NOTES TO UNAUDITED INTERIM FINANCIAL STATEMENTS

1) BASIS OF PRESENTATION

The accompanying unaudited financial statements for the three and six months ended June 30, 2008 and 2007, have been prepared in conformity with accounting principles generally accepted in the United States (GAAP). The financial information as of December 31, 2007 is derived from the audited financial statements presented in the Willamette Valley Vineyards, Inc. (the Company) Annual Report on Form 10-KSB for the year ended December 31, 2007. Certain information or footnote disclosures normally included in financial statements prepared in accordance with GAAP have been condensed or omitted pursuant to the rules and regulations of the Securities and Exchange Commission. In the opinion of management, the accompanying financial statements include all adjustments necessary (which are of a normal recurring nature) for the fair statement of the results of the interim periods presented. The accompanying financial statements should be read in conjunction with the Company s audited financial statements for the year ended December 31, 2007, as presented in the Company s Annual Report on Form 10-KSB.

Operating results for the three and six months ended June 30, 2008 are not necessarily indicative of the results that may be expected for the entire year ending December 31, 2008, or any portion thereof.

The Company historically has reported as a single operating segment consisting of the retail, in-state self-distribution and out-of-state sales departments. These departments have mostly similar economic characteristics, offer comparable products to customers, and utilize similar processes for production and distribution. The in-state self-distribution business known as Bacchus Fine Wines has the unique characteristic of selling wholesale purchased wines in addition to Company produced wines and glassware. The Company now reports limited financial information for two operating segments as follows: Bacchus Distribution and Produced Wines. Discrete financial information was not available to allow for segment reporting in prior year periods, however, the addition of a new order fulfillment and accounting system now provides this additional information.

Basic earnings per share are computed based on the weighted-average number of common shares outstanding each period. Diluted earnings per share are computed using the weighted average number of shares of common stock and potentially dilutive common shares outstanding during the year. Potentially dilutive shares from stock options and other potentially dilutive shares are excluded from the computation when their effect is anti-dilutive. There were no potentially dilutive shares excluded from the computation for the six months ended June 30, 2008. 162,413 and 156,647 potentially dilutive shares are included in the computation of dilutive earnings per share for the three and six months ended June 30, 2008. 208,336 and 206,254 potentially dilutive shares are included in the computation of dilutive earnings per share for the three and six months ended June 30, 2007.

2) STOCK BASED COMPENSATION

The Company has two stock option plans, the 1992 Stock Incentive Plan (1992 Plan) and 2001 Stock Option Plan (2001 Plan). No additional grants may be made under the 1992 Plan. The 2001 Plan, which was approved by the shareholders, permits the grant of stock options and restricted stock awards for up to 900,000 shares. All stock options have an exercise price that is equal to the fair market value of the Company s stock on the date the options were granted. Administration of the plan, including determination of the number, term, and type of options to be granted, lies with the Board of Directors or a duly authorized committee of the Board of Directors. Options are generally granted based on

Edgar Filing: WILLAMETTE VALLEY VINEYARDS INC - Form 10-Q

employee performance with vesting periods ranging from date of grant to seven years. The maximum term before expiration for all grants is ten years.

Edgar Filing: WILLAMETTE VALLEY VINEYARDS INC - Form 10-Q

Table of Contents

The following table presents information related to the value of outstanding stock options for the periods shown:

	Three months ended June 30, 2008		Six months ended June 30, 2008	
	Shares	Weighted average exercise price	Shares	Weighted average exercise price
Outstanding at beginning of period	432,700	\$ 3.91	434,200	\$ 3.90
Granted				
Exercised	(12,500)	\$ 4.99	(14,000)	\$ 4.62
Forfeited				
Outstanding at end of Period	420,200	\$ 3.87	420,200	\$ 3.87

At January 1, 2006, the Company began recognizing compensation expense for stock options with the adoption of Statement of Financial Accounting Standards (SFAS) No. 123 (Revised), Share-Based Payment, (SFAS 123R). The fair value of each stock option granted is estimated on the date of grant using the Black-Scholes stock option valuation model. This model uses the assumptions listed in the table below. Expected volatilities are based on implied volatilities from the Company s stock, historical volatility of the Company s stock, and other factors. Expected dividends are based on the Company s plan not to pay dividends for the foreseeable future. The Company uses historical data to estimate option exercises and employee terminations within the valuation model. The risk-free rate for periods within the contractual life of the option is based on the U.S. Treasury yield curve in effect at the time of grant.

