October 30, 2014

UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
WASHINGTON, D. C. 20549

FORM 10-Q

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15 (d) OF THE
SECURITIES EXCHANGE ACT OF 1934

for the quarterly period ended September 30, 2014

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF
THE SECURITIES EXCHANGE ACT OF 1934

for the transition period from _____ to _____
Commission file number 1-10638

CAMBREX CORPORATION

(Exact name of registrant as specified in its charter)

DELAWARE

(State or other jurisdiction of incorporation or organization) 22-2476135
(I.R.S. Employer Identification No.)

ONE MEADOWLANDS PLAZA, EAST RUTHERFORD, NEW JERSEY 07073

(Address of principal executive offices)

(201) 804-3000

(Registrant's telephone number, including area code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files).
Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer Accelerated filer Non-accelerated filer (Do not check if a smaller reporting company)
Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Act). Yes No

Edgar Filing: CAMBREX CORP - Form 10-Q

As of October 28, 2014, there were 30,995,575 shares outstanding of the registrant's Common Stock, \$.10 par value.

Forward-Looking Statements

This document contains and incorporates by reference forward-looking statements including statements regarding expected performance, including, but not limited to, the Company's belief that cash flows from operations, along with funds available from the revolving line of credit, will be adequate to meet the operational and debt servicing needs of the Company, as well as other statements relating to expectations with respect to sales, the timing of orders, research and development expenditures, earnings per share, capital expenditures, the outcome of pending litigation (including environmental proceedings and remediation investigations) and related estimates of potential liability, acquisitions, divestitures, collaborations or other expansion opportunities. These statements may be identified by the fact that they use words such as "may," "will," "could," "should," "would," "expect," "anticipate," "intend," "estimate," "believe" or similar. Any forward-looking statements contained herein are based on current plans and expectations and involve risks and uncertainties that could cause actual outcomes and results to differ materially from current expectations. The factors described in Item 1A of Part I contained in the Company's Annual Report on Form 10-K for the period ended December 31, 2013, captioned "Risk Factors," or otherwise described in the Company's filings with the Securities and Exchange Commission, provide examples of such risks and uncertainties that may cause the Company's actual results to differ materially from the expectations the Company describes in its forward-looking statements, including, but not limited to, pharmaceutical outsourcing trends, competitive pricing or product developments, government legislation and regulations (particularly environmental issues), tax rates, interest rates, technology, manufacturing and legal issues, including the outcome of outstanding litigation, changes in foreign exchange rates, uncollectible receivables, the timing of orders, loss on disposition of assets, cancellation or delays in renewal of contracts, lack of suitable raw materials or packaging materials, the Company's ability to receive regulatory approvals for its products and continued demand in the U.S. for late stage clinical products or the successful outcome of the Company's investment in new products.

The forward-looking statements are based on the beliefs and assumptions of Company management and the information available to Company management as of the date of this report. The Company cautions investors not to place significant reliance on expectations regarding future results, levels of activity, performance, achievements or other forward-looking statements. The information contained in this Quarterly Report on Form 10-Q is provided by the Company as of the date hereof, and, unless required by law, the Company does not undertake and specifically disclaims any obligation to update these forward-looking statements contained in this Quarterly Report on Form 10-Q as a result of new information, future events or otherwise.

CAMBREX CORPORATION AND SUBSIDIARIES

Notes to Consolidated Financial Statements

(in thousands, except share data)

(Unaudited)

(1)Basis of Presentation

Unless otherwise indicated by the context, "Cambrex" or the "Company" means Cambrex Corporation and subsidiaries.

The accompanying unaudited consolidated financial statements have been prepared from the records of the Company. In the opinion of management, the financial statements include all adjustments, which are of a normal and recurring nature, except as otherwise described herein, and are necessary for a fair statement of financial position and results of operations in conformity with U.S. generally accepted accounting principles ("GAAP"). These interim financial statements should be read in conjunction with the financial statements for the year ended December 31, 2013.

The results of operations for the three and nine months ended September 30, 2014 are not necessarily indicative of the results expected for the full year.

For all periods presented, discontinued operations primarily relate to expenses for environmental remediation at sites of divested businesses.

Certain reclassifications have been made to prior year amounts to conform with current year presentation.

(2)Impact of Recently Issued Accounting Pronouncements

Revenue from Contracts with Customers

In May 2014, the FASB issued ASU 2014-09 that introduces a new five-step revenue recognition model in which an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. This ASU also requires disclosures sufficient to enable users to understand the nature, amount, timing, and uncertainty of revenue and cash flows arising from contracts with customers, including qualitative and quantitative disclosures about contracts with customers, significant judgments and changes in judgments, and assets recognized from the costs to obtain or fulfill a contract. This standard is effective for fiscal years beginning after December 15, 2016, including interim periods within that reporting period. The Company is currently evaluating the new guidance to determine the impact, if any, it will have on its consolidated financial statements.

Reporting Discontinued Operations and Disclosures of Disposals of Components of an Entity

In April 2014, the FASB issued ASU 2014-08, which includes amendments that change the requirements for reporting discontinued operations and require additional disclosures about discontinued operations. Under the new guidance, only disposals representing a strategic shift in operations - that is, a major effect on the organization's operations and financial results should be presented as discontinued operations. Additionally, the ASU requires expanded disclosures about discontinued operations that will provide financial statement users with more information about the assets, liabilities, income and expenses of discontinued operations. This update is effective in the first quarter of 2015. This pronouncement will not have an impact on the Company's financial position or results of operations.

Notes to Consolidated Financial Statements

(in thousands, except share data)

(Unaudited)

(3) Acquisition

On May 23, 2014, the Company purchased the remaining 49% interest in Zenara. The Company negotiated an accelerated purchase of the business, which was contractually required to be completed in 2016 at a price that would have been determined by the financial performance of the Zenara business. The purchase price negotiated for the 49% was \$2,680. Management believed it was economically beneficial to take control of the business at this time to accelerate the execution of the Company's strategy for the business. The Company recorded \$655 for the identifiable net liabilities of Zenara at fair market value, intangible assets of \$4,900, a deferred tax liability related to the intangible asset of \$1,666 and goodwill of \$9,715. These amounts are estimates and are subject to change upon the finalization of the valuation of Zenara. The Company incurred acquisition related costs of \$4 and \$455 for the three and nine months ended September 30, 2014, respectively. These costs were expensed and included in "Selling, general and administrative expenses" in the Company's income statement. Refer to Note 6 for further disclosure.

(4) Net Inventories

Inventories are determined on a first-in, first-out basis and stated at the lower of cost or market.

