### **FIRST UNITED CORPORATION** NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

June 30, 2008

#### Note A – Basis of Presentation

The accompanying unaudited consolidated financial statements of First United Corporation (the "Corporation") and its consolidated subsidiaries have been prepared in accordance with U.S. generally accepted accounting principles for interim financial information and with the instructions to Form 10-Q and Rule 10-01 of Regulation S-X. Accordingly, they do not include all the information and footnotes required for complete financial statements. In the opinion of management, all adjustments considered necessary for a fair presentation, consisting of normal recurring items, have been included. Operating results for the six-month and the three-month periods ended June 30, 2008 are not necessarily indicative of the results that may be expected for the full year or for any other interim period. These consolidated financial statements should be read in conjunction with the audited consolidated financial statements and notes thereto included in the Corporation's Annual Report on Form 10-K for the year ended December 31, 2007.

#### Note B – Earnings per Share

Earnings per share is computed by dividing net income by the weighted average number of shares of common stock outstanding. Common stock equivalents consist of unvested stock awards, which did not have a dilutive impact in the periods presented.

#### Note C – Investments

*Securities available-for-sale:* Securities classified as available-for-sale are stated at their fair value (See note D), with the unrealized gains and losses, net of tax, reported as a separate component of accumulated other comprehensive income (loss) in shareholders' equity. The fair values of investments are based upon information that is currently available and may not necessarily represent amounts that will ultimately be realized, which depends on future events and circumstances.

The amortized cost of debt securities classified as available-for-sale is adjusted for the amortization of premiums to the first call date, if applicable, or to maturity, and for the accretion of discounts to maturity, or in the case of mortgage-backed securities, over the estimated life of the security. Such amortization and accretion is included in interest income from investments. Interest and dividends are included in interest income from investments. Gains and losses on the sale of securities are recorded using the specific identification method.

*Securities held-to-maturity*: Securities currently classified as held-to-maturity are those securities which the Company has the ability and positive intent to hold until maturity. Securities classified as held-to-maturity at the time of purchase are recorded at cost. The carrying values of securities held to maturity are adjusted for premium amortization to the earlier of the maturity or expected call date and discount accretion to the maturity date. Related interest and dividends are included in interest income from investments.

*Securities held for trading:* Securities that are held principally for resale in the near future are reported at their fair values as investment securities – trading, with changes in fair value reported in earnings. Interest and dividends on trading securities are included in interest income from investments.

Management systematically evaluates securities for impairment on a quarterly basis. Declines in the fair value of securities below their cost that are considered other than temporary declines are recognized in earnings as realized losses in the period in which the impairment determination is made. In estimating other-than-temporary impairment

losses, management considers (1) the length of time and the extent to which the fair value has been less than cost, (2) the financial condition and near-term prospects of the issuer, and (3) the intent and ability of the Corporation to retain its investment in the issuer for a period of time sufficient to allow for any anticipated recovery in fair value.

Federal Home Loan Bank stock is carried at cost, which approximates its redemption value.

The following table shows the Corporation's securities available-for-sale with gross unrealized losses and fair value, aggregated by investment category and length of time that individual securities have been in a continuous unrealized position, at June 30, 2008 and December 31, 2007 (in thousands):

	June 30, 2008								
		Less than	12 moi	nths		12 month	nore		
		Fair Unrealized			Fair	Unrealized			
		Value	Losses		Value			Losses	
U.S. government agencies	\$	47,862	\$	(1,352)			-	_	
Mortgage-backed securities		120,647		(2,973)	\$	198	\$	(5)	
Obligations of states and political									
subdivisions		50,067		(2,013)		3,548		(399)	
Corporate securities		20,891		(9,290)		29,421		(13,648)	
Other debt securities		3,991		(49)			-		
	\$	243,458	\$	(15,677)	\$	33,167	\$	(14,052)	

	December 31, 2007								
		Less than	12 mo	onths		12 months	s or m	ore	
	Fair		Fair Unrealized			Fair	Unrealized		
		Value Loss		Losses		Value	Losses		
Mortgage-backed securities	\$	1,251	\$	(2)	\$	889	\$	(14)	
Obligations of states and political									
subdivisions		24,103		(337)		22,681		(357)	
Corporate securities		36,679		(4,192)		23,035		(2,085)	
	\$	62,033	\$	(4,531)	\$	46,605	\$	(2,456)	

The Corporation does not believe any individual unrealized loss as of June 30, 2008 represents an other-than-temporary impairment. The unrealized losses on our investment securities are primarily attributable to factors such as credit quality, marketability, and liquidity. All of our investments in states and other political subdivisions are of the highest investment grade as determined by the major rating agencies. The total \$22.9 million in unrealized losses reported for corporate securities at June 30, 2008 relates to Preferred Term Securities (PreTSLs). Eighteen of these securities have a credit rating of A and seven have a rating of BBB. There have been no changes in credit ratings for these securities during the quarter. The Corporation has both the intent and ability to hold the impaired securities in its investment portfolio for the period of time necessary to recover its amortized cost.

