% and 2.3% of campus based revenues, respectively.

Laureate Online Education direct costs increased by \$24.3 million to \$78.4 million, or 92% of Laureate Online Education revenue for the 2005 fiscal six-month period, compared to \$54.1 million, or 91% of Laureate Online Education revenue for the 2004 fiscal six-month period. This margin decline resulted from program efficiencies due to higher enrollment volumes being offset by investments in brand development and student recruiting services.

Other Operating Expenses. Other expenses decreased by \$0.6 million to \$13.1 million for the 2005 fiscal six-month period from \$13.7 million for the 2004 fiscal six-month period.

General and administrative expenses increased by \$1.2 million in the 2005 fiscal six-month period to \$11.9 million from \$10.7 million in the 2004 fiscal six-month period. The increase in expenses was primarily due to higher payroll and other employee related costs resulting from increased headcount, training costs and travel expenses to support the rapid growth in the Company's global operations.

Non-cash stock compensation expense decreased \$1.8 million to \$1.2 million for the 2005 fiscal six-month period compared to \$3.0 million for the 2004 fiscal six-month period. The decrease was primarily due to a non-recurring variable stock option charge in the 2004 fiscal six-month period related to the inadvertent exercise of stock options by employees on a net share basis.

Non-Operating Income/Expense. Non-operating income/expense decreased to expense of \$0.1 million for the 2005 fiscal six-month period from income of \$16.3 million in the 2004 fiscal six-month period.

Interest and other income decreased \$13.6 million to \$5.7 million from \$19.3 million in the 2004 fiscal six-month period, primarily due to a reduction in interest income related to the early repayment of a note receivable originally issued on June 30, 2003, as partial consideration for the sale of the Company's K-12 segments to Educate with an original issue discount of \$13.4 million.

Interest expense increased \$1.9 million primarily due to indebtedness assumed with the Company's 2004 acquisitions.

Minority Interest in Income of Consolidated Subsidiaries, Net of Tax. Minority interest in income of consolidated subsidiaries decreased \$1.4 million to \$7.1 million in the 2005 fiscal six-month period from \$8.5 million in the 2004 fiscal six-month period. This decrease was primarily due to the impact of the Company's buy-out of the ownership interests of the minority shareholders at Walden and UEM in September 2004 and December 2004, respectively, partially offset by an increase in net income at UVM and UNAB and the acquisitions of IFG and ECE.

Income Taxes. The Company has operations in multiple countries, many of which have statutory tax rates lower than the United States. Approximately 80% of the Company's revenues are generated outside the United States. Generally lower effective tax rates in these foreign jurisdictions results in an effective tax rate significantly lower than the United States statutory rate.

The tax provisions for the 2005 and 2004 fiscal six-month periods were based on the estimated effective tax rates applicable for the 2005 and 2004 full years, after giving effect to significant items related specifically to the interim periods, including the mix of income for the period between higher and lower taxed jurisdictions. The Company's effective tax rates from continuing operations were 14.0% and 16.9% for the 2005 and 2004 fiscal six-month periods, respectively.

Liquidity and Capital Resources

Cash provided by operations was \$69.0 million for the 2005 fiscal six-month period, an increase of \$20.8 million from \$48.2 million for the 2004 fiscal six-month period. This increase was driven by several factors, including a \$4.0 million increase in net income for the 2005 fiscal six-month period. Adjustments for significant non-cash income and expense included a \$6.9 million increase in depreciation and amortization, a \$3.2 million reduction in non-cash stock compensation in the 2005 fiscal six-month period, and a \$2.4 million loss on disposition of discontinued operations in the 2005 fiscal six-month period only. In addition, the 2004 fiscal six-month period net income included \$12.7 million of a non-cash acceleration of original issue discount that did not recur in the 2005 fiscal six-month period. Non-cash activity in deferred income taxes decreased by \$9.3 million between the 2004 and 2005 fiscal six-month periods. Minority interest in consolidated subsidiaries was \$1.4 million less in the 2005 fiscal six-month period than in the 2004 fiscal six-month period, reflecting the minority interest buyouts at Walden and UEM in the second half of 2004. The change in operating assets and liabilities was a source of cash in both fiscal six-month periods- \$12.1 million in the 2005 fiscal six-month period versus \$3.2 million in the 2004 fiscal six-month period. This increase is due primarily to receipt of a \$15.7 million income tax refund in the 2005 fiscal six-month period

