BIOENVISION, INC. AND SUBSIDIARIES NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (unaudited)

NOTE 1 - Basis of Presentation

Description of Business

The Company is a product-oriented biopharmaceutical company primarily focused upon the acquisition, development and marketing of compounds and technologies for the treatment of cancer, autoimmune disease and infection. Its product pipeline includes Evoltra(R) (Clofarabine), Modrenal(R) (for which Bioenvision has obtained regulatory approval for marketing in the United Kingdom for the treatment of post-menopausal breast cancer following relapse to initial hormone therapy), and certain anti-infective technologies including the OLIGON(R) technology; an advanced biomaterial that has been incorporated into various Federal Drug Administration, or FDA, approved medical devices and Suvus(R), an antimicrobial agent currently in clinical development for refractory chronic hepatitis C infection.

Basis of Presentation

In the opinion of management, the accompanying unaudited condensed consolidated financial statements contain all adjustments, consisting of normal recurring adjustments, necessary to present fairly the condensed consolidated financial position of the Company as of December 31, 2006, the condensed consolidated statements of operations and comprehensive loss for the three and six months ended December 31, 2006 and 2005, the condensed consolidated statement of stockholders' equity for the six months ended December 31, 2006, and the condensed consolidated statements of cash flows for the six months ended

Edgar Filing: BIOENVISION INC - Form 10-Q

December 31, 2006 and 2005.

The condensed consolidated balance sheet at June 30, 2006 has been derived from the audited consolidated financial statements at that date, but does not include all the information and footnotes required by accounting principles generally accepted in the United States for complete financial statements. For further information, refer to the audited consolidated financial statements and footnotes thereto included in the Form 10-K filed by the Company for the year ended June 30, 2006.

The condensed consolidated results of operations for the three and six months ended December 31, 2006 and 2005 are not necessarily indicative of the results to be expected for any other interim period or for the full year. Certain reclassifications of balances previously reported have been made to conform to the current presentation.

Recent Accounting Pronouncements

In December 2006, the Financial Accounting Standards Board ("FASB") issued a FASB Staff Position ("FSP") Emerging Issues Task Force ("EITF") Issue No. 00-19-2 "Accounting for Registration Payment Arrangements" ("FSP 00-19-2") which addresses an issuer's accounting for registration payment arrangements. FSP 00-19-2 specifies that the contingent obligation to make future payments or otherwise transfer consideration under a registration payment arrangement, whether issued as a separate agreement or included as a provision of a financial instrument or other agreement, should be separately recognized and measured in accordance with FASB Statement No.5 "Accounting for Contingencies". The guidance in FSP 00-19-2 amends FASB Statements No. 133, "Accounting for Derivative Instruments and Hedging Activities", and No.150, "Accounting for Certain Financial Instruments with Characteristics of both Liabilities and Equity", and FASB Interpretation No.45, "Guarantor's Accounting and Disclosure Requirements for Guarantees, Including Indirect Guarantees of Indebtedness of Others" to include scope exceptions for registration payment arrangements. FSP 00-19-2 is effective immediately for registration payment arrangements and the financial instruments subject to those arrangements that are entered into or modified subsequent to the date of issue of FSP 00-19-2. For registration payment arrangements and financial instruments subject to those arrangements that were entered into prior to the issuance of FSP 00-19-2, this is effective for financial statements issued for fiscal years beginning after December 15, 2006, and interim periods within those fiscal years. The Company has analyzed the provisions of FSP 00-19-2 and determined that it will not have a material effect on the Company's consolidated financial statements.

In September 2006, the FASB issued Statement of Financial Accounting Standards No.157, "Fair Value Measurements" ("SFAS 157"). SFAS 157 defines fair value, establishes a framework for measuring fair value in accordance with generally accepted accounting principles and expands disclosures about fair value measurements. The provisions of SFAS 157 are effective for fiscal years beginning after November 15, 2007. The Company is currently evaluating the impact, if any, of the provisions of SFAS 157.

In September 2006, the Securities and Exchange Commission ("SEC") issued Staff Accounting Bulletin No. 108 ("SAB 108"). SAB 108 provides interpretive guidance on how the effects of the carryover or reversal of prior year misstatements should be considered in quantifying a potential current year misstatement. Prior to SAB 108, companies might evaluate the materiality of financial statement misstatements using either the income statement or balance sheet approach, with the income statement approach focusing on new misstatements added in the current year, and the balance sheet approach focusing on the cumulative amount of

Edgar Filing: BIOENVISION INC - Form 10-Q

BIOENVISION, INC. AND SUBSIDIARIES NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (unaudited)

NOTE 1 - Basis of Presentation - continued

misstatement present in a company's balance sheet. Misstatements that would be material under one approach could be viewed as immaterial under another approach, and not be corrected. SAB 108 now requires that companies view financial statement misstatements as material if they are material according to either the income statement or balance sheet approach. The Company has analyzed SAB 108 and determined that it will have no impact on the reported results of operations or financial condition of the Company.

In June 2006, the FASB ratified the consensus of EITF Issue No. 06-3, "How Taxes Collected from Customers and Remitted to Governmental Authorities Should Be Presented in the Income Statement" ("EITF 06-3"). EITF 06-3 indicates that the income statement presentation on either a gross basis or a net basis of the taxes within the scope of the issue is an accounting policy decision. The Company's accounting policy is to present the taxes within the scope of EITF 06-3 on a net basis. The adoption of EITF 06-3 in the second fiscal quarter of 2007 did not result in a change to the Company's accounting policy and, accordingly, did not have any effect on the Company's consolidated financial statements.

In June 2006, the FASB issued FASB Interpretation No. 48, Accounting for Uncertainty in Income Taxes - an interpretation of FASB Statement No. 109 ("FIN 48"). This Interpretation clarifies the accounting for uncertainty in income taxes recognized in an enterprise's financial statements in accordance with FASB Statement No. 109, Accounting for Income Taxes. This Interpretation prescribes that a company should use a more likely than not recognition threshold based on the technical merits of the tax position taken. Tax positions that meet the more likely than not recognition threshold should be measured in order to determine the tax benefit to be recognized in the financial statements. FIN 48 is effective in fiscal years beginning after December 15, 2006. We do not expect the adoption of FIN 48 to have a material impact on the results of operations or financial condition of the Company.

NOTE 2 - Accounting for Stock-based Compensation

The Company accounts for stock-based compensation in accordance with SFAS No. 123 (revised 2004), "Share-Based Payment" ("SFAS 123 (R)"). For the three months ended December 31, 2006 and 2005, the Company recorded, as a component of net loss, employee stock-based compensation expense of \$1,120,000 and \$482,000, respectively. For the six months ended December 31, 2006 and 2005, the Company recorded, as a component of net loss, employee stock-based compensation expense of \$1,733,000 and \$941,000, respectively. As of December 31, 2006, the total compensation cost related to unvested equity awards granted to employees but not yet recognized is approximately \$3,667,000. This cost will be amortized on a straight-line basis over the remaining weighted average vesting period of 1.7 years. As required by SFAS 123 (R), management made an estimate of expected forfeitures for all unvested awards and is recognizing compensation costs only for those equity awards expected to vest.

