WIMM-BILL-DANN FOODS OJSC

CONTINUES TO POST STRONG REVENUE AND SUBSTANTIAL VOLUME GROWTH ACROSS ALL SEGMENTS

IN THIRD QUARTER AND NINE MONTHS OF 2010

Moscow, Russia December 23, 2010 Wimm-Bill-Dann Foods OJSC [NYSE: WBD] today announced its financial results for the third quarter and nine months ended September 30, 2010.

Highlights for the third quarter and nine months of 2010

- Group revenue increased 18.8% year-on-year to US\$1,895.9 million in the first nine months of 2010, and 22.3% year-on-year to US\$640.9 million in the third quarter of 2010, driven primarily by strong volume growth across all business segments
- Group gross profit grew 4.5% to US\$576.6 million in the first nine months of 2010 from US\$551.9 million in the same period last year, and 6.5% to US\$200.8 million in the third quarter of 2010 from US\$188.6 million in the third quarter of 2009
- Group gross margin declined 420 basis points year-on-year to 30.4% in the first nine months of 2010, as a result of continued pressure of raw milk costs
- EBITDA(1) was US\$239.6 million in the first nine months of 2010 compared to US\$246.6 million in the same period of 2009
- Net income declined to US\$92.7 million in the first nine months of 2010 from US\$109.4 million in the first nine months of 2009

Yet again we delivered strong volume growth in each of our business segments, said Tony Maher, Wimm-Bill-Dann's Chief Executive Officer. Our strong sales growth and stable bottom line, despite record raw milk prices, are a testament to our ability to adjust our sales mix, the power of our brands and the strength of relationships with our suppliers, our customers and our consumers.

Edgar Filing: WIMM BILL DANN FOODS OJSC - Form 6-K

We saw a robust 15% jump in group volumes in the third quarter and 10% increase for the first nine months of the year. The unusually hot summer led to an unprecedented spike in raw milk prices which has affected all players. Our long-term supplier relationships allowed us to manage this challenge better than others and our unrelenting focus on cost and supply chain management helped us reduce the impact on our margins. In particular, we were pleased by our ability to deliver sequential improvement in our dairy gross margins of 60 basis points during the third quarter.

Group revenue increased 22.3% in the third quarter of 2010 from the same period a year ago to \$640.9 million, driven by volume growth across all of our business segments.

We are also very pleased with the recently announced agreement with PepsiCo. This transaction is a great vote of confidence in the Russian market and recognizes the value of Wimm-Bill-Dann's strong, high-growth platform and product portfolio, while bringing tremendous value to our shareholders. PepsiCo is a global leader in the food and beverage industry and we are excited about the opportunities that this deal brings. Together we will be the largest FMCG company in Russia with a comprehensive portfolio of products and an unmatched distribution network that will deliver benefits to our shareholders, customers, suppliers and employees, concluded Mr. Maher.

Dairy

Sales in the Dairy Segment increased 18.2% to US\$1,318.0 million in the first nine months of 2010 from US\$1,115.4 million in the same period of 2009. Sales growth was driven primarily by strong volumes as well as pricing. The average dollar selling price increased 14.2% to US\$1.20 per 1 kg in the first nine months of 2010 from US\$1.05 per 1 kg in the same period last year. We continued to see a pressure from raw milk costs through the third quarter of 2010. Our raw milk purchasing price increased year-on-year in US dollar terms 40.8% in the first nine months, and 53.5% in the third quarter of 2010. As a result, our gross margin in the Dairy Segment declined to 23.9% in the first nine months of 2010 from 31.1% in the same period last year. However, gross margin improved to 25.6% in the third quarter of 2010.

Beverages

Beverages continued to outperform the market winning market share and accelerating volume growth. Sales in the Beverage segment increased 15.3% to US\$349.8 million in the first nine months of 2010 compared to US\$303.4 million in the same period of 2009. The growth was driven by solid volumes, offset partially by mix effect. The average dollar selling price decreased 1.9% to US\$0.74 per liter in the first nine months of 2010 from US\$0.75 per liter in the same period last year. Gross margin in Beverages increased to 43.7% in the first nine months of 2010 from 39.2% in the same period last year due to improved efficiency and lower input costs. Gross margin in Beverages increased to 44.4% in the third quarter of 2010 from 40.1% in the third quarter of 2009.

