FORWARD-LOOKING STATEMENTS

Certain of the statements in this quarterly report on Form 10-Q may constitute forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. The words "expect," "anticipate," "goal," "objective," "intend," "plan," "believe," "should," "seek," "estimate" and similar expressions are intended to identify such forward-looking statements, but other statements not based on historical information may also be considered forward-looking. All forward-looking statements are subject to risks, uncertainties and other factors that may cause the actual results, performance or achievements of Pinnacle Financial to differ materially from any results expressed or implied by such forward-looking statements. Such risks include, without limitation, (i) deterioration in the financial condition of borrowers resulting in significant increases in loan losses and provisions for those losses; (ii) continuation of the historically low short-term interest rate environment; (iii) the inability of Pinnacle Financial to grow its loan portfolio; (iv) changes in loan underwriting, credit review or loss reserve policies associated with economic conditions, examination conclusions, or regulatory developments; (v) effectiveness of Pinnacle Financial's asset management activities in improving, resolving or liquidating lower-quality assets; (vi) increased competition with other financial institutions; (vii) greater than anticipated adverse conditions in the national or local economies including the Nashville-Davidson-Murfreesboro-Franklin MSA and the Knoxville MSA, particularly in commercial and residential real estate markets; (viii) rapid fluctuations or unanticipated changes in interest rates on loans or deposits; (ix) the results of regulatory examinations; (x) the ability to retain large, uninsured deposits; (xi) the development of any new market other than Nashville or Knoxville; (xii) a merger or acquisition; (xiii) any matter that would cause Pinnacle Financial to conclude that there was impairment of any asset, including intangible assets; (xiv) reduced ability to attract additional financial advisors (or failure of such advisors to cause their clients to switch to Pinnacle Financial) or otherwise to attract customers from other financial institutions; (xv) further deterioration in the valuation of other real estate owned and increased expenses associated therewith; (xvi) inability to comply with regulatory capital requirements, including those resulting from changes to capital calculation methodologies and required capital maintenance levels; (xvii) risks associated with litigation, including the applicability of insurance coverage; (xviii) approval of the declaration of any dividend by Pinnacle Financial's board of directors; (xix) the vulnerability of our network and online banking portals to unauthorized access, computer viruses, phishing schemes, spam attacks, human error, natural disasters, power loss and other security breaches; (xx) the possibility of increased compliance costs as a result of increased regulatory oversight and the development of additional banking products for our corporate and consumer clients; and (xxi) changes in state and federal legislation, regulations or policies applicable to banks and other financial service providers, including regulatory or legislative developments arising out of current unsettled conditions in the economy, including implementation of the Dodd-Frank Wall Street Reform and Consumer Protection Act. A more detailed description of these and other risks is contained in Pinnacle Financial's most recent annual report on Form 10-K filed with the Securities and Exchange Commission on February 25, 2014 and Pinnacle Financial's most recent quarterly report on Form 10-Q filed with the Securities and Exchange Commission on May 2, 2014. Many of such factors are beyond Pinnacle Financial's ability to control or predict, and readers are cautioned not to put undue reliance on such forward-looking statements. Pinnacle Financial disclaims any obligation to update or revise any forward-looking statements contained in this report, whether as a result of new information, future events or otherwise.

PINNACLE FINANCIAL PARTNERS, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

Note 1. Summary of Significant Accounting Policies

Nature of Business — Pinnacle Financial Partners, Inc. (Pinnacle Financial) is a bank holding company whose primary business is conducted by its wholly-owned subsidiary, Pinnacle Bank. Pinnacle Bank is a commercial bank headquartered in Nashville, Tennessee. Pinnacle Bank provides a full range of banking services in its primary market areas of the Nashville-Davidson-Murfreesboro-Franklin, Tennessee and Knoxville, Tennessee Metropolitan Statistical Areas.

Basis of Presentation — The accompanying unaudited consolidated financial statements have been prepared in accordance with instructions to Form 10-Q and therefore do not include all information and footnotes necessary for a fair presentation of financial position, results of operations, and cash flows in conformity with U.S. generally accepted accounting principles (U.S. GAAP). All adjustments consisting of normally recurring accruals that, in the opinion of management, are necessary for a fair presentation of the financial position and results of operations for the periods covered by the report have been included. The accompanying unaudited consolidated financial statements should be read in conjunction with the Pinnacle Financial consolidated financial statements and related notes appearing in the 2013 Annual Report previously filed on Form 10-K.

These consolidated financial statements include the accounts of Pinnacle Financial and its wholly-owned subsidiaries. PNFP Statutory Trust I, PNFP Statutory Trust II, PNFP Statutory Trust III and PNFP Statutory Trust IV are affiliates of Pinnacle Financial and are included in these consolidated financial statements pursuant to the equity method of accounting. Significant intercompany transactions and accounts are eliminated in consolidation.

