INDEPENDENT BANK CORP /MI/ Form 424B3 August 21, 2012

> Filed Pursuant to Rule 424(b)(3) File No. 333-169200

PROSPECTUS SUPPLEMENT NO. 2 TO PROSPECTUS DATED MAY 23, 2012

#### Common Stock

This Prospectus Supplement No. 2 supplements and amends the prospectus dated May 23, 2012, as amended and supplemented by the Prospectus Supplement No. 1 dated May 30, 2012, which we collectively refer to as the Prospectus, which forms part of our Post-Effective Amendment No. 2 to Registration Statement on Form S-1 (Registration Statement No. 333-169200). The Prospectus relates to the disposition from time to time of up to 1,502,468 shares of our common stock that we may issue to Dutchess Opportunity Fund, II, LP ("Dutchess"), pursuant to an Investment Agreement between us and Dutchess, dated July 7, 2010. We are not selling any common stock under the Prospectus or this Prospectus Supplement No. 2, and will not receive any of the proceeds from the sale of shares by the selling stockholder.

We are filing this Prospectus Supplement No. 2 to update, amend and supplement the information included or incorporated by reference in the Prospectus with the information contained in the quarterly report and the current reports described below.

This Prospectus Supplement No. 2 includes our Quarterly Report on Form 10-Q, filed with the Securities and Exchange Commission on August 9, 2012, and our four Current Reports on Form 8-K, filed with the Securities and Exchange Commission on July 19, 2012, July 30, 2012, August 8, 2012 and August 15, 2012, respectively.

This Prospectus Supplement No. 2 should be read in conjunction with, and may not be delivered or utilized without, the Prospectus, including any amendments or supplements thereto. This Prospectus Supplement No. 2 is qualified by reference to the Prospectus except to the extent that the information in this Prospectus Supplement No. 2 supersedes the information contained in the Prospectus. All references in the Prospectus to "this prospectus" are hereby amended to read "this prospectus (as supplemented and amended)."

Our common stock is listed on the Nasdaq Global Select Market under the symbol "IBCP." As of August 20, 2012, the closing sale price for our common stock on the Nasdaq Global Select Market was \$2.90 per share.

Investing in our common stock involves risks. These risks are described under the caption "Risk Factors" beginning on page 7 of the Prospectus, as the same may be updated in prospectus supplements.

The shares of common stock offered are not savings accounts, deposits, or other obligations of any of our bank or non-bank subsidiaries and are not insured by the Federal Deposit Insurance Corporation or any other governmental agency.

Neither the Securities and Exchange Commission, any state securities commission, the Federal Deposit Insurance Corporation, the Board of Governors of the Federal Reserve System, nor any other regulatory body has approved or

| disapproved of these securities or determined if this prospectus is truthful or complete. Any representation to the contrary is a criminal offense. |  |
|---|--|
| The date of this prospectus supplement is August 21, 2012.  |  |

Discussions and statements in this report that are not statements of historical fact, including, without limitation, statements that include terms such as "will," "may," "should," "believe," "expect," "forecast," "anticipate," "estimate," "projectives," "optimistic" and "plan," and statements about future or projected financial and operating results, plans, projections, objectives, expectations, and intentions and other statements that are not historical facts, are forward-looking statements. Forward-looking statements include, but are not limited to, descriptions of plans and objectives for future operations, products or services; projections of our future revenue, earnings or other measures of economic performance; forecasts of credit losses and other asset quality trends; predictions as to our Bank's ability to maintain certain regulatory capital standards; our expectation that we will have sufficient cash on hand to meet expected obligations during 2012; and descriptions of steps we may take to improve our capital position. These forward-looking statements express our current expectations, forecasts of future events, or long-term goals and, by their nature, are subject to assumptions, risks, and uncertainties. Although we believe that the expectations, forecasts, and goals reflected in these forward-looking statements are reasonable, actual results could differ materially for a variety of reasons, including, among others:

