PROXY STATEMENT FOR ANNUAL MEETING OF STOCKHOLDERS TO BE HELD ON MAY 24, 2012

INFORMATION CONCERNING THE ANNUAL MEETING AND VOTING

General

The Board of Directors (the "Board") of Dynamic Materials Corporation, a Delaware corporation, is soliciting proxies for use at the Annual Meeting of Stockholders to be held on May 24, 2012, at 8:30 a.m., local time, or at any adjournment or postponement thereof, for the purposes described in this proxy statement and in the accompanying Notice of Annual Meeting. The Annual Meeting will be held at the St. Julien Hotel, which is located at 900 Walnut Street, Boulder, Colorado. On or about April 13, 2012, we will mail to all stockholders entitled to vote at the meeting, a Notice of Internet Availability of Proxy Materials that contains specific instructions on how to access Annual Meeting materials via the Internet, as well as instructions on how to request paper copies. Unless the context otherwise requires, references to "the company," "we," "us" or "our" refer to Dynamic Materials Corporation.

Solicitation

We will bear the entire cost of solicitation of proxies, including preparation, assembly, printing and mailing of the Notice of Internet Availability of Proxy Materials and any additional information furnished to stockholders. Copies of solicitation materials will be furnished to banks, brokerage houses, fiduciaries, and custodians holding in their names shares of our common stock beneficially owned by others to forward to such beneficial owners. We may reimburse persons representing beneficial owners of common stock for their costs of forwarding solicitation materials to such beneficial owners. Original solicitation of proxies via the Internet may be supplemented by mail, telephone, telegram, or personal solicitation by our directors, officers, or other regular employees. No additional compensation will be paid to directors, officers, or other regular employees for such services.

Outstanding Shares and Quorum

Only holders of record of common stock at the close of business on April 3, 2012, will be entitled to notice of and to vote at the Annual Meeting. At the close of business on April 3, 2012, we had 13,483,238 shares of common stock outstanding and entitled to vote. Each holder of record of common stock on such date will be entitled to one vote for each share held on all matters to be voted upon at the Annual Meeting.

A majority of the outstanding shares of common stock entitled to vote represented in person or by proxy will constitute a quorum at the Annual Meeting. However, if a quorum is not represented at the Annual Meeting, the stockholders entitled to vote at the meeting, present in person or represented by proxy, have the power to adjourn the Annual Meeting from time to time, without notice other than by announcement at the Annual Meeting, until a quorum is present or represented. At any such adjourned meeting at which a quorum is present or represented, any business may be transacted that might have been transacted at the originally scheduled meeting.

Table of Contents

Voting Rights and Procedures

Votes cast by proxy or in person will be counted by one or more persons appointed by us to act as inspectors (the "Election Inspectors") for the Annual Meeting. The Election Inspectors will treat shares represented by proxies that reflect abstentions as shares that are present and entitled to vote for the purpose of determining the presence of a quorum, but not for determining the outcome of any matter submitted to the stockholders for a vote.

Broker non-votes occur when a broker holding stock in street name votes the shares on some matters but not others. Brokers are permitted to vote on routine, non-controversial proposals in instances where they have not received voting instruction from the beneficial owner of the stock but are not permitted to vote on non-routine matters. The missing votes on non-routine matters are deemed to be "broker non-votes." The Election Inspectors will treat broker non-votes as shares that are present and entitled to vote for the purpose of determining the presence of a quorum. The only "routine" proposal on our ballot this year is the ratification of the appointment of Ernst & Young LLP as our independent registered public accounting firm for the fiscal year ending December 31, 2012. Therefore no broker non-votes are expected to exist in connection with that proposal. Brokers are no longer permitted to vote shares for the election of directors without customer direction and will not be permitted to vote on the non-binding, advisory vote on executive compensation or the non-binding, advisory vote on the frequency of a non-binding, advisory vote on executive compensation. **Therefore, we urge you to give voting instructions to your broker on all proposals.**

Directors are elected by a plurality of the votes cast by the shares entitled to vote in the election at a meeting at which a quorum is present. Proxies may not be voted for a greater number of persons than there are nominees. It is intended that unless authorization to vote for one or more nominees for director is withheld, proxies will be voted for the election of all of the six nominees named in this Proxy Statement.

The selection of our auditors will be ratified if the number of votes of authorized shares of our common stock cast in favor of the respective proposal exceeds the votes cast opposing the proposal. The non-binding advisory vote on the compensation of our named executive officers will be approved if the number of votes of authorized shares of our common stock cast in favor of the respective proposal exceeds the votes cast opposing the proposal. Accordingly, a majority of votes cast is required to approve these proposals.

Abstentions and broker non-votes will not be counted as votes cast on any of the proposals.

Revocability of Proxies

Any person giving a proxy pursuant to this solicitation has the power to revoke it at any time prior to the Annual Meeting. It may be revoked by filing with our Secretary at our principal executive office, 5405 Spine Road, Boulder, Colorado 80301, a written notice of revocation or a duly executed proxy bearing a later date, or it may be revoked by attending the meeting and voting in person. Attendance at the meeting will not, by itself, revoke a proxy. If no direction is indicated, the shares will be voted FOR each of the proposals set forth in this proxy statement. The persons named in the proxies will have discretionary authority to vote all proxies with respect to additional matters that are properly presented for action at the Annual Meeting.

Stockholder Proposals

Proposals of stockholders that are intended to be presented at our 2013 Annual Meeting of Stockholders must be received by us not later than December 14, 2012, in order to be included in the proxy statement and proxy relating to that annual meeting.

Notice of any stockholder proposal to be considered at our 2013 Annual Meeting, but not included in the proxy materials, must be submitted in writing and received by us not later than 60 days and not earlier than 90 days prior to the first anniversary of this year's annual meeting date; provided, however, that in the event that fewer than 70 days' notice or public announcement of the date of the meeting is given or made to stockholders, to be timely, notice by the stockholder must be received not later than the close of business of the tenth day following the day on which we first publicly announce the meeting date.

Table of Contents**PROPOSAL 1 ELECTION OF DIRECTORS**

There are eight nominees for election to the Board. Each director to be elected will hold office until the 2013 Annual Meeting of Stockholders. In any event, a director elected pursuant to this proxy statement will hold office until his successor is elected and is qualified, or until such director's earlier death, resignation, or removal.

Shares represented by executed proxies will be voted, if authority to do so is not withheld, for the election of the eight nominees named below. In the event that any nominee should be unavailable for election as a result of an unexpected occurrence, such shares will be voted for the election of such substitute nominee as the Corporate Governance and Nominating Committee of the Board may propose. Each person nominated for election has agreed to serve if elected, and the Board has no reason to believe that any nominee will be unable to serve.

NOMINEES

The names of the nominees and certain information about them are set forth below. In addition, we have included information about each nominee's specific experience, qualifications, attributes or skills that led our Board of Directors to conclude that the nominee should serve as a director of the Company at the time we are filing this proxy statement, in light of our business and corporate strategy.

Board of Directors

Meeting Attendance

Directors are encouraged to attend our Annual Meeting of Stockholders. All of our directors attended the 2011 Annual Meeting of Stockholders held on May 26, 2011 and are planning on attending the 2012 Annual Meeting of Stockholders.

During the fiscal year ended December 31, 2011, each of our current directors attended more than 75% of the aggregate of (i) the number of meetings of the Board held during the period in which he was a director and (ii) the number of meetings of the committees on which he served.

Director Independence

The Board has determined that six of our eight current directors, Messrs. Allen, Cohen, Ferris, Graff, Hueber and Munera, all of whom are nominated for re-election, are "independent" directors under the rules promulgated by the Securities and Exchange Commission ("SEC") and the applicable rules of the NASDAQ. In making its determinations of independence, in addition to consideration of the relevant SEC and NASDAQ rules, the Board considered factors for each director such as any other directorships, any employment or consulting arrangements, and any relationship with our customers or suppliers. Mr. Cariou, our President and Chief Executive Officer, and Mr. Rospek, the Chief Executive of our DYNAenergetics subsidiary, are the only Board members who are not independent based on these criteria. All members of the Audit Committee, the Compensation Committee, and the Corporate Governance and Nominating Committee are independent directors.

Our independent, non-executive directors hold regularly scheduled meetings in executive session, at which only independent, non-executive directors are present. The Board determined that there were no related-party transactions or other relationships that needed to be considered in evaluating whether these directors are "independent."

