Team Financial, Inc. and Subsidiaries

Notes to Unaudited Consolidated Financial Statements

Three and six month periods ended June 30, 2006 and 2005

(1) Basis of Presentation

The accompanying unaudited consolidated financial statements of Team Financial, Inc. and Subsidiaries have been prepared in accordance with accounting principles generally accepted in the United States of America for interim financial information and with the instructions to Form 10-Q and Rule 10-01 of Regulation S-X. Accordingly, they do not include all of the information and footnotes necessary for a comprehensive presentation of financial condition and results of operations required by accounting principles generally accepted in the United States of America for complete financial statements. In the opinion of management, all normal recurring adjustments necessary for a fair presentation of results have been included. The consolidated financial statements should be read in conjunction with the audited consolidated financial statements included in our Annual Report on Form 10-K for the fiscal year ended December 31, 2005.

The interim consolidated financial statements include the accounts of Team Financial, Inc. and its wholly owned subsidiaries, Team Financial Acquisition Subsidiary, Inc., including TeamBank, N.A. and its subsidiaries, and Post Bancorp and its subsidiary Colorado National Bank. All material inter-company transactions, profits, and balances are eliminated in consolidation. The consolidated financial statements do not include the accounts of our wholly owned statutory trust, Team Financial Capital Trust I (the Trust). The Trust qualifies as a special purpose entity that is not required to be consolidated in the financial statements of Team Financial, Inc. The Trust Preferred Securities issued by the Trust is included in Tier I capital for regulatory capital purposes.

The December 31, 2005 statement of financial condition has been derived from the audited consolidated financial statements as of that date. Certain amounts in the 2005 financial statements have been reclassified to conform to the 2006 presentation. The results of the interim periods ended June 30, 2006, are not necessarily indicative of the results that may occur for the year ending December 31, 2006.

(2) Recent Accounting Pronouncements

In December of 2004, the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standards No. 123 (revised 2004), *Share Based Payments*, (SFAS 123(R)). This statement requires that the cost resulting from all share-based transactions be recognized in the financial statements. SFAS 123(R) establishes fair value as the measurement objective in accounting for share-based arrangements and requires all entities to apply a fair-value based measurement method in accounting for share based payments with employees except for equity instruments held by employee share ownership plans. SFAS 123(R) replaces FASB Statement No. 123, *Accounting for Stock-Based Compensation*, and Accounting Principal Board Opinion No. 25, *Accounting for Stock Issued to Employees*,(APB 25) and became effective as of the beginning of 2006. Prior to fiscal year 2006, the Company accounted for stock-based compensation using the intrinsic value method prescribed in APB 25, and related interpretations and provided the required pro forma disclosures of SFAS No. 123, *Accounting for Stock-Based Compensation*. More information regarding the adoption of SFAS 123(R) is shown in footnote 4.

In May of 2005, the FASB issued Statement No. 154, *Accounting Changes and Error Corrections - A Replacement of APB Opinion No. 20 and FASB Statement No. 3*. This statement requires retrospective application to all voluntary changes in accounting principle with all prior period financial statements presented using the new accounting principle, unless it is impracticable to do so. For the Company, this standard is effective for accounting changes and corrections of errors made during or after 2006. The Company does not anticipate this statement to have a material effect on its financial statements.

In November 2005, the FASB issued FASB Staff Position (FSP) 115-1, *The Meaning of Other-Than-Temporary Impairment and Its application to Certain Investments*, which addresses the determination as to when an investment is considered impaired, whether that impairment is other than temporary, and the measurement of an impairment loss. The guidance clarifies that an impairment loss should be recognized when the impairment loss is deemed other-than-temporary, even if the decision to sell has not been made. The FSP also requires certain disclosures about unrealized losses that have not been recognized as other-than-temporary impairments. This FSP is effective for fiscal years beginning after December 15, 2005 and the Company began applying the guidance in 2006. The adoption of FSP FAS 115-1 did not have a material impact on the Company's financial position, results of operations, or liquidity.

In March 2006, the FASB issued Statement No. 156, *Accounting for Servicing of Financial Assets – an amendment of FASB Statement No. 140*. This statement requires that all separately recognized servicing rights be initially measured at fair value, if practicable. For each class of separately recognized servicing assets and servicing liabilities, this Statement permits the Company to choose either to report servicing assets and liabilities at fair value or at amortized cost. This Statement also requires separate presentation in the financial statements, supplemented by additional disclosures. The Statement is effective as of the beginning of the first fiscal year that begins after September 15, 2006, and the Company will adopt this Statement as of January 1, 2007. The Company does not expect that this Statement will have a material impact on its financial position, results of operations, or liquidity.