A summary of the Company's stock option activity for options issued to employees and related information follows:

Edgar Filing: BIOENVISION INC - Form 10-Q

	Number of Shares -----	Weighted Average Exercise Price -----	Weighted Average Remaining Contractual Life ----	Aggr Intr Va
Balance - June 30, 2006	4,641,000	\$ 4.24	4.44	\$ 11
Granted	435,000	5.02		1
Exercised	-			
Cancelled	(2,000)	8.05		
Forfeited	(10,000)	8.05		

Balance - December 31, 2006	5,064,000 =====	4.30	7.55	\$ 12
Exercisable - December 31, 2006	3,382,000	\$ 3.19	5.98	\$ 6

Options granted to employees during the six months ended December 31, 2006 totaled 435,000 and had a weighted average fair value of \$2.53. Options granted to employees during the six months ended December 31, 2005 totaled 272,000 and had a weighted average fair value per share of \$4.04. The fair value of each stock option grant is estimated on the date of grant using the Black-Scholes option-pricing model which incorporates the following weighted average assumptions:

-7-

BIOENVISION, INC. AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(unaudited)

NOTE 2 - Accounting for Stock-based Compensation - continued

	Six Months Ended December 31, ----- 2006	Six Month Decembe ----- 200
Risk-free interest rate	4.43% - 4.84%	3.99% - 4
Expected weighted average term (in years)	3.5	3.5
Expected weighted average volatility	66%	80%
Expected dividend yield	0%	0%

The Company accounts for equity instruments issued to non-employees in accordance with the provisions of SFAS 123 (R) and EITF No. 96-18, "Accounting for Equity Instruments That Are Issued to Other Than Employees for Acquiring, or in Conjunction with Selling Goods or Services." Under EITF No. 96-18, where the fair value of the equity instrument is more reliably measurable than the fair value of services received, such services will be valued based on the fair value

Edgar Filing: BIOENVISION INC - Form 10-Q

of the equity instrument.

Refer to Note 13 for further discussion of equity instruments granted.

NOTE 3 - Accounts Receivable

Our accounts receivable are primarily due from hospitals, clinical trial centers, wholesale distributors and our co-development partners. One customer comprises approximately 49% and 0% of revenues earned for the six months ended December 31, 2006 and 2005, respectively. Another customer comprises approximately 17% and 48% of revenues earned for the six months ended December 31, 2006 and 2005, respectively. Based on our evaluation of the collectibility of the accounts receivable due from this customer, we believe that the balance relating to research and development reimbursements may not be collectible and, therefore, have reserved this balance at December 31, 2006 and June 30, 2006.

NOTE 4 - Inventories

Inventories are stated at the lower of cost or market, with cost being determined under the first-in, first-out method. We only capitalize inventory that is produced for commercial sale. Manufacturing costs incurred to produce clofarabine prior to approval were recorded as research and development costs. The Company periodically reviews inventory on hand. Items considered outdated or obsolete are reduced to their estimated net realizable value.

	December 31, 2006 ----	June 30, 2006 ----
Raw materials	\$ 127,472	\$ 118,213
Work-in-progress	692,742	180,048

 Total inventories	 \$ 887,269 =====	 \$ 427,514 =====

NOTE 5 - Intangible Assets

Intangible assets at December 31, 2006 and June 30, 2006 are as follows:

	December 31, 2006 ----	June 30, 2006 ----
Patents and licensing rights	\$9,382,450	\$9,382,450
Other intangible assets	298,505 -----	298,505 -----
	9,680,955	9,680,955
Less: accumulated amortization	(2,550,890) -----	(2,131,435) -----
 Total intangible assets, net	 \$7,130,065 =====	 \$7,549,520 =====

Edgar Filing: BIOENVISION INC - Form 10-Q

-8-

BIOENVISION, INC. AND SUBSIDIARIES NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (unaudited)

NOTE 5 - Intangible Assets - continued

Amortization of patents, licensing rights and other intangible assets amounted to approximately \$208,000 and \$231,000 for the three months ended December 31, 2006 and 2005, respectively, and are amortized over periods generally ranging from 1-20 years. Amortization amounted to \$420,000 and \$431,000 for the six months ended December 31, 2006 and 2005, respectively. Amortization for each of the next five fiscal years will amount to approximately \$800,000 annually.

NOTE 6 - Accrued Expenses

Below is a breakdown of our accrued expenses at December 31, 2006 and June 30, 2006.

	December 31, 2006 ----	June 30, 2006 ----
Accrued research and development	\$6,072,375	\$4,389,951
Accrued professional fees	114,775	493,924
Accrued compensation	828,640	702,097
Accrued other	2,098,528	878,473
	-----	-----
Total accrued expenses	\$9,114,318 =====	\$6,464,445 =====

Accrued research and development expenses include amounts relating to clinical trials, pre-clinical operating costs and amounts due on the license to develop, manufacture, market, distribute and sell Evoltra(R) in Japan and Southeast Asia. Accrued other includes inventories, sales and marketing costs, royalties due on product sales and other operating expense accruals.

NOTE 7 - Comprehensive Loss

Our comprehensive loss includes loss applicable to common stockholders and unrealized gains (losses) from foreign currency translations to the US dollar, the reporting currency of the Company. The functional currency of Bioenvision Limited, the Company's wholly-owned subsidiary, organized under the laws of the United Kingdom with offices in Edinburgh, Scotland, is the Pound Sterling. We translate assets and liabilities to their US dollar equivalents at rates in effect at the balance sheet date and record translation adjustments in accumulated other comprehensive loss. We translate statement of operations accounts at average rates for the period.

NOTE 8 - Net Loss Per Share of Common Stock Applicable to Common Stockholders

We compute loss per common share in accordance with SFAS No. 128, "Earnings Per Share" ("SFAS 128"). Basic net loss per share is calculated by dividing net loss applicable to common stockholders by the weighted average number of common shares outstanding during the period. Diluted net loss per share is computed using the weighted average number of common shares and potentially dilutive common shares outstanding during the periods. As the Company incurred net losses for the three and six months ended December 31, 2006 and 2005, the basic

Edgar Filing: BIOENVISION INC - Form 10-Q

earnings per share equals the diluted earnings per share. Options and warrants to purchase 10,053,314 and 11,234,314 shares of common stock have not been included in the calculation of net loss per share for the three and six months ended December 31, 2006 and 2005, respectively, as their effect would have been anti-dilutive. Additionally, convertible participating preferred stock that is convertible into 4,500,000 shares of common stock have not been included in the calculation of net loss per share for each of the three and six months ended December 31, 2006 and 2005, as their effect would have been anti-dilutive.