Baby Food

The Baby Food Segment demonstrated traditionally strong volume growth and improved market position. Sales in Baby Food increased 29.1% to US\$228.2 million in the first nine months of 2010 from US\$176.8 million in the same period last year driven mainly by growth in volumes.

Edgar Filing: WIMM BILL DANN FOODS OJSC - Form 6-K

The average dollar selling price increased 6.1% to US\$1.87 per kg in the first nine months of 2010 from US\$1.76 per kg in the first nine months of 2009. Gross margin in the Baby Food Segment decreased to 47.5% in the first nine months of 2010 from 49.0% in the first nine months of 2009 due to slight changes in mix.

Key Cost Elements

In the first nine months of 2010, selling and distribution expenses increased 16.7% to US\$317.8 million from US\$272.3 million in the same period last year, mainly due to higher transportation and personnel expenses. At the same time as a percentage of sales, selling and distribution expenses decreased to 16.8% in the first nine months of 2010 from 17.1% in the first nine months of 2009. General and administrative expenses decreased 1.7% to US\$95.4 million in the first nine months of 2010 from US\$97.1 million in the same period last year. General and administrative expenses, as a percentage of sales, decreased to 5.0% in the first nine months of 2010 from 6.1% in the same period of 2009.

Operating profit decreased 12.9% year-on-year to US\$154.2 million in the first nine months of 2010.

EBITDA declined 2.8% year-on-year to US\$239.6 million in the first nine months of 2010. EBITDA margin declined to 12.6% in the first nine months of 2010 compared to 15.5% in the same period last year.

In the first nine months of 2010, financial expenses decreased 8.8% to US\$29.0 million compared to US\$31.8 million in the same period of 2009. However, in the third quarter of 2010, financial expenses increased to US\$16.9 million compared to US\$5.9 million in the third quarter of 2009. This was mainly due to increased interest expense which amounted to US\$14.6 million in the third quarter of 2010 compared to US\$7.7 million in the third quarter of the last year.

Our effective tax rate increased to 24.9% in the first nine months of 2010 from 24.1% in the same period of 2009.

Net Income

In the first nine months of 2010, net income decreased 15.2% year-on-year to US\$92.7 million.

*Attachment A**Reconciliation of EBITDA and EBITDA margin to US GAAP Net Income*

EBITDA is a non-U.S. GAAP financial measure. The following table presents reconciliation of EBITDA to net income (and EBITDA margin to net income as a percentage of sales), the most directly comparable U.S. GAAP financial measure.

	9 months ended September 30, 2010		9 months ended September 30, 2009	
	US\$ mln	% of sales	US\$ mln	% of sales
Net income	92.7	4.8%	109.4	6.9%
Add: Depreciation and amortization	85.4	4.5%	69.4	4.4%
Add: Income tax expense	31.2	1.6%	35.0	2.2%
Add: Interest expense	31.2	1.65%	22.8	1.4%
Less: Interest income	(2.7)	(0.1)%	(3.7)	(0.2)%
Add: Currency remeasurement (gains)/losses, net	(0.9)	(0.05)%	10.2	0.6%
Add: Bank charges	1.6	0.1%	2.1	0.1%
Add: Noncontrolling interests	1.3	0.1%	0.9	0.1%
Add: Other	(0.2)	(0.01)%	0.5	0.03%
EBITDA	239.6	12.6%	246.6	15.5%

EBITDA represents net income before interest, income taxes and depreciation and amortization, adjusted for interest income, currency remeasurement gains, bank charges and other financial expenses and noncontrolling interests. EBITDA margin is EBITDA expressed as a percentage of sales.

We present EBITDA because we consider it an important supplemental measure of our operating performance. In particular, we believe EBITDA provides useful information to securities analysts, investors and other interested parties because it is used in the debt to EBITDA debt incurrence financial measurement in certain of our financing arrangements.

EBITDA has limitations as an analytical tool, and you should not consider it in isolation, or as substitute for analysis of our operating results as reported under U.S. GAAP. Moreover, other companies in our industry may calculate EBITDA differently or may use it for different purposes than we do, limiting its usefulness as a comparative measure.

EBITDA also should not be considered as an alternative to cash flow from operating activities or as a measure of our liquidity. In particular, EBITDA should not be considered as a measure of discretionary cash available to us to invest in the growth of our business.
