#### **ROSETTA STONE INC.**

#### NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

#### (UNAUDITED)

#### **1. NATURE OF OPERATIONS**

Rosetta Stone Inc. and its subsidiaries ( Rosetta Stone, the Company or the Successor ) develops, markets and supports a suite of language learning solutions consisting of software products, online services and audio practice tools under the *Rosetta Stone* brand name. The Company s software products are sold on a direct basis and through select retailers. The Company provides its software applications to customers through the sale of packaged software and online subscriptions. Rosetta Stone Inc. was incorporated on December 23, 2005 in the state of Delaware and acquired Rosetta Stone Holdings Inc., a Delaware corporation, on January 4, 2006. Rosetta Stone Holdings Inc. acquired Rosetta Stone Ltd. (formerly Fairfield & Sons, Ltd.) and Rosetta Stone (UK) Limited (formerly Fairfield & Sons UK Limited), on January 4, 2006. Rosetta Stone Inc. has eleven wholly owned subsidiaries Rosetta Stone Holdings Inc., a Delaware corporation, Rosetta Stone Brazil Holding LLC, a Delaware Corporation, Rosetta Stone (UK) Limited, a corporation incorporated under the laws of England and Wales, Rosetta Stone Japan Inc., a company incorporated under the laws of Germany, Rosetta Stone Korea Ltd., a company incorporated under the laws of the Republic of Korea, Rosetta Stone Ensino de Linguas Ltda., a company incorporated under the laws of Brazil, Rosetta Stone Canada Inc., a company incorporated under the laws of the Province of New Brunswick, and Rosetta Stone Hong Kong Limited, a company incorporated under the laws of the Province of New Brunswick, and Rosetta Stone Hong Kong Limited, a company incorporated under the laws of the Province of New Brunswick, and Rosetta Stone Hong Kong Limited, a company incorporated under the laws of the Province of New Brunswick, and Rosetta Stone Hong Kong Limited, a company incorporated under the laws of China.

#### 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

#### **Principles of Consolidation**

The accompanying condensed consolidated financial statements include the accounts of Rosetta Stone Inc. and its wholly owned subsidiaries. All intercompany accounts and transactions have been eliminated in consolidation.

#### **Basis of Presentation**

The accompanying condensed consolidated financial statements are unaudited. These unaudited interim consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States (GAAP) and applicable rules and regulations of the Securities and Exchange Commission (SEC) regarding interim financial reporting. Certain information and note disclosures normally

included in the financial statements prepared in accordance with GAAP have been condensed or omitted pursuant to such rules and regulations. Accordingly, these interim consolidated financial statements should be read in conjunction with the consolidated financial statements and notes thereto contained in the Company s Annual Report on Form 10-K filed with the SEC on March 14, 2011. The December 31, 2010 condensed consolidated balance sheet included herein was derived from the audited financial statements as of that date, but does not include all disclosures, including notes, required by GAAP.

The unaudited interim consolidated financial statements have been prepared on the same basis as the audited consolidated financial statements and in the opinion of management include all adjustments necessary for the fair presentation of the Company s statement of financial position at September 30, 2011 and December 31, 2010, the Company s results of operations for the three and nine months ended September 30, 2011 and 2010 and its cash flows for the nine months ended September 30, 2011 and 2010. The results for the three and nine months ended September 30, 2011 are not necessarily indicative of the results to be expected for the year ending December 31, 2011. All references to September 30, 2011 or to the three and nine months ended September 30, 2011 and 2010 in the notes to the condensed consolidated financial statements are unaudited.

#### Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires that management make certain estimates and assumptions. Significant estimates and assumptions have been made regarding the allowance for doubtful accounts, estimated sales returns, stock-based compensation, fair value of assets and liabilities acquired, lease abandonment accrual, fair value of intangibles and goodwill, fair value of stock issued, inventory reserve, disclosure of contingent assets and liabilities and disclosure of contingent litigation. Actual results may differ from these estimates.

#### **Revenue Recognition**

Revenue is primarily derived from the sale of packaged software and audio practice products, online software subscriptions and professional services. Professional services include training, implementation services and dedicated conversational coaching associated with Rosetta Stone *TOTALe*. Rosetta Stone *TOTALe* online, which was released in July 2009, combines dedicated conversational coaching and an online software subscription. Rosetta Stone V4 *TOTALe*, which was released in September 2010, combines packaged software and dedicated conversational coaching. The Company recognizes revenue for software products and related services in accordance with Accounting Standards Codification subtopic 985-605, *Software: Revenue Recognition* (ASC 985-605).

Revenue is recognized when all of the following criteria are met: there is persuasive evidence of an arrangement; the product has been delivered or services have been rendered; the fee is fixed and determinable; and collectability is probable. Revenues from packaged software and audio practice products and online software subscriptions are recorded net of discounts.

Revenue is recognized from the sale of packaged software and audio practice products when the product has been delivered, assuming the remaining revenue recognition criteria have been met. Software products include sales to end-user customers and resellers. In most cases, revenue from sales to resellers is not contingent upon resale of the software to the end user and is recorded in the same manner as all other product sales. Revenue from sales of packaged software products are recognized as the products are shipped and title passes and risks of loss have been transferred. For most of the Company s product sales, these criteria are met at the time the product is shipped. For some sales to resellers and certain other sales, the Company defers revenue until the customer receives the product because the Company legally retains a portion of the risk of loss on these sales during transit. A limited amount of packaged software products are sold to resellers on a consignment basis. Revenue is recognized for these consignment transactions once the end-user sale has occurred, assuming the remaining revenue recognition criteria have been met. In accordance with Accounting Standards Codification subtopic 985-605-50, Software: Revenue Recognition: Customer Payments and Incentives (ASC 985-605-50), price protection for changes in the manufacturer suggested retail value granted to resellers for the inventory that they have on hand at the date the price protection is offered is recorded as a reduction to revenue. The Company offers customers the ability to make payments for packaged software purchases in installments over a period of time, which typically ranges between three and five months. Given that these installment payment plans are for periods less than 12 months and a successful collection history has been established, revenue is recognized at the time of sale, assuming the remaining revenue recognition criteria have been met. Packaged software is provided to customers who purchase directly from us with a six-month right of return. The company also allows its retailers to return unsold products, subject to some limitations. In accordance with Accounting Standards Codification subtopic 985-605-15, Software: Revenue Recognition: Products (ASC 985-605-15), product revenue is reduced for estimated returns, which are based on historical return rates.

