3 Cautionary Note Regarding Forward-Looking Statements This presentation may contain “forward-looking statements” within the meaning of the U.S. Private Securities Litigation Reform Act of 1995. Any statements that are not historical facts, including statements about our expectations, beliefs, plans, strategies, predictions, forecasts, objectives, or assumptions of future events or performance, may be forward-looking. These statements are often, but not always, made through the use of words or phrases such as “anticipates,” “believes,” “expects,” “can,” “could,” “may,” “pre,” “potential,” “opportunity,” “should,” “will,” “estimate,” “plans,” “projects,” “continuing,” “ongoing,” “expects,” “seeks,” “inte” words or phrases. Accordingly, these statements involve estimates, known and unknown risks, assumptions, and uncertainties that could cause actual strategies, actions, or results to differ materially from those expressed in them, and are not guarantees of timing, future results, events, or performance. Because forward-looking statements are necessarily only estimates of future strategies, actions, or results, based on management’s current expectations, assumptions, and estimates on the date hereof, there can be no assurance that actual strategies, actions or results will not differ materially from expectations. Therefore, readers are cautioned not to place undue reliance on such statements. Factors that could cause or contribute to such differences are changes in general economic, political or industry conditions; changes in monetary and fiscal policies, including the interest rate policies of the Federal Reserve Board; volatility and disruptions in capital and credit markets; the interdependence of financial service companies; changes in regulation or oversight; unfavorable developments concerning credit quality; any future acquisitions or divestitures; the effects of more stringent capital or liquidity requirements; declines or other changes in the businesses or industries of Independent Bank Corporation's customers; the implementation of Independent Bank Corporation's strategies and business models; Independent Bank Corporation's ability to utilize technology to efficiently and effectively develop, market and deliver new products and services; operational difficulties, failure of technology infrastructure or information security incidents; changes in the financial markets, including fluctuations in interest rates and their impact on deposit pricing; competitive product and pricing pressures among financial institutions within Independent Bank Corporation's markets; changes in customer behavior; management's ability to maintain and expand customer relationships; management's ability to retain key officers and employees; the impact of legal and regulatory proceedings or determinations; the effectiveness of methods of reducing risk exposures; the effects of terrorist activities and other hostilities; the effects of catastrophic events; changes in accounting standards and the critical nature of Independent Bank Corporation's accounting policies. In addition, factors that may cause actual results to differ from expectations regarding the pending acquisition of TCSB Bancorp, Inc. include, but are not limited to, the reaction to the transaction of customers, employees and counterparties; customer disintermediation; inflation; expected synergies, cost savings and other financial benefits of the proposed transaction might not be realized within the expected timeframes or might be less than projected; the requisite shareholder and regulatory approvals for the proposed transaction might not be obtained; credit and interest rate risks associated with the parties' respective businesses, customers, borrowings, repayment, investment, and deposit practices; general economic conditions, either nationally or in the market areas in which the parties operate or anticipate doing business, are less favorable than expected; new regulatory or legal requirements or obligations; and other risks. Certain risks and important factors that could affect Independent Bank Corporation's future results are identified in its Annual Report on Form 10-K for the year ended December 31, 2016 and other reports filed with the SEC, including among other things under the heading “Risk Factors” in such Annual Report on Form 10-K. Any forward-looking statement speaks only as of the date on which it is made, and Independent Bank Corporation undertakes no obligation to update any forward-looking statement, whether to reflect events or circumstances after the date on which the statement is made, to reflect new information or the occurrence of unanticipated events, or otherwise.

6 4Q 2017 Financial Highlights Income Statement Net income of \$1.7 million, or \$0.08 per diluted share. Additional income tax expense of \$5.96 million (or \$0.28 per diluted share) due to net deferred tax assets (DTA) revaluation. Net interest income of \$23.3 million, up \$3.1 million, or 15.1%, from the year ago quarter. \$0.4 million loan loss provision expense (compared to an expense of \$0.1 million in year ago quarter). Provision expense driven primarily by portfolio loan growth. Service charges on deposits and interchange income essentially unchanged year-over year. Gains on mortgage loans of \$2.9 million, up slightly from the year ago quarter. Higher mortgage loan origination and sales volume was offset by a lower margin. Balance Sheet/Capital Total portfolio loans grew \$81.7 million, or 16.7% annualized. Continued improvement in asset quality metrics with NPAs down 6.9% in 4Q'17. Deposits totaled \$2.40 billion at 12/31/17 compared to \$2.23 billion at 12/31/16. Year-over-year growth of \$99.5 million, or 5.7%, in checking and savings account deposit balances. No share repurchases during 2017. New 2018 share repurchase plan authorized for up to 5% of outstanding shares. TBV per share decreased to \$12.34 at 12/31/17 from \$12.47 at 09/30/17. Paid a 12 cent per share cash dividend on common stock on 11/15/17. 12/4/17 announcement of agreement to acquire TCSB Bancorp, Inc., the parent company of Traverse City State Bank.