Board Leadership Structure

The Company does not have a policy on whether the Chairman and Chief Executive Officer positions should be separate or combined. Currently we have separated the positions of Chairman and Chief Executive Officer. Our Chief Executive Officer is responsible for setting the strategic direction for the Company and the day to day leadership and performance of the Company, while our Chairman of the Board provides guidance to the Chief Executive Officer and sets the agenda for Board meetings and presides over meetings of the full Board.

Board Committees and Meetings

During the fiscal year ended December 31, 2011, the Board held six meetings, including one telephonic meeting. The Board currently has an Audit Committee, a Compensation Committee, a Corporate Governance and Nominating Committee and a Quality and Safety Committee.

The Audit Committee

The Audit Committee meets with our independent registered public accounting firm at least four times a year to review quarterly financial results and the annual audit, discuss financial statements and related disclosures, and receive and consider the accountants' comments as to controls, adequacy of staff and management performance and procedures in connection with the annual audit and financial controls. The Audit Committee also appoints the independent registered public accounting firm. Messrs. Graff, Ferris, Hueber and Munera were members of the Audit Committee for the full year ended December 31, 2011, with Mr. Graff serving as Chairman. On May 26, 2011, Mr. Cohen was appointed as a member of the Audit Committee to replace Mr. Allen, who served as a member of the Audit Committee until such

Table of Contents

replacement. All members of the Audit Committee are non-employee directors whom the Board has determined to be "independent" as that concept is defined in Section 10A of the Securities Exchange Act of 1934, as amended (the "Exchange Act"), the rules promulgated by the SEC thereunder, and the applicable rules of the NASDAQ. The Audit Committee has determined that Mr. Graff qualifies as an "audit committee financial expert" under the rules of the SEC. The Audit Committee met five times during the 2011 fiscal year.

In June 2000, the Board adopted a written Charter of the Audit Committee. The Charter of the Audit Committee, which was revised in April 2004, requires the Audit Committee be comprised of three or more independent directors, at least one of whom has relevant financial or accounting experience. The Charter of the Audit Committee was also revised in April 2007 to charge the Audit Committee with the responsibility of reviewing any related party transactions for potential conflicts of interest pursuant to our Related Party Transaction Policy and Procedures, which are described in more detail under, "Certain Relationships and Related Transactions." The Charter of the Audit Committee may be viewed on our website, www.dynamicmaterials.com.

The Compensation Committee

The Compensation Committee makes recommendations concerning salaries and incentive compensation, grants equity-based awards to employees and non-employee directors under our stock incentive plan and otherwise determines compensation levels and performs such other functions regarding compensation as the Board may delegate. Messrs. Allen, Ferris, Hueber and Munera were members of the Compensation Committee for the full year ended December 31, 2011, with Mr. Allen serving as the Chairman. Mr. Cohen was appointed as a member of the Compensation Committee on May 26, 2011. All members of the Compensation Committee are non-employee directors whom the Board has determined to be "independent" under SEC rules and the applicable rules of the NASDAQ. During the 2011 fiscal year, the Compensation Committee met five times.

In August 2006, the Board adopted a written Charter of the Compensation Committee. The Charter was revised in April 2007 to charge the Compensation Committee with responsibility for reviewing and approving the Compensation Discussion and Analysis included in the Company's proxy statement. The Charter of the Compensation Committee may be viewed on our website, www.dynamicmaterials.com.

The Corporate Governance and Nominating Committee

In June 2006, the Board established a Corporate Governance and Nominating Committee and adopted a Charter for the committee. Messrs. Allen, Hueber and Munera were members of the Corporate Governance and Nominating Committee for the full fiscal year ended December 31, 2011. Mr. Ferris joined the Committee on September 17, 2011. Mr. Munera serves as Chairman of the Committee. The main purposes of this Committee are (i) to identify and recommend individuals to the Board for nomination as members of the Board and its committees; (ii) to develop and recommend to the Board corporate governance principles applicable to the Company; (iii) to oversee the Board's annual evaluation of its performance; and (iv) to undertake such other duties as the Board may from time to time delegate to the Committee. Members of the Corporate Governance and Nominating Committee identified, selected and nominated Messrs. Ferris (in 2010) and Cohen (in 2011) for election to the Board. The Corporate Governance and Nominating Committee held four meetings during the 2011 fiscal year. The Charter of the Corporate Governance and Nominating Committee may be viewed on our website, www.dynamicmaterials.com.

The Corporate Governance and Nominating Committee does not have a formal policy with regard to the consideration of any director nominees recommended by its stockholders because historically we have not received recommendations from our stockholders and the costs of establishing and maintaining procedures for the consideration of stockholder nominations would have been unduly burdensome.

Table of Contents

However, any recommendations received from stockholders will be evaluated in the same manner that potential nominees recommended by Board members, management or other parties are evaluated. Stockholders may nominate persons for election to the Board of Directors in accordance with our Bylaws. Any stockholder nominations proposed for Board consideration should include the nominee's name and qualifications for Board membership and should be mailed to Dynamic Materials Corporation, c/o Corporate Secretary, 5405 Spine Road, Boulder, Colorado 80301, or faxed to (303) 604-1897. We do not intend to treat stockholder recommendations in any manner differently from other recommendations. No such suggestions were received during 2011.

Qualifications for consideration as a director nominee may vary according to the particular area of expertise being sought as a complement to the existing Board composition. However, in making its nominations, the Corporate Governance and Nominating Committee considers, among other things, an individual's business experience, industry experience, financial background, breadth of knowledge about issues affecting our business, time available for meetings and consultation, integrity, independence, diversity of experience, leadership and other particular skills and experience possessed by the individual. Diversity is considered in the nominating process as described above and in our Governance and Nominating Committee Charter, which provides that we develop and recommend to the Board the criteria for Board membership, including, among other things, integrity, independence, diversity of experience, leadership and the ability to exercise sound judgment. We do not have a separate Board diversity policy.

We do not currently employ an executive search firm or pay a fee to any other third party to locate qualified candidates for director positions.

Director Leadership of Quality and Safety Committee

In June 2009, at the direction of the Board, the Company established a Quality and Safety Committee comprised of the Company's Chief Executive Officer, two independent directors and up to three Company managers. Mr. Hueber serves as the Chairman of this Committee. Messrs. Allen and Cariou are also members of this Committee, together with managers of some of the Company's U.S. and European operating divisions. The purpose of this Committee is to review, at least annually, the Company's performance in meeting its quality and safety objectives established by management and to facilitate the Board's oversight of these critical operational issues. The Quality and Safety Committee met once during the 2011 fiscal year as it inspected the Company's AMK Welding manufacturing facility.

Risk Oversight

Our senior management manages the risks facing the Company under the oversight and supervision of the Board. While the full Board is ultimately responsible for risk oversight at our Company, two of our Board committees assist the Board in fulfilling its oversight function in certain areas of risk. The Audit Committee assists the Board in fulfilling its oversight responsibilities with respect to risk in the areas of financial reporting and internal controls. The Quality and Safety Committee assists the Board in fulfilling its oversight responsibilities with respect to the management of risks related to operations and safety. Other general business risks such as economic and regulatory risks are monitored by the full Board. Risk management and assessment reports are regularly provided by management to these committees and the full Board.

Compensation Risk Assessment

Our Compensation Committee considered whether our compensation program encouraged excessive risk taking by employees at the expense of long-term Company value. Based upon its assessment, the Compensation Committee does not believe that our compensation program encourages excessive or inappropriate risk-taking. The Compensation Committee believes that the design of our compensation

Table of Contents

program, which includes a mix of annual and long-term incentives, cash and equity awards and retention incentives, is balanced and does not motivate imprudent risk-taking.

Communications with the Board

The Board believes that it is important for stockholders to have a process to send communications to the Board. Accordingly, stockholders desiring to send a communication to the Board, or to a specific director, may do so by delivering a letter to our Secretary at Dynamic Materials Corporation, c/o Corporate Secretary, 5405 Spine Road, Boulder, Colorado 80301 or fax to (303) 604-1897. The mailing envelope or fax cover sheet must contain a clear notation indicating that the enclosed letter is a "Stockholder-Board Communication" or "Stockholder-Director Communication." All such letters must identify the author as a stockholder and clearly state whether the intended recipients of the letter are all members of the Board or certain specified individual directors. The Secretary will open such communications and make copies and then circulate them to the appropriate director or directors.