Revenue for software license agreements sold via online software subscriptions as hosting agreements are recognized in accordance with Accounting Standards Codification subtopic 985-605-05, *Software: Revenue Recognition: Background* (ASC 985-605-05). Revenue for online software subscriptions is recognized ratably over the term of the subscription period, assuming all revenue recognition criteria have been met, which typically ranges between 3 and 12 months. Some online licensing arrangements include a specified number of licenses that can be activated over a period of time, which typically ranges between 6 and 24 months. Revenue for these arrangements is recognized on a per license basis ratably over the term of the individual license subscription period, assuming all revenue recognition criteria have been met, which typically ranges between for set-up fees related to online licensing arrangements is recognized ratably over the term of the online licensing arrangement, assuming all revenue recognition criteria have been met, accounts receivable and deferred revenue are recorded at the time a customer enters into a binding subscription agreement and the subscription services are made available to the customer. In connection with packaged software product sales and online software subscriptions, technical support is provided to customers, including customers of resellers, at no additional charge. As the fee for technical support is included in the initial licensing fee, the technical support and services are generally provided within one year, the estimated cost of providing such support is deemed insignificant and no unspecified upgrades/enhancements are offered, technical support revenues are recognized together with the software product and license revenue. Costs associated with the technical support are accrued at the time of sale.

Revenue for online service subscriptions for dedicated conversational coaching are recognized ratably over the term of the subscription period, assuming all revenue recognition criteria have been met, which typically range from three months to 15 months. Rosetta Stone V4 *TOTALe* bundles, which include dedicated conversational coaching online services and packaged software, allow customers to begin their online services at any point during a registration window, which is 6 months from the date of purchase from the Company or an authorized reseller. Dedicated conversational coaching online services subscriptions

#### Table of Contents

that are not activated during this registration window are forfeited and revenue is recognized upon expiry. Accounts receivable and deferred revenue are recorded at the time a customer purchases the online services.

In accordance with ASC 985-605-50, cash sales incentives to resellers are accounted for as a reduction of revenue, unless a specific identified benefit is identified and the fair value is reasonably determinable.

The Company has been engaged to develop language learning software for certain endangered languages under fixed-fee arrangements. These arrangements also include contractual periods of post-contract support (PCS) and online hosting services ranging from one to ten years. Revenue for multi-element contracts are recognized ratably once the PCS and online hosting periods begin, over the longer of the PCS or online hosting period. When the current estimates of total contract revenue and contract cost indicate a loss for a fixed fee arrangement, a provision for the entire loss on the contract is recorded.

Revenue Recognition for Arrangements with Multiple Deliverables

As of January 1, 2010, the Company began to recognize revenue prospectively for new arrangements with multiple deliverables in accordance with ASU No. 2009-13, *Revenue Recognition (Topic 605) Multiple Deliverable Revenue Arrangements* (ASU No. 2009-13). For multi-element arrangements that include online services and auxiliary items, such as headsets and audio practice products which provide stand-alone value to the customer, the Company allocates revenue to all deliverables based on their relative selling prices in accordance with ASU No. 2009-13. The new accounting principles establish a hierarchy to determine the selling price to be used for allocating revenue to deliverables as follows: (i) vendor-specific objective evidence of fair value (VSOE), (ii) third-party evidence of selling price (TPE), and (iii) best estimate of the selling price (ESP). VSOE generally exists only when the Company sells the deliverable separately and is the price actually charged by the Company for that deliverable. ESPs reflect its best estimates of what the selling prices of elements would be if they were sold regularly on a stand-alone basis.

The Company has identified two deliverables generally contained in arrangements involving the sale of online services bundled with auxiliary items. The first deliverable is the auxiliary items, which are delivered at the time of sale, and the second deliverable is the online services. The Company allocates revenue between these two deliverables using the relative selling price method. Amounts allocated to the auxiliary items are recognized at the time of sale, provided the other conditions for revenue recognition have been met. Amounts allocated to the online services are deferred and recognized on a straight-line basis over the term of the online services. The auxiliary item cost of sales are generally recognized at the time of sale. Costs for online services and sales and marketing are expensed as incurred.

The Company has identified two deliverables generally contained in Rosetta Stone V4 *TOTALe* software arrangements. The first deliverable is the packaged software, which is delivered at the time of sale, and the second deliverable is the dedicated conversational coaching online services. The Company allocates revenue between these two deliverables using the relative selling price method. Amounts allocated to the software are recognized at the time of sale, provided the other conditions for revenue recognition have been met. Amounts allocated to the online services are deferred and recognized on a straight-line basis over the term of the online services or upon expiry of the online services. The language learning software cost of sales are generally recognized at the time of sale. Costs for online services and sales and marketing are expensed as incurred.

The Company accounts for multiple element arrangements that consist only of software or software related products, in accordance with industry specific accounting guidance for software and software related transactions. For such transactions, revenue on arrangements that include multiple elements is allocated to each element based on the relative fair value of each element, and fair value is generally determined by VSOE. If the Company cannot objectively determine the fair value of any undelivered element included in such multiple element arrangements, the Company defers revenue until all elements are delivered and services have been performed, or until fair value can objectively be determined for any remaining undelivered elements.

#### Income Taxes

The Company accounts for income taxes in accordance with Accounting Standards Codification topic 740, *Income Taxes* (ASC 740), which provides for an asset and liability approach to accounting for income taxes. Deferred tax assets and liabilities represent the future tax consequences of the differences between the financial statement carrying amounts of assets and liabilities versus the tax bases of assets and liabilities. Under this method, deferred tax assets are recognized for deductible temporary differences, and operating loss and tax credit carryforwards. Deferred liabilities are recognized for taxable temporary differences. Deferred tax assets are reduced by a valuation allowance when, in the opinion of management, it is more

#### Table of Contents

likely than not that some portion or all of the deferred tax assets will not be realized. The impact of tax rate changes on deferred tax assets and liabilities is recognized in the year that the change is enacted.

#### Fair Value of Financial Instruments

In 2008 and 2009, the Company adopted the provisions of ASC No. 820, Fair Value Measurements. The valuation techniques required by ASC No. 820 are based upon observable and unobservable inputs. Observable inputs reflect market data obtained from independent sources, while unobservable inputs reflect our market assumptions. These two types of inputs create the following fair value hierarchy:

Level 1: Quoted prices for identical instruments in active markets.