Net inventories at September 30, 2014 and December 31, 2013 consist of the following:

	September 30, 2014	December 31, 2013
Finished goods	\$ 28,199	\$ 29,797
Work in process	42,220	31,990
Raw materials	25,634	22,580
Supplies	5,352	5,598
Total	\$ 101,405	\$ 89,965

(5) Goodwill and Intangible Assets

The change in the carrying amount of goodwill for the nine months ended September 30, 2014, is as follows:

Balance as of December 31, 2013	\$ 38,670
Acquisition of business	9,715
Translation effect	(3,277)
Balance as of September 30, 2014	\$ 45,108

Table of Contents

CAMBREX CORPORATION AND SUBSIDIARIES

Notes to Consolidated Financial Statements

(in thousands, except share data)

(Unaudited)

(5) Goodwill and Intangible Assets (continued)

Acquired intangible assets, which are amortized, consist of the following:

	Amortization Period	As of September 30, 2014		
		Gross Carrying Amount	Accumulated Amortization	Net Carrying Amount
Technology-based intangibles	10 - 20 years	\$8,459	\$ (1,015)	\$ 7,444
Internal-use software	7 years	950	-	950
Customer-related intangibles	10 - 15 years	742	(228)	514
		\$10,151	\$ (1,243)	\$ 8,908

	Amortization Period	As of December 31, 2013		
		Gross Carrying Amount	Accumulated Amortization	Net Carrying Amount
Technology-based intangibles	20 years	\$4,192	\$ (786)	\$ 3,406
Customer-related intangibles	10 - 15 years	814	(209)	605
		\$5,006	\$ (995)	\$ 4,011

The change in the gross carrying amount is related to the acquisition of the remaining 49% of Zenara and the impact of foreign currency translation. The acquisition resulted in the recognition of technology-based intangibles of \$4,900 in the second quarter of 2014. During the third quarter of 2014, the Company began implementing a new ERP system, as such, \$950 has been capitalized and classified as internal-use software.

Amortization expense was \$182 and \$354 for the three and nine months ended September 30, 2014, respectively. Amortization expense was \$63 and \$190 for the three and nine months ended September 30, 2013, respectively.

Amortization expense related to current intangible assets is expected to be approximately \$533 for 2014, \$764 for 2015 and \$855 for each of the next three years.

(6) Partially-Owned Affiliates

On May 23, 2014, the Company negotiated an accelerated purchase of Zenara, which was contractually required to be completed in 2016 at a price that would have been determined by the financial performance of the business. The purchase price negotiated for the remaining 49% was \$2,680. Management believed it was economically beneficial to take control of the business at this time to accelerate the execution of the Company's strategy for the business. The Company incurred acquisition related costs of \$4 and \$455 for the three and nine months ended September 30, 2014, respectively.

Table of Contents

CAMBREX CORPORATION AND SUBSIDIARIES

Notes to Consolidated Financial Statements

(in thousands, except share data)

(Unaudited)

(6) Partially-Owned Affiliates (continued)

The Company was required to perform a fair market value assessment immediately before acquisition of its existing 51% ownership interest. This resulted in the recognition of a gain of \$278 using a discounted cash flow model with inputs developed by Company management. The Company also recorded an expense of \$4,400 representing the release of foreign currency translation adjustments previously recorded in "Other comprehensive income" that are now required to be recorded to the income statement as a result of the removal of the investment in partially-owned affiliate due to the full consolidation of Zenara as of the acquisition date. The net amount of these items totaled a loss of \$4,122 and is recorded in "Equity in losses of partially-owned affiliates" on the Company's income statement.

The Company recorded a loss of \$458 related to Zenara and reflects activity through the date the remaining 49% was purchased. This amount includes amortization expense of \$333. The Company recorded a loss of \$508 and \$1,483 for the three and nine months ended September 30, 2013, respectively. These amounts include amortization expense of \$207 and \$675, for the three and nine months ended September 30, 2013, respectively.

Zenara's results from the purchase date through September 30, 2014 are reflected in the consolidated financial statements of the Company and were not material.

Prior to May 23, 2014, partially-owned affiliates consisted primarily of the Company's 51% equity interest in Zenara, and two smaller joint ventures located in Europe and Brazil. The Company's financial statements reflect its share of Zenara's results through the date the Company purchased the remaining 49% interest at which time Zenara became a wholly-owned subsidiary of the Company and included in the consolidated financial statements. Investments in and advances to partially-owned affiliates were not material to the Company's consolidated financial statements as of September 30, 2014.

(7) Income Taxes

The provision for income taxes for the three and nine months ended September 30, 2014 was expense of \$2,537 and a benefit of \$6,424, respectively. For the three and nine months ended September 30, 2014, the effective tax rate included benefits of \$824 and \$15,183, respectively, for a partial reversal of a deferred tax valuation allowance against domestic federal foreign tax credits. Excluding the benefit related to the reversal of the deferred tax valuation allowance and the loss on the Zenara transaction of \$4,122, the effective tax rates were 29.4% and 31.8% for the three and nine months ended September 30, 2014, respectively. During the second quarter of 2014, the Company received updated customer projections that impact current and future year's income in an amount and type that support increased utilization of certain foreign tax credits. Accordingly, during the second quarter of 2014, the Company reduced the valuation allowance against foreign tax credits by \$13,041 due to the expected impact in future years of these updated customer projections. Additionally, approximately \$2,000 of valuation allowance will be released in the fourth quarter of 2014 due to these updated customer projections, after which approximately \$10,000 of valuation allowance will remain against foreign tax credits. The Company continues to assess the need for a valuation allowance against a portion of its remaining foreign tax credits. It is possible that new customer business or other changes in the amount or type of future U.S. taxable income could result in the release in future periods of some portion of additional domestic valuation allowance attributable to these remaining foreign tax credits before they expire, or the establishment of a reserve against certain foreign tax credits for which the Company has no current reserves. The Company has approximately \$8,000, \$13,000 and \$4,000 of foreign tax credits expiring in 2015, 2016 and 2018 respectively.

Table of Contents

CAMBREX CORPORATION AND SUBSIDIARIES

Notes to Consolidated Financial Statements

(in thousands, except share data)

(Unaudited)

(7)Income Taxes (continued)

In 2009, a subsidiary of the Company was examined by a European tax authority, which challenged the business purpose of the deductibility of certain intercompany transactions from 2003 and issued formal assessments against the subsidiary. In 2010, the Company filed to litigate the matter. Although the Company has had several favorable rulings in the courts, they have been appealed or are subject to appeal. For the three months ended September 30, 2014, the Company decreased its reserve for unrecognized tax benefits for this matter by \$480 mostly due to foreign currency translation. Any ruling reached by any of the courts may be subject to further appeals, and as such the final date of resolution of this matter is uncertain at this time. However, within the next twelve months it is possible that factors such as new developments, settlements or judgments may require the Company to increase its reserve for unrecognized tax benefits by up to approximately \$8,000 or decrease its reserve by approximately \$6,100, including penalties and interest. If the court rules against the Company in subsequent court proceedings, a payment for the amount of the judgment, including any penalties and interest, will be due immediately while the case is appealed. The Company has analyzed these issues in accordance with guidance on uncertain tax positions and believes at this time that its reserves are adequate, and intends to vigorously defend itself.

