EXPLANATORY NOTE

During the first quarter of fiscal 2014, Corinthian Colleges, Inc. (the Company) decided to divest four Everest schools located in Brighton, MA; North Aurora, IL; Miami, FL and Kendall, FL which are available for sale (the Sale Schools). The Company will continue to operate and invest in these campuses until they are sold. The campuses are available for immediate sale in their present condition, and the Company expects to complete the sales during fiscal 2014. The Company recorded a \$2.2 million impairment charge of long-lived assets related to the Sale Schools during the first quarter of fiscal 2014.

During fiscal year 2013, the Company completed the teach-out of its Arlington, VA; Decatur, GA; Milwaukee, WI; Hialeah, FL; London, Ontario (Canada) and Thunder Bay, Ontario (Canada) campuses.

Additionally, in fiscal year 2013, the Company completed the sale of the four Everest schools located in San Francisco, CA; San Jose, CA; Hayward, CA and Los Angeles, CA (the CA Sale Schools) (See Note 10 - Business Acquisitions and Dispositions for further details). The CA Sale Schools were put into discontinued operations in fiscal year 2012.

During fiscal year 2012, the Company announced that the two WyoTech schools located in Sacramento, CA and Daytona Beach, FL were available for sale. As of June 30, 2013, the campuses were not sold. As a result of the lack of acceptable offers, the Company decided to continue operations in Daytona Beach, FL and the Company taught-out the Sacramento, CA campus.

The Company had no significant continuing involvement with locations after the respective sale or teach-outs were completed. The results of operations for the sale or teach-out schools are reflected within discontinued operations in the Company's Condensed Consolidated Statements of Operations for all periods presented, unless otherwise stated. Daytona Beach, FL results are reflected within continuing operations in the Company's Condensed Consolidated Statements of Operations for all periods presented, unless otherwise stated.

CORINTHIAN COLLEGES, INC. AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

December 31, 2013

Note 1 The Company and Basis of Presentation

Corinthian Colleges, Inc. (the "Company") is one of the largest post-secondary career education companies in North America. As of December 31, 2013, the Company had approximately 77,584 students and operated 93 colleges in 25 states and 14 colleges in the province of Ontario, Canada. All of the Company's U.S. schools are accredited and grant either diplomas or degrees (associate's, bachelor's and master's) and offer educational opportunities from an extensive and diverse curricula library with an emphasis on four primary concentrations: allied health, business, criminal justice, and automotive and construction trades. All of the Canadian schools grant diplomas and are regulated by the provincial ministry of education responsible for registering or licensing the for-profit educational institutions. The Company also offers an online learning alternative available to students pursuing education exclusively online. Revenues generated from the Company's schools consist primarily of tuition and fees paid by students. To pay for a substantial portion of their tuition, the majority of students in the United States rely on funds received from federal financial aid programs under Title IV ("Title IV Programs") of the Higher Education Act of 1965, as amended ("HEA"). For further discussion, see Concentration of Risk below and the footnote describing Governmental Regulation.

Certain prior year amounts have been reclassified to conform to the current year presentation.

The accompanying unaudited condensed consolidated financial statements have been prepared by the Company pursuant to the rules and regulations of the Securities and Exchange Commission and in accordance with U.S. generally accepted accounting principles. Certain information and footnote disclosures normally included in annual financial statements have been omitted or condensed pursuant to such regulations. The Company believes the disclosures included in the unaudited condensed consolidated financial statements, when read in conjunction with the June 30, 2013 consolidated financial statements of the Company included in the Company's 2013 Annual Report on Form 10-K and notes thereto, are adequate to make the information presented not misleading. In management's opinion, the unaudited condensed consolidated financial statements reflect all adjustments, consisting solely of normal recurring adjustments, necessary to summarize fairly the consolidated financial position, results of operations, and cash flows for such periods. The results of operations for the three months ended December 31, 2013 are not necessarily indicative of the results that may be expected for the full fiscal year ending June 30, 2014.

The unaudited Condensed Consolidated Financial Statements as of December 31, 2013 and for the three months ended December 31, 2013 and 2012 and the audited Condensed Consolidated Balance Sheet as of June 30, 2013 include the accounts of the Company and its subsidiaries that it directly or indirectly controls through majority ownership. All significant intercompany balances and transactions have been eliminated in consolidation.

The financial position and results of operations of the Company's Canadian subsidiaries are measured using the local currency as the functional currency. Assets and liabilities of the Canadian subsidiaries are translated to U.S. dollars using exchange rates in effect at the balance sheet dates. Income and expense items are translated at monthly average rates of exchange. The resultant translation adjustments are included as a component of Stockholders' Equity designated as accumulated other comprehensive income. Exchange gains and losses arising from transactions denominated in a currency other than the functional currency are immediately included in earnings.

The Company estimates fair value using a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value into three broad levels. The fair value hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3).

The carrying value of cash and cash equivalents, receivables and accounts payable approximates their fair value at December 31, 2013. In addition, the carrying value of all borrowings approximates fair value at December 31, 2013. The student notes receivable balances are presented within current and non-current assets. It is not practicable to estimate the fair value of these financial instruments, since observable market data is not readily available, and no reasonable estimation methodology exists.

Table of Contents

Note 2 Impairment and Severance Charges

At December 31, 2013, the Company considered if there were indicators of impairment that would require an interim impairment test for goodwill and other non-amortizable intangible assets at that date and concluded that no such test was necessary. The Company will perform its required annual impairment test for goodwill and other non-amortizable intangible assets as of June 30, 2014.

At December 31, 2013, the Company has \$205.6 million of goodwill; \$197.9 million relates to the Heald reporting unit and \$7.7 million relates to the 2013 QuickStart Intelligence Corporation (QuickStart) acquisition. See Note 10 Business Acquisitions and Dispositions. The Company's fiscal year 2013 annual impairment tests did not result in an impairment charge. However, goodwill impairment assessments of the goodwill related to the Heald acquisition involve significant judgments related to future revenues and earnings. For Heald, the Company assumed a weighted average cost of capital (WACC) of 12.1%, revenue growth rates ranging from (3.0%) to 3.4% for fiscal 2014 to 2016 and a terminal growth rate of 4%, which resulted in fair value exceeding carrying value by approximately 12.3%. These assumptions reflect the lower risk of Heald relative to the Everest schools resulting from less historic exposure to ability to benefit (ATB) students and to regulatory uncertainty. Although the Company believes the estimates made are reasonable and supportable in connection with the impairment analysis, changes in strategy or market conditions could significantly impact these judgments and result in future impairments.

Accreditation is required for an institution to be eligible to participate in the federal student financial aid programs. The process of obtaining accreditation and access to Title IV funds is a barrier to entry for the industry. The process of applying for accreditation is a time intensive and expensive process, whereby an institution is required to operate without eligibility to Title IV funds for several years.

The Company used the With and Without Method in valuing accreditation both upon acquisition and in the performance of the impairment analysis, which estimates the fair value of an asset as the present value of differential cash flows between two scenarios. As it was applied to the fair valuation of accreditation, the With component reflects the present value of the as is cash flows, while the Without component of the analysis assumes the initial grant of accreditation, and the hypothetical scaling of operations to the as is state.

For accreditation, at June 30, 2013, the current as is scenario derives value from cash flows projected from fiscal 2014 to fiscal 2019, with revenue compound annual growth rates ranging from 2.4% to 6% with discount rates ranging from 14.3% to 34.3%. After the estimated future cash flows for the as is and Without scenarios were determined, management calculated their respective present values and then subtracted the present value of the Without scenario from the present value of the as is scenario to obtain the estimated fair value of accreditation. The significant assumptions for the Without scenario include revenue compound annual growth rates ranging from 55.1% to 83.6% with discount rates ranging from 14.3% to 34.3%. Using this analysis, at June 30, 2013 the fair value of accreditation exceeded book value by a range of 37.2% to 4,122%.

The Company used the Relief from Royalty method to estimate the fair value of trade names. Under the Relief from Royalty Method, estimated royalty rates were selected and applied to the revenue stream generated by trade names in order to estimate the potential value of the asset, assuming that trade names would be licensed to a third-party. For Heald, the royalty rate of 3% based upon profit split analysis and comparable licensing transactions, a discount rate of 14.3%, a tax rate of 39%, and a terminal growth rate value of 4%. For WyoTech, the royalty rate of 2.0% based upon profit split analysis and comparable licensing transactions, a discount rate of 21.8%, a tax rate of 39% and a terminal growth rate value of 1.5%.

Edgar Filing: CORINTHIAN COLLEGES INC - Form 10-Q

Should the Company's stock price remain depressed or decline further, the Company could incur additional impairment charges to write-down all or a portion of its goodwill and other intangible assets. Additionally, the fair value measure of accounting for financial instruments established a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value. Level 3 is defined as unobservable inputs in which little or no market data exists, therefore requiring an entity to develop its own assumptions. The implied fair value of goodwill was determined using Level 3 inputs included in the Company's discounted cash flow valuation method.

The Company incurred and paid severance of \$1.9 million and \$5.5 million for the three and six months ended December 31, 2013 and \$0 million and \$0.8 million for the three and six months ended December 31, 2012.

Table of Contents**Note 3 Discontinued Operations***Fiscal 2014*

During the first quarter of fiscal 2014, the Company decided to divest four Everest schools located in Brighton, MA; North Aurora, IL; Miami, FL and Kendall, FL which are available for sale (the Sale Schools). The Company will continue to operate and invest in these campuses until they are sold. The campuses are available for immediate sale in their present condition, and the Company expects to complete the sales during fiscal 2014. The Company recorded a \$2.2 million impairment charge of long-lived assets related to the Sale Schools during the first quarter of fiscal 2014.

Note 4 Accounts Receivable

Accounts receivable, net consists of the following as of:

	December 31, 2013		June 30, 2013
	(In thousands)		
Accounts receivable:			
Accounts receivable, Gross	\$ 76,532	\$	95,172
Less allowance for doubtful accounts	(18,365)		(19,002)
Accounts receivable, Net	\$ 58,167	\$	76,170

The following table summarizes the activity in the accounts receivable allowance for doubtful accounts for the three and six months ended December 31:

	Three Months Ended December 31,		Six Months Ended December 31,	
	2013	2012	2013	2012
	(In thousands, table for continuing and discontinued operations)			
Allowance for doubtful accounts				
Accounts receivable:				
Beginning allowance for doubtful accounts	\$ 21,836	\$ 28,333	\$ 19,104	\$ 18,237
Charged to statement of operations	13,660	18,764	31,838	38,710
Deductions	(17,096)	(19,369)	(32,542)	(29,219)
Ending allowance for doubtful accounts	\$ 18,400	\$ 27,728	\$ 18,400	\$ 27,728

Generally, a student receivable balance is written off once it reaches greater than 180 days past due.

Note 5 Student Notes Receivable

Loan Programs

Historically, the Company had developed several third party loan programs with origination and servicing providers such as Sallie Mae for students with low credit scores who otherwise would not qualify for loans. These loan programs required that the Company pay a discount fee to the origination and servicing providers of the loans as a reserve against future defaults on these loans. The Company has historically referred to these types of loans as discount loans, since the Company incurred a portion of the default risk related to these student loans by taking a discount on the disbursement from the third party. By accepting a reduced payment for these discounted loans from the servicing providers, the Company was not at risk for the amounts agreed to by the students and the service providers and the Company is not entitled to any proceeds collected on loan repayments by the service providers in excess of the reduced payment. Therefore the Company had recorded this discount as a reduction to revenue.

In fiscal 2008, the Company was informed by Sallie Mae and two other origination and servicing providers that they would no longer make private loans available for students. In the face of this change in policy, the Company created a new lending program in the fourth quarter of fiscal 2008 with a different origination and servicing provider, Genesis Lending Services, Inc. (Genesis). Under this Genesis program the Company paid a discount to the origination and servicing provider for any loans purchased by Genesis and recorded the discount as a reduction to revenue. Under this program the Company then had both the right and an obligation to acquire the related loan, except in certain limited circumstances where Genesis did not comply with the terms of the agreement. From the initiation of the Genesis program to its cessation in fiscal 2012, the Company acquired all of the loans that were originated. Therefore, the Company is exposed to any credit defaults by students but retains all amounts collected from the students under this program. There have been no loans funded under the Genesis discount loan program since November 2011.

Table of Contents

On June 29, 2011, the Company entered into a loan origination agreement, as amended, with ASFG, LLC (ASFG), which has subsequently changed its name to Campus Student Funding, LLC, for the purpose of creating a new private education discount loan program for students. Under the loan origination agreement, ASFG has agreed to purchase up to \$775 million of new student loans through June 2015. Under this agreement, an unaffiliated bank makes private education loans to eligible students and, subsequently, sells those loans to ASFG or its designee. Total losses associated with the program recourse, inclusive of the discount paid to ASFG, are estimated to be approximately 50% of the amount funded. During the second quarter of fiscal 2012, the Company completed the transition from the Genesis discount loan program to the ASFG discount loan program. Loans funded under the ASFG program, net of estimated refunds, are estimated to have been approximately \$59.3 million and \$110.4 million for the three and six months ending December 31, 2013 and \$61.0 million and \$96.4 million for the three and six months ending December 31, 2012, respectively. Loans funded to date under the ASFG program, net of estimated refunds, have been approximately \$428.4 million.

The ASFG loan program has characteristics similar to the previous third party discount loan programs. As with the previous third party discount loan programs, under the ASFG program the Company pays an upfront discount to ASFG for any notes purchased by ASFG. The Company records the upfront discount as a deferred charge and amortizes the charge as a reduction to revenue ratably over the program length as the related revenue is recognized. However, unlike the previous third party discount loan programs, pursuant to a backup loan purchase agreement entered into in connection with the loan origination agreement, the Company has guaranteed to purchase any of the student notes from ASFG on which no payment has been made for over 90 days. The Company has applied historical loan performance experience to estimate and record the ultimate loan recourse obligation on a gross basis by recording both a deferred charge and liability equal to the estimated risk upon funding. The recourse obligation is in addition to the discount paid to ASFG and is based upon the ultimate anticipated loan performance under the ASFG loan program. The deferred charge is recorded within prepaid expenses and is recognized as a reduction to revenue over the period of instruction. The total deferred charge related to unrecognized discount expense is \$33.5 million and \$29.6 million as of December 31, 2013 and June 30, 2013, respectively.

The recourse liability related to loans funded under the ASFG loan program is established at the inception of the guarantee. Upon recourse the Company will purchase any loans at the amount advanced by ASFG net of any discount paid to ASFG, less any principal payments collected by ASFG. The purchase will be recorded as a decrease to cash, an increase to student notes receivable, and an adjustment to the recourse obligation. The net recourse obligation consists of a net short-term liability and a net long-term receivable. The receivable, pursuant to a tuition loan program agreement, will be paid to the Company as ASFG receives student payments in excess of the initial principal balance, less discount paid. The receivable and recourse obligation are reported as a net short-term and net long-term amount to reflect the legal right of offset. The net short-term recourse obligation related to the loans funded under the ASFG program at December 31, 2013 and June 30, 2013 was a net liability of \$42.6 million and \$31.1 million, respectively, net of recourse paid. The net short-term recourse obligation at December 31, 2013 and June 30, 2013 is recorded within accrued expenses within the Consolidated Balance Sheets. The net long-term recourse receivable related to loans funded under the ASFG program at December 31, 2013 and June 30, 2013 was a net asset of \$72.7 million and \$44.6 million, respectively. The net long-term recourse receivable is recorded within deposits and other assets within the Consolidated Balance Sheets. The Company estimates loan performance based upon actual repayment experience with similar private student loan programs. Under this backup loan purchase agreement, the Company's maximum obligation (including the initial discount payment) could be equal to the face amount of loans originated under this loan program, although the Company expects the ultimate risk under this loan program to be substantially similar to the risks faced under the Genesis discount loan program.

