PROXY STATEMENT
FOR ANNUAL MEETING OF STOCKHOLDERS

To Be Held on May 11, 2011

This proxy statement contains information about the 2011 Annual Meeting of Stockholders of Southwall Technologies Inc. (“Southwall” or the “Company”). The meeting will be held on May 11, 2011, beginning at 8:30 a.m., local time, at our principal executive offices at 3788 Fabian Way, Palo Alto, California 94303.

This proxy statement is furnished in connection with the solicitation of proxies by our Board of Directors for use at the annual meeting and at any adjournment or postponement of that meeting. All proxies will be voted in accordance with the instructions they contain. If no instruction is specified on a proxy, it will be voted “For” the election of the nominees for directors in Proposal 1 and “For” the proposal to ratify the appointment of SingerLewak LLP as our auditors for the fiscal year ending December 31, 2011 in Proposal 2.

Our Annual Report on Form 10-K to Stockholders for the fiscal year ended December 31, 2010 is being mailed to stockholders with the mailing of these proxy materials on or about April 11, 2011. The Annual Report does not constitute any part of this proxy statement.

INFORMATION ABOUT THE ANNUAL MEETING AND VOTING

We have included the following discussion of the matters to be presented at the annual meeting to provide summary answers to some of the questions that you might have about the annual meeting and the proposals to be presented to our stockholders at the annual meeting. You are encouraged to read the entire proxy statement. The information below is qualified in its entirety by the full text of this proxy statement.

What is the purpose of the annual meeting?

At the annual meeting, stockholders will consider and vote on the following matters:

1. The election of directors to serve for the ensuing year;
2. Ratification of the appointment of SingerLewak LLP, an independent registered public accounting firm, as our auditors for the fiscal year ending December 31, 2011; and
3. Any other business that may properly come before the meeting.

Table of Contents

Who may vote at the annual meeting?

Only holders of our common stock at the close of business on the record date, April 1, 2011, are entitled to receive notice of, and to vote their shares at, the annual meeting. As of the record date, there were issued and outstanding 5,811,958 shares of common stock. Shares of our Series A 10% Cumulative Convertible Preferred Stock, or the Series A shares, are not entitled to vote on the matters to be presented at the meeting.

How many votes do I have?

At the annual meeting, you will be entitled to one vote for each share of common stock you held on the record date.

Is my vote important?

Your vote is important regardless of how many shares you own. Please take time to vote. Take a moment to read the instructions below.

How do I vote?

You can vote your shares in four ways. You can vote by mail, over the Internet, by telephone, or in person at the meeting. The Board of Directors recommends that you vote “FOR” the election of the nominees for directors in Proposal 1 and “FOR” the proposal to ratify the appointment of SingerLewak LLP as our auditors for the fiscal year ending December 31, 2011.

You may vote by mail. You may vote by completing and signing the proxy card that accompanies this proxy statement and promptly mailing it in the enclosed addressed, postage-prepaid envelope. You do not need to put a stamp on the enclosed envelope if you mail it in the United States. The shares you own will be voted according to the instructions on the proxy card you mail. If you return the proxy card but do not give any instructions on a particular matter described in this proxy statement, the shares you own will be voted in accordance with the recommendations of our Board of Directors.

You may vote over the Internet. If you have Internet access, you may vote your shares from any location in the world by following the “Vote by Internet” instructions set forth on the enclosed proxy card.

You may vote by telephone. You may vote your shares by following the “Vote by Telephone” instructions set forth on the enclosed proxy card.

You may vote in person. If you attend the meeting, you may vote by delivering your completed proxy card in person or you can vote by completing a ballot. Ballots will be available at the meeting. If you elect to vote in person, however, you must bring to the annual meeting a legal proxy from the broker or other nominee authorizing you to vote the shares that are held of record by such broker or other nominee.

May I revoke my proxy?

Yes. Even if you complete and return a proxy, whether by mail, Internet, or telephone you may revoke it at any time before it is exercised by taking one of the following actions:

- send written notice that you wish to revoke your proxy to Mallorie Burak, at our address set forth in the Notice of Annual Meeting appearing before this proxy statement;
-

submit to us another proxy via the Internet, by telephone or by mail that is later dated, and if by mail, the proxy must be properly signed; or

- attend the annual meeting, notify Mallorie Burak that you are present, and then vote in person.

