DILLARD S, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

Note 1. Basis of Presentation

The accompanying unaudited interim condensed consolidated financial statements of Dillard s, Inc. and its subsidiaries (the Company) have been prepared in accordance with the rules of the Securities and Exchange Commission (SEC). Accordingly, they do not include all of the information and footnotes required by accounting principles generally accepted in the United States of America (GAAP) for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair statement have been included. Operating results for the three and nine months ended October 30, 2010 are not necessarily indicative of the results that may be expected for the fiscal year ending January 29, 2011 due to the seasonal nature of the business.

These unaudited interim condensed consolidated financial statements should be read in conjunction with the consolidated financial statements and footnotes thereto included in the Company s Annual Report on Form 10-K for the fiscal year ended January 30, 2010 filed with the SEC on March 26, 2010.

Reclassifications Certain items have been reclassified from their prior year classifications to conform to the current year presentation.

Note 2. Business Segments

The Company operates in two reportable segments: the operation of retail department stores and a general contracting construction company. The construction segment (CDI) that was purchased on August 29, 2008, is engaged in the general contracting and construction business. CDI also constructs and remodels stores for the Company.

For the Company s retail operations reportable segment, the Company determined its operating segments on a store by store basis. Each store s operating performance has been aggregated into one reportable segment. The Company s operating segments are aggregated for financial reporting purposes because they are similar in each of the following areas: economic characteristics, class of consumer, nature of products and distribution methods. Revenues from external customers are derived from merchandise sales, and the Company does not rely on any major customers as a source of revenue. Across all stores, the Company operates one store format under the Dillard s name where each store offers the same general mix of merchandise with similar categories and similar customers. The Company believes that disaggregating its operating segments would not provide meaningful additional information.

The following tables summarize certain segment information, including the reconciliation of those items to the Company s consolidated operations:

Table of Contents

Note 3. Stock-Based Compensation

The Company has various stock option plans that provide for the granting of options to purchase shares of Class A Common Stock to certain key employees of the Company. Exercise and vesting terms for options granted under the plans are determined at each grant date. There were no stock options granted during the three and nine months ended October 30, 2010 and October 31, 2009.

Stock option transactions for the three months ended October 30, 2010 are summarized as follows:

Fixed Options	Shares	Weighted Average Exercise Price
Outstanding, beginning of period	4,009,369	\$ 25.79
Granted		
Exercised		
Expired		
Outstanding, end of period	4,009,369	\$ 25.79
Options exercisable at period end	4,009,369	\$ 25.79

At October 30, 2010, the intrinsic value of outstanding stock options and exercisable stock options was \$18.5 thousand.

Note 4. Asset Impairment and Store Closing Charges

There were no asset impairment and store closing costs recorded during the three months ended October 30, 2010 or three and nine months ended October 31, 2009.

During the nine months ended October 30, 2010, the Company recorded a pretax charge of \$2.2 million for asset impairment and store closing costs. The charge was for the write-down of one property currently held for sale.

Following is a summary of the activity in the reserve established for store closing charges for the nine months ended October 30, 2010:

	Balance			
	Beginning	Adjustments		Balance

Reserve amounts are included in trade accounts payable and accrued expenses and other liabilities.

Note 5. Earnings (Loss) Per Share Data

The following table sets forth the computation of basic and diluted earnings per share for the periods indicated (in thousands, except per share data).

Total stock options outstanding were 4,009,369 and 4,144,369 at October 30, 2010 and October 31, 2009, respectively. Of these, options to purchase 4,009,369 and 4,144,369 shares of Class A Common Stock at prices ranging from \$24.73 to \$26.57 were outstanding at October 30, 2010 and October 31, 2009, respectively, but were not included in the computations of diluted earnings (loss) per share because the effect of their inclusion would be antidilutive. A negligible amount of dilution, included in the weighted average shares computation for the nine months ended October 30, 2010, was insignificant for presentation in the table above.