During the second and third quarters of fiscal 2014, the Company has been negotiating with ASFG to restructure the student lending arrangement. However, the Company has been unable to reach agreement on terms acceptable to both parties, and in January 2014 ASFG indicated that it intends to cease funding new loans for students under the current program. The Company is beginning to solicit other prospective lenders through a request for proposal process. ASFG and at least two other potential lenders have expressed interest in receiving the request for proposal. Until a new arrangement is reached with a third-party lender, the Company intends to reinstitute the Company-financed Genesis loan program as described above. While the Company is in the process of structuring a new lending arrangement with a third party, the Company expects cash flows from operating activities to be approximately \$4 million to \$8 million less per month than cash flows would have been under the ASFG lending arrangement.

Typically, the repayment terms on student notes receivable are 12 months for each \$1,000 of notes balance. The average student note balance is \$2,400 for all outstanding loans. The majority of loans within student notes receivable contain repayment terms of 60 months or less. Loan balances vary by program and by student, and are a function of program cost and student financial aid eligibility. The average interest rate on all outstanding loans is 9.0% as of December 31, 2013.

Table of Contents

Sales of Financing Receivables

Recourse Sales

During the first quarter of fiscal 2012, the Company sold student loans with a face value of \$16.8 million to ASFG, on a recourse basis. The recourse provisions of this sale prevent the Company from derecognizing the underlying student loans sold. During fiscal 2012 the Company received an advance of \$10.1 million related to the sale, which has been recorded as debt on the Condensed Consolidated Balance Sheets and presented as proceeds from borrowings under student notes receivable sale within financing activities in the Condensed Consolidated Statement of Cash Flows for the fiscal year ending June 30, 2012. The remaining \$6.7 million of purchase price will be paid to the Company as ASFG receives student principal payments in excess of the advance. The debt and underlying student loans sold will be derecognized as ASFG receives payments. As of December 31, 2013 and June 30, 2013, ASFG had collected \$8.7 million and \$7.9 million, respectively, in payments related to this sale and the remaining obligation is approximately \$1.4 million and \$2.1 million, respectively.

During the fourth quarter of fiscal 2012, the Company sold student loans with a face value of \$25.0 million to ASFG, on a recourse basis. The recourse provisions of this sale prevent the Company from derecognizing the underlying student loans sold. As of June 30, 2013 and June 30, 2012, respectively, the Company received an advance of \$7.5 million related to the sale, which has been recorded as debt on the Condensed Consolidated Balance Sheets and presented as proceeds from borrowings under student notes receivable sale within financing activities in the Condensed Consolidated Statement of Cash Flows for the fiscal year ending June 30, 2012. The remaining \$17.5 million of purchase price will be paid to the Company as ASFG receives student principal payments in excess of the advance. The debt and underlying student loans sold will be derecognized as ASFG receives payments. As of December 31, 2013 and June 30, 2013, ASFG had collected \$7.2 million and \$5.8 million, respectively, in payments related to this sale and the remaining obligation is approximately \$0.3 million and \$1.7 million, respectively.

During the first quarter of fiscal 2013, the Company sold student loans with a face value of \$29.0 million to ASFG, on a recourse basis. The recourse provisions of this sale prevent the Company from derecognizing the underlying student loans sold. As of December 31, 2013, the Company received an advance of \$8.7 million related to the sale, which has been recorded as debt on the Condensed Consolidated Balance Sheets and presented as proceeds from borrowings under student notes receivable sale within financing activities in the Condensed Consolidated Statement of Cash Flows for the fiscal year ending June 30, 2013. The remaining \$20.3 million of purchase price will be paid to the Company as ASFG receives student payments in excess of the advance. The debt and underlying student loans sold will be derecognized as ASFG receives payments. As of December 31, 2013 and June 30, 2013, ASFG had collected \$7.6 million and \$5.5 million, respectively, in payments related to this sale and the remaining obligation is approximately \$1.1 million and \$3.2 million, respectively.

Student notes receivable balance, allowance and delinquency detail

Student notes receivable, net consists of the following as of:

	December 31, 2013	June 30, 2013
	(In thousands)	
Student notes receivable:		

Edgar Filing: CORINTHIAN COLLEGES INC - Form 10-Q

Student notes receivable, Gross	\$	110,728	\$	121,232
Less allowance for doubtful accounts		(18,721)		(30,261)
Student notes receivable, Net	\$	92,007	\$	90,971

The following table summarizes the activity in the student notes receivable allowance for doubtful accounts for the three and six months ended December 31:

	Three Months Ended		Six Months Ended	
	December 31,		December 31,	
	2013	2012	2013	2012
(In thousands, table for continuing and discontinued operations)				
Student notes receivable:				
Beginning allowance for doubtful accounts	\$	22,186	\$	60,942
Charged to statement of operations			\$	30,261
Deductions		(3,465)		(11,540)
Ending allowance for doubtful accounts	\$	18,721	\$	40,849

Table of Contents

The effect of an increase in our student notes receivable allowance of 3% of our outstanding earned notes receivable from 16.9% to 19.9% or \$18.7 million to \$22.0 million would result in a decrease in pre-tax income from continuing operations of \$3.3 million as of December 31, 2013. Recoveries for all periods presented are not material.

The delinquency status of gross student notes receivable was as follows as of:

	December 31, 2013	June 30, 2013
	(In thousands)	
Current	\$ 58,510	\$ 67,771
1 - 90	19,575	16,721
91 - 120	3,940	3,085
120 - 269	16,746	19,051
270+	11,957	14,604
TOTAL	\$ 110,728	\$ 121,232

The Company monitors the credit quality of its portfolio using proprietary forecasting, which relies heavily on credit information and credit scores provided by third-party credit bureaus. These proprietary forecasting models are also based on impairment trending, delinquency trending, and population trending. The note reserve methodology is reviewed semi-annually during the second and fourth quarters or earlier in the year upon the occurrence of certain events or substantive changes in circumstances that indicate a change in methodology is warranted. Delinquency is the main factor of determining if a loan is impaired. Loans are charged off after 270 days delinquency to an amount determined collectible. Once a loan is impaired, interest no longer accrues. The income and fees earned on impaired loans was immaterial during the three and six months ended December 31, 2013 and 2012, respectively. In the three and six months ended December 31, 2013 the Company charged-off \$3.5 million and \$11.5 million of Genesis notes, net of recoveries, respectively. In the three and six months ended December 31, 2012 the Company charged-off \$20.1 million and \$39.2 million of Genesis notes, net of recoveries, respectively. The charge-offs are recorded as a reduction to notes receivable and a reduction to the corresponding notes receivable allowance. Recoveries for all periods presented are not material.

The following table summarizes the student notes receivable and the allowance for doubtful accounts as of:

	December 31, 2013		June 30, 2013	
	Student Notes	Allowance for student notes receivable losses	Student Notes	Allowance for student notes receivable losses
	(In thousands)			
Collectively evaluated for impairment	\$ 98,550	\$ (18,721)	\$ 113,928	\$ (30,261)
Loans purchased under recourse provision	12,178		7,304	
Total	\$ 110,728	\$ (18,721)	\$ 121,232	\$ (30,261)

Edgar Filing: CORINTHIAN COLLEGES INC - Form 10-Q

Included within the Condensed Consolidated Statement of Operations, under the caption Other expense, net for three months ended December 31, 2013 and 2012 is net other expense of \$6.1 million and \$6.0 million, associated with the student notes program, respectively. Included within the Condensed Consolidated Statement of Operations, under the caption Other expense, net for six months ended December 31, 2013 and 2012 is net other expense of \$12.4 million and \$10.8 million, associated with the student notes program, respectively.

Genesis Program

The net other expense primarily reflects the interest income, loan origination fees, and costs related to servicing loans. The Company defers and recognizes both the loan origination income and direct loan origination costs as an adjustment to the yield over the life of the related loan. All other lending-related costs, including costs related to servicing fees are charged to expense as incurred. Net other expense includes \$0.6 million and \$1.7 million associated with the Genesis notes program, for the three and six months ended December 31, 2013, respectively. Net other expense includes \$0.3 million and \$0.6 million associated with the Genesis notes program, for the three and six months ended December 31, 2012, respectively.

Table of Contents

ASFG Program

The net other expense primarily reflects the program structuring fees, management fees, and other fees charged by ASFG. The Company defers and recognizes program structuring and management fees over the program length. All other fees are charged to expense as incurred. For the three and six months ended December 31, 2013 there was net other expense of \$5.5 million and \$10.7 million associated with the ASFG notes program. For the three and six months ended December 31, 2012, there was net other expense of \$5.9 million and \$10.5 million associated with the ASFG notes program, respectively. Total structuring and management fees paid to ASFG, over the life of the program, as of December 31, 2013 have been \$18 million, of which \$7.8 million are deferred as of December 31, 2013. There were no program fees paid to ASFG during the three and six months ended December 31, 2013. Program fees paid to ASFG during the three and six months ended December 31, 2012 are \$0 and \$3.2 million, respectively. Total program fees expected to be incurred over the program length are expected to be approximately \$8 to \$10 million per year in incremental cost above those historically incurred under the Genesis program.

Cash flows associated with loans funded under the ASFG loan program, net of refunds, are recorded as a cash inflow from prepaid tuition within cash flows from operating activities in the amount of \$92.3 million and \$86.7 million for the six months ended December 31, 2013 and December 31, 2012, respectively.

Cash flows associated with the ASFG discount fee, net of refunds, are recorded as a cash outflow from prepaid expenses within cash flows from operating activities in the amount of \$45.5 million and \$40.2 million for the six months ended December 31, 2013 and December 31, 2012, respectively.

Recourse payments to ASFG are recorded as a cash outflow from student notes receivable within cash flows from operating activities. Recourse payments to ASFG have been \$27.7 million and \$17.1 million for the six months ended December 31, 2013 and December 31, 2012, respectively.

Net revenues recognized related to the ASFG program have been approximately \$28 million and \$55 million, net of discount expense, for the three and six months ended December 31, 2013, respectively. Net revenues recognized related to the ASFG program have been approximately \$24 million and \$46 million for the three and six months ended December 31, 2012, respectively. Net cash flows related to the ASFG program have been a net inflow of \$19.1 million and \$26.2 million for the six months ended December 31, 2013 and December 31, 2012, respectively.

Note 6 Long-Term Debt and Capital Lease Obligations

As of December 31, 2013 and June 30, 2013, long-term debt and capital lease obligations consisted of the following (in thousands):

December 31,	June 30,
2013	2013

Edgar Filing: CORINTHIAN COLLEGES INC - Form 10-Q

Credit facility obligations (1)	\$	61,894	\$	116,073
Borrowings under student notes receivable sale agreements		2,731		7,110
Capital lease obligations		10,934		12,192
Other debt		1,015		3,710
		76,574		139,085
Less current portion of borrowings under student notes receivable sale agreement		(600)		(4,101)
Less current portion of capital lease obligations				(803)
	\$	75,974	\$	134,181

(1) Interest rate on credit facility is 3.2% and 4.7% as of December 31, 2013 and June 30, 2013, respectively.

On May 17, 2012, the Company entered into a Fourth Amended and Restated Credit Agreement (the "Credit Facility") with Bank of America, N.A., which replaces the credit facility that was set to expire in October 2012. The amended Credit Facility, which expires July 1, 2015, provides aggregate commitments including borrowings and letters of credit of up to \$145 million, of which \$135 million is a domestic facility, and \$10 million is a Canadian facility. The Credit Facility has been established to provide available funds for acquisitions, to fund general corporate purposes, and to provide for letters of credit issuances of up to \$50 million for domestic letters of credit and \$7.5 million for Canadian letters of credit. The Credit Facility is secured by guaranties from the Company and each of its subsidiaries, as well as a first priority lien on substantially all of the tangible and intangible assets of the Company and its subsidiaries, including real property and the stock of the Company's operating subsidiaries.

Edgar Filing: CORINTHIAN COLLEGES INC - Form 10-Q

Table of Contents

The following table summarizes the terms of the Credit Facility and its status as of December 31, 2013:

Borrowing limit	\$145 million
Interest Rate	At the Company's discretion, the base (prime) rate plus 1.50% - 2.00% or a LIBOR rate plus 2.50% - 3.00%, depending upon the Company's Consolidated Leverage Ratio.
Maturity	July 1, 2015
Outstanding borrowings	\$61.9 million.
Weighted Average Interest Rate	3.2%
Outstanding letters of credit	\$23.9 million domestic, \$4.3 million Canada.

The Credit Facility contains customary affirmative and negative covenants, including financial covenants requiring the maintenance of consolidated net worth, fixed charge coverage ratios, leverage ratios, and the U.S. Department of Education (ED) financial responsibility composite score. As of December 31, 2013, the Company was in compliance with all of the covenants.

The Company received \$0, \$8.7 million, and \$17.6 million of proceeds from ASFG related to the sale of notes during fiscal 2014, 2013, and 2012, respectively. The recourse provisions of these sales prevent the Company from derecognizing the underlying notes sold. Accordingly, the proceeds have been recorded as debt on the Condensed Consolidated Balance Sheet. The debt and underlying student notes will be derecognized as ASFG receives principal payments. As of December 31, 2013 and June 30, 2013, the remaining obligation is approximately \$2.7 million and \$7.1 million, respectively. The Company has classified the debt between short-term and long-term in proportion to the classification of the related student notes receivable.

Note 7 Weighted Average Number of Common Shares Outstanding

Basic net income (loss) per share is calculated by dividing net income (loss) by the weighted average number of common shares outstanding for the period. Diluted net income (loss) per share reflects the assumed conversion of all dilutive securities, consisting of stock options and restricted stock units.

The table below reflects the weighted average number of common shares outstanding and the effects of dilutive securities used in computing basic and diluted net income or loss per common share for the three and six months ended December 31, 2013 and 2012 (in thousands):

	Three Months Ended December 31,		Six Months Ended December 31,	
	2013	2012	2013	2012
Basic common shares outstanding	87,135	85,797	86,863	85,641
Effects of dilutive securities:				
Stock options and restricted stock units	1,027	751		722
Diluted common shares outstanding	88,162	86,548	86,863	86,363

Edgar Filing: CORINTHIAN COLLEGES INC - Form 10-Q

During the three and six months ended December 31, 2013, the Company issued 0.3 million and 1.1 million shares, respectively, of common stock related to the Company's employee stock purchase plan, exercise of stock options and delivery of shares of common stock underlying restricted stock units. During the three and six months ended December 31, 2012, the Company issued 0.1 million and 0.7 million shares, respectively, of common stock related to the Company's employee stock purchase plan, exercise of stock options and delivery of shares of common stock underlying restricted stock units. During the three and six months ended December 31, 2013, approximately 11.6 million and 13.4 million, respectively, of our stock options and restricted stock units were excluded from the calculation of diluted earnings per share because their inclusion would have been anti-dilutive. During the three and six months ended December 31, 2012, approximately 11.9 million and 11.6 million, respectively, of our stock options and restricted stock units were excluded from the calculation of diluted earnings per share because their inclusion would have been anti-dilutive.