In June 2006, the FASB issued Interpretation (FIN) No. 48, *Accounting for Uncertainty in Income Taxes – An Interpretation of FASB Statement No. 109*. This interpretation clarifies the accounting for uncertainty in income taxes recognized in accordance with FASB Statement No. 109 *Accounting for Income Taxes*. This interpretation prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. This interpretation also provides guidance on derecognition, classification, interest and penalties, accounting in interim periods, disclosure, and transition. The evaluation of a tax position in accordance with this interpretation is a two-step process. The first step is a recognition process to determine whether it is more likely than not that a tax position will be sustained upon examination, including resolution of any related appeals or litigation processes, based on the technical merits of the position. The second step is a measurement process whereby a tax position that meets the more-likely-than-not recognition threshold is measured to determine the amount of benefit to recognize in the financial statements. The interpretation is effective for fiscal years beginning after December 15, 2006, and the Company will begin applying the guidance in January, 2007. The Company is currently evaluating the impact of adopting this interpretation on its financial position, results of operations, or liquidity.

(3) Discontinued Operations

On February 25, 2005, we completed the sale of Team Insurance Group, Inc., our insurance agency subsidiary. This subsidiary was operated as a subsidiary of TeamBank, N.A. from December of 2002 until December, 2004 and offered employee benefit insurance and property and casualty insurance to businesses and individuals. We sold all the issued and outstanding shares of the subsidiary to an unaffiliated third party for total cash consideration of \$6.8 million after adjustments. Our investment in this subsidiary as of February 25, 2005 was approximately \$7.0 million. As a result of the sale, the operations related to this subsidiary have been reclassified in discontinued operations. A loss on the sale of the subsidiary of approximately \$164,000 was recorded in the second quarter of 2005 upon finalization of the selling price. Pursuant to the terms of the agreement, the buyer may present any breach of warranty or representations claims up to 18 months after the close of the transaction. On July 25, 2006, we received a claim against the warranties and representations of the sale; however, we do not believe that any of the claims presented are legitimate, and we intend to dispute all of them. Any loss potential is currently considered to be neither probable nor estimatable.

(4) Stock Based Compensation and Income Per Share

The Company's 1999 Stock Incentive Plan provides for the following stock and stock-based awards: restricted stock, stock options, stock appreciation rights and performance shares. As of June 30, 2006, up to 79,500 shares of our common stock were available to be issued under the plan. All employees, directors and consultants are eligible to participate in the plan. The Company generally grants stock options with either a one-year cliff vesting schedule and a ten year expiration from the date of grant, or with a three-year potential vesting schedule and a ten year expiration from the date of grant, with vesting at the discretion of the Executive Compensation Committee of the Board of Directors, which administers the 1999 Stock Incentive Plan. Prior to 2006, the Company accounted for stock-based compensation using the intrinsic value method prescribed in *APB 25*, and related interpretations and provided the required pro forma disclosures of SFAS No. 123, *Accounting for Stock-Based Compensation*.

The following table illustrates what the Company's share-based compensation expense and earnings per share would have been for the three and six months ended June 30, 2005 (in thousands, except per share data) had the fair value method been used to account for stock-based compensation last year in accordance with SFAS 123:

Beginning in 2006, the Company adopted Statement of Financial Accounting Standards No. 123(R), *Share-Based Payments*, (SFAS No. 123(R)). This statement requires that the cost resulting from all share-based transactions be recognized in the financial statements. SFAS 123(R) establishes fair value as the measurement objective in accounting for share-based arrangements and requires all entities to apply a fair-value based measurement method in accounting for share based payments with employees except for equity instruments held by employee share ownership plans. The Company elected to adopt SFAS No. 123(R) using the modified prospective transition method and, accordingly, previously reported amounts have not been restated for the change in accounting. During the three and six months ended June 30, 2006, the Company recognized share-based compensation expense of approximately \$72,000 and \$129,000, respectively.

