AMPHENOL CORPORATION

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

(dollars in millions, except per share data)

Note 1 Basis of Presentation and Principles of Consolidation

The condensed consolidated balance sheets as of June 30, 2016 and December 31, 2015, the related condensed consolidated statements of income and condensed consolidated statements of comprehensive income for the three and six months ended June 30, 2016 and 2015, and the related condensed consolidated statements of cash flow for the six months ended June 30, 2016 and 2015 include the accounts of Amphenol Corporation and its subsidiaries (the Company). All material intercompany balances and transactions have been eliminated in consolidation. The condensed consolidated financial statements included herein are unaudited. In the opinion of management, all adjustments, consisting of normal recurring adjustments, necessary for a fair presentation in conformity with accounting principles generally accepted in the United States of America have been included. The results of operations for the three and six months ended June 30, 2016 are not necessarily indicative of the results to be expected for the full year. These condensed consolidated financial statements and the related notes should be read in conjunction with the consolidated financial statements and notes included in the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2015 (the 2015 Annual Report).

Note 2 New Accounting Pronouncements

In May 2014, the Financial Accounting Standards Board (the FASB) issued Accounting Standards Update No. 2014-09, *Revenue from Contracts with Customers* (ASU 2014-09), which stipulates that an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for such goods or services. To achieve this core principle, an entity should apply the following steps: (1) identify the contract(s) with a customer, (2) identify the performance obligations in the contract(s), (3) determine the transaction price(s), (4) allocate the transaction price(s) to the performance obligations in the contract(s), and (5) recognize revenue when (or as) the entity satisfies a performance obligation. The guidance also requires advanced disclosures regarding the nature, amount, timing and uncertainty of revenue and cash flows arising from an entity's contracts with customers. In August 2015, the FASB issued Accounting Standards Update No. 2015-14, *Revenue from Contracts with Customers (Topic 606): Deferral of the Effective Date* (ASU 2015-14), which defers the effective date of FASB's revenue standard under ASU 2014-09 by one year for all entities and permits early adoption on a limited basis. As a result of ASU 2015-14, the guidance under ASU 2014-09 shall apply for annual reporting periods beginning after December 15, 2017, including interim reporting periods within that period. Early adoption is permitted as of annual reporting periods beginning after December 15, 2016, including interim reporting periods within those annual periods. In March 2016, the FASB issued Accounting Standards Update No. 2016-08, *Revenue from Contracts with Customers (Topic 606): Principal versus Agent Considerations (Reporting Revenue Gross versus Net)*, which clarified the implementation guidance on principal versus agent considerations. In April 2016, the FASB issued Accounting Standards Update No. 2016-10, *Revenue from Contracts with Customers (Topic 606): Identifying Performance Obligations and Licensing*, which clarified the implementation guidance regarding performance obligations and licensing arrangements. The Company is currently evaluating ASU 2014-09 and does not anticipate a material impact on its consolidated financial statements.

Edgar Filing: AMPHENOL CORP /DE/ - Form 10-Q

In July 2015, the FASB issued Accounting Standards Update No. 2015-11, *Simplifying the Measurement of Inventory* (ASU 2015-11), which requires inventory to be measured at the lower of cost and net realizable value, thereby simplifying the current guidance of measuring inventory at the lower of cost or market. ASU 2015-11 is effective prospectively for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2016. The Company has evaluated ASU 2015-11 and does not believe it will have a material impact on its consolidated financial statements.

In February 2016, the FASB issued Accounting Standards Update No. 2016-02, *Leases (Topic 842)* (ASU 2016-02), which amends, among other things, the existing guidance by requiring lessees to recognize lease assets (right-to-use) and liabilities (for reasonably certain lease payments) arising from operating leases on the balance sheet. For leases with a term of twelve months or less, ASU 2016-02 permits an entity to make an accounting policy election to recognize such leases as lease expense, generally on a straight-line basis over the lease term. ASU 2016-02 is effective for interim and annual periods beginning after December 15, 2018 using a modified retrospective approach, with early adoption permitted. The Company is currently evaluating ASU 2016-02 and its impact on its consolidated financial statements.

In March 2016, the FASB issued Accounting Standards Update No. 2016-09, *Compensation-Stock Compensation (Topic 718): Improvements to Employee Share-Based Payment Accounting* (ASU 2016-09), which simplifies certain provisions associated with the accounting for stock compensation, including the income tax consequences, classification of awards, and classification on the

Table of Contents

statement of cash flows. ASU 2016-09 is effective for interim and annual periods beginning after December 15, 2016, with early adoption permitted. The Company is currently evaluating ASU 2016-09 and its impact on its consolidated financial statements.

Note 3 Inventories

Inventories consist of:

	June 30, 2016	December 31, 2015
Raw materials and supplies	\$ 310.2	\$ 282.4
Work in process	321.0	290.5
Finished goods	295.4	278.9
	\$ 926.6	\$ 851.8

Note 4 Reportable Business Segments

The Company has two reportable business segments: (i) Interconnect Products and Assemblies and (ii) Cable Products and Solutions. The Company aggregates its operating segments into reportable segments based upon similar economic characteristics and business groupings of products, services and customers. The Interconnect Product and Assemblies segment primarily designs, manufactures and markets a broad range of connector and connector systems, value-add products and other products, including antennas and sensors, used in a broad range of applications in a diverse set of end markets. The Cable Products and Solutions segment primarily designs, manufactures and markets cable, value-add products and components for use primarily in the broadband communications and information technology markets as well as certain applications in other markets. The accounting policies of the segments are the same as those for the Company as a whole and are described in Note 1 of the notes to the consolidated financial statements in the Company's 2015 Annual Report. The Company evaluates the performance of business units on, among other things, profit or loss from operations before interest, headquarters expense allocations, stock-based compensation expense, income taxes, amortization related to certain intangible assets and nonrecurring gains and losses.

The segment results for the three and six months ended June 30, 2016 and 2015 are as follows:

	Interconnect Products and Assemblies		Cable Products and Solutions		Total	
	2016	2015	2016	2015	2016	2015
<u>Three months ended June 30:</u>						
Net sales:

Income before income taxes	\$	284.0	\$	247.8	\$	506.4	\$	495.1

Table of Contents**Note 5 Changes in Equity and Noncontrolling Interests**

Net income attributable to noncontrolling interests is classified below net income. Earnings per share is determined after the impact of the noncontrolling interests share in net income of the Company. In addition, the equity attributable to noncontrolling interests is presented as a separate caption within equity.