Share Repurchase

During July 2010, the Company's Board of Directors approved a stock repurchase program under which the Company may purchase up to \$200 million of its common stock. The Company may repurchase shares on the open market or in private transactions from time to time, depending on the Company's cash balances, general business and market conditions, and other factors, including alternative investment opportunities. As of December 31, 2013 the Company had repurchased 3,917,200 shares at an average price of \$6.38 under this program during fiscal year 2011. No shares were repurchased in fiscal year 2014, 2013 or 2012.

Table of Contents

From November 2006 through May 2007, the Company purchased 2,256,600 shares at a total cost of \$31.4 million at an average price of \$13.90 per share under a previous stock repurchase agreement.

Note 8 Segment Information

The Company's operations are aggregated into a single reportable operating segment based upon similar economic and operating characteristics as well as similar markets. The Company's operations are also subject to similar regulatory environments. The Company conducts its operations in the U.S. and Canada. Revenues and long-lived assets by geographic area are as follows (in thousands):

	Three Months Ended December 31,		Six Months Ended December 31,	
	2013	2012	2013	2012
Revenues from unaffiliated customers				
U.S. operations	\$ 356,327	\$ 390,233	\$ 707,649	\$ 777,459
Canadian operations	13,578	15,837	27,214	30,648
Consolidated	\$ 369,905	\$ 406,070	\$ 734,863	\$ 808,107
	December 31,		June 30,	
	2013		2013	
Long-lived assets				
U.S. operations	\$ 756,189	\$ 727,562		
Canadian operations	11,152	12,579		
Consolidated	\$ 767,341	\$ 740,141		

No one customer accounted for more than 10% of the Company's consolidated revenues. Revenues are attributed to regions based on the location of customers.

Note 9 Commitments and Contingencies

In the ordinary conduct of its business, the Company and its subsidiaries are subject to lawsuits, demands in arbitration, investigations and other claims, including, but not limited to, lawsuits and claims involving current and former students, employment-related matters, business disputes and regulatory demands. In some of the lawsuits and arbitrations pending against the Company, including matters not disclosed below, the plaintiffs seek certification of the matter as a class action or collective action in order to represent other similarly-situated persons. Except as disclosed below, none of the matters currently pending against the Company in which plaintiffs seek class certification has yet been certified as a class action or collective action. When the Company is aware of a claim or potential claim, it assesses the likelihood of any loss or exposure. Information is provided below regarding the nature of each potentially material claim where the likelihood of loss is probable or reasonably possible. If it is probable that a loss will result and the amount of the loss can be reasonably estimated, the Company has accrued a liability for the loss. When a loss is not both probable and estimable, the Company does not accrue a liability. Where a loss is not probable but is reasonably possible, including if a loss in excess of an accrued liability is reasonably possible, the Company determines whether it is possible to provide an estimate of the amount of the loss or range of possible losses for the claim. For the matters described below, the Company has either established an accrual that is immaterial, or has determined that a loss is reasonably possible but that it is not possible to provide a reasonable estimate of the amount of loss or the range of possible losses with respect to the matter. There can be no assurance that the ultimate outcome of any of the

Edgar Filing: CORINTHIAN COLLEGES INC - Form 10-Q

matters threatened or pending against the Company, including those disclosed below, will not have a material adverse effect on the Company's financial condition or results of operations.

False Claims Act Qui Tams

The False Claims Act allows private citizens, called relators, to institute civil proceedings alleging violations of the False Claims Act. These *qui tam* cases are generally sealed by the court at the time of filing. The only parties initially privy to the information contained in the complaint are the relator, the federal government, and the presiding court.

On October 3, 2007, the Company was notified that a *qui tam* action had been filed in the U.S. District Court for the Central District of California by a former employee (the relator) on behalf of himself and the federal government. The case was captioned *United States of America, ex rel. Steven Fuhr v. Corinthian Colleges, Inc.* The Company subsequently learned of two other *qui tam* actions filed against the Company captioned *United States of America, ex rel. Nyoka Lee and Talala Mshuja v. Corinthian Colleges, Inc., et al.*, and *United States of America, ex rel. Stephen Backhus v. Corinthian Colleges, Inc., et al.*, filed in the United States District Courts for the Central District of California and the Middle District of Florida, respectively. These *qui tam* actions alleged violations

Table of Contents

of the False Claims Act, 31 U.S.C. § 3729-33, by the Company for allegedly causing false claims to be paid, or allegedly using false statements to get claims paid or approved by the federal government, because of alleged Company violations of the Higher Education Act (the HEA) regarding the manner in which admissions personnel are compensated. The *Lee* complaint also alleged causes of action for common law fraud, unjust enrichment and payment under mistake of fact against the Company, Ernst & Young LLP (the Company's Independent Registered Public Accounting Firm), and David Moore, Jack Massimino, Paul St. Pierre, Alice Kane, Linda Skladany, Hank Adler and Terry Hartshorn (all of whom are current or former directors of the Company). On March 4, 2009, the Company received written notices that the U.S. Department of Justice had declined to intervene in, or take over, these *qui tam* actions, and the United States District Courts in which the cases were filed unsealed the complaints. Although the government declined to intervene in these actions, the relators may continue to pursue the litigation on behalf of the federal government and, if successful, receive a portion of the federal government's recovery. Additionally, upon a showing of good cause, the government has the right to intervene in the actions at a later time. The *Backhus* complaint has since been voluntarily dismissed and, on August 3, 2009, the U.S. District Court issued an order dismissing the *Fuhr* complaint with prejudice. That dismissal was appealed, but has since been voluntarily abandoned and dismissed by the relator in that case. The *Lee* complaint was dismissed with prejudice by the U.S. District Court on December 4, 2009. The *Lee* dismissal was also appealed, and, on August 12, 2011, the Ninth Circuit Court of Appeal affirmed the district court's dismissal but remanded with instructions to permit the relators to amend the complaint. On December 15, 2011, the first amended *Lee* complaint was filed in U.S. District Court alleging violations of the False Claims Act, 31 U.S.C. § 3729 against the Company, Ernst & Young LLP, David Moore and Jack Massimino. The Company moved the U.S. District Court to dismiss the amended *Lee* complaint, and, on April 12, 2013, the District Court dismissed with prejudice the action in its entirety. In June 2013, the court also granted the Company's motions for attorneys' fees and sanctions and awarded the Company approximately \$1.0 million in attorneys' fees to be paid by relators' counsel and his law firm. The relators have appealed the dismissal and the sanctions award to the U.S. Ninth Circuit Court of Appeal.

Additionally, the Company has been notified by the U.S. Department of Justice that it is investigating allegations that the Company violated the False Claims Act by, among other things, manipulating attendance records at various campuses for the purpose of retaining Title IV funds for students no longer in attendance. The government is also investigating alleged violations of the False Claims Act relating to recruiting and financial aid practices. The Company is cooperating with the government's investigation. On September 27, 2013, three *qui tam* complaints underlying the government's investigation were partially unsealed to us. The Company was already aware of the existence of one of the complaints, *U.S. ex. rel. Marion v. Heald Colleges, LLC and Corinthian Colleges, Inc.*, which was filed in the Northern District of California in April 2012 and concerns the Salinas, California campus of Heald College. Additional *qui tam* lawsuits may have been, and may in the future be, filed against the Company where we are either unaware of such filings or have been ordered by the presiding court not to discuss or disclose the filing of such lawsuits.

Securities and Derivative Litigation

On August 31, 2010, a putative class action complaint captioned *Jimmy Elias Karam v. Corinthian Colleges, Inc., et al.* was filed in the U.S. District Court for the Central District of California. The complaint is purportedly brought on behalf of all persons who acquired shares of the Company's common stock from October 30, 2007 through August 19, 2010 against the Company and Jack Massimino, Peter Waller, Matthew Ouimet and Kenneth Ord, all of whom are current or former officers of the Company. The complaint alleges that, in violation of Section 10(b) of the Securities Exchange Act of 1934 (the Act) and Rule 10b-5 promulgated thereunder by the Securities and Exchange Commission, the defendants made certain material misrepresentations and failed to disclose certain material facts about the condition of the Company's business and prospects during the putative class period, causing the Company's common stock to trade at artificially inflated prices at the time when plaintiffs purchased their stock. The plaintiffs further claim that Messrs. Massimino, Waller, Ouimet and Ord are liable under Section 20(a) of the Act. The plaintiffs seek unspecified amounts in damages, interest, attorneys' fees and costs, as well as other relief. On October 29, 2010, another putative class action complaint captioned *Neal J. Totten v. Corinthian Colleges, Inc., et al.* was filed by the same law firm that filed the *Karam* matter described above in the U.S. District Court for the Central District of California. The *Totten* complaint is substantively identical to the *Karam* complaint. Several other plaintiffs intervened in the lawsuit and petitioned the Court to appoint them to be the lead plaintiffs. On March 30, 2011, the Court appointed the Wyoming Retirement System and Stichting Pensioenfonds Metaal en Technieklead as lead plaintiffs, and Robbins Geller Rudman & Dowd LLP as counsel for lead plaintiffs, in the consolidated action. Lead plaintiffs thereafter filed a second amended consolidated complaint, and the Company moved to dismiss the second amended consolidated complaint. On January 30, 2012, the U.S. District Court granted the Company's motion to dismiss, with leave to amend. On February 29, 2012, the plaintiffs filed a third amended complaint in U.S. District Court, and, on March 30, 2012 the Company and the individual defendants filed a motion to dismiss. On August 20,

Edgar Filing: CORINTHIAN COLLEGES INC - Form 10-Q

2012, the U.S. District Court granted the Company's and the individual defendants' motion to dismiss, with prejudice. The plaintiffs have appealed that dismissal to the U.S. Ninth Circuit Court of Appeals, and the Company will continue to defend itself and its current and former officers vigorously.

Table of Contents

On June 20, 2013, a putative class action complaint captioned *Frank Erickson, Individually and On Behalf of All Others Similarly Situated v. Corinthian Colleges, Inc., et al.* was filed in the U.S. District Court for the Southern District of New York. The complaint is purportedly brought on behalf of all persons who acquired shares of the Company's common stock from August 23, 2011 through June 10, 2013, against the Company and Jack Massimino, Robert Owen and Kenneth Ord, all of whom are officers of the Company. The complaint alleges that, in violation of Section 10(b) and 20(a) of the Securities Exchange Act of 1934 (the "Act"), and Rule 10b-5 promulgated thereunder by the Securities and Exchange Commission, the defendants made certain material misrepresentations and failed to disclose certain material facts about the condition of the Company's business and prospects during the putative class period, causing the Company's common stock to trade at artificially inflated prices at the time when plaintiff purchased his stock. The plaintiff seeks unspecified amounts in damages, interest, attorneys' fees and costs, as well as other relief on behalf of a class of similarly situated persons. In October 2013, the court granted the Company's and the individual defendants' motion to transfer the case to the Central District of California. In December 2013, the plaintiff filed a First Amended Complaint in the Central District of California. The Company believes the complaint is without merit, has filed a motion to dismiss the case, and intends to vigorously defend itself and its officers and directors against these allegations.

In November 2013, a shareholder derivative complaint captioned *Chaile Steinberg, derivatively on behalf of Corinthian Colleges, Inc., v. Jack Massimino, et al.*, was filed in the United States District Court for the Central District of California against all of the members of the Company's Board of Directors, plus Ken Ord, Bob Bosic and Beth Wilson, all of whom are current officers of the Company, and against the Company as a nominal defendant. The derivative complaint is based on factual allegations similar to those alleged in the federal securities complaints identified above, plus the lawsuit by the California Attorney General described below. The complaint asserts causes of action for breach of fiduciary duty, waste of corporate assets and unjust enrichment. The Company and the individual defendants believe these matters are without merit, and the Company intends to defend these matters vigorously.

Student Litigation

On May 28, 2008, a putative class action demand in arbitration captioned *Rivera v. Sequoia Education, Inc. and Corinthian Colleges, Inc.* was filed with the American Arbitration Association. The plaintiffs are nine current or former HVAC students from the Company's WyoTech Fremont campus. The arbitration demand alleges violations of California's Business and Professions Code Sections 17200 and 17500, fraud and intentional deceit, negligent misrepresentation, breach of contract and unjust enrichment/restitution, all related to alleged deficiencies and misrepresentations regarding the HVAC program at these campuses. The plaintiffs seek to certify a class composed of all HVAC students in the Company's WyoTech Fremont and WyoTech Oakland campuses over the prior four years, and seek recovery of compensatory and punitive damages, interest, restitution and attorneys' fees and costs. The Company never operated any HVAC programs at the Company's WyoTech Oakland campus during its ownership of that campus. The arbitrator ruled that the arbitration provision in the former students' enrollment agreement is not susceptible to class-wide resolution. On November 22, 2011, a California state court judge refused to confirm the arbitrator's clause construction decision and remanded the matter to the arbitrator for further consideration. The Company appealed the state court order, and, in October 2013, the California Court of Appeal vacated the trial court's order and remanded the matter to the trial court with orders to enter judgment confirming the arbitration award. The plaintiffs have sought review of the California Court of Appeal's decision by the California Supreme Court. The Company believes the matter is without merit and intends to vigorously defend itself against these allegations.

In November 2010, a putative class action complaint captioned *Alisha Montgomery, et al., on behalf of themselves and all others similarly situated, v. Corinthian Colleges, Inc. and Corinthian Schools, Inc. d/b/a Everest College and Olympia College*, was filed in the Circuit Court of Cook County, Illinois. Plaintiffs are former students of the Company's Medical Assistant Program at the Everest College campus in Merrionette Park, Illinois. The Company removed the case to federal court and moved to compel individual arbitrations, which the court granted. Thirty-two plaintiffs filed individual demands in arbitration. The Company and 21 of the plaintiffs have now reached settlements in amounts that are not material to the Company's results of operations and financial condition. The plaintiffs' original counsel has ended representation of the other 11. While some of the remaining plaintiffs may represent themselves or seek new counsel, the Company considers these remaining plaintiffs' cases as substantively abandoned.

During fiscal 2011, the Company experienced an unprecedented increase in putative class action lawsuits by former students. In many of these cases, the plaintiffs and their counsel sought to represent a class of similarly situated people as defined in the complaint. The Company believes these lawsuits were largely the result of negative publicity and aggressive lawyer recruitment of potential clients surrounding the Department of Education's (ED's) rulemaking efforts, the Senate HELP Committee hearings, the Government Accountability Office (GAO) report, and other related matters that occurred during that time period. All of those cases have now been compelled to individual arbitrations or dismissed. In the individual arbitration matters that have been heard, the Company has achieved complete defense verdicts in the vast majority. In the small number of matters where the plaintiffs have prevailed, they have been awarded only nominal damages. Only a small number of individual student arbitration matters are currently pending against the Company. The Company intends to defend itself and its subsidiaries vigorously in all of the remaining individual matters.