Use of Estimates — The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities as of the balance sheet date and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. Material estimates that are particularly susceptible to significant change in the near term include the determination of the allowance for loan losses, any potential impairment of intangible assets, including goodwill and the valuation of deferred tax assets, other real estate owned, and our investment portfolio, including other-than-temporary impairment. These financial statements should be read in conjunction with Pinnacle Financial's Annual Report on Form 10-K for the year ended December 31, 2013. There have been no significant changes to Pinnacle Financial's significant accounting policies as disclosed in Pinnacle Financial's Annual Report on Form 10-K for the year ended December 31, 2013.

Recently Adopted Accounting Pronouncements — In February 2013, the FASB issued Accounting Standards Update 2013-02, "Comprehensive Income (Topic 220): Reporting of Amounts Reclassified Out of Accumulated Other Comprehensive Income" which provides disclosure guidance on amounts reclassified out of AOCI by component. The adoption did not have any impact on our financial position or results of operations but has impacted our financial statement disclosure. As shown on the statement of comprehensive income for the three and six months ended June 30, 2014, Pinnacle Financial did not reclassify any net losses out of other comprehensive income into loss on the sale of investment securities, net of tax, compared to reclassifications of net losses for the three and six months ended June 30, 2013, of approximately \$15,000, net of tax.

Cash Flow Information — Supplemental cash flow information addressing certain cash and noncash transactions for each of the six months ended June 30, 2014 and 2013 was as follows:

Income Per Common Share — Basic net income per common share (EPS) is computed by dividing net income by the weighted average common shares outstanding for the period. Diluted EPS reflects the dilution that could occur if securities or other contracts to issue common stock were exercised or converted. The difference between basic and diluted weighted average shares outstanding is attributable to common stock options, common stock appreciation rights, restricted share awards, and restricted share unit awards. The dilutive effect of outstanding options, common stock appreciation rights, restricted share awards, and restricted share unit awards is reflected in diluted EPS by application of the treasury stock method.

The following is a summary of the basic and diluted net income per share calculations for the three and six months ended June 30, 2014 and 2013:

	For the three months ended		For the six months ended

At June 30, 2014, approximately \$619.1 million of securities within Pinnacle Financial's investment portfolio were either pledged to secure public funds and other deposits or securities sold under agreements to repurchase.

The amortized cost and fair value of debt securities as of June 30, 2014 by contractual maturity are shown below. Actual maturities may differ from contractual maturities of mortgage- and asset-backed securities since the mortgages and assets underlying the securities may be called or prepaid with or without penalty. Therefore, these securities are not included in the maturity categories in the following summary (in thousands):

At June 30, 2014 and December 31, 2013, the following investments had unrealized losses. The table below classifies these investments according to the term of the unrealized losses of less than twelve months or twelve months or longer (in thousands):

	Investments with an Unrealized Loss of less than 12 months		Investments with an Unrealized Loss of 12 months or longer		Total Investments with an Unrealized Loss

Total temporarily-impaired securities	\$213,232	\$ 5,292	\$156,735	\$ 19,101	\$369,967	\$ 24,393

The applicable dates for determining when securities are in an unrealized loss position are June 30, 2014 and December 31, 2013. As such, it is possible that a security had a market value that exceeded its amortized cost on other days during the past twelve-month periods ended June 30, 2014 and December 31, 2013, but is in the "Investments with an Unrealized Loss of less than 12 months" category above.

As shown in the tables above, at June 30, 2014, Pinnacle Financial had approximately \$11.2 million in unrealized losses on \$331.3 million of securities. The unrealized losses associated with these investment securities are driven by changes in interest rates and the unrealized loss is recorded as a component of equity. These securities will continue to be monitored as a part of our ongoing impairment analysis, but are expected to perform even if the rating agencies reduce the credit rating of the bond issuers. Management evaluates the financial performance of the issuers on a quarterly basis to determine if it is probable that the issuers can make all contractual principal and interest payments. If a shortfall in future cash flows is identified, a credit loss will be deemed to have occurred and will be recognized as a charge to earnings and a new cost basis for the security will be established.

Because Pinnacle Financial currently does not intend to sell those securities that have an unrealized loss at June 30, 2014, and it is not more-likely-than-not that Pinnacle Financial will be required to sell the securities before recovery of their amortized cost bases, which may be maturity, Pinnacle Financial does not consider these securities to be other-than-temporarily impaired at June 30, 2014.

Periodically, available-for-sale securities may be sold or the composition of the portfolio realigned to improve yields, quality or marketability, or to implement changes in investment or asset/liability strategy, including maintaining collateral requirements and raising funds for liquidity purposes. Additionally, if an available-for-sale security loses its investment grade or tax-exempt status, the underlying credit support is terminated or collection otherwise becomes uncertain based on factors known to management, Pinnacle Financial will consider selling the security, but will review each security on a case-by-case basis as these factors become known.

