-

Item 2.02 Results of Operations and Financial Condition

On August 15, 2008, Cyanotech Corporation issued a news release stating, among other things, that revenues for the first quarter of fiscal 2009 increased 43% to \$3,701,000, compared to revenues of \$2,583,000 for the first quarter of fiscal 2008. Gross profit for the current first quarter was \$1,304,000, with gross profit margin of 35%, compared to a gross profit of \$746,000 and gross profit margin of 29% reported for the same quarter of the prior year. Net income for the first quarter was \$271,000, or \$0.05 per basic and diluted share, compared to net loss of \$382,000, or (\$0.07) per basic and diluted share for the first quarter of fiscal 2008. This news release was issued concurrently with the filing of the Company's Form 10-Q for the period ended June 30, 2008. The full text of the news release is attached hereto as Exhibit 99.1.

Item 8.01 Other Events

In the same news release referred to under Item 2.01, Cyanotech Corporation stated, among other things, that the Company expects continued pressure on input costs going forward and this could cause margins to decline in future periods. The news release also stated the following: As everyone is aware, rising fuel and energy costs have taken a toll. This issue is not unique to Cyanotech Corporation. After careful evaluation, we have determined that we can no longer absorb fuel and energy increases, especially being located in Hawaii, which has some of the highest energy costs in the world. We therefore will be instituting a price increase across all our products. The increase should be fully implemented by the middle of the third quarter of fiscal year 2009. The full text of the news release is attached hereto as Exhibit 99.1.