Table of Contents

Employee Litigation

On September 13, 2011, an action captioned *Michael Harrington, individually and on behalf of all persons similarly situated, v. Corinthian Schools, Inc., et al.*, was filed in California's Alameda Superior Court. A virtually identical action with the same caption was filed by different plaintiff's counsel on September 15, 2011, in California's Orange County Superior Court. The plaintiff is a former admissions representative at the Company's Fremont and Hayward campuses and the two actions allege violations of California's Business and Professions Code Section 17200 and the California Labor Code for alleged failure to pay for all hours worked, purported denial of meal periods, and alleged failure to pay wages upon termination. The Alameda complaint has since been voluntarily dismissed. Another putative class action by an admissions representative employed at our Anaheim campus was filed in December 2013, alleging unpaid wages, unpaid meal and rest breaks, unpaid overtime and double time, and payroll reporting violations. While the scope of the putative classes in these cases is not clear, they appear to seek certification of a class of current and former admissions representatives over the last four years at the Company's California campuses. The Company believes the allegations are without merit and intends to vigorously defend itself.

In October 2013, an action captioned *David Ratto, on behalf of himself and all others similarly situated, v. Corinthian Schools, Inc., et al.*, was filed in California's Alameda Superior Court. The plaintiff is a former instructor at the Company's Fremont campus. The action alleges violations of California's Business and Professions Code Section, Labor Code and Industrial Welfare Commission Wage Orders for alleged failure to pay straight time, minimum and/or overtime wages for all hours worked, failure to provide all meal periods, failure to authorize and permit all paid rest periods, failure to timely furnish accurate itemized wage statements, violation of Labor Code §203, incurrence of penalties pursuant to Labor Code §§2698, et seq., and unfair business practices. While the scope of the putative class is not clear, the matter appears to seek certification of a class of current and former instructors who have worked at the Company's California campuses over the relevant statute of limitations period. The Company believes the allegations are without merit and intends to vigorously defend itself.

Regulatory Matters

On October 19, 2010, the Company became aware of news stories which reported that the Florida Attorney General's Office (the "FL AG's Office") had begun an investigation into certain private sector education companies in Florida, including the Company, seeking information on potential misrepresentations in financial aid, recruitment and other areas. On October 21, 2010, the Company received a subpoena from the FL AG's Office seeking a wide range of documents from January 1, 2006 to the present. The Company's attorneys have met with representatives of the FL AG's Office multiple times and the Company has provided voluminous materials in response to the subpoena. Additionally, the Company has filed a motion to quash portions of the subpoena and for a protective order with respect to certain confidential and proprietary information. The Company expects to continue to provide reasonable cooperation to the FL AG's Office.

On April 29, 2011, the Company's Everest Institute campuses in Brighton and Chelsea, Massachusetts received civil investigative demands from the Massachusetts Attorney General's Office (the "MA AG") seeking (i) information about past students who have enrolled in each institution, (ii) the identity of recruiters, (iii) recruiting and enrollment documents, (iv) documentation related to analyses of delinquency, default, drop out, refund, loan forgiveness or reduction, placement, student income, and/or any student's ability to repay loans, and (v) cohort default and graduation rates. The Company has cooperated, and continues to cooperate, with the MA AG's reasonable requests for information, including a request for additional information received on July 20, 2012.

On April 11, 2011 the Company's Everest Institute in Jonesboro, Georgia was sent a subpoena from the Atlanta office of ED's Office of Inspector General (the "OIG") requesting documents related to the Jonesboro campus's employment and placement rates reported to its accrediting agency, as well as correspondence with the accrediting agency. The Company has become aware that this matter is being supervised by an Assistant

Edgar Filing: CORINTHIAN COLLEGES INC - Form 10-Q

United States Attorney (the AUSA) for the Northern District of Georgia. In January 2014, the Company received a new Civil Investigation Demand (the Jonesboro CID) from the U.S. Attorney's Office for the Northern District of Georgia related to allegations that the Company, and/or its campuses in Decatur and Jonesboro, Georgia, and/or their affiliated schools, may have submitted, or caused to be submitted, false claims to the ED. The Jonesboro CID requires the Company to provide answers to written interrogatories and documents to the federal government. The questions and document requests appear to relate to placement data, admissions representative compensation, grade changes, and attendance changes at the Jonesboro and Decatur campuses. The Company does not know whether a *qui tam* action has been filed under seal or whether the United States Attorney's Office has made a determination about whether to file a False Claims Act lawsuit in this matter. The Company has already provided a substantial volume of documents to the OIG pursuant to the original subpoena, and has met with the OIG and the AUSA supervising this matter. The Company expects to continue to cooperate with the OIG and the AUSA's requests.

In May 2011, along with other private sector education companies, the Company received a subpoena from the New York Attorney General's Office (the NY AG) seeking information on potential issues related to financial aid, admissions, students, securities and other areas. The Company is cooperating with the NY AG's requests for information.

Edgar Filing: CORINTHIAN COLLEGES INC - Form 10-Q

Table of Contents

In December 2011, after other private sector education companies had received similar requests, the Company received a civil investigative demand from the Illinois Attorney General's Office (the IL AG) seeking information on potential issues related to financial aid, admissions, students and other areas. The Company has obtained protection of its confidential and sensitive business information and is cooperating with the IL AG's reasonable requests for information.

In April 2012, the Company was served with a Civil Investigative Demand (CFPB CID) from the U.S. Consumer Financial Protection Bureau (CFPB). The CFPB CID stated that its purpose is to determine whether for-profit postsecondary companies, student loan origination and servicing providers, or other unnamed persons, have engaged or are engaging in unlawful acts or practices relating to the advertising, marketing, or origination of private student loans. The CFPB CID contained extensive interrogatories and document production demands related to the Company's involvement with student loans and many other aspects of the Company's business. The Company objected to the inquiry by filing a petition with the CFPB to set aside or modify the CFPB CID, but voluntarily provided documents and other information to the CFPB while the petition was pending. In September 2013, the CFPB withdrew its prior CFPB CID and issued a new CFPB CID to the Company covering substantially the same matters as the prior CFPB CID. The Company also objected to the second CFPB CID by filing another petition to modify or set aside the new CFPB CID, but continues to voluntarily cooperate while the petition is pending.

In December 2013, the Company received a letter from the CFPB notifying the Company that, in accordance with the CFPB's discretionary Notice and Opportunity to Respond and Advise (NORA) process, the CFPB's Office of Enforcement is considering recommending that the CFPB take legal action against the Company (the NORA Letter). The NORA Letter states that the staff of the CFPB's Office of Enforcement (the Staff) expects to allege that the Company violated the Consumer Financial Protection Act of 2010, 12 U.S.C. §5536. The NORA Letter also states that if such action is brought the CFPB may seek injunctive and monetary relief against the Company. The NORA Letter confirms that the Company has the opportunity to make a NORA submission, which is a written statement setting forth any reasons of law or policy why the Company believes the CFPB should not take legal action against it. The Company understands that a NORA notice from the Staff is intended to ensure that potential subjects of enforcement actions have the opportunity to present their positions to the CFPB before an enforcement action is recommended or commenced. The Company has filed its NORA submission with the CFPB, and continues to believe that its acts and practices relating to student loans are lawful.

During the quarter ended December 31, 2012, the Company received an investigative subpoena from the California Attorney General's Office (the CA AG's Office) captioned In the Matter of the Investigation of For-Profit Educational Institutions, seeking business records and responses to interrogatories related to the Company's cohort default rates, the identity of the Company's California security holders, the placement rate of graduates, completion times, graduation rates, advertisements and admissions, the announcement of the Company's intention to sell certain campuses, enrollment processes, financial aid processes, call center policies and practices, lead generation, and other matters. The Company provided extensive cooperation to the CA AG's Office. Nevertheless, in October 2013, the CA AG filed a civil complaint against the Company and various of its subsidiaries, alleging that the Company had run advertisements for programs it does not offer, used military seals without authorization, committed securities fraud by reporting a nationwide job placement rate that was allegedly false, and violated California's consumer protection statutes by allegedly misrepresenting job placement results of its graduates. The Complaint seeks temporary and permanent injunctive relief, ancillary relief, restitution, civil penalties, disgorgement of profits and compensation, damages, costs and attorneys' fees, including costs of the investigation, and such other relief as the court may order. The Company intends to vigorously defend itself against these allegations.

In January 2013, the Company received a request from the Wisconsin Department of Justice (the WI AG's Office) for information and documents regarding the Company's Milwaukee, WI campus that has been taught out. The request seeks records regarding the Company's students enrolled at the Milwaukee campus since August 2009, including the enrollment process and outcomes achieved by the students, documents related to employers, externships, placement, completion, graduation, loans, marketing, advertisements, communications with state regulators and accrediting agencies, employees during the period, and other matters. The Company is providing reasonable cooperation to the WI AG's Office.

In June 2013, the Company received correspondence and subpoenas from the Securities and Exchange Commission (SEC) indicating that the SEC is conducting an investigation of the Company. The SEC has requested the production of documents and communications that, among other things, relate to student information in the areas of recruitment, attendance, completion, placement, defaults on federal loans and on alternative loans, as well as compliance with U.S. Department of Education financial requirements, standards and ratios (including the effect of certain borrowings under the Company's credit facility on the Company's composite score, and 90/10 compliance), and other corporate, operational, financial and accounting matters. The Company is cooperating with the SEC in its investigation.

Table of Contents

On July 8, 2013, the Company received a civil investigative demand from the Minnesota Attorney General's Office (the "MN AG") seeking information on potential issues related to financial aid, admissions, students and other areas. The Company understands the MN AG is conducting inquiries into several other private sector colleges as well. The Company has obtained protection of its confidential and sensitive business information and is cooperating with the MN AG's reasonable requests for information.

In January 2014, the Company was notified by the Iowa Attorney General's office that it is leading an investigation by thirteen states (Arkansas, Arizona, Connecticut, Idaho, Iowa, Kentucky, Missouri, Nebraska, North Carolina, Oregon, Tennessee, Washington and Pennsylvania) into the Company's business practices. The Company has received Civil Investigative Demands (the "Multistate CIDs") from most of those states that are substantially similar. The Iowa Attorney General's office indicated that it will be the primary point of contact with the Company on behalf of all of the states involved in the investigation. The Multistate CIDs seek documents and answers to interrogatories related to the students recruited from the various states; organizational information; tuition, loan and scholarship information; lead generation activities; enrollment qualifications for students; complaints; accreditation; completion and placement statistics; graduate certification and licensing results; and student lending activities, among other matters. The Company is aware that several other companies in the for-profit education sector have received civil investigative demands similar to the Multistate CIDs. The Company intends to cooperate with the inquiry.

Evaluation of Possible Outcomes

In addition to the proceedings and other matters described above, the Company is or may become a party to pending or threatened lawsuits related primarily to services currently or formerly performed by the Company. Such cases and claims raise difficult and complex factual and legal issues and are subject to many uncertainties and complexities, including, but not limited to, class action certification, governmental intervention, regulatory or administrative agency involvement, the facts and circumstances of each particular case or claim, the jurisdiction in which each suit is brought, and differences in applicable statutory and common law.

As of December 31, 2013, the Company had established aggregate reserves for all matters, including those disclosed above and for all other matters where the liabilities are probable and losses estimable but for which the Company does not believe the matters are reasonably likely to have a material impact on the results of operations or financial condition of the Company, which are, collectively, immaterial to the Company's financial position. The Company regularly evaluates the reasonableness of its accruals and makes any adjustments considered necessary. Due to the uncertainty of the outcome of litigation and claims, the Company is unable to make a reasonable estimate of the upper end of the range of potential liability for these matters. Upon resolution of any pending legal matters, the Company may incur charges in excess of presently established reserves. While any such charge could have a material adverse impact on the Company's results of operations and cash flows during the period in which it is recorded or paid, management does not believe that any such charge would have a material adverse effect on the Company's financial position or liquidity.

Note 10 Business Acquisitions and Dispositions

Acquisition

Effective July 31, 2012, the Company, through a wholly-owned subsidiary, purchased substantially all of the capital stock of QuickStart pursuant to a Stock Purchase Agreement for \$11.6 million, net of \$3.3 million of cash acquired. The QuickStart acquisition yielded \$7.7 million

Edgar Filing: CORINTHIAN COLLEGES INC - Form 10-Q

of goodwill and \$7.6 million of identifiable intangibles. The identifiable intangibles acquired include trade names of \$3.8 million, student relationships of \$3.6 million, and non-compete contracts of \$0.2 million which will be amortized over their estimated useful lives.

QuickStart is a corporate training company that provides short-term instruction to IT professionals on Microsoft, Cisco and other software. QuickStart currently operates through eight learning centers in California, Oregon and Washington, and also offers training via online instruction. Its results are included in the Consolidated Financial Statements from the date of acquisition and do not materially impact the Consolidated Financial Statements. We have adopted QuickStart's courses into certain of our existing colleges to provide additional sources of non-Title IV revenue to assist in compliance with ED's 90/10 rule.

Disposition

During the third quarter of fiscal 2013, the Company completed the sale of the four Everest schools located in San Francisco, CA, San Jose, CA, Hayward, CA, and Los Angeles, CA to BioHealth College, Inc. The Company paid \$2.3 million which consists of negative purchase price of \$1.5 million and negative working capital of \$0.8 million.

Note 11 Income Taxes

The Company employs a more-likely-than-not threshold for financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return.

Table of Contents

The Company has classified uncertain tax positions as non-current income tax liabilities unless expected to be paid in one year. The Company also reports income tax-related interest expense in income tax expense in its Consolidated Statement of Operations. Penalties and tax-related interest expense are reported as a component of income tax expense. As of December 31, 2013 and June 30, 2013, the total amount of accrued income tax-related interest and penalties included in the Consolidated Statement of Financial Position are not material.

As of December 31, 2013 and June 30, 2013, the total amount of unrecognized tax benefits was \$2.0 million and \$2.2 million, respectively. As of December 31, 2013 and June 30, 2013, the total amount of unrecognized tax benefits that would affect the effective tax rate, if recognized, is \$2.0 million and \$2.2 million, respectively. The Company does not presently anticipate settlement of any uncertain tax positions matters within the next twelve months.

The Company's effective tax rate was a provision of 40.3% and a benefit of 41.2% for the three and six months ended December 31, 2013, compared to a provision of 38.3% and 38.4% for the three and six months ended December 31, 2012, respectively.

Note 12 New Accounting Pronouncements

There have been no other new accounting pronouncements that are expected to have had a significant impact on the Company's consolidated financial statements or notes thereto.

Note 13 Subsequent Events

The Company has evaluated material transactions and events as of the filing date. No other events have occurred that require reporting in this Form 10-Q, except as disclosed in Note 9, Commitments and Contingencies and as described below.

