PLEASE SIGN & RETURN THE ENCLOSED WHITE PROXY CARD TODAY

Dear Fellow Vulcan Shareholders,

Vulcan Material's Annual Meeting of Shareholders, scheduled for June 1, is fast approaching and it is not too late to make your shares count. Your Board has nominated four independent and highly qualified candidates for reelection—Phillip W. Farmer, H. Allen Franklin, Richard T. O'Brien and Donald B. Rice. With their executive experience and in-depth industry knowledge, these candidates are important contributors to our success. Please use the enclosed WHITE PROXY CARD to vote FOR Vulcan's director nominees today.

As you may be aware, on May 4, 2012, the Delaware Court of Chancery determined that Martin Marietta Materials, Inc. had breached two confidentiality agreements with Vulcan, and on May 14, 2012 the Court of Chancery entered a Final Order and Judgment implementing the decision. In its decision, the Court ruled that Martin Marietta could not pursue its proxy contest against Vulcan, make an exchange or tender offer, or otherwise take steps to acquire control of Vulcan shares or assets for a period of four months and also enjoined Martin Marietta from further violations of the two confidentiality agreements for a period of four months. While Martin Marietta has appealed the ruling, as a result of the decision and the order implementing it, Martin Marietta has formally withdrawn its director nominees for Vulcan's annual meeting, and has terminated its exchange offer and proxy contest.

Therefore, you should be aware that any BLUE proxy cards and BLUE voting instruction forms that were previously circulated by Martin Marietta will not be effective and will not be voted by Martin Marietta at the Vulcan 2012 annual meeting. We urge you to return the WHITE proxy card today if you wish to have your shares voted by proxy at the 2012 Annual Meeting. You can also vote by Internet or telephone as directed on the enclosed WHITE proxy card and instruction form.

VULCAN HAS SUPERIOR AGGREGATES OPERATIONS, POISED TO

OUTPERFORM IN THE CURRENT RECOVERY

Vulcan is well positioned for the market recovery, with superior aggregates operations and substantial operating leverage, as demonstrated by our recent financial performance. In the first quarter of 2012, Vulcan converted approximately 94% of its incremental sales to adjusted EBITDA, having grown sales by \$44 million and adjusted EBITDA by \$41 million. In the past two quarters, Vulcan delivered sales growth of \$73 million, which drove adjusted EBITDA growth of \$73 million, demonstrating Vulcan's strong operating leverage, with 100% of sales being converted to incremental cash flow.ⁱ

Wall Street analysts have recognized Vulcan's superior positioning for a market recovery and have increased their consensus estimate of Vulcan's 2012 EBITDA by 15 percent since December 12, 2011, when Martin Marietta launched its offer, and increased Vulcan's share price target by 37 percent over the same period.ⁱⁱ In addition, analysts currently estimate that Vulcan's EBITDA will more than triple from 2011 levels to mid-cycle.ⁱⁱⁱ

**OUR RESTRUCTURING INITIATIVE AND PROFIT ENHANCEMENT PLAN
ARE EXPECTED TO SIGNIFICANTLY ENHANCE SHAREHOLDER VALUE**

Vulcan is making steady progress on the Profit Enhancement Plan we announced in February that is expected to improve EBITDA at current volumes by an additional \$100 million annually over and above the \$55 million in run-rate savings achieved in 2011 through its Restructuring Initiative. We are also progressing with our Planned Asset Sales initiative that is expected to generate net proceeds of approximately \$500 million.

We expect these initiatives will create significant value for Vulcan shareholders. They are designed to enable us to generate higher levels of earnings and cash flow, further improve our operating leverage, reduce overhead costs and strengthen our credit profile and balance sheet – all of which should enable Vulcan to restore a meaningful dividend as rapidly as possible.

Here is what a few analysts have had to say about Vulcan’s recent performance, initiatives and outlook:

In our opinion, [Vulcan] can benefit from substantially better EBITDA performance during the next three years even in the absence of significant volume growth. Based on our analysis of cost reduction initiatives, we believe that the shares are materially undervalued.

-RBC Capital, 5/10/12

[Vulcan’s] 1Q results again provided strong encouragement on the early results of its restructuring programs. On the back of similarly impressive gains in 4Q, these results provide additional confidence in VMC’s ability to achieve its cycle-over-cycle incremental profitability target (equivalent to \$155mm of additional EBITDA) through its [Profit Enhancement Plan] program.

Susquehanna, 4/26/12

We were encouraged by both the volume and margin improvement in Q1 12. Moreover, this marks the second consecutive quarter of [Vulcan] showing appreciable YOY margin improvement in the company’s core Aggregate division.

TRG, 4/27/12

Vulcan Reconciliation Table

Reconciliation of Non-GAAP Financial Measures

Amounts in millions of dollars

Generally Accepted Accounting Principles (GAAP) does not define cash gross profit and Earnings Before Interest, Taxes, Depreciation and Amortization (EBITDA). Thus, they should not be considered as an alternative to any earnings measure defined by GAAP. We present these metrics for the convenience of investment professionals who use such metrics in their analysis, and for shareholders who need to understand the metrics we use to assess performance. The investment community often uses these metrics as indicators of a company's ability to incur and service debt. We use cash gross profit, EBITDA and other such measures to assess the operating performance of our various business units and the consolidated company. We do not use these metrics as a measure to allocate resources or as liquidity measures. Reconciliations of these metrics to their nearest GAAP measures are presented below:

Cash gross profit

Cash gross profit adds back noncash charges for depreciation, depletion, accretion and amortization to gross profit.

EBITDA

EBITDA is an acronym for Earnings Before Interest, Taxes, Depreciation and Amortization.