### Note D – Fair Value

In September 2006, the Financial Accounting Standards Board (FASB) issued FASB Statement No. 157, "Fair Value Measurements" (SFAS 157), which defines fair value, establishes a framework for measuring fair value under GAAP and expands disclosures about fair value measurements. SFAS 157 applies to other accounting pronouncements that require or permit fair value measurements. The new guidance is effective for financial statements issued for fiscal years beginning after November 15, 2007, and for interim periods within those fiscal years. Effective January 1, 2008, the Corporation measures fair market values based on the fair value hierarchy established in SFAS 157. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of inputs that may be used to measure fair value under SFAS 157 are as follows:

*Level 1:* Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets and liabilities. This level is the most reliable source of valuation.

*Level 2:* Quoted prices that are not active, or inputs that are observable either directly or indirectly, for substantially the full term of the asset or liability. Level 2 inputs include "inputs other than quoted prices that are observable for the

asset or liability (for example, interest rates and yield curves at commonly quoted intervals, volatilities, prepayment speeds, loss severities, credit risks, and default rates)." It also includes "inputs that are derived principally from or corroborated by observable market data by correlation or other means (market-corroborated inputs)." Several sources are utilized for valuing these securities including a contracted valuation service, Standard & Poor's (S&P) evaluations and pricing services, and other valuation matrices.

*Level 3:* Prices or valuation techniques that require inputs that are both significant to the valuation assumptions and that are not readily observable in the market (i.e., supported with little or no market activity). These Level 3 instruments are valued based on the best available data, some of which is internally developed, and considers risk premiums that a market participant would require.

An asset or liability's level within the fair value hierarchy is based on the lowest level of input that is significant to the fair value measurement.

For assets measured at fair value on a recurring basis, the fair value measurements by level within the fair value hierarchy used at June 30, 2008 are as follows;

			Fair Value Measurements at June 30, 2008 Using (Dollars in Thousands)					
	at Fair Identical		Prices in Active Markets for	Significant Other Observable <u>Inputs</u>	Unob	nificant oservable <u>nputs</u>		
Description		5/30/08	(Level 1)	(Level 2)		evel 3)		
Investment securities available-for-sale	\$	362,165	\$	\$ 311,852	\$	50,313		
Impaired loans <sup>1</sup>	\$	7,356			\$	7,356		
Foreclosed Real Estate	\$	517			\$	517		

<sup>1</sup> The impaired loan fair market value consists of the total impaired loan balance of \$8,632 net of the \$1,276 valuation allowance.

The following valuation techniques were used to measure the fair value of assets in the table above which are measured on a recurring basis as of June 30, 2008.

*Investments available for sale*– The fair value of investments available-for-sale was determined using a market approach. As of June 30, 2008, Level 2 investment securities available-for-sale included U.S.Government Agencies and mortgage backed securities, private label mortgage backed securities and municipal bonds which are not as actively traded. Their fair values were determined based upon market-corroborated inputs and valuation matrices which are obtained through third party data service providers or securities brokers through which the Corporation has historically transacted both purchases and sales of investment securities. The level 3 investments consisted of Preferred Term Securities, Ltd. supported by Trust Preferred Securities which are issued primarily by financial institutions and insurance companies. The Corporation obtains fair market values for these securities from a third party pricing provider who has experience in valuing this type of security. Information such as performance of the underlying collateral, deferral/default rates, cash flow projections, related relevant trades, models and other analytical tools are utilized by the third-party in determining individual security valuations. Due to the current market conditions as well as the limited trading activity of these securities, the market value of the securities is highly sensitive to assumption changes and market volatility.

*Impaired loans*– Loans included in the above table are those that are accounted for under FASB Statement No. 114 (SFAS 114), "Accounting by Creditors for Impairment of a Loan", in which the Corporation has measured impairment generally based on the fair value of the loan's collateral. Fair value is generally determined based upon independent third party appraisals of the collateral or discounted cash flows based upon the expected proceeds. These assets are included as Level 3 fair values, based upon the lowest level of input that is significant to the fair value measurements.

