REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Members of

National CineMedia, LLC

Centennial, Colorado

We have audited the accompanying balance sheets of National CineMedia, LLC (the Company) as of December 27, 2012 and December 29, 2011 and the related statements of income, comprehensive income, members' equity / (deficit) and cash flows for the years ended December 27, 2012, December 29, 2011 and December 30, 2010. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on the financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, such financial statements present fairly, in all material respects, the financial position of National CineMedia, LLC as of December 27, 2012 and December 29, 2011, and the results of its operations and its cash flows for the years ended December 27, 2012, December 29, 2011 and December 30, 2010, in conformity with accounting principles generally accepted in the United States of America.

NATIONAL CINEMEDIA, LLC

NOTES TO THE FINANCIAL STATEMENTS

1. BASIS OF PRESENTATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

National CineMedia, LLC (NCM LLC or the Company) commenced operations on April 1, 2005 and operates the largest digital in-theatre network in North America, allowing us to distribute advertising, Fathom entertainment programming events and corporate events (the Services) under long-term exhibitor services agreements (ESAs) with American Multi-Cinema, Inc. (AMC), a wholly owned subsidiary of AMC Entertainment, Inc. (AMCE), Regal Cinemas, Inc., a wholly owned subsidiary of Regal Entertainment Group (Regal), and Cinemark USA, Inc. (Cinemark USA), a wholly owned subsidiary of Cinemark Holdings, Inc. (Cinemark). AMC, Regal and Cinemark and their affiliates are referred to in this document as founding members. The Company also provides the Services to certain third-party theatre circuits under network affiliate agreements, which expire at various dates.

As of December 27, 2012, the Company had 112,017,835 common membership units outstanding, of which 54,486,259 (48.6%) were owned by NCM, Inc., 22,113,150 (19.7%) were owned by Regal, 18,094,644 (16.2%) were owned by Cinemark, and 17,323,782 (15.5%) were owned by AMC. The membership units held by the founding members are exchangeable into NCM, Inc. common stock on a one-for-one basis.

During the first quarter of 2012, the Company restructured Fathom Events by winding down its Fathom Business Events division, to place more focus on the Fathom Consumer Events division. The Company continued to operate the Fathom Business Events division for a portion of the first quarter of 2012 to satisfy contractual obligations for events and will continue to execute business events on a periodic basis for existing long-term Fathom clients, or if requested by the founding members or to support events staged for NCM's major advertising clients.

Basis of Presentation

The Company has prepared its financial statements and related notes of NCM, LLC in accordance with accounting principles generally accepted in the United States of America (GAAP) and the rules and regulations of the Securities and Exchange Commission (SEC). Certain reclassifications have been made to the prior years' financial statements to conform to the current presentation. These reclassifications had no effect on previously reported results of operations or retained earnings.

Estimates The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Significant estimates include those related to the reserve for uncollectible accounts receivable, share-based compensation and interest rate swaps. Actual results could differ from those estimates.

Significant Accounting Policies

Accounting Period The Company operates on a 52-week fiscal year, with the fiscal year ending on the first Thursday after December 25, which, in certain years, results in a 53-week year.

Segment Reporting Advertising is the principal business activity of the Company and is the Company's reportable segment under the requirements of ASC 280 *Segment Reporting*. Fathom Events is an operating segment under ASC 280. The Company does not evaluate its segments on a fully allocated cost basis, nor does the Company track segment assets separately. As such, the results are not indicative of what segment results of operations would have been had it been operated on a fully allocated cost basis. The Company cautions that it would be inappropriate to assume that unallocated operating costs are incurred proportional to segment revenue or any directly identifiable segment expenses. Refer to Note 12 *Segment Reporting*.

Revenue Recognition Advertising revenue is recognized in the period in which an advertising contract is fulfilled against the contracted theatre attendees. Make-good provisions are made to defer contracted revenue to future periods when attendance is delivered and is included in accrued expenses. Deferred revenue refers to the unearned portion of advertising contracts. All deferred revenue is classified as a current liability. Fathom Events revenue is recognized in the period in which the event is held.

Table of Contents

Barter Transactions The Company enters into barter transactions that exchange advertising program time for products and services used principally for selling and marketing activities. The Company records barter transactions at the estimated fair value of the advertising exchanged based on fair value received for similar advertising from cash paying customers. Revenues for advertising barter transactions are recognized when advertising is provided, and products and services received are charged to expense when used. The Company limits the use of such barter transactions to items and services for which it would otherwise have paid cash. Any timing differences between the delivery of the bartered revenue and the use of the bartered expense products and services are recorded through deferred revenue. Revenue and expense from barter transactions for the year ended December 27, 2012 were \$3.0 million and \$1.3 million, respectively, \$1.6 million and \$1.1 million for the year ended December 29, 2011 and \$1.5 million and \$1.1 million for the year ended December 30, 2010.