PROPOSAL 2 APPROVAL OF THE AMENDMENT TO THE COMPANY'S EMPLOYEE STOCK PURCHASE PLAN

We are asking stockholders to approve an amendment to the Dynamic Materials Corporation Employee Stock Purchase Plan (the "ESPP") to increase the number of shares of our common stock available for purchase by 150,000 shares.

Purpose of the Employee Stock Purchase Plan

The purpose of the ESPP is to provide eligible employees of the Company and its affiliates with a program for the regular purchase of our common stock from the Company through periodic payroll deductions. The ESPP gives participating employees a convenient and cost-effective means of acquiring a proprietary interest in the Company. Under the ESPP, employees acquire our common stock at a 15% discount from the market price as determined on each purchase date.

Background

The ESPP previously authorized the sale of 450,000 shares of our common stock. Employee participation in our ESPP has increased every year since inception of the plan. Currently, 20% of our employees make regular contributions and purchases through the plan. The average aggregate number of shares purchased each month during 2011 by all participants in the ESPP was 216. As of March 31, 2012, a total of 427,228 shares of common stock had been purchased under the ESPP by eligible employees, leaving 22,772 shares available for subsequent purchases. If the ESPP is approved, the number of shares available for purchase under the ESPP will increase by 150,000 to 600,000. If stockholder approval is not obtained, then the amendment to the ESPP will not be implemented, and the ESPP will continue in effect pursuant to its current terms. Approval of the ESPP will ensure that sufficient shares are available for purchase by our employees for the next several years.

**THE BOARD RECOMMENDS
A VOTE "FOR" PROPOSAL 2.**

Summary of the ESPP

The following summary of material terms of our Employee Stock Purchase Plan does not purport to be complete and is subject to and qualified in its entirety by the actual terms of the plan. A copy of the Amendment is provided as *Appendix A* to this Proxy Statement.

Participation. Rights may be granted only to employees of the Company or, as the Board or the ESPP Committee may designate, to employees of any affiliate of the Company. With certain exceptions, an employee of the Company or any affiliate shall not be eligible to be granted rights under the Plan, unless, on the date rights to acquire common stock are offered ("Offering Date"), such employee has been in the employ of the Company or any affiliate for such continuous period preceding such grant as the Board or the ESPP Committee may require, but in no event shall the required period of continuous employment be equal to or greater than two years. In addition, unless otherwise determined by the Board or the ESPP Committee and set forth in the terms of the applicable grant, no employee of the Company or any affiliate shall be eligible to be granted rights under the Plan, unless, on the Offering Date, such employee's customary employment with the Company or such affiliates is for at least twenty hours per week and at least five months per calendar year.

Payroll Deductions. Each agreement to acquire common stock shall authorize payroll deductions of up to the maximum percentage specified by the Board or the ESPP Committee of such employee's Earnings (as defined by the Board for each grant) during the grant period. The payroll deductions made for each participant shall be credited to an account for such participant under the Plan and shall be deposited with the general funds of the Company. A participant may reduce (including to zero) or increase

Table of Contents

such payroll deductions, and an eligible employee may begin such payroll deductions, after the beginning of any grant period only as provided for in the grant. A participant may make additional payments into his or her account only if specifically provided for in the grant and only if the participant has not had the maximum amount withheld during the grant period. An employee may cease to participate in the ESPP at any time. If an employee ceases to be eligible to participate in the ESPP, then such employee may no longer purchase shares through the ESPP.

Administration. The Plan is administered by the Board of Directors (the "Board") of the Company unless and until the Board delegates administration to an ESPP Committee. Whether or not the Board has delegated administration, the Board shall have the final power to determine all questions of policy and expediency that may arise in the administration of the Plan. In addition, the Board shall have the power, subject to, and within the limitations of, the express provisions of the Plan: (i) to determine when and how rights to purchase stock of the Company shall be granted and the provisions of each offering of such rights (which need not be identical); (ii) to designate from time to time which Affiliates of the Company shall be eligible to participate in the Plan; (iii) to construe and interpret the Plan and rights granted under it, and to establish, amend and revoke rules and regulations for its administration and, in the exercise of this power, may correct any defect, omission or inconsistency in the Plan, in a manner and to the extent it shall deem necessary or expedient to make the Plan fully effective; (iv) to amend the Plan; and (v) generally, to exercise such powers and to perform such acts as the Board deems necessary or expedient to promote the best interests of the Company and its affiliates and to carry out the intent that the Plan be treated as an "employee stock purchase plan" within the meaning of the Internal Revenue Code. The Board may delegate administration of the Plan to an ESPP Committee composed of not fewer than two members of the Board (the "Committee"). If administration is delegated to an ESPP Committee, the ESPP Committee shall have, in connection with the administration of the Plan, the powers theretofore possessed by the Board, subject, however, to such resolutions, not inconsistent with the provisions of the Plan, as may be adopted from time to time by the Board. The Board may abolish the ESPP Committee at any time and revert in the Board the administration of the Plan.

Issuance of Shares. On each purchase date specified in the relevant grant, each participant's accumulated payroll deductions and other additional payments specifically provided for in the grant (without any increase for interest) will be applied to the purchase of whole shares of common stock of the Company, up to the maximum number of shares permitted pursuant to the terms of the Plan and the applicable grant, at the purchase price specified in the grant. No fractional shares shall be issued upon the exercise of rights granted under the Plan.

Amendment and Termination. The Board may terminate the ESPP as of the end of any offering period and may amend the ESPP at any time. If the Board changes the discount from the market price of our common stock at which shares are to be purchased under the ESPP, then the Company will not implement such change until participants have been notified of such change and given a reasonable opportunity to cease participation in the ESPP.

Summary of Amendment

The ESPP currently provides that 450,000 shares of the Company's common stock are available for purchase. The amendment provides for an additional 150,000 shares of the Company's common stock making 600,000 total shares of the Company's common stock available for purchase by eligible employees under the ESPP.

Tax Consequences

The following paragraphs describe certain U.S. federal income tax consequences of the ESPP. Different rules may apply to participants who are not subject to U.S. federal income tax.

Table of Contents

To the extent required by applicable laws and regulations, the employer of a participant will withhold from such participant's wages any taxes or other amounts required to be withheld by reason of the purchase of shares under the ESPP at a price less than the current market price at the time of the purchase.

As shares of common stock purchased under the ESPP are allocated to the account of a participant each offering period, the participant will include in his or her gross income the difference between the fair market value of the common stock so allocated and the payroll deductions elected by such participant for that month. Such difference (the "spread") will be taxable to the participant as current compensation income.

When a participant sells shares of common stock acquired under the ESPP, the difference between the sale price of such shares and the participant's income tax basis in such shares will constitute long-term or short-term capital gain or loss, depending upon the sale price and the participant's holding period for the shares sold. A participant's income tax basis for shares acquired under the ESPP generally will be the sum of the payroll deductions applied to the purchase of such shares and the amount of taxable income realized by the participant upon such purchase.

A participant's employer generally will be entitled to a U.S. federal income tax deduction in the same amount as the participant is required to recognize for U.S. federal income tax purposes (*i.e.*, the spread) and at the same time as such recognition occurs (*i.e.*, at the time the shares of common stock are acquired for the participant's account).

Company Cannot State the Purchase Price until Fair Market Value is Determined on Date of Purchase

Because (i) participation in the ESPP is voluntary on the part of eligible employees, (ii) participants in their discretion may change the dollar amounts of their purchases from time to time and may cease to participate in the ESPP at any time and (iii) the purchase prices under the ESPP are based on the fair market value of the common stock at the times of the purchases, the Company is not able to state the number of shares of common stock that any participant in the ESPP will purchase, the purchase prices for such shares or the dollar amount of the purchase price discount that any participant will receive. The closing price of our common stock on the Nasdaq National Market on April 3, 2012, was \$21.04 per share.

Table of Contents**PROPOSAL 3 RATIFICATION OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM**

The Audit Committee of the Board has selected Ernst & Young LLP ("E&Y") as our independent registered public accounting firm for the fiscal year ending December 31, 2012. E&Y has been so engaged since July 18, 2002.

Ratification of the selection of E&Y by stockholders is not required by law. However, as a matter of internal policy and good corporate governance, such selection is being submitted to the stockholders for ratification at the Annual Meeting and it is the present intention of the Board to continue this policy. If the stockholders do not ratify this appointment, the Audit Committee will reconsider whether to retain E&Y. If the selection of E&Y is ratified, the Audit Committee, in its discretion, may direct the appointment of a different independent registered public accounting firm at any time it decides that such a change would be in the best interest of the Company and its stockholders.