The carrying values of Pinnacle Financial's investment securities could decline in the future if the financial condition of issuers deteriorates and management determines it is probable that Pinnacle Financial will not recover the entire amortized cost bases of the securities. As a result, there is a risk that other-than-temporary impairment charges may occur in the future. There is also a risk that other-than-temporary impairment charges may occur in the future if management's intention to hold these securities to maturity and/or recovery changes.

Note 3. Loans and Allowance for Loan Losses

For financial reporting purposes, Pinnacle Financial classifies its loan portfolio based on the underlying collateral utilized to secure each loan. This classification is consistent with those utilized in the Quarterly Report of Condition and Income filed with the Federal Deposit Insurance Corporation (FDIC).

Commercial loans receive risk ratings by the assigned financial advisor subject to validation by Pinnacle Financial's independent loan review department. Risk ratings are categorized as pass, special mention, substandard, substandard-nonaccrual or doubtful-nonaccrual. Pinnacle Financial believes that its categories follow those used by Pinnacle Bank's primary regulators. At June 30, 2014, approximately 75% of our loan portfolio was analyzed as a commercial loan type with a specifically assigned risk rating in the allowance for loan loss assessment. Consumer loans and small business loans are generally not assigned an individual risk rating but are evaluated as either accrual or nonaccrual based on the performance of the individual loans. However, certain consumer real estate-mortgage loans and certain consumer and other loans receive a specific risk rating due to the loan proceeds being used for commercial purposes even though the collateral may be of a consumer loan nature.

Risk ratings are subject to continual review by the loan officer. At least annually, our credit procedures require that every risk rated loan of \$500,000 or more be subject to a formal credit risk review process. Each loan's risk rating is also subject to review by our independent loan review department, which reviews a substantial portion of our risk rated portfolio annually. Included in the coverage are independent loan reviews of loans in targeted higher-risk portfolio segments.

The following table presents our loan balances by primary loan classification and the amount within each risk rating category. Pass rated loans include all credits other than those included in special mention, substandard, substandard-nonaccrual and doubtful-nonaccrual which are defined as follows:

Special mention loans have potential weaknesses that deserve management's close attention. If left uncorrected, these potential weaknesses may result in deterioration of the repayment prospects for the asset or in Pinnacle Financial's credit position at some future date.

Substandard loans are inadequately protected by the current sound worth and paying capacity of the obligor or of the collateral pledged, if any. Assets so classified must have a well-defined weakness or weaknesses that jeopardize collection of the debt. Substandard loans are characterized by the distinct possibility that Pinnacle Financial will sustain some loss if the deficiencies are not corrected.

Substandard-nonaccrual loans are substandard loans that have been placed on nonaccrual status.

Doubtful-nonaccrual loans have all the characteristics of substandard-nonaccrual loans with the added characteristic that the weaknesses make collection or liquidation in full, on the basis of currently existing facts, conditions and values, highly questionable and improbable.

Potential problem loans represent those loans with a well-defined weakness and where information about possible credit problems of borrowers has caused management to have doubts about the borrower's ability to comply with present repayment terms. This definition is believed to be substantially consistent with the standards established by Pinnacle Bank's primary regulators for loans classified as substandard, excluding the impact of nonaccrual loans and troubled debt restructurings. Potential problem loans, which are not included in nonaccrual loans, amounted to approximately \$77.1 million at June 30, 2014, compared to \$65.0 million at December 31, 2013.

(2) Troubled debt restructurings are presented as an impaired loan; however, they continue to accrue interest at contractual rates.

(2) Troubled debt restructurings are presented as an impaired loan; however, they continue to accrue interest at contractual rates.

At June 30, 2014 and December 31, 2013, all loans classified as nonaccrual were deemed to be impaired. The principal balances of these nonaccrual loans amounted to \$15.7 million and \$18.2 million at June 30, 2014 and December 31, 2013, respectively, and are included in the tables above. For the six months ended June 30, 2014, the average balance of nonaccrual loans was \$16.1 million as compared to \$21.5 million for the twelve months ended December 31, 2013. At the date such loans were placed on nonaccrual status, Pinnacle Financial reversed all previously accrued interest income against current year earnings. Had these nonaccrual loans been on accruing status, interest income would have been higher by \$416,000 for the six months ended June 30, 2014 and by \$573,000 for the six months ended June 30, 2013.

- (1) Collateral dependent loans are typically charged-off to their net realizable value pursuant to requirements of our primary regulators and no specific allowance is carried related to those loans.

Pinnacle Financial's policy is that once a loan is placed on nonaccrual status each subsequent payment is reviewed on a case-by-case basis to determine if the payment should be applied to interest or principal pursuant to regulatory guidelines. Pinnacle Financial recognized no interest income from cash payments received on nonaccrual loans during the three and six months ended June 30, 2014 or during the year ended December 31, 2013.