Operating Costs Advertising related operating costs primarily include personnel and other costs related to advertising fulfillment, payments due to unaffiliated theatre circuits under the network affiliate agreements, and to a lesser extent, production costs of non-digital advertising.

Fathom Events operating costs include revenue share under the amended and restated ESAs to the founding members and revenue share to affiliate theatres under separate agreements, payments to event content producers and other direct costs of the meeting or event, including equipment rental, catering and movie tickets acquired primarily from the founding members.

Payment to the founding members of a theatre access fee is comprised of a payment per theatre attendee, a payment per digital screen and a payment per digital cinema projector equipped in the theatres, all of which escalate over time.

Network costs include personnel, satellite bandwidth, repairs, and other costs of maintaining and operating the digital network and preparing advertising and other content for transmission across the digital network. These costs are not specifically allocated between the advertising business and the Fathom Events business.

Cash and Cash Equivalents All highly liquid debt instruments and investments purchased with an original maturity of three months or less are classified as cash equivalents and are considered available-for-sale securities. There are cash balances in a bank in excess of the federally insured limits or in the form of a money market demand account with a major financial institution.

Restricted Cash As of December 27, 2012 and December 29, 2011, other non-current assets included restricted cash of \$0.3 million, which secures a letter of credit used as a lease deposit on our New York office.

Marketable Securities Marketable securities are reported at fair value, with unrealized gains and losses recognized in earnings. The fair value of substantially all securities is determined by quoted market prices. The estimated fair value of securities for which there are no quoted market prices is based on similar types of securities that are traded in the market.

Concentration of Credit Risk and Significant Customers Bad debts are provided for based on historical experience and management's evaluation of outstanding receivables at the end of the period. Receivables are written off when management determines amounts are uncollectible. Trade accounts receivable are uncollateralized and represent a large number of geographically dispersed debtors. The collectability risk is reduced by

Edgar Filing: REGAL ENTERTAINMENT GROUP - Form 10-K/A

dealing with large, national advertising agencies who have strong reputations in the advertising industry and clients with stable financial positions. As of December 27, 2012, there were no customers or advertising agency groups which accounted for more than 10% of the gross receivables balance or advertising revenues. As of December 29, 2011, there was one advertising agency group through which the Company sources national advertising revenues representing approximately 15% of the Company's outstanding gross receivables balance; however, none of the individual contracts related to the advertising agencies were more than 10% of advertising revenues.

Receivables consisted of the following (in millions):

	Years Ended	
	December 27, 2012	December 29, 2011
Trade accounts	\$ 101.8	\$ 98.4
Other	1.2	2.5
Less allowance for doubtful accounts	(4.5)	(4.3)
Total	\$ 98.5	\$ 96.6

Long-lived Assets Property and equipment is stated at cost, net of accumulated depreciation or amortization. Generally, the equipment associated with the digital network of the founding member theatres is owned by the founding members, while the equipment associated with network affiliate theatres is owned by the Company. Major renewals and improvements are capitalized, while replacements, maintenance, and repairs that do not improve or extend the lives of the respective assets are

Table of Contents

expensed as incurred. The Company records depreciation and amortization using the straight-line method over the following estimated useful lives:

Equipment	4-10 years
Computer hardware and software	3-5 years
Leasehold improvements	Lesser of lease term or asset life

Software and web site development costs developed or obtained for internal use are accounted for in accordance with ASC Subtopic 350-40 *Internal Use Software* and ASC Subtopic 350-50 *Website Development Costs*. The subtopics require the capitalization of certain costs incurred in developing or obtaining software for internal use. The majority of software costs and website development costs, which are included in equipment, are depreciated over three to five years. As of December 27, 2012 and December 29, 2011, the Company had a net book value of \$10.4 million and \$9.3 million, respectively, of capitalized software and website development costs. Approximately \$4.1 million, \$4.8 million and \$6.5 million was recorded for the years ended December 27, 2012, December 29, 2011 and December 30, 2010, respectively, in depreciation expense. For the years ended December 27, 2012, December 29, 2011 and December 30, 2010, the Company recorded \$0.8 million, \$0.9 million and \$1.2 million in research and development expense, respectively.