Level 2: Quoted prices for similar instruments in active markets; quoted prices for identical or similar instruments in markets that are not active; and model-derived valuations whose inputs are observable or whose significant value drivers are observable.

Level 3: Significant inputs to the valuation model are unobservable.

The carrying amounts reported in the consolidated balance sheets for cash and cash equivalents, restricted cash, accounts receivable, accounts payable and other accrued expenses approximate fair value due to relatively short periods to maturity.

See table below for summary of the Company s financial instruments accounted for at fair value on a recurring basis, which consist only of our short-term investments that are marked to fair value at each balance sheet date, as well as the fair value of the accrual for the contingent purchase price of our acquisition of SGLC International Co. Ltd. (SGLC) in 2009:

	Fair mber 30, 2011	Qu i M l	ue as of Sep oted Prices n Active arkets for (dentical Assets (Level 1)	Signi Obser	r 30, 2011 usir ficant Other rvable Inputs Level 2)	ng: Signifia Unobser Inpu (Level	vable ts S	F September 3 2010	(	Value as of Se Quoted Prices in Active Markets for Identical Assets (Level 1)	ptember 30, 2010 us Significant Other Observable Inputs (Level 2)	ing: Signifi Unobser Inpu (Leve	rvable 1ts

		Edgar Fi	iling: ROSET	TA STO	ONE INC -	Form	า 10-Q		
Total	\$ 573	\$	\$	\$	573 \$	850	\$	\$ \$	850

There were no changes in the valuation techniques or inputs used as the basis to calculate the contingent purchase price accrual.

#### **Stock-Based Compensation**

The Company accounts for its stock-based compensation in accordance Accounting Standards Codification topic 718, *Compensation Stock Compensation* (ASC 718), which was adopted by the Company effective January 1, 2006. Under ASC 718, all stock-based awards, including employee stock option grants, are recorded at fair value as of the grant date and recognized as expense in the statement of operations on a straight-line basis over the requisite service period, which is the vesting period.

Stock Options

During the nine months ended September 30, 2011, 544,239 stock options were granted at a weighted average exercise price of \$14.67 per share. The aggregate grant date fair value of options issued during the period was \$4.3 million, which will be

#### Table of Contents

recognized as expense over the requisite service period of the options, which is also the vesting period. During the nine months ended September 30, 2010, 407,908 stock options were granted at a weighted average exercise price of \$24.99 per share. During the nine months ended September 30, 2011 and 2010, 181,778 and 336,154 stock options were exercised, respectively. The total intrinsic value of options exercised during the nine months ended September 30, 2011 and 2010 was approximately \$1.6 million and \$4.5 million, respectively.

The fair value of each option grant is estimated on the date of grant using the Black-Scholes option pricing model. For the nine months ended September 30, 2011 and 2010, the fair value of options granted was calculated using the following assumptions:

	Nine Mont Septemb	
	2011	2010
Expected stock price volatility	57.1% - 58.2%	61.2% - 66.0%
Expected term of options Expected dividend yield	6 years	6 years
Risk-free interest rate	0.95% - 2.35%	1.38% - 2.59%

Since the Company s stock has been publicly quoted since April 2009 and the Company has a limited history of stock option activity, the Company reviewed a group of comparable industry-related companies to estimate its expected volatility over the most recent period commensurate with the estimated expected term of the awards. In addition to analyzing data from the peer group, the Company also considered the contractual option term and vesting period when determining the expected option life and forfeiture rate. For the risk-free interest rate, the Company uses a U.S. Treasury Bond rate consistent with the estimated expected term of the option award.

#### **Restricted Stock**

During the nine months ended September 30, 2011, 133,789 shares of restricted stock were granted. The aggregate grant date fair value of the awards was \$2.1 million, which will be recognized as expense on a straight-line basis over the requisite service period of the awards, which is also the vesting period. The Company s restricted stock grants are accounted for as equity awards. The grant date fair value is based on the market price of the Company s common stock at the date of grant. During the nine months ended September 30, 2010, 91,397 shares of restricted stock were granted. The aggregate grant date fair value of the awards was \$2.4 million.

#### Restricted Stock Units

During the nine months ended September 30, 2011, 17,471 restricted stock units were granted. The aggregate grant date fair value of the awards was \$238,000, which will be recognized as expense on the grant date, as the awards were immediately vested. The Company s restricted stock unit grants are accounted for as equity awards. The grant date fair value is based on the market price of the Company s common stock at the grant date. During the nine months ended September 30, 2010, 12,096 restricted stock units were granted. The aggregate grant date fair value of the awards was \$210,000.

Long Term Incentive Program

On January 4, 2011, the Company s Board of Directors approved the Rosetta Stone Inc. Long Term Incentive Program (LTIP), a long-term incentive plan for certain of the Company s executives. The LTIP will be administered under the Rosetta Stone Inc. 2009 Omnibus Incentive Plan (the Plan), and the 1,000,000 shares allocated to the LTIP will be taken from the shares reserved under the Plan. Executives designated by the Board of Directors will be eligible to receive shares of restricted common stock for each milestone level of total market capitalization achieved, as specified in individual award agreements. The shares received will be restricted in that after issuance of the shares, they are subject to vesting over a two year period. For each milestone level of market capitalization reached above the base market capitalization as of October 1, 2010, the compensation committee of the Board of Directors will allocate a share incentive pool amongst the participating executives as specified in individual award agreements.

#### Table of Contents

In accordance with the agreements communicated to the executives after the approval of the plan by the Board of Directors, the LTIP participants were granted minimum participation percentages of each tranche of shares issued at each milestone level reached. For these minimum shares to be received, the Company determined that a grant date was achieved. The grant date fair value of the minimum awards was \$6.1 million which was derived using a Monte Carlo valuation model. This value will be amortized as stock-based compensation expense over the derived service period of 5 years. Stock-based compensation expense for unallocated LTIP shares will be recognized when the milestones are met, the Board determines the allocation to each individual, and the shares are granted. The grant date fair value determined at that time will be amortized over the vesting period.

During the nine months ended September 30, 2011, the Company recorded \$0.9 million in stock-based compensation expense related to the LTIP, and as of September 30, 2011, there was \$5.2 million of unrecognized stock-based compensation expense related to minimum awards that is expected to be recognized over a period of 5 years.