NOTE 9 - Geographic Information

We have one operating segment and define geographical regions as countries in which we operate. Our corporate headquarters in the United States collects licensing, royalties and research & development contract revenue from our arrangements with external customers and our co-development partners. Our wholly-owned subsidiary, Bioenvision Limited, is located in the United Kingdom and manages our product sales. The following table reconciles our revenues by geographic region to the consolidated total:

NOTE 11 - License and Co-Development Agreements

Clofarabine (Evoltra(R))

The Company has a license from Southern Research Institute ("SRI") to develop, manufacture, market, distribute and sell a class of purine nucleoside analogs which, based on third-party studies conducted to date, may be effective in the treatment of leukemia, lymphoma and certain solid tumor cancers. The lead

Edgar Filing: BIOENVISION INC - Form 10-Q

compound of these purine-based nucleosides is known as clofarabine (Evoltra(R)). The Company received regulatory approval for Evoltra(R) from the European Medicines Agency on May 31, 2006 under the centralized approval process for treatment of acute lymphoblastic leukemia, or ALL, in pediatric patients who have relapsed or are refractory to at least two prior regimens of treatment.

Under the terms of the agreement with SRI, the Company was granted the exclusive worldwide license, excluding Japan and Southeast Asia, to make, use and sell products derived from the technology for a term expiring on the date of expiration of the last patent covered by the license (subject to earlier termination under certain circumstances), and to utilize technical information related to the technology to obtain patent and other proprietary rights to products developed by the Company and by SRI from the technology. Initially, the Company is developing Evoltra(R) for the treatment of leukemia and lymphoma and studying its potential role in treatment of myelodysplastic syndrome (MDS) and solid tumors.

In March 2001, to facilitate the development of Evoltra(R), the Company entered into a co-development agreement with ILEX Oncology, Inc. our sub-licensor until it was acquired by Genzyme Corporation ("Genzyme") on December 21, 2004, for the development of Evoltra(R) in cancer indications. Under the terms of the co-development agreement, Genzyme is required to pay all development costs in the United States and Canada, and 50% of approved development costs worldwide outside the U.S. and Canada (excluding Japan and Southeast Asia), in each case, for the development of Evoltra(R) in cancer indications. Currently, the Company has billed but not recorded as a receivable approximately \$4,600,000 of revenue relating to the reimbursement from our co-development partner for certain of our ongoing research costs in the development of Evoltra(R) outside the United States. If and when the Company has determined that collectibility is reasonably assured, the Company will record the revenue. Under the co-development agreement, the Company offsets these amounts against any royalty which otherwise would be paid to Genzyme on our U.K. sales. Genzyme is responsible for conducting all clinical trials and the filing and prosecution of applications with applicable regulatory authorities in the United States and Canada for certain cancer indications. The Company retains the right to handle those matters in all territories outside the United States and Canada and retains the right to handle these matters in the U.S. and Canada in all non-cancer indications and certain cancer indications. The Company retained the exclusive manufacturing and distribution rights in Europe and elsewhere worldwide, except for the United States and Canada. Under the co-development agreement, Genzyme will have certain rights if it performs its development obligations in accordance with that agreement. Under the circumstances, the Company is required to pay Genzyme a royalty on direct sales outside the U.S., Canada, Japan and Southeast Asia. In turn, Genzyme, which would have U.S. and Canadian distribution rights in cancer indications, is paying the Company a royalty on sales in the U.S. and Canada. Under the terms of the co-development agreement, Genzyme also pays royalties to SRI based on certain milestones. The Company also is obligated to pay certain royalties to SRI with respect to Evoltra(R).

BIOENVISION, INC. AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(unaudited)

NOTE 11 - License and Co-Development Agreements - continued

The Company received a nonrefundable upfront payment of \$1,350,000 when it entered into the co-development agreement with Genzyme and received an

Edgar Filing: BIOENVISION INC - Form 10-Q

additional \$3,500,000 in December 2003 when it converted Genzyme's option to market clofarabine in the U.S. into a sublicense. Upon Genzyme's filing the New Drug Application for clofarabine with the FDA, the Company received an additional (i) \$2,000,000 in April 2004 and (ii) \$2,000,000 in September 2004. The Company deferred the upfront payment and recognized revenues ratably, on a straight-line basis over the related service period. The Company has deferred the milestone payments received to date and recognizes revenues ratably, on a straight-line basis over the related service period, through March 2021. For each of the three months ended December 31, 2006 and 2005, the Company recognized revenues of approximately \$110,000 in connection with the milestone payments received to date. For each of the six months ended December 31, 2006 and 2005, the Company recognized revenues of approximately \$220,000 in connection with the milestone payments received to date.

Deferred costs include royalty payments that became due and payable to SRI upon the Company's execution of the co-development agreement with Genzyme. The Company defers all royalty payments made to SRI and recognizes these costs ratably, on a straight-line basis over the related service period, concurrent with the revenue that is recognized in connection with these research and development costs through 2021. The Company recognized approximately \$55,000 for each of the three months ended December 31, 2006 and 2005 and approximately \$110,000 for each of the six months ended December 31, 2006 and 2005.

In September 2006, the Company obtained the exclusive license to develop, manufacture, market, distribute and sell Evoltra(R) in Japan and Southeast Asia. We made an initial payment of \$2,500,000 cash to SRI upon execution of this agreement and are obligated to pay SRI additional milestone payments and royalties during the term of this agreement.

Modrenal(R)

The Company holds an exclusive license, until the expiration of existing and new patents related to Modrenal(R), to market Modrenal(R) in major international territories, and an agreement with a United Kingdom company to co-develop Modrenal(R) for other therapeutic indications. Management believes that Modrenal(R) currently is manufactured by third-party contractors in accordance with good manufacturing practices. The Company has no plans to establish its own manufacturing facility for Modrenal(R), but will continue to use third-party contractors.

The Company received a nonrefundable upfront payment of \$1,250,000 when it entered into the License and Sublicense Agreement with Dechra Pharmaceuticals ("Dechra") in May 2003. The Company deferred the upfront payment and recognizes revenues ratably, on a straight-line basis over the related service period, currently through September 2022. The Company recognized revenues of approximately \$15,000, in connection with the upfront payment from Dechra for each of the three months ended December 31, 2006 and 2005 and approximately \$30,000, for each of the six months ended December 31, 2006 and 2005.

Deferred costs include royalty payments that became due and payable to Stegram Pharmaceuticals Ltd. ("Stegram") upon the Company's execution of the License and Sub-License Agreement with Dechra in May 2003. The Company defers all royalty payments made to Stegram and recognizes these costs ratably, on a straight-line basis concurrent with revenue that is recognized in connection with the Dechra agreement. Research and development costs related to this agreement include approximately \$3,000 for each of the three months ended December 31, 2006 and 2005 and approximately \$6,000 for each of the six months ended December 31, 2006 and 2005.

NOTE 12 - Marketing and Distribution Agreement

In March 2006, the Company entered into a Marketing and Distribution Agreement

Edgar Filing: BIOENVISION INC - Form 10-Q

with Mayne Pharma Limited, a public company in Australia, to develop, market and distribute Evoltra(R) in Australia and New Zealand in certain cancer indications. The Company anticipates entering into similar arrangements with other marketing and distribution partner(s) around the world (outside North America) to capitalize on the commercial potential of Evoltra(R), with a fully integrated sales and marketing team being a primary focus for the sales and marketing partner(s) the Company may select at any time or from time to time.