During the second and third quarters of fiscal 2014, the Company has been negotiating with ASFG to restructure the student lending arrangement. However, the Company has been unable to reach agreement on terms acceptable to both parties, and in January 2014 ASFG indicated that it intends to cease funding new loans for students under the current program. The Company is beginning to solicit other prospective lenders through a request for proposal process. ASFG and at least two other potential lenders have expressed interest in receiving the request for proposal. Until a new arrangement is reached with a third-party lender, the Company intends to reinstitute the Company-financed Genesis loan program as described above. While the Company is in the process of structuring a new lending arrangement with a third party, the Company expects cash flows from operating activities to be approximately \$4 million to \$8 million less per month than cash flows would have been under the ASFG lending arrangement.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Edgar Filing: CORINTHIAN COLLEGES INC - Form 10-Q

This Quarterly Report on Form 10-Q contains statements that may constitute forward-looking statements as defined by the U.S. Private Securities Litigation Reform Act of 1995. Such forward-looking statements can be identified by the use of forward-looking terminology such as believes, estimates, anticipates, continues, contemplates, expects, may, will, could, should or would, or the negatives thereof. These statements are based on the intent, belief or expectation of the Company as of the date of this Quarterly Report. Any such forward-looking statements are not guarantees of future performance and may involve risks and uncertainties that are outside the control of the Company. Results may differ materially from the forward-looking statements contained herein as a result of many factors, including the following: risks associated with variability in the expense and effectiveness of the Company's advertising and promotional efforts; unfavorable changes in the cost or availability of alternative loans for our students; the uncertain future impact of the new student information system; increased competition; the Company's effectiveness in its regulatory compliance efforts; the outcome of pending litigation against the Company; the outcome of ongoing reviews and inquiries by accrediting, state and federal agencies; general labor market conditions; general credit market conditions and lenders' willingness or potential unwillingness to make loans to our students; and other factors, including those discussed under the headings entitled Governmental Regulation and Financial Aid and Risk Factors in the Company's Annual Report on Form 10-K, the section titled Risk Factors in this Report on Form 10-Q, and other documents periodically filed with the Securities and Exchange Commission. The Company expressly disclaims any obligation to release publicly any updates or revisions to any forward-looking statement contained herein to reflect any change in the Company's expectations with regard thereto or any change in events, conditions or circumstances on which any such statement is based. The following discussion of the Company's results of operations and financial condition should be read in conjunction with the interim unaudited condensed financial statements of the Company and the notes thereto included herein and in conjunction with the information contained in the Annual Report on Form 10-K. You should keep in mind the following points as you read this Report on Form 10-Q: (i) the terms we, us, our and the Company refer to Corinthian Colleges, Inc. and its subsidiaries; (ii) the terms school, college, campus, or university refer to a single location or any school; (iii) the term institution means a main campus and its additional locations, as such are defined under the regulations of the U.S. Department of Education, which we sometimes refer to herein as ED; and ED assigns each institution an identification number known as an OPEID, or Office of Postsecondary Education Identification number, and the additional locations associated with the institution are included under the institution's OPEID. We use the terms institution and OPEID interchangeably.

Critical Accounting Policies and Estimates

Our discussion and analysis of our financial condition and results of operations are based upon our condensed consolidated financial statements, which have been prepared in accordance with U.S. generally accepted accounting principles. The preparation of these financial statements requires us to make estimates and judgments that affect the reported amounts on those financial statements. On an on-going basis, we evaluate our estimates, including, but not limited to, those related to our allowance for doubtful accounts, intangible assets, deferred taxes, contingencies and stock-based compensation. We base our estimates on historical experience and on various other assumptions that we believe to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different conditions or if our assumptions change.

Table of Contents

Our critical accounting estimates are those which we believe require our most significant judgments about the effect of matters that are inherently uncertain. A discussion of our critical accounting estimates is as follows:

Allowance for Doubtful Accounts. We maintain an allowance for doubtful accounts for estimated losses resulting from the inability, failure or refusal of our students to make required payments. We determine the adequacy of this allowance by regularly reviewing the accounts and notes receivable agings and applying various expected loss percentages to student accounts and notes receivable categories based upon historical bad debt experience and consideration of the current economic environment. We generally write off accounts receivable balances deemed uncollectible as they are sent to collection agencies. We offer a variety of payment plans to help students pay that portion of their education expense not covered by financial aid programs. These balances are unsecured and not guaranteed. We believe our reserves are adequate; however, losses related to unpaid student balances could exceed the amounts we have reserved for bad debts. The effect of an increase in our accounts receivable allowance of 3% of our outstanding receivables from 24.0% to 27.0% or \$18.4 million to \$20.7 million would result in a increase in pre-tax loss of \$2.3 million for the quarter ended December 31, 2013. The effect of an increase in our student notes receivable allowance of 3% of our outstanding earned notes receivable from 16.9% to 19.9% or \$18.7 million to \$22.0 million would result in an increase in pre-tax of \$3.3 million for the quarter ended December 31, 2013.

Many of our students in the U.S. participate in federal student loan programs. The federal student loans are authorized by the Higher Education Act (HEA) of 1965. The federal loans are not guaranteed by us, and cannot become an obligation of ours. Accordingly, we do not record an obligation to repay any of the federal loans that are not repaid by our former students and we do not record either a contingent obligation or an allowance for future obligations as a result of student defaults of federal student loans.

However, if an institution's former students' default rate on federal loans (the Cohort Default Rate) equals or exceeds applicable thresholds for three consecutive years, the institution may lose participation eligibility in the federal loan program and its students would be denied access to the federal loan program. Our institutions' Cohort Default Rates act as a gatekeeper to their eligibility to participate in the federal student financial aid programs. We have no obligation to repay any of the federal loans that our former students default upon, even if the Cohort Default Rates of our students exceed permitted levels.

Insurance/Self-Insurance. We use a combination of insurance and self-insurance for a number of risks including claims related to employee health care, workers' compensation, general liability, and business interruption. Liabilities associated with these risks are estimated based on, among other things, historical claims experience, severity factors and other actuarial assumptions. The Company's loss exposure related to self-insurance is limited by stop loss coverage. Our expected loss accruals are based on estimates, and while we believe the amounts accrued are adequate, the ultimate loss may differ from the amounts provided.

Goodwill and Intangible Assets. We have significant goodwill and other intangible assets. Goodwill represents the excess of the cost over the fair market value of net assets acquired, including identified intangible assets. We consider a number of factors, including valuations and appraisals from independent valuation firms, in determining the amounts that are assignable to other intangible assets, such as curriculum, accreditation, and trade names. We, however, are ultimately responsible for the valuations. The fair value of identified intangible assets is derived using accepted valuation methodologies, including cost, market, and income approaches, as appropriate, following consultations with valuation firms and the requirements set forth by the Uniform Standards of Professional Appraisal Practice.

We do not amortize goodwill, accreditation, or trade names as these assets meet the indefinite life criteria within the accounting standards. Curricula are amortized over their useful lives ranging generally from five to fifteen years and the amortization is included in general and administrative expenses in the accompanying Consolidated Statements of Operations.

Goodwill is tested annually for impairment during the fourth quarter or earlier in the year upon the occurrence of certain events or substantive changes in circumstances that indicate goodwill is more likely than not to be impaired. The testing of goodwill for impairment is required to be performed at the level referred to as the reporting unit. A reporting unit is either the operating segment level or one level below, which is referred to as a component. We perform the goodwill impairment test one level below the operating segment level.

We determine the fair value of our reporting units using an equal weighting of an income approach, based on discounted cash flow (DCF), and a market-based approach. The DCF incorporates our cash flow projections and a terminal value. This amount is then discounted using a weighted average cost of capital (WACC) which considered our costs of debt and equity. We then reconcile the calculated fair value of our reporting units to our market capitalization, including a reasonable premium, as another consideration in assessing fair value.

Table of Contents

In establishing the WACC, consideration is given to specific regulatory risks related to each reporting unit, including the impact of our decision with respect to enrolling ability to benefit students. Our cash flow projections incorporate our best estimate of potential future changes related to gainful employment. However, further negative developments in the regulatory environment could impact future assessments and result in impairments of goodwill and other indefinite lived intangible assets. In addition, impairment assessments involve significant judgments related to future revenues and earnings. Although we believe we have made reasonable and supportable estimates in connection with our impairment analyses, changes in strategy or market conditions could significantly impact these judgments and result in future impairments.

Indefinite-lived intangible assets are tested annually or more frequently if circumstances indicate potential impairment, by comparing their fair values to their carrying amounts. To the extent the fair value of an intangible asset is less than its carrying amount, an impairment charge is recorded in the consolidated statements of operations. When testing for impairment, management calculates the present value of its estimates of the future cash flows expected to be received from the assets tested and compares this result to the carrying value of the assets tested. If the resulting amount was below the carrying value of the related assets, we would consider the assets to be impaired and take a charge to write down those assets to fair value.

At December 31, 2013, we considered if there were indicators of impairment that would require an interim impairment test for goodwill and other non-amortizable intangible assets at the date and concluded that no such test was necessary. We will perform our required annual impairment test for goodwill and other non-amortizable intangible assets as of June 30, 2014.

At December 31, 2013, goodwill of \$197.9 million relates to the Heald reporting unit, which was acquired in January 2010. Additionally, during the first quarter of 2013 we acquired QuickStart which resulted in \$7.7 million of goodwill. Since the acquisition, of Heald it has continued to meet or exceed all operating projections, including but not limited to revenues and cash flow targets. The annual impairment test of Heald's goodwill as of June 30, 2013 did not result in an impairment charge. However, impairment assessments involve significant judgments related to future revenues and earnings. For Heald, at June 30, 2013 we assumed a WACC of 12.1%, revenue growth rates ranging from (3.0%) to 3.4% for fiscal 2014 to 2016 and a terminal growth rate of 4%, which resulted in fair value exceeding carrying value by approximately 12.3%. These assumptions reflect the lower risk of Heald relative to the Everest schools resulting from less historic exposure to ATB students and to regulatory uncertainty. Although we believe the estimates made are reasonable and supportable in connection with the impairment analyses, changes in strategy or market conditions could significantly impact these judgments and result in future impairments.

Accreditation is required for an institution to be eligible to participate in the federal student financial aid programs. The process of obtaining accreditation and access to Title IV funds is a barrier to entry for the industry. The process of applying for accreditation is a time intensive and expensive process, whereby an institution is required to operate without eligibility to Title IV funds for several years.

We used the With and Without Method in valuing accreditation both upon acquisition and in the performance of our impairment analysis, which estimates the fair value of an asset as the present value of differential cash flows between two scenarios. As it was applied to the fair valuation of accreditation, the with component reflects the present value of the as is cash flows, while the without component of the analysis assumes the initial grant of accreditation, and the hypothetical scaling of operations to the as is state.

For accreditation, at June 30, 2013, the current as is scenario derives value from cash flows projected from fiscal 2014 to fiscal 2019, with compound annual growth rates ranging from 2.4% to 6.0% with discount rates ranging from 14.3% to 34.3%. After the estimated future cash flows for the as is and without scenarios were determined, management calculated their respective present values and then subtracted the present value of the without scenario from the present value of the as is scenario to obtain the estimated fair value of accreditation. The significant assumptions for the without scenario include estimated compound annual growth rates ranging from 55.1% to 83.6% with discount rates ranging

Edgar Filing: CORINTHIAN COLLEGES INC - Form 10-Q

from 14.3% to 34.3%. Using this analysis, at June 30, 2013 the fair value of accreditation exceeded book value by a range of 37.2% to 4,122%.

We used the relief from royalty method to estimate the fair value of trade names. Under the relief from royalty method, estimated royalty rates were selected and applied to the revenue stream generated by trade names in order to estimate the potential value of the asset, assuming that trade names would be licensed to a third-party. For Heald, at June 30, 2013, we assume a royalty rate of 3.0% based upon profit split analysis and comparable licensing transactions, a discount rate of 14.3%, a tax rate of 39%, and a terminal growth rate value of 4.0%. For WyoTech, we assume a royalty rate of 2.0% based upon comparable licensing transactions, a discount rate of 21.8%, a tax rate of 39% and a terminal growth rate value of 1.5%.

Table of Contents

The determination of whether or not intangible assets are impaired involves significant judgment. This judgment includes estimates of student population, program mix, and pricing changes which could be affected by future regulations, or compliance with regulatory and accreditation standards. Although we believe our goodwill and intangible assets are fairly stated, changes in strategy or market conditions could significantly impact these judgments and result in future impairments. Should our stock price remain depressed or decline further, we could incur additional impairment charges to write-down all or a portion of its goodwill and other intangible assets. Additionally, the fair value measure of accounting for financial instruments established a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value. Level 3 is defined as unobservable inputs in which little or no market data exists, therefore requiring an entity to develop its own assumptions. The implied fair value of goodwill was determined using Level 3 inputs included in our discounted cash flow valuation method.

Deferred Taxes. We currently have deferred income tax assets which are subject to periodic recoverability assessments. Valuation allowances are established, when necessary, to reduce deferred tax assets to the amount that more likely than not will be realized. Realization of our deferred income tax assets is principally dependent upon achievement of projected future taxable income offset by deferred income tax liabilities. We evaluate the realizability of our deferred income tax assets annually. In addition, we review our income tax filing positions quarterly and update our tax contingency reserves as necessary.

Assets and liabilities held for sale. We estimate the fair value of certain assets and liabilities associated with schools that are held for sale. The valuation of these assets and liabilities involves subjective judgment by management on the timing and amount of proceeds or payments. These estimates had an effect on the amount of impairment losses recognized. We develop these assumptions based on past experience and by evaluating the circumstances surrounding each situation and location. These estimates are subject to change and thus any variation to the estimates could influence the total loss on the sale of schools.

Contingencies. In the ordinary conduct of the business, we are subject to occasional lawsuits, investigations and claims, including, but not limited to, claims involving students and graduates, routine employment matters and investigations by regulatory authorities. When we are aware of a claim or potential claim, we assess the likelihood of any loss or exposure. If it is probable that a loss will result and the amount of the loss can be reasonably estimated, we record a liability for the loss. If the loss is not probable or the amount of the loss cannot be reasonably estimated, we disclose the nature of the specific claim if the likelihood of a potential loss is reasonably possible and the amount involved is material. There can be no assurance that the ultimate outcome of any of the lawsuits, investigations or claims pending against us will not have a material adverse effect on our financial condition or results of operations.

Stock-based compensation. Stock-based compensation cost for our equity instruments exchanged for employee and director services is measured at the date of grant, based on the calculated fair value of the grant and is recognized as an expense on a straight-line basis over the period of time that the grantee must provide services to us before the stock-based compensation is fully vested. The vesting period is generally the period set forth in the agreement granting the stock-based compensation.

Results of Operations

Comparisons of results of operations between the three and six months ended December 31, 2013 and December 31, 2012.

The following table summarizes our operating results as a percentage of net revenue for the periods indicated.