- our ability to successfully raise new equity capital, effect a conversion of our outstanding convertible preferred stock held by the U.S. Treasury into our common stock, and otherwise implement our capital restoration plan;
- the failure of assumptions underlying the establishment of and provisions made to our allowance for loan losses;
- the timing and pace of an economic recovery in Michigan and the United States in general, including regional and local real estate markets;
  - the ability of our Bank to remain well-capitalized;
- •the failure of assumptions underlying our estimate of probable incurred losses from vehicle service contract payment plan counterparty contingencies, including our assumptions regarding future cancellations of vehicle

service contracts, the value to us of collateral that may be available to recover funds due from our counterparties, and our ability to enforce the contractual obligations of our counterparties to pay amounts owing to us;

#### **Index**

- further adverse developments in the vehicle service contract industry;
- potential limitations on our ability to access and rely on wholesale funding sources;
- the risk that sales of our common stock could trigger a reduction in the amount of net operating loss carryforwards that we may be able to utilize for income tax purposes;
- •the continued services of our management team, particularly as we work through our asset quality issues and the implementation of our capital restoration plan;
- •implementation of the Dodd-Frank Wall Street Reform and Consumer Protection Act or other new legislation, which may have significant effects on us and the financial services industry, the exact nature and extent of which cannot be determined at this time; and
  - the risk that our common stock may be delisted from the Nasdaq Global Select Market.

This list provides examples of factors that could affect the results described by forward-looking statements contained in this report, but the list is not intended to be all inclusive. The risk factors disclosed in Part I – Item A of our Annual Report on Form 10-K for the year ended December 31, 2011, as updated by any new or modified risk factors disclosed in Part II – Item 1A of any subsequently filed Quarterly Report on Form 10-Q, include all known risks that our management believes could materially affect the results described by forward-looking statements in this report. However, those risks may not be the only risks we face. Our results of operations, cash flows, financial position, and prospects could also be materially and adversely affected by additional factors that are not presently known to us, that we currently consider to be immaterial, or that develop after the date of this report. We cannot assure you that our future results will meet expectations. While we believe the forward-looking statements in this report are reasonable, you should not place undue reliance on any forward-looking statement. In addition, these statements speak only as of the date made. We do not undertake, and expressly disclaim, any obligation to update or alter any statements, whether as a result of new information, future events, or otherwise, except as required by applicable law.

## NOTES TO INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (unaudited)

#### 1. Preparation of Financial Statements

The interim condensed consolidated financial statements have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission. Certain information and note disclosures normally included in annual financial statements prepared in accordance with generally accepted accounting principles ("GAAP") have been condensed or omitted pursuant to those rules and regulations, although we believe that the disclosures made are adequate to make the information not misleading. The unaudited condensed consolidated financial statements should be read in conjunction with the audited consolidated financial statements and notes for the year ended December 31, 2011 included in our Annual Report on Form 10-K.

In our opinion, the accompanying unaudited condensed consolidated financial statements contain all the adjustments necessary to present fairly our consolidated financial condition as of June 30, 2012 and December 31, 2011, and the results of operations for the three and six-month periods ended June 30, 2012 and 2011. The results of operations for the three and six-month periods ended June 30, 2012, are not necessarily indicative of the results to be expected for the full year. Certain reclassifications have been made in the prior period financial statements to conform to the current period presentation. Our critical accounting policies include the assessment for other than temporary impairment ("OTTI") on investment securities, the determination of the allowance for loan losses, the determination of vehicle service contract counterparty contingencies, the valuation of originated mortgage loan servicing rights and the valuation of deferred tax assets. Refer to our 2011 Annual Report on Form 10-K for a disclosure of our accounting policies.

#### 2. New Accounting Standards

In May 2011, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2011-04, "Fair Value Measurement (Topic 820), Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs". This ASU amended guidance that will result in common fair value measurement and disclosure requirements between U.S. GAAP and International Financial Reporting Standards ("IFRS"). Under the amended guidance, entities are required to expand disclosure for fair value instruments categorized within Level 3 of the fair value hierarchy to include (1) the valuation processes used; and (2) a narrative description of the sensitivity of the fair value measurement to changes in unobservable inputs for recurring fair value measurements and the interrelationships between those unobservable inputs, if any. They are also required to disclose the categorization by level of the fair value hierarchy for items that are not measured at fair value in the Consolidated Statement of Financial Condition but for which the fair value is required to be disclosed (e.g. portfolio loans). This amended guidance became effective for us at January 1, 2012. The effect of adopting this standard did not have a material impact on our consolidated operating results or financial condition, but the additional disclosures are included in notes #12 and #13.