Note 6. Comprehensive Income (Loss)

The following table shows the computation of comprehensive income (loss) (in thousands):

Note 7. Commitments and Contingencies

On May 27, 2009, a lawsuit was filed in the United States District Court for the Eastern District of Arkansas styled <u>Steven Harben</u>, <u>Derivatively</u> on <u>Behalf of Nominal Defendant Dillard s</u>, Inc. v. <u>William Dillard II et al</u>, *Case Number 4:09-IV-395*. The lawsuit generally seeks return of monies and alleges that certain officers and directors of the Company have been overcompensated and/or received improper benefits at the expense of the Company and its shareholders. On September 30, 2010, the court dismissed the lawsuit in its entirety. It is not known whether plaintiff intends to file an appeal. If so, the named officers and directors intend to contest these allegations vigorously.

On June 10, 2009, a lawsuit was filed in the Circuit Court of Pulaski County, Arkansas styled <u>Billy K. Berry, Derivatively on behalf of</u> <u>Dillard s. Inc. v. William Dillard II et al</u>, *Case Number CV-09-4227-2*. The lawsuit generally seeks return of monies and alleges that certain officers and directors of the Company have been overcompensated and/or received improper benefits at the expense of the Company and its shareholders. On February 18, 2010, the Circuit Court entered an Order of Dismissal with Prejudice and Final Judgment dismissing the case as to all parties defendant. Plaintiff has appealed the Court s Order. The named officers and directors will continue to contest these allegations vigorously.

Various other legal proceedings in the form of lawsuits and claims, which occur in the normal course of business, are pending against the Company and its subsidiaries. In the opinion of management, disposition of these matters is not expected to have a material adverse effect on the Company s financial position, cash flows or results of operations.

At October 30, 2010, letters of credit totaling \$89.0 million were issued under the Company s revolving credit facility.

Note 8. Benefit Plans

The Company has an unfunded, nonqualified defined benefit plan (Pension Plan) for its officers. The Pension Plan is noncontributory and provides benefits based on years of service and compensation during employment. Pension expense is determined using various actuarial cost methods to estimate the total benefits ultimately payable to officers and allocates this cost to service periods. The actuarial assumptions used to calculate pension costs are reviewed annually. The Company made contributions to the Pension Plan of \$1.1 million and \$3.2 million during the three and nine months ended October 30, 2010, respectively. The Company expects to make a contribution to the Pension Plan of approximately \$1.1 million for the remainder of fiscal 2010.

The components of net periodic benefit costs are as follows (in thousands):

Note 9. Revolving Credit Agreement

At October 30, 2010, the Company maintained a \$1.0 billion revolving credit facility (credit agreement) with JPMorgan Chase Bank (JPMorgan) as the lead agent for various banks, secured by the inventory of Dillard s, Inc. operating subsidiaries. The credit agreement expires December 12, 2012.

Borrowings under the credit agreement accrue interest starting at either JPMorgan s Base Rate minus 0.5% or LIBOR plus 1.0% (1.25% at October 30, 2010) subject to certain availability thresholds as defined in the credit agreement.

Limited to 85% of the inventory of certain Company subsidiaries, availability for borrowings and letter of credit obligations under the credit agreement was \$1.0 billion at October 30, 2010. No borrowings were outstanding at October 30, 2010. Letters of credit totaling \$89.0 million were issued under this credit agreement leaving unutilized availability under the facility of approximately \$911 million at October 30, 2010. There are no financial covenant requirements under the credit agreement provided availability exceeds \$100 million. The Company pays an annual commitment fee to the banks of 0.25% of the committed amount less outstanding borrowings and letters of credit.

Under the credit agreement, the Company unilaterally reduced the previous \$1.2 billion credit facility by \$200 million to \$1.0 billion, effective September 1, 2010, in order to reduce the amount of commitment fees. Planned inventory levels would not allow for utilization of the full \$1.2 billion. All other aspects of the credit agreement remain unchanged.

Note 10. Stock Repurchase Program

In August 2010, the Company was authorized by its board of directors to repurchase up to \$250 million of its Class A Common Stock under an open-ended plan (2010 Stock Plan). This authorization permits the Company to repurchase its Class A Common Stock in the open market or through privately negotiated transactions. During the three months ended October 30, 2010, the Company repurchased 2.9 million shares of stock under the 2010 Stock Plan for approximately \$71.3 million at an average price of \$24.86 per share. At October 30, 2010, \$178.7 million remained under the 2010 Stock Plan.