A representative of E&Y will be present at the annual meeting and will be available to respond to appropriate questions. We do not anticipate that the representative will make a prepared statement at the meeting; however, he or she will have the opportunity to do so if he or she so desires.

The Company paid the following fees to E&Y for the audit of the consolidated financial statements and for other services provided in the years ended December 31, 2011 and 2010.

	2011	2010
Audit Fees	\$ 625,324	\$ 620,179
Audit Related Fees(1)	\$ 32,399	\$ 17,842
Tax Fees(2)	\$ 56,901	\$ 63,638
All Other Fees		
Total Fees	\$ 714,624	\$ 701,659

-
- (1) Consists of reimbursement of costs incurred in connection with performance of work on the audit including transportation and meal expenses.
- (2) Tax Fees included fees related to federal and state tax compliance, tax advice and tax planning.

Audit Committee Pre-Approval Policies and Procedures

In accordance with the SEC's rules requiring the Audit Committee to pre-approve all audit and non-audit services provided by our independent auditor, the Audit Committee has adopted a formal policy on auditor independence requiring the approval by the Audit Committee of all professional services rendered by our independent auditor prior to the commencement of the specified services. The Audit Committee approved all services performed by E&Y in fiscal year 2011 in accordance with our formal policy on auditor independence.

Requisite Vote

The selection of our auditors will be ratified if the number of votes of authorized shares of our common stock cast in favor of the proposal exceeds the votes cast opposing the proposal. Abstentions and broker non-votes will not be counted as votes cast on the proposal.

PROPOSAL 4 ADVISORY VOTE TO APPROVE EXECUTIVE COMPENSATION

As described under the heading "Compensation Discussion and Analysis," our executive compensation program is designed to (i) attract, motivate and retain high-caliber managerial talent; (ii) provide competitive compensation opportunities; (iii) create incentives to achieve both short-term performance measures and long-term strategic goals; and (iv) provide incentive programs that are linked to stockholder value. For additional information about our executive compensation program, please read the "Compensation Discussion and Analysis" beginning on page 20.

At our 2011 Annual Meeting, our stockholders voted in favor of holding an annual advisory vote on executive compensation. In line with this recommendation, our Board has decided to include an advisory stockholder vote on executive compensation in our proxy materials every year until the next required advisory vote on the frequency of stockholder advisory votes on executive compensation. We are asking our stockholders to indicate their support for the compensation of our named executive officers, as described in this proxy statement. This proposal, commonly known as a "say-on-pay" proposal, gives our stockholders the opportunity to express their views on the compensation of our named executive officers. This vote is not intended to address any specific item of compensation, but rather the overall compensation of our named executive officers and the philosophy, objectives and practices described in this proxy statement. Accordingly, we are asking our stockholders to vote "FOR" approval of the following resolution at our 2012 annual meeting:

"RESOLVED, that the compensation paid to the Company's named executive officers, as disclosed pursuant to the compensation disclosure rules of the Securities and Exchange Commission, including the Compensation Discussion and Analysis, compensation tables and narrative discussion is hereby APPROVED."

Requisite Vote

The advisory vote on the compensation of our named executive officers will be approved if the number of votes of authorized shares of our common stock cast in favor of this proposal exceeds the votes cast opposing this proposal. Abstentions and broker non-votes will not be counted as votes cast on the proposal. However, this say-on-pay vote is advisory, and therefore not binding on the Company, the Compensation Committee or our Board. Our Board and our Compensation Committee value the opinions of our stockholders and will consider the outcome of the vote when considering future decisions on the compensation of our named executive officers.

**THE BOARD RECOMMENDS
A VOTE "FOR" APPROVAL OF PROPOSAL 4.**

Notwithstanding anything to the contrary set forth in any of our filings under the Securities Act of 1933, as amended (the "Securities Act"), or the Exchange Act, that might incorporate future filings, including this proxy statement, in whole or in part, the following Audit Committee Report and the Compensation Committee Report shall not be deemed to be "Soliciting Material," and are not deemed "filed" with the SEC and shall not be incorporated by reference into any filings under the Securities Act or Exchange Act whether made before or after the date of this proxy statement and irrespective of any general incorporation language in such filings.

REPORT OF THE AUDIT COMMITTEE OF THE BOARD OF DIRECTORS

As of December 31, 2011, the Audit Committee of Dynamic Materials Corporation (the "Company") was comprised of Messrs. Richard P. Graff (Chairman), Robert A. Cohen, James J. Ferris, Bernard Hueber, and Gerard Munera, each of whom the Board of Directors of the Company has determined to be independent as that concept is defined in Section 10A of the Exchange Act, the rules promulgated by the SEC thereunder; and the applicable rules of the NASDAQ. As required by the revised written Charter of the Audit Committee adopted by the Board of Directors in April 2004, the Audit Committee reviewed and discussed the Company's audited financial statements with the Company's management. The Audit Committee has also discussed with Ernst & Young LLP ("E&Y"), the Company's independent registered public accounting firm, the matters required to be discussed by the Statement on Auditing Standards No. 61, as amended. The Audit Committee has received from E&Y the written disclosures and the letter required by the applicable requirements of the Public Company Accounting Oversight Board regarding the independent accountant's communications with the Audit Committee concerning independence, and the Audit Committee has discussed with E&Y that firm's independence. Based upon these discussions and the Audit Committee's review, the Audit Committee recommended to the Board of Directors that the Company include the audited financial statements in the Company's Annual Report on Form 10-K for the year ended December 31, 2011.

COMPENSATION PROCEDURES

Our executive compensation program is administered by our Compensation Committee. Below is a discussion of the process and procedures followed by the Compensation Committee in determining the 2011 compensation for our named executive officers as well as in setting the 2012 compensation levels and frame-work for 2012 performance bonus opportunities.

Roles of the Parties Involved in Executive Compensation Decisions

Role of Compensation Committee. As provided in the Compensation Committee Charter, the Compensation Committee is composed of at least three non-employee directors who are also "independent directors," as defined under the applicable corporate governance rules of NASDAQ, and operates pursuant to its charter. The Compensation Committee determines the compensation arrangements of our named executive officers and recommends to the Board for its consideration and approval, the aggregate amount of equity-based compensation for our other employees. The Compensation Committee seeks to ensure that our compensation policies and practices are consistent with our values and pay philosophy and support the successful recruitment, development and retention of executive talent who are focused on achieving our business objectives and optimizing our long-term financial returns to stockholders. Additional information regarding the Compensation Committee is contained in the section of this proxy statement entitled, "Board of Directors Board Committees and Meetings The Compensation Committee."

Role of Outside Compensation Consultant. Since early 2006, the Compensation Committee has engaged an outside compensation consultant to assist the Compensation Committee in making compensation decisions with respect to the named executive officers. Harlon Group has served as the compensation consultant to the Compensation Committee since mid-2009. Harlon Group is an independent firm that provides consultation services to boards of directors and their compensation committees and does not provide any other services to us. The Compensation Committee engaged Harlon Group to review the Company's overall executive officer and director compensation in comparison to other comparably-sized public companies in industries similar to the Company's, to help the Compensation Committee identify the appropriate mix of compensation components for compensating our executive officers and to facilitate the Compensation Committee's determination of our executive officers' performance bonus payments.

Role of Chief Executive Officer in Compensation Decisions. Our Chief Executive Officer confers with the chairman of the Compensation Committee in determining the base salary compensation for the executive officers other than himself. In 2012 our Chief Executive Officer will also propose recommendations to the Compensation Committee as to the 2012 performance bonus for each of the named executive officers other than the Chief Executive Officer.

Meetings of Compensation Committee

The 2011 salary and framework for performance bonuses for Messrs. Cariou, Santa, Rospek and Banker were set by the Compensation Committee at its October 2010 and January 2011 meetings. The formula for the incentive bonus for Messrs. Cariou, Santa and Banker that was earned for 2011 is contained in the Company's Performance-Based Plan that was approved by stockholders at the 2009 annual stockholders meeting. The formula for Mr. Rospek's incentive bonus was approved by the Compensation Committee following consultation with our Chief Executive Officer. The Compensation Committee had two meetings in November 2011 and January 2012 to determine 2011 performance bonuses for Messrs. Cariou, Santa, Banker and Rospek and 2011 equity grants for all of the named executive officers as well as to set compensation for 2012. The Compensation Committee also reviewed and refined its philosophy on compensating our executive officers at each of the meetings at which it set compensation for 2011 and 2012.