The Company assesses impairment of long-lived assets pursuant with ASC 360 *Property, Plant and Equipment*. This includes determining if certain triggering events have occurred that could affect the value of an asset. The Company has not recorded impairment charges related to long-lived assets.

Intangible assets Intangible assets consist of contractual rights and are stated at cost, net of accumulated amortization. The Company records amortization using the straight-line method over the contractual life of the intangibles, corresponding to the term of the ESAs or the term of the contract with the network affiliate. Refer to Note 3 *Intangible Assets*.

Share-Based Compensation NCM, Inc. issues two types of share-based compensation awards: stock options and non-vested (restricted) stock. Compensation cost of non-vested stock is valued based on the market price on the grant date, the probability of vesting and is expensed over the vesting period. Compensation cost of stock options is based on the estimated grant date fair value using the Black-Scholes option pricing model, which requires that NCM, Inc. make estimates of various factors. Under the fair value recognition provisions of ASC 718 *Compensation - Stock Compensation*, the Company recognizes share-based compensation net of an estimated forfeiture rate, and therefore only recognizes compensation cost for those shares expected to vest over the requisite service period of the award. The recognized expense, including equity based compensation costs of NCM, Inc. employees, is included in the operating results of the Company. Refer to Note 7 *Share Based Compensation*.

Fair Value Measurements Fair value is the price that would be received from selling an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value is estimated by applying the following hierarchy, which prioritizes the inputs used to measure fair value into three levels and bases the categorization within the hierarchy upon the lowest level of input that is available and significant to the fair value measurement:

Level 1 Quoted prices in active markets for identical assets or liabilities.

Level 2 Observable inputs other than quoted prices in active markets for identical assets and liabilities, quoted prices for identical or similar assets or liabilities in inactive markets, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3 Inputs that are generally unobservable and typically reflect management's estimate of assumptions that market participants would use in pricing the asset or liability.

Derivative Instruments The Company is exposed to various financial and market risks including changes in interest rates that exist as part of its ongoing operations. The Company utilizes certain derivative instruments to enhance its ability to manage these risks. In accordance with ASC 815 *Derivatives and Hedging*, the effective portion of changes in the fair value of a derivative that is designated as a cash flow hedge is recorded in Accumulated Other Comprehensive Income (AOCI) and reclassified into earnings in the same period or periods during which the hedged transaction affects earnings. Any ineffectiveness associated with designated cash flow hedges, as well as any change in the fair value of a derivative that is not designated as a hedge, is recorded immediately in the Statements of Operations. Refer to Note 11 *Derivative Instruments and Hedging Activities*.

Recent Accounting Pronouncements

Edgar Filing: REGAL ENTERTAINMENT GROUP - Form 10-K/A

In December 2011, the FASB issued Accounting Standards Update 2011-12 *Deferral of the Effective Date for Amendments to the Presentation of Reclassifications of Items Out of Accumulated Other Comprehensive Income in ASU 2011-05* (ASU 2011-12). ASU 2011-12 indefinitely defers the specific requirement within ASU 2011-05 to present on the face of the financial statements items that are reclassified from accumulated other comprehensive income to net income separately with their respective components of net income and other comprehensive income. The effective dates for ASU 2011-12 are consistent with the effective dates for ASU 2011-05 and, similar to the Company's evaluation for the adoption of ASU 2011-05, the adoption of this guidance does not have a material effect on the Company's financial statements.

The Company has considered all other recently issued accounting pronouncements and does not believe the adoption of such pronouncements will have a material impact on its financial statements.

3. INTANGIBLE ASSETS

The Company's intangible assets consist of contractual rights with the founding members and network affiliates. The Company records amortization using the straight-line method over the contractual life of the intangibles, corresponding to the term of the ESAs or the term of the contract with the network affiliate. The Company's intangible assets with its founding members are recorded at the fair market value of NCM, Inc.'s publicly traded stock as of the date on which the common membership units were issued. The Company's common membership units are fully convertible into NCM, Inc.'s common stock. The Company also records intangible assets for up-front fees paid to network affiliates upon commencement of a network affiliate agreement. Pursuant to ASC 350-10 *Intangibles - Goodwill and Other*, the Company's intangible assets have a finite useful life and the Company amortizes the assets over the remaining useful life corresponding with the ESAs or the term of the contract with the network affiliate. If common membership units are issued to a founding member for newly acquired theatres that are subject to an existing on-screen advertising agreement with an alternative provider, the amortization of the intangible asset commences after the existing agreement expires and the Company can utilize the theatres for all of its services.