## NOTES TO INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (continued) (unaudited)

In June 2011, the FASB issued ASU 2011-05, "Comprehensive Income (Topic 220)". This ASU amended guidance on the presentation requirements for comprehensive income. The amended guidance requires an entity to present total comprehensive income, the components of net income and the components of other comprehensive income on the face of the financial statements, either in a single continuous statement of comprehensive income or in two separate but consecutive statements. The amended guidance did not change the items that must be reported in other comprehensive income or when an item of other comprehensive income must be reclassified to net income. This amended guidance became effective for us at January 1, 2012 and was applied retrospectively. The effect of adopting this standard did not have a material impact on our consolidated operating results or financial condition, but we have included separate Condensed Consolidated Statements of Comprehensive Income (Loss) immediately following our Condensed Consolidated Statements of Operations in our Condensed Consolidated Financial Statements.

#### 3. Securities

Securities available for sale consist of the following:

|  | Amortized | Unrealized |           | D : 1/1    |

Our portfolio of available-for-sale securities is reviewed quarterly for impairment in value. In performing this review management considers (1) the length of time and extent that fair value has been less than cost, (2) the financial condition and near term prospects of the issuer, (3) the impact of changes in market interest rates on the market value of the security and (4) an assessment of whether we intend to sell, or it is more likely than not that we will be required to sell a security in an unrealized loss position before recovery of its amortized cost basis. For securities that do not meet the aforementioned recovery criteria, the amount of impairment recognized in earnings is limited to the amount related to credit losses, while impairment related to other factors is recognized in other comprehensive income or loss.

U.S. Agency and U.S. Agency residential mortgage-backed securities — at June 30, 2012 we had two U.S. Agency and eight U.S. Agency residential mortgage-backed securities whose fair market value is less than amortized cost. The unrealized losses on U.S. Agency residential mortgage-backed securities are largely attributed to widening discount margins. As management does not intend to liquidate these securities and it is more likely than not that we will not be required to sell these securities prior to recovery of these unrealized losses, no declines are deemed to be other than temporary.

Private label residential mortgage backed securities — at June 30, 2012 we had eight securities whose fair value is less than amortized cost. Two of the issues are rated by a major rating agency as investment grade while four are below investment grade and two are split rated. Six of these bonds have impairment in excess of 10% and all of these holdings have been impaired for more than 12 months.

#### **Index**

## NOTES TO INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (continued) (unaudited)

The unrealized losses are largely attributable to credit spread widening on these securities since their acquisition. The underlying loans within these securities include Jumbo (75%) and Alt A (25%) at June 30, 2012.

|   | June<br>Fair<br>Value | 30, 2012  Net  Unrealized  Gain (Loss)  (In thous | Fair<br>Value | ver 31, 2011<br>Net<br>Unrealized<br>Gain (Loss) |
|---|-----------------------|---|---------------|--|
| Private label residential mortgage-backed |                       |   |               |  |
| Jumbo                                     | \$5,738               | \$(1,602)   | \$6,454       | \$(1,937)  |
| Alt-A                                     | 1,941                 | (606)   | 1,814         | (861)  |

Seven of the private label residential mortgage-backed transactions have geographic concentrations in California, ranging from 22% to 58% of the collateral pool. Typical exposure levels to California (median exposure is 47%) are consistent with overall market collateral characteristics. Three transactions have modest exposure to Florida, ranging from 5% to 7% and one transaction has modest exposure to Nevada (5%). The underlying collateral pools do not have meaningful exposure to Arizona, Michigan or Ohio. None of the issues involve subprime mortgage collateral. Thus the impact of this market segment is only indirect, in that it has impacted liquidity and pricing in general for private label residential mortgage-backed securities. The majority of transactions are backed by fully amortizing loans. However, six transactions have concentrations in loans that pay interest only for a specified period of time and will fully amortize thereafter ranging from 31% to 94% (at origination date). The structure of the residential mortgage securities portfolio provides protection to credit losses. The portfolio primarily consists of senior securities as demonstrated by the following: super senior (22%), senior (43%), senior support (25%) and mezzanine (10%). The mezzanine class is from a seasoned transaction (94 months) with a significant level of subordination (8.60%). Except for the additional discussion below relating to other than temporary impairment, each private label residential mortgage-backed security has sufficient credit enhancement via subordination to reasonably assure full realization of book value. This assertion is based on a transaction level review of the portfolio.