(8)Derivatives and Hedging Activities

The Company operates internationally and is exposed to fluctuations in foreign exchange rates and interest rates in the normal course of business. The Company, from time to time, uses derivatives to reduce exposure to market risks resulting from fluctuations in interest rates and foreign exchange rates.

All financial instruments involve market and credit risks. The Company is exposed to credit losses in the event of non-performance by the counterparties to the contracts. While there can be no assurance, the Company does not anticipate non-performance by these counterparties.

Foreign Currency Forward Contracts

The Company periodically enters into foreign currency forward contracts to protect against currency fluctuations of forecasted cash flows and existing balance sheet exposures at its foreign operations, as deemed appropriate. The Company may or may not elect to designate these forward contracts for hedge accounting treatment.

For derivatives that are not designated for hedge accounting treatment, changes in the fair value are immediately recognized in earnings. This treatment has the potential to increase volatility of the Company's earnings.

For derivatives that are designated for hedge accounting treatment, changes in the fair value are not included in earnings but are included in accumulated other comprehensive income ("AOCI"). Changes in the fair value of the derivative instruments reported in AOCI are recorded into earnings when the forecasted transaction occurs. Any ineffective portion of hedges is recognized in earnings.

None of the foreign currency forward contracts entered into during the nine months ended September 30, 2014 were designated for hedge accounting treatment. There were no foreign currency forward contracts entered into or outstanding at September 30, 2013.

(in thousands, except share data)

(Unaudited)

(8) Derivatives and Hedging Activities (continued)

The fair value of the Company's foreign exchange forward contracts was a loss of \$418 at September 30, 2014 and is recorded in "Accrued expenses and other current liabilities" and "Other revenue."

The notional amounts of the Company's foreign exchange forward contracts were \$13,586 at September 30, 2014. There were no foreign currency forward contracts outstanding at December 31, 2013. The Company does not hold or purchase any foreign currency forward contracts for trading or speculative purposes and no contractual term is greater than twelve months.

Interest Rate Swap

The Company entered into an interest rate swap in March 2012 to reduce the impact of changes in interest rates on its floating rate debt through September 2015. The swap is a contract to exchange floating rate for fixed interest payments periodically over the life of the agreement without the exchange of the underlying notional debt amount.

The swap contract outstanding at September 30, 2014 has been designated as a cash flow hedge and, accordingly, changes in the fair value of this derivative are not recorded in earnings but are recorded each period in AOCI and reclassified into earnings as interest expense in the same period during which the hedged transaction affects earnings. The ineffective portion of all hedges is recognized in earnings and has been immaterial to the Company's financial results.

As of September 30, 2014, the interest rate swap had a notional value of \$60,000, at a fixed rate of 0.92%. The fair value of this swap is based on quoted market prices and was in a loss position of \$402 and \$616 at September 30, 2014 and December 31, 2013, respectively. This loss is reflected in the Company's balance sheet under the caption "Accrued expenses and other current liabilities."

The entire loss will be reclassified out of AOCI into earnings within the next twelve months.

(9) Fair Value Measurements

U.S. GAAP establishes a valuation hierarchy for disclosure of the inputs to the valuations used to measure fair value. This hierarchy prioritizes the inputs into three broad levels as follows: Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities; Level 2 inputs are quoted prices for similar assets and liabilities in active markets, quoted prices for identical or similar assets in markets that are not active, inputs other than quoted prices that are observable for the asset or liability, including interest rates, yield curves and credit risks, or inputs that are derived principally from, or corroborated by, observable market data through correlation; Level 3 inputs are unobservable inputs based on the Company's assumptions used to measure assets and liabilities at fair value. A financial asset or liability's classification within the hierarchy is determined based on the lowest level input that is significant to the fair value measurement.

CAMBREX CORPORATION AND SUBSIDIARIES

Notes to Consolidated Financial Statements

(in thousands, except share data)

(Unaudited)

(9) Fair Value Measurements (continued)

The following tables provide the assets and liabilities carried at fair value, measured on a recurring basis, as of September 30, 2014 and December 31, 2013:

Description	Total	Fair Value Measurements at September 30, 2014 using:		
		Level 1	Level 2	Level 3
Foreign currency forwards, liabilities	\$(418)	\$-	\$(418)	\$ -
Interest rate swap, liabilities	(402)	-	(402)	-
Total	\$(820)	\$-	\$(820)	\$ -

Description	Total	Fair Value Measurements at December 31, 2013 using:		
		Level 1	Level 2	Level 3
Interest rate swap, liabilities	\$(616)	\$-	\$(616)	\$ -
Total	\$(616)	\$-	\$(616)	\$ -

The fair value of the interest rate swap is estimated based on the present value of the difference between expected cash flows calculated at the contracted interest rate and the expected cash flows at current market interest rates using observable benchmarks for the LIBOR forward rates at the end of the period. The Company's credit risk and its counterparties' credit risks are also evaluated to estimate fair value.

The Company's foreign currency forward contracts are measured at fair value using observable market inputs such as forward rates, the Company's credit risk and its counterparties' credit risks. Based on the Company's continued ability to enter into forward contracts, the Company considers the markets for its fair value instruments to be active.

Based on these inputs, the Company's interest rate swap and foreign currency forward contracts are classified within Level 2 of the valuation hierarchy.

The Company's financial instruments also include cash and cash equivalents, accounts receivables and accounts payables. The carrying amount of these instruments approximates fair value because of their short-term nature. The carrying amount of the Company's long-term debt approximates fair value because the debt is based on current rates at which the Company could borrow funds with similar maturities.

(11) Stock Based Compensation

The Company recognizes compensation costs for stock options awarded to employees based on their grant-date fair value. The value of each stock option is estimated on the date of grant using the Black-Scholes option-pricing model. The weighted-average fair value per share for the stock options granted to employees during the nine months ended September 30, 2014 was \$6.49. The weighted-average fair value per share for the stock options granted to employees during the nine months ended September 30, 2013 was \$5.53.