Stock compensation expense for options granted during the six months ended June 30, 2006 was estimated using the Black-Scholes option-pricing model with the following assumptions:

	One-year options	Three-year options

The following table summarizes option activity for the six months ended June 30, 2006:

	Number of options	Weighted average exercise price per share	Weighted average remaining contractual life in years	Aggregate Intrinsic Value
Outstanding at December 31, 2005	304,850	\$ 10.08		
Granted	37,000	14.30		
Outstanding at June 30, 2006	341,850	10.53	6.4	\$ 4.47
Exercisable at June 30, 2006	250,250	9.36	5.5	5.64

A summary of the Company's nonvested options as of June 30, 2006 and changes during the six months ended are presented below:

	Number of shares (in thousands)	Weighted average grant date fair value
Nonvested at December 31, 2005	54,600	\$ 3.25
Granted	37,000	2.97
Nonvested at June 30, 2006	91,600	3.14

On June 30, 2006, there was approximately \$200,000 of unrecognized compensation cost related to nonvested stock-based compensation awards, which the Company expects to recognize over a weighted-average period of 1.2 years. Due to the discretionary nature of the three-year options, these options are repriced each quarter, resulting in the difference between the weighted average grant date fair value and the currently estimated unrecognized compensation cost.

(5) Stock Repurchase Program

The Board of Directors approved a stock repurchase program, announced October 14, 2004, authorizing the repurchase of up to 400,000 shares of our common stock. There is no expiration date on this program. At June 30, 2006, there were 308,373 shares of our common stock remaining to be repurchased under this stock repurchase program. During the three and six months ended June 30, 2006, there were 2,600 and 68,757 shares of our common stock repurchased under this program, respectively.

Under a separate repurchase authorization of the Board of Directors, on May 16, 2006, the Company entered into an agreement to repurchase 377,200 shares of our common stock from an unaffiliated third party for approximately \$6.2 million. The repurchase was completed on June 1, 2006. This repurchase was funded with borrowings under the Company's existing line of credit.

(6) Dividends Declared

On May 23, 2006, we declared a quarterly cash dividend of \$0.08 per share to all shareholders of record on June 30, 2006, payable July 20, 2006.

(7) Investment Securities

The following tables summarize the amortized cost, gross unrealized gains and losses, and fair value of investment securities at June 30, 2006 and December 31, 2005.

Management does not believe that any of the securities with unrealized losses at June 30, 2006 are other than temporarily impaired.

(8) Notes Payable and Other Borrowings

During the second quarter of 2006, our line of credit was extended until September 30, 2006, at which time the terms will be renegotiated. All other terms of the borrowing agreement remain consistent with the terms as of December 31, 2005. Also during the second quarter, we advanced \$6.0 million of our line of credit to fund the repurchase of 377,200 shares of our common stock.

(9) Commitments and Contingencies

Commitments to extend credit to our customers with unused approved lines of credit were approximately \$81.7 million at June 30, 2006. Additionally, the contractual amount of standby letters of credit at June 30, 2006 was approximately \$10.3 million. These commitments involve credit risk in excess of the amount stated in the consolidated balance sheet. Exposure to credit loss in the event of nonperformance by the customer is represented by the contractual amount of those instruments.

Item 2: **MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

OVERVIEW

Team Financial, Inc. is a financial holding company incorporated in the State of Kansas. Our common stock is listed on the Nasdaq Global Market (NASDAQ) under the symbol TFIN .

We offer full service community banking and financial services through 18 locations in Kansas, Missouri, Nebraska and Colorado through our wholly owned banking subsidiaries, TeamBank, N.A and Colorado National Bank. Our presence in Kansas consists of seven locations in the Kansas City metropolitan area and three locations in southeast Kansas. We operate two locations in western Missouri, three in the metropolitan area of Omaha, Nebraska and three in the Colorado Springs, Colorado metropolitan area.

Results of operations depend primarily on net interest income, which is the difference between interest income from interest-earning assets and interest expense on interest-bearing liabilities. Results of operations are also affected by non-interest income, such as service charges and gains and losses from the sales of mortgage loans. The principal operating expenses, aside from interest expense, consist of compensation and employee benefits, occupancy costs, data processing expense and provisions for loan losses.

The following table presents selected financial data for the three and six months ended June 30, 2006 and June 30, 2005 (dollars in thousands, except per share data):

On February 25, 2005, we completed the sale of Team Insurance Group, Inc., our insurance agency subsidiary. This subsidiary was operated as a subsidiary of TeamBank, N.A. from December of 2002 until December, 2004 and offered employee benefit insurance and property and casualty insurance to businesses and individuals. We sold all the issued and outstanding shares of the subsidiary to an unaffiliated third party for total cash consideration of \$6.8 million after adjustments. Our investment in this subsidiary as of February 25, 2005 was approximately \$7.0 million. As a result of the sale, the operations related to this subsidiary have been reclassified in discontinued operations in the unaudited consolidated financial statements and related footnotes. A loss on the sale of the subsidiary of approximately \$164,000 was recorded in the second quarter of 2005 upon finalization of the selling price. The sale was effective December 31, 2004 and, therefore, the operating activities of the insurance subsidiary during 2005 were assumed by the new owners. Pursuant to the terms of the agreement, the buyer may present warranty or representation claims up to 18 months after the close of the transaction. On July 25, 2006, we received a claim against the warranties and representations of the sale; however, we do not believe that any of the claims presented are legitimate, and we intend to dispute all of them. Any loss potential is currently considered to be neither probable nor estimatable.