Black-Scholes assumptions

	June 30, 2008
Risk Free interest rates	3.99%
Expected dividend	0%
Expected lives, in years	5-10
Expected volatility	44.2%

The Company expenses stock options on a straight-line basis over the options related vesting term. For the three months ended June 30, 2008 and 2007, the Company recognized pretax compensation expense related to stock options and restricted stock grants of \$8,143 and \$8,325, respectively; and for the six months ended June 30, 2008 and 2007, the Company recognized pretax compensation expense related to stock options of \$20,733 and \$22,386, respectively.

During the six months ended June 30, 2008, the following transactions related to stock option exercise occurred:

Shares	Exercise Price
--------	----------------

Edgar Filing: WILLAMETTE VALLEY VINEYARDS INC - Form 10-Q

Stock Options Exercised	1,500	\$	1.50
	5,000	\$	5.00
	5,000	\$	4.98
	2,500	\$	5.00

Edgar Filing: WILLAMETTE VALLEY VINEYARDS INC - Form 10-Q

Table of Contents

The exercise of the aforementioned options resulted in a reduction of \$6,798 in the Company's tax liability. Since the deduction exceeds the compensation costs recognized in the financial statements, the excess tax benefit is recognized as additional paid in capital.

3) INVENTORIES

The Company's inventories, by major classification, are summarized as follows, as of the dates shown:

	June 30, 2008 (unaudited)	December 31, 2007
Winemaking and packaging materials	\$ 227,735	\$ 283,200
Work-in-progress (costs relating to unprocessed and/or bulk wine products)	3,099,487	2,710,399
Finished goods (bottled wines and related products)	6,407,754	4,982,833
Current inventories	\$ 9,734,976	\$ 7,976,432

4) PROPERTY AND EQUIPMENT

The Company's property and equipment consists of the following, as of the dates shown:

	June 30, 2008 (unaudited)	December 31, 2007
Land and improvements	\$ 1,027,310	\$ 959,064
Winery building and hospitality center	4,975,002	4,848,249
Equipment	4,946,446	4,617,040

Less accumulated depreciation	(6,545,218)	(6,224,198)
	\$ 4,403,540	\$ 4,200,155

5) INTEREST AND TAXES PAID

During the second quarter ended June 30, 2008, the Company paid \$0 in Federal, State and Local income taxes and \$81,238 in Payroll tax. Additionally, \$17,715 was paid in interest on the long-term debt and revolving credit line for the same period. For the six month period ended June 30, 2008, the Company paid \$314,300 in Federal, State and Local income taxes and \$172,871 in Payroll tax. Additionally, \$40,043 was

paid in interest on the long-term debt and revolving credit line for the same period.

6) SEGMENT REPORTING

The Company has identified two operating segments, Produced Wine and Bacchus Distribution. Bacchus Distribution (dba Bacchus Fine Wines), is the company's in-state distribution department. Bacchus distributes produced wine, purchased wine and glassware at wholesale prices to in-state customers. Produced wine

Edgar Filing: WILLAMETTE VALLEY VINEYARDS INC - Form 10-Q

Table of Contents

represents all Willamette Valley Vineyard branded wine which is produced at the winery. Purchased wines and glassware are brands purchased from other wine distributors and wineries for sale to in-state customers. For segment reporting, the produced wines distributed by Bacchus are consolidated with Retail and Out-of-State sales and shown as Produced Wines.

Discrete financial information for these operating segments was not available in prior periods, which resulted in the segments being aggregated and reflected as a single segment. Effective for the three months ended March 31, 2008, certain discrete financial information became available with the implementation of new accounting and inventory tracking software. The two segments reflect how the Company's operations are evaluated by senior management and the structure of its internal financial reporting. The Company evaluates performance based on the gross profit of the respective business segment. Sales, general and administrative expenses are not allocated between operating segments, therefore net income information for the respective segments is not available. Discrete financial information related to segment assets, other than inventory, is not available and that information continues to be aggregated.