Cash used in investing activities increased \$62.1 million from \$23.8 million for the fiscal six-month period 2004 to \$85.9 million for fiscal six-month period 2005. Late in the second quarter of 2004, the Company collected a \$55.0 million related

Edgar Filing: LAUREATE EDUCATION, INC. - Form 10-Q

party note receivable taken in connection with the 2003 sale of its K-12 business segments. Investing activities in the 2005 fiscal six-month period included \$12.7 million collected in connection with the disposition of discontinued operations, which is \$42.3 million less than in the 2004 fiscal six-month period. The 2005 fiscal six-month period also included a \$23.9 million increase in payments of deferred consideration for prior period acquisitions than did the 2004 fiscal six-month period, primarily due to payments to prior owners of Walden and UNAB. Net transactions in available-for-sale securities used \$7.3 million less cash and purchases of property and equipment were \$4.0 million lower in the 2005 fiscal six-month period than in the 2004 fiscal six-month period.

Cash used in financing activities for fiscal six-month period 2005 was \$12.7 million compared to cash provided by financing activities for fiscal six-month period 2004 of \$9.0 million, a change of \$21.7 million. The most significant component of this change was an increase in a net reduction in debt from \$3.7 million in the 2004 fiscal six-month period to \$19.9 million in the 2005 fiscal six-month period.

The Company anticipates that cash flow from operations, available cash and existing credit facilities will be sufficient to meet its operating requirements, including expansion of its existing business, funding campus-based higher education institution acquisitions, and payment of contingent consideration. The Company continues to examine opportunities in the educational services industry for potential synergistic acquisitions and expects that existing capital resources (including credit facilities) will be sufficient to continue to acquire businesses in the educational services industry. However, if the Company were to pursue a number of large acquisitions, additional debt or equity capital may be required. The Company cannot be certain that this capital would be available on attractive terms, if at all.

Contractual Obligations and Contingent Matters

The following tables reflect the Company's contractual obligations and other commercial commitments as of June 30, 2005:

Contractual Obligations	Total	Payments Due by Period (in thousands)

The tax provisions for the 2005 and 2004 fiscal six-month periods were based on the estimated effective tax rates of 14.7% and 14.7%, respectively.

(1) Effective June 30, 2003, the Company entered into an unsecured line of credit agreement of \$30.0 million, with a \$5.0 million sub-limit for standby letters of credit, which is intended for working capital purposes. The line of credit expires in

August 2005. There was no outstanding balance on the line of credit at June 30, 2005. Individual units within campus-based operations have unsecured lines of credit, which total \$27.7 million, primarily for working capital purposes. The aggregate outstanding balance on the campus-based segments' lines of credit was \$20.9 million at June 30, 2005, which is included in the current portion of long-term debt. The weighted average short-term borrowing rates were 7.0% and 4.6% at June 30, 2005 and 2004, respectively.

(2) In connection with the sale of substantially all of the Company's K-12 segments to Educate, the Company entered into a three-year management service agreement with Educate. Under the terms of the agreement, Educate provides certain support services, including specified accounting, benefits, IT, human resources, purchasing and payroll services to Laureate. Conversely, the Company will provide certain support services, primarily in the areas of facilities, tax, and treasury, to Educate. The agreement is based on a fixed-fee, adjusted as appropriate based on increases to predetermined service volumes. The net fee due to Educate on an annual basis is approximately \$3.0 million.