-11-

BIOENVISION, INC. AND SUBSIDIARIES NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (unaudited)

NOTE 13 - Stockholders' Transactions

Convertible Preferred Stock

The Company is required to accrue for and pay a dividend of 5%, subject to certain adjustments, on its cumulative Series A Convertible Participating Preferred Stock. The Company has paid the dividend in cash to holders of its cumulative Series A Convertible Participating Preferred Stock through January 30, 2007.

Common Stock

On November 27, 2006, the Company issued 31,100 shares of common stock to an officer of the Company pursuant to the terms of his amended employment agreement dated January 6, 2006. The officer was entitled to receive 50,000 shares upon the appointment of a new chief financial officer, of which 18,900 shares were withheld to satisfy the officer's tax liability. In connection with such issuance we recognized approximately \$247,000 as compensation expense for the three and six months ended December 31, 2006.

Stock Options

The Board of Directors adopted, and the stockholders approved, the 2003 Stock Incentive Plan at the Annual Meeting held in January 2004. The plan was adopted to recognize the contributions made by the Company's employees, officers, consultants, and directors, to provide those individuals with additional incentive to devote themselves to our future success and to improve the Company's ability to attract, retain and motivate individuals upon whom the Company's growth and financial success depends. Under the plan, stock options may be granted as approved by the Board of Directors or the Compensation Committee. There are 6,750,000 shares reserved for grants of options under the plan and, at December 31, 2006, options to purchase 4,494,500 shares of common stock had been issued. The Company's policy is to issue new shares for option exercises. Stock options vest pursuant to individual stock option agreements. No options granted under the plan are exercisable after the expiration of ten years (or less in the discretion of the Board of Directors or the Compensation Committee) from the date of the grant. The plan will continue in effect until terminated or amended by the Board of Directors or until expiration of the plan on November 17, 2013. Refer to Note 2 for discussion of the Company's determination of fair value for each stock option granted

During the six months ended December 31, 2006, options to purchase 25,000 of the Company's common stock at a price of \$5.62 per share were granted to members serving on the Board of Directors. The Company recognized \$18,000 and \$14,000 as consulting expense during the three months ended December 31, 2006 and 2005,

Edgar Filing: BIOENVISION INC - Form 10-Q

respectively, and \$27,000 and \$28,000 as consulting expense during the six months ended December 31, 2006 and 2005, respectively, related to options granted to board members.

Options granted to employees during the six months ended December 31, 2006 totaled 435,000. Included in this total are 350,000 stock options at an exercise price of \$4.96 per share granted to an officer of the Company in conjunction with his employment agreement dated November 27, 2006 to serve as chief financial officer. The Company recognized approximately \$273,000 as compensation expense during the three and six months ended December 31, 2006 in connection with said grant. Total compensation expense for options granted to employees was \$873,000 and \$482,000 for the three months ended December 31, 2006 and 2005, respectively, and \$1,487,000 and \$941,000 for the six months ended December 31, 2006 and 2005, respectively.

There were no options exercised during the six months ended December 31, 2006. During the six months ended December 31, 2005, certain non-employee holders of options exercised pursuant to the cashless exercise feature available to such option holders and the Company issued approximately 191,196 shares of its common stock in connection therewith.

Warrants

On August 4, 2004, the Company issued a warrant to a consultant pursuant to which said consultant has the right to purchase 40,000 shares of the Company's common stock at a price of \$7.22 per share, of which 20,000 warrants vested immediately and 20,000 vest upon satisfaction of certain milestones included in the warrant. No milestones were met during the three and six months ended December 31, 2006 and 2005.

On August 9, 2004, the Company issued two warrants to a consultant pursuant to which said consultant has the right to purchase an aggregate of 45,000 shares of the Company's common stock at a price of \$6.10 per share. All milestones were met as of September 30, 2005 related to said warrants. The Company recognized consulting expense of approximately \$0 and \$9,000 for the six months ended December 31, 2006 and 2005, respectively.

-12-

BIOENVISION, INC. AND SUBSIDIARIES NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (unaudited)

NOTE 13 - Stockholders' Transactions - continued

During the six months ended December 31, 2006, certain warrant holders exercised their warrants to acquire 1,495,024 shares of the Company's common stock. The Company received proceeds of \$510,000 from the exercise of such warrants. During the six months ended December 31, 2005, certain warrant holders exercised their warrants to acquire 17,599 shares of the Company's common stock. The Company received proceeds of approximately \$76,000 from the exercise of such warrants.

Shareholder Receivable

Subsequent to the exercise of an option by a former member of management on September 27, 2005, the Company became aware of the statutorily required withholding taxes due to the UK tax regulatory authority. In order to maintain compliance with the UK tax regulatory authority, the Company remitted the taxes due on behalf of the former employee in January 2006 and, in return, received a

Edgar Filing: BIOENVISION INC - Form 10-Q

promissory note from the former member of management dated November 28, 2005 for \$340,606, of which \$40,606 has been collected. The payment of these taxes was not part of the option agreement. The Company has classified such note as a shareholder receivable in the equity section of the condensed consolidated balance sheets. During the three months ended December 31, 2006, the Company reserved for the remaining balance outstanding.

-13-

BIOENVISION, INC. AND SUBSIDIARIES

ITEM 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Except for historical information contained herein, this quarterly report on Form 10-Q contains forward-looking statements within the meaning of the Section 21E of the Securities and Exchange Act of 1934, as amended, which involve certain risks and uncertainties. Forward-looking statements are included with respect to, among other things, the Company's current business plan and "Management's Discussion and Analysis of Results of Operations." These forward-looking statements are identified by their use of such terms and phrases as "intends," "intend," "intended," "goal," "estimate," "estimates," "expects," "expect," "expected," "project," "projected," "projections," "plans," "anticipates," "anticipated," "should," "designed to," "foreseeable future," "believe," "believes" and "scheduled" and similar expressions. The Company's actual results or outcomes may differ materially from those anticipated. Readers are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date the statement was made. The Company undertakes no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.

The following discussion and analysis of significant factors affecting the Company's operating results, liquidity and capital resources should be read in conjunction with the accompanying financial statements and related notes.

We are a product-oriented biopharmaceutical company primarily focused upon the acquisition, development and marketing of compounds and technologies for the treatment of cancer, autoimmune disease and infection. Our product pipeline includes Evoltra(R) (Clofarabine), Modrenal(R) (for which Bioenvision has obtained regulatory approval for marketing in the United Kingdom for the treatment of post-menopausal breast cancer following relapse to initial hormone therapy), and certain anti-infective technologies including the OLIGON(R) technology; an advanced biomaterial that has been incorporated into various FDA approved medical devices and Suvus(R), an antimicrobial agent currently in clinical development for refractory chronic hepatitis C infection.

Evoltra(R) is our lead product. In May 2006 the European Medicines Agency approved Evoltra(R) for the treatment of acute lymphoblastic leukemia (ALL) in pediatric patients who have relapsed or are refractory to at least two prior regimens. The licensed indication includes patients who were less than 21 years of age at the time of initial diagnosis of their leukemia. Evoltra(R) has been granted orphan drug designation, providing marketing exclusivity for 10 years in Europe, which 10-year period commenced in May 2006 upon our receipt of EMEA marketing approval. We have a direct sales force in the U.K. and a dedicated sales force through Innovex in several other countries within the E.U. We will continue to expand either our direct sales force or our dedicated sales force through Innovex as we continue to work through pricing and reimbursement in individual countries within the E.U.