If, however, you elect to vote in person at the annual meeting and a broker or other nominee holds your shares, you must bring to the annual meeting a legal proxy from the broker or other nominee authorizing you to vote the shares.

Table of Contents

What if a broker holds my shares in “street name”?

If your shares are held in “street name” by a bank, broker or other nominee, your bank, broker or nominee, as the record holder of your shares, is required to vote your shares according to your instructions. You should instruct your bank, broker or other nominee to vote your shares by following the procedure provided by your broker or other nominee. If you do not give instructions to your bank, broker or other nominee, it will still be able to vote your shares with respect to certain "discretionary" items, but will not be allowed to vote your shares with respect to certain "non-discretionary" items. The election of directors in Proposal 1 is considered a “non-discretionary” matter. In the case of a "non-discretionary" item, the shares that do not receive voting instructions will be treated as "broker non-votes."

How many shares must be present in person or by proxy to transact business at the annual meeting?

Our bylaws require that shares representing a majority of the votes entitled to be cast by the holders of common stock outstanding on the record date be present in person or by proxy at the annual meeting to constitute a quorum to transact business with regard to each of the proposals. Shares as to which holders abstain from voting as to a particular matter and broker non-votes will be counted for purposes of determining whether there is a quorum of stockholders present at the annual meeting.

How many votes are required to approve the proposals?

The votes necessary to approve each of the proposals are as follows:

- Proposal 1 - Election of Directors. The eight nominees receiving a plurality (i.e., the highest number) of the votes properly cast at the annual meeting will be elected, regardless of whether that number represents a majority of the votes cast.
- Proposal 2- Ratification of Independent Auditor. The affirmative vote of a majority of the votes properly cast at the annual meeting is needed to ratify the appointment of SingerLewak LLP, an independent registered public accounting firm, as our auditors for the fiscal year ending December 31, 2011.
- Other Matters. The affirmative vote of a majority of the votes properly cast at the annual meeting is needed to approve other matters if any to be voted on at the annual meeting.

Abstentions and broker non-votes will not be counted as votes cast or shares voting on Proposals 1 or 2. Accordingly, abstentions and broker non-votes will have no effect on the outcome of voting with respect to Proposal 1 and 2.

Table of Contents

Who will count the votes?

The votes will be counted, tabulated and certified by our transfer agent and registrar, Computershare Trust Company, N.A.

What if additional proposals are presented at the annual meeting?

If other proposals are properly presented at the annual meeting for consideration, and if you have completed and returned a proxy the persons named in the proxy card that accompanies this proxy statement will have the discretion to vote on those proposals for you. As of the date of the mailing of this proxy statement, we do not know of any other proposals to be presented at the annual meeting.

Where can I find the voting results?

We intend to report the voting results from the annual meeting on a Current Report on Form 8-K, which we expect to file with the Securities and Exchange Commission ("SEC"), within four business days after the annual meeting.

How and when may I submit a stockholder proposal for the 2012 annual meeting?

If you are interested in submitting a proposal for inclusion in the proxy statement for the 2012 annual meeting, you need to follow the procedures outlined in Rule 14a-8 of the Securities Exchange Act of 1934 as amended (the "Exchange Act"). To be eligible for inclusion, your stockholder proposal intended for inclusion in the proxy statement for the 2012 annual meeting of the stockholders must be received by us at our principal corporate offices in Palo Alto, California as set forth below no later than December 10, 2011.

Our bylaws establish an advance notice procedure with respect to proposals that stockholders desire to present at our annual meeting without inclusion in our proxy statement for that matter. Specifically, if a stockholder wishes to present a proposal (including nominations for director) before the 2012 annual meeting of stockholders, but does not wish to have the proposal considered for inclusion in the proxy statement and proxy card, the stockholder must provide us with written notice, together with the information required to be provided pursuant to our bylaws, at the address written below on or after January 12, 2012 and not later than February 11, 2012. The stockholder can alternatively satisfy the notice requirement by notifying us of his or her intention of presenting a proposal or nomination at the meeting in compliance with applicable SEC requirements and such proposal or nomination is included in a proxy statement prepared by us. Compliance with our bylaws shall be the exclusive means for a stockholder to make nominations or submit other business to the annual meeting (other than matters properly brought in compliance with the rules of the Exchange Act).

If a stockholder fails to provide us with timely notice of a proposal to be presented at the 2012 annual meeting of stockholders, the proxies designated by our Board of Directors will have discretionary authority to vote on that proposal. If a stockholder makes a timely notification, the proxies may still exercise discretionary voting authority under circumstances consistent with the proxy rules of the SEC.