A rollforward of consolidated changes in equity for the six months ended June 30, 2016 is as follows:

	Amphenol Corporation Shareholders							Total Equity
	Common Stock Shares (in millions)	Common Stock Amount	Additional Paid- In Capital	Retained Earnings	Accumulated Other Comprehensive Loss	Treasury Stock	Noncontrolling Interests	
Balance as of December 31, 2015	308.0	\$ 0.3	\$ 783.3	\$ 2,804.4	\$ (349.5)	\$	\$ 39.9	\$ 3,278.4

noncontrolling interests													
Purchase of treasury stock								(143.6)		(143.6)			
Retirement of treasury stock	(2.5)					(143.6)		143.6					
Stock options exercised, including tax benefit	1.6			50.0						50.0			
Dividends declared							(77.4)			(77.4)			
Stock-based compensation expense				20.2						20.2			
Balance as of June 30, 2015	309.0	\$	0.3	\$	729.6	\$	2,591.3	\$	(256.1)	\$	37.7	\$	3,102.8

Table of Contents**Note 6 Earnings Per Share**

Basic earnings per share (EPS) is computed by dividing net income attributable to Amphenol Corporation by the weighted average number of common shares outstanding. Diluted EPS is computed by dividing net income attributable to Amphenol Corporation by the weighted average number of common shares and dilutive common shares outstanding, which relates to stock options. A reconciliation of the basic weighted average common shares outstanding to diluted weighted average common shares outstanding for the three and six months ended June 30, 2016 and 2015 is as follows (dollars and shares in millions):

	Three months ended June 30,		Six months ended June 30,	
	2016	2015	2016	2015
Net income attributable to Amphenol Corporation shareholders	\$ 206.5	\$ 179.0	\$ 363.2	\$ 358.8
Basic weighted average common shares outstanding	308.2	308.9	307.9	309.5
Effect of dilutive stock options	7.2	8.0	6.9	7.9
Diluted weighted average common shares outstanding	315.4	316.9	314.8	317.4
Earnings per share attributable to Amphenol Corporation shareholders:				
Basic	\$ 0.67	\$ 0.58	\$ 1.18	\$ 1.16
Diluted	\$ 0.65	\$ 0.56	\$ 1.15	\$ 1.13

Excluded from the computations above were anti-dilutive common shares of 8.2 million and 1.7 million for the three months ended June 30, 2016 and 2015, respectively, and 10.0 million and 2.7 million for the six months ended June 30, 2016 and 2015, respectively.

Note 7 Commitments and Contingencies

The Company has been named as defendant in several legal actions in which various amounts are claimed arising from normal business activities. The Company records a loss contingency liability when there is at least a reasonable possibility that a loss is considered probable and the amount can be reasonably estimated. Although the potential liability with respect to such legal actions cannot be reasonably estimated, such matters are not expected to have a material adverse effect on the Company's financial condition, results of operations or cash flows. The Company's legal costs associated with defending itself are recorded to expense as incurred.

Certain operations of the Company are subject to environmental laws and regulations which govern the discharge of pollutants into the air and water, as well as the handling and disposal of solid and hazardous wastes. The Company believes that its operations are currently in substantial compliance with applicable environmental laws and regulations and that the costs of continuing compliance will not have a material effect on the Company's financial condition, results of operations or cash flows.

Note 8 Stock-Based Compensation

Stock Options

In 2009, the Company adopted the 2009 Stock Purchase and Option Plan for Key Employees of Amphenol and its Subsidiaries (the 2009 Employee Option Plan). The Company also continues to maintain the 2000 Stock Purchase and Option Plan for Key Employees of Amphenol and Subsidiaries (the 2000 Employee Option Plan). No additional stock options can be granted under the 2000 Employee Option Plan. The 2009 Employee Option Plan authorizes the granting of additional stock options by a committee of the Company s Board of Directors. The number of shares of the Company s Class A Common Stock (Common Stock) reserved for issuance under the 2009 Employee Option Plan, as amended, is 58,000,000 shares. As of June 30, 2016, there were 11,965,910 shares of Common Stock available for the granting of additional stock options under the 2009 Employee Option Plan. Options granted under the 2000 Employee Option Plan are fully vested and are generally exercisable over a period of ten years from the date of grant. Options granted under the 2009 Employee Option Plan generally vest ratably over a period of five years from the date of grant and are generally exercisable over a period of ten years from the date of grant.

In 2004, the Company adopted the 2004 Stock Option Plan for Directors of Amphenol Corporation (the 2004 Directors Option Plan). The 2004 Directors Option Plan is administered by the Company s Board of Directors. As of June 30, 2016, there were

Table of Contents

140,000 shares of Common Stock available for the granting of additional stock options under the 2004 Directors Option Plan, although no additional stock options are expected to be granted under this plan. Options were last granted under the 2004 Directors Option Plan in May 2011. Options granted under the 2004 Directors Option Plan are fully vested and are generally exercisable over a period of ten years from the date of grant.

Stock option activity for the three and six months ended June 30, 2016 was as follows:

	Options	Weighted Average Exercise Price	Weighted Average Remaining Contractual Term (in years)	Aggregate Intrinsic Value
Options outstanding at January 1, 2016	31,136,475	\$ 37.62	6.92	\$ 491.0
Options granted	245,000			
Options exercised	(650,840)			
Options forfeited	(48,680)			
Options outstanding at March 31, 2016	30,681,955	37.97	6.75	609.9
Options granted	7,138,450			
Options exercised	(1,951,432)			
Options forfeited	(389,400)			
Options outstanding at June 30, 2016	35,479,573	42.52	7.27	534.2
Vested and non-vested options expected to vest at June 30, 2016	33,088,422	\$ 41.88	7.17	\$ 518.8
Exercisable options at June 30, 2016	16,569,063	\$ 31.50	5.61	\$ 428.8

A summary of the status of the Company's non-vested options as of June 30, 2016 and changes during the three and six months then ended is as follows:

	Options	Weighted Average Fair Value at Grant Date
Non-vested options at January 1, 2016	17,323,040	\$ 8.24
Options granted	245,000	6.98
Options vested	(44,400)	9.82
Options forfeited	(48,680)	8.38
Non-vested options at March 31, 2016	17,474,960	8.22
Options granted	7,138,450	7.40
Options vested	(5,313,500)	7.91
Options forfeited	(389,400)	8.33
Non-vested options at June 30, 2016	18,910,510	7.99

During the three and six months ended June 30, 2016 and 2015, the following activity occurred under the Company's option plans:

Three months ended
June 30,

Six months ended
June 30,

Edgar Filing: AMPHENOL CORP /DE/ - Form 10-Q

	2016		2015		2016		2015	
Total intrinsic value of stock options exercised	\$	62.0	\$	32.0	\$	82.6	\$	57.9
Total fair value of stock options vested		42.1		39.1		42.5		39.4

As of June 30, 2016, the total compensation cost related to non-vested options not yet recognized was approximately \$133.3 with a weighted average expected amortization period of 3.67 years.

Restricted Shares

In 2012, the Company adopted the 2012 Restricted Stock Plan for Directors of Amphenol Corporation (the 2012 Directors Restricted Stock Plan). The 2012 Directors Restricted Stock Plan is administered by the Company s Board of Directors. As of June 30, 2016, the number of restricted shares available for grant under the 2012 Directors Restricted Stock Plan was 137,069. Restricted shares granted under the 2012 Directors Restricted Stock Plan generally vest on the first anniversary of the grant date. Grants under the 2012 Directors Restricted Stock Plan entitle the holder to receive shares of the Company s Common Stock without payment.

Table of Contents

Restricted share activity for the three and six months ended June 30, 2016 was as follows:

	Restricted Shares	Fair Value at Grant Date	Weighted Average Remaining Amortization Term (in years)
Restricted shares outstanding at January 1, 2016	17,256	\$ 57.97	0.39
Restricted shares granted			
Restricted shares outstanding at March 31, 2016	17,256	57.97	0.15
Shares vested and issued	(17,256)	57.97	
Restricted shares granted	16,905	57.99	
Restricted shares outstanding at June 30, 2016	16,905	57.99	0.90

As of June 30, 2016, the total compensation cost related to non-vested restricted shares not yet recognized was approximately \$0.9 with a weighted average expected amortization period of 0.90 years.