Edgar Filing: BIOENVISION INC - Form 10-Q

In March 2006, we entered into a Marketing and Distribution Agreement with Mayne Pharma Limited ("Mayne"), a public company in Australia, pursuant to which we have granted and Mayne has received certain marketing rights to to sell, market and distribute Evoltra(R) (Clofarabine) in Australia and New Zealand in certain cancer indications. We anticipate entering into similar arrangements with other marketing and distribution partner(s) around the world from time to time who have a fully integrated sales and marketing force in each such territory to further capitalize on the commercial potential of Evoltra(R).

In September 2006, the Company executed a License Agreement with SRI, pursuant to which the Company successfully licensed the manufacturing, marketing and distribution rights to clofarabine in Japan and Southeast Asia (the "Japan License"). The marketing rights in Japan and Southeast Asia had not been granted by SRI in its history and the Company considers the addition of these rights to be a significant development and a significant core asset. Since taking on these rights, the Company has organized Bioenvision JapanCo., Ltd., a wholly-owned subsidiary of the Company ("JapanCo"), and appointed Mr. Yashimaru Yamamoto as its director in charge of corporate and product development for JapanCo. Mr. David P. Luci, the Company's Executive Vice President and General Counsel, serves as Chairman of JapanCo and is responsible for JapanCo's early stage corporate and product development activities within the Company.

We also are developing Evoltra(R) for the treatment of adult acute myeloid leukemia (AML) as first-line therapy. The Company has completed enrollment of its pivotal Phase II clinical trial for the treatment of adult AML in elderly patients unsuitable for intensive chemotherapy and filed a Marketing Authorization Application in early calendar Q1 2007 for this indication - the Company's first label-extension for Evoltra(R).

Also, in conjunction with our North American co-development partners, Genzyme Corporation, clofarabine (Evoltra(R)) is in clinical development for the treatment of myelodysplastic syndrome (MDS), chronic lymphocytic leukemia (CLL), chronic myeloid leukemia (CML), non-Hodgkin's lymphoma (NHL), multiple myeloma (MM), solid tumors and as a preconditioning regimen for transplantation. Although we are not directly involved with these studies, Genzyme is required to share the data generated thereunder in accordance with the terms of our co-development agreement.

-14-

Bioenvision has completed preclinical development of a gel formulation of Evoltra(R) and has initiated Phase I clinical development of the gel in the treatment of psoriasis. Bioenvision is planning further worldwide development of Evoltra(R) in psoriasis and other autoimmune diseases.

Bioenvision holds an exclusive worldwide license for clofarabine. Bioenvision granted an exclusive sublicense to Genzyme to co-develop clofarabine for certain cancer indications in the US and Canada. Genzyme is commercializing clofarabine for certain cancer indications in the US and Canada under the brand name Clolar(R). Bioenvision holds an exclusive license in the US and Canada for all non-cancer indications and certain cancer indications. Bioenvision originally obtained clofarabine development and commercialization rights under patents held by Southern Research Institute.

In the U.S., in December 2004, the Food and Drug Administration, or FDA, approved clofarabine, for the treatment of pediatric acute lymphoblastic leukemia, or ALL, in patients who are relapsed or refractory to at least two prior regimens of treatment. We believe clofarabine was the first new medicine initially approved in the U.S., for children with leukemia in more than a

Edgar Filing: BIOENVISION INC - Form 10-Q

decade. Our U.S. partner, Genzyme Corporation, received Orphan Drug designation status for clofarabine in the U.S., providing marketing exclusivity for 7 1/2 years. Genzyme is marketing clofarabine under the brand name Clolar(R) in the U.S.

We are marketing our second product, Modrenal(R) (trilostane), in the United Kingdom, or U.K., through our force of six sales specialists. Modrenal(R) is approved in the U.K. for the treatment of post-menopausal advanced breast cancer following relapse to initial hormone therapy. Modrenal is also approved in the U.K. and Germany for the treatment of hypercortisolism but is not currently marketed for this indication. Bioenvision has initiated a clinical study, at the Massachusetts General Hospital, of the effects of hypercortisolism in women with anorexia nervosa and stress-induced amenorrhoea. Bioenvision is planning the commercial development of Modrenal in conditions known to be associated with increased cortisol production.

With the approval of Evoltra(R) under the EMEA's centralized process, we intend to continue to expand our dedicated sales force working for Innovex by adding six to 10 sales specialists in each of five other key regions within the E.U. which include the countries of France, Germany, Italy, Spain, Portugal, Netherlands, Austria, Belgium, Denmark and Sweden. Further, our sales force is intended to penetrate all of the other markets within the E.U. upon establishing traction in the E.U.'s major markets. Initially, outside the U.K., we maintain a fully dedicated sales force through Innovex, an affiliate of Quintiles Corporation, which we intend to convert to a direct sales force of our own by fourth quarter of calendar 2007 provided our corporate development and certain market conditions allow for such a conversion.

In addition to Evoltra(R) and Modrenal(R), we are currently in clinical development of Suvus(R) for chronic hepatitis C. This product is also in pre-clinical development for the treatment of West Nile Virus and influenza.

Over the next 12 months, we intend to continue our internal growth strategy to provide the necessary capabilities which will be required to pursue the expanded development programs described above.

We have made significant progress in developing our product portfolio over the past twelve months, and have multiple products in clinical trials. We have incurred losses during this early stage of our operations.

We anticipate that revenues derived from Evoltra(R) will permit us to further develop the other products currently in our product pipeline. In addition to clofarabine and Modrenal(R), we are performing development work Suvus(R) for the treatment of chronic hepatitis C. The work to date on these compounds has been limited because of the need to concentrate on Evoltra(R), but management believes these compounds have potential value. With Suvus(R) an investigator-sponsored phase II clinical study has been completed in patients with hepatitis C viral infection. We have had discussions with potential product partners from time to time and plan to continue to explore the possibilities for co-development and sub-licensing in order to implement our development plans. In addition, we believe that some of our products may have applications in treating non-cancer conditions in humans and in animals. Those conditions are outside our core business focus and we do not presently intend to devote a substantial portion of our resources to addressing those conditions.

In May 2003, we entered into a License and Sub-License Agreement with Dechra Pharmaceuticals, plc, or Dechra, pursuant to which we sub-licensed to Dechra the marketing and development rights to Vetoryl(R) (trilostane), solely with respect to animal health applications, in the U.S. and Canada. We received \$1,250,000 in cash, together with future milestone and royalty payments which are contingent upon the occurrence of certain events. We intend to continue to try and capitalize on these types of opportunities as they arise. The Company also owns

Edgar Filing: BIOENVISION INC - Form 10-Q

rights to OLIGON(R) technology and we have had discussions with potential product licensing partners from time to time, and plan to continue to explore the possibilities for co-development and sub-licensing in order to implement our development plans.