For the three months ended September 30, 2014 and 2013, the Company recorded \$636 and \$516, respectively, in selling, general and administrative expenses for stock options. For the nine months ended September 30, 2014 and 2013, the Company recorded \$1,785 and \$1,441, respectively, in selling, general and administrative expenses for stock options. As of September 30, 2014, the total compensation cost related to unvested stock options not yet recognized was \$4,853. The cost will be amortized on a straight-line basis over the remaining weighted-average vesting period of 2.2 years.

(11) Stock Based Compensation (continued)

The following table is a summary of the Company's nonvested stock options and restricted stock:

	Nonvested Stock Options		Nonvested Restricted Stock	
	Number of Shares	Weighted- Average Grant-Date Fair Value	Number of Shares	Weighted- Average Grant-Date Fair Value
Nonvested at December 31, 2013	1,080,900	\$ 6.50	-	\$ -
Granted	20,000	\$ 7.21	-	\$ -
Vested during period	(22,500)	\$ 3.32	-	\$ -
Forfeited	(6,000)	\$ 5.21	-	\$ -
Nonvested at March 31, 2014	1,072,400	\$ 6.59	-	\$ -
Granted	38,788	\$ 6.11	18,906	\$ 20.90
Vested during period	(66,250)	\$ 3.28	-	\$ -
Forfeited	(18,900)	\$ 7.13	-	\$ -
Nonvested at June 30, 2014	1,026,038	\$ 6.77	18,906	\$ 20.90
Vested during period	(12,500)	\$ 2.67	-	\$ -
Forfeited	(5,500)	\$ 5.39	-	\$ -
Nonvested at September 30, 2014	1,008,038	\$ 6.83	18,906	\$ 20.90

For the three months ended September 30, 2014 and 2013, the Company recorded \$198 and \$200, respectively, in selling, general and administrative expenses for restricted stock awards. For the nine months ended September 30, 2014 and 2013, the Company recorded \$322 and \$361, respectively, in selling, general and administrative expenses for restricted stock awards. As of September 30, 2014, the total compensation cost related to unvested restricted stock not yet recognized was \$73. The cost will be amortized on a straight-line basis over the remaining weighted-average vesting period of one month.

The Company granted equity-settled performance shares ("PS") to certain executives. PS awards provide the recipient the right to receive a certain number of shares of the Company's common stock in the future, which depends on the Company's level of achievement of revenue and EBITDA growth as compared to the revenue and EBITDA growth of the members of a specified peer group of companies over a three year period. For the three months ended September 30, 2014 and 2013, the Company recorded \$69 and \$48, respectively, in selling, general and administrative expenses related to these PS awards. For the nine months ended September 30, 2014 and 2013, the Company recorded \$744 and \$204, respectively, in selling, general and administrative expenses related to these PS awards.

(Unaudited)

(11) Stock Based Compensation (continued)

The Company granted cash-settled performance share units (“PSU”) to certain executives. PSU awards provide the recipient the right to receive the cash value of a certain number of shares of the Company’s common stock in the future, which depends on the Company’s level of achievement of revenue and EBITDA growth as compared to the revenue and EBITDA growth of the members of a specified peer group of companies over a three year period. For the three months ended September 30, 2014 and 2013, the Company recorded \$34 and \$117, respectively, in selling, general and administrative expenses for PSU awards. For the nine months ended September 30, 2014 and 2013, the Company recorded \$645 and \$978, respectively, in selling, general and administrative expenses for PSU awards.

(12) Retirement Plans

Domestic Pension Plan

The components of net periodic (income)/cost for the Company’s domestic plan (which was frozen in 2007) for the three and nine months ended September 30, 2014 and 2013 were as follows:

	Three months ended September 30, 2014		Nine months ended September 30, 2013	
Components of net periodic benefit cost				
Interest cost	\$828	\$765	\$2,484	\$2,294
Expected return on plan assets	(1,039)	(958)	(3,117)	(2,872)
Recognized actuarial loss	130	235	390	704
Net periodic (income)/cost	\$(81)	\$42	\$(243)	\$126

The Company’s Supplemental Executive Retirement Plan (which was frozen in 2007) is non-qualified and unfunded. Net periodic benefit costs for both the three months ended September 30, 2014 and 2013 was \$55. Net periodic benefit costs for the nine months ended September 30, 2014 and 2013 were \$165 and \$164, respectively.

International Pension Plan

The components of net periodic benefit cost for the Company’s international plan for the three and nine months ended September 30, 2014 and 2013 were as follows:

	Three months ended September 30, 2014		Nine months ended September 30, 2013	
Components of net periodic benefit cost				

Edgar Filing: CAMBREX CORP - Form 10-Q

Service cost	\$166	\$185	\$519	\$558

Table of Contents

CAMBREX CORPORATION AND SUBSIDIARIES

Notes to Consolidated Financial Statements

(in thousands, except share data)

(Unaudited)

(13)Contingencies

The Company is subject to various investigations, claims and legal proceedings covering a wide range of matters that arise in the ordinary course of its business activities. The Company continually assesses known facts and circumstances as they pertain to applicable legal and environmental matters and evaluates the need for reserves and disclosures as deemed necessary based on these facts and circumstances. These matters, either individually or in the aggregate, could result in actual costs that are significantly higher than the Company's current assessment and could have a material adverse effect on the Company's operating results and cash flows in future reporting periods. While these matters could have a material adverse effect on the Company's financial condition, based upon past experience, the Company believes that payments significantly in excess of current reserves, if required, would be made over an extended number of years.

Environmental

In connection with laws and regulations pertaining to the protection of the environment, the Company and its subsidiaries are a party to several environmental proceedings and remediation activities and along with other companies, have been named a potentially responsible party ("PRP") for certain waste disposal sites ("Superfund sites"). Substantially all of the liabilities currently recorded on the Company's balance sheet for environmental proceedings are associated with discontinued operations. The Company had insurance policies in place at certain of the discontinued operations for certain years that the Company believes should cover some portion of currently recorded liabilities or potential future liabilities.

It is the Company's policy to record appropriate liabilities for environmental matters where remedial efforts are probable and the costs can be reasonably estimated. Such liabilities are based on the Company's estimate of the undiscounted future costs required to complete the remedial work. Each of these matters is subject to various uncertainties, and it is possible that some of these matters will be decided against the Company. The resolution of such matters often spans several years and frequently involves regulatory oversight or adjudication. Additionally, many remediation requirements are fluid and are likely to be affected by future technological, site and regulatory developments. It is not possible at this time for the Company to determine fully the effect of all asserted and unasserted claims on its consolidated financial condition, results of operations or liquidity; however, to the extent possible, where asserted and unasserted claims can be estimated and where such claims are considered probable, the Company would record a liability. Consequently, the ultimate liability with respect to such matters, as well as the timing of cash disbursements, is uncertain.