The grant-date fair value of each option grant under the 2000 Employee Option Plan, the 2009 Employee Option Plan and the 2004 Directors Option Plan is estimated using the Black-Scholes option pricing model. The grant-date fair value of each restricted share grant is determined based on the closing share price of the Company's Common Stock on the date of the grant. The fair value is then amortized on a straight-line basis over the requisite service period of the awards, which is generally the vesting period. Use of a valuation model for option grants requires management to make certain assumptions with respect to selected model inputs. Expected share price volatility is calculated based on the historical volatility of the Common Stock and implied volatility derived from related exchange traded options. The average expected life is based on the contractual term of the option and expected exercise and historical post-vesting termination experience. The risk-free interest rate is based on U.S. Treasury zero-coupon issues with a remaining term equal to the expected life assumed at the date of grant. The expected annual dividend per share is based on the Company's dividend rate.

Stock-based compensation expense includes the estimated effects of forfeitures, which are adjusted over the requisite service period to the extent actual forfeitures differ or are expected to differ from such estimates. Changes in estimated forfeitures are recognized in the period of change and impact the amount of expense to be recognized in future periods. For the three months ended June 30, 2016, the Company's income before income taxes and net income were reduced for stock-based compensation expense by \$11.7 and \$8.9, respectively, and these reductions were \$23.2 and \$17.7, respectively, for the six months ended June 30, 2016. For the three months ended June 30, 2015, the Company's income before income taxes and net income were reduced for stock-based compensation expense by \$10.1 and \$7.6, respectively, and those reductions were \$20.2 and \$15.1, respectively, for the six months ended June 30, 2015. The expense incurred for stock-based compensation is included in Selling, general and administrative expense in the accompanying Condensed Consolidated Statements of Income.

Note 9 Shareholders' Equity

In January 2015, the Board of Directors authorized a stock repurchase program under which the Company may repurchase up to 10 million shares of Common Stock during the two year period ending January 20, 2017 (the 2015 Stock Repurchase Program). During the six months ended June 30, 2016, the Company repurchased 2.0 million shares of Common Stock for \$108.4. These treasury shares have been retired by the Company and common stock and retained earnings were reduced accordingly. Through July 29, 2016, the Company repurchased an additional 0.7 million shares of Common Stock for \$42.2. At July 29, 2016, approximately 2.8 million additional shares of Common Stock may be repurchased under the 2015 Stock Repurchase Program. The price and timing of any future purchases under the 2015 Stock Repurchase

Edgar Filing: AMPHENOL CORP /DE/ - Form 10-Q

Program will depend on factors such as levels of cash generation from operations, the volume of stock option exercises by employees, cash requirements for acquisitions, dividends, economic and market conditions and stock price.

Contingent upon declaration by the Board of Directors, the Company generally pays a quarterly dividend on shares of its Common Stock. In the third quarter of 2015, the Board of Directors approved an increase in the quarterly dividend rate from \$0.125 to \$0.14 per share effective with the third quarter 2015 dividend. For the three and six months ended June 30, 2016, the Company paid dividends in the amount of \$43.0 and \$86.3, respectively, and declared dividends in the amount of \$43.2 and \$86.3, respectively. For the three and six months ended June 30, 2015, the Company paid dividends in the amount of nil and \$77.5, respectively, and declared dividends in the amount of \$38.6 and \$77.4, respectively.

Table of Contents**Note 10 Benefit Plans and Other Postretirement Benefits**

The Company and certain of its domestic subsidiaries have defined benefit pension plans (the U.S. Plans), which cover certain U.S. employees and which represent the majority of the plan assets and benefit obligations of the aggregate defined benefit plans of the Company. The U.S. Plans' benefits are generally based on years of service and compensation and are generally noncontributory. Certain U.S. employees not covered by the U.S. Plans are covered by defined contribution plans. Certain foreign subsidiaries have defined benefit plans covering their employees (the International Plans and, together with the U.S. Plans, the Plans). The following is a summary, based on the most recent actuarial valuations of the Company's net cost for pension benefits, of the Plans and other postretirement benefits for the three and six months ended June 30, 2016 and 2015.

	Pension Benefits		Other Postretirement Benefits	
	2016	2015	2016	2015
Three months ended June 30:				
Service cost	\$ 2.3	\$ 2.3	\$	\$
Interest cost	4.8	5.8	0.1	0.1
Expected return on plan assets	(7.7)	(7.3)		
Amortization of prior service cost	0.5	0.6		
Amortization of net actuarial losses	4.9	6.5	0.2	0.1
Net pension expense	\$ 4.8	\$ 7.9	\$ 0.3	\$ 0.2
Six months ended June 30:				
Service cost	\$ 4.6	\$ 4.7	\$	\$
Interest cost	10.6	11.6	0.2	0.2
Expected return on plan assets	(15.2)	(14.6)		
Amortization of prior service cost	1.1	1.2		
Amortization of net actuarial losses	11.2	12.9	0.3	0.2
Net pension expense	\$ 12.3	\$ 15.8	\$ 0.5	\$ 0.4

For the three and six months ended June 30, 2016, the Company did not make a cash contribution to the Plans, and estimates that, based on current actuarial calculations, it will make aggregate cash contributions to the Plans in 2016 of approximately \$22.0, the majority of which will be to the U.S. Plans. The timing and amount of cash contributions in subsequent years will depend on a number of factors, including the investment performance of the Plan assets.

The Company offers various defined contribution plans for certain U.S. and foreign employees. Participation in these plans is based on certain eligibility requirements. The Company matches the majority of employee contributions to U.S. defined contribution plans with cash contributions up to a maximum of 5% of eligible compensation. During the six months ended June 30, 2016 and 2015, the total matching contributions to these U.S. defined contribution plans in each period were approximately \$2.2.

Note 11 Acquisitions

On January 8, 2016, the Company acquired all of the share capital of FCI Asia Pte Ltd (FCI) for a purchase price of approximately \$1,178.6 (subject to closing adjustments), net of cash acquired. The acquisition was funded by cash, cash equivalents and short-term investments that

were held outside of the United States. In the first quarter of 2016, the Company incurred approximately \$30.3 (\$27.3 after-tax) of acquisition-related expenses related to the acquisition of FCI, which are separately presented in the accompanying Condensed Consolidated Statements of Income, primarily related to external transaction costs, amortization related to the value associated with acquired backlog and post-closing restructuring charges. In addition, during the second quarter of 2015, the Company incurred approximately \$5.7 (\$5.7 after-tax) of acquisition-related expenses related to professional fees and other external expenses primarily related to the FCI acquisition. The accompanying Condensed Consolidated Statements of Income include the results of FCI for the period from the acquisition date through June 30, 2016. Excluding the impact of acquisitions as well as the negative impact of foreign exchange of approximately \$9.0 and \$28.4 for the three and six months ended June 30, 2016, respectively, compared to the same prior year periods, the Company's net sales increased approximately 4% and 1% in the three and six months ended June 30, 2016, respectively, compared to the same prior year periods.

Headquartered in Singapore, FCI, a global leader in interconnect solutions for the information technology and data communications, industrial, mobile networks, automotive and mobile devices markets, is reported as part of the Company's Interconnect Products and Assemblies segment. FCI is a leading supplier of high-speed backplane and mezzanine connectors, power interconnect solutions and a wide variety of board-mounted interconnects.