You should consider the likelihood of our future success to be highly speculative in light of our limited operating history, as well as the limited resources, problems, expenses, risks and complications frequently encountered by similarly situated companies. To address these risks, we must, among other things:

- o satisfy our future capital requirements for the implementation of our business plan;

-15-

- o commercialize our existing products;
- o complete development of products presently in our pipeline and obtain necessary regulatory approvals for use;
- o implement and successfully execute our business strategy to commercialize products;
- o establish and maintain our client base;
- o continue to develop new products and upgrade our existing products;
- o continue to establish and maintain relationships with manufacturers for our products;
- o respond to industry and competitive developments; and
- o attract, retain, and motivate qualified personnel.

We may not be successful in addressing these or any other risks associated with our business and/or products. If we were unable to do so, our business prospects, financial condition and results of operations would be materially adversely affected. The likelihood of our success must be considered in light of the development cycles of new pharmaceutical products and technologies and the competitive and regulatory environment in which we operate.

Results of Operations

The Company recorded revenue for the three months ended December 31, 2006 and 2005 of approximately \$4,497,000 and \$1,091,000, respectively, representing an increase of approximately \$3,406,000. This increase is due to increased product sales of \$3,513,000 primarily as a result of Evoltra's approval in Europe. Prior to the approval, all product sales through the named patient program were reflected as research and development contract revenue. The Company recorded revenue for the six months ended December 31, 2006 and 2005 of approximately \$7,361,000 and \$1,762,000, respectively, representing an increase of approximately \$5,599,000. This increase is due to increased product sales of \$5,192,000 as a result of Evoltra's approval in Europe and an increase of approximately \$855,000 in license and royalty revenue primarily due to increased royalties on US sales received from our co-development partner.

The cost of products sold for the three months ended December 31, 2006 and

Edgar Filing: BIOENVISION INC - Form 10-Q

2005 were approximately \$898,000 and \$438,000, respectively, representing an increase of approximately \$460,000. The cost of products sold reflects the direct costs associated with our product sales and includes royalty expense of \$759,000 and \$331,000 for the three months ended December 31, 2006 and 2005 respectively. The cost of products sold for the six months ended December 31, 2006 and 2005 were approximately \$1,320,000 and \$766,000, respectively, representing an increase of approximately \$554,000. The cost of products sold reflects the direct costs associated with our product sales and includes royalty expense of \$1,120,000 and \$532,000 for the six months ended December 31, 2006 and 2005, respectively. All direct costs associated with clofarabine sales were expensed in periods prior to the E.U. approval.

Research and development costs for the three months ended December 31, 2006 and 2005 were approximately \$4,315,000 and \$2,011,000, respectively, representing an increase of approximately \$2,304,000. Research and development costs for the six months ended December 31, 2006 and 2005 were approximately \$13,584,000 and \$4,442,000, respectively, representing an increase of approximately \$9,142,000. Our research and development costs include costs associated with the six products shown in the table below, three of which the Company currently devotes time and resources:

Product	Three Months Ended December 31,		Six Months Ended December 31,	
	2006	2005	2006	2005
Evoltra (R)	\$ 3,267,000	\$ 1,291,000	\$ 11,750,000	\$ 3,442,000
Modrenal (R)	1,046,000	680,000	1,818,000	912,000
Suvus (R)	2,000	40,000	16,000	
Velostan	-	-	-	
OLIGON (R)	-	-	-	
Gene Therapy	-	-	-	
Total	\$ 4,315,000	\$ 2,011,000	\$ 13,584,000	\$ 4,442,000

-16-

Evoltra(R) research and development costs for the three months ended December 31, 2006 and 2005 were approximately \$3,267,000 and \$1,291,000 respectively, representing an increase of approximately \$1,976,000. The increase is primarily due to an increase in our development activities and clinical trials of Evoltra(R) in Europe, including the process of filing for approval in our first label extension for Evoltra, the enrollment of patients in our Phase II trial in Europe for the treatment of adult AML in elderly patients unfit for intensive chemotherapy, and certain non-cash expenses incurred for stock-based compensation relating to stock options granted to employees that devote their time to research and development activities. Evoltra(R) research and development

Edgar Filing: BIOENVISION INC - Form 10-Q

costs for the six months ended December 31, 2006 and 2005 were approximately \$11,750,000 and \$3,429,000, respectively, representing an increase of approximately \$8,321,000. This substantial increase is primarily due to approximately \$4,000,000 of costs recorded in connection with the acquisition of the Japanese and Southeast Asian rights to Evoltra(R) which occurred in the quarter ended September 30, 2006 as well as the aforementioned increase in the development activities and clinical trials of Evoltra(R) in Europe.

Modrenal(R) research and development costs for the three months ended December 31, 2006 and 2005 were approximately \$1,046,000 and \$680,000, respectively, representing an increase of \$366,000. Modrenal(R) research and development costs for the six months ended December 31, 2006 and 2005 were approximately \$1,818,000 and \$916,000, respectively, representing an increase of \$902,000. The increase is due primarily to the costs associated with our Phase II clinical trial in pre-menopausal breast cancer and Phase IV clinical trial in patients with post-menopausal breast cancer, which are each being conducted in the U.K.

Suvus(R) research and development costs for the three months ended December 31, 2006 and 2005 were approximately \$2,000 and \$40,000, respectively, representing a decrease of \$38,000. Suvus(R) research and development costs for the six months ended December 31, 2006 and 2005 were approximately \$16,000 and \$97,000 respectively, representing a decrease of \$81,000. The decrease primarily reflects the costs associated with the investigator sponsored Phase II clinical trial conducted in Egypt prior to the six months ended December 31, 2006.

There were no research and development costs associated with Velostan for the three and six months ended December 31, 2006 and 2005 because the Company has been working with its vendors on revising the manufacturing process to develop a raceamic form of the compound for use in the Company's clinical development program. No assurance can be given the Company will be able to create the L-form Velostan required for the clinical development program or, if it can, the timing of such development.

There was no research and development costs for OLIGON(R) for the three and six months ended December 31, 2006 and 2005 due to the Company's focus on Evoltra(R) and Modrenal(R) during this period.

There were no research and development costs associated with Gene Therapy for the three and six months ended December 31, 2006 and 2005 due to the Company's focus on Evoltra(R) and Modrenal(R) during this period. We anticipate that revenue derived from our two lead drugs, clofarabine and Modrenal(R) will permit us to further develop these products.

The clinical trials and development strategy for Evoltra(R) and Modrenal(R), in each case, is anticipated to cost several million dollars and will continue for several years based on the number of clinical indications within which we plan to develop these drugs. Currently, management cannot estimate the timing or costs associated with these projects because many of the variables, such as interaction with regulatory authorities and response rates in various clinical trials, are not predictable. Total costs to date for each of our projects is as follows: (i) clofarabine research and development costs have been approximately \$35,191,000; (ii) Modrenal(R) research and development costs have been approximately \$10,470,000; (iii) Velostan research and development costs have been approximately \$380,000; (iv) Suvus(R) research and development costs have been approximately \$524,000; (v) OLIGON research and development costs have been approximately \$24,000; and (vi) Gene Therapy research and development costs have been approximately \$451,000.

