Item 1.01

Entry into a Material Definitive Agreement.

On August 18, 2015, Air Lease Corporation (the Company) consummated a public offering of \$500,000,000 aggregate principal amount of its 2.625% Senior Notes due 2018 (the Notes). The Notes were offered pursuant to the Company's Registration Statement on Form S-3 (File No. 333-184382) (the Registration Statement) filed with the Securities and Exchange Commission on October 11, 2012, as supplemented by the prospectus supplement, dated August 11, 2015.

The Company intends to use the net proceeds from the Notes offering, which are approximately \$495 million, after deducting the underwriting discount and estimated offering expenses payable by the Company, for general corporate purposes, which may include, among other things, the purchase of commercial aircraft and the repayment of existing indebtedness. Affiliates of the underwriters in the Notes offering may receive a portion of the net proceeds to the extent the Company uses any net proceeds to repay indebtedness under which certain of such underwriters or their affiliates are lenders. Pending any specific application, the Company may temporarily invest the net proceeds in short-term investments, including marketable securities.

The Notes are governed by an Indenture, dated as of October 11, 2012 (the Base Indenture), as amended and supplemented by an Eighth Supplemental Indenture, dated as of August 18, 2015 (the Eighth Supplemental Indenture) and, together with the Base Indenture, the Indenture), between the Company and Deutsche Bank Trust Company Americas, as trustee.

The Notes will mature on September 4, 2018 and will bear interest at a rate of 2.625% per annum, payable semi-annually in arrears on March 4 and September 4 of each year, beginning on March 4, 2016. The Company may redeem all or part of the Notes at any time and from time to time prior to maturity at a purchase price equal to 100% of the principal amount of the Notes plus an applicable premium (as defined in the Eighth Supplemental Indenture) and accrued and unpaid interest, if any, to the redemption date. If a change of control repurchase event (as defined in the Eighth Supplemental Indenture) occurs, the holders of the Notes may require the Company to purchase all or a portion of their Notes at a purchase price equal to 101% of the principal amount of the Notes, plus accrued and unpaid interest, if any, to the purchase date.

The Notes are senior unsecured obligations of the Company and will rank equal in right of payment with any existing and future senior indebtedness of the Company, without giving effect to collateral arrangements. The Notes will be effectively subordinated to all secured indebtedness of the Company to the extent of the value of the pledged assets and will be structurally subordinated to all indebtedness and other liabilities of any subsidiary of the Company. The Notes will be senior in right of payment to any existing and future obligations of the Company that are expressly subordinated or junior in right of payment to the Notes pursuant to a written agreement.