Any proposals or notices should be sent to:

CORPORATE GOVERNANCE

General

We believe that good corporate governance is important to ensure that Southwall is managed for the long-term benefit of its stockholders. We are committed to having sound corporate governance principles. We continually review our corporate governance policies and practices and compare them to those suggested by various authorities in corporate governance and the practices of other public companies. We also review the provisions of the Sarbanes-Oxley Act of 2002, the rules of the SEC and the NASDAQ listing standards.

Determination of Independence

Our Board of Directors has determined that none of Messrs. Berry, Boyadjieff, Bunday, Horn or Salas or Ms. Nachtsheim has a material relationship with us (directly or as a partner, shareholder or officer of an organization that has a relationship with us) and that each of these directors is an “independent director” within the meaning of NASDAQ’s director independence standards. In addition, our Board of Directors has determined that each of the members of each of our Audit Committee, Compensation Committee and Nominating and Corporate Governance Committee has no material relationship with us (either directly or as a partner, shareholder or officer of an organization that has a relationship with us) and is an “independent director” within the meaning of NASDAQ’s director independence standards.

Director Candidates

Our stockholders may recommend director candidates for inclusion by the Board of Directors in the slate of nominees that the Board recommends to our stockholders for election. The qualifications of recommended candidates will be reviewed by our Nominating and Corporate Governance Committee. Following its review, the Nominating and Corporate Governance Committee will decide whether to recommend that such candidate be nominated by the Board of Directors for election as a director by the stockholders. If the Board determines to nominate a stockholder-recommended candidate and recommends his or her election as a director by the stockholders, the name will be included in our proxy card for the stockholders meeting at which his or her election is recommended.

Stockholders may recommend individuals for the Nominating and Corporate Governance Committee to consider as potential director candidates by submitting their names and background to the “Southwall Technologies Inc. Nominating and Corporate Governance Committee” c/o Southwall Technologies Inc., 3788 Fabian Way, Palo Alto, California 94303. The Nominating and Corporate Governance Committee will consider a recommendation only if appropriate biographical information and background material is provided on a timely basis and in accordance with our bylaws. The process followed by the Nominating and Corporate Governance Committee to identify and evaluate candidates includes requests to Board members and others for recommendations, meetings from time to time to evaluate biographical information and background material relating to potential candidates and interviews of selected candidates by members of the Nominating and Corporate Governance Committee and the Board. Assuming that appropriate biographical and background material is provided for candidates recommended by stockholders, the Nominating and Corporate Governance Committee will evaluate those candidates by following substantially the same process, and applying substantially the same criteria, as for candidates submitted by Board members.

Table of Contents

In considering whether to recommend candidates for inclusion in the Board's slate of recommended director nominees, including candidates recommended by stockholders, the Nominating and Corporate Governance Committee will apply the criteria set forth in Southwall's Nominating and Corporate Governance Committee Charter. These criteria specifically include whether the candidate assists in achieving a mix of Board members that represents diversity of background and professional experience, including with respect to ethnic background, age and gender. Other criteria include the candidate's demonstrated character and integrity, business acumen, the current composition and mix of Board members, expertise and experience, commitment, independence, diligence, conflicts of interest and the candidate's ability to act in the interest of all stockholders. The Nominating and Corporate Governance Committee does not assign specific weights to particular criteria and no particular criterion is necessarily applicable to all prospective nominees. We believe that the backgrounds and qualifications of the directors, considered as a group, should provide a significant composite mix of experience, knowledge and abilities that will allow the Board to fulfill its responsibilities. We have not paid, to date, any third party a fee to assist in evaluating and identifying nominees.

Communications from Stockholders and Other Interested Parties with the Board

The Board of Directors will give appropriate attention to written communications on issues that are submitted by stockholders and other interested parties, and will respond if and as appropriate. Absent unusual circumstances or as contemplated by committee charters, the Chairman of the Nominating and Corporate Governance Committee will, with the assistance of our legal counsel, (1) be primarily responsible for monitoring communications from stockholders and other interested parties and (2) provide copies or summaries of such communications to the other directors as he or she considers appropriate.