In matters where the Company is able to reasonably estimate the probable and estimable costs associated with environmental proceedings, the Company accrues for the estimated costs associated with the study and remediation of applicable sites. These reserves were \$9,616 and \$10,881 at September 30, 2014 and December 31, 2013, respectively. The decrease in the reserve includes payments of \$1,794 and the impact of currency translation of \$163 partially offset by adjustments to reserves of \$692. The reserves are adjusted periodically as remediation efforts progress or as additional technical, regulatory or legal information becomes available. Given the uncertainties regarding the outcome of investigative and study activities, the status of laws, regulations, enforcement, policies, the impact of other PRPs, technology and information related to individual sites, the Company does not believe it is possible to currently develop an estimate of the range of reasonably possible environmental loss in excess of its reserves.

(13) Contingencies (continued)

CasChem

As a result of the sale of a Bayonne, New Jersey facility, the Company became obligated to investigate site conditions and conduct required remediation under the New Jersey Industrial Site Recovery Act. The Company intends to continue implementing a sampling plan at the property pursuant to the New Jersey Department of Environmental Protection's ("NJDEP") private oversight program. The results of the completed sampling, and any additional sampling deemed necessary, will be used to develop an estimate of the Company's future liability for remediation costs. As of September 30, 2014, the Company's reserve for the investigation of site conditions was \$219.

Cosan

The Company has implemented a sampling and pilot program in Clifton, New Jersey pursuant to the NJDEP private oversight program. The results of the sampling and pilot program to date have been used to develop an estimate of the Company's future liability for remediation costs. As of September 30, 2014, the Company's reserve was \$1,198.

Additionally, the Company has implemented a sampling and pilot program in Carlstadt, New Jersey pursuant to the NJDEP private oversight program. The results of the sampling and pilot program to date have been used to develop an estimate of the Company's future liability for remediation costs. As of September 30, 2014, the Company's reserve was \$1,066.

Berry's Creek

The Company received a notice from the United States Environmental Protection Agency ("USEPA") that two subsidiaries of the Company are considered PRPs at the Berry's Creek Study Area in New Jersey. These subsidiaries are among many other PRPs that were listed in the notice. Pursuant to the notice, the PRPs have been asked to perform a remedial investigation and feasibility study of the Berry's Creek site. The Company has joined the group of PRPs and entered into an Administrative Settlement Agreement ("Agreement") and Order on Consent with the USEPA agreeing to jointly conduct or fund an appropriate remedial investigation and feasibility study of the Berry's Creek site with the other PRPs in the Agreement. The PRPs have engaged consultants to perform the work specified in the Agreement and develop a method to allocate related costs among the PRPs. As of September 30, 2014, the Company's reserve was \$61 to cover the current phase of investigation based on a tentative agreement on the allocation of the site investigation costs among the PRPs. Due to the very preliminary and uncertain nature of any estimates related to the method and costs of any remediation solution, the number of eventual PRPs, and their respective proportion of remediation costs, the Company's liability cannot be reasonably estimated at this time; as such, no accrual is recorded for these potential future costs. The impact of the resolution of this matter on the Company's results of operations in any future reporting period is not known.

In July 2014, the Company received a notice from the U.S. Department of the Interior, U.S. Fish & Wildlife Service, regarding the Company's potential liability for natural resource damages at the Berry's Creek site and inviting the Company to participate in a cooperative assessment of natural resource damages. All members of the Berry's Creek PRP group are receiving such notice letters, and any response from the Company will be coordinated with the PRP Group. The substance of any response from the Company, the cost of any assessment, and the ultimate scope of natural resource damage liability are not yet known.

CAMBREX CORPORATION AND SUBSIDIARIES

Notes to Consolidated Financial Statements

(in thousands, except share data)

(Unaudited)

(13)Contingencies (continued)

Maybrook Site

A subsidiary of Cambrex is named a PRP of a site in Hamptonburgh, New York by the USEPA in connection with the discharge, under appropriate permits, of wastewater at that site prior to Cambrex's acquisition in 1986. The PRPs implemented soil remediation which was completed in 2012 pending approval by the USEPA. The PRPs will continue implementing the ground water remediation at the site. As of September 30, 2014, the Company's reserve was \$322 to cover remaining ground water remediation and long-term monitoring.

Harriman Site

Subsidiaries of Cambrex and Pfizer are named as responsible parties for the Company's former Harriman, New York production facility by the New York State Department of Environmental Conservation ("NYSDEC"). A final ROD ("Record of Decision") describing the Harriman site remediation responsibilities for Pfizer and the Company was issued in 1997 (the "1997 ROD") and incorporated into a federal court Consent Decree in 1998 (the "Consent Decree"). Site clean-up work under the 1997 ROD is on-going and is being jointly performed by Pfizer and the Company, with NYSDEC oversight. ELT Harriman, LLC ("ELT"), the current owner of the Harriman site, is conducting other investigation and remediation activities under a separate NYSDEC directive.

In October 2013, the NYSDEC sent the Company, Pfizer, ELT and the immediately preceding owner Vertellus Specialties Holdings ("Vertellus") an enforcement letter demanding that the Company and Pfizer submit a work plan for the further study and remediation of certain areas of the Harriman site, including the evaluation of certain remedies that the Company has contended are not required by the 1997 ROD. In December 2013, the Company, Pfizer and the NYSDEC entered into a federal court stipulation, which the court subsequently endorsed as a court order, withdrawing the October 2013 enforcement letter as it relates to the Company and Pfizer, and resolving certain disputes about the scope of their obligations under the Consent Decree and the 1997 ROD. Pursuant to the court order, the Company and Pfizer are required to carry out an environmental investigation and study of certain areas of the Harriman Site.

No final remedy for the site has been determined, which will follow further investigation and discussions with the NYSDEC. The Company estimated the range for its share of the liability at the site to be between \$2,000 and \$7,000. As of September 30, 2014, the Company's reserve was \$3,690. At this time, the Company is unable to provide an estimate of the ultimate investigative and remedial costs to the Company for any final remedy selected by the NYSDEC.

The Company intends to enforce all of its contractual rights to recover costs and for indemnification under a 2007 settlement agreement, and has filed such claims in an arbitration proceeding against ELT and Vertellus. ELT has filed counterclaims, and has threatened to file additional counterclaims, for contractual indemnification and for breach of the settlement agreement against the Company. Currently, the arbitration proceeding is stayed indefinitely.

