 - o Pre-commencement communications pursuant to Rule 13e-4(c) under the Exchange Act (17 CFR 240.13e-4(c))
-

Item 1.01. Entry into a Material Definitive Agreement.

On June 30, 2006, Vertex Pharmaceuticals Incorporated (Vertex) entered into a License, Development, Manufacturing and Commercialization Agreement with Janssen Pharmaceutica, N.V. (Janssen), a Johnson & Johnson company (the Collaboration Agreement). Under the Collaboration Agreement, Vertex and Janssen will collaborate to develop and commercialize Vertex s investigational hepatitis C protease inhibitor, VX-950. Tibotec Pharmaceuticals, Ltd., another Johnson & Johnson company, will lead the development and commercialization of VX-950 for Janssen in the territory.

Under the terms of the Collaboration Agreement, Janssen received exclusive rights to commercialize VX-950 in all countries of the world outside of North America and the Far East. Vertex will retain exclusive commercial rights to VX-950 in North America and will continue to lead the global development plan for VX-950. Upon the execution of the Collaboration Agreement, Vertex received an upfront payment of \$165 million. In addition, Vertex could receive up to \$380 million based on successful development and launch of VX-950 in the Janssen territories. The Collaboration Agreement also includes a tiered royalty averaging a mid-20% range of net sales in Janssen s regions contingent upon successful commercialization. In addition, Janssen will be responsible for certain third party royalties in its regions. Janssen will reimburse 50% of drug development costs incurred by Vertex under the development program for North America and the Janssen territories. Vertex and Janssen will each be responsible for drug supply in their respective territories. Janssen may terminate the Collaboration Agreement upon 6 months notice to Vertex. In such an event, all rights under the Collaboration Agreement will revert to Vertex.

In connection with the Collaboration Agreement, Vertex and Tibotec will establish a global health initiative to increase the prevention, diagnosis, treatment and cure of HCV infection, to be principally directed toward developing countries.

Item 7.01. Regulation FD Disclosure.

On June 30, 2006, Vertex issued two press releases announcing the execution of the Collaboration Agreement and the establishment of the philanthropic program. Those press releases are attached as Exhibit 99.1 and Exhibit 99.2 and are incorporated by reference.

Item 9.01. Financial Statements and Exhibits.

(c) Exhibits

Exhibit	Description of Document
99.1	Press Release of Vertex Pharmaceuticals Incorporated, dated June 30, 2006, titled Vertex Pharmaceuticals and Janssen Pharmaceutica, a Johnson & Johnson Company, Form Collaboration to Develop and Commercialize VX-950 for Treatment of Hepatitis C .