Table of Contents*Allocation of Purchase Price*

The purchase price was allocated to the tangible and identifiable intangible assets acquired and liabilities assumed of FCI based upon their estimated fair values. The excess purchase price over the fair value of the underlying net assets acquired was allocated to goodwill, which primarily represents the value of the assembled workforce along with anticipated cost savings and efficiencies associated with the integration of FCI and other intangible assets acquired that do not qualify for separate recognition. The Company is in the process of completing its analysis of the fair value of the net assets acquired through the use of independent valuations and management's estimates. Since the following information is based on preliminary assessments made by management, the acquisition accounting for FCI is subject to final adjustment and it is possible that the final assessment of values may differ from this preliminary assessment. The following table summarizes the preliminary assessment of the estimated fair values of the identifiable assets acquired and liabilities assumed, net of cash acquired, as of the date of acquisition of January 8, 2016.

Accounts receivable	\$	97.1
Inventories		65.8
Other current assets		13.4
Land and depreciable assets		78.2
Goodwill		933.1
Intangible assets		252.0
Other long-term assets		13.0
Assets acquired		1,452.6
Accounts payable		61.6
Other current liabilities		55.0
Accrued pension benefit obligations and other long-term liabilities		157.4
Liabilities assumed		274.0
Net assets acquired	\$	1,178.6

Of the \$252.0 of acquired intangible assets, \$133.8 was assigned to indefinite-lived trade names which are not subject to amortization. The remaining \$118.2 of finite-lived acquired intangible assets is comprised of \$53.2, \$57.0 and \$8.0 assigned to proprietary technology, customer relationships and backlog, respectively, all of which are subject to amortization. The finite-lived acquired intangible assets have a total weighted average useful life of approximately 10 years. The proprietary technology, customer relationships and backlog have a weighted average useful life of 9 years, 12 years and 0.25 years, respectively. These finite-lived intangible assets will be amortized based upon the underlying pattern of economic benefit as reflected by the future net cash inflows. The entire amount of goodwill was assigned to the Interconnect Products and Assemblies segment, of which approximately \$91.9 is expected to be deductible for tax purposes.

Pro Forma Financial Information

The following table summarizes the unaudited pro forma combined financial information assuming that the FCI acquisition had occurred on January 1, 2015, and its results had been included in our financial results for the full three and six months ended June 30, 2016 and 2015. The pro forma amounts are based upon available information and reflect a reasonable estimate of the effects of the FCI acquisition for the periods presented on the basis set forth herein. The following unaudited pro forma financial information is presented for informational purposes only and does not purport to represent what the financial position or results of operations would have been had the FCI acquisition in fact occurred on the date assumed, nor is it necessarily indicative of the results that may be expected in future periods.

Edgar Filing: AMPHENOL CORP /DE/ - Form 10-Q

Pro forma:	Three months ended June 30,		Six months ended June 30,	
	2016	2015	2016	2015
Net sales	\$ 1,548.2	\$ 1,495.2	\$ 3,009.1	\$ 2,963.7
Net income attributable to Amphenol Corporation	206.5	191.9	390.7	380.1
Net income per common share - Diluted	0.65	0.61	1.24	1.20

The unaudited pro forma Net income attributable to Amphenol Corporation has been calculated using actual historical information and is adjusted for certain pro forma adjustments based on the assumption that the FCI acquisition and the application of fair value adjustments to intangible assets occurred on January 1, 2015. For the three and six months ended June 30, 2016, the pro forma financial information excluded acquisition-related expenses, net of tax, of nil and \$27.3, respectively, which are included in the reported results, but excluded from the pro forma amounts above due to their nonrecurring nature. For the three and six months ended

Table of Contents

June 30, 2015, the pro forma financial information reflects the following adjustments, net of tax: (a) acquisition-related expenses of \$5.7 for both periods in 2015, which were included in the reported results, but excluded from the pro forma amounts above due to their nonrecurring nature, (b) amortization expense related to the acquired intangible assets of \$2.2 and \$4.4, respectively, that was not reflected in the historical results, but has been included in the pro forma amounts, (c) interest income of approximately \$2.9 and \$5.8, respectively, earned on the cash, cash equivalents and short-term investments used to fund the FCI acquisition that was included in the historical results, but excluded from the pro forma amounts, and (d) other expense (income) of \$2.1 and \$(1.7), respectively, that was included in the historical results of FCI, but excluded from the pro forma amounts due to its nonrecurring nature.

Other Acquisitions

The Company has completed its analysis of fair value of the assets acquired and liabilities assumed related to its 2015 acquisitions and the final assessment of values did not differ materially from the preliminary assessment. The 2015 acquisitions were not material to the Company either individually or in the aggregate.

Note 12 Goodwill and Other Intangible Assets

The changes in the carrying amount of goodwill by segment were as follows:

	Interconnect Products and Assemblies	Cable Products and Solutions	Total
Goodwill at December 31, 2015	\$ 2,569.2	\$ 123.7	\$ 2,692.9
Acquisition-related	939.3		939.3
Foreign currency translation	9.5		9.5
Goodwill at June 30, 2016	\$ 3,518.0	\$ 123.7	\$ 3,641.7

The increase in goodwill, net of foreign currency translation, during the first six months of 2016 is primarily due to the acquisition of FCI on January 8, 2016, which is included in the Interconnect Products and Assemblies segment.

Other than goodwill and indefinite-lived trade name intangible assets with a value of approximately \$186.1 and \$52.3 as of June 30, 2016 and December 31, 2015, respectively, the Company's intangible assets are subject to amortization. A summary of the Company's amortizable intangible assets as of June 30, 2016 and December 31, 2015 is as follows:

	June 30, 2016			December 31, 2015		
	Gross Carrying Amount	Accumulated Amortization	Net Carrying Amount	Gross Carrying Amount	Accumulated Amortization	Net Carrying Amount
Customer relationships	\$ 372.2	\$ 140.7	\$ 231.5	\$ 315.6	\$ 122.6	\$ 193.0

Edgar Filing: AMPHENOL CORP /DE/ - Form 10-Q

Proprietary technology	106.7	35.9	70.8	53.8	30.9	22.9
License agreements	6.0	6.0		6.0	6.0	
Backlog and other	28.0	27.5	0.5	19.7	19.2	0.5
Total	\$ 512.9	\$ 210.1	\$ 302.8	\$ 395.1	\$ 178.7	\$ 216.4

Customer relationships, proprietary technology, license agreements, and backlog and other amortizable intangible assets have weighted average useful lives of approximately 10 years, 11 years, 8 years and 1 year, respectively, for an aggregate weighted average useful life of approximately 10 years at June 30, 2016.

Intangible assets are included in Intangibles and other long-term assets in the accompanying Condensed Consolidated Balance Sheets. The amortization expense for the three months ended June 30, 2016 and 2015 was approximately \$11.4 and \$8.4, respectively. The amortization expense for the six months ended June 30, 2016 and 2015 was approximately \$31.1 and \$16.7, respectively. As of June 30, 2016, amortization expense estimated for the remainder of 2016 is approximately \$22.8 and for each of the next five fiscal years is approximately \$45.8 in 2017, \$41.7 in 2018, \$37.6 in 2019, \$31.4 in 2020 and \$26.6 in 2021.