Communications will be forwarded to all directors if they relate to substantive matters and include suggestions or comments that the Chairman of the Nominating and Corporate Governance Committee considers to be important to be brought to the attention of the directors. Stockholders and other interested parties who wish to send communications on any topic to the Board should address such communications to:

Board Leadership Structure and Role in Risk Oversight

The Board of Directors has responsibility for establishing broad corporate policies and reviewing our overall performance rather than day-to-day operations. The Board's primary responsibility is to oversee the management of the Company and, in so doing, serve the best interests of the Company and its stockholders. The Board selects, evaluates and provides for the succession of executive officers and, subject to stockholder election, directors. It reviews and approves corporate objectives and strategies, and evaluates significant policies and proposed major commitments of corporate resources. The Board participates in decisions that have a potential major economic impact on the Company and its stockholders. Management keeps the directors informed of Company activity through regular written reports and presentations at Board and committee meetings.

Table of Contents

The Board of Directors is led by its Chairman, Mr. Horn. Each of our Audit, Nominating and Corporate Governance and Compensation Committees provide oversight and assess risk in their respective areas. In addition, the Board and each committee have an active role in overseeing management of our company's risk. The Board regularly reviews information regarding our operations, credit, and liquidity, as well as the risks associated with each.

Board of Directors Meetings and Committees

The Board of Directors met five times in 2010. During 2010, each of our directors attended 75% or more of the total number of meetings of the Board of Directors and the committees of which such director was a member. Each committee has a written charter that has been approved by the Board, current copies of which may be found on our website at www.southwall.com. Audit Committee’s Pre-Approval Policy and Procedures

Our Audit Committee pre-approves all services, including both audit and non-audit services, provided by our independent registered public accounting firm for the purpose of maintaining the independence of our independent registered public accounting firm. For audit services, each year the independent registered public accounting firm outlines the scope of the audit services proposed to be performed during the year, which must be approved by the Audit Committee before the audit commences. The independent registered public accounting firm also submits an audit services fee proposal, which also must be approved by the Audit Committee before the audit commences. Unless a type of service to be provided by the independent registered public accounting firm has received a general pre-approval, it will require specific pre-approval by the Audit Committee. Any proposed service exceeding pre-approved cost levels requires specific pre-approval by the Audit Committee.

Each year, management also submits to the Audit Committee a list of non-audit services that it recommends the independent registered public accounting firm be engaged to provide and an estimate of the fees to be paid for each. Management and the independent registered public accounting firm must each confirm to the Audit Committee that the performance of the non-audit services on the list would not compromise the independence of the independent registered public accounting firm and would be permissible under all applicable legal requirements. The Audit Committee must approve both the list of non-audit services and the budget for each such service before commencement of the work. Management and the independent registered public accounting firm report to the Audit Committee at each of its regularly scheduled meetings as to the non-audit services actually provided by the independent registered public accounting firm and the approximate fees incurred by us for those services.

During 2010, no services were provided to us by Burr Pilger Mayer, Inc., our independent registered public accounting firm through May 11, 2010, or SingerLewak LLP, our independent registered public accounting firm since May 11, 2010, or any other accounting firm other than in accordance with the pre-approval policies and procedures described above.

REPORT OF THE AUDIT COMMITTEE

The Audit Committee oversees our financial reporting process on behalf of the Board of Directors. Management has the primary responsibility for the financial statements and the reporting process including the systems of internal controls. The primary duties and responsibilities of the Audit Committee are to: (1) select and approve our independent registered public accounting firm; (2) monitor our financial reporting process and internal control systems and ensure that deficiencies in the financial reporting process and internal control system, as reported by our independent registered public accounting firm, are corrected; (3) review and appraise the audit efforts of our independent registered public accounting firm; (4) review and authorize the independent registered public accounting firm's fee; and (5) provide an open avenue of communication among the independent registered public accounting firm, financial and senior management and the Board of Directors.

In fulfilling its oversight responsibilities regarding the 2010 financial statements, the Audit Committee reviewed and discussed with management the audited financial statements in our Annual Report on Form 10-K for year ended December 31, 2010, including a discussion of the quality, not just the acceptability, of the accounting principles, the reasonableness of significant judgments, and the clarity of disclosures in the financial statements. The Audit Committee also reviewed and discussed with the independent registered public accounting firm, who is responsible for expressing an opinion on the conformity of those audited financial statements with generally accepted accounting principles, their judgment as to the quality, not just the acceptability, of Southwall's accounting principles and such other matters as are required to be discussed with the Audit Committee by the statement on Auditing Standards No. 114, as amended (The Auditor's Communication with Those Charged with Governance), and the Public Company Accounting Oversight Board rules and regulations, as currently in effect. In addition, the Audit Committee has received the written disclosures and the letter from the independent registered accounting firm required by applicable requirements of the Public Company Accounting Oversight Board (Independence Discussions with Audit Committees) regarding the independent registered public accounting firm's communications with the Audit Committee concerning independence, and has discussed with the independent registered public accounting firm their independence from management and Southwall.