FINANCIAL CONDITION

Total assets at June 30, 2006, were \$715.9 million compared to \$696.5 million at December 31, 2005, an increase of \$19.4 million. Loans receivable increased \$35.1 million to \$455.3 million at June 30, 2006, from \$420.2 million at December 31, 2005. The increases in loans receivable were funded with excess cash and an increase in deposits.

Investment Securities

Total investment securities were \$184.2 million at June 30, 2006, compared to \$190.4 million at December 31, 2005, a decrease of \$6.2 million, or 3.3%. This decrease was primarily due managements decision not to reinvest maturing investments in the securities markets in order to help fund loan growth, coupled with \$2.4 million of gross unrealized losses. Management does not believe that any of the securities with unrealized losses at June 30, 2006 are other than temporarily impaired.

Loans Receivable

Loans receivable increased \$35.1 million, or 8.4%, to \$455.3 million at June 30, 2006, compared to \$420.2 million at December 31, 2005. This increase was due to increases in real estate loans, primarily loans secured by construction and land development.

The following table presents the composition of the loan portfolio by type of loan at the dates indicated:

	June 30, 2006				December 31, 2005			
	Principal		Percent of		Principal		Percent of	
	Balance		Total		Balance		Total

Total loans receivable	\$	455,278	100.0	%	\$	420,181	100.0	%

Included in one-to-four family real estate loans were loans held for sale of approximately \$2.4 million at June 30, 2006 and \$1.8 million at December 31, 2005.

Non-performing Assets

Non-performing assets consist of loans 90 days or more delinquent and still accruing interest, non-accrual loans, restructured loans and assets acquired through foreclosure. Loans are generally placed on non-accrual status when principal or interest is 90 days or more past due, unless the loans are well-secured and in the process of collection. Loans may be placed on non-accrual status earlier when, in the opinion of management, reasonable doubt exists as to the full, timely collection of interest or principal.

The following table summarizes non-performing assets:

	June 30, 2006 (Dollars in thousands)		December 31, 2005	
Non-accrual loans	4,679		2,343	
Loans 90 days past due and still accruing	145		1,184	
Restructured loans	1,024		1,055	
Non-performing loans	5,848		4,582	
Other real estate owned	856		455	
Total non-performing assets	\$ 6,704		\$ 5,037	
Non-performing loans as a percentage of total loans	1.28	%	1.09	%
Non-performing assets as a percentage of total assets	0.94	%	0.72	%

The increase in non-performing assets at June 30, 2006 compared to December 31, 2005 is primarily a result of an increase in non-accrual loans.

Non-performing loans of approximately \$5.8 million at June 30, 2006 were comprised of several non-accrual loans. The largest relationships in non-accrual at June 30, 2006 were \$1.9 million to a diversified commercial loan customer and \$578,000 to a fence manufacturing company. The largest relationship included in non-accrual at December 31, 2005 was approximately \$540,000 to a fence manufacturing company. Restructured loans at June 30, 2006 and December 31, 2005 included several relationships; the largest was an agricultural loan restructured through Farm Service Agency of approximately \$390,000 at June 30, 2006, and \$500,000 at December 31, 2005.

Other real estate owned at June 30, 2006 consisted of ten properties. The properties consisted of four commercial buildings totaling \$450,000, four single family dwellings totaling \$342,000 and two pieces of vacant land totaling \$64,000. These properties are located within our market areas. Management is working to sell the real estate as soon as practicable.

The loan portfolio is continuously monitored for possible non-performing assets as information becomes available. The magnitude of any increase in non-performing loans is not determinable.

Allowance for loan losses

Management maintains an allowance for loan losses based on historical experience, an evaluation of economic conditions and regular review of delinquencies and loan portfolio quality. Based upon these factors, management makes various assumptions and judgments about the ultimate collectibility of the loan portfolio and provides an allowance for probable loan losses based upon a percentage of the outstanding balances and for specific loans if their ultimate collectibility is considered questionable. Actual losses may differ due to changing conditions or information that is currently not available.