The fair value consists of the loan balance less its valuation allowance as determined under SFAS 114.

*Foreclosed real estate* – Fair value of foreclosed assets was based on independent third party appraisals of the properties. These values were determined based on the sales prices of similar properties in the approximate geographic area.

The following tables show a reconciliation of the beginning and ending balances for fair valued assets measured using Level 3 significant unobservable inputs for the six and three months ended June 30, 2008:

Fair '	Value Measurements Using Significant
	Unobservable Inputs
	(D 11 ' T1 1)

Ending balance June 30, 2008	\$	50,313	\$	7,356	\$	517				

### **Note E – Comprehensive Income/(Loss)**

Unrealized gains and losses on investment securities available-for-sale and on pension obligations are included in accumulated other comprehensive income/(loss). Other comprehensive income/(loss), consisted primarily of the change in unrealized gains (losses) on investment securities available-for-sale, net of taxes of (\$14.2) million and \$3.2 million for the six months ended June 30, 2008 and 2007, respectively, and (\$10.1) million and \$.02 million for the three months ended June 30, 2008 and 2007, respectively.

### Note F – Junior Subordinated Debentures

In March 2004, the Corporation formed two Connecticut statutory business trusts, First United Statutory Trust I ("FUST I") and First United Statutory Trust II (collectively with FUST I, the "Trusts"), for the purpose of selling \$30.9 million of mandatorily redeemable preferred securities to third party investors. The Trusts used the proceeds of their sales of preferred securities to purchase an equal amount of junior subordinated debentures from the Corporation, as follows:

<u>\$20.6 million</u>—6.02% fixed rate for five years payable quarterly, converting to floating rate based on three-month LIBOR plus 275 basis points, maturing in 2034, redeemable five years after issuance at the Corporation's option.

<u>\$10.3 million</u>—floating rate payable quarterly based on three-month LIBOR plus 275 basis points (5.56% at June 30, 2008) maturing in 2034, redeemable five years after issuance at the Corporation's option.

The debentures represent the sole assets of the Trusts, and payments of the debentures by the Corporation are the only sources of cash flow for the Trusts.

In December 2004, the Corporation issued an additional \$5.0 million of debentures. The debentures have a fixed rate of 5.88% for the first five years, payable quarterly, and then convert to a floating rate based on the three month LIBOR plus 185 basis points. The debentures mature in 2014, but are redeemable five years after issuance at the Corporation's option.

The Corporation has the right to defer interest on all of the foregoing debentures for up to 20 quarterly periods, in which case distributions on the preferred securities will also be deferred. Should this occur, the Corporation may not pay dividends or distributions on, or repurchase, redeem or acquire any shares of its common stock.

### Note G – Borrowed Funds

The following is a summary of short-term borrowings with original maturities of less than one year (dollars in thousands):

	June 30, 2008	Decem	ber 31, 2007
Short-term FHLB advance,			
Daily borrowings, interest rate of 2.45% at June 30, 2008 and 4.56% at			
December 31, 2007	\$ 11,500	\$	21,000
Securities sold under agreements to repurchase, with weighted average			
interest rate at end of period of 1.91% and 3.62%, respectively	63,759		67,924
	\$ 75,259	\$	88,924

The following is a summary of long-term borrowings with original maturities exceeding one year (dollars in thousands):

FHLB advances, bearing interest at rates ranging from 2.37% to 4.98% at June 30,	<b>.</b>	• • • • • • • •	<b>.</b>	
2008	\$	241,998	\$	142,522
Junior subordinated debentures, bearing interest at rates ranging from 5.56% to				
6.02% at June 30, 2008		35,929		35,929
	\$	277,927	\$	178,451

The long-term FHLB advances are secured by loans collateralized by 1-4 family mortgages and securities.