Table of Contents**Note 13 Debt**

The Company's debt consists of the following:

	June 30, 2016		December 31, 2015	
	Carrying Amount	Approximate Fair Value	Carrying Amount	Approximate Fair Value
Revolving Credit Facility (maximum aggregate principal amount of \$2,000.0 and \$1,500.0 as of June 30, 2016 and December 31, 2015, respectively)	\$	\$	\$	\$
Commercial Paper Program (maximum aggregate principal amount of \$2,000.0 and \$1,500.0 as of June 30, 2016 and December 31, 2015, respectively)	845.2	845.2	823.9	823.9
1.55% Senior Notes due September 2017	374.8	376.9	374.8	373.2
2.55% Senior Notes due January 2019	749.4	764.8	749.2	750.1
3.125% Senior Notes due September 2021	374.8	390.0	374.7	367.7
4.00% Senior Notes due February 2022	499.3	539.2	499.2	508.6
Notes payable to foreign banks and other debt	5.7	5.7	5.0	5.0
Less deferred debt issuance costs	(14.3)		(13.3)	
Total debt	2,834.9	2,921.8	2,813.5	2,828.5
Less current portion	0.3	0.3	0.3	0.3
Total long-term debt	\$ 2,834.6	\$ 2,921.5	\$ 2,813.2	\$ 2,828.2

Revolving Credit Facility

On March 1, 2016, the Company replaced its \$1,500.0 unsecured credit facility with a new \$2,000.0 unsecured credit facility (the 2016 Revolving Credit Facility). The 2016 Revolving Credit Facility, which matures March 2021, increases the aggregate commitments by \$500.0 and gives the Company the ability to borrow at a spread over LIBOR. The Company intends to utilize the new credit facility for general corporate purposes. At June 30, 2016, there were no borrowings under the 2016 Revolving Credit Facility. The 2016 Revolving Credit Facility requires payment of certain annual agency and commitment fees and requires that the Company satisfy certain financial covenants. At June 30, 2016, the Company was in compliance with the financial covenants under the 2016 Revolving Credit Facility.

Commercial Paper Program

The Company has a commercial paper program (the Commercial Paper Program) pursuant to which the Company issues short-term unsecured commercial paper notes (Commercial Paper) in one or more private placements. Amounts available under the Commercial Paper Program are borrowed, repaid and re-borrowed from time to time. The maturities of the Commercial Paper vary, but may not exceed 397 days from the date of issue. The Commercial Paper is sold under customary terms in the commercial paper market and may be issued at a discount from par, or, alternatively, may be sold at par and bear varying interest rates on a fixed or floating basis. The Commercial Paper Program is rated A-2 by Standard & Poor's and P-2 by Moody's and is backstopped by the 2016 Revolving Credit Facility. Effective April 1, 2016, the maximum aggregate principal amount of the Commercial Paper outstanding under the Commercial Paper Program at any time was increased by \$500.0

Edgar Filing: AMPHENOL CORP /DE/ - Form 10-Q

from \$1,500.0 to \$2,000.0. The Commercial Paper is classified as long-term debt in the accompanying Condensed Consolidated Balance Sheets since the Company has the intent and ability to refinance the Commercial Paper on a long-term basis using the 2016 Revolving Credit Facility. The carrying value of Commercial Paper borrowings approximated their fair value given that the Commercial Paper is actively traded. As such, the Commercial Paper is classified as Level 1 in the fair value hierarchy (Note 14). The average interest rate on the Commercial Paper as of June 30, 2016 was 0.81%.

Senior Notes

All of the Company's outstanding senior notes, which are listed in the table above, are unsecured and rank equally in right of payment with the Company's other unsecured senior indebtedness. Interest on each series of the senior notes is payable semiannually. The Company may, at its option, redeem some or all of any series of senior notes at any time by paying 100% of the principal amount, plus accrued and unpaid interest, if any, to the date of repurchase, and if redeemed prior to the date of maturity, a make-whole

Table of Contents

premium. The fair value of the senior notes is based on recent bid prices in an active market and is therefore classified as Level 1 in the fair value hierarchy (Note 14).

Note 14 Fair Value Measurements

Fair value is determined based on the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants. These requirements establish market or observable inputs as the preferred source of values. Assumptions based on hypothetical transactions are used in the absence of market inputs. The Company does not have any non-financial instruments accounted for at fair value on a recurring basis.

The valuation techniques required are based upon observable and unobservable inputs. Observable inputs reflect market data obtained from independent sources, while unobservable inputs reflect the Company's market assumptions. These two types of inputs create the following fair value hierarchy:

Level 1 Quoted prices for identical instruments in active markets.

Level 2 Quoted prices for similar instruments in active markets; quoted prices for identical or similar instruments in markets that are not active; and model-derived valuations whose inputs are observable or whose significant value drivers are observable.

Level 3 Significant inputs to the valuation model are unobservable.

The Company believes that the assets or liabilities subject to such standards with fair value disclosure requirements are short-term investments and derivative instruments. Substantially all of the Company's short-term investments consist of certificates of deposit with original maturities of twelve months or less and as such, are considered as Level 1 in the fair value hierarchy as they are traded in active markets which have identical assets. The carrying amounts of these instruments, the majority of which are in non-U.S. bank accounts, approximate their fair value. The Company's derivative instruments represent foreign exchange rate forward contracts, which are valued using bank quotations based on market observable inputs such as forward and spot rates and are therefore classified as Level 2 in the fair value hierarchy. The impact of the credit risk related to these financial assets is immaterial. The fair values of the Company's financial and non-financial assets and liabilities subject to such standards at June 30, 2016 and December 31, 2015 are as follows:

	Fair Value Measurements			
	Total	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
<u>June 30, 2016:</u>				

Edgar Filing: AMPHENOL CORP /DE/ - Form 10-Q

Short-term investments	\$	30.7	\$	30.7	\$		\$
Forward contracts		7.0				7.0	
Total	\$	37.7	\$	30.7	\$	7.0	\$
<u>December 31, 2015:</u>							
Short-term investments	\$	23.2	\$	23.2	\$		\$
Forward contracts		3.3				3.3	
Total	\$	26.5	\$	23.2	\$	3.3	\$

The Company does not have any significant financial or non-financial assets and liabilities that are measured at fair value on a non-recurring basis.

The amount recognized in Accumulated other comprehensive income (loss) associated with foreign exchange rate forward contracts and the amount reclassified from Accumulated other comprehensive income (loss) to foreign exchange gain (loss) in the accompanying Condensed Consolidated Statements of Income during the six month periods ended June 30, 2016 and 2015 was not material. The fair value of the forward contracts are recorded within Other current assets, Other accrued expenses or Accrued pension benefit obligations and other long-term liabilities in the accompanying Condensed Consolidated Balance Sheets, depending on their value and remaining contractual period.

Table of Contents

Note 15 Income Taxes

The provision for income taxes for the second quarter and the first six months of 2016 was at an effective rate of 26.5% and 27.5%, respectively. Excluding the net impact of acquisition-related expenses incurred in the first quarter of 2016, the effective tax rate for the six months ended June 30, 2016 was 26.5%. The provision for income taxes for the second quarter and the first six months of 2015 was at an effective tax rate of 27.1% and 26.8%, respectively. Excluding the net impact of acquisition-related expenses incurred in the second quarter of 2015, the effective tax rate in both the second quarter and the first six months of 2015 was 26.5%.

The Company operates in the U.S. and numerous foreign taxable jurisdictions, and at any point in time has numerous audits underway at various stages of completion. With few exceptions, the Company is subject to income tax examinations by tax authorities for the years 2011 and after. The Company is generally not able to precisely estimate the ultimate settlement amounts or timing until the close of an audit. The Company evaluates its tax positions and establishes liabilities for uncertain tax positions that may be challenged by local authorities and may not be fully sustained, despite the Company's belief that the underlying tax positions are fully supportable. As of June 30, 2016, the amount of the liability for unrecognized tax benefits, which if recognized would impact the effective tax rate, was approximately \$124.6, which is included in Accrued pension benefit obligations and other long-term liabilities in the accompanying Condensed Consolidated Balance Sheets. Unrecognized tax benefits are reviewed on an ongoing basis and are adjusted for changing facts and circumstances, including progress of tax audits and the closing of statutes of limitation. Based on information currently available, management anticipates that over the next twelve month period, audit activity could be completed and statutes of limitation may close relating to existing unrecognized tax benefits of approximately \$2.9.