The Audit Committee discussed with Southwall's independent registered public accounting firm the overall scope and plans for their audit in 2010. The Audit Committee meets with the independent registered public accounting firm, with and without management present, to discuss the results of their examination, and the overall quality of Southwall's financial reporting.

In reliance on the reviews and discussions referred to above, the Audit Committee recommended to the Board of Directors, and the Board of Directors has approved, that the audited financial statements of Southwall Technologies be included in its Annual Report on Form 10-K for the year ended December 31, 2010, for filing with the SEC.

COMPENSATION DISCUSSION AND ANALYSIS

Overview of Compensation Program

The Compensation Committee (for purposes of this discussion, the “Committee”) of the Board of Directors has responsibility for establishing, implementing and continually monitoring adherence with Southwall’s compensation philosophy. The Committee ensures that the total compensation paid to our executive officers is fair, reasonable and competitive. The members of the Committee are Messrs. Salas (Chair), Boyadjieff and Bunday. Messrs. Salas, Boyadjieff and Bunday, are independent directors under NASDAQ rules and regulations. Our Compensation Committee held five meetings during 2010. Messrs. Salas, Boyadjieff and Bunday were chosen to serve on the Committee because of their status as independent directors and their experience in compensation matters.

The Committee operates pursuant to a written charter, which can be found on our website at www.southwall.com. The Committee charter gives the Committee authority to determine or recommend to the Board for determination the Chief Executive Officer and other executive officers’ compensation. The Committee charter also gives the Committee authority to hire outside consultants to provide assistance in determining market levels of executive compensation. The Committee did not retain an outside compensation consultant in 2010 as part of the process in determining executive compensation.

Throughout this proxy statement, the individuals included in the Summary Compensation Table below, are referred to as the “named executive officers.”

Compensation Philosophy and Objectives

The Committee believes that the most effective executive compensation program is one that evaluates both performance and compensation to ensure that we maintain our ability to attract and retain superior employees in key positions and that compensation provided to key employees remains competitive relative to the compensation paid to similarly situated executives of our Compensation Peer Group, as defined below. To that end, the Committee believes compensation packages provided by Southwall to its executives, including the named executive officers should include both cash and stock-based compensation that reward performance as measured against established goals.

Role of Executive Officers in Compensation Decisions

The Committee makes or recommends to the Board all compensation decisions for the Company’s executive officers and approves recommendations from the Board of Directors regarding equity awards to all executive officers of the Company. Decisions regarding the compensation of non-executive officers are made by the functional Vice Presidents.

The Chief Executive Officer annually reviews the performance of each executive officer (other than the Chief Executive Officer whose performance is reviewed by the Committee). The conclusions reached and recommendations based on these reviews, including with respect to salary adjustments and annual award amounts, are made by the Committee.

Table of Contents

Setting Executive Compensation

Based on the foregoing objectives, the Committee has structured Southwall's annual and long-term incentive-based cash and non-cash executive compensation to motivate executives to achieve the business goals set by the Company and reward the executives for achieving such goals.

In determining the particular elements of compensation that are used to implement our overall compensation policies, the Committee takes into consideration a number of factors related to our performance including competitive practices among our Compensation Peer Group. The Compensation Peer Group, against which we believe we compete for talent, consists of both public and private similarly situated companies in the California market. The Committee compares each element of compensation given to executive officers against the Compensation Peer Group. Data on the compensation practices of the Compensation Peer Group generally is gathered through searches of publicly available information, including publicly available databases. Publicly available information does not typically include information regarding target cash compensation, so we rely upon compensation surveys. Compensation Peer Group data is gathered with respect to base salary, bonus targets and all equity awards (including stock options, performance shares, restricted stock and long-term, cash-based awards). It does not include deferred compensation benefits or generally available benefits, such as 401(k) plans or health care coverage. We compete with many larger companies for top executive-level talent. Because of the competitive marketplace for talent, the Committee generally sets compensation for its executive officers at approximately the midpoint of compensation paid to similarly situated executives of the companies comprising the Compensation Peer Group. Variations to this objective may occur as dictated by the experience level and performance of the individual and market factors.

