-

Item 7.01. Regulation FD Disclosure.

Acquisition of Oil and Natural Gas Assets. On May 2, 2008, Forest announced that it had completed its previously announced acquisition of producing oil and natural gas properties including approximately 69,000 gross acres (47,000 net acres) located in its core Ark-La-Tex region in East Texas and North Louisiana. These assets produced approximately 13 MMcfe/d in 2007 and, based on Forest's internal review, contained estimated proved oil and gas reserves of 110 Bcfe as of the closing date. Forest paid cash consideration at closing of approximately \$281 million for these assets using its credit facility. The economic effective date for the transaction was March 1, 2008, and the purchase price is subject to customary post-closing price adjustments. The press release is furnished and attached to this Current Report on Form 8-K as Exhibit 99.1.

First Quarter Sales Volumes and Updated 2008 Guidance. On May 2, 2008, Forest also announced that its average oil and gas net sales volumes for the three months ended March 31, 2008 were approximately 478 MMcfe/d, representing a 58% increase over the 302 MMcfe/d in the corresponding period in 2007. In addition, Forest provided certain updated guidance for 2008, including information regarding its 2008 capital expenditures, oil and gas net sales volumes, price differentials and production expense. This information is contained in the press release furnished and attached to this Current Report as Exhibit 99.1.

The information furnished in this Current Report under Item 7.01, including Exhibit 99.1, shall not be deemed filed for purposes of Section 18 of the Securities Exchange Act of 1934, as amended, or otherwise subject to the liabilities of that section or Sections 11 and 12(a)(2) of the Securities Act of 1933, as amended.

Item 9.01. Financial Statements and Exhibits.