(13) Contingencies (continued)

Scientific Chemical Processing (“SCP”) Superfund Site

A subsidiary of Cambrex was named a PRP of the SCP Superfund site, located in Carlstadt, New Jersey, along with approximately 130 other PRPs. The site is a former waste processing facility that accepted various waste for recovery and disposal including processing wastewater from this subsidiary. The PRPs are in the process of implementing a final remedy at the site. The SCP Superfund site has also been identified as a PRP in the Berry’s Creek Superfund site (see previous discussion). For over a decade, the remediation has been funded by de minimus settlements and by the insurers of the SCP Superfund site’s owners and operators. However, due to an unexpected increase in remediation costs at the site and costs related to SCP’s involvement in the Berry’s Creek investigation, the PRP group approved the assessment of an additional cash contribution by the PRP group. While the Company continues to dispute the methodology used by the PRP group to arrive at its allocation for the cash contribution, the Company has paid the recent funding requests. A final allocation of SCP Site costs is expected to be developed during 2014-2015. As of September 30, 2014, the Company’s reserve was \$1,039, of which approximately \$737 is expected to be covered by insurance.

Newark Bay Complex

Two subsidiaries of the Company were named along with several hundred third-party defendants in a third-party complaint filed in February 2009, by Maxus Energy Corporation (“Maxus”) and Tierra Solutions, Inc. (“Tierra”) relating to a NJ state action concerning the Passaic River, Newark Bay, Hackensack River, Arthur Kill, Kill Van Kull and adjacent waters (the “Newark Bay Complex”). The Company settled this case which resolved certain New Jersey state based claims related to the Newark Bay Complex. The settlement will require Maxus and Tierra to re-file any further claims against the Company in federal court. In preparation for any such federal or similar claims, the Company is currently monitoring developments regarding the Newark Bay Complex. Due to the uncertainty of the future scope and timing of any such claims, the Company’s liability cannot be reasonably estimated at this time, and as such, no accrual is recorded for these potential future costs.

The Company is involved in other related and unrelated environmental matters where the range of liability is not reasonably estimable at this time and it is not foreseeable when information will become available to provide a basis for adjusting or recording a reserve, should a reserve ultimately be required.

Litigation and Other Matters

Lorazepam and Clorazepate

In 1998, the Company and a subsidiary were named as defendants along with Mylan Laboratories, Inc. (“Mylan”) and Gyma Laboratories, Inc. (“Gyma”) in a proceeding instituted by the Federal Trade Commission in the United States District Court for the District of Columbia (the “District Court”). Suits were also commenced by several State Attorneys General and class action complaints by private plaintiffs in various state courts. The suits alleged violations of the Federal Trade Commission Act arising from exclusive license agreements between the Company and Mylan covering two APIs (Lorazepam and Clorazepate).

Notes to Consolidated Financial Statements

(in thousands, except share data)

(Unaudited)

(13) Contingencies (continued)

All cases have been resolved except for one brought by four health care insurers. In the remaining case, the District Court entered judgment after trial in 2008 against Mylan, Gyma and Cambrex in the total amount of \$19,200, payable jointly and severally, and also a punitive damage award against each defendant in the amount of \$16,709. In addition, at the time, the District Court ruled that the defendants were subject to a total of approximately \$7,500 in prejudgment interest. The case is currently pending before the District Court following a January 2011 remand by the Court of Appeals. In July 2014, the District Court dismissed certain customers for which the plaintiffs were unable to establish jurisdiction and consequently, the plaintiffs currently have a motion pending before the District Court to reduce the damages award by a total of \$9,600.

In 2003, Cambrex paid \$12,415 to Mylan in exchange for a release and full indemnity against future costs or liabilities in related litigation brought by the purchasers of Lorazepam and Clorazepate, as well as potential future claims related to the ongoing matter. Mylan has submitted a surety bond underwritten by a third-party insurance company in the amount of \$66,632. In the event of a final settlement or final judgment, Cambrex expects any payment required by the Company to be made by Mylan under the indemnity described above.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Executive Overview

The following summarizes the Company's performance for the third quarter of 2014:

Sales increased 4.0% on a reported basis compared to the third quarter of 2013. Sales, excluding currency impact, increased 5.0%.

Gross margins increased to 35.0% from 32.0% in the third quarter of 2013.

Debt, net of cash, decreased \$21,055 primarily due to the timing of accounts receivable collections.

Results of Operations

Comparison of Third Quarter 2014 versus Third Quarter 2013

Gross sales in the third quarter of 2014 of \$81,145 were \$3,153 or 4.0% higher than the third quarter of 2013. Excluding a 1.0% unfavorable impact of foreign exchange compared to the third quarter of 2013, the sales increase reflects higher volumes (4.8%). Pricing was flat compared to the third quarter last year. Most of the Company's product categories were higher quarter over quarter with certain branded APIs and controlled substances driving most of the growth. Also contributing to the increase in sales is the inclusion of Zenara's results in the Company's consolidated financial statements subsequent to the purchase of the remaining shares in Zenara during the second quarter. Zenara's sales were \$1,986 in the third quarter of 2014.

The following table reflects sales by geographic area for the third quarters of 2014 and 2013:

	Third quarter	
	2014	2013
Europe	\$49,232	\$52,235
North America	26,821	20,108
Asia	2,742	3,682
Other	2,350	1,967
Total gross sales	\$81,145	\$77,992

Gross margins in the third quarter of 2014 increased to 35.0% from 32.0% in the third quarter of 2013. Foreign currency positively impacted margins 1.6% in the third quarter of 2014. This increase was primarily due to a favorable mix of products and improved production efficiencies. Third quarter 2014 margins also benefited from the receipt of \$1,900 from a business interruption insurance claim that covered 2014 and part of 2013. Gross profit in the third quarter of 2014 was \$28,406 compared to \$24,966 in the same period last year.

Selling, general and administrative ("SG&A") expenses of \$12,541 in the third quarter of 2014 increased compared to \$11,128 in the third quarter of 2013. The increase is mainly due to higher personnel expenses (approximately \$1,100). SG&A as a percentage of gross sales was 15.5% and 14.3% in the third quarters of 2014 and 2013, respectively.

Table of Contents

Results of Operations (continued)

Comparison of Third Quarter 2014 versus Third Quarter 2013 (continued)

Research and development (“R&D”) expenses of \$3,839 were 4.7% of gross sales in the third quarter of 2014, compared to \$2,588 or 3.3% of gross sales in the third quarter of 2013. The increase is primarily related to increased personnel costs.

Operating profit in the third quarter of 2014 was \$12,026 compared to \$11,250 in the third quarter of 2013. The increase in operating profit is due to higher gross profit partially offset by higher operating expenses as described above.