Compensation Components

For the fiscal year ended December 31, 2010, the principal components of compensation for the named executive officers were: (i) base salary, (ii) bonuses, (iii) long-term equity incentive compensation, (iv) retirement benefits provided under a 401(k) plan and (v) perquisites and other generally available benefit programs. The Committee has selected these elements because each is considered useful and/or necessary to meet one or more of the principal objectives of our compensation policy. For instance, base salary and bonus target percentage are set with the goal of attracting employees and adequately compensating and rewarding them on a day-to-day basis for the time spent and the services they perform, while our equity programs are geared toward providing an incentive and reward for the achievement of long-term business objectives and retaining key talent. We believe that these elements of compensation, when combined, are effective, and will continue to be effective, in achieving the objectives of our compensation program.

Base Salary

We provide executive officers and other employees with base salary to compensate them for services rendered during the fiscal year. Base salary ranges for executive officers are determined for each executive based on his or her position and responsibility by using market data from the Compensation Peer Group. Base salary ranges are designed so that salary opportunities for a given position will be at the midpoint of the base salary established for each range.

During its review of base salaries for executives, the Committee primarily considers:

- market data for the Compensation Peer Group
- internal review of the executive's compensation
- individual performance of the executive

Table of Contents

Salary levels are typically considered annually as part of the Company's performance review process, as well as upon a promotion or other change in job responsibility. Merit based increases to salaries of executive officers are based on the Committee's assessment of the individual's performance.

Annual Bonus

Annual bonuses also are paid to our named executive officers to reward the achievement of Southwall's business goals. Bonuses are intended to reflect an individual's accomplishment of both corporate and functional objectives. Substantial weight is given to the achievement of corporate rather than functional objectives such as: profitability improvement, asset management, market position, product leadership and product development.

Achievement of the targeted goals under the bonus plan are intended to result in compensation that the Committee believes reflects an appropriate range to enable us to attract and retain key personnel and to motivate the executives to meet our business goals. While the achievement of our business goals is a significant factor in determining an individual's bonus, the Board of Directors retains discretion and may evaluate criteria other than defined performance objectives. As business and economic conditions change throughout the year, our Board of Directors may re-evaluate and modify performance targets. In 2010, no adjustments were made to the performance targets.

At the beginning of each fiscal year, the Committee meets with the Chief Executive Officer to review Company and individual objectives for the current year and establish performance-based target bonuses expressed as a percentage of base salary paid during the year. The Committee, the Board of Directors, and the Chief Executive Officer establish the quantitative and qualitative goals. These goals are based on the achievement of specified operating income levels and other key performance measures, such as product development and strategic vertical alliances. Once the current target bonus is agreed upon, our current policy provides opportunities for employees to earn between 0% and 150% of their target bonuses. For 2010, our named executive officers were eligible to receive a target bonus calculated as a percentage of their respective base annual salaries as follows: Dennis Capovilla (50%), Mallorie Burak (35%), and Michael Vargas (35%).

For 2010, a portion of the performance goals for our named executive officers, included achieving specified operating income ranging from \$2,640,000 to \$4,950,000. For fiscal 2010, the net income and key performance initiatives were achieved.

Long-Term Equity Incentive Compensation

Southwall provides long-term incentive compensation through awards of stock options that generally vest over four years. Our equity compensation program is intended to align the interests of our officers with those of our stockholders by creating an incentive for our officers to maximize stockholder value. The equity compensation program also is designed to encourage our officers to remain employed with Southwall despite a very competitive labor market.

Equity-based incentives are granted to our officers under our 2007 Long Term Incentive Plan. The Committee has granted equity awards at its scheduled meetings or by unanimous written consent. Grants approved during scheduled meetings become effective and are priced as of the date of approval. Grants approved by unanimous written consent become effective and are priced as of the date the last signature is obtained or as of a predetermined future date. All stock option grants have a per share exercise price equal to the fair market value of our common stock on the grant date. The Committee has not granted, nor does it intend in the future to grant, equity compensation awards to executives in anticipation of the release of material nonpublic information that is likely to result in changes to the price of our common stock, such as a significant positive or negative earnings announcement. Similarly, the Committee has not timed, nor does it intend in the future to time, the release of material nonpublic information based

on equity award grant dates. Because equity compensation awards typically vest over a four-year period, the value to recipients of any immediate increase in the price of our stock following a grant is diminished.