Impaired loans also include loans that Pinnacle Bank has elected to formally restructure due to the weakening credit status of a borrower. The restructuring may facilitate a repayment plan that seeks to minimize the potential losses that Pinnacle Bank may otherwise incur. If on nonaccrual status as of the date of restructuring, the loans are included in nonaccrual loans. Loans that have been restructured that were performing as of the restructure date and continue to perform in accordance with the restructured terms are reported separately as troubled debt restructurings.

At June 30, 2014 and December 31, 2013, there were \$7.6 million and \$19.6 million, respectively, of troubled debt restructurings that were performing as of their restructure date and which were accruing interest. These troubled debt restructurings are considered impaired loans pursuant to U.S. GAAP. Troubled commercial loans are restructured by specialists within our Special Assets Group, and all restructurings are approved by committees and credit officers separate and apart from the normal loan approval process. These specialists are charged with reducing Pinnacle Financial's overall risk and exposure to loss in the event of a restructuring by obtaining some or all of the following: improved documentation, additional guaranties, increase in curtailments, reduction in collateral release terms, additional collateral or other similar strategies.

During the six months ended June 30, 2014, Pinnacle Financial did not have any troubled debt restructurings that subsequently defaulted within twelve months of the restructuring. During the six months ended June 30, 2013, two consumer real estate loans totaling \$1.0 million which were previously classified as a troubled debt restructuring subsequently defaulted due to their lack of performance, within twelve months of the restructuring. A default of a troubled debt restructuring is defined as an occurrence which violates the terms of the receivable's restructured contract.

Pinnacle Financial analyzes its commercial loan portfolio to determine if a concentration of credit risk exists to any industry. Pinnacle Financial utilizes broadly accepted industry classification systems in order to classify borrowers into various industry classifications. Pinnacle Financial has a credit exposure (loans outstanding plus unfunded lines of credit) exceeding 25% of Pinnacle Bank's total risk-based capital to borrowers in the following industries at June 30, 2014 with the comparative exposures for December 31, 2013 (in thousands):

At June 30, 2014:

	Outstanding Principal Balances	Unfunded Commitments	Total exposure	Total Exposure at December 31, 2013
Lessors of nonresidential buildings	\$477,902	\$ 73,210	\$551,112	\$515,240

The adequacy of the allowance for loan losses is assessed at the end of each calendar quarter. The level of the allowance is based upon evaluation of the loan portfolio, current asset quality trends, known and inherent risks in the portfolio, adverse situations that may affect the borrowers' ability to repay (including the timing of future payment), the estimated value of any underlying collateral, composition of the loan portfolio, economic conditions, historical loss experience, industry and peer bank loan quality indications and other pertinent factors, including regulatory recommendations.

At June 30, 2014, Pinnacle Financial had granted loans and other extensions of credit amounting to approximately \$8.7 million to current directors, executive officers, and their related entities, of which \$6.2 million had been drawn upon. At December 31, 2013, Pinnacle Financial had granted loans and other extensions of credit amounting to approximately \$11.2 million to directors, executive officers, and their related entities, of which approximately \$8.9 million had been drawn upon. These loans and extensions of credit were made in the ordinary course of business on substantially the same terms, including interest rates and collateral, as those prevailing at the time for comparable loans to persons not related to Pinnacle Bank and did not involve more than the normal risk of collectability or present other unfavorable features. None of these loans to directors, executive officers, and their related entities were impaired at June 30, 2014 or December 31, 2013.

Residential Lending

At June 30, 2014, Pinnacle Financial had approximately \$24.6 million of mortgage loans held-for-sale compared to approximately \$12.9 million at December 31, 2013. During the first quarter of 2014, Pinnacle Financial began delivering loans on a mandatory basis to its approved investors. Mandatory delivery requires that Pinnacle Financial deliver an individual loan contract to the investor or compensate the investor in the event the loan does not ultimately close. Mandatory delivery exposes Pinnacle Financial to interest rate risk between the initial rate-lock and the ultimate sale of the loan to its approved investors. Pinnacle Financial enters into a short-term economic hedging relationship on a loan-by-loan basis to mitigate this interest rate exposure. Pinnacle Financial has not entered into any forward commitments with investors for future bulk loan sales. All of these loan sales transfer servicing rights to the buyer. During the six months ended June 30, 2014, Pinnacle Financial recognized \$2.9 million in gains on the sale of these loans, net of commissions paid, compared to \$3.8 million during the six months ended June 30, 2013.

These mortgage loans held-for-sale are originated internally and are primarily to borrowers in Pinnacle Bank's geographic markets. These sales are typically on a mandatory basis to investors that follow conventional government sponsored entities (GSE) and the Department of Housing and Urban Development/U.S. Department of Veterans Affairs (HUD/VA) guidelines.

