**NEWS RELEASE**

For Immediate Release

**Xyratex Ltd Announces Final Results for the First Quarter Fiscal Year 2010**

**Havant, UK March 31, 2010** Xyratex Ltd (Nasdaq: XRTX), a leading provider of enterprise class data storage subsystems and storage process technology, today announced final results for the first fiscal quarter ended February 28, 2010. Revenues for the first quarter were \$319.0 million, an increase of 73.5% compared to revenues of \$183.9 million for the same period last year.

For the first quarter, GAAP net income was \$26.3 million, or \$0.85 per diluted share, compared to GAAP net loss of \$16.1 million, or \$0.55 per share, in the same period last year. Non-GAAP net income was \$29.4 million, or \$0.96 per diluted share, compared to non-GAAP net loss of \$10.5 million, or \$0.36 per share, in the same quarter a year ago (1).

Gross profit margin in the first quarter increased to 18.1%, compared to 11.4% in the same period last year, primarily due to significantly increased volumes and also changes in product and segment mix.

Revenues from our Networked Storage Solutions products were \$271.0 million as compared to \$165.7 million in the same quarter a year ago, an increase of 63.5%. Gross profit margin in the Networked Storage Solutions business was 15.2% as compared to 11.1% a year ago. Revenues from our Storage Infrastructure products were \$48.0 million as compared to \$18.2 million in the same quarter a year ago, an increase of 164%. Gross profit margin in the Storage Infrastructure business was 34.7% as compared to 15.2% a year ago.

I am very pleased with the strong results for the quarter. We increased revenues by more than 30% over the prior quarter, and the results represent a very dramatic turnaround from the position faced 12 months ago. Given the strong demand and actions needed to secure additional supply of components, I felt we did a good job of executing to our customers requirements, said Steve Barber, CEO of Xyratex. I feel our continued strategic investments during 2009, a period of economic uncertainty, combined with our focus on strong execution, innovation and improved efficiencies, enabled our record revenues and profits. The fundamentals of the markets we serve continue to be very good and I believe we continue to improve on our competitive position and technology. We will continue to work with our customers to make them more competitive in their respective markets and remain flexible in meeting their technology and product demands.

### **Business Outlook**

The following statements are based on current expectations. These statements are forward-looking, and actual results may differ materially.

- Revenue in the second quarter of 2010 is projected to be in the range \$400 to \$460 million.
- Fully diluted earnings per share is anticipated to be between \$1.00 and \$1.53 on a GAAP basis in the second quarter. On a non-GAAP basis fully diluted earnings per share is anticipated to be between \$1.10 and \$1.63. ---

(1) Non-GAAP net income (loss) and diluted earnings (loss) per share excludes (a) amortization of intangible assets, (b) equity compensation expense, (c) specified non-recurring items such as restructuring costs and (d) the related tax effects. Reconciliation of non-GAAP net income (loss) and diluted earnings (loss) per share to GAAP net income (loss) and GAAP diluted earnings (loss) per share is included in a table immediately following the condensed consolidated statements of cash flow below.

The intention in providing these non-GAAP measures is to provide supplemental information regarding the Company's operational performance while recognizing that they have material limitations and that they should only be referred to with reference to the corresponding GAAP measure.

The Company believes that the provision of these non-GAAP financial measures is useful to investors and investment analysts because it enables comparison to the Company's historical operating results, those of competitors and other industry participants and also provides transparency to the measures used by management in operational and financial decision making. In relation to the specific items excluded: (a) intangible assets represent costs incurred by the acquired business prior to acquisition, are not cash costs and will not be replaced when the assets are fully amortized and therefore the exclusion of these costs provides management and investors with better visibility of the costs required to generate revenue over time; (b) equity compensation expense is non-cash in nature, is outside the control of management during the period in which the expense is incurred; (c) restructuring costs are not comparable across periods or with other companies; (d) the exclusion of the related tax effects of excluding items (a) to (c) is necessary to show the effect on net income of the change in tax expense that would have been recorded if these items had not been incurred.