Edgar Filing: CORINTHIAN COLLEGES INC - Form 10-Q

	Three Months Ended December 31,		Six Months Ended December 31,	
	2013	2012	2013	2012
Statement of Operations Data:				
Net revenues	100.0%	100.0%	100.0%	100.0%

Net income (loss)	0.1%	%	(2.0)%	0.2%

Table of Contents

Three Months Ended December 31, 2013 Compared to Three Months Ended December 31, 2012

Net Revenues. Net revenues decreased \$36.2 million, or 8.9%, from \$406.1 million in the second quarter of fiscal 2013 to \$369.9 million in the second quarter of fiscal 2014. The decrease was due to an approximate 10.8% decrease in average student population and a 1.9% increase in average revenue per student during the period. The decline in average student population was largely due to a decline in our exclusively online population and a reduction in ATB students. At December 31, 2013, student population was 77,584 compared with 87,250 at December 31, 2012, a decrease of 11.1%. Total student starts decreased 14.4% to 19,760 for the second quarter of fiscal 2014 when compared to the second quarter of last year.

Educational Services. Educational services expenses include direct operating expenses of the schools consisting primarily of payroll and payroll related expenses, rents, occupancy costs, supply expenses, bad debt expense and other educational related expenses. Educational services expenses decreased \$24.1 million, or 9.8%, from \$246.0 million in the second quarter of fiscal 2013 to \$221.9 million in the second quarter of fiscal 2014. The decrease was primarily due to lower costs in compensation, bad debt, consumables, and supplies. As a percentage of net revenues, educational services expenses decreased from 60.6% of revenues in the second quarter of fiscal 2013 to 59.9% of revenues in the second quarter of fiscal 2014. The decrease in costs as a percentage of net revenues was a result of lower bad debt and compensation, partially offset by a lower utilization of our facilities in the second quarter of fiscal 2014 when compared to the second quarter of last year. Bad debt expense amounted to \$13.2 million or 3.6% of net revenues for the second quarter of fiscal 2014 compared to \$17.1 million or 4.2% of net revenues for the second quarter of fiscal 2013.

General and Administrative. General and administrative expenses include corporate compensation expenses, headquarters office rents and occupancy expenses, professional fees and other support related expenses. General and administrative expenses decreased \$8.1 million, or 19.0%, from \$42.3 million in the second quarter of fiscal 2013 to \$34.2 million in the second quarter of fiscal 2014. As a percentage of net revenues, general and administrative expenses decreased from 10.4% of net revenues in the second quarter of fiscal 2013 to 9.3% in the second quarter of fiscal 2014. The decrease is primarily attributable to continued cost saving measures.

Marketing and Admissions. Marketing and admissions expenses consist primarily of direct-response and other advertising expenses, payroll and payroll related expenses, promotional materials and other related marketing costs. Marketing and admissions expenses decreased \$0.3 million, or 0.3%, from \$100.0 million in the second quarter of fiscal 2013 to \$99.7 million in the second quarter of fiscal 2014. As a percentage of net revenues, marketing and admissions expenses increased from 24.6% of revenues in the second quarter of fiscal 2013 to 27.0% of revenues in the second quarter of fiscal 2014. The increase as a percentage of net revenue is primarily attributable to incremental costs associated with bringing lead management services in-house and lower conversion rates. The cost per start increased \$714 or 16.5% from \$4,332 in the second quarter of fiscal 2013 to \$5,046 in the second quarter of fiscal 2014.

Impairment and Severance Charges. During the second quarter of 2014 and 2013 we incurred severance charges of \$1.9 million and \$0 million, respectively.

Provision (Benefit) for Income Taxes. The effective income tax rate in the second quarter of fiscal 2014 was 40.3% as compared to 38.3% in the second quarter of fiscal 2013.

Edgar Filing: CORINTHIAN COLLEGES INC - Form 10-Q

Six Months Ended December 31, 2013 Compared to Six Months Ended December 31, 2012

Net Revenues. Net revenues decreased \$73.2 million, or 9.1%, from \$808.1 million in the first six months of fiscal 2013 to \$734.9 million in the first six months of fiscal 2014. The decrease was due to an approximate 10.8% decrease in average student population, partially offset by an approximate 1.8% increase in average revenue per student during the period. The decline in average student population was largely due to a decline in our exclusively online population and a reduction in ATB students. At December 31, 2013, student population was 77,584 compared with 87,250 at December 31, 2012, a decrease of 11.1%. Total student starts decreased 10.8% to 48,311 for the first six months of fiscal 2014 when compared to the first six months of last year.

Educational Services. Educational services expenses include direct operating expenses of the schools consisting primarily of payroll and payroll related expenses, rents, occupancy costs, supply expenses, bad debt expense and other educational related expenses. Educational services expenses decreased \$40.4 million, or 8.3%, from \$489.4 million in the first six months of fiscal 2013 to \$449.0 million in the first six months of fiscal 2014. The decrease was primarily due to lower costs in compensation, bad debt, consumables, and supplies. As a percentage of net revenues, educational services expenses increased from 60.6% of revenues in the first six months of fiscal 2013 to 61.1% of revenues in the first six months of fiscal 2014. The increase in costs as a percentage of net revenues was a result of lower net revenues which resulted in a lower level of utilization of compensation and facilities, partially offset by lower bad debt expense in the first six months of fiscal 2014 when compared to the first six months of last year. Bad debt expense amounted to \$31.1 million or 4.2% of net revenues for the first six months of fiscal 2014 compared to \$36.3 million or 4.5% of net revenues for the first six months of fiscal 2013.

Table of Contents

General and Administrative. General and administrative expenses include corporate compensation expenses, headquarters office rents and occupancy expenses, professional fees and other support related expenses. General and administrative expenses decreased \$8.6 million, or 10.1%, from \$85.2 million in the first six months of fiscal 2013 to \$76.6 million in the first six months of fiscal 2014. As a percentage of net revenues, general and administrative expenses decreased slightly from 10.5% of net revenues in the first six months of fiscal 2013 to 10.4% in the first six months of fiscal 2014.

Marketing and Admissions. Marketing and admissions expenses consist primarily of direct-response and other advertising expenses, payroll and payroll related expenses, promotional materials and other related marketing costs. Marketing and admissions expenses increased \$3.2 million, or 1.6%, from \$197.7 million in the first six months of fiscal 2013 to \$200.9 million in the first six months of fiscal 2014. As a percentage of net revenues, marketing and admissions expenses increased from 24.5% of revenues in the first six months of fiscal 2013 to 27.3% of revenues in the first six months of fiscal 2014. The increase as a percentage of net revenue is primarily attributable to incremental costs associated with bringing lead management services in-house and lower conversion rates. The cost per start increased \$507 or 13.9% from \$3,652 in the first six months of fiscal 2013 to \$4,159 in the first six months of fiscal 2014.

Impairment and Severance Charges. During the first six months of 2014 and 2013 we incurred severance charges of \$5.5 million and \$0.8 million, respectively.

Provision (Benefit) for Income Taxes. The effective income tax rate in the first six months of fiscal 2014 was a benefit of 41.2% as compared to a provision of 38.4% in the first six months of fiscal 2013.

Seasonality and Other Factors Affecting Quarterly Results

Our net revenues normally fluctuate as a result of seasonal variations in our business. Student population varies as a result of new student enrollments, graduations, and student attrition. Historically, our schools have had lower revenues in the first fiscal quarter than in the remainder of the fiscal year. Our expenses, however, do not vary as significantly as student population and revenues. We expect quarterly fluctuations in operating results to continue as a result of seasonal enrollment patterns. More importantly, quarterly results may be impacted based on the timing and extent of new acquisitions, new branch openings, relocations and remodels, new program adoptions and high school enrollments. The operating results for any quarter are not necessarily indicative of the results for any future period.

Liquidity and Capital Resources

On May 17, 2012, we entered into a Fourth Amended and Restated Credit Agreement (the "Credit Facility") with Bank of America, N.A., which replaces the credit facility that was set to expire in October 2012. The Credit Facility, which expires July 1, 2015, provides aggregate commitments including borrowings and letters of credit of up to \$145 million, of which \$135 million is a domestic facility, and \$10 million is a Canadian facility. The Credit Facility has been established to provide available funds for acquisitions, to fund general corporate purposes, and to provide for letters of credit issuances of up to \$50 million for domestic letters of credit and \$7.5 million for Canadian letters of credit. The Credit Facility is secured by guaranties from the Company and each of its subsidiaries, as well as a first priority lien on substantially all of the tangible and intangible assets of the Company and its subsidiaries, including real property, and the stock of the Company's operating subsidiaries.

Edgar Filing: CORINTHIAN COLLEGES INC - Form 10-Q

The following table summarizes the terms of the Credit Facility and its status as of December 31, 2013:

Borrowing limit	\$145 million
Interest Rate	At the Company's discretion, the base (prime) rate plus 1.50% - 2.00% or a LIBOR rate plus 2.50% - 3.00%, depending upon the Company's Consolidated Leverage Ratio.
Maturity	July 1, 2015
Outstanding borrowings	\$61.9 million.
Weighted Average Interest Rate	3.2%
Outstanding letters of credit	\$23.9 million domestic, \$4.3 million Canada.

Table of Contents

The Credit Facility contains customary affirmative and negative covenants, including financial covenants requiring the maintenance of consolidated net worth, fixed charge coverage ratios, leverage ratios, and the U.S. Department of Education (ED) financial responsibility composite score. As of December 31, 2013, we were in compliance with all of the covenants.

Working capital amounted to \$(63.2) million as of December 31, 2013 and \$37.4 million as of June 30, 2013 and the current ratio was 0.8:1 and 1.1:1, respectively. The decrease in working capital compared to June 30, 2013 is primarily due to the net repayment of cash borrowed, partially offset by the timing of cash receipts and payments.

Cash flows provided by operating activities amounted to \$74.0 million in the first six months of fiscal 2014 compared to \$102.1 million provided by operating activities in the same period of fiscal 2013. The decrease in cash provided by operating activities for the first six months of fiscal 2014 compared to the first six months of fiscal 2013 was primarily due to a decrease in income before depreciation and amortization of \$21 million and a decrease in cash provided by working capital of \$7 million. Included within cash flows from operating activities are \$6.8 million and \$7.9 million of net cash flows used in operating activities related to discontinued operations for the six months ending December 31, 2013 and December 31, 2012, respectively.

Cash flows used by investing activities of \$25.8 million were comprised solely of capital expenditures in the first six months of fiscal 2014. During the same period of fiscal 2013, cash flows used by investing activities were \$29.8 million which were comprised of net cash paid to acquire QuickStart of \$11.6 million and capital expenditures of \$18.1 million. The capital expenditures were primarily related to remodels and enlargements of existing campuses and to fund information systems expenditures. We expect capital expenditures to be approximately \$40 million for fiscal 2014.

Cash flows used in financing activities in the first six months of fiscal 2014 primarily related to net payments on debt and amounted to approximately \$61.9 million compared to \$101.4 million for the same period of fiscal 2013, respectively.

Student Loan Program

Historically, we had developed several third party loan programs with origination and servicing providers such as Sallie Mae for students with low credit scores who otherwise would not qualify for loans. These loan programs required that we pay a discount fee to the origination and servicing providers of the loans as a reserve against future defaults on these loans. We have historically referred to these types of loans as discount loans, since we incurred a portion of the default risk related to these student loans by taking a discount on the disbursement from the third party. By accepting a reduced payment for these discounted loans from the servicing providers, we were not at risk for the amounts agreed to by the students and the service providers and the Company is not entitled to any proceeds collected by the service providers in excess of the reduced payment. Therefore we had recorded this discount as a reduction to revenue.

In fiscal 2008, we were informed by Sallie Mae and two other origination and servicing providers that they would no longer make private loans available for students. In the face of this change in policy, we created a new lending program in the fourth quarter of fiscal 2008 with a different origination and servicing provider, Genesis Lending Services, Inc. (Genesis). Under this Genesis program we paid a discount to the origination and servicing provider for any loans purchased by Genesis and recorded the discount as a reduction to revenue. Under this program we then had both the right and an obligation to acquire the related loan, except in certain limited circumstances where Genesis does not comply with the

Edgar Filing: CORINTHIAN COLLEGES INC - Form 10-Q

terms of the agreement. From the initiation of the Genesis program to its cessation in fiscal 2012, we have acquired all of the loans that were originated. Therefore, we are exposed to any credit defaults by students but retains all amounts collected from the students under this program. There have been no loans funded under the Genesis discount loan program since November 2011.

On June 29, 2011, we entered into a loan origination agreement, as amended, with ASFG, LLC (ASFG), which has subsequently changed its name to Campus Student Funding LLC, for the purpose of creating a new private education discount loan program for students. Under the loan origination agreement, ASFG had indicated it intended to purchase up to \$775 million of new student loans through June 2015. Under this arrangement, an unaffiliated bank makes private education loans to eligible students and, subsequently, sell those loans to ASFG or its designee. Total losses associated with the program recourse, inclusive of the discount paid to ASFG, are estimated to be approximately 50% of the amount funded. During the second quarter of fiscal 2012, we completed the transition from the Genesis discount loan program to the ASFG discount loan program. Loans funded under the ASFG program, net of estimated refunds, are estimated to have been approximately \$59.3 million and \$110.4 million for the three and six months ended December 31, 2013 and \$61.0 million and \$96.4 million for the three and six months ended December 31, 2012, respectively. Loans funded to date under the ASFG program, net of estimated refunds, have been approximately \$428.4 million.

The ASFG loan program has characteristics similar to the previous third party discount loan programs. As with the previous discount third party loan programs, under the ASFG program we pay an upfront discount to ASFG for any notes purchased by ASFG. We record the upfront discount as a deferred charge and amortize the charge as a reduction to revenue ratably over the program length as the related revenue is recognized. However, unlike the previous third party discount loan programs, pursuant to a backup loan purchase agreement entered into in connection with the loan origination agreement, we have agreed to purchase any of the student notes from ASFG on which no payment has been made for over 90 days. We have applied historical loan performance experience to estimate and record this loan recourse obligation on a gross basis by recording both a deferred charge and liability equal to the estimated risk upon funding. The recourse obligation is in addition to the discount paid to ASFG and is based on the ultimate anticipated loan performance under the ASFG loan program. The deferred charge is recorded within prepaid expenses and is recognized as a reduction to revenue over the period of instruction. The total deferred charge related to unrecognized discount expense is \$33.5 million and \$29.6 million as of December 31, 2013 and June 30, 2013, respectively.

Table of Contents

The recourse liability related to loans funded under the ASFG loan program is established at the inception of the guarantee. Upon recourse we will purchase any loans at the amount advanced by ASFG net of any discount paid to ASFG, less any principal payments collected by ASFG. The purchase will be recorded as a decrease to cash, an increase to student notes receivable, and an adjustment to the recourse obligation. The net recourse obligation consists of a net short-term liability and a net long-term receivable. The receivable, pursuant to a tuition loan program agreement, will be paid to us as ASFG receives student payments in excess of the initial principal balance, less discount paid. The receivable and recourse obligation are reported as a net short-term and net long-term amount to reflect the legal right of offset. The net short-term recourse obligation related to the loans funded under the ASFG program at December 31, 2013 and June 30, 2013 was a net liability of \$42.6 million and \$31.1 million, respectively, net of recourse paid. The net short-term recourse obligation at December 31, 2013 and June 30, 2013 is recorded within accrued expenses within the Consolidated Balance Sheets. The net long-term recourse receivable related to loans funded under the ASFG program at December 31, 2013 and June 30, 2013 was a net asset of \$72.7 million and \$44.6 million, respectively. The net long-term recourse receivable is recorded within deposits and other assets within the Consolidated Balance Sheets. We estimate loan performance based upon actual repayment experience with similar private student loan programs. Under this backup loan purchase agreement, our maximum obligation (including the initial discount payment) could be equal to the face amount of loans originated under this loan program, although we expect the ultimate risk under this loan program to be substantially similar to the risks faced under the Genesis discount loan program.