Table of Contents

At the direction of the Compensation Committee, Harlon Group prepared various materials and analysis to assist the Compensation Committee in its review and determination of compensation for the named executive officers.

Comparator Group Research

At the direction of the Compensation Committee, Harlon Group researched market compensation levels and trends. This research focused on all aspects of compensation for our named executive officers. Harlon Group gathered research data from several different data sources, including various executive compensation surveys of companies in metal fabrication and advanced metals industries with comparable annual revenues (ranging from \$138 million to \$520 million). Data for those few competing companies in our primary industry is not available. Our competitors are either privately-held, foreign-owned and/or are wholly-owned subsidiaries or divisions of larger companies and no applicable compensation information is publicly-available. Rather, we have reviewed the executive compensation packages of a "comparator group" of similarly-sized, public companies that operate in metal fabrication and advanced metals industries, for 2011 consisting of: Altra Holdings, Inc.; AZZ Incorporated; Cabot Microelectronics Corp.; CARBO Ceramics, Inc.; Chart Industries Inc.; Gorman-Rupp Company; Great Lakes Dredge & Dock Corporation; Haynes International Inc.; Houston Wire & Cable Company; Insteel Industries, Inc.; L.B. Foster Company; LMI Aerospace, Inc.; McGrath RentCorp; Preformed Line Products; RTI International Metals, Inc.; Sun Hydraulics Corporation; T-3 Energy Services, Inc.; and Universal Stainless & Alloy Products, Inc. Though not an exact match to our Company, we believe that these metal fabrication and advanced metals industries companies are our closest relevant comparators.

The research included identifying compensation levels by executive position, with a break-out by salary, bonuses and equity grants. Among other things, the research also identified the proportion of total pay that is based on performance as well as the compensation for various executive officer positions relative to one another. The research compared the Company's historic levels of executive compensation to that of the median and mean of the comparator group.

COMPENSATION COMMITTEE REPORT

The Compensation Committee of Dynamic Materials Corporation has reviewed and discussed the "Compensation Discussion and Analysis" for the 2011 fiscal year with management. Based on these reviews and discussions, the Compensation Committee recommended to the Board of Directors that the "Compensation Discussion and Analysis" be included in the Proxy Statement for the 2012 annual meeting of stockholders and incorporated by reference into the Company's annual report on Form 10-K for the year ended December 31, 2011.

COMPENSATION COMMITTEE INTERLOCKS AND INSIDER PARTICIPATION

During the fiscal year ended December 31, 2011, the Compensation Committee was composed of Messrs. Allen, Cohen (from May 26, 2011), Ferris, Hueber and Munera, with Mr. Allen serving as the Chairman. We do not have any interlocking relationships between any member of our Compensation Committee and any of our executive officers that would require disclosure under the applicable rules promulgated under the U.S. federal securities laws.

COMPENSATION DISCUSSION AND ANALYSIS

Philosophy and Objectives of Our Executive Compensation Program

Our compensation philosophy is to (i) provide a compensation program that attracts, motivates, and retains high-caliber managerial talent; (ii) offer compensation opportunities that are competitive with those provided by other comparable U.S. public companies as determined by our market research; (iii) create incentive compensation opportunities that emphasize the importance of achieving both short-term performance measures (*i.e.*, annual) and long-term strategic goals; and (iv) sponsor incentive pay programs which are linked to stockholder value. The principal forms of executive compensation are base salary, an annual incentive bonus based on the net income of the Company, an annual performance bonus based on achievement of non-objective criteria and equity grants of restricted stock.

Below is a brief summary of the objectives of our executive compensation program:

1. **Linkage to Performance.** Our executive compensation program is designed to link executive compensation to the Company's performance as well as the individual executive's performance. To this end, a sizable portion of each named executive officer's total compensation package is linked to accomplishing specific and measurable goals, including growing revenue profitably and increasing stockholder value. We believe net income should be used as the primary metric in determining performance levels for the award of incentive bonuses. Our equity awards are performance based because they take into account the increase or decrease in the trading price of our common stock over a period of years.

We believe that the interests of our named executive officers should be closely aligned with those of our stockholders. We have historically granted of stock options and shares of restricted stock to our executive officers to reinforce a long-term focus on delivering value to stockholders. We also provided retirement compensation in 2008 in the form of shares of restricted stock, the restrictions of which lapse five years following the date of grant. The Compensation Committee believes that our incentive bonuses and equity awards provide compensation opportunities that are driven by the Company's performance.
2. **Stock Ownership Guidelines.** Our Compensation Committee and Board strongly believe that the best way to strengthen the link between our named executive officers (and directors) and stockholders is to require these individuals to own a significant amount of our common stock. Within three years of the commencement of the program on January 1, 2007, the following levels are expected to be attained: our Chief Executive Officer must hold common stock with a value that is at least five times his salary; the Chief Financial Officer and the Senior Vice President, Customers and Technology must hold stock worth at least three times their respective salaries; and within three years of their election non-employee directors must hold stock worth at least five times their annual cash fees from serving as a director. Restricted stock and stock options are not counted for purposes of these guidelines.
3. **Pay Mix.** We strive for a pay mix that reflects our compensation philosophy and performance-based compensation culture. A high proportion of total pay of our named executive officers is based on incentive and performance bonuses and equity awards that tie compensation to the Company's performance as well as the performance of the executive. Approximately two-thirds or more of the total compensation packages of our named executive officers is intended to be delivered through non-salary, short-term and long-term incentives.
4. **Competitive Compensation Levels.** We operate in a competitive business environment; therefore, our compensation program is intended to support our goal of attracting and retaining highly talented employees. We believe our named executive officers should be compensated relative to the market median of comparable companies and consistent with the Company's performance.

Table of Contents

During 2011, we compared the compensation of our named executive officers to market data gathered by our compensation consultant to help establish compensation levels for each executive. See "Compensation Procedures Comparator Group Research" above. We selected median as the targeted level of compensation as we do not intend to pay compensation at levels significantly below or above the midpoint of our competitive market, taking into account the Company's performance compared to that of the comparator group. In comparing actual total direct compensation paid to our named executive officers for 2009 and 2010 against the actual median of our comparator group for the same years, we note that our compensation for those years was slightly below the median of the comparator group. Our philosophy on annual and long-term incentive compensation is that it should vary with our performance, relative to budgets, goals and expectations.

5.

Perquisites. We provide few perquisites to our named executive officers. In 2011, named executive officers received certain supplemental disability and life insurance benefits. Coverage under the supplemental life insurance policies for 2011 was \$750,000 for our Chief Executive Officer, \$415,000 for each of the other two U.S.-based named executive officers, our Chief Financial Officer and Senior Vice President, Customers and Technology and €250,000 (\$348,025 based on the average exchange rate for 2011) for the Chief Executive Officer of our DYNAenergetics subsidiary. Also in 2011 we leased automobiles for the full year for our four named executive officers. We also paid all operating expenses associated with the leased automobiles.

6.

Retirement Benefits. Through the end of 2011, we did not sponsor any retirement plan for executives that would provide a pension benefit above the level provided to our other employees. We provide all eligible employees, including the U.S.-based named executive officers, with a 401(k) savings plan to which we make matching contributions. The 401(k) savings plan allows eligible employees to defer a percentage of their eligible compensation on a pre-tax basis, subject to the applicable dollar limit set by the Internal Revenue Service. We make a matching contribution of 100% of an employee's contribution up to 3% of eligible compensation and 50% of an employee's contribution on the next 2% of eligible compensation. Under the terms of the employment agreement for our European-based named executive officer, we made payments of €56,169 (\$78,210 based on the average exchange rate for 2011) under a retirement insurance policy. As described below, in 2008, we granted each of the named executive officers supplemental retirement plan compensation in the form of restricted stock that vest five years from date of grant.

7.

Employment Contracts and Severance Protection. Our named executive officers have employment agreements with us with a term ending December 31, 2012. The primary purpose of the employment agreements is to set forth with clarity the terms and conditions of the executive's employment, to protect us from certain business risks (*e.g.*, disclosure of trade secrets and improper competitive conduct), and to specify our right to terminate the employment relationship under various conditions. The employment agreements also protect the executive from certain risks, including termination of employment without cause. They do not, however, provide any special terms pertaining to a change in control of the Company. A summary of the provisions of the employment agreements for our named executive officers can be found below under "Employment Agreements."