12 Strong Capital Position Focused on Shareholder Return Highlights Prudent capital management. Target TCE ratio – 8.50% to 9.50%. Priorities are: (A) capital retention to support (1) organic growth and (2) acquisitions; and (B) return of capital through (1) strong and consistent dividend and (2) share repurchases. 2018 share repurchase plan approved for up to 5% of outstanding common shares. During 2017 no shares were repurchased. During 2015 and 2016, 2.12 million shares were repurchased. Bank retained earnings returned to a positive figure in 3Q'16 permitting resumption of quarterly dividends to parent company (\$21.0 million of cash dividends have been paid since October 2016). Bank retained earnings were a positive \$17.4 million at 12/31/17. Quarterly cash dividend rate increased by 25% to \$0.15 per share effective 2/15/18. Goals of 1% ROA or better and 10% ROE or better. Note: ROA and ROE represent a four quarter rolling average. ROA, ROE and TCE Ratio Note: Q4'17 ROA and ROE calculations exclude the impact of the \$5.96 million revaluation of net deferred tax assets.

13 Net Interest Margin/Income Highlights Interest rate sensitivity profile of the loan and securities portfolios, in combination with a low cost core deposit base, positions us to slightly benefit from a rising interest rate environment. Net interest income increased 1.8% in 4Q'17 vs. 3Q'17 due primarily to a \$52.7 million increase in average interest-earning assets partially offset by a 1 basis point decrease in the net interest margin. Original 2017 goal was to grow net interest income by approximately 3% over 2016 as average loans increase (partially offset by sale of payment plan receivables). Actual full year 2017 net interest income to grow by 12.0% over 2016. Starting to see some pressure on deposit rates due to the 0.25% bumps in the target federal funds rate in March, June and December 2017 and December 2016. Net Interest Margin (TE)(%) Net Interest Income (\$ in Millions)

14 Net Interest Income and Net Interest Margin Details Summary 4Q'17 net interest income of \$23.316 million, up \$0.404 million from 3Q'17. The linked quarter increase was due to a \$0.812 million increase in interest income and fees on loans. This was partially offset by a \$0.157 million decrease in interest income on securities and investments and a \$0.251 million increase in interest expense on deposits and borrowings. The increase in interest income and fees on loans was due to an increase in average balance that was partially offset by a decrease in the average yield and a decrease in interest recoveries (net) on previously charged-off or non-accrual loans of \$87K (this reduced overall net interest margin [NIM] by 1 basis point [bp]). The tax equivalent net interest margin (NIM) decreased 1 bp (3.65% vs. 3.66%) as a 2 bp increase in the yield on interest earning assets was offset by a 3 bp increase in the cost of funds (interest expense as a percentage of average interest-earning assets). Average yield on new/renewed commercial loans was 4.66% on fixed rate (35.2% of production) and 4.57% on variable rate (64.8% of production), 4Q'17 volume of \$112.7 million with an estimated average duration of 1.7 years. Average yield on new retail loans (mortgage and consumer installment) was 4.19%, 4Q'17 volume of \$149.6 million with an estimated average duration of 4.2 years. Loan Portfolio Details Commercial loans: Interest income increased \$10K due to a \$7.3 million increase in the average balance that was partially offset by a 4 bp decrease in the average yield (4.79% vs. 4.83%). Interest recoveries (net) decreased by \$50K, this decreased the average yield by 2 bp. Mortgage loans (includes loans held for sale): Interest income increased \$677K due to an \$83.3 million increase in the average balance that was partially offset by a 9 bp decrease in the average yield (4.15% vs. 4.24%). Interest recoveries (net) decreased by \$87K, this decreased the average yield by 4 bp. Consumer installment loans: Interest income increased \$125K due to a \$4.0 million increase in the average balance and a 10 bp increase in the average yield (4.64% vs. 4.54%). Interest recoveries (net) increased by \$50K, this increased the average yield by 6 bp. Other Factors Securities and investments: Interest income decreased \$157K due to a \$41.9 million decrease in average balance that was partially offset by an 8 bp increase in the average TE yield (2.58% vs. 2.50%). Deposits and borrowings: Interest expense increased \$251K due to a \$16.2 million increase in the average balance of interest-bearing liabilities and an 5 bp increase in the average cost of interest-bearing liabilities (0.64% vs. 0.59%). Analysis of Linked Quarter Increase