During the second and third quarters of fiscal 2014, we have been negotiating with ASFG to restructure our student lending arrangement. However, we have been unable to reach agreement on terms acceptable to both ASFG and us, and, in January 2014 ASFG indicated that it intends to cease funding new loans for our students under the current program. We are beginning to solicit other prospective lenders through a request for proposal process. ASFG and at least two other potential lenders have expressed interest in receiving the request for proposal. Until we reach a new arrangement with a third-party lender, we intend to reinstitute our Company-financed Genesis loan program as described above. While we are in the process of structuring a new lending arrangement with a third party, we expect cash flows from operating activities to be approximately \$4 million to \$8 million less per month than cash flows would have been under the ASFG lending arrangement.

Sales of Financing Receivables: Recourse Sales

During the first quarter of fiscal 2012, we sold student loans with a face value of \$16.8 million to ASFG, on a recourse basis. The recourse provisions of this sale prevent us from derecognizing the underlying student loans sold. As of December 31, 2013, we received an advance of \$10.1 million related to the sale, which has been recorded as debt on the condensed consolidated balance sheet and presented as proceeds from borrowings under student notes receivable sale within financing activities in the condensed consolidated statement of cash flows. The remaining \$6.7 million of purchase price will be paid to us as ASFG receives student principal payments in excess of the advance. The debt and underlying student loans sold will be derecognized as ASFG receives principal payments. As of December 31, 2013 and June 30, 2013, ASFG had collected \$8.7 million and \$7.9 million, respectively, in principal payments related to this sale and the remaining obligation is approximately \$1.4 million and \$2.1 million, respectively.

During the fourth quarter of fiscal 2012, we sold student loans with a face value of \$25.0 million to ASFG, on a recourse basis. The recourse provisions of this sale prevent us from derecognizing the underlying student loans sold. As of December 31, 2013, we received an advance of \$7.5 million related to the sale, which has been recorded as debt on the condensed consolidated balance sheet and presented as proceeds from borrowings under student notes receivable sale within financing activities in the condensed consolidated statement of cash flows. The remaining \$17.5 million of purchase price will be paid to us as ASFG receives student principal payments in excess of the advance. The debt and underlying student loans sold will be derecognized as ASFG receives principal payments. As of December 31, 2013 and June 30, 2013 ASFG had collected \$7.2 million and \$5.8 million, respectively, in principal payments related to this sale and the remaining obligation is approximately \$0.3 million and \$1.7 million, respectively.

Edgar Filing: CORINTHIAN COLLEGES INC - Form 10-Q

During the first quarter of fiscal 2013, we sold student loans with a face value of \$29.0 million to ASFG, on a recourse basis. The recourse provisions of this sale prevent us from derecognizing the underlying student loans sold. As of December 31, 2013, we received an advance of \$8.7 million related to the sale, which has been recorded as debt on the condensed consolidated balance sheet and presented as proceeds from borrowings under student notes receivable sale within financing activities in the condensed consolidated statement of cash flows. The remaining \$20.3 million of purchase price will be paid to us as ASFG receives student principal payments in excess of the advance. The debt and underlying student loans sold will be derecognized as ASFG receives principal payments. As of December 31, 2013 and June 30, 2013 ASFG had collected \$7.6 million and \$5.5 million, respectively, in principal payments related to this sale and the remaining obligation is approximately \$1.1 million and \$3.2 million, respectively.

Included within the Consolidated Statement of Operations, under the caption Other expense, net for fiscal years ended December 31, 2013, and 2012 is net other expense of \$12.4 million and \$10.8 million, associated with the student notes program, respectively.

Table of Contents

Genesis Program

The net other expense primarily reflects the interest income, loan origination fees, and costs related to servicing loans. We defer and recognize both the loan origination income and direct loan origination costs as an adjustment to the yield over the life of the related loan. All other lending-related costs, including costs related to servicing fees are charged to expense as incurred. Net other expense includes \$0.6 million and \$1.7 million associated with the Genesis notes program, for the three and six months ended December 31, 2013 and \$0.3 million and \$0.6 million, for the three and six months ended December 31, 2012, respectively.

ASFG Program

The net other expense primarily reflects the program structuring fees, management fees, and other fees charged by ASFG. We defer and recognize program structuring and management fees over the program length. All other fees are charged to expense as incurred. For the three and six months ended December 31, 2013, respectively, there was net other expense of \$5.5 million and \$10.7 million associated with the ASFG notes program. For the three and six months ended December 31, 2012, respectively, there was net other expense of \$5.9 million and \$10.5 million associated with the ASFG notes program. Total structuring and management fees paid to ASFG, over the life of the program, as of December 31, 2013 have been \$18.0 million, of which \$7.8 million are deferred as of December 31, 2013. There were no program fees paid to ASFG during the three and six months ended December 31, 2013. Program fees paid to ASFG during the three and six months ended December 31, 2012 are \$0 and \$3.2 million, respectively. Total program fees expected to be incurred over the program length are expected to be approximately \$8 to \$10 million per year in incremental cost above those historically incurred under the Genesis program.

Cash flows associated with loans funded under the ASFG loan program, net of refunds, are recorded as a cash inflow from prepaid tuition within cash flows from operating activities in the amount of \$92.3 million and \$86.7 million for six months ended December 31, 2013, and December 31, 2012, respectively.

Cash flows associated with the ASFG discount fee, net of refunds, are recorded as a cash outflow from prepaid expenses within cash flows from operating activities in the amount of \$45.5 million and \$40.2 for six months ended December 31, 2013, and December 31, 2012, respectively.

Recourse payments to ASFG are recorded as a cash outflow from student notes receivable within cash flows from operating activities. Recourse payments to ASFG have been \$27.7 million and \$17.1 million for the six months ended December 31, 2013 and 2012, respectively.

Net revenues recognized related to the ASFG program have been approximately \$28 million and \$55 million, net of discount expense, for the three and six months ended December 31, 2013, respectively. Net revenues recognized related to the ASFG program have been approximately \$20 million and \$46 million, net of discount expense, for the three and six months ended December 31, 2012, respectively. Net cash flows related to the ASFG program have been a net inflow of \$19.1 million and \$26.2 million for the six months ended December 31, 2013 and 2012, respectively.

Edgar Filing: CORINTHIAN COLLEGES INC - Form 10-Q

We believe that our working capital, cash flow from operations, access to operating leases and borrowings available from our amended credit agreement will provide us with adequate resources for our ongoing operations and planned capital expenditures for the next twelve months.

Update Regarding Regulatory and Accreditation Matters

The HEA requires accrediting agencies recognized by ED to review many aspects of an institution's operations in order to ensure that the education or training offered is of sufficient quality to achieve, for the duration of the accreditation period, the stated objectives of the education or training offered. Two aspects of an institution's operations reviewed by national and programmatic accrediting agencies are the completion and job placement rates of our graduates. Our national accreditors, some specialized programmatic accreditors and some state regulatory agencies require our colleges to achieve minimum retention and placement rates to remain in compliance with their standards.

Accrediting Agency Action – Probation, Show Cause Orders and other Oversight.

Under the HEA, recognized accrediting agencies must conduct regular reviews of the institutions they accredit. In addition to periodic accreditation reviews, institutions undergoing substantive changes, including a change of ownership, may be required to be reviewed by their accrediting agency. Accrediting agencies also monitor institutions' compliance during the term of their

Table of Contents

accreditation. If an accrediting agency believes that an institution may be out of compliance with accrediting standards, including the retention and placement rates discussed above, it may place the institution on probation or a similar warning status or direct the institution to show cause why its accreditation should not be revoked. Probation or show cause orders afford the institution the opportunity to respond before the institution loses accreditation. The institution may demonstrate that the concern is unfounded, that it has taken corrective action to resolve the concern, or that it has implemented an ongoing plan of action which is deemed appropriate to resolve the concern. The accrediting agency may then vacate the probation or show cause order, continue the probation or show cause order or seek additional information through reports required of the institution. If the agency's concerns are not resolved, it may act to withdraw accreditation from the institution. Institutions on probation or under show cause orders remain accredited while they are on probation or under show cause orders. Being on probation, show cause, or reporting status may cause an accreditor to deny an institution permission, or otherwise delay approval, to open and commence instruction at new locations or to add new programs. However, the institutions can continue to enroll new students, and students at the affected institutions remain eligible to receive federal student financial aid.

An accrediting agency may also require the institution to supply it with supplemental reports in order for the agency to monitor one or more specific areas of the institution's performance, typically completion or graduate placement outcomes. This is commonly referred to as being on reporting status. Failure to demonstrate compliance with accrediting standards in any of these instances could result in enhanced scrutiny under a probation or show cause order, and, if not resolved, ultimately a loss of accreditation.

As of December 31, 2013, none of our institutions were on probation or show cause, and twenty two of our colleges were on reporting status to their respective accrediting agencies. The required reports relate primarily to the completion, retention, and/or placement rates of the institutions students. In certain of these cases, the periodic supplemental reports are required only with respect to particular programs at an institution, and not to the institution's overall completion or placement rates. We are working to improve these retention and placement rates in the identified programs at these schools.

If any of our campuses were to lose their accreditation, the Company would continue to generate revenues from continuing students, but would consider teaching out these campuses as they would be significantly competitively disadvantaged compared to other schools where students are eligible to receive federal student financial aid. During any teach-out process, the Company's revenue would decline more rapidly than operating expenses and the Company would expect to incur operating losses at those campuses. The Company could also expect to incur increased bad debt expense if students no longer have access to federal financial aid. Additionally, if the Company were to lose accreditation at one or more of its schools to which it has ascribed value for accreditation as part of purchase accounting, the Company would test the amounts it had allocated to such assets for impairment and would take an impairment charge, if necessary.

ED Actions Program Reviews; Program Participation Agreements; OPEID Mergers and Other Matters

From time to time certain of our institutions have been the subject of program reviews by ED. Program reviews begin with site visits at the relevant locations. ED then prepares a program review report and the institution has the opportunity to respond. After the institution responds, ED issues a final program review determination, which may be appealed. The Company currently has open program reviews at the following stages: (i) Everest College Phoenix (ECP) has received program review reports and provided written responses regarding the site visits ED conducted at ECP in 2008 and 2010, but has not yet received final determinations for the 2008 program review; it received a final determination letter for the 2010 site visit during the quarter ended December 31, 2013 that imposed immaterial refund liabilities related to two students; and (ii) ED has conducted site visits at the Company's campuses in Largo, FL in August 2012, Pompano Beach, FL in September 2012, Renton, WA in September 2012, Salinas, CA in June 2013, Southfield, MI in June 2013, Stockton, CA in July 2013, Long Beach, CA in August 2013, Orlando (North) in August 2013 and Portland, OR in September 2013, but has not yet issued program review reports with respect to any of those site visits. The Company will continue to cooperate with ED in its ongoing reviews.

As previously reported, in April 2010 we received ED's program review report related to the site visit for ECP which occurred in August 2008. The report maintains that ECP failed to make students aware of the total amounts of financial aid for which they were entitled, failed to accurately inform students of the program costs, and delayed disbursements of Title IV funds. The report also contains findings regarding inadequate documentation, verification and availability of records for ED review, and the failure to make certain disbursements. In the report, ED characterizes certain of these findings as misrepresentations by ECP to its students, as a breach of fiduciary duty and as evidencing an intentional evasion of the 90/10 requirements. We disagree with these characterizations and have provided written responses to the program review report in two submissions to ED. We will continue to cooperate with ED in its review.

Table of Contents

ED will review all responses to program review reports and ultimately issue final determination letters setting forth its final findings, as well as the actions it intends to take based on those findings. If ED were to make significant findings of non-compliance against any of the Company's institutions in any final determination letters regarding ongoing program reviews, it could result in the imposition of significant fines, penalties or other liabilities, including, without limitation, an action on the limitation, suspension or termination of the institution's participation in Title IV programs, any of which could have a material adverse effect on the Company's business, results of operations or financial condition.

Significant violations of Title IV Program requirements by us or any of our institutions could be the basis for a proceeding by ED to limit, suspend, or terminate the participation of the affected institution in the Title IV Programs. Generally, such a termination extends for 18 months before the institution may apply for reinstatement of its participation. There is no proceeding pending to fine any of our institutions or to limit, suspend, or terminate any of our institutions' participation in the Title IV Programs, and we have no reason to believe that any such proceeding is contemplated. Any such action that substantially limited our schools' participation in the Title IV Programs could have a material adverse effect on our business, results of operations, cash flows, and financial condition.

In January 2014, the Company received a letter from ED regarding several matters. First, ED approved a long-pending merger of several of the Company's OPEIDs. Accordingly, upon signature of the provisional program participation agreements on behalf of the new merged institution, the Company's Everest University, Orlando (North), FL location will be considered the main for the merged institution, and the following campuses will be considered additional locations and will be included under the same OPEID: Melbourne, FL; Orlando (South), FL; Largo, FL; Lakeland, FL; Jacksonville, FL; Pompano Beach, FL; Merrionette Park, IL; Kansas City, MO; Tampa, FL; Brandon, FL; Orange Park, FL; Miami, FL; Miami (Kendall), FL (including the related online operations for all such campuses). ED is requiring the Company to provide separate calculations of the 90/10 ratio for the predecessor OPEIDs for Tampa, FL and Miami (Kendall), FL (and all their respective former additional locations) for the fiscal year ending June 30, 2014. If either predecessor OPEID fails the 90/10 requirements for two consecutive years, ED will revoke the approval of the applicable campuses as additional locations of the newly-merged OPEID. The letter indicated that the program participation agreements for the merged institution would be provisional.

Additionally, the letter approved new provisional program participation agreements for the following institutions (including their related additional locations and online operations), all of which were in process of recertification: Everest College, San Bernardino, CA; Everest Institute, Pittsburgh, PA; Everest College, Henderson, NV; WyoTech, Fremont, CA; WyoTech, Daytona Beach, FL; Everest Institute, Brighton, MA; Everest Institute, San Antonio, TX; Everest College Phoenix, Phoenix, AZ; and Everest College, Salt Lake City, UT. ED also noted that the provisional program participation agreements for Everest College, Newport News VA and Everest Institute, Cross Lanes, WV had expired, and indicated that it would continue those institutions' participation in the Title IV Programs on a month-to-month basis. It also noted that it had received recertification applications regarding nine institutions (including their related additional locations) whose program participation agreements expire in March 2014, and one institution (including its additional locations) whose program participation agreement expires in September 2015, and is continuing to review the recertification applications.