The following table summarizes our allowance for loan losses:

	Six Months Ended June 30,		
	2006	2005	
	(Dollars in thousands)		
Allowance at beginning of period	\$ 5,424	\$ 4,898	
Provision for loan losses	432	412	
Loans charged off	(290)	(356)	
Recoveries	135	272	
Allowance at end of period	\$ 5,701	\$ 5,226	
Annualized net charge-offs as a percent of total loans	0.07	% 0.04	%
Allowance as a percent of total loans	1.25	% 1.30	%
Allowance as a percent of non-performing loans	97.48	% 145.37	%

The allowance for loan losses as a percent of non-performing loans decreased at June 30, 2006, compared to June 30, 2005 due to an increase in non-accrual loans at June 30, 2006 to \$4.7 million from \$2.1 million at June 30, 2005. This increase was primarily due to a group of diversified commercial loans to one borrower totaling \$1.9 million that were classified as non-accrual during the second quarter of 2006. These loans are well-secured, and therefore, additional reserves were not deemed necessary.

Deposits

Total deposits increased approximately \$24.8 million to \$532.7 million at June 30, 2006 from \$507.9 million at December 31, 2005. This increase was primarily a result of an increase in certificates of deposits as a result of branch promotional campaigns, offset by a decrease in checking deposits.

Principal maturities of time deposits at June 30, 2006 were as follows:

Year:	
2006	\$ 113,073
2007	118,796
2008	29,854
2009	5,373
2010	2,070
Thereafter	628
	\$ 269,794

Regulatory Capital

We are subject to regulatory capital requirements administered by the Federal Reserve, the Federal Deposit Insurance Corporation and the Comptroller of the Currency. Failure to meet the regulatory capital guidelines may result in the initiation by the Federal Reserve of appropriate supervisory or enforcement actions. As of June 30, 2006 and December 31, 2005, we met all capital adequacy requirements to which we are subject. Regulatory capital ratios at June 30, 2006, were as follows:

Ratio	Actual	Minimum Required
Total capital to risk weighted assets	10.23	% 8.00 %
Core capital to risk weighted assets	9.21	% 4.00 %
Core capital to average assets	7.36	% 4.00 %

Liquidity

Liquidity is continuously forecasted and managed in order to satisfy cash flow requirements of depositors and borrowers and meet other operating cash flow needs. We have developed internal and external sources of liquidity to meet our liquidity needs. These sources include, but are not limited to, the ability to raise deposits through branch promotional campaigns, purchase brokered certificates of deposits, maturity of overnight funds, short term investment securities classified as available-for-sale and draws on credit facilities established through the Federal Home Loan Bank of Topeka.

Our most liquid assets are cash and cash equivalents and investment securities available-for-sale. The levels of these assets are dependent on our operating, financing, lending, and investing activities during any given period. At June 30, 2006, these assets, approximating \$199.4 million, consisted of investment securities available-for-sale of \$175.5 million. Approximately \$127.9 million of these investment securities were pledged as collateral for borrowings, repurchase agreements and for public funds on deposit at June 30, 2006.

At June 30, 2006, there was approximately \$19 million borrowing capacity remaining under agreements with Federal Home Loan Bank of Topeka.

RESULTS OF OPERATIONS

Net income for the three months ended June 30, 2006 was \$949,000, or \$.25 basic and \$.24 diluted income per share, an increase of 10.5%, compared to \$859,000 or \$.21 basic and diluted income per share, for the three months ended June 30, 2005. Net income for the six months ended June 30, 2006 was \$1,877,000, or \$.48 basic and \$.47 diluted income per share, compared to \$1,855,000, or \$.46 basic and \$.45 diluted income per share for the six months ended June 30, 2005, an increase of 1.2%.

Net Interest Income

Net interest income from continuing operations before provision for loan losses for the three months ended June 30, 2006 totaled \$6.0 million compared to \$5.3 million for the same period in 2005, an increase of \$678,000, or 12.8%. Net interest income from continuing operations before provision for loan losses for the six months ended June 30, 2006, totaled \$11.7 million compared to \$10.3 million for the same period in 2005, an increase of \$1.4 million, or 13.5%.