The following table presents stock-based compensation expense included in the related financial statement line items (dollars in thousands):

	Three Mor Septen		Nine Mon Septem	
	2011	2010	2011	2010
Cost of Revenue	\$ 14	\$ 7	\$ 34	\$ 29
Sales and marketing	322	208	856	547
Research & development	404	320	1,101	889
General and administrative	1,096	530	2,986	1,525
Total	\$ 1,836	\$ 1,065	\$ 4,977	\$ 2,990

#### Foreign Currency Translation and Transactions

The functional currency of the Company s foreign subsidiaries is their local currency. Accordingly, assets and liabilities of the foreign subsidiaries are translated into U.S. dollars at exchange rates in effect on the balance sheet date. Income and expense items are translated at average rates for the period. Translation adjustments are recorded as a component of other comprehensive income (loss) in stockholders equity.

Cash flows of consolidated foreign subsidiaries, whose functional currency is the local currency, are translated to U.S. dollars using average exchange rates for the period. The Company reports the effect of exchange rate changes on cash balances held in foreign currencies as a separate item in the reconciliation of the changes in cash and cash equivalents during the period. The following table presents the effect of exchange rate changes on total comprehensive income (dollars in thousands):

	Three Mon Septem		Nine Mont Septem	ed
	2011	2010	2011	2010
Net Income (loss)	\$ (1,177)	\$ (385) \$	(15,008)	\$ 8,320
Foreign currency translation gain (loss)	(188)	398	313	339

Unrealized gain (loss) on available-for-sale securities		(16)
Total comprehensive income (loss)	\$ (1,365)	\$ 13 \$ (14,711) \$ 8,659
	11	

#### Advertising Costs

Costs for advertising are expensed as incurred. Advertising expense for the three and nine months ended September 30, 2011 were \$18.0 million and \$53.1 million, respectively, and for the three and nine months ended September 30, 2010 were \$14.6 million and \$36.7 million, respectively.

#### **Recently Issued Accounting Standards**

In August 2010, the Financial Accounting Standards Board (FASB) issued an exposure draft on lease accounting that would require entities to recognize assets and liabilities arising from lease contracts on the balance sheet. The proposed exposure draft states that lessees and lessors should apply a right-of-use model in accounting for all leases. Under the proposed model, lessees would recognize an asset for the right to use the lease dasset, and a liability for the obligation to make rental payments over the lease term. The lease term is defined as the longest possible term that is more likely than not to occur. The accounting by a lessor would reflect its retained exposure to the risks or benefits of the underlying leased asset. A lessor would recognize an asset representing its right to receive lease payments based on the expected term of the lease. The final standard is expected to be issued in calendar year 2011. The proposed standard, as currently drafted, will have a material impact on the Company s reported results of operations and financial position. This exposure draft is non-cash in nature and will not impact the Company s cash position.

Accounting Standards Update No. 2011-05 Comprehensive Income (Topic 220). Under the amendments to Topic 220, an entity has the option to present the total of comprehensive income, the components of net income, and the components of other comprehensive income either in a single continuous statement of comprehensive income or in two separate but consecutive statements. In both choices, an entity is required to present each component of net income along with total net income, each component of other comprehensive income along with a total for other comprehensive income as part of the statement of changes in stockholders equity. The amendments in this update do not change the items that must be reported in other comprehensive income or when an item of other comprehensive income must be reclassified to net income, thus the adoption of such standard will not have a material impact on the Company's reported results of operations and financial position.

In September 2011, the FASB issued new guidance on goodwill impairment testing (ASU 2011-08, *Intangibles Goodwill and Other (Topic 350): Testing Goodwill for Impairment*), effective for calendar years beginning after December 15, 2011. Early adoption is permitted. The objective of this standard is to simplify how an entity tests goodwill for impairment. The amendments in this standard will allow an entity to first assess qualitative factors to determine whether it is more likely than not that the fair value of a reporting unit is less than its carrying value as a basis for determining whether it needs to perform the quantitative two-step goodwill impairment test. Only if an entity determines, based on qualitative assessment, that it is more likely than not that a reporting unit s fair value is less than its carrying value will it be required to calculate the fair value of the reporting unit. The Company intends to adopt this new guidance beginning fiscal year 2012.

#### 3. NET INCOME (LOSS) PER SHARE

Net income (loss) per share is computed under the provisions of Accounting Standards Codification topic 260, *Earnings Per Share*. Basic income per share is computed using net income (loss) and the weighted average number of shares of common stock outstanding. Diluted

earnings per share reflect the weighted average number of shares of common stock outstanding plus any potentially dilutive shares outstanding during the period. Potentially dilutive shares consist of shares issuable upon the exercise of stock options, restricted stock awards, restricted stock units and conversion of shares of preferred stock. Common stock equivalent shares are excluded from the diluted computation if their effect is anti-dilutive.

			Nine Months Ended September 30,

#### Table of Contents

For the three and nine months ended September 30, 2011 and 2010, the following common stock equivalent shares were included in the calculation of the Company s diluted net income per share (in thousands):

		Three Months Ended September 30,		ths Ended ber 30,
	2011	2010	2011	2010
Equity Instruments:				
Restricted common stock units				12
Restricted common stock				98
Stock options				686
Total common stock equivalent shares				796

For the three and nine months ended September 30, 2011, outstanding stock options, restricted stock units and restricted stock of 2.2 million, 40,000 and 347,000, respectively, were not included in the diluted net loss per share calculation, as they were anti-dilutive.

Share based awards to purchase 1.3 million and 922,000 shares of common stock that had an exercise price in excess of the average market price of the common stock during the three and nine months ended September 30, 2010, were not included in the calculation of diluted earnings per share because they were anti-dilutive.