Net interest expense was \$570 in the third quarter of 2014 compared to \$664 in the third quarter of 2013. The decrease is a result of lower outstanding debt in the third quarter of 2014 compared to the third quarter of 2013. The average interest rate on debt was 2.4% in the third quarter of 2014 versus 2.2% in the third quarter of 2013.

Equity in losses of partially-owned affiliates was \$508 in the third quarter of 2013 reflecting the Company’s portion of Zenara’s losses. Zenara’s results for the third quarter of 2014 are included in the Company’s consolidated financial statements.

The tax provision from continuing operations in the third quarter of 2014 was expense of \$2,537 compared to \$3,799 in the third quarter of 2013. The effective tax rate for the third quarter of 2014 included a benefit of \$824 for a partial reversal of a deferred tax valuation allowance against domestic federal foreign tax credits. Excluding the benefit related to the reversal of the deferred tax valuation allowance, the effective tax rate in the third quarter of 2014 was 29.4% compared to 37.7% in the third quarter of 2013. The Company had previously reduced the valuation allowance against foreign tax credits by \$14,359 in 2014 due to updated customer projections. Additionally, approximately \$2,000 of valuation allowance will be released in the fourth quarter of 2014 due to these updated customer projections, after which approximately \$10,000 of valuation allowance will remain against foreign tax credits. The Company continues to assess the need for a valuation allowance against a portion of its remaining foreign tax credits. It is possible that new customer business or other changes in the amount or type of future U.S. taxable income could result in the release in future periods of some portion of additional domestic valuation allowance attributable to these remaining foreign tax credits before they expire, or the establishment of a reserve against certain foreign tax credits for which the Company has no current reserves. The Company has approximately \$8,000, \$13,000 and \$4,000 of foreign tax credits expiring in 2015, 2016 and 2018 respectively.

In 2009, a subsidiary of the Company was examined by a European tax authority, which challenged the business purpose of the deductibility of certain intercompany transactions from 2003 and issued formal assessments against the subsidiary. In 2010, the Company filed to litigate the matter. Although the Company has had several favorable rulings in the courts, they have been appealed or are subject to appeal. For the three months ended September 30, 2014, the Company decreased its reserve for unrecognized tax benefits for this matter by \$480 mostly due to foreign currency translation. Any ruling reached by any of the courts may be subject to further appeals, and as such the final date of resolution of this matter is uncertain at this time. However, within the next twelve months it is possible that factors such as new developments, settlements or judgments may require the Company to increase its reserve for unrecognized tax benefits by up to approximately \$8,000 or decrease its reserve by approximately \$6,100, including penalties and interest. If the court rules against the Company in subsequent court proceedings, a payment for the amount of the judgment, including any penalties and interest, will be due immediately while the case is appealed. The Company has analyzed these issues in accordance with guidance on uncertain tax positions and believes at this time that its reserves are adequate, and intends to vigorously defend itself.

Table of ContentsResults of Operations (continued)

Comparison of Third Quarter 2014 versus Third Quarter 2013 (continued)

Income from continuing operations in the third quarter of 2014 was \$8,882, or \$0.28 per diluted share, versus \$6,274, or \$0.20 per diluted share in the same period a year ago.

Comparison of First Nine Months of 2014 versus First Nine Months of 2013

Gross sales in the first nine months of 2014 of \$245,309 were \$31,108 or 14.5% higher than the first nine months of 2013. Excluding a 0.2% favorable impact of foreign exchange compared to the first nine months of 2013, sales increased 14.3% primarily due to higher sales volume (15.0%) partially offset by lower pricing (0.7%). The change is due to increases in most product categories with particularly strong demand for certain branded APIs and controlled substances. Also contributing to the increase in sales is the inclusion of Zenara's results in the Company's consolidated financial statements subsequent to the purchase of the remaining shares in Zenara. Zenara's sales were \$2,915 subsequent to the purchase.

The following table reflects sales by geographic area for the first nine months of 2014 and 2013:

	First nine months	
	2014	2013
Europe	\$ 141,368	\$ 136,708
North America	86,553	62,360
Asia	10,246	10,419
Other	7,142	4,714
Total gross sales	\$ 245,309	\$ 214,201

Gross margins in the first nine months of 2014 decreased to 32.0% from 32.2% in the first nine months of 2013. Excluding a favorable impact from foreign currency, margins in the first nine months of 2014 were 31.7%. Gross margins were negatively impacted by higher production costs and lower pricing partially offset by favorable product mix. Gross profit in the first nine months of 2014 was \$78,399 compared to \$68,966 in the same period last year.

SG&A expenses were \$38,734 in the first nine months of 2014 compared to \$32,854 in the first nine months of 2013. The increase is mainly due to higher personnel (approximately \$4,100) and medical expenses (approximately \$700) as well as higher spending on costs related to completing the transaction to purchase the remaining shares in Zenara (approximately \$500) and expenses related to due diligence on various acquisition opportunities (approximately \$700). SG&A as a percentage of gross sales was 15.8% and 15.3% in the first nine months of 2014 and 2013, respectively.

Table of Contents

Results of Operations (continued)

Comparison of First Nine Months of 2014 versus First Nine Months of 2013 (continued)

R&D expenses of \$9,945 were 4.1% of gross sales in the first nine months of 2014, compared to \$7,547 or 3.5% of gross sales in the first nine months of 2013. The increase is primarily related to increased personnel costs primarily to facilitate the development of a higher number of generic and controlled substance APIs.

Operating profit in the first nine months of 2014 was \$29,720 compared to \$33,245 in the first nine months of 2013. The decrease in operating profit is primarily due to a benefit related to a gain on sale of an office building of \$4,680 in the first quarter of 2013 and higher operating expenses partially offset by higher gross profit.

Net interest expense was \$1,635 in the first nine months of 2014 compared to \$1,647 in the first nine months of 2013. The decrease is a result of lower outstanding debt in the first nine months of 2014 compared to the first nine months of 2013. The average interest rate on debt was 2.4% in the first nine months of both 2014 and 2013.

Equity in losses of partially-owned affiliates was \$4,618 and \$1,657 in the first nine months of 2014 and 2013, respectively, primarily representing Zenara's results. The first nine months of 2014 and 2013 also includes a loss of \$38 and \$174, respectively, related to investments in European and Brazilian joint ventures. The Company's portion of Zenara's loss, prior to the purchase of the remaining shares, for the first nine months of 2014 and 2013 was \$458 and \$1,483, respectively. These amounts include amortization expense of \$333 and \$675 for the first nine months of 2014 and 2013, respectively. In addition, the first nine months of 2014 includes a loss of \$4,122 related to the purchase of the remaining shares in Zenara.