Net interest margin from continuing operations, adjusted for the tax effect of tax exempt securities, as a percent of average earning assets from continuing operations, was 3.77% for the three months ended June 30, 2006, compared to 3.61% for the three months ended June 30, 2005. Tax equivalent net interest margin as a percent of average earning assets was 3.79% for the six months ended June 30, 2006, compared to 3.60% for the six months ended June 30, 2005. The average rate of interest-earning assets from continuing operations for the quarter ended June 30, 2006 increased 85 basis points to 6.90% from 6.05% for the quarter ended June 30, 2005. Offsetting the increase in the rate of interest earning assets was an increase in the average cost of interest bearing liabilities of 78 basis points to 3.52% during the three months ended June 30, 2006 from 2.74% during the three months ended June 30, 2005. The average rate of interest earning assets increased 81 basis points to 6.79% for the six months ended June 30, 2006 from 5.98% during the same period in 2005. The average cost of interest-bearing liabilities increased 72 basis points to 3.38% for the six months ended June 30, 2006, compared to 2.66% during the same period in 2005. The result was an increase in the net interest income of \$669,000 and \$1,368,000 including the tax equivalent impact on tax exempt securities for the three and six months ended June 30, 2006, respectively, compared to the same periods in 2005.

The following tables present certain information relating to net interest income for the three and six months ended June 30, 2006 and 2005. The average rates are derived by dividing annualized interest income or expense by the average balance of assets and liabilities, respectively, for the periods shown.

The following table presents the components of changes in net interest income, on a tax equivalent basis, attributed to volume and rate. Changes in interest income or interest expense attributable to volume changes are calculated by multiplying the change in volume by the average interest rate during the prior year's respective three or six months periods. The changes in interest income or interest expense attributable to change in interest rates are calculated by multiplying the change in interest rate by the average volume during the prior year's respective three or six months periods. The changes in interest income or interest expense attributable to the combined impact of changes in volume and change in interest rate are calculated by multiplying the change in rate by the change in volume.

- (1) Loans are net of deferred loan fees.
- (2) Non-accruing loans are included in the computation of average balances.
- (3) The Company includes loan fees in interest income. These fees for the three months ended June 30, 2006 and 2005 were \$369,000 and \$302,000, and for the six months ended June 30, 2006 and 2005 were \$723,000 and \$602,000, respectively.
- (4) Yield is adjusted for the tax effect of tax exempt securities. The tax effects for the three months ended June 30, 2006 and 2005 were \$188,000 and \$197,000, and for the six months ended June 30, 2006 and 2005 were \$373,000 and \$401,000, respectively.

Interest-earning assets of continuing operations

The average rate on interest-earning assets was 6.90% for the three months ended June 30, 2006, representing an increase of 85 basis points from 6.05% for the same three months ended 2005. The average rate on interest-earning assets was 6.79% for the six months ended June 30, 2006, representing an increase of 81 basis points from 5.98% for the same six months ended 2005. Interest-earning assets are comprised of loans receivable, investment securities, interest-bearing deposits and an investment in a non-consolidated wholly owned subsidiary that was formed for the purpose of issuing Trust Preferred Securities.

The average rate on loans receivable increased 88 basis points to 7.63% for the three months ended June 30, 2006, compared to 6.76% for the three months ended June 30, 2005. The average rate on loans receivable increased 87 basis points to 7.54% for the six months ended June 30, 2006, compared to 6.67% for the six months ended June 30, 2005. The average balance of loans receivable increased approximately \$55.8 million during the three months ended June 30, 2006 compared to the same three months in 2005 and \$52.4 million during the six months ended June 30, 2006 compared to the same six months in 2005. The combination of the rate increases and average balance increases resulted in an increase in interest income from loans receivable of \$1.9 million, or 28.6%, during the second quarter of 2006 compared to the second quarter of

Edgar Filing: TEAM FINANCIAL INC /KS - Form 10-Q

2005 and an increase of \$3.7 million, or 28.1%, during the six months ended June 30, 2006 compared to the same period in 2005. During the three and six months ended June 30, 2005, approximately \$200,000 of interest income on a non-accrual loan was reported in interest income. Excluding this income, the average rate on loan receivables would have been 6.23% for the quarter ended June 30, 2005 and 6.35% for the six months ended June 30, 2005.

20

The average rate on investment securities, adjusted for the tax effect of tax exempt securities, increased 44 basis points to 5.20% for the quarter ended June 30, 2006 compared to 4.76% for the quarter ended June 30, 2005 and 35 basis points to 5.12% for the six months ended June 30, 2006, compared to 4.77% for the six months ended June 30, 2005. This increase in average interest rate was offset by a decrease in the average balances of investment securities during the three and six months ended June 30, 2005 compared to the previous year.