Primary Elements of Our Executive Compensation Program

Our philosophy regarding each element of our executive compensation program is as follows:

1.

Base salary is what we pay our named executive officers for their efforts for doing their job, given their scope of responsibility and their accountability for results that impact our success;

Table of Contents

2. An annual incentive bonus is what we pay our named executive officers for the short-term results of their efforts, measured by the net income of the Company or a business segment of the Company;
3. An annual performance bonus is what we pay our named executive officers for the results of their efforts judged by the Compensation Committee by reference to specified individual non-objective performance goals; and
4. Long-term/stock incentive compensation is what we pay executives as incentives to promote long-term results for their efforts, for growing the value of the enterprise, and for enhancing value for our stockholders.

Base Salary. When establishing base salaries for our named executive officers, the Compensation Committee considers compensation paid for similar positions at comparable companies included in compensation surveys. Using this information, it establishes salary guidelines that reflect the responsibilities of the executive in relation to similar positions in comparable companies. The Compensation Committee considers the named executive officer's performance against certain corporate objectives, such as successful execution of our strategies; comparisons of budgeted amounts to actual amounts; and our overall profitability. Other factors, such as specific job responsibilities, length of time in their current position, and the potential for future advancement influence the Compensation Committee's final determination of salaries for the named executive officers.

Annual Incentive Bonus. Pursuant to our Performance-Based Plan approved by our stockholders, we provide annual incentive bonus awards for our Chief Executive Officer, Chief Financial Officer and Senior Vice President, Customers and Technology to promote the achievement of our short-term (*i.e.*, annual) business objectives, which are also tied to shareholder value. The amount of the incentive bonus is based on the net income of the Company recognized for that fiscal year. The annual incentive bonus is paid in cash following completion of the audited financial statements of the Company for that year and certification, pursuant to Section 162(m) of the Internal Revenue Code, by the Compensation Committee. Under the terms of his employment agreement, we provide a similar annual incentive bonus award for the Chief Executive Officer of our DYNAenergetics subsidiary, the amount of which is based in part on the net income of the Company and in part on the operating income of our Oilfield Products segment recognized for that fiscal year.

Annual Performance Bonus. We provide annual performance bonus awards for our named executive officers to promote individual performance in meeting or exceeding objectives contained in the Company's strategy. This strategy and the performance objectives are updated and reviewed annually. The amount of the performance bonus award varies by the extent to which the named executive officer's target objectives are achieved. The total amount of performance bonus that may be awarded is set at a percentage of the named executive officer's base salary as provided in their respective employment agreements. At the start of each fiscal year, the Compensation Committee reviews and approves our non-objective performance goals for the named executive officers. Our objectives consist of operating, strategic, and financial goals that are considered critical to our fundamental long-term goal of building stockholder value.

After the end of the fiscal year, the Compensation Committee evaluates the performance of each named executive officer in meeting these target objectives. Awards are paid in cash following the determination of the award amounts.

Long-Term Incentives and Retirement Benefits. We currently provide long-term incentive awards to our named executive officers through our 2006 Stock Incentive Plan, which permits a broad range of types of equity grants. The purpose of the 2006 Stock Incentive Plan is to enable us to attract, retain and motivate our named executive officers and to align a significant portion of executive compensation with the long-term interests of our stockholders.

Table of Contents

In January 2012, we made grants of restricted stock to our named executive officers as compensation for their work in 2011. These grants vest in equal installments over three years, subject to continued employment with us. The purposes of the restricted stock grants are to retain the executive over a long timeframe and further strengthen the link between the named executive officer's compensation and the goal of building long-term value for stockholders. To the extent that dividends are declared and paid by the Company, any such dividends are paid on shares of restricted stock held by our named executive officers both prior to and after their vesting dates. In January 2011, we made similar grants of restricted stock, vesting over three years, to our named executive officers as compensation for their work in 2010. We also made a special grant of restricted stock, vesting at the end of five years, to three of our named executive officers in January 2011.

In January 2008, we established a Supplemental Executive Retirement Plan ("SERP") to provide additional retirement benefits to our named executive officers based upon their salary levels, ages and years of service with the Company. The SERP benefit consists of shares of restricted stock granted under the 2006 Stock Incentive Plan. The Compensation Committee used the principles of a "defined benefit" pension plan to determine the number of shares of restricted stock to be granted to each of the executives. The shares of restricted stock vest upon the completion, from date of grant, of five additional years of service with the Company. The shares will vest immediately upon the occurrence of a change in control of the Company, death or disability, termination without cause, or termination of employment by the executive for good reason. The Compensation Committee reviews annually the current value of the restricted stock granted in 2008 to provide the SERP benefit as it considers the over-all long-term incentives and retirement benefit portion of compensation for the named executive officers.

2011 Advisory Vote on Executive Compensation

At our 2011 annual meeting of stockholders, we received an approximately 92% vote approving, on a non-binding advisory basis, our 2010 executive compensation. This vote accounts for all of the shares that voted for or against this "say-on-pay" proposal and does not include the "broker non-votes" or small number of shares that abstained from voting on this proposal. We believe this vote demonstrates our stockholders' approval of the Compensation Committee's compensation philosophy and the manner and amount in which it set compensation for 2010. We followed a similar approach in 2011.

Compensation Decisions for Our Named Executive Officers

Compensation of Chief Executive Officer. In determining the compensation of Mr. Cariou, our President and Chief Executive Officer, the Compensation Committee focused on (i) competitive levels of compensation for chief executive officers who are leading a company of similar size and complexity and (ii) the importance of retaining a chief executive officer with the strategic, financial and leadership skills to ensure our continued growth and success. Harlon Group has advised us that Mr. Cariou's base salary, annual incentive target opportunity, and equity-based compensation for 2011 are consistent with reasonable and competitive practices for high-performing chief executive officers.

During 2011, Mr. Cariou continued to demonstrate strong leadership and vision for us, to implement key strategic initiatives that strengthen us and increase long-term stockholder value, and to enhance our competitiveness. Despite the difficult economic and market challenges facing the Company in 2011, we believe Mr. Cariou's leadership has been exceptional in enabling the Company to increase the level of sales and margins it achieved in 2011 while wisely using Company resources in furthering opportunities for the Company's growth.

Base Salary. For 2011, Mr. Cariou's base salary was \$469,075, a 3% increase from 2010. The Compensation Committee determined to increase Mr. Cariou's base salary to \$483,147 for 2012 (an increase of approximately 3%).

Table of Contents

Annual Bonus. We paid Mr. Cariou a total bonus of \$429,544 for his performance in 2011. This bonus was comprised of two components: an incentive bonus pursuant to the Company's Performance-Based Plan and a performance bonus determined at the discretion of the Compensation Committee. Mr. Cariou's 2011 annual incentive bonus was \$312,275, which is 2.5% of our annual consolidated net income for the year. The performance bonus was \$117,269, which represented 25.0% (out of a possible 35% maximum target) of Mr. Cariou's salary. The Compensation Committee determined the amount of this performance bonus based on how well the Committee believed Mr. Cariou achieved important non-objective corporate goals related to development, leadership and executive management, organic growth, safety, quality and risk management, operational and financial performance and investor relations.

Pursuant to the Performance-Based Plan, Mr. Cariou's annual incentive bonus opportunity for 2012 is an amount equal to 2.5% of our annual consolidated net income for the year up to an amount equal to 175% of Mr. Cariou's base salary and thereafter 1.0% of the Company's annual consolidated net income. Mr. Cariou is eligible in 2012 for a performance bonus of up to another 35% of salary if, in the opinion of the Compensation Committee and in its sole discretion, he achieves certain other important non-objective corporate goals, as described above.

Long-Term Incentives. We granted Mr. Cariou a restricted stock award of 30,000 shares effective January 18, 2012 for his performance in 2011. These shares of restricted stock are scheduled to vest annually in equal installments over three years from the grant date. The grant reflects (i) our view of the value of Mr. Cariou's long-term contribution to, and leadership of the Company and the long-term benefits realized by our stockholders, (ii) the Compensation Committee's and the Board's desire to retain Mr. Cariou and foster his desire to exceed our expectations, and (iii) competitive market practices. In January 2011, we made a similar grant of 26,000 shares of restricted stock, vesting over three years, to Mr. Cariou as compensation for his work in 2010 as well as a special grant of 5,000 shares of restricted stock, vesting at the end of five years or earlier retirement.