Table of Contents**Item 2.**

**MANAGEMENT'S DISCUSSION AND ANALYSIS
OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS
(dollars in millions, unless otherwise noted, except per share data)**

Results of Operations

Three and six months ended June 30, 2016 compared to the three and six months ended June 30, 2015

Net sales were \$1,548.2 in the second quarter of 2016 compared to \$1,351.5 in the second quarter of 2015, an increase of 15% in U.S. dollars, 16% in local currencies and 4% organically (excluding the impact of foreign exchange and acquisitions) over the prior year quarter. Net sales for the first six months of 2016 were \$2,999.4 compared to \$2,678.6 in the same period in 2015, an increase of 12% in U.S. dollars, 13% in local currencies and 1% organically over the prior year period. Net sales in the Interconnect Products and Assemblies segment in the second quarter of 2016 (approximately 94% of net sales) increased 15% in both U.S. dollars and local currencies compared to the same period in 2015 (\$1,456.0 in 2016 versus \$1,268.7 in 2015) and increased 12% in U.S. dollars and 13% in local currencies in the first six months of 2016 compared to the same period in 2015 (\$2,823.8 in 2016 versus \$2,511.3 in 2015). The sales growth was driven primarily by growth in the information technology and data communications, mobile networks, industrial, and automotive markets arising from contributions from the Company's acquisitions as well as organic strength, offset in part by modest declines in sales in the military and commercial aerospace markets. The mobile devices market experienced a modest increase in net sales for the second quarter of 2016 compared to the same period in the prior year but a slight decrease for the year to date period compared to the same period in 2015. Net sales in the Cable Products and Solutions segment in the second quarter of 2016 (approximately 6% of net sales) increased 11% in U.S. dollars (\$92.2 in 2016 versus \$82.8 in 2015) and 14% in local currencies compared to the same period in 2015, and increased 5% in U.S. dollars and 8% in local currencies in the first six months of 2016 compared to the same period in 2015 (\$175.6 in 2016 versus \$167.3 in 2015). The increase in Cable Products and Solutions sales relates primarily to sales in the broadband communications market.

Geographically, sales in the United States in the second quarter and first six months of 2016 decreased approximately 2% and 1%, respectively, compared to the same periods in 2015 (\$416.7 and \$828.5, respectively, in 2016 versus \$426.4 and \$840.1, respectively, in 2015). International sales in the second quarter and first six months of 2016 increased approximately 22% and 18% in U.S. dollars, respectively, and 23% and 20% in local currencies, respectively, compared to the same periods in 2015 (\$1,131.5 and \$2,170.9, respectively, in 2016 versus \$925.1 and \$1,838.5, respectively, in 2015). The comparatively stronger U.S. dollar for the second quarter and first six months of 2016 had the effect of decreasing sales by approximately \$9.0 and \$28.4, respectively, when compared to foreign currency translation rates for the same periods in 2015.

Selling, general and administrative expenses increased to \$197.0 or 12.7% of net sales and \$386.5 or 12.9% of net sales for the second quarter and first six months of 2016, respectively, compared to \$166.1 or 12.3% of net sales and \$330.4 or 12.3% of net sales for the second quarter and first six months of 2015, respectively. The increase is driven primarily by the acquisition of FCI, which currently has higher selling, general and administrative expenses as a percentage of net sales than the average of the Company. Administrative expenses represented approximately 4.9% and 5.1% of net sales for the second quarter and first six months of 2016, respectively, and represented approximately 5.0% and 4.9% of net sales for the second quarter and first six months of 2015, respectively. Research and development expenses represented approximately 2.6% of net sales for both the second quarter and first six months of 2016, and represented approximately 2.3% of net sales for both the second quarter and first six months of 2015. Selling and marketing expenses represented approximately 5.2% of net sales for both the second quarter and first six months of 2016, and represented 5.0% and 5.1% of net sales for the second quarter and first six months of 2015, respectively.

Operating income was \$300.3 or 19.4% of net sales and \$539.8 or 18.0% of net sales for the second quarter and first six months of 2016, respectively, compared to \$260.7 or 19.3% of net sales and \$520.9 or 19.4% of net sales for the second quarter and first six months of 2015, respectively. Operating income for the first six months of 2016 includes \$30.3 of acquisition-related expenses (separately presented in the Condensed Consolidated Statements of Income) related to the acquisition of FCI, which includes external transaction costs, amortization related to the value associated with acquired backlog and post-closing restructuring charges. For the six months ended June 30, 2016, these expenses had an impact on net income of \$27.3, or \$0.09 per share. Operating income for the second quarter and first six months of 2015 includes \$5.7 of acquisition-related expenses (separately presented in the Condensed Consolidated Statements of Income) for professional fees and other external expenses related to the acquisition of FCI as well as acquisitions closed during the second quarter of 2015. For the three and six months ended June 30, 2015, these expenses had an impact on net income of \$5.7, or \$0.02 per share. Excluding these expenses, adjusted operating income was \$300.3 or 19.4% of net sales and \$570.1 or 19.0% of net sales for the second quarter and first six months of 2016, respectively, and \$266.4 or 19.7% of net sales and \$526.6 or 19.7% of net sales for the second quarter and first six months of 2015, respectively. The decrease in adjusted operating income margin as a percentage of net sales for the first six months of 2016, compared to the same period in 2015, relates to the decrease in operating income margins in the Interconnect Products and Assemblies segment. Operating income for the Interconnect Products and Assemblies segment for the second quarter and first six months of 2016 was \$309.0 or 21.2% of net sales and \$590.1 or 20.9% of net

Table of Contents

sales, respectively, compared to \$277.9 or 21.9% of net sales and \$548.8 or 21.9% of net sales for the second quarter and first six months of 2015, respectively. This decrease in operating income margin is driven by the acquisition of FCI, which currently operates at a lower operating margin than the average of the Company. Operating income for the Cable Products and Solutions segment for the second quarter and first six months of 2016 was \$13.7 or 14.9% of net sales and \$24.8 or 14.1% of net sales, respectively, compared to \$9.7 or 11.8% of net sales and \$20.0 or 11.9% of net sales, respectively, in the same periods in 2015. The increase in operating income margin for the Cable Products and Solutions segment for the first six months of 2016, compared to the same period in 2015, primarily resulted from strong operating execution on additional volume, along with the favorable impact from commodities.

Interest expense for the second quarter and first six months of 2016 was \$18.0 and \$36.1, respectively, compared to \$17.1 and \$34.1 for the same periods in 2015, respectively. The increase is primarily attributable to the impact of higher average debt levels which primarily resulted from the Company's stock buyback programs.

Other income, net, decreased to \$1.7 and \$2.7 for the second quarter and first six months of 2016, respectively, compared to \$4.2 and \$8.3 for the same periods in 2015, respectively, primarily related to lower interest income on lower cash equivalents and short-term investments, which resulted from the funding of the acquisition of FCI in January 2016 with cash, cash equivalents and short-term investments held outside of the United States.