Senior Secured Credit Facility The Company's senior secured credit facility consists of a \$124.0 million revolving credit facility and a \$265.0 million term loan. The obligations under the senior secured credit facility are secured by a lien on substantially all of the assets of NCM LLC.

Revolving Credit Facility The revolving credit facility portion is available, subject to certain terms and conditions, for general corporate purposes of the Company in the ordinary course of business and for other transactions permitted under the senior secured credit facility, and a portion is available for letters of credit. The Company entered into two amendments to the senior secured credit facility during 2012. As a result, the Company's total availability under the revolving credit facility is \$124.0 million. On April 27, 2012, the Company entered into an amendment (the Amendment) to its senior secured credit facility which resulted in the maturity of the remaining \$105.0 million available under the revolving credit facility to be extended to April 27, 2017, subject to acceleration if the term loan under the senior secured credit facility is not repaid, refinanced or extended by December 31, 2014. The Amendment became effective upon the completion of the private placement of the Senior Secured Notes (defined and discussed below) on April 27, 2012.

On November 26, 2012, the Company entered into an amendment and restatement of its senior secured credit facility, by and among NCM LLC, Barclays Bank PLC, as administrative agent, and certain lenders party thereto (the Amended Credit Facility). Under the Amended Credit Facility, the amount available under the Company's revolving credit facility was increased from \$119.0 million to \$124.0 million. The maturity date applicable to the \$14.0 million outstanding principal formerly held by Lehman remained December 31, 2014. The maturity date applicable to the remaining outstanding principal was extended to November 26, 2017. The unused line fee is 0.50% per annum.

Of the total available, \$14.0 million outstanding principal of the revolving credit facility formerly held by Lehman Brothers Holdings, Inc. (Lehman) will not be repaid in connection with any future prepayments of the revolving credit facility amounts, but rather Lehman's share of the revolving credit facility will be paid in full by NCM LLC to the successor lenders, along with any accrued and unpaid fees and interest, on the termination date of December 31, 2014.

Borrowings under the revolving credit facility bear interest at the Company's option of either the LIBOR index plus an applicable margin or the base rate (Prime Rate or the Federal Funds Effective Rate, as defined in the senior secured credit facility) plus an applicable margin. The applicable margin for the revolving credit facility is determined quarterly and is subject to adjustment based upon a net senior secured leverage ratio for NCM LLC (the ratio of secured funded debt less unrestricted cash and cash equivalents, over a non-GAAP measure defined in the credit agreement). As part of the July 2011 amendment, the applicable margins on the \$110.0 million portion of the revolving credit facility increased by 75 basis points based upon the then current senior secured leverage ratio to the LIBOR index plus 2.25% or the base rate plus 1.25%. The margin on the \$14.0 million portion of the revolving credit facility remained unchanged at the LIBOR index plus 1.50% or the base rate plus 0.50%. The weighted-average interest rate on the outstanding balance on the revolving credit facility as of December 27, 2012 was 1.74%.

Term Loan As a result of the Amended Credit Facility, the aggregate principal amount under the term loan increased from \$225 million to \$265 million and the maturity date was extended from February 13, 2015 to November 26, 2019. The interest rate was increased from the LIBOR index plus 1.50% or the base rate (Prime Rate or the Federal Funds Effective Rate, as defined in the Credit Facility) plus 0.50%, at the Company's option, to the LIBOR index plus 3.25% or the base rate (Prime Rate or the Federal Funds Effective Rate, as defined in the Credit Facility) plus 2.25%, at the Company's option. The loan was entered into with an original issue discount of 0.75%. The amendment resulted in a \$3.4 million non-cash charge for the write-off of net deferred issuance costs.

In connection with the amendment to the senior secured credit facility on April 27, 2012 and the private placement of \$400.0 million of Senior Secured Notes (defined below), the Company paid down the term loan by \$325.0 million, reducing the balance from \$550.0 million to \$225.0 million resulting in a non-cash charge of \$2.5 million for the write-off of net deferred issuance costs associated with the payment on the term

Edgar Filing: REGAL ENTERTAINMENT GROUP - Form 10-K/A

loan. Prior to the Amended Credit Facility, interest rate swaps resulted in the entire \$225.0 million term loan having a fixed annual interest rate of 6.484% (both those accounted for as hedges and those that are not). The interest rate swaps were terminated as part of the Amended Credit Facility. See Note 11 *Derivative Instruments and Hedging Activities* for further discussion of the interest rate swaps.