Selling, general and administrative expenses for the three months ended December 31, 2006 and 2005 were approximately \$6,322,000 and \$2,582,000, respectively, representing an increase of \$3,740,000. Selling, general and

Edgar Filing: BIOENVISION INC - Form 10-Q

administrative expenses for the six months ended December 31, 2006 and 2005 were approximately \$11,791,000 and \$5,470,000, respectively, representing an increase of \$6,321,000. This increase is primarily relating to the costs associated with the expanded sales and marketing and administrative infrastructure and costs associated with the internal build out of the Company. Other factors include an increase in stock-based compensation expense due to the issuance of common stock to an officer of the Company pursuant to the terms of his amended employment agreement and the granting of stock options to an officer as inducement to serve as the chief financial officer to the Company.

Depreciation and amortization expense for the three months ended December 31, 2006 and 2005 was approximately \$240,000 and \$257,000, respectively, representing a decrease of \$17,000. Depreciation and amortization expense for each of the six months ended December 31, 2006 and 2005 was approximately \$482,000.

-17-

Liquidity and Capital Resources

We anticipate that we will continue to incur significant operating losses for the foreseeable future. There can be no assurance as to whether or when we will generate material revenue or achieve profitable operations.

On December 31, 2006, we had cash and cash equivalents and short term investments totaling, in the aggregate, approximately \$29,114,000. Management believes the Company has sufficient cash and cash equivalents, short-term investments and working capital to continue currently planned operations over the next 12 months.

However, we may need additional financing to continue to fund the research and development and marketing programs for our products and to generally expand and grow our business. Because we will be required to fund additional operating losses in the foreseeable future, our financial position will continue to deteriorate. We cannot be sure that we will be able to find financing in the future or, if found, such funding may not be on terms favorable to us. If adequate financing is not available, we may be required to delay, scale back, or eliminate some of our research and development programs, to relinquish rights to certain technologies or products, or to license third parties to commercialize technologies or products that we would otherwise seek to develop. Any inability to obtain additional financing, if required, would have a material adverse effect on our ability to continue our operations and implement our business plan.

Although we do not currently plan to acquire or obtain licenses for new technologies, if any such opportunity arises and our Board deems it to be in our interests to pursue such an opportunity, it is possible that additional financing would be required for such a purpose.

For the six months ended December 31, 2006 and 2005, net cash used in operating activities was approximately \$16,891,000 and \$10,517,000, respectively, representing an increase of approximately \$6,374,000. This increase is primarily due to increased costs associated with (i) our expanded research and development activity, (ii) selling, general and administrative expenses, including an increase in costs associated with the expanded sales and marketing and administrative infrastructure and costs associated with the internal build out of the Company and (iii) cash paid for insurance premiums. For the six months ended December 31, 2006 and 2005, net cash provided by (used in) investing activities was approximately \$20,863,000 and \$(17,782,000),

Edgar Filing: BIOENVISION INC - Form 10-Q

respectively, representing an increase of approximately \$38,645,000. This increase is primarily due to the redemption of our certificates of deposit during the period. For the six months ended December 31, 2006 and 2005, net cash provided by (used in) financing activities was approximately \$381,000 and \$(169,000) representing an increase of \$550,000. This increase is primarily due to proceeds from the exercise of warrants and cash received on a promissory note due from a shareholder.

The Company has the following commitments due over the next five fiscal years:

	2007	2008	2009	2010	
Operating Leases	\$ 570,535	\$ 907,303	\$ 378,399	\$ 181,391	\$
Contractual obligations	115,705	1,000,000	250,000	500,000	4,
Totals	\$ 686,240	\$ 1,907,303	\$ 628,399	\$ 681,391	\$ 4,

The contractual obligations relate to minimum payments due for research conducted on Modrenal and minimum royalties due on our licenses.

Off-balance sheet arrangements

We have no off-balance sheet arrangements.

Other Events

As described in the Company's current report on Form 8-K, filed on October 11, 2006, effective October 6, 2006, the board of directors (the "Board") of the Company voted to increase the number of directors from 5 to 6. On the same date, the Board, in accordance with the Company's director nomination policy, unanimously approved the election of Joseph P. Cooper as a director of

-18-

the Company to fill the newly created vacancy on the Board. The Board has determined that Mr. Cooper is "independent" under the Nasdaq Global Select Market and Nasdaq Global Market Listing Standards. There is no arrangement or understanding between Mr. Cooper and any other persons pursuant to which he was selected as a director. There are no relationships between Mr. Cooper and the Company or its subsidiaries that would require disclosure pursuant to Item 404(a) of Regulation S-K. In consideration for Mr. Cooper agreeing to serve on the Board, on October 6, 2006, the Company granted him an option to purchase 25,000 shares of the Company's common stock, which will vest in equal portions on the first and second anniversary of the grant date.

As further described in the Company's current report on Form 8-K, filed on November 30, 2006, on November 28, 2006, the Company announced the appointment James S. Scibetta to the post of Chief Financial Officer of the Company. Mr. Scibetta began his employment with Bioenvision on December 4, 2006.

Subsequent Events

Edgar Filing: BIOENVISION INC - Form 10-Q

In January 2007, the Company entered into a licensing arrangement with Foster Corporation ("Foster") to license out exclusive rights to manufacture, market and distribute the Company's proprietary anti-microbial OLIGON(R) technology. Under the terms of the license agreement, Bioenvision will have a revenue sharing arrangement on future sublicenses and a royalty on all sales by Foster, a Connecticut-based compounder of biomedical materials. Foster is required to comply with annual minimum marketing and research and development expenditures within the first five years of the term of the license.

As further described in the Company's current report on Form 8-K, filed on February 6, 2007, on February 5, 2007, the Company announced the appointment of Mr. Yoshimaru Yamamoto to the post of Director and General Manager of Bioenvision JapanCo., Ltd.

On February 7, 2007, the Company announced it has filed with the European Medicines Agency (EMA) to expand the Evoltra(R) (clofarabine) label to include the treatment of acute myeloid leukemia (AML) in patients who are greater than or equal to 65-years-old and have one or more of the following: adverse cytogenetics, secondary AML, aged greater than or equal to 70 years, or have greater than or equal to 1 significant comorbidity.

Recent Accounting Pronouncements

In December 2006, the Financial Accounting Standards Board ("FASB") issued a FASB Staff Position Emerging Issues Task Force ("EITF") Issue No. 00-19-2 "Accounting for Registration Payment Arrangements" ("FSP 00-19-2") which addresses an issuer's accounting for registration payment arrangements. FSP 00-19-2 specifies that the contingent obligation to make future payments or otherwise transfer consideration under a registration payment arrangement, whether issued as a separate agreement or included as a provision of a financial instrument or other agreement, should be separately recognized and measured in accordance with FASB Statement No. 5 "Accounting for Contingencies". The guidance in FSP 00-19-2 amends FASB Statements No. 133, "Accounting for Derivative Instruments and Hedging Activities", and No. 150, "Accounting for Certain Financial Instruments with Characteristics of both Liabilities and Equity", and FASB Interpretation No. 45, "Guarantor's Accounting and Disclosure Requirements for Guarantees, Including Indirect Guarantees of Indebtedness of Others" to include scope exceptions for registration payment arrangements. FSP 00-19-2 is effective immediately for registration payment arrangements and the financial instruments subject to those arrangements that are entered into or modified subsequent to the date of issue of FSP 00-19-2. For registration payment arrangements and financial instruments subject to those arrangements that were entered into prior to the issuance of FSP 00-19-2, this is effective for financial statements issued for fiscal years beginning after December 15, 2006, and interim periods within those fiscal years. The Company has analyzed the provisions of FSP 00-19-2 and determined that it will not have a material effect on the Company's consolidated financial statements.