The provision for income taxes for the second quarter and the first six months of 2016 was at an effective rate of 26.5% and 27.5%, respectively. Excluding the net impact of acquisition-related expenses incurred in the first quarter of 2016, the effective tax rate for the first six months of 2016 was 26.5%. The provision for income taxes for the second quarter and the first six months of 2015 was at an effective tax rate of 27.1% and 26.8%, respectively. Excluding the net impact of acquisition-related expenses incurred in the second quarter of 2015, the effective tax rate in both the second quarter and the first six months of 2015 was 26.5%.

Liquidity and Capital Resources

Cash flow provided by operating activities was \$437.8 in the first six months of 2016 compared to \$422.8 in the same 2015 period. The increase in cash flow provided by operating activities for the first six months of 2016 compared to 2015 is primarily related to the increase in net income for the first six months of 2016 and the higher non-cash charges resulting from the increase in depreciation and amortization related to the FCI acquisition, which was partially offset by a higher usage of cash related to the change in working capital. Working capital as presented on the accompanying Condensed Consolidated Statements of Cash Flow increased \$62.6, excluding the impact of acquisitions and foreign currency translation, in the first six months of 2016 due primarily to an increase in accounts receivable and inventories of \$57.0 and \$11.3, respectively, partially offset by an increase in accounts payable of \$5.1. Working capital as presented on the accompanying Condensed Consolidated Statements of Cash Flow increased \$44.3, excluding the impact of acquisitions and foreign currency translation, in the first six months of 2015 due primarily to a decrease in accounts payable of \$62.8 and an increase in inventories of \$25.7, partially offset by a decrease in accounts receivable of \$33.8 and an increase in other accrued liabilities of \$8.3.

The following describes the significant changes in the amounts as presented on the accompanying Condensed Consolidated Balance Sheets at June 30, 2016 as compared to December 31, 2015. Accounts receivable increased \$152.7 to \$1,257.3 primarily due to the impact of the FCI acquisition of \$97.1 and an increase in sales volume in the second quarter. Days sales outstanding at June 30, 2016 and December 31, 2015 were approximately 73 and 71 days, respectively. Inventories increased \$74.8 to \$926.6, primarily due to the impact of the FCI acquisition of \$65.8. Inventory days at June 30, 2016 and December 31, 2015 were 79 days. Land and depreciable assets, net, increased \$83.3 to \$692.8

Edgar Filing: AMPHENOL CORP /DE/ - Form 10-Q

primarily due to the impact of the FCI acquisition of \$78.2 and capital expenditures of \$89.1, partially offset by depreciation of \$79.0. Goodwill increased \$948.8 to \$3,641.7 primarily as a result of goodwill recognized related to the FCI acquisition in the Interconnect Products and Assemblies segment in the first quarter of 2016. Intangibles and other long-term assets increased \$228.4 to \$534.4 primarily as a result of the identifiable intangible assets recognized related to the FCI acquisition, partially offset by amortization. Accounts payable increased \$57.3 to \$645.1 primarily as a result of the impact of the FCI acquisition of \$61.6. Payable days at June 30, 2016 and December 31, 2015 were 55 and 54 days, respectively. Total accrued expenses increased \$34.3 to \$454.6 primarily as a result of the impact of the FCI acquisition of \$55.0, offset by decreases in accrued income taxes and payments related to incentive compensation. Accrued pension benefit obligations and other long-term liabilities increased \$160.1 to \$518.5 primarily as a result of the impact of the FCI acquisition of \$157.4, specifically related to an increase in contingent tax liabilities and pension benefit obligations.

For the first six months of 2016, cash flow provided by operating activities of \$437.8, proceeds from the exercise of stock options including tax benefits from stock-based payment arrangements of \$84.3, net borrowings of \$18.1, and cash and cash equivalents on hand of \$943.2 were used to fund acquisition-related payments of \$1,185.8, purchases of treasury stock of \$108.4, dividend payments of \$86.3, capital expenditures (net of disposals) of \$85.7, net purchases of short-term investments of \$7.8, payments to shareholders of noncontrolling interests of \$4.1, and payments of costs related to the refinancing of our revolving credit facility of \$3.0. The effect of translation resulting from exchange rate changes at June 30, 2016 compared to December 31, 2015 (Translation) had the impact of

Table of Contents

decreasing cash and cash equivalents by \$2.3 in the first six months of 2016. For the first six months of 2015, cash flow provided by operating activities of \$422.8, net sales and maturities of short-term investments of \$206.2, net borrowings of \$86.5 and proceeds from the exercise of stock options including tax benefits from stock-based payment arrangements of \$49.3 were used to fund acquisition-related payments of \$171.8, purchases of treasury stock of \$143.6, capital expenditures (net of disposals) of \$82.9, dividend payments of \$77.5, and payments to shareholders of noncontrolling interests of \$4.4, resulted in an increase in cash and cash equivalents of \$273.9, net of Translation. Translation had the impact of decreasing cash and cash equivalents by \$10.7 in the first six months of 2015.

The ability to generate cash from operating activities is one of the Company's fundamental financial strengths. As a result, the Company has significant flexibility to meet its financial commitments. The Company uses debt financing to lower the overall cost of capital and increase return on stockholders' equity. The Company has been, and continues to be, able to borrow funds at reasonable interest rates. The Company's debt financing includes the use of the commercial paper program, the revolving credit facility and senior notes as part of its overall cash management strategy.

On March 1, 2016, the Company replaced its \$1,500.0 unsecured credit facility with a new \$2,000.0 unsecured credit facility (the 2016 Revolving Credit Facility). The 2016 Revolving Credit Facility, which matures March 2021, increases the aggregate commitments by \$500.0 and gives the Company the ability to borrow at a spread over LIBOR. The Company intends to utilize the new credit facility for general corporate purposes. At June 30, 2016, there were no borrowings under the 2016 Revolving Credit Facility. The 2016 Revolving Credit Facility requires payment of certain annual agency and commitment fees and requires that the Company satisfy certain financial covenants. At June 30, 2016, the Company was in compliance with the covenants under the 2016 Revolving Credit Facility.

Pursuant to the terms of the commercial paper program, the Company issues short-term unsecured commercial paper notes in one or more private placements (the Commercial Paper Program). Amounts available under the Commercial Paper Program are borrowed, repaid and re-borrowed from time to time. The Commercial Paper Program is rated A-2 by Standard & Poor's and P-2 by Moody's and is backstopped by the 2016 Revolving Credit Facility. Effective April 1, 2016, the maximum aggregate principal amount of the commercial paper notes that may be outstanding under the Commercial Paper Program at any time was increased by \$500.0 from \$1,500.0 to \$2,000.0. The amount of commercial paper notes outstanding as of June 30, 2016 was \$845.2. The Company reviews its optimal mix of short-term and long-term debt regularly and may replace certain amounts of commercial paper, short-term debt and current maturities of long-term debt with new issuances of long-term debt in the future.

As of June 30, 2016, the Company has outstanding senior notes (the Senior Notes) as follows:

	Principal Amount	Interest Rate	Maturity
\$	375.0	1.55%	September 2017
	750.0	2.55	January 2019
	375.0	3.125	September 2021
	500.0	4.00	February 2022

The Senior Notes are unsecured and rank equally in right of payment with the Company's other unsecured senior indebtedness. Interest on each series of the Senior Notes is payable semiannually. The Company may, at its option, redeem some or all of any series of Senior Notes at any time by paying 100% of the principal amount, plus accrued and unpaid interest, if any, to the date of repurchase, and if redeemed prior to the

date of maturity, a make-whole premium.

