Notes to Financial Statements

Three months ended September 30, 2006 and 2005 (Unaudited)

1. The balance sheet as of September 30, 2006 and the related statements of operations for the three month periods ended September 30, 2006 and 2005 have been prepared by clickNsettle.com, Inc. without audit. In the opinion of management, all adjustments necessary to present fairly the financial statements as of September 30, 2006 and for the periods presented, consisting of normal recurring adjustments, have been made. Results of operations for the three month period ended September 30, 2006 are not necessarily indicative of the operating results expected for the full year.

These financial statements should be read in conjunction with the financial statements and notes thereto for the year ended June 30, 2006 included in the Company's Annual Report on Form 10-KSB. The accounting policies used in preparing these financial statements are the same as those described in the June 30, 2006 financial statements.

As a result of continued losses, limited cash and other resources and the uncertainty as to the Company's ability to effect a merger or a similar transaction with the intent to acquire a different operating business (see Note 2), there is substantial doubt about the Company's ability to continue as a going concern. The Company's independent auditors have included a going concern paragraph in their report on the June 30, 2006 and 2005 financial statements which have been prepared assuming the Company will continue as a going concern. The accompanying financial statements do not include any adjustments that may result should the Company be unable to continue as a going concern.

2. On January 13, 2005, the Company sold the assets of its dispute resolution business (the "ADR business") to National Arbitration and Mediation, Inc. (the "Buyer"), a company owned by the Company's Chief Executive Officer, Roy Israel. In consideration, the Buyer assumed all current and future liabilities and commitments of the ADR business. Specifically, the Company was released from its

Edgar Filing: CLICKNSETTLE COM INC - Form 10QSB

lease agreements for office space in Great Neck and Brooklyn, New York and from its employment agreements with its President and Chief Financial Officer. Additionally, the Buyer has guaranteed the payments due on the remainder of the Company's automobile lease and paid all the remaining payments on the lease of a postage meter. The Company remained contingently liable for payables and other obligations assumed by the Buyer of approximately \$115,200 as of September 30, 2006.

Since the consummation of the sale, the Company has no operating business. Currently, the Company is actively searching for a new operating business to acquire or to enter into a merger transaction. There can be no assurances that an operating entity will be acquired or that a merger transaction will be consummated.

3. Basic earnings (loss) per share are based on the weighted average number of common shares outstanding without consideration of potential common stock. Diluted earnings (loss) per share are based on the weighted-average number of common and potential common shares outstanding. The calculation takes into account the shares that may be issued upon exercise of stock options and warrants, reduced by the shares that may be repurchased with the funds received from the exercise, based on the average price during the period. Diluted earnings (loss) per share is the same as basic earnings (loss) per share as potential common shares of 433,974 and 448,974 at September 30, 2006 and 2005, respectively, would be antidilutive, as the Company incurred net losses for the three month periods ended September 30, 2006 and 2005.

7

4. In December 2004, the FASB issued Statement of Financial Accounting Standard No. 123 (R), "Share-based Payment" ("SFAS No. 123R"). SFAS No. 123 (R) establishes standards for the accounting for transactions in which an entity exchanges its equity instruments for goods or services. This statement focuses primarily on accounting for transactions in which an entity obtains employee services in share-based payment transactions. SFAS No. 123 (R) requires that the fair value of such equity instruments be recognized as an expense in the historical financial statements as services are performed. Prior to SFAS No. 123 (R), only certain pro forma disclosures of fair value were required. The Company adopted SFAS No. 123 (R) as of July 1, 2006. The adoption of this statement did not have a material impact on the financial statements of the Company as the Company has not issued any stock options since June 30, 2004. Additionally, the Company's Incentive and Nonqualified Stock Option Plan automatically terminated on April 1, 2006 and therefore no additional options may be issued pursuant to this Plan.

5. There are no items of comprehensive income (loss) other than net income (loss).

Item 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

From time to time, including in this quarterly report on Form 10-QSB, clickNsettle.com, Inc. (the "Company" or "we") may publish forward-looking statements relating to such matters as anticipated financial performance, business prospects, future operations, new products, research and development activities and similar matters. The Private Securities Litigation Reform Act of 1995 provides a safe harbor for forward-looking statements. In order to comply with the terms of the safe harbor, we note that a variety of factors could cause our actual results to differ materially from the anticipated results or other

Edgar Filing: CLICKNSEATTLE COM INC - Form 10QSB

expectations expressed in our forward-looking statements.

RISK FACTORS

We face risks. These risks include those described below and may include additional risks of which we are not currently aware or which we currently do not believe are material. If any of the events or circumstances described in the following risks actually occur, our financial condition or results of operations could be adversely affected. These risks should be read in conjunction with the other information set forth in this report.