#### 4. INVENTORY

Inventory consisted of the following (dollars in thousands):

	Se	ptember 30, 2011	December 31, 2010
Raw materials	\$	4,781	\$ 4,423
Finished goods		3,757	5,505
Total inventory	\$	8,538	\$ 9,928

#### 5. GOODWILL

The value of goodwill is primarily derived from the acquisition of Rosetta Stone Ltd. (formerly known as Fairfield & Sons, Ltd.) in January 2006 and the acquisition of certain assets of SGLC in November 2009. The Company tests goodwill for impairment annually on June 30 of each year at the reporting unit level using a fair value approach, in accordance with the provisions of Accounting Standards Codification topic 350, *Intangibles Goodwill and Other* (ASC 350). If an event occurs or circumstances change that would more likely than not reduce the fair value of a reporting unit below its carrying value, goodwill will be evaluated for impairment between annual tests. For income tax purposes, the goodwill balance is amortized over a period of 15 years. Beginning in 2011, the Company began reporting its results in two reportable segments, which resulted in two reporting units for goodwill impairment purposes Consumer and Institutional. The Company s annual testing resulted in no impairments of goodwill since the dates of acquisition.

The following table represents the balance and changes in goodwill, by reporting unit, for the nine months ended September 30, 2011 (in thousands):

	Consumer Operating Segment	Institutional Operating Segment	Total	
Balance as of December 31, 2010	\$ 15,685	\$ 19,171	\$ 34,85	56
Effect of change in foreign currency rate	(11)	(14)	) (2	25)
Balance as of September 30, 2011	\$ 15,674	\$ 19,157	\$ 34,83	31

#### 6. INTANGIBLE ASSETS

Intangible assets consisted of the following items as of the dates indicated (in thousands):

			Septem	ber 30, 2011			Decer	nber 31, 2010	
	C	Gross arrying .mount		umulated ortization	Net Carrying Amount	Gross Carrying Amount		cumulated portization	Net Carrying Amount
Trade name/ trademark	\$	10,607	\$		\$ 10,607	\$ 10,607	\$		\$ 10,607
Core technology		2,453		(2,453)		2,453		(2,453)	
Customer relationships		10,841		(10,836)	5	10,844		(10,800)	44
Website		12		(12)		12		(12)	
Patents		300		(33)	267	300		(3)	297
Total	\$	24,213	\$	(13,334)	\$ 10,879	\$ 24,216	\$	(13,268)	\$ 10,948

Amortization of intangible assets for the three months ended September 30, 2011 and 2010 totaled \$24,000 and \$13,000, respectively. For the three months ended September 30, 2011 and 2010, \$10,000 and zero was included in research and development expense and \$14,000 and \$13,000 was included in sales and marketing expense, respectively.

Amortization of intangible assets for the nine months ended September 30, 2011 and 2010 totaled \$71,000 and \$41,000, respectively. For the nine months ended September 30, 2011 and 2010, \$30,000 and zero was included in research and development expense and \$41,000 and \$41,000 was included in sales and marketing expense, respectively.

The following table summarizes the estimated future amortization expense related to intangible assets for the remaining three months of 2011 and years thereafter (in thousands):

2011 remaining	\$ 14
2012	40
2013	40
2014	40
2015	40
Thereafter	98
Total	\$ 272

In accordance with Accounting Standards Codification topic 360, *Property, Plant, and Equipment*, the Company reviews its long-lived assets, including property and equipment and intangible assets, for impairment whenever events or changes in circumstances indicate that the carrying amounts of the assets may not be fully recoverable. If the total of the expected undiscounted future net cash flows is less than the carrying amount of the asset, a loss is recognized for the difference between the fair value and carrying amount of the asset. There were no impairment charges for the nine months ended September 30, 2011 or September 30, 2010.

<sup>14</sup> 

#### 7. OTHER CURRENT LIABILITIES

The following table summarizes other current liabilities (in thousands):

	-	nber 30, 011	D	ecember 31, 2010
Marketing expenses	\$	12,269	\$	11,075
Professional and consulting fees		3,909		2,820
Sales return reserve		4,011		8,391
Taxes payable		1,737		2,722
Other		6,172		7,617
	\$	28,098	\$	32,625

#### 8. BORROWING AGREEMENT

On January 16, 2009, the Company entered into a credit agreement with Wells Fargo Bank, N.A. (Wells Fargo), which provided the Company with a \$12.5 million revolving line of credit. This revolving credit facility had a two-year term and the applicable interest rate was 2.5% above one month LIBOR, or approximately 2.76% as of December 31, 2010. On January 16, 2009, the Company borrowed approximately \$9.9 million under this revolving credit facility and used these funds to repay the entire outstanding principal and interest of the Term Loan the Company had with Madison Capital. As a result, the Company had no borrowings owed to Madison Capital under either their Term Loan or Revolver, and the Company had terminated these credit agreements. As a result of the early repayment of the Madison Capital Loan, the Company wrote-off the remaining unamortized capitalized financing costs associated with this loan. The amount of the write-off was approximately \$0.2 million. Upon completion of the Company s initial public offering, the Company repaid the \$9.9 million balance of its revolving credit facility with Wells Fargo during the three months ended June 30, 2009, and a total of \$12.5 million under revolving credit facility was available to the Company for borrowing thereunder.

Interest expense for the three months ended September 30, 2011 and 2010 was \$1,000 and \$8,000, respectively.

Interest expense for the nine months ended September 30, 2011 and 2010 was \$5,000 and \$25,000, respectively.

On January 17, 2011, the Company allowed its \$12.5 million revolving line of credit with Wells Fargo to expire.

#### 9. INCOME TAXES

In accordance with Accounting Standards Codification topic 740, *Income Taxes*, and Accounting Standards Codification subtopic 740-270, *Income Taxes: Interim Reporting*, the income tax provision for the nine month period ended September 30, 2011 is based on the

estimated annual effective tax rate for fiscal year 2011. The estimated effective tax rate may be subject to adjustment in subsequent quarterly periods as the estimates of pretax income for the year, along with other items that may affect the rate, change and create a different relationship between domestic and foreign income and loss.

The Company adopted Accounting Standards Codification topic 740-10-25, *Income Taxes: Overall: Background* (ASC 740-10-25) on January 1, 2007, which clarified the accounting for uncertainty in income taxes recognized in an enterprise s financial statements. ASC 740-10-25 prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. ASC 740-10-25 also provides guidance on derecognition, classification, interest and penalties, accounting in interim periods, disclosure, and transition.

At the adoption date, the Company had no material unrecognized tax benefits and no adjustments to liabilities or operations were required under ASC 740-10-25. During the three months ended September 30, 2011, the Company established a liability of \$143,000 for unrecognized tax benefits associated with certain tax credits. The Company s practice is to recognize interest and penalty expense related to uncertain tax positions in income tax expense, which were zero at the adoption date and \$3,000 for the nine months ended September 30, 2011.