ED also approved new programs at five institutions that were previously self-certified and had already disbursed financial aid to students. However, ED denied many pending new program approvals for certain of the institutions listed above that were in the process of recertification, and indicated that all Company institutions must now request ED's approval for establishing eligibility of any new locations and programs and wait for ED's decision prior to disbursing any Title IV funds to students attending such new locations and programs. ED indicated that it was denying new program approvals, and requiring pre-approval for new programs and locations, because of ED's conclusions that the Company had admitted to falsifying placement rates and/or grade and attendance records at various institutions and because of ongoing investigations. The Company disputes ED's characterization of the Company's admission of wrongdoing. On the contrary, the Company has identified only isolated instances in the past four years in which Company employees have violated Company policy by incorrectly reporting placement results or altering student attendance records. The Company investigated those matters when it became aware of them, took disciplinary action against the employees involved, and reported the results to applicable regulatory authorities. The Company believes that isolated deviations from policy by a small number of employees do not reflect on the Company as a whole.

ED also requested additional information from the Company about placement results and attendance and grade changes to be able to ascertain that the Company and its institutions have the requisite administrative capability to ensure compliance with Title IV requirements. The Company intends to cooperate with ED in this review.

Table of Contents

Guaranty Agency Program Reviews

Under the now defunct Federal Family Education Loan (FFEL) Program, which has now been entirely replaced with the Federal Direct Loan (FDL) program, nonprofit and state guaranty agencies were established to guarantee student loans made by lenders and perform certain administrative and oversight functions under the FFEL program. Under the FFEL program, ED provided reinsurance to the guaranty agencies. The Health Care and Education Reconciliation Act of 2010 ended the FFEL program effective June 30, 2010, and all federal student loans since July 1, 2010 have been made through the FDL program. Despite the end of the FFEL program, however, guaranty agencies are still involved in guaranteeing the existing FFEL loan portfolios against default and will continue in this role until all FFEL loans are paid.

Guaranty agencies perform occasional program reviews at schools to ensure that schools are meeting all regulatory requirements and guarantor policies in the FFEL program. Fourteen guaranty agency program review site visits were conducted in our institutions during fiscal year 2013 and early fiscal 2014, and twelve program review reports have been issued. The Company is in the process of responding to these reports, including conducting file reviews with respect to findings identified in the reports. No final determinations have been made, and in several cases the Company is contesting the underlying findings. The Company will continue to cooperate with the guaranty agencies in their ongoing reviews.

The guaranty agencies will review our responses to program review reports and ultimately issue final determination letters setting forth their final findings. If the guaranty agencies were to make significant findings of non-compliance against any of the Company's institutions in any final determination letters, it could result in the imposition of liabilities, fines or penalties, which, if large enough, could have a material adverse effect on the Company's results of operations and financial condition.

Item 3. Quantitative and Qualitative Disclosure about Market Risk

We are exposed to the impact of interest rate changes and foreign currency fluctuations. We do not utilize interest rate swaps, forward or option contracts on foreign currencies or commodities, or other types of derivative financial instruments to manage these risks.

Interest Rate Exposure. As of December 31, 2013, our only assets or liabilities subject to risks from interest rate changes are (i) debt under credit facilities in the aggregate amount of \$61.9 million and capital lease obligations of \$10.9 million, and (ii) student notes receivable, net, in the aggregate amount of \$92.0 million. Our capital lease obligations and student notes receivable are all at fixed interest rates. We do not believe we are subject to material risks from reasonably possible near-term changes in market interest rates.

Foreign Currency Exposure. A portion of our operations consists of an investment in a foreign subsidiary whose functional currency is the Canadian dollar (CAD). Our investment in our foreign operations as of December 31, 2013 was a deficit of CAD \$28.2 million which includes borrowings outstanding under the credit facility of CAD \$2.0 million. As a result, the consolidated financial results have been and could continue to be affected by changes in foreign currency exchange rates.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

We carried out under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, an evaluation of the effectiveness of our disclosure controls and procedures, as such term is defined in Exchange Act Rule 13a-15(e), as of the end of the period covered by this report and concluded that those controls and procedures were effective.

Changes in Internal Controls Over Financial Reporting

There were no changes in our internal control over financial reporting during the quarter ended December 31, 2013 that have materially affected or are reasonably likely to materially affect our internal control over financial reporting.

It should be noted that any system of controls, however well designed and operated, can provide only reasonable, and not absolute, assurance that the objectives of the system will be met. In addition, the design of any control system is based in part upon certain assumptions about the likelihood of future events. Because of these and other inherent limitations of control systems, there is only the reasonable assurance that our controls will succeed in achieving their goals under all potential future conditions.

PART II OTHER INFORMATION

Item 1. Legal Proceedings

See Note 9 to the attached condensed consolidated financial statements regarding Commitments and Contingencies.

Item 1A. Risk Factors

In addition to the other information set forth in this report, you should carefully consider the factors discussed in Part I, Item 1A. Risk Factors in our Annual Report on Form 10-K for the fiscal year ended June 30, 2013, which could materially affect our business, financial condition or future results. The risks described in our Annual Report on Form 10-K are not the only risks facing our Company. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial also may materially adversely affect our business, financial condition and/or operating results.

Certain regulatory authorities have initiated investigations into us and other companies in the for-profit education sector that could result in adverse actions, fines, penalties or other censure that may materially and adversely affect our business. This includes the civil complaint filed against us by the California Attorney General in October 2013.

Since October 2010 the Company has been contacted by attorneys general offices in the states of Florida, Massachusetts, Oregon, New York, Wisconsin, Minnesota, California, Illinois, Arkansas, Arizona, Connecticut, Idaho, Iowa, Kentucky, Missouri, Nebraska, North Carolina, Tennessee, Washington and Pennsylvania. Each of those states' attorneys general office has requested from the Company, either through subpoenas, civil investigative demands, or informal requests, extensive document requests regarding our business. The Oregon Attorney General's office initially closed its investigation after nearly a year-long inquiry without taking any enforcement action, but in January 2014 issued a new CID to the Company. In every state but Wisconsin, we understand the attorneys general are conducting broad inquiries into private sector education companies in their respective states, and not solely into the Company.

As disclosed above in Note 9 Commitments and Contingencies, to our Condensed Consolidated Financial Statements (Unaudited), in October 2013, the California Attorney General (CA AG) filed a civil complaint against the Company and various of its subsidiaries, alleging that the Company had run advertisements for programs it does not offer, used military seals without authorization, committed securities fraud by reporting a nationwide job placement rate that was allegedly false, and violated California's consumer protection statutes by allegedly misrepresenting job placement results of its graduates. The complaint seeks temporary and permanent injunctive relief, ancillary relief, restitution, civil penalties, disgorgement of profits and compensation, damages, costs and attorneys' fees, including costs of the investigation, and such other relief as the court may order. We intend to vigorously defend the Company against these allegations, but we cannot predict the ultimate resolution. We expect to continue to incur significant legal costs and other expenses in connection with responding to this action, in addition to the other matters pending against us.

Edgar Filing: CORINTHIAN COLLEGES INC - Form 10-Q

In January 2014, we were notified by the Iowa Attorney General's office that it is leading an investigation by thirteen states (Arkansas, Arizona, Connecticut, Idaho, Iowa, Kentucky, Missouri, Nebraska, North Carolina, Oregon, Tennessee, Washington and Pennsylvania) into the Company's business practices. The Company has received Civil Investigative Demands (CIDs) from most of those states that are substantially similar. The Iowa Attorney General's office indicated that it will be the primary point of contact with the Company on behalf of all of the states involved in the investigation. The CIDs seek documents and answers to interrogatories related to the students recruited from the various states; organizational information; tuition, loan and scholarship information; lead generation activities; enrollment qualifications for students; complaints; accreditation; completion and placement statistics; graduate certification and licensing results; and student lending activities, among other matters. The Company is aware that several other companies in the for-profit education sector have received similar CIDs.

We are continuing to cooperate with the investigations disclosed in this Report on Form 10-Q (including those disclosed in Note 9 Commitments and Contingencies above), but we cannot predict their ultimate resolution. We expect to continue to incur significant legal costs and other expenses in connection with responding to them. We may be required to pay damages or settlement costs in excess of our insurance coverage, if any, related to these matters. Government investigations, including the pending investigations in which we are involved, and any related legal and administrative proceedings, may result in the institution of administrative, injunctive or other proceedings against us and/or our institutions, officers or employees, or the imposition of fines, penalties or suspensions, or other remedies and sanctions. Any such material costs and expenses or injunctive relief could have a material adverse effect on our financial condition and results of operations.

If we fail to demonstrate administrative capability to ED, our business could be materially adversely affected.

ED regulations specify extensive criteria an institution must satisfy to establish that it has the requisite administrative capability to participate in federal student financial aid programs. These criteria require, among other things, that the institution:

- comply with all applicable federal student financial aid regulations;
- have capable and sufficient personnel to administer the federal student financial aid programs;
- have acceptable methods of defining and measuring the satisfactory academic progress of its students;
- provide financial aid counseling to its students; and
- submit all reports and financial statements required by the regulations.

If an institution fails to satisfy any of these criteria, ED may:

- require the repayment of federal student financial aid funds;
- transfer the institution from the advance system of payment of federal student financial aid funds to the reimbursement system of payment or cash monitoring;
- place the institution on provisional certification status;
- impose growth restrictions on the institution; and
- commence a proceeding to impose a fine or to limit, suspend or terminate the participation of the institution in federal student financial aid programs.

Table of Contents

In a letter from ED in January 2014, ED recertified certain of our institutions on a provisional basis, denied certain pending new program approval applications, and indicated that all Company institutions must now request ED's prior approval for establishing eligibility of any new locations and programs and wait for ED's decision prior to disbursing any Title IV funds to students attending such new locations and programs. ED indicated that it was taking these actions because of its conclusion that the Company had admitted to falsifying placement rates and/or grade and attendance records at various institutions and because of ongoing investigations. The Company disputes ED's characterization of the Company's admission of wrongdoing. On the contrary, the Company has identified only isolated instances in the past four years in which Company employees have violated Company policy by incorrectly reporting placement results or altering student attendance records. The Company investigated those matters when it became aware of them, took disciplinary action against the employees involved, and reported the results to applicable regulatory authorities. The Company believes that isolated deviations from policy by a small number of employees do not reflect on the Company as a whole. ED also requested additional information from the Company about placement results and attendance and grade changes to be able to ascertain that the Company and its institutions have the requisite administrative capability to ensure compliance with Title IV requirements. The Company intends to cooperate with ED in this review.

If ED concludes that the Company or any of its institutions lack administrative capability, it could take action to impose restrictions upon, or to limit, suspend or terminate our eligibility to participate in, federal student financial aid programs. Any such action could have a material adverse effect on our business, financial condition, results of operations and cash flows.

Our discount student loan programs could have a material adverse effect on our financial condition, results of operations and cash flows.

Our discount student loan programs have enabled students who have exhausted all available government-sponsored or other aid and are ineligible for private loans from other financial institutions to borrow a portion of their tuition and other educational expenses at our schools if they or a co-borrower meet certain criteria.

In June 2012, we amended the loan origination agreement and related documents with ASFG. The original agreement with ASFG was entered into on June 29, 2011 for the purpose of creating a new private education discount loan program for our students. Pursuant to the amended loan origination agreement, ASFG initially indicated it intended to purchase approximately \$775 million in new student loans through June 2015. Under this arrangement, an unaffiliated bank would make private education loans to eligible students, and subsequently sells those loans to ASFG or its designee.

During the second and third quarters of fiscal 2014, we were negotiating with ASFG to restructure our student lending arrangement. However, we have been unable to reach agreement on terms acceptable to both ASFG and us, and, in January 2014 ASFG indicated that it intends to cease funding new loans for our students under the current program. We are beginning to solicit other prospective lenders through a request for proposal process. ASFG and at least two other potential lenders have expressed interest in receiving the request for proposal. Until we reach a new arrangement with a third-party lender, we intend to reinstitute our Company-financed Genesis loan program as described above. While we are on the process of structuring a new lending arrangement with a third party, we expect cash flows from operating activities to be approximately \$4 million to \$8 million less per month than cash flows would have been under the ASFG lending arrangement. If we are not able to structure a new lending arrangement with a third party, our students would lose an important source of funding for their education, and we would lose an important source of cash flows. Additionally, if we are unable to identify third-party lender for our students, the loss of this significant source of non-Title IV funding for our students would make it difficult for us to comply with the 90/10 Rule. Failure to be able to comply with the 90/10 rule would materially negatively affect our business.

Edgar Filing: CORINTHIAN COLLEGES INC - Form 10-Q

Additionally, federal, state and local laws and public policy relating to the protection of consumers apply to the origination, servicing and collection of the loans that we have purchased under our discount loan programs. Any violation of the various federal, state and local laws, including, in some instances, violations of these laws by parties not under our control, may result in losses on the loans that we purchase or may limit our ability to collect all or part of the principal or interest on the loans that we purchase. This may be the case even if we are not directly responsible for the violations by such parties. Federal or state financial regulators also might delay or suspend our discount loan

Table of Contents

program for a variety of reasons. Additionally, depending on the terms of the loans, state consumer credit regulators may assert that our activities in connection with the new student loan program require us to obtain one or more licenses, registrations or other forms of regulatory approvals, any of which may not be able to be obtained in a timely manner, if at all.

As previously reported, in April 2012 we were served with a Civil Investigative Demand (CID) from the U.S. Consumer Financial Protection Bureau (the CFPB). The CID, which was subsequently withdrawn by the CFPB and replaced with a substantially similar CID, contains extensive interrogatories and document production demands with the stated purpose to determine whether a for-profit post-secondary company, student loan origination and servicing providers, or other unnamed persons have engaged or are engaging in unlawful acts or practices relating to the advertising, marketing, or origination of private student loans. Although the Company objected to both CIDs by filing a petition with the CFPB, the Company voluntarily provided documents and other information to the CFPB and cooperated with the CFPB in its investigation.

In December 2013, the Company received a letter from the CFPB notifying the Company that, in accordance with the CFPB's discretionary Notice and Opportunity to Respond and Advise (NORA) process, the CFPB's Office of Enforcement is considering recommending that the CFPB take legal action against the Company (the NORA Letter). If such action is brought, the NORA Letter states that the staff of the CFPB's Office of Enforcement (the Staff) would expect to allege that the Company violated the Consumer Financial Protection Act of 2010, 12 U.S.C. §5536. The NORA Letter also states that if such action is brought the CFPB may seek injunctive and monetary relief against the Company. The NORA Letter confirms that the Company has the opportunity to make a NORA submission, which is a written statement setting forth any reasons of law or policy why the Company believes the CFPB should not take legal action against it.

The Company understands that a NORA notice from the Staff is intended to ensure that potential subjects of enforcement actions have the opportunity to present their positions to the CFPB before an enforcement action is recommended or commenced. The Company has submitted its NORA response to the CFPB, and continues to believe that its acts and practices relating to student loans are lawful. The Company cannot provide any assurance that the CFPB will not ultimately take legal action against it or that the outcome of any such action, if brought, will not have a material adverse effect on the Company's financial condition and results of operations.