Each purchaser has specific guidelines and criteria for sellers of loans, and the risk of credit loss with regard to the principal amount of the loans sold is generally transferred to the purchasers upon sale. While the loans are sold without recourse, the purchase agreements require Pinnacle Bank to make certain representations and warranties regarding the existence and sufficiency of file documentation and the absence of fraud by borrowers or other third parties such as appraisers in connection with obtaining the loan. If it is determined that the loans sold were in breach of these representations or warranties, Pinnacle Bank has obligations to either repurchase the loan for the unpaid principal balance and related investor fees or make the purchaser whole for the economic benefits of the loan. To date, repurchase activity pursuant to the terms of these representations and warranties has been insignificant to Pinnacle Bank.

Note 4. Income Taxes

Accounting Standards Codification (ASC) 740, Income Taxes, defines the threshold for recognizing the benefits of tax return positions in the financial statements as "more-likely-than-not" to be sustained by the taxing authority. As of June 30, 2014, Pinnacle Financial had no unrecognized tax benefits related to Federal or State income tax matters and

does not currently anticipate any material increase or decrease in unrecognized tax benefits relative to any tax positions taken prior to June 30, 2014. As of June 30, 2014, Pinnacle Financial has accrued no interest and no penalties related to uncertain tax positions.

Pinnacle Financial's effective tax rate for the three and six months ended June 30, 2014 was 33.1% and 33.2% compared to 32.8% for the three and six months ended June 30, 2013. The effective tax rate differs from the Federal income tax statutory rate of 35% and state income tax rate of 6.50% primarily due to our investments in bank qualified municipal securities, bank-owned life insurance, and tax savings from our captive insurance subsidiary, PNFPI Insurance Inc., offset in part by meals and entertainment and executive compensation expense, portions of which are non-deductible.

Note 5. Commitments and Contingent Liabilities

In the normal course of business, Pinnacle Financial has entered into off-balance sheet financial instruments which include commitments to extend credit (i.e., including unfunded lines of credit) and standby letters of credit. Commitments to extend credit are usually the result of lines of credit granted to existing borrowers under agreements that the total outstanding indebtedness will not exceed a specific amount during the term of the indebtedness. Typical borrowers are commercial concerns that use lines of credit to supplement their treasury management functions, and thus their total outstanding indebtedness may fluctuate during any time period based on the seasonality of their business and the resultant timing of their cash flows. Other typical lines of credit are related to home equity loans granted to consumers. Commitments to extend credit generally have fixed expiration dates or other termination clauses and may require payment of a fee. At June 30, 2014, these commitments amounted to \$1.2 billion.

Standby letters of credit are generally issued on behalf of an applicant (our customer) to a specifically named beneficiary and are the result of a particular business arrangement that exists between the applicant and the beneficiary. Standby letters of credit have fixed expiration dates and are usually for terms of two years or less unless terminated beforehand due to criteria specified in the standby letter of credit. A typical arrangement involves the applicant routinely being indebted to the beneficiary for such items as inventory purchases, insurance, utilities, lease guarantees or other third party commercial transactions. The standby letter of credit would permit the beneficiary to obtain payment from Pinnacle Financial under certain prescribed circumstances. Subsequently, Pinnacle Financial would then seek reimbursement from the applicant pursuant to the terms of the standby letter of credit. At June 30, 2014, these commitments amounted to \$65.7 million.

Pinnacle Financial follows the same credit policies and underwriting practices when making these commitments as it does for on-balance sheet instruments. Each customer's creditworthiness is evaluated on a case-by-case basis, and the amount of collateral obtained, if any, is based on management's credit evaluation of the customer. Collateral held varies but may include cash, real estate and improvements, marketable securities, accounts receivable, inventory, equipment and personal property.

The contractual amounts of these commitments are not reflected in the consolidated financial statements and only amounts drawn upon would be reflected in the future. Since many of the commitments are expected to expire without being drawn upon, the contractual amounts do not necessarily represent future cash requirements. However, should the commitments be drawn upon and should our customers default on their resulting obligation to us, Pinnacle Financial's maximum exposure to credit loss, without consideration of collateral, is represented by the contractual amount of those commitments. At June 30, 2014, and December 31, 2013, Pinnacle Financial had accrued \$1.4 million for the inherent risks associated with these off-balance sheet commitments.

During the fourth quarter of 2011, a customer of Pinnacle Bank filed a putative class action lawsuit (styled John Higgins, et al, v. Pinnacle Financial Partners, Inc., d/b/a Pinnacle National Bank) in Davidson County, Tennessee Circuit Court against Pinnacle Bank and Pinnacle Financial, on his own behalf, as well as on behalf of a purported class of Pinnacle Bank's customers within the State of Tennessee alleging that Pinnacle Bank's method of ordering debit card transactions had caused customers of Pinnacle Bank to incur higher overdraft charges than had a different method been used. In April 2014, an order was entered giving final approval to the settlement, and providing a release of claims against Pinnacle Bank and Pinnacle Financial. The order is now final and non-appealable. The settlement of this matter did not have a material adverse effect on Pinnacle Financial's consolidated financial condition, operating results, or cash flows.

Various legal claims also arise from time to time in the normal course of business. In the opinion of management, the resolution of these claims outstanding at June 30, 2014 will not have a material impact on Pinnacle Financial's consolidated financial condition, operating results or cash flows.