In November 2007, the Company was authorized by its board of directors to repurchase up to \$200 million of its Class A Common Stock under an open-ended plan (2007 Stock Plan). This authorization permitted the Company to repurchase its Class A Common Stock in the open market or through privately negotiated transactions.

During the nine months ended October 30, 2010, the Company repurchased 7.2 million shares of stock for approximately \$182.6 million at an average price of \$25.39 per share, which completed the remaining authorization under the 2007 Stock Plan. No shares were repurchased under the 2007 Stock Plan during the three and nine months ended October 31, 2009.

Note 11. Income Taxes

The total amount of unrecognized tax benefits as of October 30, 2010 and October 31, 2009 was \$14.0 million and \$20.7 million, respectively, of which \$10.3 million and \$15.3 million, respectively, would, if recognized, affect the effective tax rate. The Company classifies accrued interest expense and penalties relating to income tax in the condensed consolidated financial statements as income tax expense. The total interest and penalties recognized in the condensed consolidated statements of operations and retained earnings during the three months ended October 30, 2010 and October 31, 2009 was \$0.0 million and \$(1.2) million, respectively, and during the nine months ended October 30, 2010 and October 31, 2009 was \$0.0 million, respectively. The total accrued interest and penalties in the condensed consolidated balance sheets as of October 30, 2010 and October 31, 2009 was \$4.6 million and \$8.5 million, respectively. The estimated range of the reasonably possible uncertain tax benefit decrease in the next twelve months is between \$3 million and \$5 million. No significant changes occurred in the tax years subject to examination by major tax jurisdictions during the three and nine months ended October 30, 2010. Changes in the Company s assumptions and judgments can materially affect amounts recognized in the consolidated balance sheets and statements of operations.

Table of Contents

During the three months ended October 30, 2010, income taxes included the recognition of tax benefits primarily due to a decrease in a capital loss valuation allowance. During the three months ended October 31, 2009, income taxes included the recognition of tax benefits primarily due to a state administrative settlement, decrease in a capital loss valuation allowance, and federal tax credits.

During the nine months ended October 30, 2010, income taxes included the recognition of tax benefits primarily due to a state administrative settlement, a decrease in a capital loss valuation allowance, and federal tax credit refund claims. During the nine months ended October 31, 2009, income taxes included the recognition of tax benefits primarily due to a state administrative settlement, decrease in a capital loss valuation allowance, and federal tax credit refund claims.

Note 12. Loss (Gain) on Disposal of Assets

During the three and nine months ended October 30, 2010, the Company received proceeds of \$1.9 million from the sale of a former retail store location, resulting in a loss of \$1.1 million that was recorded in loss (gain) on disposal of assets.

Additionally, during the nine months ended October 30, 2010, the Company received proceeds of \$4.0 million from the sale of a former retail store location, resulting in a gain of \$4.0 million that was recorded in loss (gain) on disposal of assets.

Note 13. Note Repurchase

During the three and nine months ended October 30, 2010, the Company repurchased \$1.2 million face amount of 7.13% notes with an original maturity on August 1, 2018. This repurchase resulted in a pretax gain of approximately \$21 thousand which was recorded in net interest and debt expense during the three and nine months ended October 30, 2010.

During the three and nine months ended October 31, 2009, the Company repurchased \$3.4 million and \$8.4 million face amount, respectively, of 9.125% notes with an original maturity on August 1, 2011. This repurchase resulted in a pretax gain of approximately \$0.1 million and \$1.7 million which was recorded in net interest and debt expense during the three and nine months ended October 31, 2009, respectively.

Note 14. Fair Value Disclosures

The estimated fair values of financial instruments which are presented herein have been determined by the Company using available market information and appropriate valuation methodologies. However, considerable judgment is required in interpreting market data to develop estimates of fair value. Accordingly, the estimates presented herein are not necessarily indicative of amounts the Company could realize in a current market exchange.

The fair value of the Company s long-term debt and subordinated debentures is based on market prices or dealer quotes (for publicly traded unsecured notes) and on discounted future cash flows using current interest rates for financial instruments with similar characteristics and maturities (for bank notes and mortgage notes).