The following tables outline the sales, cost of sales and gross profit, for the three and six month periods ended June 30, 2008 by operating segment:

	Three months ended June 30, 2008		
	Bacchus Distribution	Produced Wine	Total
Net Sales	\$ 1,157,831	\$ 2,727,152	\$ 3,884,983

Gross Profit	\$ 609,723	\$ 2,950,255	\$ 3,559,978
% of sales	27.4%	58.3%	48.8%

Total inventory for Bacchus Distribution was \$2,230,858 of purchased wines and \$257,485 of non-wine merchandise at period end June 30, 2008. This compares to Produced Wine wine inventory of \$6,333,354 and \$913,279 of non-wine merchandise and work-in-process for the same period.

Item 2

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Forward Looking Statements

This Management's Discussion and Analysis of Financial Condition and Results of Operation and other sections of this Form 10-Q contain forward-looking

Table of Contents

statements within the meaning of the Private Securities Litigation Reform Act of 1995. These forward-looking statements involve risks and uncertainties that are based on current expectations, estimates and projections about the Company's business, and beliefs and assumptions made by management. Words such as expects, anticipates, intends, plans, believes, seeks, estimates and variations of such words and similar expressions are intended to identify such forward-looking statements. Therefore, actual outcomes and results may differ materially from what is expressed or forecasted in such forward-looking statements due to numerous factors, including, but not limited to: availability of financing for growth, availability of adequate supply of high quality grapes, successful performance of internal operations, impact of competition, changes in wine broker or distributor relations or performance, impact of possible adverse weather conditions, impact of reduction in grape quality or supply due to disease, impact of governmental regulatory decisions, and other risks detailed below as well as those discussed elsewhere in this Form 10-Q and from time to time in the Company's Securities and Exchange Commission filings and reports. In addition, such statements could be affected by general industry and market conditions and growth rates, and general domestic economic conditions. The Company undertakes no obligation to revise forward-looking statements to reflect events or changes after the date of this discussion or to reflect the occurrence of unanticipated events.

Critical Accounting Policies

The foregoing discussion and analysis of our financial condition and results of operations are based upon our financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States of America. The preparation of these financial statements requires the Company's management to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses, and related disclosure of contingent assets and liabilities. On an on-going basis, we evaluate our estimates, including those related to revenue recognition, collection of accounts receivable, valuation of inventories, and amortization of vineyard development costs. We base our estimates on historical experience and on various other assumptions that are believed to be reasonable under the circumstances. Actual results may differ from these estimates under different assumptions or conditions. A description of our critical accounting policies and related judgments and estimates that affect the preparation of our financial statements is set forth in our Annual Report on Form 10-KSB for the year ended December 31, 2007. Such policies were unchanged during the three months ended June 30, 2008.

Overview

Sales revenue for the three months ended June 30, 2008 increased \$158,764 or 4.3% from the comparable prior year period. Sales revenue for the six months ended June 30, 2008 decreased \$33,917 or -0.5% for the comparable prior year period.

Sales revenue growth for the first six months of 2008 versus 2007 is being constrained principally due to three Pinot Noir products being out of stock. These products will be available for sale sometime in the 4th Quarter of 2008.

Taken as a whole, the three sales departments: National Sales, Oregon Wholesale (Bacchus Fine Wines) and Retail improved on their net contribution for the three months ended June 30, 2008 versus the comparable prior year period.

Net operating income performance versus for the quarter and year ended June 30, 2008 was less mainly due to one-time audit and legal fees resulting from the implementation problems of the new Oregon Wholesale order fulfillment and accounting system. Additionally, incremental

Edgar Filing: WILLAMETTE VALLEY VINEYARDS INC - Form 10-Q

shipping charges due to higher fuel costs, sales salaries and overall inflationary general and administrative expenses led to decreased net operating income versus prior year.

Edgar Filing: WILLAMETTE VALLEY VINEYARDS INC - Form 10-Q

Table of Contents

As a result, the Company generated \$0.03 and \$0.04 basic earnings per share during the three and six months ended June 30, 2008, a decrease of \$0.03 and \$0.06 basic earnings per share versus the comparable prior year periods.

The winery bottled approximately 32,000 cases in the second quarter, mainly 2007 vintage Pinot Gris, Riesling and Oregon Blossom.