The contractual maturities of all long-term borrowings are as follows (in thousands):

	ne 30 2008	 ember 31 2007
Due in 2008	500	1,000
Due in 2009	14,000	14,000
Due in 2010	31,000	31,000
Due in 2011	51,000	51,000
Due in 2012	44,250	44,250
Thereafter	137,177	37,201
Total long-term debt	\$ 277,927	\$ 178,451

#### Note H - Pension and SERP Plans

The following table presents the net periodic pension plan cost for the Corporation's Defined Benefit Pension Plan, the Supplemental Executive Retirement Plan of First United Bank & Trust, the Corporation's wholly-owned trust company subsidiary (the "Bank"), and their related components:

	For the six m	onths	sended	For the three months ended			
Pension	June	: 30		June	30		
(In thousands)	2008		2007	2008		2007	
Service cost	\$ 462	\$	404 \$	231	\$	202	
Interest cost	632		578	316		289	
Expected return on assets	(1,170)		(884)	(585)		(436)	
Amortization of transition asset	(20)		(20)	(10)		(10)	
Recognized loss	70		85	35		43	
Prior service cost	6		5	3		2	
Net pension expense included in							
employee benefits	\$ (20)	\$	168 \$	(10)	\$	90	

SERP	For the six m	 s ended	For the three Jun	montl e 30	ns ended
(In thousands)	2008	2007	2008		2007
Service cost	\$ 60	\$ 90	\$ 30	\$	45
Interest cost	92	128	46		64
Recognized loss	4	102	2		51
Prior service cost	56	56	28		28
Net pension expense included in					
employee benefits	\$ 212	\$ 376	\$ 106	\$	188

The Corporation contributed \$2.5 million to its pension plan in the second quarter 2008. No further contributions are planned for 2008.

### **Note I - Equity Compensation Plan Information**

At the 2007 Annual Meeting of Shareholders, the Corporation's shareholders approved the First United Corporation Omnibus Equity Compensation Plan (the "Omnibus Plan"), which authorizes the grant of stock options, stock appreciation rights, stock awards, stock units, performance units, dividend equivalents, and other stock-based awards to employees or directors totaling up to 185,000 shares.

On June 18, 2008, the Board of Directors of the Corporation adopted a Long-Term Incentive Program (the "LTIP"). This program was adopted as a sub-plan of the Corporation's Omnibus Equity Compensation Plan to reward participants for increasing shareholder value, align executive interests with those of shareholders, and serve as a retention tool for key executives. Under the LTIP, participants are granted shares of restricted common stock of the Corporation. The value of an award is based on a specified percentage of the participant's salary as of the date of grant. These shares will vest if the Corporation meets or exceeds certain performance thresholds. These performance-related shares are expensed ratably from the date that the likelihood of meeting the performance measures is probable through the end of a three year vesting period.

As of June 30, 2008, a total of 18,519 shares had been granted to executive management under the LTIP at a fair market price of \$19.02. These shares will be earned at the end of a three year vesting period if the Corporation meets or exceeds certain performance measures. Stock-based awards were also made to directors totaling 3,738 shares at a

fair market price of \$18.69. The directors' shares were vested immediately. In conjunction with the adoption of the LTIP, the Corporation adopted Statement of Financial Accounting Standards No. 123(R), "Accounting for Share-Based Payments". SFAS No. 123 (R) requires public companies to measure the cost of employee services received in exchange for an award of equity instruments based on the grant date fair value of the award. The cost will be recognized in expense over the period in which an employee is required to provide service in exchange for the award (the vesting period).

Share-based compensation expense for the quarter and six months ended June 30, 2008 was \$.08 million. Unamortized share-based compensation expense as of June 30, 2008 is \$.2 million.

### Note J – Letters of Credit and Off Balance Sheet Liabilities

The Bank does not issue any guarantees that would require liability recognition or disclosure other than its standby letters of credit. Standby letters of credit are conditional commitments issued by the Bank to guarantee the performance of a customer to a third party. Generally, the Bank's letters of credit are issued with expiration dates within one year. The credit risk involved in issuing letters of credit is essentially the same as that involved in extending loan facilities to customers. The Bank generally holds collateral and/or personal guarantees supporting these commitments. The Bank had \$7.1 million of outstanding standby letters of credit at June 30, 2008 and \$7.5 million at December 31, 2007. Management believes that the proceeds obtained through a liquidation of collateral and the enforcement of guarantees would be sufficient to cover the potential amount of future payment required by the letters of credit. Management does not believe that the amount of the liability associated with guarantees under standby letters of credit outstanding at June 30, 2008 and December 31, 2007 is material.

#### Note K – Adoption of New Accounting Standards and Effects of New Accounting Pronouncements

In May 2008, FASB issued SFAS No. 162, "The Hierarchy of Generally Accepted Accounting Principles." This standard identifies the sources of accounting principles and the framework for selecting the principles used in the preparation of financial statements. This statement is effective 60 days following the SEC's approval of the Public Company Accounting Oversight Board (PCAOB) amendments to AU Section 411, "The Meaning of Present Fairly in Conformity with Generally Accepted Accounting Principles." The Company is currently evaluating the potential impact the new pronouncement will have on its consolidated financial statements.