Individual security reviews include: external credit ratings, forecasted weighted average life, recent prepayment speeds, underwriting characteristics of the underlying collateral, the structure of the securitization and the credit performance of the underlying collateral. The review of underwriting characteristics considers: average loan size, type of loan (fixed or ARM), vintage, rate, FICO, loan-to-value, scheduled amortization, occupancy, purpose, geographic mix and loan documentation. The review of the securitization structure focuses on the priority of cash flows to the bond, the priority of the bond relative to the realization of credit losses and the level of subordination available to absorb credit losses. The review of credit performance includes: current period as well as cumulative realized losses; the level of severe payment problems, which includes other real estate (ORE), foreclosures, bankruptcy and 90 day delinquencies; and the level of less severe payment problems, which consists of 30 and 60 day delinquencies.

All of these securities are receiving some principal and interest payments. Most of these transactions are passthrough structures, receiving pro rata principal and interest payments from a dedicated collateral pool for loans that are performing. The nonreceipt of interest cash flows is not expected and thus not presently considered in our discounted cash flow methodology discussed below.

## NOTES TO INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (continued) (unaudited)

In addition to the review discussed above, all private label residential mortgage-backed securities are reviewed for OTTI utilizing a cash flow projection. The cash flow analysis forecasts cash flow from the underlying loans in each transaction and then applies these cash flows to the bonds in the securitization. The cash flows from the underlying loans considers contractual payment terms (scheduled amortization), prepayments, defaults and severity of loss given default. The analysis uses dynamic assumptions for prepayments, defaults and loss severity. Near term prepayment assumptions are based on recently observed prepayment rates. More weight is given to longer term historic performance (12 months). In some cases, recently observed prepayment rates are lower than historic norms due to the absence of new jumbo loan issuances. This loan market is heavily dependent upon securitization for funding, and new securitization transactions have been minimal. Our model projections anticipate that prepayment rates gradually revert to historical levels. For seasoned ARM transactions, normalized prepayment rates range from 10% to 18% CPR which is at the lower end of historically observed speeds for seasoned ARM collateral. For fixed rate collateral (one transaction), the prepayment speeds are projected to rise modestly.

Default assumptions are largely based on the volume of existing real-estate owned, pending foreclosures and severe delinquencies. Other considerations include the quality of loan underwriting, recent default experience, realized loss performance and the volume of less severe delinquencies. Default levels generally are projected to remain elevated or increase for a period of time sufficient to address the level of distressed loans in the transaction. Our projections expect defaults to then decline, generally beginning in year three. Current loss severity assumptions are based on recent observations when meaningful data is available. Loss severity is expected to remain elevated for the next three years as recent housing data remains weak. Severity is expected to decline beginning in year four as the back log of foreclosure and distressed sales clear the market. Except for three securities discussed in further detail below (all three are currently below investment grade), our cash flow analysis forecasts complete recovery of our cost basis for each reviewed security.

At June 30, 2012 three below investment grade private label residential mortgage-backed securities with fair values of \$3.3 million, \$1.7 million and \$0.1 million, respectively and unrealized losses of \$1.0 million, \$0.3 million and \$0.03 million, respectively (amortized cost of \$4.3 million, \$2.0 million and \$0.1 million, respectively) had losses that were considered other than temporary.

The underlying loans in the first transaction are 30 year fixed rate jumbos with an average FICO of 744 and an average loan-to-value ratio of 72%. The loans backing this transaction were originated in 2007 and this is our only security backed by 2007 vintage loans. We believe that this vintage is a key differentiating factor between this security and the others in our portfolio that do not have unrealized losses that are considered OTTI. The bond is a senior security that is receiving principal and interest payments similar to principal reductions in the underlying collateral. The cash flow analysis described above calculated \$0.645 million of cumulative credit related OTTI as of June 30, 2012 on this security. \$0.085 million and zero of this credit related OTTI was recognized in our Condensed Consolidated Statements of Operations during the three months ended June 30, 2012 and 2011, respectively and \$0.170 million and \$0.052 million of this credit related OTTI was recognized during the six months ended June 30, 2012 and 2011, respectively, with the balance being recognized in previous periods. The remaining non-credit related unrealized loss was attributed to other factors and is reflected in other comprehensive income (loss) during those same periods.