Refer to Note 13 of the Condensed Consolidated Financial Statements for further information related to the Company's debt.

The Company's primary sources of liquidity are internally generated cash flow, the Commercial Paper Program, the 2016 Revolving Credit Facility, and cash, cash equivalents and short-term investments. The Company expects that ongoing cash requirements will be funded from these sources; however, the Company's sources of liquidity could be adversely affected by, among other things, a decrease in demand for the Company's products or a deterioration in certain of the Company's financial ratios. However, management believes that the Company's cash, cash equivalents and short-term investment position, ability to generate strong cash flow from operations, and availability under its credit facilities will allow it to meet its obligations for the next twelve months.

The Company's primary ongoing cash requirements will be for operating and capital expenditures, product development activities, repurchase of its Common Stock, funding of pension obligations, dividends and debt service. The Company may also use cash to fund all or part of the cost of acquisitions, as was done with the acquisition of FCI as discussed above. The Company generally pays a quarterly dividend on its Common Stock. In the third quarter of 2015, the Board of Directors approved an increase in the quarterly dividend rate from \$0.125 to \$0.14 per share effective with the third quarter 2015 dividend. For the three and six months ended June 30, 2016, the Company paid dividends of \$43.0 and \$86.3, respectively, and declared dividends in the amount of \$43.2

Table of Contents

and \$86.3, respectively. For the three and six months ended June 30, 2015, the Company paid dividends in the amount of nil and \$77.5, respectively, and declared dividends in the amount of \$38.6 and \$77.4, respectively. The Company's debt service requirements consist primarily of principal and interest on the Senior Notes, the 2016 Revolving Credit Facility and the Commercial Paper Program.

In January 2015, the Board of Directors authorized a stock repurchase program under which the Company may repurchase up to 10 million shares of Common Stock during the two year period ending January 20, 2017 (the 2015 Stock Repurchase Program). During the six months ended June 30, 2016, the Company repurchased 2.0 million shares of Common Stock for \$108.4. These treasury shares have been retired by the Company and common stock and retained earnings were reduced accordingly. Through July 29, 2016, the Company repurchased an additional 0.7 million shares of Common Stock for \$42.2. At July 29, 2016, approximately 2.8 million additional shares of Common Stock may be repurchased under the 2015 Stock Repurchase Program. The price and timing of any future purchases under the 2015 Stock Repurchase Program will depend on factors such as levels of cash generation from operations, the volume of stock option exercises by employees, cash requirements for acquisitions, dividends, economic and market conditions and stock price.

For the three and six months ended June 30, 2016, the Company did not make a cash contribution to its defined benefit pension plans (the Plans) and estimates that, based on current actuarial calculations, it will make aggregate cash contributions to the Plans in 2016 of approximately \$22.0, the majority of which is to the U.S. Plans. The timing and amount of cash contributions in subsequent years will depend on a number of factors, including the investment performance of the plan assets.

Environmental Matters

Certain operations of the Company are subject to environmental laws and regulations which govern the discharge of pollutants into the air and water, as well as the handling and disposal of solid and hazardous wastes. The Company believes that its operations are currently in substantial compliance with applicable environmental laws and regulations and that the costs of continuing compliance will not have a material effect on the Company's financial condition, results of operations or cash flows.

Safe Harbor Statement

Statements in this Form 10-Q, which are other than historical facts, are intended to be forward-looking statements within the meaning of the Securities Exchange Act of 1934, the Private Securities Litigation Reform Act of 1995 and other related laws. While the Company believes such statements are reasonable, the actual results and effects could differ materially from those currently anticipated. Please refer to Part I, Item 1A of the Company's 2015 Annual Report, for some factors that could cause the actual results to differ from estimates. In providing forward-looking statements, the Company is not undertaking any duty or obligation to update these statements publicly as a result of new information, future events or otherwise.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

The Company, in the normal course of doing business, is exposed to the risks associated with foreign currency exchange rates and changes in interest rates. There has been no material change in the Company's assessment of its sensitivity to foreign currency exchange rate risk since its presentation set forth in Part II, Item 7A Quantitative and Qualitative Disclosures About Market Risk in its 2015 Annual Report. Throughout the year, the Company may borrow under its 2016 Revolving Credit Facility and Commercial Paper Program, each of which bears interest at or trades at rates that fluctuate with LIBOR. Therefore, when the Company borrows under these debt instruments, the Company is exposed to market risk related to changes in interest rates. As of June 30, 2016, there were no LIBOR-based borrowings outstanding under the 2016 Revolving Credit Facility and borrowings under the Commercial Paper Program were at an average rate of 0.81%. The Company does not expect changes in interest rates to have a material effect on income or cash flows in 2016, although there can be no assurances that interest rates will not change significantly.

Item 4. Controls and Procedures

Under the supervision and with the participation of the Company's management, including the Company's Chief Executive Officer and Chief Financial Officer, the Company has evaluated the effectiveness of the design and operation of its disclosure controls and procedures as defined in Rules 13a-15(e) and 15d-15(e) of the Securities Exchange Act of 1934 (the Exchange Act) as of the period covered by this report. Based on their evaluation, the Chief Executive Officer and Chief Financial Officer have concluded that these disclosure controls and procedures are effective in providing reasonable assurance that information required to be disclosed by the Company in reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in Securities and Exchange Commission rules and forms and such information is accumulated and communicated to management, including the Company's principal executive and financial officers, to allow timely decisions regarding required disclosure. There has been no change in the Company's internal controls over financial reporting during its most

Table of Contents

recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, its internal controls over financial reporting.

Table of Contents**PART II - OTHER INFORMATION****Item 1. Legal Proceedings**

The Company and its subsidiaries have been named as defendants in several legal actions in which various amounts are claimed arising from normal business activities. Although the potential liability with respect to such legal actions cannot be reasonably estimated, such matters are not expected to have a material adverse effect on the Company's financial condition, results of operations or cash flows.

Item 1A. Risk Factors

There have been no material changes to the Company's risk factors as disclosed in Part I, Item 1A of the Company's 2015 Annual Report.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds**Repurchase of Equity Securities**

In January 2015, the Company's Board of Directors authorized a stock repurchase program under which the Company may repurchase up to 10 million shares of Common Stock during the two year period ending January 20, 2017 (the 2015 Stock Repurchase Program). During the three and six months ended June 30, 2016, the Company repurchased 1.0 million and 2.0 million shares of Common Stock for approximately \$59.2 million and \$108.4 million, respectively. These treasury shares have been retired by the Company and common stock and retained earnings were reduced accordingly. The price and timing of any future purchases under the 2015 Stock Repurchase Program will depend on factors such as levels of cash generation from operations, the volume of stock option exercises by employees, cash requirements for acquisitions, dividends, economic and market conditions and stock price. Through July 29, 2016, the Company repurchased an additional 0.7 million shares of Common Stock for approximately \$42.2 million. At July 29, 2016, approximately 2.8 million additional shares of Common Stock may be repurchased under the 2015 Stock Repurchase Program. The table below reflects the Company's stock repurchases for the three months ended June 30, 2016:

Period	Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Maximum Number of Shares that May Yet Be Purchased Under the Plans or Programs
April 1 to April 30, 2016		\$		4,465,400
May 1 to May 31, 2016				4,465,400
June 1 to June 30, 2016	1,000,000	59.18	1,000,000	3,465,400
Total	1,000,000	\$ 59.18	1,000,000	3,465,400

Item 3. Defaults Upon Senior Securities

None.

Item 4. Mine Safety Disclosures