(3) Subsequent to the divestiture of the K-12 segments, all leases related to Sylvan Learning Centers acquired by Educate were renegotiated or assigned in the name of Educate during the third quarter of 2003. Leases with remaining payments of \$5.8 million through December 2008 are guaranteed by the Company. Under the terms of the Asset Purchase Agreement with Educate, the Company is indemnified against any losses suffered as a result of these lease guarantees. During 2004, the Company entered into an agreement to guarantee lease payments owed by Kendall College to Key Equipment Finance. Leases with remaining payments of \$4.7 million through December 2011 are guaranteed by the Company under this agreement.

(4) As part of the 2004 acquisition of ECE, the Company committed to purchase the remaining 30% ownership from the sellers on December 31, 2008 for approximately \$8.5 million. The agreement is denominated in Euros, and is subject to foreign currency exchange rate risk on the date of payment. As part of the fourth quarter 2004 acquisition of IFG, the Company committed to additional capital contributions, which will increase the Company's share of ownership. The agreement provides that, no later than July 31, 2006 and July 31, 2007, the Company must contribute approximately \$1.5 million and \$2.2 million, respectively, resulting in an increase in ownership share of 16% and 23%, respectively. In addition, during the period October through November 2008, the sellers may exercise a put option requiring the Company to purchase the remaining 10% ownership for approximately \$1.0 million. The agreement is denominated in Euros, and is subject to foreign currency exchange rate risk on the dates of payment.

(5) The Company has approximately \$15.3 million outstanding in standby letters of credit. The Company is self-insured for workers compensation and other insurable risks up to predetermined amounts above which third party insurance applies. The Company is contingently liable to insurance carriers under certain of these policies and has provided a letter of credit in favor of the insurance carriers for approximately \$1.3 million. The Company has also provided a standby letter of credit in the amount of \$1.5 million assuring the collectibility of a line of credit at Academia de Idiomas y Estudios Profesionales (AIEP), which is being used for working capital purposes. The outstanding balance on the AIEP line of credit was \$1.4 million at June 30, 2005. In the first quarter of 2005, the Company obtained a \$12.0 million standby letter of credit in favor of WSI Education S.A.R.L. for a tax indemnification related to the WSI sale.

(6) Under terms of the note agreements with Kendall College, the Company has committed to provide additional funding to Kendall College of up to \$3.6 million.

In connection with certain acquisitions, variable amounts of contingent consideration are payable to the sellers based upon specified terms. All existing contingent consideration agreements are predicated upon improved operating profitability of the acquired entities, based on multiples consistent with those used to calculate the initial purchase price. The Company will record the contingent consideration when the contingencies are resolved and the additional consideration becomes payable.

Additional amounts of contingent consideration are due the sellers of UDLA based on operating results for the three years ending December 31, 2006. On the later of March 31, 2006 or 45 days after the Company receives the audited financial statements of Decon, the holding company that controls and operates UDLA, the Company is obligated to the sellers for an amount equal to 60% of six times (i) average earnings before interest and income taxes (EBIT) for 2004 and 2005, less (ii) 2000 EBIT; this result is reduced by (iii) 42% of certain specified debt. Assuming EBIT remains at 2004 levels for 2005, the Company would be obligated to the sellers for approximately \$60.9 million. No later than March 31, 2007, the Company is obligated to the sellers for an amount equal to 20% of four times (i) average EBIT for 2005 and 2006; this result is reduced by (ii) 20% of certain specified debt and (iii), \$6.5 million. Assuming EBIT remains at 2004 levels for

2005 and 2006, the Company would be obligated to the sellers for approximately \$12.6 million. The Company has pledged its shares of Decon to satisfy its payment obligations to the sellers. The Company cannot dispose of, lien or encumber the shares without the prior approval of the sellers.

Effective April 1, 2008, the minority owners of UDLA have the right to require the Company to purchase their remaining 20% interest in Decon for a variable purchase price based on average EBIT for certain specified periods. Effective April 1, 2009, the Company has a call right to acquire the remaining 20% interest under a similar methodology for certain specified periods.