## NOTES TO INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (continued) (unaudited)

The underlying loans in the second transaction are 30 year hybrid ARM Alt-A with an average FICO of 717 and an average loan-to-value ratio of 78%. The loans backing this transaction were originated in 2005. The bond is a super senior security that is receiving principal and interest payments similar to principal reductions in the underlying collateral. The cash flow analysis described above calculated \$0.457 million of cumulative credit related OTTI as of June 30, 2012 on this security. There was no credit related OTTI recognized in our Condensed Consolidated Statements of Operations during the three months ended June 30, 2012 and 2011 while \$0.032 million and zero of this credit related OTTI was recognized during the six months ended June 30, 2012 and 2011, respectively, with the balance being recognized in previous periods. The remaining non-credit related unrealized loss was attributed to other factors and is reflected in other comprehensive income (loss) during those same periods.

The underlying loans in the third transaction are 30 year hybrid ARM jumbos with an average FICO of 738 and an average loan-to-value ratio of 57%. The loans backing this transaction were originated in 2005. The bond is a senior support security that is receiving principal and interest payments similar to principal reductions in the underlying collateral. The cash flow analysis described above calculated \$0.380 million of cumulative credit related OTTI as of June 30, 2012 on this security. There was no credit related OTTI recognized in our Condensed Consolidated Statements of Operations during the three months ended June 30, 2012 and 2011, while \$0.060 million and \$0.090 million of this credit related OTTI was recognized during the six months ended June 30, 2012 and 2011, respectively, with the balance being recognized in previous periods. The remaining non-credit related unrealized loss was attributed to other factors and is reflected in other comprehensive income (loss) during those same periods.

As management does not intend to liquidate these securities and it is more likely than not that we will not be required to sell these securities prior to recovery of these unrealized losses, no other declines discussed above are deemed to be other than temporary.

Obligations of states and political subdivisions — at June 30, 2012 we had nine municipal securities whose fair value is less than amortized cost. The unrealized losses are largely attributed to widening of market spreads. Seven of the impaired securities are rated by a major rating agency as investment grade. The non rated securities have a periodic internal credit review according to established procedures. As management does not intend to liquidate these securities and it is more likely than not that we will not be required to sell these securities prior to recovery of these unrealized losses, no declines are deemed to be other than temporary.

Trust preferred securities — at June 30, 2012 we had four securities whose fair value is less than amortized cost. All of our trust preferred securities are single issue securities issued by a trust subsidiary of a bank holding company. The pricing of trust preferred securities over the past several years has suffered from significant credit spread widening fueled by uncertainty regarding potential losses of financial companies, the absence of a liquid functioning secondary market and potential supply concerns from financial companies issuing new debt to recapitalize themselves.

# NOTES TO INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (continued) (unaudited)

One of the four securities is rated by two major rating agencies as investment grade, while one is rated one grade below investment grade by two major rating agencies and the other two are non-rated. The non-rated issues are relatively small banks and were never rated. The issuers of these non-rated trust preferred securities, which had a total amortized cost of \$2.8 million and total fair value of \$1.5 million as of June 30, 2012, continue to have satisfactory credit metrics and one continues to make interest payments. One non-rated issue began deferring dividend payments in the third quarter of 2011 apparently due to an increase in non-performing assets. Nevertheless, this issuer continues to have satisfactory capital measures and interim profitability.

The following table breaks out our trust preferred securities in further detail as of June 30, 2012 and December 31, 2011:

|                            | June 1  | 30, 2012<br>Net | December 31, 2011<br>Net |             |  |
|----------------------------|---------|-----------------|--------------------------|-------------|--|
|                            | Fair    | Unrealized      | Fair                     | Unrealized  |  |
|                            | Value   | Gain (Loss)     | Value                    | Gain (Loss) |  |
|                            |         | (In thous       | sands)                   |             |  |
| Trust preferred securities |         |                 |                          |             |  |
| Rated issues               | \$1,564 | \$(329)         | \$1,405                  | \$(484)     |  |
| Unrated issues - no OTTI   | 1,533   | (1,274)         | 1,231                    | (1,577)     |  |

As management does not intend to liquidate these securities and it is more likely than not that we will not be required to sell these securities prior to recovery of these unrealized losses, no declines are deemed to be other than temporary.