The senior secured credit facility contains a number of covenants and financial ratio requirements, with which the Company was in compliance at December 27, 2012, including maintaining a consolidated net senior secured leverage ratio of 6.5 times on a quarterly basis. The Company is permitted to make quarterly dividend payments and other payments based on the Company's leverage ratios so long as no default or event of default has occurred and continues to occur. The quarterly dividend payments and other distributions are made if the consolidated net senior secured leverage ratio is less than or equal to 6.5 times.

Table of Contents

There are no borrower distribution restrictions as long as the Company's consolidated net senior secured leverage ratio is below 6.5 times and the Company is in compliance with its debt covenants. If there are limitations on the restricted payments, the Company may not declare or pay any dividends, or make any payments on account of the Company, or set aside assets for the retirement or other acquisition of capital stock of the borrower or any subsidiary, or make any other distribution for obligations of the Company. When these restrictions are effective, the Company may still pay the services fee and reimbursable costs pursuant to terms of the management agreement. The Company can also make payments pursuant to the tax receivable agreement in the amount, and at the time necessary to satisfy the contractual obligations with respect to the actual cash tax benefits payable to the Company's founding members.

As of December 27, 2012, the Company's net senior secured leverage ratio was 3.1 times (versus the covenant of 6.5 times).

Senior Unsecured Notes due 2021 On July 5, 2011, the Company completed a private placement of \$200.0 million in aggregate principal amount of 7.875% Senior Unsecured Notes (Senior Unsecured Notes) for which the exchange offering was completed on September 22, 2011. The Senior Unsecured Notes have a maturity date of July 15, 2021 and pay interest semi-annually in arrears on January 15 and July 15 of each year, commencing January 15, 2012. The notes are subordinated to all existing and future secured debt, including indebtedness under the Company's existing senior secured credit facility and the Senior Secured Notes defined below. The Senior Unsecured Notes contain certain covenants with which the Company was in compliance as of December 27, 2012.

Senior Secured Notes due 2022 On April 27, 2012, the Company completed a private placement of \$400.0 million in aggregate principal amount of 6.00% Senior Secured Notes (the Senior Secured Notes). The Senior Secured Notes have a maturity date of April 15, 2022 and pay interest semi-annually in arrears on April 15 and October 15 of each year, which commenced October 15, 2012. The Senior Secured Notes are senior secured obligations of NCM LLC, rank the same as NCM LLC's senior secured credit facility, subject to certain exceptions, and share in the same collateral that secures NCM LLC's obligations under the senior secured credit facility. The Senior Secured Notes contain certain covenants with which the Company was in compliance as of December 27, 2012.

The fair value of each option award is estimated on the date of grant using the Black-Scholes option pricing valuation model that uses the assumptions noted in the table below. Expected volatilities are based on implied volatilities from traded options on the Company's stock, historical volatility of the Company's stock, and other factors. The Company uses historical data to estimate option exercise and employee termination within the valuation model. The expected term of options granted is derived from the output of the option valuation model and represents the period of time that options granted are expected to be outstanding. The risk-free rate for periods within the contractual life of the option is based on the U.S. Treasury yield curve in effect at the time of grant. The following assumptions were used in the valuation of the options for the years ended December 27, 2012, December 29, 2011 and December 30, 2010:

	December 27, 2012		Years Ended December 29, 2011		December 30, 2010

granted in 2009 through 2012 (except grants to board members) include performance vesting conditions, which permit vesting to the extent that NCM, Inc. achieves specified non-GAAP targets at the end of the measurement period. Of the \$7.0 million in compensation expense for the year ended December 30, 2010, \$1.6 million was related to the Company's expected performance against the specified non-GAAP targets for the 2009 and 2010 grants as of December 30, 2010.

Minimum Revenue Guarantees As part of the network affiliate agreements entered in the ordinary course of business under which the Company sells advertising for display in various network affiliate theatre chains, the Company has agreed to certain minimum revenue guarantees on a per attendee basis. If a network affiliate achieves the attendance set forth in their respective agreement, the Company has guaranteed minimum revenue for the network affiliate per attendee if such amount paid under the revenue share arrangement is less than its guaranteed amount. The amount and term varies for each network affiliate, but terms range from three to 20 years, prior to any renewal periods of which some are at the option of the Company. The maximum potential amount of future payments the Company could be required to make pursuant to the minimum revenue guarantees is \$47.3 million over the remaining terms of the network affiliate agreements. As of December 27, 2012 and December 29, 2011, the Company had no liabilities recorded for these obligations as such guarantees are less than the expected share of revenue paid to the affiliate.