The fair value of the Company s cash and cash equivalents and trade accounts receivable approximates their carrying values at October 30, 2010 due to the short-term maturities of these instruments. The fair value of the Company s long-term debt at October 30, 2010 was approximately \$729 million. The carrying value of the Company s long-term debt at October 30, 2010 was \$747 million. The fair value of the Company s subordinated debentures at October 30, 2010 was approximately \$187 million. The carrying value of the Company s subordinated debentures at October 30, 2010 was \$200 million.

Assets and Liabilities Measured at Fair Value on a Nonrecurring Basis

The FASB s accounting guidance utilizes a fair value hierarchy that prioritizes the inputs to the valuation techniques used to measure fair value into three broad levels:

• Level 1: Observable inputs such as quoted prices (unadjusted) in active markets for identical assets or liabilities

Table of Contents

• Level 2: Inputs, other than quoted prices, that are observable for the asset or liability, either directly or indirectly; these include quoted prices for similar assets or liabilities in active markets and quoted prices for identical or similar assets or liabilities in markets that are not active

• Level 3: Unobservable inputs that reflect the reporting entity s own assumptions

		Basis of Fair Value Measurements						
(in thousands)	Fair Value of Assets (Liabilities)	Quoted Prices In Active Markets for Identical Items (Level 1)	Significant Other Observable Inputs (Level 2)	Un	ignificant observable Inputs Level 3)			
Long-lived assets held for sale								
As of October 30, 2010	\$ 28,748	\$	\$	\$	28,748			
As of January 30, 2010	33,956				33,956			
As of October 31, 2009	31,825				31,825			

During the nine months ended October 30, 2010, long-lived assets held for sale with a carrying value of \$34.0 million were written down to their fair value of \$31.7 million, resulting in an impairment charge of \$2.2 million, which was included in earnings for the period. The inputs used to calculate the fair value of these long-lived assets included selling prices from commercial real estate transactions for assets in markets that we estimated would be used by a market participant in valuing these assets.

During the nine months ended October 30, 2010, the Company also sold a former retail store location with a carrying value of \$3.0 million.

Note 15. Recently Issued Accounting Standards

Consolidation of Variable Interest Entities

On January 31, 2010, the Company adopted changes issued by the Financial Accounting Standards Board (FASB) to accounting for variable interest entities. These changes require an enterprise to perform an analysis to determine whether the enterprise s variable interest or interests give it a controlling financial interest in a variable interest entity; to require ongoing reassessments of whether an enterprise is the primary beneficiary of a variable interest entity; to eliminate the solely quantitative approach previously required for determining the primary beneficiary of a variable interest entity; to add an additional reconsideration event for determining whether an entity is a variable interest entity when any changes in facts and circumstances occur such that holders of the equity investment at risk, as a group, lose the power from voting rights or similar rights of those investments to direct the activities of the entity that most significantly impact the entity is economic performance; and to require enhanced disclosures that will provide users of financial statements with more transparent information about an enterprise is involvement in a variable interest entity. The adoption of these changes had no material impact on the Company is condensed consolidated financial statements.

In January 2010, the FASB issued ASU 2010-06, an update to Topic 820, *Fair Value Measurements and Disclosures*. ASU 2010-06 provides an update specifically to Subtopic 820-10 that requires new disclosures including details of significant transfers in and out of Level 1 and Level 2 measurements and the reasons for the transfers and a gross presentation of activity within the Level 3 roll forward, presenting separately information about purchases, sales, issuances and settlements. ASU 2010-06 is effective for the first interim or annual reporting period beginning after December 15, 2009, except for the gross presentation of ASU 2010-06 did not have a material impact on the Company s condensed consolidated financial statements.

Item 2. Management s Discussion and Analysis of Financial Condition and Results of Operations

The following discussion should be read in conjunction with the condensed consolidated financial statements and the footnotes thereto included elsewhere in this report, as well as the financial and other information included in our Annual Report on Form 10-K for the year ended January 30, 2010.