The Company has an asset-based loan agreement with Umpqua Bank that allows it to borrow up to \$2,000,000. The maturity date on this note is January, 5, 2009. At June 30, 2008, the Company had a credit line balance of \$440,533 and \$1,559,467 of available credit. The interest rate in the quarter was 5.0%. The interest rate on this note is a variable interest rate and is subject to change from time to time based on changes in an independent index which is the Prime Rate as published in the Wall Street Journal (the Index). The index rate at June 30, 2008 is 5.00%. The loan agreement contains, among other things, certain restrictive financial covenants with respect to total equity, debt-to-equity and debt coverage that must be maintained by the Company on a quarterly basis. As of June 30, 2008, the Company was in compliance with all of the financial covenants.

One of the nation's leading wine consumer magazines, Wine Enthusiast recently issued high marks for the Company's 2006 vintage Pinot Noirs as follows:

91 pts. for Signature Cuvée Pinot Noir

90 pts. for Estate Vineyard Pinot Noir

90 pts. for Tualatin Estate Vineyard Pinot Noir

89 pts. for Hannah Vineyard Pinot Noir

88 pts. for Willamette Valley Pinot Noir

The newly released 2007 Pinot Gris earned gold medals at the 2008 Los Angeles International Wine & Spirits Awards, the 2008 National Women's Wine Competition and was selected as a winner at the Pacific Coast Oyster Wine Competition for the third consecutive year.

Oregon's leading industry organization dedicated to sustainable environmental practice, LIVE, Inc. (Low Input Viticulture and Enology) presented winery founder and CEO Jim Bernau with the organization's first Founder's Award at its Annual Meeting held April 3, 2008.

RESULTS OF OPERATIONS

Revenue

Edgar Filing: WILLAMETTE VALLEY VINEYARDS INC - Form 10-Q

Net revenue for the three and six months ended June 30, 2008 increased \$158,764 or 4.3% and decreased \$33,917 or -0.5%, respectively, versus the corresponding periods in the preceding year. The increase in the quarter is primarily due to increased order activity from out-of-state distributors and increased retail wine club sales. This is slightly offset by the decrease in in-state wholesale sales due to outages of certain core Pinot Noir products. The decrease for the first six months is primarily due to out-of-state distributors ordering less in the first five months of 2008 and the in-state wholesale lost placements previously mentioned.

Our revenues from winery operations are summarized as follows:

	Three months ended June 30,		Six months ended June 30,

Table of Contents

Tasting room sales and rental income for the three and six months ended June 30, 2008 increased \$50,241 or 9.7% and \$95,827 or 10.0%, respectively, compared to the corresponding prior year periods. The incremental revenue is primarily due to a higher volume of cases sold in the tasting room and mail order sales offset slightly by a reduced number of on-site room rentals versus prior year.

Sales in the state of Oregon, through our wholesale department, Bacchus Fine Wines, decreased \$12,992 or -0.7% and \$67,104 or -1.8% in the three and six months ended June 30, 2008, respectively, compared to the corresponding prior year periods. In the three and six months ended June 30, 2008, our direct in-state sales to our largest customer decreased \$58,919 or -25.0% and \$260,056 or -45.3%, respectively, over the comparable prior year periods. The decrease is largely the result of reduced order activity with a key customer due to the outage of specific Willamette Valley Vineyard brand Pinot Noir varietal. This was mostly offset by the increased product placements and development of the wholesale department's portfolio of brands produced by wineries outside of Oregon. It is anticipated that the key customer reduced order activity will be renewed in 2008 once the release of the 2007 harvest Pinot Noir is complete later this year.

Out-of-state sales in the three and six months ended June 30, 2008 increased \$85,347 or 6.0% and decreased \$71,074 or -2.5%, respectively, versus the comparable prior year periods. The decrease in the year is primarily due to reduced order activity by distributors whom are reducing their inventory levels even though sales to end consumers are up over last year. In June order activity was greatly improved and resulted in a 6.0% increase in the quarter versus prior year.

Gross Profit

Gross profits for the three and six months ended June 30, 2008 increased \$185,848 or 10.8% and \$135,564 or 4.0%, respectively, versus the comparable prior year periods.

