SEC 1344 (03-05)

The Registrant is unable to file the Form 10-Q for the quarter ending December 31, 2006 within the prescribed period for the following reasons:

- Cyanotech just filed its restated Form 10-K/A on February 14, 2007, which includes restated financial statements for the period ended March 31, 2006 and for certain prior periods.
- Cyanotech anticipates that it will file Forms 10-Q for the quarters ended June 30, 2006 and September 30, 2006 by February 20, 2007, subject to the completion of the ongoing review of the financial statements therein. Until such Form 10-Q filings for prior quarters are made, Cyanotech cannot file its Form 10-Q for the period ended December 31, 2006.

These matters could not be resolved by the required filing date without unreasonable effort and expense.

If answer is no, identify report(s).

Yes No

(3) Is it anticipated that any significant change in results of operations from the corresponding period for the last fiscal year will be reflected by the earnings statements to be included in the subject report or portion thereof?

Yes No

If so, attach an explanation of the anticipated change, both narratively and quantitatively, and, if appropriate, state the reasons why a reasonable estimate of the results cannot be made.

Explanation of the anticipated change in results of operations from the corresponding period for the last fiscal year which will be reflected by the earnings statement to be included in Cyanotech Corporation's Form 10-Q for the quarter ended December 31, 2006.

Cyanotech anticipates a significant change in the results of operations for the quarterly period ended December 31, 2006 compared to the corresponding period in 2005. Because the results of operations for the first, second, and third quarters of fiscal 2007 are subject to change after the completion of the review of such periods results, the change in operations for the nine months ended December 31, 2006 is difficult to estimate.

The Company reported in fiscal 2006 a loss of \$210,000 on revenues of \$2.3 million for the third quarter ended December 31, 2005 and a \$348,000 loss on revenues of \$7.9 million for the nine months ended December 31, 2005. In comparison to the amounts reported for the periods ended December 31, 2005 cited above, the net loss for the three months ended December 31, 2006 is expected to be in the range of \$1.0 million to \$1.2 million on revenues of approximately \$2.4 to \$2.5 million. The net loss for the nine months ended December 31, 2006 is expected to be in the range of \$2.0 million to \$2.2 million on revenues of approximately \$7.3 million to \$7.4 million.

The expected increased loss for the three month and nine month periods discussed above results from higher production costs as a result of fixed production costs spread over lower than planned production output, increases in some direct production costs, and substantial costs related to restatement and filing of the Company's Form 10-K/A. Costs related to the restatement process and the late filings are estimated to be in range of \$500,000 for the nine month period ended December 31, 2006, with most of this cost incurred in the three month period ended December 31, 2006.

The foregoing estimates of Cyanotech's results of operations for the quarterly period ending December 31, 2006 are subject to change pending the completion of review of such periods.