EXECUTIVE OVERVIEW

Dillard s, Inc. (the Company , we , us or our) experienced an improved third quarter of fiscal 2010 over the prior year. Net sales from retail operations were \$1,320.6 million during the quarter ended October 30, 2010, an increase of \$5.1 million, or less than 1%, from the quarter ended October 31, 2009, while sales in comparable stores increased 1%. Gross profit from retail operations improved 150 basis points of retail sales, primarily due to our inventory management efforts and resulting decrease in markdown activity.

Net sales from construction operations during the quarter ended October 30, 2010 were \$23.6 million, down \$20.3 million or 46% from the quarter ended October 31, 2009. While gross profit from construction operations improved 80 basis points of construction sales, the construction industry continues to experience a decline in demand for construction services coupled with competitive pricing pressures.

Advertising, selling, administrative and general expenses company-wide were reduced by \$3.6 million during the quarter ended October 30, 2010 compared to the quarter ended October 31, 2009, primarily as a result of the Company s cost control measures combined with store closures.

The Company recorded net income for the third quarter of 2010 of \$14.4 million, or \$0.22 per share, compared to net income of \$8.0 million, or \$0.11 per share, for the third quarter of 2009. Included in net income for the quarter ended October 30, 2010 is a \$1.1 million loss (\$0.02 per share) related to the sale of a closed store and a \$1.2 million income tax benefit (\$0.02 per share) for a decrease in a capital loss valuation allowance. Included in net income for the quarter ended October 31, 2009 was a \$10.6 million tax benefit (\$0.14 per share) primarily due to state administrative settlement and a decrease in a capital loss valuation allowance.

As of October 30, 2010, we had working capital of \$862.8 million, cash and cash equivalents of \$167.1 million and \$946.8 million of total debt outstanding, excluding capital lease obligations. Cash flows from operating activities were \$158.9 million for the nine months ended October 30, 2010. Our improved cash position enabled us to repurchase \$71.3 million (approximately 2.9 million shares) of our Class A Common Stock during the quarter.

As of October 30, 2010, we operated 310 total stores, including 14 clearance centers, and one internet store, a decrease of 3 stores from the same period last year.

Key Performance Indicators

We use a number of key indicators of financial condition and operating performance to evaluate our business, including the following:

		Three Month	s Ended	(2)
	0	ctober 30, 2010	(October 31, 2009
Net sales (in millions)	\$	1,344.1	\$	1,359.3

(1)The net sales trend rate for the three months ended October 31, 2009 is based on retail segment sales only for comparability with the quarter ended November 1, 2008.

(2)Cash flow from operations data is for the nine months ended October 30, 2010 and October 31, 2009.

Seasonality and Inflation

Our business, like many other retailers, is subject to seasonal influences, with a significant portion of sales and income typically realized during the last quarter of our fiscal year due to the holiday season. Because of the seasonality of our business, results from any quarter are not necessarily indicative of the results that may be achieved for a full fiscal year.

We do not believe that inflation has had a material effect on our results during the periods presented; however, there can be no assurance that our business will not be affected by such in the future. Recent economic volatility in Asia, including rising labor costs and an unstable supply of merchandise, as well as increasing costs of transportation and cotton may put pressure on the Company s gross margin during fiscal 2011 though it is too soon to predict the effects of these changes.

The following table sets forth the results of operations and percentage of net sales for the periods indicated.

Sales of ladies apparel and accessories were up slightly, and sales of cosmetics,

juniors and children s apparel and shoes were up moderately. Sales in the home and furniture category were down significantly for the three-month period.

The number of sales transactions decreased 1% for the three months ended October 30, 2010 over the comparable prior year period while the average dollars per sales transaction were up slightly. We recorded an allowance for sales returns of \$7.2 million and \$6.2 million as of October 30, 2010 and October 31, 2009, respectively.

Net sales from the construction segment decreased \$20.3 million or 46% during the three months ended October 30, 2010 compared to the three months ended October 31, 2009 primarily because the fragile recovery of the United States economy continues to have a negative impact on demand for construction projects in private industry.

Net sales from the retail operations segment increased \$12.0 million, or less than 1% during the nine months ended October 30, 2010 compared to the nine months ended October 31, 2009 while sales in comparable stores increased 1% between the same periods. Sales of ladies apparel and accessories were up slightly, and sales of shoes were up moderately. Sales in the home and furniture category were down significantly for the nine-month period.