- 19 -

Table of Contents

We grant stock options because they can be an effective tool for meeting our compensation objective to increase long-term stockholder value by tying the value of the stock options to our performance in the future. Employees are able to profit from stock options only if the trading price our stock increases over the stock option's exercise price.

The number of stock options our Committee grants to each officer and the vesting schedule for each grant is determined based on a variety of factors, including the number of options already held by the officer, market data collected regarding the equity grant ranges for the Compensation Peer Group listed above and our goal to award grants in line with the competitive benchmark data, as well as the performance rating each executive is given by our Chief Executive Officer. The Chief Executive Officer assigns a performance rating to each named executive officer based on a number of factors, including the individual's accomplishments during the prior fiscal year and over the course of his or her service with Southwall. The Chief Executive Officer then makes a recommendation to the Committee as to the number of options to be granted to each named executive officer, as well as the total options to be granted to other employees. In deciding the number of stock options granted to the named executive officers, the Chief Executive Officer and the Committee consider the officer's position, the number of options already held by the officer, the performance assessment (both historical and future potential), and the number of shares available in the 2007 Long Term Incentive Plan. For 2010, the Committee accepted the Chief Executive Officer's recommendations with respect to stock option grants, and the Board of Directors voted to grant the stock options as presented by the Committee.

In 2010, the Committee and our Board of Directors relied upon the above-mentioned factors to approve stock option grants for the named executive officers and other senior officers. The Chief Executive Officer made recommendations to the Committee based on guidelines that include award ranges for employees at specific job responsibility levels and performance ratings. Stock options generally vest 25% per year over a period of four years. Stock option awards to employees were made under our 2007 Long Term Incentive Plan for Employees and Consultants.

Retirement Benefits under 401(k) Plans, Perquisites and Generally Available Benefit Programs

In fiscal 2010, the named executive officers were eligible to receive health care coverage that is generally available to other Southwall employees. We also maintain a tax-qualified 401(k) Plan and Roth 401(k) Plan, which provides for broad-based employee participation. Under both 401(k) Plans, all Southwall employees are eligible to receive matching contributions from Southwall. The matching contribution for the 401(k) Plan in 2010 was 25% on the first \$6,000 contributed by the employee up to a maximum company match of \$1,500 subject to applicable Federal limits. We do not provide defined benefit pension plans or defined contribution retirement plans to our executives or other employees other than the 401(k) Plan or Roth 401(k) Plan.

We also offer a number of other benefits to the named executive officers pursuant to benefit programs that provide for broad-based employee participation. These benefits programs include medical insurance, including flexible spending accounts, dental and vision insurance, long-term and short-term disability insurance, life and accidental death and dismemberment insurance, business travel insurance, employee assistance plans and certain other benefits.

Table of Contents

The 401(k) Plan and other generally available benefit programs allow us to remain competitive for qualified employees, and we believe that the availability of the benefit programs generally enhances employee productivity and loyalty to Southwall. The main objectives of our benefit programs are to give our employees access to quality healthcare, financial protection from unforeseen extraordinary events, assistance in achieving retirement financial goals, enhanced health and productivity and to provide support for global workforce mobility, in full compliance with applicable legal requirements. These generally available benefits typically do not specifically factor into decisions regarding an individual executive's total compensation or equity award package.

On an annual basis, we benchmark our overall benefits programs, including our 401(k) Plan, against external benchmark data and surveys from our benefit consultants and plan administrators. We generally target our overall benefits programs to be the mid range of overall benefits offered by our Compensation Peer Group to their employees, which we believe allows us to remain competitive in attracting and retaining talent. We consider possible changes to our benefits programs in light of the overall objectives of the program, including the effectiveness of the retention and incentive features of such programs and our targeted percentile range compared to our Compensation Peer Group.

Stock Ownership Guidelines

We have not adopted stock ownership guidelines that require our directors and named executive officers to maintain a certain amount of Southwall stock. We believe such guidelines are unnecessary because we believe that the interests of directors and named executive officers are already closely aligned with the interests of stockholders through grants of stock options made under our 2007 Long Term Incentive Plan. We have an insider trading policy which, among other things, prohibits covered employees from short sales and trading in publicly listed options for Southwall shares. We have no specific policy regarding hedging of stock ownership positions, but any such hedging must be accomplished within the requirements of the insider trading policy.