The tax provision from continuing operations in the first nine months of 2014 was a benefit of \$6,424 compared to expense of \$9,095 in the first nine months of 2013. The effective tax rate for the first nine months of 2013 included a benefit due to changes in tax laws of approximately \$1,300 and the impact of the sale of an office building. The effective tax rate for the first nine months of 2014 included a benefit of \$15,183 for a partial reversal of a deferred tax valuation allowance against domestic federal foreign tax credits. Excluding the benefit related to the reversal of the deferred tax valuation allowance and the loss on the Zenara transaction of \$4,122, the effective tax rate for the first nine months of 2014 was 31.8% compared to 30.4% in the first nine months of 2013. The Company had previously reduced the valuation allowance against foreign tax credits by \$14,359 in 2014 due to updated customer projections. Additionally, approximately \$2,000 of valuation allowance will be released in the fourth quarter of 2014 due to these updated customer projections, after which approximately \$10,000 of valuation allowance will remain against foreign tax credits. The Company continues to assess the need for a valuation allowance against a portion of its remaining foreign tax credits. It is possible that new customer business or other changes in the amount or type of future U.S. taxable income could result in the release in future periods of some portion of additional domestic valuation allowance attributable to these remaining foreign tax credits before they expire, or the establishment of a reserve against certain foreign tax credits for which the Company has no current reserves. The Company has approximately \$8,000, \$13,000 and \$4,000 of foreign tax credits expiring in 2015, 2016 and 2018 respectively.

Table of Contents

Results of Operations (continued)

Comparison of First Nine Months of 2014 versus First Nine Months of 2013 (continued)

In 2009, a subsidiary of the Company was examined by a European tax authority, which challenged the business purpose of the deductibility of certain intercompany transactions from 2003 and issued formal assessments against the subsidiary. In 2010, the Company filed to litigate the matter. Although the Company has had several favorable rulings in the courts, they have been appealed or are subject to appeal. For the nine months ended September 30, 2014, the Company decreased its reserve for unrecognized tax benefits for this matter by \$326 due to a decrease of \$581 of foreign currency translation partially offset by an increase to the reserve of \$255. Any ruling reached by any of the courts may be subject to further appeals, and as such the final date of resolution of this matter is uncertain at this time. However, within the next twelve months it is possible that factors such as new developments, settlements or judgments may require the Company to increase its reserve for unrecognized tax benefits by up to approximately \$8,000 or decrease its reserve by approximately \$6,100, including penalties and interest. If the court rules against the Company in subsequent court proceedings, a payment for the amount of the judgment, including any penalties and interest, will be due immediately while the case is appealed. The Company has analyzed these issues in accordance with guidance on uncertain tax positions and believes at this time that its reserves are adequate, and intends to vigorously defend itself.

Income from continuing operations in the first nine months of 2014 was \$29,875, or \$0.95 per diluted share, versus \$20,835, or \$0.67 per diluted share, in the same period a year ago.

Liquidity and Capital Resources

During the first nine months of 2014, cash provided by operations was \$41,371 versus \$6,139 in the same period a year ago. This increase was primarily due to collections of accounts receivable, higher net income and improved working capital management.

Cash flows used in investing activities in the first nine months of 2014 mostly related to capital expenditures of \$18,094 compared to \$44,207 in 2013. Funds used in the first nine months of 2014 were mainly used for capital improvements to existing facilities and to increase production capacity. The majority of the funds in 2013 were used for expansion of the Company's large scale manufacturing capacity to support expected growth.

Cash flows used in financing activities in the first nine months of 2014 were \$15,295 compared to \$38,378 provided by financing activities in the same period a year ago. The cash flows in 2014 were used mainly to pay down the Company's debt. Net borrowings under the Company's credit facility in 2013 were primarily used to fund the Company's short term working capital needs and capital projects to expand manufacturing capacity.

The Company believes that cash flows from operations, along with funds available from the revolving line of credit, will be adequate to meet the operational and debt servicing needs of the Company for the foreseeable future.

The Company's forecasted cash flow from future operations may be adversely affected by various factors including, but not limited to, declines in customer demand, increased competition, the deterioration in general economic and business conditions, increased environmental remediation, returns on assets within the Company's domestic pension plans, as well as other factors. See the "Risk Factors" section of the Company's Annual Report on Form 10-K for the period ended December 31, 2013 for further explanation of factors that may negatively impact the Company's cash flows.

Any change in the current status of these factors could adversely impact the Company's ability to fund operating cash flow requirements.

Table of Contents

Impact of Recent Accounting Pronouncements

Revenue from Contracts with Customers

In May 2014, the FASB issued ASU 2014-09 that introduces a new five-step revenue recognition model in which an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. This ASU also requires disclosures sufficient to enable users to understand the nature, amount, timing, and uncertainty of revenue and cash flows arising from contracts with customers, including qualitative and quantitative disclosures about contracts with customers, significant judgments and changes in judgments, and assets recognized from the costs to obtain or fulfill a contract. This standard is effective for fiscal years beginning after December 15, 2016, including interim periods within that reporting period. The Company is currently evaluating the new guidance to determine the impact, if any, it will have on its consolidated financial statements.

Reporting Discontinued Operations and Disclosures of Disposals of Components of an Entity

In April 2014, the FASB issued ASU 2014-08, which includes amendments that change the requirements for reporting discontinued operations and require additional disclosures about discontinued operations. Under the new guidance, only disposals representing a strategic shift in operations - that is, a major effect on the organization's operations and financial results should be presented as discontinued operations. Additionally, the ASU requires expanded disclosures about discontinued operations that will provide financial statement users with more information about the assets, liabilities, income and expenses of discontinued operations. This update is effective in the first quarter of 2015. This pronouncement will not have an impact on the Company's financial position or results of operations.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

There has been no significant change in the Company's exposure to market risk during the first nine months of 2014. For a discussion of the Company's exposure to market risk, refer to Part II, Item 7A, "Quantitative and Qualitative Disclosures about Market Risk," contained in the Company's Annual Report on Form 10-K for the period ended December 31, 2013.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

As required by Rule 13a-15(b) under the Securities Exchange Act of 1934 (the "Exchange Act"), the Company carried out an evaluation, under the supervision and with the participation of management, including the Company's Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of the Company's disclosure controls and procedures as of the end of the period covered by this Form 10-Q. Based on this evaluation, our Chief Executive Officer and Chief Financial Officer have concluded that, as of the end of such period, our disclosure controls and procedures are effective to ensure that information required to be disclosed by us in the reports that we file or submit under the Exchange Act is (i) recorded, processed, summarized and reported, within the time periods specified in the SEC's rules and forms and (ii) accumulated and communicated to management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure.