#### **10. STOCK PLANS**

#### 2006 Stock Incentive Plan

On January 4, 2006, the Company established the Rosetta Stone Inc. 2006 Stock Incentive Plan (the 2006 Plan ) under which the Company s Board of Directors, at its discretion, could grant stock options to employees and certain directors of the Company and affiliated entities. The 2006 Plan initially authorized the grant of stock options for up to 1,942,200 shares of common stock. On May 28, 2008, the Board of Directors authorized the grant of additional stock options for up to 195,000 shares of common stock under the plan, resulting in total stock options available for grant under the 2006 Plan of 2,137,200 as of December 31, 2008. The stock options granted under the 2006 Plan generally expire at the earlier of a specified period after termination of service or the date specified by the Board or its designated committee at the date of grant, but not more than ten years from such grant date. Stock issued as a result of exercises of stock options will be issued from the Company s authorized available stock.

#### 2009 Omnibus Incentive Plan

On February 27, 2009, the Company's Board of Directors approved a new Stock Incentive and Award Plan (the 2009 Plan) that provides for the ability of the Company to grant up to 2,437,744 new stock incentive awards or options including Incentive and Nonqualified Stock Options, Stock Appreciation Rights, Restricted Stock, Restricted Stock Units, Performance Units, Performance Shares, Performance based Restricted Stock, Share Awards, Phantom Stock and Cash Incentive Awards. The stock incentive awards and options granted under the 2009 Plan generally expire at the earlier of a specified period after termination of service or the date specified by the Board or its designated committee at the date of grant, but not more than ten years from such grant date. On May 26, 2011 the Board of Directors authorized and the Company's shareholders approved the allocation of an additional 1,000,000 shares of common stock to the 2009 Plan.

Concurrent with the approval of the 2009 Plan, the 2006 Plan was terminated for purposes of future grants. At September 30, 2011 there were 1,627,642 shares available for future grant under the 2009 Plan.

In accordance with Accounting Standards Codification topic 718, *Compensation Stock Compensation* (ASC 718), the fair value of stock-based awards to employees is calculated as of the date of grant. Compensation expense is then recognized on a straight-line basis over the requisite service period of the award. The Company uses the Black-Scholes pricing model to value its stock options, which requires the use of estimates, including future stock price volatility, expected term and forfeitures. Stock-based compensation expense recognized is based on the estimated portion of the awards that are expected to vest. Estimated forfeiture rates were applied in the expense calculation.

Stock Options

The following table summarized the Company s stock option activity from January 1, 2011 to September 30, 2011:

	Options Outstanding	Weighted Average Exercise Price	Weighted Average Contractual Life (years)	Aggregate Intrinsic Value
Options Outstanding, January 1, 2011	2,020,927	\$ 13.25	\$ 7.36	\$ 17,733,080
Options granted	544,239	14.66		
Options exercised	(181,778)	4.37		
Options cancelled	(225,529)	18.70		
Options Outstanding, September 30, 2011	2,157,859	13.78	7.23	3,243,256
Vested and expected to vest at September 30, 2011	2,005,216	13.47	7.08	3,243,256
Exercisable at September 30, 2011	1,126,095	9.46	5.78	3,243,256

#### Table of Contents

As of September 30, 2011, there was approximately \$8.9 million of unrecognized stock-based compensation expense related to non-vested stock option awards that is expected to be recognized over a weighted average period of 2.8 years.

Stock options are granted at the discretion of the Board of Directors or the Compensation Committee (or its authorized member(s)) and expire 10 years from the date of the grant. Options generally vest over a four-year period based upon required service conditions. No options have performance or market conditions. The Company calculates the pool of additional paid-in capital associated with excess tax benefits using the simplified method in accordance with ASC 718.

#### Restricted Stock Awards

During the nine months ended September 30, 2011, 133,789 shares of restricted stock were granted. The aggregate grant date fair value of the awards was \$2.1 million, which will be recognized on a straight-line basis as expense over the requisite service period of the awards, which is also the vesting period. During the nine months ended September 30, 2011, 44,556 shares of restricted stock were forfeited. As of September 30, 2011, future compensation cost related to the nonvested portion of the restricted stock awards not yet recognized in the statement of operations was \$5.2 million and is expected to be recognized over a period of 2.62 years.

The following table summarized the Company s restricted stock award activity from January 1, 2011 to September 30, 2011:

	Nonvested Outstanding	Weighted Average Grant Date Fair Value	Aggregate Intrinsic Value
Nonvested Awards, January 1, 2011	307,524 \$	\$ 21.69	
Awards granted	133,789	15.41	
Awards vested	(49,655)	20.77	
Awards cancelled	(45,235)	19.2	
Nonvested Awards, September 30, 2011	346,423	19.73	\$ 6,834,926

#### Restricted Stock Units

During the nine months ended September 30, 2011, 17,471 restricted stock units were granted. The aggregate grant date fair value of the awards was \$238,000, which was recognized as expense on the grant date, as the awards were immediately vested. The Company's restricted stock unit grants are accounted for as equity awards. The grant date fair value is based on the market price of the Company's common stock at the grant date.

Long Term Incentive Program

On January 4, 2011, the Company's Board of Directors approved the Rosetta Stone Inc. Long Term Incentive Program (LTIP), a long-term incentive plan for certain of the Company's executives. The LTIP will be administered under the Rosetta Stone Inc. 2009 Omnibus Incentive Plan (the Plan), and the 1,000,000 shares allocated to the LTIP will be taken from the shares reserved under the Plan. The purpose of the LTIP is to: advance the best interests of the Company; motivate senior management to achieve key financial and strategic business objectives of the Company; offer eligible executives a competitive total compensation package; reward executives in the success of the Company; provide ownership in the Company; and retain key talent. Executives designated by the Board of Directors will be eligible to receive shares of restricted common stock for each milestone level of total market capitalization achieved, as specified in individual award agreements. The shares received will be restricted in that after issuance of the shares; they are subject to vesting over a two year period. For each milestone level of market capitalization as of October 1, 2010, the compensation committee of the Board of Directors will allocate a share incentive pool amongst the participating executives as specified in individual award agreements. Although minimum participation percentages have been communicated to certain plan participants, all share grants under the LTIP are contingent upon achievement of the market capitalization thresholds.