In May 2008, the FASB issued FASB Staff Position (FSP) APB 14-1, "Accounting for Convertible Debt Instruments That May Be Settled in Cash upon Conversion (Including Partial Cash Settlement)" which clarifies the accounting for convertible debt instruments that may be settled in cash (including partial cash settlement) upon conversion. The FSP requires issuers to account separately for the liability and equity components of certain convertible debt instruments in a manner that reflects the issuer's nonconvertible debt borrowing rate when interest cost is recognized. The FSP requires bifurcation of a component of the debt, classification of that component in equity and the accretion of the resulting discount on the debt to be recognized as part of interest expense. The FSP requires retrospective application to the terms of instruments as they existed for all periods presented. The FSP is effective for fiscal years beginning after December 15, 2008, and interim periods within those years. Early adoption is not permitted. The Company is currently evaluating the potential impact the new pronouncement will have on its consolidated financial statements.

In April 2008, the FASB issued FASB Staff Position (FSP) FAS 142-3, "Determination of the Useful Life of Intangible Assets." This FSP amends the factors that should be considered in developing renewal or extension assumptions used to determine the useful life of a recognized intangible asset under FASB Statement No. 142, "Goodwill and Other Intangible Assets" (SFAS 142). The intent of this FSP is to improve the consistency between the useful life of a recognized intangible asset under SFAS 142 and the period of expected cash flows used to measure the fair value of the asset under SFAS 141R, and other GAAP. This FSP is effective for financial statements issued for fiscal years beginning after December 15, 2008, and interim periods within those fiscal years. Early adoption is prohibited. The Company is currently evaluating the potential impact the new pronouncement will have on its consolidated financial statements.

FASB Statement No. 141(R) "Business Combinations" was issued in December of 2007. SFAS No. 141(R) establishes principles and requirements for how the acquirer of a business recognizes and measures in its financial statements the identifiable assets acquired, the liabilities assumed, and any noncontrolling interest in the acquiree. The Statement also provides guidance for recognizing and measuring the goodwill acquired in the business combination and determines

what information to disclose to enable users of the financial statements to evaluate the nature and financial effects of the business combination. The guidance will become effective as of the beginning of a company's fiscal year beginning after December 15, 2008. Impact of adoption will be dependent upon business combinations transacted after that date.

FASB Statement No. 160 "Noncontrolling Interests in Consolidated Financial Statements – an amendment of ARB No. 51" - was issued in December of 2007. This Statement establishes accounting and reporting standards for the noncontrolling interest in a subsidiary and for the deconsolidation of a subsidiary. The guidance will become effective as of the beginning of a company's fiscal year beginning after December 15, 2008. The Corporation believes that this new pronouncement will have an immaterial impact on the Corporation's financial statements in future periods.

FASB Statement No. 161 "Derivative Instruments and Hedging Activities" – an amendment of FASB Statement No. 133 - was issued in March 2008. Statement 161 requires entities that utilize derivative instruments to provide qualitative disclosures about their objectives and strategies for using such instruments, as well as any details of credit-risk-related contingent features contained within derivatives. Statement 161 also requires entities to disclose additional information about the amounts and location of derivatives located within the financial statements, how the provisions of SFAS 133 have been applied, and the impact that hedges have on an entity's financial position, financial performance, and cash flows. Statement 161 is effective for fiscal years and interim periods beginning after November 15, 2008, with early application encouraged. The Corporation is currently evaluating the potential impact the new pronouncement will have on its consolidated financial statements.

Staff Accounting Bulletin No. 109 (SAB 109), "Written Loan Commitments Recorded at Fair Value Through Earnings" expresses the views of the staff regarding written loan commitments that are accounted for at fair value through earnings under generally accepted accounting principles. To make the staff's views consistent with current authoritative accounting guidance, the SAB revises and rescinds portions of SAB No. 105, "Application of Accounting Principles to Loan Commitments." Specifically, the SAB revises the SEC staff's views on incorporating expected net future cash flows related to loan servicing activities in the fair value measurement of a written loan commitment. The SAB retains the staff's views on incorporating expected net future cash flows related to internally-developed intangible assets in the fair value measurement of a written loan commitment. The staff expects registrants to apply the views in Question 1 of SAB 109 on a prospective basis to derivative loan commitments issued or modified in fiscal quarters beginning after December 15, 2007. The adoption of SAB 109 did not have a material impact on our financial statements.

