Item 7.01. Regulation FD Disclosure.

In connection with Rite Aid Corporation s (Rite Aid) previously announced offering of \$250 million aggregate principal amount of senior secured notes due 2019 (the Notes), Rite Aid presented information to investors regarding estimated cost savings for fiscal 2010 under certain operating initiatives. Rite Aid estimates that its previously announced segmentation initiatives, which apply tailored operating strategies to Rite Aid s high and low volume stores will result in cost savings of approximately \$150 million in fiscal 2010. Rite Aid also estimates that its previously announced all-store initiatives, which include a focus on growing prescription count, controlling labor costs, reducing shrink expense, reducing supply chain costs, increasing private brand penetration and reducing working capital, will result in cost savings of approximately \$200 million in fiscal 2010. The Company considered the impact of these savings when developing its current guidance for fiscal 2010. The Company expects the positive impact of these savings to be offset by reductions in pharmacy gross margin, caused by reimbursement rate pressures, fewer new generics and the impact of recently implemented AWP cost adjustments on its Medicaid business, and increases in labor rates and benefit costs.

The information in this Item shall not be treated as filed for purposes of the Securities Exchange Act of 1934, as amended.

Item 8.01. Other Events