Interest-bearing liabilities of continuing operations

The average rate paid on interest-bearing liabilities increased 78 basis points to 3.52% for the three months ended June 30, 2006, compared to 2.74% for the same three months ended 2005. The average rate paid on interest-bearing liabilities increased 72 basis points to 3.38% for the six months ended June 30, 2006, compared to 2.66% for the same six months ended 2005. Interest-bearing liabilities are comprised of savings and interest bearing checking deposits, time deposits, federal funds purchased and securities sold under agreements to repurchase, holding company notes payable, Federal Home Loan Bank advances and other borrowings, and subordinated debentures held by our subsidiary trust which issued the 9.50% preferred securities.

The average rate paid on interest-bearing savings and interest-bearing checking deposits increased 81 basis points to 1.83% for the three months June 30, 2006 compared to 1.02% for the three months ended June 30, 2005. The average rate paid on time deposits increased 116 basis points to 4.06% during the second quarter of 2006 from 2.90% during the second quarter of 2005. The average rate paid on interest-bearing savings and interest-bearing checking deposits increased 77 basis points to 1.73% for the six months ended June 30, 2006, compared to 0.96% for the six months ended June 30, 2005. The average rate paid on time deposits increased 107 basis points to 3.85% during the six months ended June 30, 2006 compared to 2.78% during the six months ended June 30, 2005.

The effective interest rate on the subordinated debentures was 9.75% for the three months ended June 30, 2006 and 2005 and 9.79% for the six months ending June 30, 2006 and 2005. The difference between the contractual interest rate of 9.50% and the effective interest rate is the amortization of debt issuance costs, which are being amortized over a 30-year period ending August 10, 2031. We have the right to redeem the subordinated debentures, in whole or in part, on or after August 10, 2006 at a redemption price specified in the Indentures plus any accrued but unpaid interest to the redemption date. In the event that we redeem all or part of the debentures, we would recognize the remaining unamortized cost of the offering and incur a charge. The unamortized debt issuance costs totaled \$830,000 as of June 30, 2006.

Provision for Loan Losses

A provision for losses on loans is charged to earnings to bring the total allowance for loan losses to a level considered appropriate by management based on historical loss experience, the volume and type of lending conducted, the status of past due principal and interest payments, general economic conditions, particularly as such conditions relate to our market areas, and other factors related to the collectibility of our loan portfolio.

After considering the above factors, management recorded a provision for loan losses on loans totaling \$157,000 for the three months ended June 30, 2006, and \$267,000 for the three months ended June 30, 2005. The provision for loan losses for the six months ended June 30, 2006, was \$432,000, compared to \$412,000 for the six months ended June 30, 2005.

A provision for losses on loans is charged to earnings to bring the total allowance for loan losses to a level considered

Non-Interest Income from Continuing Operations

The following table summarizes non-interest income from continuing operations for the three and six months ended June 30, 2006, compared to the same periods ended June 30, 2005.

21

	Three Months Ended		Six Months Ended	
	2006	2005	2006	2005
	(In thousands)			
Service charges	\$ 904	\$ 998	\$ 1,751	\$ 1,902
Trust fees	206	183	382	370
Brokerage service revenue	58	18	123	77
Gain on sales of mortgage loans	139	212	330	427
Gain (loss) on sales of investment securities	(90)		(90)	
Mortgage servicing fees	52	63	105	128
Merchant processing fees	5	9	9	19
ATM and debit card fees	119	120	228	217
Bank owned life insurance income	214	208	430	416
Other	135	121	253	211
Total non-interest income	\$ 1,742	\$ 1,932	\$ 3,521	\$ 3,767

Non-interest income for the three months ended June 30, 2006, was approximately \$1.7 million, a decrease of \$200,000, from \$1.9 million for the three months ended June 30, 2005. Non-interest income for the six months ended June 30, 2006 was \$3.5 million, a decrease of \$300,000 from \$3.8 million for the six months ended June 30, 2005.

Contributing to the decrease in non-interest income from continuing operations for the three and six months ended June 30, 2006 was a continued decrease in service charge income, a \$90,000 loss on sales of investment securities as a result of repositioning the securities portfolio during the second quarter, and a continued decrease in gain on sales of mortgage loans. We have experienced a steady decrease in gain on sales of mortgage loans as interest rate increases have been initiated by the Federal Reserve Bank, and this trend of reduced gains is expected to continue as long as interest rates remain relatively high. Gain on sales of mortgage loans decreased \$73,000, or 34.4%, during the quarter ended June 30, 2006 and \$97,000, or 22.7%, during the six months ended June 30, 2006 compared to the same periods ended June 30, 2005. The continued decrease in gain on sales of mortgage loans experienced thus far in 2006 is the result of the decrease in the volume of loans originated and sold compared to 2005.

