EQT FILES INVESTOR PRESENTATION AND REITERATES COMMITMENT TO GENERATE SUSTAINABLE FREE CASH FLOW

Operational Update Demonstrates Continued Successful Execution of New Management Team's Strategic Plan

Implemented Cost Saving Actions that Reduced Annual Cash Costs by Approximately \$150 Million

PITTSBURGH (March 25, 2019) EQT Corporation (NYSE: EQT) today announced that it has released an investor presentation outlining its ongoing strategic plan to drive cost reductions across the business and generate sustainable free cash flow growth.

Highlights of the presentation, which is available at ir.eqt.com, include:

- **EQT has substantially reconstituted its Board of Directors and management team**
- Refreshed Board: EQT appointed four new independent directors in November of 2018. The Board established an Operating and Capital Efficiency Committee in December; Committee members have strong reputations as efficient operators and substantial financial expertise.
- New Team: EQT's management team includes a new Chief Executive Officer, Chief Financial Officer, General Counsel and Head of IR. Chief Operating Officer Gary Gould will assume his role in April.
- **EQT is committed to realizing efficiencies and driving down costs**
- Operational Achievements: EQT is achieving the operational targets set out for the first quarter of 2019. The Company has made significant progress across drilling and completion operations. Highlights include approximately 90% of wells drilled over 12,000 feet on-time and

on-budget and a 35% improvement in stages per crew per month. Stabilized operations and sustained focus on operational efficiencies are expected to continue driving improvements throughout 2019.

- Cost reductions: EQT has already implemented cost saving actions that reduced annual cash costs by approximately \$150 million. This includes approximately \$50 million of annual cost savings under EQT's Target 10% Initiative, which aims to reduce cash costs by 10%. Continued successful execution of this initiative is expected to yield cost savings of \$800 million over the next five years, \$250 million of which has already been identified.

- **EQT's team is demonstrating its ability to achieve and exceed financial objectives**

- **Fourth Quarter 2018:** EQT delivered approximately \$134 million of adjusted free cash flow (a non-GAAP measure) in the fourth quarter of 2018, above prior guidance. These strong results underscore EQT's focus on enhancing operational efficiency to drive accelerated cash flow growth and shareholder value creation.

- **Building on Strong Performance:** EQT's strong operational performance underpins the Company's confidence in its financial forecast. EQT anticipates generating adjusted free cash flow (a non-GAAP measure) of approximately \$300 to \$400 million in 2019 and \$2.9 billion over the next five years, up from the \$2.7 billion announced in January with the Company's ongoing Target 10% Initiative providing incremental upside.

- **First Quarter 2019 In-Line with Expectations:** EQT expects first quarter 2019 sales volumes to come in at the high-end of the guidance range of 360 to 380 Bcfe while anticipating first quarter 2019 capital expenditures in-line with expectations. This supports the ongoing operational and capital efficiency efforts implemented by senior management.

The new team at EQT is energized by our significant progress and the opportunities ahead of us, and we are working with urgency to unlock the enormous potential of the new EQT, said Rob McNally, EQT's president and chief executive officer. We are turning EQT into a free cash flow machine and remain on track to deliver another quarter of strong financial and operational performance. The operating efficiencies we have implemented across EQT are allowing us to do more with less, including increasing lateral lengths across our program and increasing production. We are confident we will achieve our targets for 2019 and beyond. With world-class assets, a sound plan and a strong team committed to operational excellence, we look forward to building on our progress and delivering significant value to shareholders.

NON-GAAP DISCLOSURES

Adjusted Free Cash Flow

Adjusted operating cash flow is defined as EQT's net cash provided by operating activities less changes in other assets and liabilities, less EBITDA attributable to discontinued operations (a non-GAAP supplemental financial measure defined herein), plus interest expense attributable to discontinued operations and cash distributions from discontinued operations. Adjusted free cash flow is defined as adjusted operating cash flow less accrual-based capital expenditures attributable to continuing operations. Adjusted operating cash flow and adjusted free cash flow are non-GAAP supplemental financial measures that EQT's management and external users of EQT's consolidated financial statements, such as industry analysts, lenders and ratings agencies use to assess EQT's liquidity. EQT believes that adjusted operating cash flow and adjusted free cash flow provide useful information to management and investors in assessing the impact of EQT's ability to generate cash flow in excess of capital requirements and return cash to shareholders. Adjusted operating cash flow and adjusted free cash flow should not be considered as alternatives to net cash provided by operating activities or any other measure of liquidity presented in accordance with GAAP.