Note 6. Stock Options, Stock Appreciation Rights and Restricted Shares

At Pinnacle Financial's annual shareholders' meeting on April 15, 2014, the shareholders of Pinnacle Financial voted in favor of a proposal that adopted Pinnacle Financial's 2014 Equity Incentive Plan (the "2014 Plan"). The issuance of Pinnacle Financial's 2014 Plan proposal addressed the following matters:

- Consolidation of the two existing equity incentive plans, the Pinnacle Financial Partners, Inc. 2004 Amended and Restated Equity Incentive Plan (the "2004 Plan") and the Mid-America Bancshares, Inc. 2006 Omnibus Equity Incentive Plan (the "Mid-America Plan") including approximately 396,000 shares in the aggregate that remained available for issuance under those two plans at that date; and
- (i) Increased the maximum number of shares of common stock that may be issued to associates and directors by an additional 930,000 shares.
- (ii)

The 2014 Plan also permits Pinnacle Financial to reissue awards currently outstanding under the 2004 Plan and the Mid-America Plan that are subsequently forfeited, settled in cash or expired unexercised and returned to the 2014 Plan. Total shares available for issuance under the 2014 Plan were approximately 1.4 million shares as of June 30, 2014, inclusive of shares returned to the plan during the six months ended June 30, 2014.

Common Stock Options and Stock Appreciation Rights

As of June 30, 2014, there were 821,651 stock options and 4,159 stock appreciation rights outstanding to purchase common shares. A summary of the stock option and stock appreciation rights activity within the equity incentive plans during the six months ended June 30, 2014 and information regarding expected vesting, contractual terms remaining, intrinsic values and other matters is as follows:

	Number	Weighted- Average Exercise Price	Weighted- Average Contractual Term (in years)	Aggregate Intrinsic Value (000's)

Options exercisable at June 30, 2014	825,810	\$ 26.68	2.20	\$ 10,495	(2)

- (1) The aggregate intrinsic value is calculated as the difference between the exercise price of the underlying awards and the quoted closing price of Pinnacle Financial common stock of \$32.53 per common share at December 31, 2013 for the approximately 931,425 options and stock appreciation rights that were in-the-money at December 31, 2013.

(2) The aggregate intrinsic value is calculated as the difference between the exercise price of the underlying awards and the quoted closing price of Pinnacle Financial common stock of \$39.48 per common share at June 30, 2014 for the approximately 825,810 options and stock appreciation rights that were in-the-money at June 30, 2014.

(3) During the six months ended June 30, 2014, 1,370 SARS were converted into 522 common shares upon exercise.

During the six months ended June 30, 2014, Pinnacle Financial recorded no stock option compensation expense compared to \$13,000 during the six months ended June 30, 2013. Compensation costs related to unvested stock options granted under Pinnacle Financial's equity incentive plan had been fully recognized and all outstanding option

awards are fully vested.

Restricted Share Awards

Additionally, the recently adopted 2014 Plan provides for the granting of restricted share awards and other performance or market-based awards. There were no market-based awards outstanding as of June 30, 2014 under this plan.

A summary of activity for unvested restricted share awards for the six months ended June 30, 2014 is as follows:

	Number	Grant Date Weighted-Average Cost
Unvested at December 31, 2013	821,695	\$ 19.18
Shares awarded	97,018	32.35
Conversion of restricted share units to restricted share awards	186,943	31.68

Shares forfeited ⁽¹⁾	(24,764)	20.71
Unvested at June 30, 2014	881,489	\$ 23.25

- (1) Represents shares forfeited due to employee termination and/or retirement. No shares were forfeited due to failure to meet performance targets.

Pinnacle Financial grants restricted share awards to associates, executive management and outside directors with a combination of time and, in the case of executive management, performance vesting criteria. The following table outlines restricted stock grants that were made, grouped by similar vesting criteria, during the six months ended June 30, 2014:

Grant Year	Group ⁽¹⁾	Vesting Period in years	Shares awarded	Restrictions Lapsed and shares released to participants	Shares Forfeited by participants ⁽⁵⁾	Shares Unvested
Time Based Awards ⁽²⁾						
2014	Associates	5	84,819	-	1,527	83,292
Performance Based Awards ⁽³⁾						
2014	Leadership team	5	186,943	-	3,096	183,847
Outside Director Awards ⁽⁴⁾						
2014	Outside directors	1	12,199	-	-	12,199

- (1) Groups include employees (referred to as associates above), the leadership team which includes our named executive officers and other key senior leadership members, and outside directors. When the restricted shares are awarded, a participant receives voting rights and forfeitable dividend rights with respect to the shares, but is not able to transfer the shares until the restrictions have lapsed. Once the restrictions lapse, the participant is taxed on the value of the award and may elect to sell some shares to pay the applicable income taxes associated with the award. For time-based restricted share awards, dividends paid on shares for which the forfeiture restrictions do not lapse will be recouped by the Company at the time of termination. For performance-based awards, dividends are placed into escrow until the forfeiture restrictions on such shares lapse.