In December 2007, the FASB issued FASB Staff Position (FSP) 157-2, "Effective Date of FASB Statement No. 157," that permits a one-year deferral in applying the measurement provisions of Statement No. 157 to non-financial assets and non-financial liabilities (non-financial items) that are not recognized or disclosed at fair value in an entity's financial statements on a recurring basis (at least annually). Therefore, if the change in fair value of a non-financial item is not required to be recognized or disclosed in the financial statement on an annual basis or more frequently, the effective date of application of Statement 157 to that item is deferred until fiscal years beginning after November 15, 2008 and interim periods within those fiscal years. The Corporation is currently evaluating the impact, if any, that the adoption of FSP 157-2 will have on our financial statements.

### Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

### INTRODUCTION

The following discussion and analysis is intended as a review of material changes in and significant factors affecting the financial condition and results of operations of the Corporation and its consolidated subsidiaries for the periods indicated. This discussion and analysis should be read in conjunction with the unaudited consolidated financial statements and the notes thereto contained in Item 1 of Part I of this report. Unless the context clearly suggests otherwise, references in this report to "us", "we", "our", and "the Corporation" are to First United Corporation and it consolidated subsidiaries.

### FORWARD-LOOKING STATEMENTS

This report may contain forward-looking statements within the meaning of The Private Securities Litigation Reform Act of 1995. Readers of this report should be aware of the speculative nature of "forward-looking statements." Statements that are not historical in nature, including those that include the words "anticipate," "estimate," "should," "expect," "believe," "intend," and similar expressions, are based on current expectations, estimates and projections about, among other things, the industry and the markets in which we operate, and they are not guarantees of future performance. Whether actual results will conform to expectations and predictions is subject to known and unknown risks and

uncertainties, including risks and uncertainties discussed in this report; general economic, market, or business conditions; changes in interest rates, deposit flow, the cost of funds, and demand for loan products and financial services; changes in our competitive position or competitive actions by other companies; changes in the quality or composition of our loan and investment portfolios; our ability to manage growth; changes in laws or regulations or policies of federal and state regulators and agencies; and other circumstances beyond our control. Consequently, all of the forward-looking statements made in this report are qualified by these cautionary statements, and there can be no assurance that the actual results anticipated will be realized, or if substantially realized, will have the expected consequences on our business or operations. These and other risk factors are discussed in detail in the periodic reports that First United Corporation files with the Securities and Exchange Commission (the "SEC") (see Item 1A of Part II of this report for further information). Except as required by applicable laws, we do not intend to publish updates or revisions of any forward-looking statements we make to reflect new information, future events or otherwise.

### THE COMPANY

First United Corporation is a Maryland corporation that was incorporated in 1985 and is a registered financial holding company under the federal Bank Holding Company Act of 1956, as amended. The Corporation's primary business activity is acting as the parent company of First United Bank & Trust, a Maryland trust company (the "Bank"), OakFirst Loan Center, Inc., a West Virginia finance company, OakFirst Loan Center, LLC, a Maryland finance company, the Trusts, and First United Insurance Group, LLC, a full service insurance provider organized under Maryland law (the "Insurance Group"). OakFirst Loan Center, Inc. has one subsidiary, First United Insurance Agency, Inc., which is a Maryland insurance agency. The Bank provides a complete range of retail and commercial banking services to a customer base serviced by a network of 26 offices and 32 automated teller machines.

We maintain an Internet site at <u>www.mybankfirstunited.com</u> on which we make available, free of charge, First United Corporation's Annual Report on Form 10-K, Quarterly Reports on Form 10-Q, Current Reports on Form 8-K, and all amendments to the foregoing as soon as reasonably practicable after these reports are electronically filed with, or furnished to, the SEC.

### ESTIMATES AND CRITICAL ACCOUNTING POLICIES

This discussion and analysis of our financial condition and results of operations is based upon our consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States. The preparation of these financial statements requires management to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses, and related disclosure of contingent liabilities. (See Note 1 to the Consolidated Financial Statements included in Item 8 of Part II of First United Corporation's Annual Report on Form 10-K for the year ended December 31, 2007). On an on-going basis, management evaluates its estimates, including those related to loan losses, intangible assets, other-than-temporary-impairment of investment securities and pension plan assumptions. Management bases its estimates on historical experience and on various other assumptions that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions. Management described its critical accounting policies in First United Corporation's Annual Report on Form 10-K for the year ended December 31, 2007. Management believes that there have been no significant changes in our critical accounting policies since December 31, 2007.