In accordance with the agreements communicated to the executives after the approval of the plan by the Board of Directors, the LTIP participants were granted minimum participation percentages of each tranche of shares issued at each milestone level reached. As of September 30, 2011, the target market capitalization required to trigger the first issuance of

#### Table of Contents

shares was below the minimum threshold, and no shares were issued. The minimum participation percentages given to plan participants were considered grants in accordance with the provisions of ASC 718. The grant date fair value of the minimum awards was \$6.1 million which was derived using a Monte Carlo valuation model. This value will be amortized as stock-based compensation expense over the derived service period of 5 years. Stock-based compensation expense for unallocated LTIP shares will be recognized when the milestones are met, the Board determines the allocation to each individual, and the shares will be granted. The grant date fair value determined at that time will be amortized over the vesting period.

Stock-based compensation expense related to the LTIP was \$0.3 million and \$0.9 million for the three and nine months ended September 30, 2011, respectively. As of September 30, 2011, there was \$5.2 million of unrecognized stock-based compensation expense related to minimum awards that is expected to be recognized over a period of 5 years.

As a result of the Company s stock price performance, the compensation committee of the board of directors is considering evaluating the effectiveness of the program. The compensation committee and the board of directors may consider taking actions regarding this program that could result in a non-cash charge of up to \$5.0 million.

#### 11. STOCKHOLDERS EQUITY

At September 30, 2011, the Company s Board of Directors had the authority to issue 200,000,000 shares of stock, of which 190,000,000 were designated as Common Stock, with a par value of \$0.00005 per share, and 10,000,000 were designated as Preferred Stock, with a par value of \$0.001 per share. At September 30, 2011, the Company had shares of common stock issued and outstanding of 21,244,981.

#### 12. COMMITMENTS AND CONTINGENCIES

#### **Operating Leases**

The Company leases many kiosks, copiers, parking spaces, buildings, a warehouse, and office space under operating lease and site license arrangements, some of which contain renewal options. The rental payments under some kiosk site licenses are based on a minimum rental plus a percentage of the kiosk sales in excess of stipulated amounts. Kiosk site licenses range from a period of one month to 89 months. Building, warehouse and office space leases range from 12 months to 89 months. Certain leases also include lease renewal options.

The following table summarizes future minimum operating lease payments for the remaining three months of 2011 and the years thereafter (in thousands):

2011-remaining	\$ 2,767
2012	6,193
2013	4,267
2014	1,840
2015 and thereafter	388
	\$ 15,455

Rent expense was \$3.2 million and \$2.7 million for the three months ended September 30, 2011 and 2010, respectively. Rent expense was \$10.2 million and \$9.0 million for the nine months ended September 30, 2011 and 2010, respectively.

The Company accounts for its leases under the provisions of Accounting Standards Codification topic 840, *Accounting for Leases* (ASC 840), and subsequent amendments, which require that leases be evaluated and classified as operating leases or capital leases for financial reporting purposes. Certain operating leases contain rent escalation clauses, which are recorded on a straight-line basis over the initial term of the lease with the difference between the rent paid and the straight-line rent recorded as either a deferred rent asset or liability depending on the calculation. Lease incentives received from landlords are recorded as deferred rent liabilities and are amortized on a straight-line basis over the lease term as a reduction to rent expense. The deferred rent liability was \$0.7 million at September 30, 2011. The deferred rent asset was

#### Table of Contents

\$16,000 at September 30, 2011. The deferred rent asset is classified in prepaid and other assets as all associated leases have less than one year remaining on their term.

#### Litigation

In July 2009, the Company filed a lawsuit in the United States District Court for the Eastern District of Virginia against Google Inc., seeking, among other things, to prevent Google from infringing upon its trademarks. In August 2010, the U.S. District Court for the Eastern District of Virginia issued its final order dismissing our trademark infringement lawsuit against Google. The Company has appealed the District Court s decision to the U.S. Court of Appeals for the Fourth Circuit. The U.S. Court of Appeals for the Fourth Circuit near or the Company s appeal on September 22, 2011 and the decision is pending. The Company has incurred, and may continue to incur material legal fees and other costs and expenses in pursuit of our claims against Google.

On or about April 28, 2010, a purported class action lawsuit was filed against the Company in the Superior Court of the State of California, County of Alameda for damages, injunctive relief and restitution in the matter of Michael Pierce, Patrick Gould, individually and on behalf of all others similarly situated v. Rosetta Stone Ltd. and DOES 1 to 50. The complaint alleges that plaintiffs and other persons similarly situated who are or were employed as salaried managers by the Company in its retail locations in California are due unpaid wages and other relief for the Company s violations of state wage and hour laws. Plaintiffs moved to amend their complaint to include a nationwide class on January 21, 2011. On March 16, 2011, the case was removed to the United States District Court for the Northern District of California, Oakland Division. On October 27, 2011, a mediation of the case was held. In November 2011, the plantiffs attorneys and the Company agreed to the mediator s proposed settlement terms. As of September 30, 2011, we reserved \$0.6 million with respect to the proposed settlement. Approval of the proposed settlement by the court is pending. We dispute the plantiffs claims and have not admitted any wrongdoing with respect to the case.

On or about March 24, 2011, a purported securities class action lawsuit was filed on behalf of persons who purchased the Company s publicly traded securities between February 25, 2010 and February 28, 2011 against the Company and certain of its present and former officers in the United States District Court for the Eastern District of Virginia alleging violations of federal securities law in connection with various public statements and alleged material omissions made by the Company. The complaint names as defendants Rosetta Stone Inc., Tom P.H. Adams, President and Chief Executive Officer, Brian D. Helman, former Chief Financial Officer, and Matthew C. Sysak, Vice President and Controller. On September 19, 2011, the United States District Court for the Eastern District of Virginia granted plaintiff s motion for leave to voluntarily dismiss its claims with prejudice. Although no settlement was paid, we incurred legal fees and other costs in the defense of these claims.