As a percentage of net revenue, gross profit from winery operations was 49.2% and 48.8% in the three and six months ended June 30, 2008, respectively, as compared to 46.3% and 46.8% in the comparable prior year periods. The improvement in gross profit as a percentage of net revenue is mainly due to the impact of Retail which, for this year, represents a higher percentage of total gross profit and the mix of out of state sales towards higher margin products. The Company continues to focus on improved distribution of higher margin Willamette Valley Vineyards brand products as well as continuing our efforts to reduce grape and production costs. Our increased representation of brands other than our own through our Oregon Wholesale sales force and increases in cost of production may erode future gross margin as a percentage of sales due to the lower margins associated with selling those brands.

Selling, General and Administrative Expense

Selling, general and administrative expenses for the three and six months ended June 30, 2008 increased \$379,119 or 29.9% and \$597,454 or 23.2%, respectively, compared to the corresponding prior year periods. These increases are due primarily to one-time incremental professional service fees

for Accounting audit services and legal services. Additionally, inflationary shipping costs have had an unfavorable impact for the quarter and year versus prior year. As a percentage of net revenues from winery operations, selling, general and administrative expenses increased to 42.4% and 43.6% for the three and six months ended June 30, 2008, respectively, as compared to 34.0% and 35.2% for the comparable prior year periods.

Interest Income, Interest Expense

Interest income increased \$5,169 or 46.8% and decreased \$10,918 or -38.8% for the three and six months ended June 30, 2008, respectively, compared to the comparable prior year periods. Interest expense for the three and six months ended June 30, 2008 decreased \$9,808 or -35.6% and \$15,717 or -28.2%, respectively, compared to the corresponding prior year periods. The average interest rate paid for the three and six months ended June 30, 2008 was 5.0% and 6.0%, respectively.

Income Taxes

Income tax expense was \$105,017 and \$145,085, respectively, for the three and six months ended June 30, 2008, compared to \$176,800 and \$332,975, respectively, for the prior year periods. Our estimated tax rate for the three and six months ended June 30, 2008 and 2007 was 40% and 40% respectively. As a result of taking a tax deduction for exercises of stock options in the year the current tax liability was reduced by \$6,798. This benefit increases additional paid in capital in stockholders equity and is reflected on the statement of cash flows as excess tax benefits on stock option exercises.

Net Income and Earnings per Share

As a result of the factors listed above, net income for the three and six months ended June 30, 2008 was \$157,527 and \$217,625, respectively compared to net income of \$265,177 and \$499,440 in the comparable prior year periods. Diluted earnings per share were \$0.03 and \$0.04 for the quarter and year-to date ended June 30, 2008, respectively, compared to \$0.05 and \$0.10 per diluted share, in the comparable prior year periods.

Liquidity and Capital Resources

Edgar Filing: WILLAMETTE VALLEY VINEYARDS INC - Form 10-Q

At June 30, 2008, we had a working capital balance of \$9.1 million and a current ratio of 5.34:1. At December 31, 2007, we had a working capital balance of \$9.1 million and a current ratio of 5.91:1. We had a cash balance of \$66,146 at June 30, 2008, compared to a cash balance of \$1,083,405 at December 31, 2007. The decrease in cash was primarily due to the build-up of inventory required to support 2008 anticipated higher sales volume and capital expenditures for property, plant and equipment.

Total cash used in operating activities in the six months ended June 30, 2008 was (\$862,329) compared to cash provided by operating activities of \$375,620 for the same period in the prior year. The increase in cash used in operating activities versus prior year was primarily due to the significant build-up of inventory required to support 2008 anticipated higher sales volume.

Total cash used in investing activities in the six months ended June 30, 2008 was (\$489,132), compared to (\$72,446) in the prior year period. The decrease was mainly due to construction expenditures required to improve the Tualatin production facility, a five acre real estate acquisition also at Tualatin, two new replacement vehicles added for executive staff and an added delivery vehicle for Bacchus Fine Wines.

Total cash provided by financing activities in the six months ended June 30, 2008 was \$334,202 compared to (\$338,423) used in financing activities in the prior year period. Cash provided by financing activities primarily consisted

of revolving credit line advances needed to support working capital requirements. This is offset somewhat by cash used to repay long-term debt.

At June 30, 2008, the line of credit balance was \$440,533, on a maximum borrowing amount of \$2,000,000. We have a loan agreement with Umpqua Bank that contains, among other things, certain restrictive financial covenants with respect to total equity, debt-to-equity and debt coverage that must be maintained by us on a quarterly basis. As of June 30, 2008, we were in compliance with all of the financial covenants.