- (2) The forfeiture restrictions on these restricted share awards lapse in equal annual installments on the anniversary date of the grant.
- (3) The forfeiture restrictions on these restricted share awards lapse in separate equal installments should Pinnacle Financial achieve certain earnings and soundness targets over each year of the subsequent vesting period. Restricted share awards are issued to the outside members of the board of directors in accordance with their board compensation plan. Restrictions lapse on the one year anniversary date of the award based on each individual
- (4) board member meeting their attendance goals for the various board and board committee meetings to which each member was scheduled to attend. These shares represent forfeitures resulting from recipients for whom employment terminated during the
- (5) year-to-date period ended June 30, 2014. Any dividends paid on shares for which the forfeiture restrictions do not lapse will be recouped by the Company at the time of termination.

Compensation expense associated with the time-based restricted share awards is recognized over the time period that the restrictions associated with the awards lapse on a straight-line basis based on the total grant date fair value. Compensation expense associated with performance-based restricted share awards is recognized over the time period that the restrictions associated with the awards are anticipated to lapse based on a schedule consistent with the nature of the award. For the three and six months ended June 30, 2014, Pinnacle Financial recognized approximately \$1.2 million and \$2.4 million in compensation costs attributable to restricted share awards, compared to \$1.0 million and \$2.0 million for the three and six months ended June 30, 2013.

Restricted Share Units

Pinnacle Financial granted restricted share units to the senior executive officers and other members of the leadership team in the first quarter of 2014. The senior executive officers' restricted share unit award included a range from 58,404 units at the target compensation level to 102,209 units at the maximum compensation level. These restricted share units will convert to a number of restricted share awards based on the achievement of certain performance metrics. The Leadership Team restricted share unit award of 29,087 units was granted at a target level of performance. For both senior executive officers and the Leadership Team, approximately one-third of these awards are eligible for conversion to restricted share awards based on the achievement of certain predetermined goals for each of the fiscal years ended December 31, 2014, 2015 and 2016, respectively. Once converted to restricted share awards, the restrictions on these shares will lapse in 2018 and 2019 in 50% increments based on the attainment of certain soundness targets in fiscal 2017 and 2018, respectively. The performance metrics and soundness criteria for each of the impacted fiscal years were established concurrently with the restricted share unit grants in January 2014 by the Human Resources and Compensation Committee of Pinnacle Financial's board of directors (HRCC). These restricted share units are being expensed based on the requisite service period of the underlying tranche of the award. Each period, the number of shares that is expected to lapse to the recipient is reevaluated and the associated compensation expense is adjusted accordingly. For the three and six months ended June 30, 2014, Pinnacle Financial recognized expense associated with the first tranche of this award totaling \$83,000 and \$155,000, respectively. The expense is being accrued at the maximum compensation level for the senior executive officers and the target compensation level for the Leadership Team.

Note 7. Regulatory Matters

Pursuant to Tennessee banking law, Pinnacle Bank may not, without the prior consent of the Commissioner of the TDFI, pay any dividends to Pinnacle Financial in a calendar year in excess of the total of Pinnacle Bank's retained net income for that year plus the retained net income for the preceding two years. During the six months ended June 30, 2014, Pinnacle Bank paid \$8.97 million in dividends to Pinnacle Financial. As of June 30, 2014, Pinnacle Bank could not pay in excess of \$90.7 million of additional dividends to Pinnacle Financial in 2014 without prior approval of the Commissioner of the TDFI. Pinnacle Financial initiated payment of a quarterly dividend of \$0.08 per share of common stock in the fourth quarter of 2013 and has since declared three subsequent dividend payments. The amount and timing of all future dividend payments, if any, is subject to Board discretion and will depend on Pinnacle Financial's earnings, capital position, financial condition and other factors, including new regulatory capital requirements, as they become known to us.

Pinnacle Financial and Pinnacle Bank are subject to various regulatory capital requirements administered by federal banking agencies. Failure to meet minimum capital requirements can initiate certain mandatory, and possibly additional discretionary actions, by regulators that, if undertaken, could have a direct material effect on the financial statements. Under capital adequacy guidelines and the regulatory framework for prompt corrective action, Pinnacle Financial and Pinnacle Bank must meet specific capital guidelines that involve quantitative measures of the assets, liabilities, and certain off-balance sheet items as calculated under regulatory accounting practices.