Non-Interest Expense from Continuing Operations

The following table presents non-interest expense from continuing operations for the three and six months ended June 30, 2006, compared to the same periods ended June 30, 2005.

	Three Months Ended		Six Months Ended	
	June 30 2006	2005	June 30 2006	2005

Intangible asset amortization	148	157	295	313
Other	852	805	1,661	1,627
Total non-interest expenses	\$ 6,258	\$ 5,700	\$ 12,297	\$ 11,131

Total non-interest expense from continuing operations for the three months ended June 30, 2006 increased \$558,000 from the same three months ended June 30, 2005 and increased \$1.2 million compared to the same six months ended June 30, 2005.

Salaries and employee benefits expense increased approximately \$328,000, or 11.6% for the three months ended June 30, 2006 compared to the same period ended June 30, 2005 and \$786,000, or 14.4% for the six months ended June 30, 2006 compared to the same six months ended June 30, 2005. The increases in salaries and employee benefits are a result of hiring additional personnel and increased compensation expense. Professional fees increased approximately \$156,000 and \$195,000 for the three and six months ended June 30, 2006 as compared to the same periods in 2005. The increase in professional fees is largely attributed to increased legal and consulting fees.

Income Tax Expense from Continuing Operations

We recorded income tax expense from continuing operations of \$350,000 for the three months ended June 30, 2006, an increase of \$58,000 compared to an income tax expense of \$292,000 for the three months ended June 30, 2005. Income tax expense for the six months ended June 30, 2006 was \$639,000, an increase of \$50,000 from \$589,000 recorded for the six months ended June 30, 2005.

The effective tax rate from continuing operations for the three months ended June 30, 2006, was 26.9%, compared to 23.2% for the three months ended June 30, 2005. The effective tax rate for the six months ended June 30, 2006, was 25.4%, compared to 23.1% for the six months ended June 30, 2005. The effective tax rate is less than the statutory federal rate of 34.0% due primarily to municipal interest income and income from the investment in bank owned life insurance. The increase in the effective tax rate was primarily attributable to tax-exempt income representing a smaller percentage of total income and an increase in incentive stock option compensation expense, which is non-deductible for income tax purposes, in 2006 compared to 2005.

Item 3: QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK**Asset and Liability Management**

Asset and liability management refers to management's efforts to minimize fluctuations in net interest income caused by interest rate changes. This is accomplished by managing the repricing of interest rate sensitive interest-bearing assets and interest-bearing liabilities. Controlling the maturity of repricing of an institution's liabilities and assets in order to minimize interest rate risk is commonly referred to as gap management.

The following table indicates that at June 30, 2006, if there had been a sudden and sustained increase in prevailing market interest rates, our 2006 interest income would be expected to increase, while a decrease in rates would indicate a decrease in income.

Change in interest rates	Net interest income (Dollars in thousands)	(Decrease) increase	% change	
200 basis point rise	\$ 26,938	\$ 1,685	6.67	%
100 basis point rise	26,095	842	3.33	%
Base rate scenario	25,253			
100 basis point decline	24,119	(1,134)	(4.49)%
200 basis point decline	22,412	(2,841)	(11.25)%

Item 4: CONTROLS AND PROCEDURES*Evaluation of Disclosure Controls and Procedures*

As of June 30, 2006, management, including the Chief Executive Officer and Chief Financial Officer, performed an evaluation of the effectiveness of the design and operation of our disclosure controls and procedures pursuant to Rule 13a-15(e) and Rule 15d-15(e) of the Securities Exchange Act of 1934. Based upon that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures are effective in recording, processing, summarizing and reporting information required to be disclosed within the time periods specified in the Securities Exchange Commission's rules and forms.

Change in Internal Controls

No changes in our internal controls over financial reporting have occurred during the last fiscal quarter that have materially affected, or are reasonably likely to materially affect, our internal controls over financial reporting.

PART II OTHER INFORMATION

Item 1. LEGAL PROCEEDINGS

The Company is involved in pending litigation. There have been no material changes to the status of this litigation from what was reported under Legal Proceedings in its Form 10-K/A for the year ended December 31, 2005, which is incorporated herein by reference. The Company does not believe that any other pending litigation to which it is a party will have a material adverse effect on its liquidity, financial condition, or results of operations.

Item 1A. Risk Factors

There have been no material changes from risk factors as previously disclosed in the Company's Form 10-K/A for the year ended December 31, 2005.