On June 23, 2011, Rosetta Stone GmbH was served with a writ filed by Langenscheidt KG (Langenscheidt) in the District Court of Cologne, Germany alleging trademark infringement due to Rosetta Stone s use of the color yellow on its packaging of its language-learning software and the advertising thereof in Germany. Langenscheidt is seeking, among other things, to enjoin Rosetta Stone GmbH from using the color yellow in Germany, a declaratory judgment that Rosetta Stone GmbH is liable for damages based on our activities in Germany, and the award of costs and attorneys fees associated with the legal proceeding. A hearing was held on October 27, 2011 and the presiding judge indicated his opinion that Rosetta Stone GmbH has infringed on Langenscheidt s German trademark. The court has encouraged the parties to enter into settlement discussions and has postponed rendering its decision until January 19, 2012. If settlement discussions are unsuccessful we intend to vigorously defend this matter including appealing of any decision by the District Court of Cologne. The outcome of the matter is currently not known, and the range of any potential loss is not reasonably estimatable at this time. Even if the plaintiff is unsuccessful in its claims against us, we will incur legal fees and other costs in the defense of these claims.

From time to time, the Company has been subject to various claims and legal actions in the ordinary course of its business. The Company is not currently involved in any legal proceeding, including those listed above, the ultimate outcome of which, in its judgment based on information currently available, are expected to have a material impact on its business, financial condition or results of operations.

### **13. SEGMENT INFORMATION**

Beginning in 2011, we started to manage our business in two operating segments Consumer and Institutional. These segments also represent our reportable segments.

#### Table of Contents

We began to measure the performance of our operating segments in the first quarter of 2011 based upon operating segment revenue and operating segment contribution. Operating segment contribution includes segment revenue and expenses incurred directly by the segment, including material costs, service costs, research and development and selling, marketing, and administrative expenses. We do not allocate certain expenses, which include the majority of general and administrative expenses, facilities and communication expenses, purchasing expenses, manufacturing support and logistic expenses, depreciation and amortization, amortization of capitalized software development costs, and stock-based compensation. These expenses are included in the unallocated expenses section of the table presented below. Revenue from transactions between our operating segments is not material.

With the exception of goodwill, we do not identify or allocate our assets by operating segment. Consequently, we do not present assets or liabilities by operating segment.

Operating results by segment for the three and nine months ended September 30, 2011 and 2010 were as follows (in thousands):

	Three Months Ended September 30,					Nine Months Ended September 30,			
		2011		2010		2011		2010	
Revenue:									
Consumer	\$	48,712	\$	46,610	\$	141,993	\$	144,230

Income (loss) before provision for income									
taxes	\$	(5,939)	\$	(1,544)	\$	(24,802)	\$	10,321	

#### **Geographic Information**

Revenue by major geographic region is based primarily upon the geographic location of the customers who purchase our products. The geographic locations of distributors and resellers who purchase and resell our products may be different from the geographic locations of end customers. The information below summarizes revenue from customers by geographic area for the three and nine months ended September 30, 2011 and 2010 (in thousands):

	Three Mor Septem		Nine Mon Septem	
	2011	2010	2011	2010
United States	\$ 51,708	\$ 50,390	\$ 146,396	\$ 155,005
International	12,494	10,536	41,526	29,583
Total Revenue	\$ 64,202	\$ 60,926	\$ 187,922	\$ 184,588

#### Item 2. Management s Discussion and Analysis of Financial Condition and Results of Operations

This Quarterly Report on Form 10-Q (this Report ) contains forward-looking statements that involve risks and uncertainties, as well as assumptions that, if they never materialize or prove incorrect, could cause our results to differ materially from those expressed or implied by such forward-looking statements. The statements contained in this Report that are not purely historical are forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. Forward-looking statements are often identified by the use of words such as, but not limited to, anticipate, believe, can. continue. could. estimate. expect, intend, may, will, plan. project, seek. should, target, would, and similar expressions or variations intende forward-looking statements. These statements are based on the beliefs and assumptions of our management based on information currently available to management. Such forward-looking statements are subject to risks, uncertainties and other important factors that could cause actual results and the timing of certain events to differ materially from future results expressed or implied by such forward-looking statements. Factors that could cause or contribute to such differences include, but are not limited to, those identified below, and those discussed in the section titled Risk Factors included in our Annual Report on Form 10-K filed with the Securities and Exchange Commission on March 14, 2011. Furthermore,

such forward-looking statements speak only as of the date of this report. Except as required by law, we undertake no obligation to update any forward-looking statements to reflect events or circumstances after the date of such statements. Unless the context otherwise requires, references in this Report to we, us or our shall mean the Company.

#### Overview

We are a leading provider of technology-based language learning solutions. We develop, market, and sell language learning solutions consisting of software, online services and audio practice tools primarily under our *Rosetta Stone* brand. Our teaching method, which we call *Dynamic Immersion*, is designed to leverage the innate, natural language learning ability that children use to learn their native language. Our courses are based on our proprietary interactive technologies and pedagogical content and utilize a sophisticated sequencing of images, text and sounds to teach a new language without translation or grammar explanation. We believe our award-winning solutions provide an effective, convenient and fun way to learn languages. We currently offer our self-study language learning solutions in 34 languages. Our customers include individuals, educational institutions, armed forces, government agencies and corporations.

The strength and breadth of our solutions have allowed us to develop a business model that we believe distinguishes us from other language learning companies. Our scalable technology platform and our proprietary content can be deployed across many languages, which have enabled us to cost-effectively develop a broad product portfolio. We have a multi-channel marketing and distribution strategy that directly targets customers, utilizing print, online, television and radio advertising, public relations initiatives and our branded kiosks. Approximately 82% of our revenue for the year ended December 31, 2010 was generated through our direct sales channels, which include our call centers, websites, institutional sales force and kiosks. We also distribute our solutions through select retailers such as Amazon.com, Barnes & Noble, Best Buy, Books-a-Million, Staples, Costco and Office Depot.

We generate revenue primarily from sales of packaged software and audio practice products and online software subscriptions. Our continued growth depends, in part, on our ability to maintain strong brand recognition in order to generate sales from new customers. We continuously balance our need to achieve short-term financial goals with the equally critical need to invest in our products, our brand and our infrastructure to ensure our future success. In making decisions about spending levels in our various functional organizations, we consider many factors, including:

our ability to expand our presence and penetration of existing markets;

- the extent to which we can sell new products and services to existing customers;
- our success in expanding our brand;
- the evolution of our product and service offerings; and
- our ability to expand our presence and reach geographically.

We believe the primary factors that affect our financial performance include the following:

• customer acceptance of our product and service offerings;

### Table of Contents

- continued product and service innovation;
- average revenue per customer;
- direct marketing variables, including:
- print, television and radio media discounts and rates;