Effective April 1, 2009, the minority owners of UNAB and AIEP have the right to require the Company to purchase their 20% interest for a variable purchase price based on average EBIT for certain specified periods. Impact of Recently Issued Accounting Standards.

In December 2004, the Financial Accounting Standards Board issued Statement of Financial Accounting Standards (SFAS) No. 123 (revised 2004) (SFAS 123R), *Share-Based Payment*. SFAS 123R requires all share-based payments to employees, including grants of employee stock options, to be recognized in the income statement based on their fair values. As permitted by SFAS 123, the Company currently accounts for share-based payments to employees using Accounting Principles Board Opinion 25, which generally recognizes no compensation expense for employee stock options with exercise prices at the date of grant equal to or greater than the quoted market value of the underlying stock. The adoption of the fair value method under SFAS 123R could have a significant impact on the results of operations. SFAS 123R also requires the benefits of tax deductions in excess of recognized compensation expense to be reported as a cash flow from financing activities rather than a cash flow from operating activities. This requirement will reduce net cash flow from operations and increase net cash flow from financing activities in the periods after adoption. The effective date is the first annual reporting period beginning after June 15, 2005. The Company is currently evaluating pricing models and the transition provisions of this standard and will begin applying the provisions of SFAS 123R in the first quarter of 2006.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Market risk is the risk of loss to future earnings, to fair values or to future cash flows that may result from changes in the price of financial instruments. The Company is exposed to financial market risks, including changes in foreign currency exchange rates, interest rates, equity prices and investment values. The Company occasionally uses derivative financial instruments to protect against adverse currency movements related to significant foreign transactions. Exposure to market risks related to operating activities is managed through the Company's regular operating and financing activities.

The tax provisions for the 2005 and 2004 fiscal six-month periods were based on the estimated effective tax rates a

Foreign Currency Risk

The Company derives approximately 80% of its revenues outside the United States. This business is transacted through a network of international subsidiaries, generally in the local currency that is considered the functional currency of that foreign subsidiary. Expenses are also incurred in the foreign currencies to match revenues earned, which minimizes the Company's exchange rate exposure to operating margins. A hypothetical 10% adverse change in average foreign currency exchange rates would have decreased operating income and cash flows for the 2005 fiscal six-month period by \$5.4 million. The Company generally views its investment in most of its foreign subsidiaries as long-term. The effects of a change in foreign currency exchange rates on the Company's net investment in foreign subsidiaries are reflected in accumulated other comprehensive income on the Company's balance sheets. A 10% depreciation in functional currencies relative to the U.S. dollar would have resulted in a decrease in the Company's net investment in foreign subsidiaries of approximately \$63.6 million at June 30, 2005.

The Company occasionally enters into foreign exchange forward contracts to reduce the earnings impact of non-functional currency denominated receivables. The primary business objective of the activity is to protect the U.S. dollar value of the Company's assets and future cash flows with respect to exchange rate fluctuations. At June 30, 2005, the Company had two forward contracts with expiration dates in 2005 and 2009, respectively. The gains and losses on these

contracts are deferred in accumulated other comprehensive income until the changes in the underlying financial instruments are recorded in the income statement. At which time, the deferred gains and losses are reclassified from accumulated other comprehensive income on the balance sheet to the income statement.

Interest Rate Risk

The Company holds its cash and cash equivalents in high quality, short-term, fixed income securities. Consequently, the fair value of the Company's cash and cash equivalents would not be significantly impacted by either a 100 basis point increase or decrease in interest rates due to the short-term nature of the Company's portfolio. The Company's revolving credit facility bears interest at variable rates, and the fair value of this instrument is not significantly affected by changes in market interest rates. A 100 basis point decrease in interest rates would have decreased net interest income for the 2005 fiscal six-month period by \$0.3 million.

The table below provides information about the Company's financial instruments that are sensitive to changes in interest rates. The table presents cash flows of weighted-average interest rates and principal payments for the following years ending June 30. The fair value of the debt below approximates book value.