EQT has not provided projected net cash provided by operating activities or reconciliations of projected adjusted operating cash flow and adjusted free cash flow to projected net cash provided by operating activities, the most comparable financial measure calculated in accordance with GAAP. EQT is unable to project net cash provided by operating activities for any future period because this metric includes the impact of changes in operating assets and liabilities related to the timing of cash receipts and disbursements that may not relate to the period in which the operating activities occurred. EQT is unable to project these timing differences with any reasonable degree of accuracy without unreasonable efforts such as predicting the timing of its and customers' payments, with accuracy to a specific day months in advance. Furthermore, EQT does not provide guidance with respect to its average realized price, among other items, that impact reconciling items between net cash provided by operating activities and adjusted operating cash flow and adjusted free cash flow, as applicable. Natural gas prices are volatile and out of EQT's control, and the timing of transactions and the income tax effects of future transactions and other items are difficult to accurately predict. Therefore, EQT is unable to provide projected net cash provided by operating activities, or the related reconciliations of projected adjusted operating cash flow and adjusted free cash flow to projected net cash provided by operating activities, without unreasonable effort.

The table below reconciles adjusted operating cash flow and adjusted free cash flow with net cash provided by operating activities, the most comparable financial measure calculated in accordance with GAAP, as derived from the Statements of Consolidated Cash Flows to included in EQT's report on Form 10-K for the year ended December 31, 2018.

\$ in thousands	Three Months Ended December 31, 2018	Year Ended December 31, 2018
Net cash provided by operating activities	\$ 530,866	\$ 2,976,256
Add back / (deduct) changes in other assets and liabilities	261,216	119,495
Operating cash flow	792,082	3,095,751
(Deduct) / add back:		
EBITDA attributable to discontinued operations (a)	(118,934)	(988,291)
Interest expense attributable to discontinued operations	19,452	88,300
Cash distributions from discontinued operations (b)		280,401
Adjusted operating cash flow	692,600	2,476,161
(Deduct):		
Capital expenditures attributable to continuing operations	(558,351)	(2,739,103)
Adjusted free cash flow	\$ 134,249	\$ (262,942)

(a) As a result of the separation of Equitrans Midstream Corporation, the results of operations of Equitrans Midstream Corporation are presented as discontinued operations in EQT's Statements

of Consolidated Operations. EBITDA attributable to discontinued operations is a non-GAAP supplemental financial measure reconciled herein.

(b) Cash distributions from discontinued operations represents the cash distributions payable from EQM Midstream Partners, LP, EQGP Holdings, LP and RM Partners LP (EQT's former midstream affiliates) to EQT for the year ended December 31, 2018.

EBITDA Attributable to Discontinued Operations

EBITDA attributable to discontinued operations is a non-GAAP supplemental financial measure defined as net income from discontinued operations, plus interest expense, income tax expense, depreciation, amortization and impairment of goodwill attributable to discontinued operations for the three months and years ended December 31, 2018.

The table below reconciles EBITDA attributable to discontinued operations with (loss) income from discontinued operations, net of tax, the most comparable financial measure calculated in accordance with GAAP, as reported in the Statements of Consolidated Operations included in EQT's report on Form 10-K for the year ended December 31, 2018.

\$ in thousands	Three Months Ended December 31, 2018	Year Ended December 31, 2018

Cautionary Statements

This news release contains certain forward-looking statements within the meaning of Section 21E of the Securities Exchange Act of 1934, as amended, and Section 27A of the Securities Act of 1933, as amended. Statements that do not relate strictly to historical or current facts are forward-looking. Without limiting the generality of the foregoing, forward-looking statements contained in this news release specifically include the expectations of plans, strategies, objectives and growth, and anticipated financial and operational performance of the Company and its subsidiaries, including projected sales volumes; projected reductions in expenses, capital costs and well costs; projected capital efficiency and cash savings and other operating efficiencies associated with the Company's shift to a steady operating cadence and the Company's ability to achieve such efficiencies; and projected adjusted free cash flow. These statements involve risks and uncertainties that could cause actual results to differ materially from projected results. Accordingly, investors should not place undue reliance on forward-looking statements as a prediction of actual results. The Company has based these forward-looking statements on current expectations and assumptions about future events, taking into account all information currently available to the Company. While the Company considers these expectations and assumptions to be reasonable, they are inherently subject to significant business, economic, competitive, regulatory and other risks and uncertainties, many of which are difficult to predict and beyond the Company's control. The risks and uncertainties that may affect the operations, performance and results of the Company's business and forward-looking statements include, but are not limited to, those set forth under Item 1A, Risk Factors of the Company's Form 10-K for the year ended December 31, 2018, as updated by any subsequent Form 10-Qs, and those set forth in the other documents the Company files from time to time with the SEC. Any forward-looking statement speaks only as of the date on which such statement is made, and the Company does not intend to correct or update any forward-looking statement, whether as a result of new information, future events or otherwise, except as required by law.
