Indicate by check mark if the registrant is submitting the Form 6-K in paper as permitted by Regulation S-T Rule 101(b)(1):

Indicate by check mark if the registrant is submitting the Form 6-K in paper as permitted by Regulation S-T Rule 101(b)(7):

Indicate by check mark whether the registrant by furnishing the information contained in this Form is also thereby furnishing the information to the Commission pursuant to Rule 12g3-2(b) under the Securities Exchange Act of 1934.

Yes No

If Yes is marked, indicate below the file number assigned to the registrant in connection with Rule 12g3-2(b): 82-.

This Report on Form 6-K contains a Stock Exchange Announcement dated 02 October 2018 entitled VODAFONE ITALY ACQUIRES SPECTRUM FOR 5G SERVICES

RNS: 7658C

Vodafone Group Plc

02 October 2018

VODAFONE ITALY ACQUIRES SPECTRUM FOR 5G SERVICES

Vodafone Italy has acquired spectrum to enable the deployment of new 5G technology for a total cost of 2.4 billion. The spectrum will deliver substantial network operating cost efficiencies to meet the expected future growth in data traffic.

The spectrum acquired in the auction hosted by the Ministry of Economic Development comprises:

- **3700 MHz** 80 MHz for 1,685 million, available from 1 January 2019 with a licence duration of 19 years.
- **700 MHz** 2 x 10 MHz FDD (Frequency Division Duplexing) for 683 million, available from July 2022 with a licence duration of 15.5 years.
- **26 GHz** 200 MHz for 33 million, available from 1 January 2019 with a licence duration of 19 years.

The 3700 MHz spectrum acquired can be immediately utilised by Vodafone Italy to enhance coverage, improve capacity, and for the rapid development of 5G services.

When it is available from 2022, the 700 MHz spectrum will be used to deploy enhanced 5G services, providing nationwide coverage at very high speed and very low latency for next-generation applications including IoT, virtual and augmented reality, connected vehicles and robotics.

Vodafone can also use the 26 GHz spectrum acquired to deliver high capacity services in densely populated locations such as city centres, sports stadiums or industrial plants.

Vodafone is also leading 5G trials promoted by the Ministry for Economic Development in Milan and its metropolitan area, with the aim of transforming Milan into the 5G capital of Europe. Vodafone expects to have already achieved coverage of 80% of Milan and

its metropolitan area by December 2018.

Edgar Filing: VODAFONE GROUP PUBLIC LTD CO - Form 6-K

Vodafone Group CEO Nick Read said: Auctions should be designed to balance fiscal requirements with the need for investment to enable economic development. Telecoms is the sector that enables all other sectors to participate in the Gigabit society. It is critical that European governments avoid artificial auction constructs which fail to strike a healthy balance for the industry.

Vodafone Italy has the following spectrum holdings before and after the auction:

	Existing Holding	Purchased	Post-purchase
700 MHz (FDD)		2 x 10 MHz	2 x 10 MHz
800 MHz	2 x 10 MHz		2 x 10 MHz
900 MHz	2 x 10 MHz		2 x 10 MHz
1400 / 1500 MHz	1 x 20 MHz		1 x 20 MHz
1800 MHz	2 x 20 MHz		2 x 20 MHz
2100 MHz (inc. TDD)	2 x 15 + 5 MHz		2 x 15 + 5 MHz
2600 MHz	2 x 15 MHz		2 x 15 MHz
3700 MHz (TDD)		80 MHz	80 MHz
26 GHz		200 MHz	200 MHz

- ends -