In September 2006, the FASB issued Statement of Financial Accounting Standards No. 157, "Fair Value Measurements" ("SFAS 157"). SFAS 157 defines fair value, establishes a framework for measuring fair value in accordance with generally accepted accounting principles and expands disclosures about fair value measurements. The provisions of SFAS 157 are effective for fiscal years beginning after November 15, 2007. The Company is currently evaluating the impact, if any, of the provisions of SFAS 157.

In September 2006, the Securities and Exchange Commission ("SEC") issued Staff Accounting Bulletin No. 108 ("SAB 108"). SAB 108 provides interpretive guidance on how the effects of the carryover or reversal of prior year misstatements should be considered in quantifying a potential current year misstatement. Prior to SAB 108, companies might evaluate the materiality of

Edgar Filing: BIOENVISION INC - Form 10-Q

financial statement misstatements using either the income statement or balance sheet approach, with the income statement approach focusing on new misstatements added in the current year, and the balance sheet approach focusing on the cumulative amount of misstatement present in a company's balance sheet. Misstatements that would be material under one approach could be viewed as immaterial under another approach, and not be corrected. SAB 108 now requires that companies view financial statement misstatements as material if they are material according to either the income statement or balance sheet approach. The Company has analyzed SAB 108 and determined that it will have no impact on the reported results of operations or financial condition of the Company.

-19-

In June 2006, the FASB ratified the consensus of EITF Issue No. 06-3, "How Taxes Collected from Customers and Remitted to Governmental Authorities Should Be Presented in the Income Statement" ("EITF 06-3"). EITF 06-3 indicates that the income statement presentation on either a gross basis or a net basis of the taxes within the scope of the issue is an accounting policy decision. The Company's accounting policy is to present the taxes within the scope of EITF 06-3 on a net basis. The adoption of EITF 06-3 in the second fiscal quarter of 2007 did not result in a change to the Company's accounting policy and, accordingly, did not have any effect on the Company's consolidated financial statements.

In June 2006, the FASB issued FASB Interpretation No. 48, Accounting for Uncertainty in Income Taxes - an interpretation of FASB Statement No. 109 ("FIN 48"). This Interpretation clarifies the accounting for uncertainty in income taxes recognized in an enterprise's financial statements in accordance with FASB Statement No. 109, Accounting for Income Taxes. This Interpretation prescribes that a company should use a more likely than not recognition threshold based on the technical merits of the tax position taken. Tax positions that meet the more likely than not recognition threshold should be measured in order to determine the tax benefit to be recognized in the financial statements. FIN 48 is effective in fiscal years beginning after December 15, 2006. We do not expect the adoption of FIN 48 to have a material impact on the results of operations or financial condition of the Company.

ITEM 3. Quantitative and Qualitative Disclosures About Market Risk

Our excess cash is invested in Certificates of Deposit with various short-term maturities. We hold no derivative financial instruments and we do not currently engage in hedging activities. As of December 31, 2006, we do not have any outstanding debt. Accordingly, due to the maturity and credit quality of our investments, we are not subjected to any substantial risk arising from changes in interest rates, currency exchange rates and commodity and equity prices. However, the Company does have some exposure to foreign currency rate fluctuations arising from maintaining an office for the Company's U.K. based, wholly-owned subsidiary which transacts business in the local functional currency. Management periodically reviews such foreign currency risk and to date has not undertaken any foreign currency hedges through the use of forward exchange contracts or options and does not foresee doing so in the near future.

ITEM 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

Our principal executive officer and principal financial officer have evaluated the effectiveness of the design and operation of our disclosure

Edgar Filing: BIOENVISION INC - Form 10-Q

controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended) as of the end of the period covered by this quarterly report on Form 10-Q. Based on this evaluation our principal executive officer and principal financial officer concluded that these disclosure controls and procedures are effective and designed to ensure that the information required to be disclosed in our reports filed or submitted under the Securities Exchange Act of 1934, as amended, is recorded, processed, summarized and reported within the requisite time periods.

Changes in Internal Controls

During the quarterly period ended December 31, 2006, the following change occurred in our internal controls over financial reporting that materially affected or are reasonably likely to materially affect our internal control over financial reporting: On November 28, 2006, the Company announced the appointment of a new Chief Financial Officer of the Company. The new CFO began his employment with Bioenvision on December 4, 2006. On that date, the Company's current Chief Financial Officer, General Counsel and Corporate Secretary was promoted to the position of Executive Vice President, General Counsel and Corporate Secretary, focusing on business and product development activities and continuing to manage the Company's legal and regulatory matters.

PART II - OTHER INFORMATION

ITEM 1. Legal Proceedings

We are not currently engaged in any legal proceedings.

Item 1A. Risk Factors

None.

ITEM 2. Unregistered Sales of Equity Securities and Use of Proceeds

None.

ITEM 3. Defaults Upon Senior Securities

None.

ITEM 4. Submission of Matters to a Vote of Security Holders

a) The Company held its annual meeting of stockholders on December 15, 2006.

(b)and (c) At the annual meeting of stockholders on December 15, 2006, our stockholders considered and approved:

1. A proposal to elect six directors (identified in the table below) to serve until the next annual meeting of stockholders or until such directors' successors are elected and shall have been duly qualified ("Proposal 1");
2. A proposal to approve and adopt an amendment to our 2003 stock incentive plan to increase the number of shares to be granted under the plan from 4,500,000 to 6,750,000 ("proposal 2"); and
3. A proposal to ratify the appointment of J.H. Cohn LLP as our

Edgar Filing: BIOENVISION INC - Form 10-Q

independent auditors for the fiscal year ending June 30, 2007
("Proposal 3").

The following table sets forth the number of votes in favor, the number of votes opposed, and the number of abstentions (or votes withheld in the case of the election of directors) with respect to each of the foregoing proposals.

Proposal	Votes in Favor	Votes Opposed	Abstentions (withheld)
Proposal 1			
Christopher B. Wood	36,765,929		5,699,168
Thomas Scott Nelson	35,647,020		6,818,077
Michael Kauffman	37,894,003		4,571,094
Steven A. Elms	37,872,028		4,593,069
Andrew N. Schiff	37,877,303		4,587,794
Joseph P. Cooper	38,448,593		4,016,504
Proposal 2	18,473,134	7,486,287	63,991
Proposal 3	42,301,021	1,161,592	98,230