We do Not have an Operating Business and if the Company Acquires a New Business, the Shareholders will Suffer Significant Dilution

On January 13, 2005, the Company sold its ADR business. The Company is searching for an operating entity to acquire or to enter into a merger transaction. There can be no assurances that an operating entity will be acquired or that a merger transaction will be consummated. Also, the cash retained by the Company may not be sufficient to pay for the costs associated with continued public reporting obligations and to acquire a new operating business or to enter into a merger transaction. In addition, if the Company acquires a new operating business or enters into a merger transaction, it is expected that such transaction will be accomplished by the issuance of stock of the Company, resulting in significant dilution.

8

We have No Revenues but we Continue to have Costs and Expenses and we have Going Concern Considerations

There has not been any revenue since January 13, 2005. If we do not acquire another operating business, no future revenues will be generated. Moreover, the Company will continue to incur costs for continued public reporting obligations. It is likely that in order to acquire a new operating business or to enter into a merger transaction, costs will be incurred. There can be no assurances that the cash on hand will be sufficient to cover such costs. Therefore, the results of our operations and our financial condition may be materially and adversely affected.

The Company's independent auditors have included a going concern paragraph in their report on the June 30, 2006 and 2005 consolidated financial statements which have been prepared assuming the Company will continue as a going concern. As a result of continued losses, limited cash and other resources and the uncertainty as to the Company's ability to effect a merger or a similar transaction with the intent to acquire a different operating business, there is substantial doubt about the Company's ability to continue as a going concern.

Our Current Stockholders Have the Ability to Exert Significant Control

Our executive officers, directors, and their affiliates beneficially own 5,148,646 shares or approximately 51.85% of the common stock outstanding based on 9,929,212 shares of common stock outstanding as of November 9, 2006. Of that number, Mr. Israel, our CEO, beneficially owns 3,525,788 shares or approximately 35.5% of the common stock. As a result, these stockholders acting in concert may have significant influence on votes to elect or remove any or all of our directors and to control substantially all corporate activities in which we are involved, including tender offers, mergers, proxy contests or other purchases of common stock.

Our Common Stock is Traded on the NASD OTC Electronic Bulletin Board and is

Edgar Filing: CLICKNSEATTLE COM INC - Form 10QSB

subject to the Penny Stock Rules

Trading in our securities has been conducted in the over-the-counter market in the NASD's OTC Electronic Bulletin Board. As a result, an investor may find it more difficult to purchase, dispose of and obtain accurate quotations as to the value of our securities.

In addition, as the trading price of our common stock has been less than \$5.00 per share, trading in our common stock is also subject to the requirements of Rule 15c-9 under the Securities Exchange Act of 1934. Under that rule, broker/dealers who recommend such low-priced securities to persons other than established customers and accredited investors must satisfy special sales practice requirements, including (a) a requirement that they make an individualized written suitability determination for the purchaser and (b) receive the purchaser's written consent prior to the transaction.

The Securities Enforcement Remedies and Penny Stock Reform Act of 1990 also requires additional disclosure in connection with any trades involving a stock defined as a penny stock (generally, any equity security not traded on an exchange or quoted on The NASDAQ SmallCap Market that has a market price of less than \$5.00 per share), including the delivery, prior to any penny stock transaction, of a disclosure schedule explaining the penny stock market and the risks associated therewith. Such requirements could severely limit the market liquidity of our securities and the ability of stockholders to sell their securities in the secondary market.

9

RESULTS OF OPERATIONS

Overview

Since the consummation of the sale, the Company has no operating business. Currently, the Company is actively searching for a different operating business to acquire or to enter into a merger transaction. There can be no assurances that an operating entity will be acquired or that a merger transaction will be consummated.

Selection of a Business

The Company is now considering business opportunities either through merger or merger transactions that might create value for our stockholders. We have no day-to-day operations at the present time. The officers and directors of the Company devote limited time and attention to the affairs of the Company. The Company may have to wait some time before consummating a suitable transaction. The Company does not intend to restrict its consideration to any particular business or industry segment.

However, due to the Company's limited financial resources, the scope and number of suitable business venture candidates available is limited. The decision to participate in a specific business opportunity will be made upon management's analysis of the quality of the other firm's management and personnel, the anticipated acceptability of its products or marketing concepts, the merits of its technology and numerous other factors. Since the Company may participate in a business opportunity with a newly organized business or with a business which is entering a new phase of growth, the Company may incur risk due to the failure of the target's management to be effective or the failure to establish a market for the target's products or services or the failure to realize profits.