Table of Contents**11. DERIVATIVE INSTRUMENTS AND HEDGING ACTIVITIES****Risk Management Objectives and Strategies**

The Company is exposed to various financial and market risks including changes in interest rates that exist as part of its ongoing operations and utilizes certain derivative instruments to enhance its ability to manage these risks.

Accounting for Derivative Instruments and Hedging Activities

In accordance with ASC 815 *Derivatives and Hedging*, the effective portion of changes in the fair value of a derivative that is designated as a cash flow hedge is recorded in AOCI and reclassified into earnings in the same period or periods during which the hedged transaction affects earnings.

The Company formally documents all relationships between hedging instruments and the underlying hedged items, as well as its risk management objective and strategy for undertaking various hedge transactions. This process includes linking all derivatives that have been designated as cash flow hedges to forecasted transactions. The Company formally assesses, both at inception of the hedge and on an ongoing basis, whether the hedge is highly effective in offsetting changes in cash flows of the underlying hedged items. The Company also performs an assessment of the probability of the forecasted transactions on a periodic basis. If it is determined that a derivative ceases to be highly effective during the term of the hedge or if the forecasted transaction is no longer probable, the Company discontinues hedge accounting prospectively for such derivative.

As of December 27, 2012 and December 29, 2011, the estimated fair value and line item caption of derivative instruments recorded were as follows (in millions):

	Balance Sheet Location	Fair Value of Derivative Liability as of	
		December 27, 2012	December 29, 2011
Derivatives designated as hedging instruments in cash flow hedges:			
Current portion of interest rate swap agreements	Current Liabilities	\$	\$ 18.0

Total derivatives		\$	\$ 70.8

Edgar Filing: REGAL ENTERTAINMENT GROUP - Form 10-K/A

During 2012, the Company entered into two amendments to the senior secured credit facility (see Note 6 *Borrowings*) resulting in amendments to our derivative instruments.

On April 27, 2012, the Company amended its existing interest rate swap agreements terminating a notional amount of \$325.0 million (the aggregate amount of the term loan prepayment) such that 100% of the Company's interest rate exposure relating to the remaining \$225.0 million term loan debt balance remained hedged at 6.484%. Since the forecasted transactions, or quarterly interest payments, on the \$325.0 million term loan prepayment are no longer probable of occurring, the Company discontinued cash flow hedge accounting on those swaps and reclassified the corresponding outstanding balance in AOCI related to those interest rate swaps into earnings. As a result, the Company recorded a loss of approximately \$26.7 million related to the partial swap terminations and paid approximately \$40.2 million in breakage fees.

The swaps were terminated ratably among the four counterparties, however the Company's cash flow hedge accounting designation for each swap was pegged to varying balances of the underlying term loan. Cash flow hedge accounting was discontinued because the underlying debt instrument is no longer outstanding and the interest payments are no longer probable.

The Company also discontinued cash flow hedge accounting for swaps in which the Company terminated its swap with the counterparty, however, the corresponding term loan associated with those swaps remained outstanding. In accordance with ASC 815, the net derivative loss related to the discontinued cash flow hedges shall continue to be reported in AOCI because it is probable that the forecasted transaction will occur by the end of the originally specified time period.

Table of Contents

In connection with the amendment to the term loans on November 26, 2012, the entire notional amount of NCM LLC's interest rate swaps with four counterparties, equal to \$225.0 million, was terminated such that the Company's interest rate exposure related to the Amended Term Loan will be unhedged. The Company paid approximately \$23.2 million in breakage fees in connection with the swap. The net derivative loss related to the discontinued cash flow hedges shall continue to be reported in AOCI because it is probable that the forecasted transaction will occur by the end of the originally specified time period.

As of December 27, 2012, a total of \$21.9 million of cash flow hedges remaining in AOCI will be amortized in the Statements of Income over the original swap term or February 13, 2015. The Company estimates approximately \$10.3 million will be amortized to change in derivative fair value in the Statements of Income in the next 12 months.

During the periods presented, the Company also recorded changes in the fair value and amortization of AOCI related to an interest rate swap in which the Company discontinued cash flow hedge accounting in 2008 due to the bankruptcy of its counterparty. In connection with the swap terminations in April 2012, the entire balance of this swap was terminated and the remaining balance in AOCI of \$3.5 million was reclassified into earnings during the second quarter of 2012.