We recorded credit related OTTI charges in earnings on securities available for sale of \$0.085 million and zero during the three month periods ended June 30, 2012 and 2011, respectively and \$0.262 million and \$0.142 million during the six month periods ended June 30, 2012 and 2011, respectively (see discussion above).

A roll forward of credit losses recognized in earnings on securities available for sale for the three and six month periods ending June 30, follows:

|   | Three months ended June 30, |        |          | onths ended<br>one 30, |

## NOTES TO INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (continued) (unaudited)

The amortized cost and fair value of securities available for sale at June 30, 2012, by contractual maturity, follow. The actual maturity may differ from the contractual maturity because issuers may have the right to call or prepay obligations with or without call or prepayment penalties.

|  | Amortized | Fair      |
|--|-----------|-----------|
|  | Cost      | Value     |
|  | (In the   | ousands)  |
| Maturing within one year                       | \$1,323   | \$1,341   |
| Maturing after one year but within five years  | 6,491     | 6,711     |
| Maturing after five years but within ten years | 15,318    | 15,531    |
| Maturing after ten years                       | 59,990    | 58,621    |
|  | 83,122    | 82,204    |
| U.S. agency residential mortgage-backed        | 156,231   | 157,164   |
| Private label residential mortgage-backed      | 9,887     | 7,679     |
| Total  | \$249,240 | \$247,047 |

Gains and losses realized on the sale of securities available for sale are determined using the specific identification method and are recognized on a trade-date basis. A summary of proceeds from the sale of securities available for sale and gains and losses for the six month periods ending June 30, follows:

|      |           | Realized       |           |
|------|-----------|----------------|-----------|
|      | Proceeds  | Gains          | Losses(1) |
|      |           | (In thousands) |           |
| 2012 | \$ 18,999 | \$ 843         | \$ -      |
| 2011 | 70,322    | 279            | 75        |

<sup>(1)</sup> Losses in 2012 and 2011 exclude \$0.262 million and \$0.142 million, respectively of credit related OTTI recognized in earnings.

During 2012 and 2011 our trading securities consisted of various preferred stocks. During the first six months of 2012 and 2011 we recognized gains on trading securities of \$0.010 million and \$0.124 million, respectively, that are included in net gains (losses) on securities in the Condensed Consolidated Statements of Operations. Both of these amounts, relate to gains recognized on trading securities still held at each respective period end.

<sup>(1)</sup> There were no impaired payment plan receivables during the six month periods ending June 30, 2012 and 2011.

#### **Index**

## NOTES TO INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (continued) (unaudited)

Our average investment in impaired loans was approximately \$162.2 million and \$150.2 million for the three-month periods ended June 30, 2012 and 2011, respectively and \$161.4 million and \$155.9 million for the six-month periods ended June 30, 2012 and 2011, respectively. Cash receipts on impaired loans on non-accrual status are generally applied to the principal balance. Interest income recognized on impaired loans during the three months ending June 30, 2012 and 2011 was approximately \$1.5 million and \$1.3 million, respectively and was approximately \$2.9 million and \$2.8 million during the six months ending June 30, 2012 and 2011, respectively.

(1) Included in non-performing loans table above.

The Company has allocated \$18.2 million and \$18.1 million of specific reserves to customers whose loan terms have been modified in troubled debt restructurings as of June 30, 2012 and December 31, 2011, respectively.

During the three and six months ending June 30, 2012, the terms of certain loans were modified as troubled debt restructurings. The modification of the terms of such loans generally included one or a combination of the following: a reduction of the stated interest rate of the loan; an extension of the maturity date at a stated rate of interest lower than the current market rate for new debt with similar risk; or a permanent reduction of the recorded investment in the loan.