Edgar Filing: CLICKNSEATTLE COM INC - Form 10QSB

Acquisition of a Business

With respect to any mergers or acquisitions, negotiations with target company management will be expected to focus on the percentage of the Company that target company stockholders would acquire in exchange for their stockholdings in the target company. Depending upon, among other things, the target company's assets and liabilities, the Company's stockholders will in all likelihood hold a substantially lesser percentage ownership interest in the Company following any merger or acquisition. The percentage ownership may be subject to significant reduction in the event that the Company acquires a target company with substantial assets. Typically, in these transactions, which are commonly called reverse merger acquisitions, voting control of the merged company changes from the stockholders of the pre-existing public company to those of the previously privately owned company. Any merger or acquisition effected by the Company can be expected to have a significant dilutive effect on the percentage of shares held by the Company's stockholders immediately preceding the transaction.

First Quarter Ended September 30, 2006 Compared to First Quarter Ended September 30, 2005

General and administrative expenses. General and administrative expenses declined to \$26,392 for the three months ended September 30, 2006 from \$40,853 for the three months ended September 30, 2005. In general, the Company incurred such expenses in order to maintain its existence as a publicly traded entity including its public reporting obligations even though no revenues are being generated. Such expenses include insurance, audit, legal fees and the cost of accounting services that were contributed by National Arbitration and Mediation, Inc. ("the Buyer") pursuant to the purchase agreement. Such accounting services, valued at \$7,800 for the quarter ended September 30, 2006 and \$20,000 for the quarter ended September 30, 2005, were performed from July 1 through September 30 of each respective year and included the preparation of the annual financial statements and related Securities and Exchange Commission (the "SEC") filings. Such value has been recorded as an imputed charge on the statement of operations with an equivalent offset to additional paid-in capital. The cost of the accounting services declined as less time was spent in the current year period as the Company had pure shell operations as opposed to in the prior year period when the financial statements being issued at that time included operations and the sale of the ADR business.

10

Interest income, net. Net interest income remained relatively unchanged at \$1,318 for the quarter ended September 30, 2006 from \$1,398 for the quarter ended September 30, 2005.

Income Taxes. Tax benefits resulting from net losses incurred for the three months ended September 30, 2006 and 2005 were not recognized as the Company's annual effective tax rate was estimated to be 0%.

Net Loss. For the three months ended September 30, 2006, we had a net loss of \$25,074 as compared to a net loss of \$39,455 for the three months ended September 30, 2005. The loss decreased as the Company was able to secure reduced fees for professional services, etc., and reduced its insurance coverage as it no longer has an operating business.

Liquidity and Capital Resources

At September 30, 2006, the Company had a working capital surplus of

Edgar Filing: CLICKNSEATTLE COM INC - Form 10QSB

\$99,651 as compared to \$116,925 at June 30, 2006. The decrease in working capital occurred primarily as a result of the net loss. The Company has no operating business.

Net cash used in operating activities was \$21,217 for the three months ended September 30, 2006 versus \$482,189 for the three months ended September 30, 2005. Cash used in operations decreased by \$460,972 principally because, in the prior period, the Company paid down a large portion of the amount due to the Buyer of the ADR operations in August 2005.

In both periods, there was no net cash provided by/used by investing activities nor was there any net cash provided by/used by financing activities.

Since the consummation of the sale, the Company has no operating business. Currently, the Company is actively searching for a different operating business to acquire or to enter into a merger transaction. There can be no assurances that an operating entity will be acquired or that a merger transaction will be consummated.

As a result of continued losses, limited cash and other resources and the uncertainty as to the Company's ability to effect a merger or a similar transaction with the intent to acquire a different operating business, there is substantial doubt about the Company's ability to continue as a going concern. The Company's independent auditors have included a going concern paragraph in their report on the June 30, 2006 and 2005 consolidated financial statements which have been prepared assuming the Company will continue as a going concern. The accompanying consolidated financial statements do not include any adjustments that may result should the Company be unable to continue as a going concern.

11

Item 3. CONTROLS AND PROCEDURES

Our disclosure controls and procedures are designed to ensure that material information relating to the Company are made known to our Chief Executive Officer ("CEO"), Chief Financial Officer ("CFO") and others in the Company involved in the preparation of this quarterly report, by others within the Company. Our CEO and CFO have reviewed our disclosure controls and procedures within 90 days prior to the filing of this quarterly report and have concluded that they are effective. There were no significant changes in our internal controls or other factors that could significantly affect our internal controls subsequent to the last date they were reviewed by our CEO and CFO.