15 Non-interest Income Highlights  
Diverse sources of non-interest income which totaled \$11.4 million in 4Q'17. 4Q'17 total non-interest income represents approximately 32.9% of total revenue (net interest income and non-interest income). Service charges on deposits have recently stabilized after previous longer-term decline and were up by 2.2% YTD 2017 vs. 2016. 4Q'17 interchange revenue essentially unchanged compared to 4Q'16 and up by 1.1% YTD 2017 vs, 2016. 4Q'17 gains on mortgage loans totaled \$2.9 million, up \$0.04 million, or 1.3%, from 4Q'16, as higher volumes were largely offset by margin pressure. 4Q'17 mortgage loan servicing includes a \$0.159 million decline in fair value adjustment (\$0.515 million due to pay downs partially offset by \$0.356 million increase due to price). 4Q'16 included amortization of \$0.785 million and a recovery of previously recorded impairment charges on MSR's of \$2.442 million.

16 Non-interest Expense Highlights Q4'17 non-interest expenses totaled \$23.1 million (an increase from 3Q'17 and a decrease from 4Q'16). Q4'17 compensation and benefits increased by \$1.3 million over Q4'16 due primarily to higher incentive compensation and payroll taxes. 4Q'17 average FTEs up by 37.3 (4.6%) over 4Q'16, with much of the growth related to the mortgage banking expansion (partially offset by sale of payment plan business in May 2017). Efficiency ratio: 2017 – 69.2%; 2016 – 73.7%; 2015 – 77.2%; 2014 – 80.3%; and 2013 – 82.6%. Original target for 2017 was total non-interest expenses at \$21.6 million to \$22.7 million per quarter (with an average at \$21.9 million). 22 2017 Actual Performance vs. Original Outlook – Final Summary Category Outlook Lending Continued growthGoal of 10 to 11% overall loan growth in 2017, primarily supported by increases in commercial loans, mortgage loans and consumer loans. Expect much of this growth to occur in the last three quarters of 2017. This growth forecast also assumes a stable Michigan economy. 4Q'17 Update: Exceeded expectation. 4Q'17 annualized loan growth of 16.7%. Full year 2017 loan growth of 25.5%; portfolio loans totaled \$2.02 billion at 12/31/17. Net Interest Income Growth over 2016 despite sale of payment plan receivablesGoal of approximately 3% increase in net interest income (NII) over 2016. Pressure on the net interest margin expected to abate. Growth in NII in 2017 vs. 2016 due primarily to growth in loans as described above and somewhat higher short-term interest rates. Forecast assumes two 0.25% increases in the federal funds rate (one in mid 3Q'17 and one in early 4Q'17) and long-term rates up slightly over year end 2016 levels. 4Q'17 Update: Exceeded expectation. 4Q'17 NII increased by 15.1% over 4Q'16. Full year 2017 NII increased by 12.0% over 2016. Provision for Loan Losses Steady asset quality metricsVery difficult area to forecast. Future provision levels will be particularly sensitive to loan net charge-offs, watch credit levels, loan default volumes, and TDR portfolio performance as well as loan growth. The allowance as a percentage of total loans was at 1.26% at 12/31/16. Do not expect credit provision in 2017 due to portfolio loan growth and a decline in recoveries of previously charged-off loans. Quarterly provision (expense) for loan losses of \$500K to \$600K would not be unreasonable. 4Q'17 Update: \$0.4 million loan loss provision expense driven primarily by loan growth. Strong asset quality metrics throughout 2017. Non-interest Income Forecasted quarterly range of \$10.8 million to \$11.7 million with total for year up by approximately \$2.4 million vs. 2016Expect mortgage-banking revenues and mortgage lending volumes in 2017 to be higher than 2016. Expect service charges on deposits and interchange income in 2017 to be generally comparable to 2016. 4Q'17 Update: Actual non-interest income of \$11.4 million in 4Q'17 was within forecasted range. Lower than expected net gains on mortgage loans due primarily to margin pressure and fair value changes (declines in loans held for sale and commitments to originate loans). However, 4Q'17 included \$0.36 million fair value increase in MSR's due to price and \$0.20 million of securities net gains. Non-interest Expense Forecasted quarterly range of \$21.6 to \$22.7 million with total for the year down by approximately \$2.8 million vs. 2016The expected decrease in non-interest expenses is primarily due to the elimination of \$2.6 million of litigation expense and loss on sale of Mepco assets that were incurred in 2016. Decline in expenses associated with the sale of the payment plan processing business (Mepco) is expected to be somewhat offset by higher expenses related to the expansion of mortgage banking operations. 4Q'17 Update: Actual non-interest expenses of \$23.1 million (slightly above high end of forecasted range). Full year 2017 non-interest expenses totaled \$92.1 million as compared to \$90.3 million in 2016. Income Taxes Approximately 32% to 32.5% in 2017. This assumes no changes in corporate income tax rates or rules during 2017. 4Q'17 Update: 31.7% effective income tax rate (31.2% for all of 2017) when excluding impact of net deferred tax asset revaluation (\$5.96 million).