As of June 30, 2008, we had a total long-term debt balance of \$1,090,780, including the portion due in the next year, owed to Farm Credit Services. There was no new long-term debt incurred in the three months ended June 30, 2008. The debt balance remaining represents the debt service with Farm Credit Services which was used to finance our Hospitality Center, invest in new winery equipment to increase our winemaking capacity and complete a larger storage facility.

At June 30, 2008, we owed \$62,901 on grape contracts. This amount is owed to a single grape grower, which will be paid as the wine made from those grapes is sold. For the 2008 harvest, there are grape purchase contracts in place with local growers that will be accrued when the grapes are received, typically in October.

We believe that cash flow from operations and funds available under our existing credit facilities will be sufficient to meet our foreseeable short and long term needs.

Segment Reporting

The Company's in-state self-distribution business known as Bacchus Fine Wines sells wholesale purchased wines from other wineries and glassware in addition to Company produced wines. The sale of purchased wines and glassware is a unique characteristic versus the Retail and Out-Of-State sales organizations of the Company and therefore warrants segment discussion. The purchased wine and glassware segment is shown below as Bacchus Distribution. For purposes of segment reporting the produced wines sold by Bacchus are consolidated with Retail and Out-of-State sales and shown below as Produced Wines. Sales, general and administrative expenses are not allocated between operating segments, therefore net income information for the respective segments is not available. This quarter is only the second quarter that specific segment information for purchased wines and non-wine has been disclosed.

The following table outlines the sales, cost of sales and gross profit, for the three and six month periods ended June 30, 2008 by operating segment:

	Three months ended June 30, 2008		
	Bacchus Distribution	Produced Wine	Total

CONTROLS AND PROCEDURES

Disclosure Controls and Procedures

We maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed in our reports under the Securities Exchange Act of 1934, as amended (the Exchange Act), is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to management, including our Chief Executive Officer, as appropriate, to allow timely decisions regarding required disclosure. For the period ended June 30, 2008, the Company performed an evaluation, under the supervision and with the participation of the Chief Executive Officer, Chief Financial Officer and other management personnel, of the effectiveness of our disclosure controls and procedures, as defined in Rules 13a-15(e) and 15d-15(e) of the Securities and Exchange Act of 1934. Management, including our Chief Executive Officer and Chief Financial Officer, has concluded that the disclosure controls and procedures as of June 30, 2008 were effective at the assurance level as of the end of the period covered by this report.

The Company does not expect that its disclosure controls and procedures will prevent all error and instances of fraud. A control procedure, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control procedure are met. Because of the inherent limitations in all control procedures, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within the Company have been detected. These inherent limitations include the realities that judgments in decision-making can be faulty, and that breakdowns can occur because of simple error or mistake. Additionally, controls can be circumvented by the individual acts of some persons, by collusion of two or more people, or by management override of the control. The Company considered these limitations during the development of its disclosure controls and procedures, and will continually reevaluate them to ensure they provide reasonable assurance that such controls and procedures are effective.

Internal Control over Financial Reporting

In our Management's Report on Internal Control Over Financial Reporting included in the Company's Form 10-KSB for the year ended December 31, 2007, management concluded that our internal control over financial reporting was

Table of Contents

not effective due to the existence of certain material weaknesses as of December 31, 2007.

Beginning during the fourth quarter of fiscal 2007 and in the first and second quarters of fiscal year 2008, we formulated a remediation plan and initiated remedial action to address those material weaknesses. The elements of the remediation plan were as follows:

- Inadequate segregation of duties within a significant account or process. We commenced a thorough review of our accounting staff's duties and where necessary we have been segregating such duties with other personnel.
- Inadequate documentation of the components of internal control. We commenced a thorough review of our documentation and where necessary we have put into place policies and procedures to document such evidence to comply with our internal control requirements. We also retained a financial consultant to assist us in further reviewing and improving our internal control processes.

We believe that these measures, which were effectively implemented and maintained, have not completely remediated the material weaknesses identified above.

The above remedial measures initiated during the fourth quarter of fiscal year 2007 and pursued in the six months ended June 30, 2008, have materially affected our internal control over financial reporting.