### SELECTED FINANCIAL DATA

The following table sets forth certain selected financial data for the six months ended June 30, 2008 and 2007 and is qualified in its entirety by the detailed information and unaudited financial statements including the notes thereto, included elsewhere in this quarterly report.

		At or For the Six Months Ended June 30						
	20	2008 2007						
Per Share Data								
Net Income	\$	1.19 \$	.86					
Dividends Declared		.40	.39					
Book Value		15.50	15.90					
Significant Ratios								
Return on Average Assets (a)		.93%	.77%					
Return on Average Equity (a)		14.16	10.72					
Dividend Payout Ratio		33.81	45.52					
Average Equity to Average Assets		6.58	7.59					

Note: (a) Annualized

#### **RESULTS OF OPERATIONS**

Overview

Consolidated net income for the first six months of 2008 totaled \$7.25 million or \$1.19 per share, compared to \$5.3 million or \$.86 per share for the same period of 2007. The increase resulted from a one-time pre-tax charge of approximately \$1.6 million (\$1.0 million or \$.18 per share, net of tax) associated with the transfer of investment securities from the available-for-sale category to the trading category during the first quarter of 2007 and the subsequent sale of these securities during the second quarter of 2007. In addition, we have experienced increased earnings on interest-earning assets, primarily from a restructuring of the investment portfolio as well as leverage strategies implemented throughout 2007 and during the first half of 2008. Interest expense on our interest-bearing liabilities decreased by \$.8 million due to declining interest rates during the first half of 2008. As a result, our net interest margin increased from 3.46% in the first six months of 2007 to 3.67% in the first six months of 2008. The provision for loan losses was \$2.4 million for the six months ended June 30, 2008, compared to \$.5 million for the same period of 2007. The increased provision is due to an increase in net charge offs and non-accrual loans, loan growth and declining economic indicators during the first six months of 2008.

Other operating income increased \$2.5 million during the first six months of 2008 when compared to the same period of 2007. This increase is primarily attributable to the recognition of \$.5 million in net securities gains in the first six months of 2008, compared to net securities losses of \$1.6 million in the same period of 2007. Operating expenses increased \$1.9 million in the first six months of 2008 when compared to the first six months of 2007 due primarily to increases in personnel expenses that resulted from the hiring of several regional market presidents to strengthen our presence in key market areas and to normal merit increases. Increased occupancy expenses are primarily attributable to our new operations center.

Consolidated net income for the second quarter of 2008 totaled \$4.1 million or \$.68 per share, compared to \$3.2 million or \$.52 per share for the same period of 2007. The net interest margin for the second quarter of 2008 was

3.77%, compared to 3.55% for the same period in 2007. This increase is a result of the same factors discussed above as affecting the first six months of 2008. Second quarter 2008 results improved over second quarter 2007 results due to an increase in net interest income of 21% and a 14% increase in other operating income. Second quarter 2008 operating expenses increased by 8% when compared to operating expenses for the second quarter of 2007, due to increased personnel costs, occupancy and equipment and other expenses.

Our performance ratios improved during the first six months of 2008 when compared to the same period of 2007 in part due to the non-recurrence in 2008 of the \$1.6 million pre-tax loss on investment securities that occurred in 2007. Our 2008 year-to-date actual results, 2007 year-to-date actual results and 2007 year-to-date results exclusive of the impact of the non-recurring securities losses and associated taxes are presented in the following table:

	For the six months ended									
	June 3	30, 2008	June 3	e 30, 2007						
					]	Excluding				
					Secu	rities Loss and				
	Ac	ctual		Actual	as	sociated tax				
Net Income	\$	7,249	\$	5,266	\$	6,318				
Earnings Per Share	\$	1.19	\$	.86	\$	1.04				
Return on Average Equity		14.16%		10.72%		12.86%				
Return on Average Assets		.93%		.77%		.93%				

#### Net Interest Income

Net interest income is the largest source of operating revenue and is the difference between the interest earned on interest-earning assets and the interest expense incurred on interest-bearing liabilities. For analytical and discussion purposes, net interest income is adjusted to a fully taxable equivalent basis to facilitate performance comparisons between taxable and tax-exempt assets. Fully taxable equivalent income is determined by increasing tax-exempt income by an amount equal to the federal income taxes that would have been paid if this income were taxable at the statutorily applicable rate. The following table sets forth the average balances, net interest income and expense, and average yields and rates of our interest-earning assets and interest-bearing liabilities for the six months ended June 30, 2008 and 2007.