Modifications involving a reduction of the stated interest rate of the loan have generally been for periods ranging from 9 months to 60 months but have extended to as much as 480 months in certain circumstances. Modifications involving an extension of the maturity date have generally been for periods ranging from 1 month to 60 months but have extended to as much as 472 months in certain circumstances.

<sup>(2)</sup> Also includes loans on non-accrual at the time of modification until six payments are received on a timely basis.

A loan is considered to be in payment default generally once it is 90 days contractually past due under the modified terms.

The troubled debt restructurings that subsequently defaulted described above decreased the allowance for loan losses by \$0.1 million as a result of charge offs of \$0.2 million during the three months ending June 30, 2012 and decreased the allowance for loan losses by \$0.3 million as a result of charge offs of \$0.6 million during the six months ending June 30, 2012.

#### **Index**

## NOTES TO INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (continued) (unaudited)

The terms of certain other loans were modified during the three months ending June 30, 2012 that did not meet the definition of a troubled debt restructuring. The modification of these loans could have included modification of the terms of a loan to borrowers who were not experiencing financial difficulties or a delay in a payment that was considered to be insignificant.

In order to determine whether a borrower is experiencing financial difficulty, we perform an evaluation of the probability that the borrower will be in payment default on any of its debt in the foreseeable future without the modification. This evaluation is performed under our internal underwriting policy.

Credit Quality Indicators – As part of our on on-going monitoring of the credit quality of our loan portfolios, we track certain credit quality indicators including (a) weighted-average risk grade of commercial loans, (b) the level of classified commercial loans (c) credit scores of mortgage and installment loan borrowers (d) investment grade of certain counterparties for payment plan receivables and (e) delinquency history and non-performing loans.

For commercial loans we use a loan rating system that is similar to those employed by state and federal banking regulators. Loans are graded on a scale of 1 to 12. A description of the general characteristics of the ratings follows:

Rating 1 through 6: These loans are generally referred to as our "non-watch" commercial credits that include very high or exceptional credit fundamentals through acceptable credit fundamentals.

Rating 7 and 8: These loans are generally referred to as our "watch" commercial credits. This rating includes loans to borrowers that exhibit potential credit weakness or downward trends. If not checked or cured these trends could weaken our asset or credit position. While potentially weak, no loss of principle or interest is envisioned with these ratings.

Rating 9: These loans are generally referred to as our "substandard accruing" commercial credits. This rating includes loans to borrowers that exhibit a well-defined weakness where payment default is probable and loss is possible if deficiencies are not corrected. Generally, loans with this rating are considered collectible as to both principal and interest primarily due to collateral coverage.

Rating 10 and 11: These loans are generally referred to as our "substandard - non-accrual" and "doubtful" commercial credits. This rating includes loans to borrowers with weaknesses that make collection of debt in full, on the basis of current facts, conditions and values at best questionable and at worst improbable. All of these loans are placed in non-accrual.

Rating 12: These loans are generally referred to as our "loss" commercial credits. This rating includes loans to borrowers that are deemed incapable of repayment and are charged-off.

<sup>(1)</sup> Credit scores have been updated within the last twelve months.

Mepco Finance Corporation ("Mepco") is a wholly-owned subsidiary of our Bank that operates a vehicle service contract payment plan business throughout the United States. See note #14 for more information about Mepco's business. As of June 30, 2012, approximately 91.8% of Mepco's outstanding payment plan receivables relate to programs in which a third party insurer or risk retention group is obligated to pay Mepco the full refund owing upon cancellation of the related service contract (including with respect to both the portion funded to the service contract seller and the portion funded to the administrator). These receivables are shown as "Full Refund" in the table below. Another approximately 7.7% of Mepco's outstanding payment plan receivables as of June 30, 2012, relate to programs in which a third party insurer or risk retention group is obligated to pay Mepco the refund owing upon cancellation only with respect to the unearned portion previously funded by Mepco to the administrator (but not to the service contract seller). These receivables are shown as "Partial Refund" in the table below. The balance of Mepco's outstanding payment plan receivables relate to programs in which there is no insurer or risk retention group that has any contractual liability to Mepco for any portion of the refund amount. These receivables are shown as "Other" in the table below. For each class of our payment plan receivables we monitor credit ratings of the counterparties as we evaluate

the credit quality of this portfolio.