Quantitative measures established by regulation to ensure capital adequacy require Pinnacle Financial and Pinnacle Bank to maintain minimum amounts and ratios of Total and Tier I capital to risk-weighted assets and for Pinnacle Bank of Tier I capital to average assets. Management believes, as of June 30, 2014, that Pinnacle Financial and Pinnacle Bank met all capital adequacy requirements to which they are subject. To be categorized as well-capitalized under applicable banking regulations, Pinnacle Financial and Pinnacle Bank must maintain minimum total risk-based, Tier I risk-based, and Tier I leverage ratios as set forth in the following table and not be subject to a written agreement, order or directive to maintain a higher capital level. Pinnacle Financial's and Pinnacle Bank's actual capital amounts and ratios are presented in the following table (in thousands):

	Actual		Minimum		Minimum		
	Amount	Ratio	Capital	Ratio	To Be

In July 2013, the Federal Reserve Board and the FDIC approved final rules that substantially amend the regulatory risk-based capital rules applicable to Pinnacle Bank and Pinnacle Financial. The final rules implement the regulatory capital reforms of the Basel Committee on Banking Supervision reflected in "Basel III: A Global Regulatory Framework for More Resilient Banks and Banking Systems" (Basel III) and changes required by the Dodd-Frank Act.

Under these rules, the leverage and risk-based capital ratios of bank holding companies may not be lower than the leverage and risk-based capital ratios for insured depository institutions. The final rules implementing the Basel III regulatory capital reforms will become effective as to Pinnacle Financial and Pinnacle Bank on January 1, 2015, and include new minimum risk-based capital and leverage ratios. Moreover, these rules refine the definition of what constitutes "capital" for purposes of calculating those ratios, including the definitions of Tier 1 capital and Tier 2 capital.

The new minimum capital level requirements applicable to bank holding companies and banks subject to the rules are:

- (i) a new common equity Tier 1 capital ratio of 4.5%;
- (ii) a Tier 1 risk-based capital ratio of 6% (increased from 4%);
- (iii) a total risk-based capital ratio of 8% (unchanged from current rules);
- (iv) a Tier 1 leverage ratio of 4% for all institutions.

The rules also establish a "capital conservation buffer" of 2.5% (to be phased in over three years) above the new regulatory minimum risk-based capital ratios, and result in the following minimum ratios once the capital conservation buffer is fully phased in:

- (i) a common equity Tier 1 risk-based capital ratio of 7.0%,
- (ii) a Tier 1 risk-based capital ratio of 8.5%, and
- (iii) a total risk-based capital ratio of 10.5%.

28

The capital conservation buffer requirement is to be phased in beginning in January 2016 at 0.625% of risk-weighted assets and will increase each year until fully implemented in January 2019. An institution will be subject to limitations on paying dividends, engaging in share repurchases and paying discretionary bonuses if capital levels fall below minimum levels plus the buffer amounts. These limitations establish a maximum percentage of eligible retained income that could be utilized for such actions.

Under these new rules, Tier 1 capital will generally consist of common stock (plus related surplus) and retained earnings, limited amounts of minority interest in the form of additional Tier 1 capital instruments, and non-cumulative preferred stock and related surplus, subject to certain eligibility standards, less goodwill and other specified intangible assets and other regulatory deductions. Cumulative preferred stock and trust preferred securities issued after May 19, 2010, will no longer qualify as Tier 1 capital, but such securities issued prior to May 19, 2010, including in the case of bank holding companies with less than \$15.0 billion in total assets, trust preferred securities issued prior to that date, will continue to count as Tier 1 capital subject to certain limitations. The definition of Tier 2 capital is generally unchanged for most banking organizations, subject to certain new eligibility criteria.

Common equity Tier 1 capital will generally consist of common stock (plus related surplus) and retained earnings plus limited amounts of minority interest in the form of common stock, less goodwill and other specified intangible assets and other regulatory deductions.

The final rules allow banks and their holding companies with less than \$250 billion in assets a one-time opportunity to opt-out of a requirement to include unrealized gains and losses in accumulated other comprehensive income in their capital calculation. Pinnacle Financial expects that it will opt-out of this requirement.

Note 8. Derivative Instruments

Financial derivatives are reported at fair value in other assets or other liabilities. The accounting for changes in the fair value of a derivative depends on whether it has been designated and qualifies as part of a hedging relationship. For derivatives not designated as hedges, the gain or loss is recognized in current earnings.

Non-hedge derivatives

Pinnacle Financial enters into interest rate swaps (swaps) to facilitate customer transactions and meet their financing needs. Upon entering into these instruments to meet customer needs, Pinnacle Financial enters into offsetting positions with a large U.S. financial institution in order to minimize the risk to Pinnacle Financial. These swaps are derivatives, but are not designated as hedging instruments.

Interest rate swap contracts involve the risk of dealing with counterparties and their ability to meet contractual terms. When the fair value of a derivative instrument contract is positive, this generally indicates that the counter party or customer owes Pinnacle Financial, and results in credit risk to Pinnacle Financial. When the fair value of a derivative instrument contract is negative, Pinnacle Financial owes the customer or counterparty and therefore, has no credit risk.

A summary of Pinnacle Financial's interest rate swaps related to customers as of June 30, 2014 and December 31, 2013 is included in the following table (in thousands):