---

23 2018 Initial Outlook Category Outlook Lending Continued growth IBCP only goal of 15 to 18% overall loan growth in 2018, primarily supported by increases in commercial loans, mortgage loans and consumer loans. Expect much of this growth to occur in the last three quarters of 2018. This growth forecast also assumes a stable Michigan economy. Comments: TCSB total loans projected to reach \$310 million to \$320 million by year end 2018 (as compared to \$290 million at 12/31/17). Net Interest Income Growth driven primarily by higher portfolio loan balances, expect total deposits (IBCP only, excluding brokered) to be relatively flat in 2018 IBCP only goal of approximately 10% to 11% increase in net interest income (NII) over 2017. Expect the net interest margin to be relatively stable. Forecast assumes two 0.25% increases in the federal funds rate (one in March 2018 and one in September 2018) and long-term rates up slightly over year end 2017 levels. Comments: TCSB expected to add approximately \$3.5 million to \$3.7 million per quarter. Provision for Loan Losses Steady asset quality metrics Very difficult area to forecast. Future provision levels will be particularly sensitive to loan net charge-offs, watch credit levels, loan default volumes, and TDR portfolio performance as well as loan growth. The allowance as a percentage of total loans was at 1.12% at 12/31/17. Do not expect credit provision in 2018 due to portfolio loan growth and a decline in recoveries of previously charged-off loans. Quarterly provision (expense) for loan losses averaging approximately \$1.25 million (IBCP only) would not be unreasonable. Comments: TCSB expected to add approximately \$0.2 million per quarter. Non-interest Income IBCP only - forecasted quarterly range of \$9.8 million to \$10.9 million with total for year comparable to 2017 (excluding securities net gains or losses) Expect mortgage-banking revenues and mortgage lending volumes in 2018 to be comparable to 2017. Expect service charges on deposits and interchange income in 2018 to be generally comparable to 2017. Comments: TCSB expected to add about \$0.8 million per quarter. Non-interest Expenses IBCP only - forecasted quarterly range of \$22.8 to \$23.6 million with total for the year up slightly (under 1%) vs. 2017 No significant changes in any particular line item expected in 2018 vs. 2017 Comments: Excluding merger related expenses, TCSB expected to add approximately \$7 million to non-interest expenses for all of 2018 (assuming 4/1/18 merger date), with distribution of approximately \$3 million, \$2 million, and \$2 million in 2Q, 3Q and 4Q 2018, respectively, as cost saves are implemented. Expect \$1.8 to \$2.0 million of merger related expenses primarily in 2Q'18. Income Taxes Approximately 19% to 20% effective tax rate in 2018. This assumes a 21% statutory federal corporate income tax rate during 2018. Comments: TCSB acquisition does not have any material impact on the projected effective tax rate.

24 Strategic Initiatives Balance SheetGenerate quality loan growth with continued focus on commercial and consumer installment lending as well as salable and portfolio mortgage loans.Remain slightly asset sensitive and positioned to benefit from higher interest rates (short duration investment portfolio, large variable rate loan portfolio and strong core deposit base with a significant amount of small to medium balance transaction accounts). Income StatementGenerate increased net interest income through change in earning asset mix (increased loans to deposits ratio and reduced level of investment securities).Increase non-interest income with focus on transaction related revenue (treasury management and debit card) and mortgage banking revenue.Continued selective reductions in certain non-interest expenses (credit related costs, branch optimization, process re-engineering and outsourcing). However, now expect growth in compensation and employee benefits expense and in occupancy expense due to expanded mortgage-banking operations.Improved efficiency ratio: Mid 60% range near-term and low 60% range longer-term. Achieve improvements primarily through revenue growth.Enterprise Risk ManagementWell managed approach to lending with sound underwriting.Meet increased compliance and regulatory requirements.Focus on data security and loss prevention.TCSB Bancorp, Inc.Successful integration of Traverse City State Bank (customers and associates).