Compensation of Principal Executive Officer

Dennis Capovilla, our Chief Executive Officer, received a salary of \$340,000 for 2010. In setting Mr. Capovilla's salary, target bonus and equity compensation grant, the Committee relied on market-competitive pay data and the strong belief that the Chief Executive Officer significantly and directly influences Southwall's overall performance. The Committee also took into consideration the overall compensation policies discussed above.

Accounting and Tax Considerations

In designing our compensation programs, we take into consideration the accounting and tax effect that each element will or may have on Southwall and the executive officers and other employees as a group. Our goal is to keep the expense related to our compensation programs, as a whole, within certain affordability levels. We recognize a charge to earnings for accounting purposes when stock options are granted. We also take into account that the 401(k) Plan provides a tax-advantaged retirement planning vehicle for our executives.

Table of Contents

In determining which elements of compensation are to be paid and how they are weighted, we also take into account whether a particular form of compensation will be considered “performance-based” compensation for purposes of Section 162(m) of the Internal Revenue Code. Under Section 162(m), we generally receive a federal income tax deduction for compensation paid to any of our named executive officers only if the compensation is less than \$1 million during any fiscal year or is “performance-based” under Section 162(m). Our prior 1997 Stock Incentive Plan and 1998 Stock Option Plan for Employees and Consultants, as well as the current 2007 Long Term Incentive Plan, permit our Committee to pay compensation that is “performance-based” and thus fully tax-deductible by Southwall. Our Committee currently intends to continue seeking a tax deduction for all of our executive compensation, to the extent we determine it is in the best interests of Southwall. All of the stock options granted to our executive officers qualify under Section 162(m) as performance-based compensation.

Severance Agreements

During 2010, we had in place a severance policy that covered the three named executive officers, under which they might become entitled to annual benefits in connection with certain changes in control of Southwall in connection with a merger, liquidation or tender offer. Under the policy, each participant might become entitled to a lump sum severance payment upon his or her involuntary termination or a material change in responsibilities within twelve months after a change in control. The lump sum payment would have been equal to (i) in the case of our Chief Executive Officer, one and half times the sum of the Chief Executive Officer’s annual base salary in effect at the time of his involuntary termination plus the bonuses earned by him or her for the immediately preceding fiscal year and (ii) in the case of each other participant, up to twelve months severance based on the sum of the participant’s annual rate salary in effect at the time of his or her involuntary termination. In addition, the amount paid to each participant would have been grossed up if the amount received by the participant is subject to federal excise tax as an “excess parachute payment” for federal tax purposes.

RISK CONSIDERATIONS IN OUR COMPENSATION PROGRAMS

We believe the risks arising from our compensation policies and practices for our employees are not reasonably likely to have a material adverse effect on the Company. In addition, the Compensation Committee believes that the mix and design of the components of executive compensation as described in our Compensation Discussion and Analysis do not encourage management to assume excessive risks. Furthermore, as described in our Compensation Discussion and Analysis, compensation decisions include subjective considerations, which restrain the influence or formulae or objective factors on excessive risk taking.

COMPENSATION COMMITTEE REPORT

The Compensation Committee of the Board of Directors oversees our compensation program on behalf of the Board of Directors. In fulfilling its oversight responsibilities, the Compensation Committee reviewed and discussed with management the Compensation Discussion and Analysis set forth in this proxy statement.

In reliance on this review and these discussions referred to above, the Compensation Committee recommended to the Board that the Compensation Discussion and Analysis be included in this proxy statement.

The Compensation Committee:
Peter E. Salas, Chairman

PROPOSAL 2 – RATIFICATION OF THE APPOINTMENT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

During the fiscal years ended December 31, 2008 and 2009, and through May 11, 2010, there were no disagreements with BPM on any matters of accounting principles or practices, financial statement disclosure or auditing scope or procedure, which disagreements, if not resolved to the satisfaction of BPM, would have caused them to make reference thereto in their reports on the consolidated financial statements for such years. During the fiscal years ended December 31, 2008 and 2009, and through May 11, 2010, there were no “reportable events” as defined in Item 304(a)(1)(v) of Regulation S-K.

We provided BPM with a copy of the above statements and requested that BPM furnish us with a letter addressed to the United States Securities and Exchange Commission stating whether or not it agrees with the above statements. A copy of such letter dated May 12, 2010 was previously filed with our current Report on Form 8-K filed with the SEC on May 14, 2010.