The number of sales transactions decreased 1% for the nine months ended October 30, 2010 over the comparable prior year period while the average dollars per sales transaction were up slightly.

Net sales from the construction segment decreased \$86.4 million or 52% during the nine months ended October 30, 2010 compared to the nine months ended October 31, 2009 primarily because the fragile recovery of the United States economy continues to have a negative impact on demand for construction projects in private industry. We expect this decreased demand will continue throughout fiscal 2010 and into the first half of fiscal 2011.

We continue to believe that in light of recent signs of modest economic improvement in the United States, we may continue to see some sales growth in the retail operations segment during the coming months; however, there is no guarantee of improved sales performance. Any further deterioration in the United States economy could have an adverse effect on consumer confidence and consumer spending habits, which could result in reduced customer traffic and comparable store sales, higher inventory levels and markdowns, and lower overall profitability.

Service charges and other income is composed primarily of income generated through the long-term marketing and servicing alliance (Alliance) with GE Consumer Finance (GE), which owns and manages the Dillard s branded proprietary credit cards. Income from the Alliance decreased during the three and nine months ended October 30, 2010 compared to the three and nine months ended October 31, 2009 primarily due to reduced finance charge and late charge fee income related to recent credit regulation legislation partially offset by decreased credit losses. Leased department income declined during the nine months ended October 30, 2010 compared to the nine months ended October 31, 2009 primarily because the licensee for the fine jewelry department ceased operations of all licensed outlets during fiscal 2009.

Gross profit from retail operations improved 150 basis points of sales and 240 basis points of sales during the three and nine months ended October 30, 2010 compared to the three and nine months ended October 31, 2009, respectively, as a result of continuing inventory management measures leading to reduced markdown activity. These inventory management measures include considerable adjustments to receipt cadence to shorten the period of time

from receipt to sale, to reduce markdown risk and to keep customers engaged with a more continuous flow of fresh merchandise selections throughout the season. Inventory declined 2% in both total and comparable stores as of October 30, 2010 compared to October 31, 2009. A 1% change in the dollar amount of markdowns would have impacted net income by approximately \$2 million and \$6 million for the three and nine months ended October 30, 2010, respectively.

During the three months ended October 30, 2010 as compared to the three months ended October 31, 2009, gross margin improved moderately in juniors and children s apparel, men s apparel and accessories and shoes while gross margin was relatively flat in cosmetics, ladies apparel and accessories and home and furniture.

During the nine months ended October 30, 2010 as compared to the nine months ended October 31, 2009, all merchandise categories experienced moderate gross margin improvements with the exception of cosmetics, which improved slightly.

Gross profit from the construction segment improved 80 basis points of sales during the three months ended October 30, 2010 compared to the three months ended October 31, 2009. Gross profit from the construction segment declined 260 basis points of sales during the nine months ended October 30, 2010 compared to the nine months ended October 31, 2009. This decrease was the result of the decline in demand for construction services that has created pricing pressures in an already competitive marketplace. This decrease was also due to job delays from bad weather and job underperformance resulting in the recognition of a \$2.2 million loss during the first quarter of fiscal 2010 on certain electrical contracts.

Construction segment	4.8	2.8	4.4	2.3	
Total SG&A as a percentage of net sales	29.6	29.6	28.3	28.5	

The decline in SG&A during the periods presented primarily resulted from the Company s expense savings measures combined with store closures.

The three-month decline in SG&A was most noted in advertising (\$7.9 million) and payroll and payroll related taxes (\$0.8 million) partially offset by an increase in services purchased (\$4.3 million) and supplies (\$1.1 million).

The nine-month decline in SG&A was most noted in advertising (\$22.5 million), payroll and payroll related taxes (\$20.3 million) and utilities (\$2.5 million) partially offset by an increase in services purchased (\$8.4 million) and supplies (\$5.4 million).

The decline in payroll and payroll related taxes for the three and nine-month periods presented was a direct result of the Company s continued efforts to match the appropriate levels of staff to its current needs. The decline in

advertising expense for the three and nine-month periods was primarily a result of the Company s migration from newspaper media to less expensive internet marketing sources.