Compensation of the Other Named Executive Officers.

Richard A. Santa Senior Vice President, Chief Financial Officer and Secretary.

Base Salary. For 2011, Mr. Santa's base salary was \$293,175, a 3% increase from 2010. The Compensation Committee determined to increase Mr. Santa's base salary to \$301,970 for 2012 (an increase of approximately 3%).

Annual Bonus. We paid Mr. Santa a total bonus of \$187,210 for his performance in 2011. This bonus was comprised of two components: an incentive bonus pursuant to the Company's Performance-Based Plan and a performance bonus determined at the discretion of the Compensation Committee. Mr. Santa's 2011 annual incentive bonus was \$124,910, which is 1.0% of our annual consolidated net income for the year. The Compensation Committee awarded a performance bonus of \$62,300, which represented 21.25% (out of a possible 25% maximum target) of Mr. Santa's salary. The Compensation Committee determined the amount of this performance bonus based on how well the Committee believed Mr. Santa achieved important non-objective corporate goals related to operational and financial performance, safety, quality and risk management, development, leadership and executive management, organic growth and investor relations.

Mr. Santa's annual incentive bonus opportunity for 2012 is an amount equal to 1.0% of our annual consolidated net income for the year up to an amount equal to 125% of Mr. Santa's base salary and thereafter 0.5% of the Company's annual net income. Mr. Santa is eligible in 2012 for a performance bonus of up to another 25% of salary if, in the opinion of the Compensation Committee and at its sole discretion, he achieves certain other important non-objective corporate goals, as described above.

Long-Term Incentives. We granted Mr. Santa a restricted stock award of 12,500 shares effective January 18, 2012 for his performance in 2011. These shares of restricted stock are scheduled to vest

annually in equal installments over three years. The grant reflects (i) our view of the value of Mr. Santa's long-term contribution to, and leadership of, the Company and the long-term benefits realized by our stockholders, (ii) the Compensation Committee's and the Board's desire to retain Mr. Santa and foster his desire to exceed their expectations, and (iii) competitive marketplace practices. In January 2011, we made a similar grant of 11,000 shares of restricted stock, vesting over three years, to Mr. Santa as compensation for his work in 2010 as well as a special grant of 3,000 shares of restricted stock, vesting at the end of five years or earlier retirement.

John G. Banker *Senior Vice President, Customers and Technology.*

Annual Bonus. We paid Mr. Banker a total bonus of \$188,309 for his performance in 2011. This bonus was comprised of two components: an incentive bonus pursuant to the Company's Performance-Based Plan and a performance bonus determined at the discretion of the Compensation Committee. Mr. Banker's 2011 annual incentive bonus was \$124,910, which is 1.0% of our annual consolidated net income for the year. The Compensation Committee awarded a performance bonus of \$63,399, which represented 21.625% (out of a possible 25% maximum target) of Mr. Banker's salary. The Compensation Committee determined the amount of this performance bonus based on how well the Committee believed Mr. Banker achieved important non-objective corporate goals related to sales growth, safety, quality and risk management, development, leadership and executive management and investor relations.

Mr. Banker's annual incentive bonus opportunity for 2012 is an amount equal to 1.0% of our annual consolidated net income for the year up to an amount equal to 125% of Mr. Banker's base salary and thereafter 0.5% of the Company's annual net income. Mr. Banker is eligible in 2012 for a performance bonus of up to another 20% of salary if, in the opinion of the Compensation Committee and in its sole discretion, he achieves certain other important non-objective corporate goals cited above.

Long-Term Incentives. We granted Mr. Banker a restricted stock award of 12,500 shares effective January 18, 2012 for his performance in 2011. These shares of restricted stock are scheduled to vest annually in equal installments over three years. The grant reflects (i) our view of the value of Mr. Banker's long-term contribution to, and leadership of, the Company and the long-term benefits realized by our stockholders, (ii) the Compensation Committee's and the Board's desire to retain Mr. Banker and foster his desire to exceed their expectations, and (iii) competitive marketplace practices. In January 2011, we made a similar grant of 11,000 shares of restricted stock, vesting over three years, to Mr. Banker as compensation for his work in 2010 as well as a special grant of 3,000 shares of restricted stock, vesting at the end of five years or earlier retirement.

Rolf Rospek *Director and DYNAenergetics Chief Executive Officer.*

Base Salary. For 2011, Mr. Rospek's base salary was €190,000 (\$264,556 based on the average exchange rate for 2011). The Compensation Committee determined to increase Mr. Rospek's base salary to €195,700 (\$272,493 based on the average exchange rate for 2011) for 2012 (an increase of approximately 3%).

Annual Bonus. We paid Mr. Rospek a total bonus of \$171,035 for his performance in 2011. This bonus was comprised of two components: an incentive bonus pursuant to the Company's Performance-Based Plan and a performance bonus determined at the discretion of the Compensation Committee. Mr. Rospek's annual incentive bonus was \$113,824, which is an amount equal to the sum of (1) 0.5% of the Company's annual net income and (2) 1.0% of the annual operating income of the oilfield products segment of the Company, which sum was slightly reduced to reflect certain adjustments provided in

Table of Contents

Mr. Rospek's employment agreement. The Compensation Committee awarded a performance bonus of \$57,211, which represented 21.625% (out of a possible 25% maximum target) of Mr. Rospek's salary. The Compensation Committee determined the amount of this performance bonus based on operational and financial performance, development, leadership and executive management, organic growth, safety, quality and risk management and investor relations.

Mr. Rospek's annual incentive bonus opportunity for 2012 is an amount equal to the (A) the sum of (1) 0.5% of the Company's annual net income and (2) 1.0% of the annual operating income of the oilfield products segment of the Company, until such time as he has received total payments under this non-discretionary annual bonus with respect to such year equal to 125% of that year's salary (the "Initial Bonus Limit"), plus (B) following such time as Mr. Rospek has received the Initial Bonus Limit, (1) 0.25% of the Company's annual net income and (2) 0.5% of the annual operating income of the oilfield products segment of the Company. Mr. Rospek is eligible in 2012 for a performance bonus of up to another 20% of salary if, in the opinion of the Compensation Committee and at its sole discretion, he achieves certain other important non-objective corporate goals.

Long-Term Incentives. We granted Mr. Rospek a restricted stock unit award of 12,500 shares effective January 18, 2012 for his work in 2011. These shares of restricted stock vest annually in equal installments over three years. The grant reflects (i) our view of the value of Mr. Rospek's long-term contribution to, and leadership of, the Company and the long-term benefits realized by our stockholders, (ii) the Compensation Committee's and the Board's desire to retain Mr. Rospek and foster his desire to exceed their expectations, and (iii) competitive marketplace practices. In January 2011, we made a similar grant of 9,000 shares restricted stock units, vesting over three years, to Mr. Rospek as compensation for his work in 2010.

Note on Currency Translation. Mr. Rospek's compensation is paid to him in Euros. All amounts described in U.S. Dollars were converted using an average exchange rate for 2011 of approximately 1.3924.

Extension of Term of Employment Agreements

In January 2010, upon the recommendation of the Compensation Committee, the Board extended the term of the employment agreements for each of Messrs. Cariou, Santa and Banker for three years. The Board believed it was important to secure the services of these senior executives on a longer-term basis than the one-year terms of the existing agreements. In 2011, we executed an employment agreement with Mr. Rospek, the term of which will expire on December 31, 2012, the termination date of the employment agreements with the other named executive officers.

Impact of Regulatory Requirements

Income Tax Considerations. Under Section 162(m) of the Internal Revenue Code, unless various conditions are met that enable compensation to qualify as "performance-based," the annual compensation paid to each of our three U.S.-based named executive officers who are covered employees will be tax-deductible only to the extent that it does not exceed \$1,000,000. The 2006 Stock Incentive Plan as well as the Performance Based Plan has been designed to permit the Compensation Committee to grant awards that generally qualify as performance-based compensation for purposes of Section 162(m) of the Code provided certain other requirements are met. The Compensation Committee generally intends that compensation paid by us will be tax-deductible. However, it may choose to pay nondeductible compensation if it deems it necessary or desirable to attract, retain and reward the executive talent necessary for our success. For example, the restricted stock awards issued under the SERP in 2008 and other restricted stock awards that include time-based vesting do not satisfy the conditions of Section 162(m) of the Code for qualifying performance-based compensation, and we anticipate that amounts payable under the SERP at the end of the five year period and other restricted stock awards that, together with other compensation paid in that year, exceed \$1,000,000 will not be deductible for federal income tax purposes.

Table of Contents

Accounting Considerations. We are required to treat stock options and restricted stock as an expense under FASB ASC Topic 718, "Share-Based Payments." The Compensation Committee takes this requirement into account in setting the awards under the 2006 Stock Incentive Plan and the vesting schedule that attaches to those awards.

Summary

The Compensation Committee and the Board set executive compensation policy and pay opportunities for our named executive officers by keeping in mind competitive practice for a company like Dynamic Materials Corporation, the importance of incentivizing performance, and the continuing need to align the executives' interests with those of stockholders.

(1) Mr. Cariou's non-equity incentive plan award for 2011 was calculated by a formula specified in the Performance-Based Plan that provided an annual incentive equal to 2.5% of the Company's 2011 net income up to an amount equal to 175% of Mr. Cariou's salary and thereafter 1.0% of the Company's 2011 net income. Non-equity incentive plan awards for Mr. Santa and Mr. Banker were calculated by a formula specified in the Performance-Based Plan that provided annual incentives equal to 1% of the Company's 2011 net income for each executive up to an amount equal to 125% of such executive's salary and thereafter 0.5% of the Company's 2011 net income. Mr. Rospek's non-equity incentive plan award for 2011 was calculated by a formula specified in the Performance-Based Plan that provided an annual incentive equal to the sum of 0.5% of the Company's 2011 net income and 1.0% of the 2011 operating income of the oilfield products segment of the Company. The target award for each of the named executive officers reflects the incentive that was paid. Since the formula in the Performance-Based Plan contains no thresholds or maximums, these columns have been deleted.

(2) Awards granted to all named executive officers were in the form of shares of restricted stock awards or units granted under the 2006 Stock Incentive Plan, which are scheduled to vest one-third on each of the first three anniversary dates (with respect to 26,000, 11,000, 11,000 and 9,000 shares granted to Messers Cariou, Santa, Banker and Rospek, respectively) and at the fifth anniversary of the grant date or earlier retirement of the executive (with respect to 5,000, 3,000 and 3,000 shares granted to Messers Cariou, Santa and Banker, respectively). In accordance with FASB ASC Topic 718, the grants reflects the grant date fair value of the awards based upon the quoted closing market price of \$20.90 per share of our common stock on January 19, 2011. Dividends of \$0.12 per share were paid in 2011 on restricted stock awards granted to Messers Cariou, Santa and Banker. The awards granted to Mr. Rospek were in the form of restricted stock units which do not qualify for dividends until shares of common stock are issued on each of the respective vesting dates.

Under the respective award agreements, if the named executive officer's employment is terminated for any reason other than (i) death, (ii) disability, (iii) retirement or (iv) termination without cause (as defined in the executive's employment agreement), the named executive officer shall, for no consideration, forfeit to us any shares of restricted stock to the extent such shares are not vested at the time of such termination of employment. If the named executive officer's employment terminates due to death, disability, retirement, or is terminated without cause, any unvested shares of restricted stock will immediately vest on the date of the Executive's termination of employment for such reason.

Supplemental Executive Retirement Plan

On January 9, 2008, the Board approved the SERP for the named executive officers. Under the terms of the SERP, on January 9, 2008, the Compensation Committee granted 35,000, 25,000 and 30,000 restricted shares of Company stock to Messrs. The shares vest for each executive upon the completion, from the date of grant, of five additional years of service with the Company. The shares will vest immediately if the executive's employment with the Company is terminated:

involuntarily by the Company without "cause," as that term is defined in the executive's employment agreements with the Company (and as more fully described in the section of this proxy statement entitled "Employment Agreements Definition of Cause");

by the executive, for "good reason," which shall mean substantial diminution in the executive's responsibilities or pay, as well as without the executive's consent a relocation of his principal place of business of more than 50 miles, or a substantial increase in his travel duties compared to the present;

by reason of the death or disability of the executive; or

upon a change in control of the Company, where Company stock or an equivalent stock is no longer provided.

Additional information regarding the SERP is contained in the section of this proxy statement entitled "Compensation Discussion and Analysis Primary Elements of Our Executive Compensation Program Long-Term Incentives and Retirement Benefits."

Table of Contents**POTENTIAL PAYMENTS UPON TERMINATION**

The table below sets forth the potential payments to our named executive officers under various termination scenarios including termination without cause, termination as a result of death or disability and termination as a result of retirement, under the terms of their respective current employment agreements, the 2006 Stock Incentive Plan, and the 1997 Equity Incentive Plan. For purposes of this table, we have assumed the date of termination of employment (regardless of the circumstances) is December 31, 2011, and that termination occurred under the terms of the current employment agreements, which are effective beginning January 1, 2010 for Messrs. Cariou, Santa and Banker and beginning January 1, 2011 for Mr. Rospek. The price of our common stock on December 30, 2011, the last trading day of 2011, was \$19.78. We have not included the financial effect of a termination for cause as the named executive officers are not entitled to any further compensation or benefits following such a termination. Furthermore, the amounts shown in the tables below do not include payments to the extent they are provided on a non-discriminatory basis to salaried employees generally upon termination of employment, including accrued salary and vacation pay. Payment of salary continuation upon termination will be made in monthly payments while any salary owed upon termination will be paid in a single lump sum. Payment of these amounts after termination without cause is generally conditioned upon the former executive's execution of release and waivers and continued compliance with non-competition, non-solicitation, and confidentiality obligations. We may make changes to the current employment and termination arrangements with our executive officers or enter into new arrangements from time to time. See "Employment Agreements" above.

The grant date fair value of the restricted stock awarded to each director on May 26, 2011 was \$65,760 for the 3,000 shares granted to each independent director. The grant date fair value of the restricted stock awarded to Mr. Cohen on February 15, 2011 was \$66,960 for the 3,000 shares granted to him following him joining the board. The 2011 restricted stock awards vest 100% on the later of the first annual stockholders meeting following the date of grant or one year from the date of grant. Restricted stock awards are forfeited for no consideration if a director's service is terminated for any reason. As of December 31, 2011, Messrs. Allen, Ferris, Graff and Hueber each had no outstanding options and 3,000 shares of restricted stock, Mr. Cohen had no outstanding options and 6,000 shares of restricted stock and Mr. Munera had 10,000 options outstanding and 3,000 shares of restricted stock. Table of Contents**Compensation for Non-Employee Directors**

In 2011, each of our non-employee directors received an annual retainer of \$12,000, with the exception of Mr. Cohen who received \$10,500 since he did not join the board until February 15, 2011. The directors also received per meeting fees of \$2,000 for in-person attendance at Board meetings, \$1,000 for Board meeting attendance by telephone, and \$1,000 for attendance at committee meetings. In addition, each independent director received per meeting fees of \$2,000 for attendance at executive sessions. The non-executive Chairman of the Board, Mr. Allen, receives an additional annual retainer for service in that position of \$12,000 per year. Chairmen of the Board's committees receive an additional annual retainer for service in that position of \$6,000 (Audit Committee), \$4,000 (Compensation Committee), \$2,000 (Nominating and Corporate Governance Committee), and \$2,000 (Quality and Safety Committee) per year. The members of the Board were also eligible for reimbursement of their expenses incurred in connection with attendance at Board meetings.

In 2011, we granted 3,000 shares of restricted stock to each individual serving as a non-employee director at the time of his re-election to the Board at our annual meeting of stockholders. Mr. Cohen was granted 3,000 shares of restricted stock as a non-employee director at the time of his appointment to the Board on February 15, 2011. The 2011 restricted stock awards vest 100% on the later of the first annual stockholders meeting following the date of grant or one year from the date of grant. Our intent is that approximately one-half of a non-employee director's annual fees will be cash, and the other one-half will be stock. Under our stock ownership guidelines, our non-employee directors are expected to hold stock worth at least five times their annual cash fees for serving as a director. Additional information about our stock ownership guidelines are contained in the section this proxy statement entitled "Compensation Discussion and Analysis Philosophy and Objectives of our Executive Compensation Program Stock Ownership Guidelines."

The Compensation Committee determined to make no change for 2012 in the annual retainers and per meeting fees paid to non-employee directors.