	For the Six Months Ended June 30,									
				2008					2007	
(Dollars in thousands)		Average Balance	]	Interest	Average Rate		Average Balance	]	Interest	Average Rate
<b>Interest-Earning Assets:</b>										
Loans	\$	1,052,424	\$	37,450	7.16%	\$	967,335	\$	36,733	7.59%

3.67%

Note: Interest income and yields are presented on a fully taxable equivalent basis using a 35% tax rate.

18

3.46%

Net interest income increased \$4.4 million during the first six months of 2008 over the same period in 2007, due to a \$3.5 million (7.9%) increase in interest income and a decrease of \$.8 million (3.6%) in interest expense. The increase in interest income resulted from an increase in average interest-earning assets of \$175.3 million (13.9%) during the first six months of 2008 when compared to the first six months of 2007. This increase is primarily attributable to the growth in both our loan portfolio and in our investment portfolio during the latter half of 2007 and the beginning of 2008 as a consequence of the investment leverage strategies that we have implemented. The decreases in interest rates during the latter half of 2007 and the first half of 2008 contributed to the decrease in the average rate on our average earning assets of 34 basis points, from 7.15% for the first six months of 2007 to 6.81% for the first six months of 2008 (on a fully tax equivalent basis).

Interest expense decreased during the first half of 2008 when compared to the same period of 2007 due to a reduction in interest rates on interest-bearing liabilities. Average interest-bearing liabilities increased in the first six months of 2008 by \$225.8 million when compared to the same time period for 2007, with interest-bearing deposits increasing by approximately \$158.9 million since June 30, 2007. The effect of the decreasing rate environment resulted in an 82 basis point decrease in the average rate paid on our average interest-bearing liabilities from 4.20% for the six months ended June 30, 2007 to 3.38% for the same period of 2008.

The net result of the aforementioned factors was a 21 basis point increase in the net interest margin during the first six months of 2008 to 3.67% from 3.46% for the same time period of 2007.

The following table sets forth the average balances, net interest income and expense, and average yields and rates of our interest-earning assets and interest-bearing liabilities for the three months ended June 30, 2008 and 2007.

	For the Three Months Ended June 30								
	2008							2007	
(Dollars in thousands)		Average Balance		Interest	Average Rate	Average Balance		Interest	Average Rate
Interest-Earning Assets:									
Loans	\$	1,059,160	\$	18,490	7.02% \$	977,446	\$	18,841	7.71%
Investment securities		379,389		5,589	5.93	279,594		4,173	5.97
Other interest earning									
assets		22,468		231	4.13	19,652		250	5.09
Total earning assets	\$	1,461,017		24,310	6.69% \$	1,276,692		23,264	7.29%
Interest-bearing liabilities	*			- 453					
Interest-bearing deposits	\$	1,022,683		7,420	2.92% \$	,		9,025	4.14%
Short-term borrowings		81,799		393	1.93	75,963		833	4.39
Long-term borrowings		263,213		2,814	4.30	169,451		2,089	4.93
<b>Total interest-bearing</b>									
liabilities	\$	1,367,695		10,627	3.13% \$	1,117,582		11,947	4.28%
Net interest income and spread			\$	13,683	3.56%		\$	11,317	3.01%
Net interest margin					3.77%				3.55%

Note: Interest income and yields are presented on a fully taxable equivalent basis using a 35% tax rate.

On a fully tax-equivalent basis, net interest income for the second quarter of 2008 increased \$2.4 million in comparison to the second quarter of 2007. This increase resulted from a \$1.0 million increase in interest income during the period, accompanied by a decrease in interest expense of \$1.3 million. The increase in interest income resulted from an increase in average interest-earning assets of \$184.3 million (14.4%). Average loans increased by \$81.7 million while the average balance in investment securities rose by \$99.8 million. Average interest-bearing liabilities increased by \$250.1 million (22.4%) during the second quarter of 2008 when compared to the second quarter of 2007. This increase resulted primarily from the increase in interest-bearing deposits of \$150.5 million and an increase in long-term borrowings of \$93.8 million. The effective rate on these liabilities decreased by 115 basis points. Overall, the net interest margin increased by 22 basis points from 3.55% to 3.77% when comparing quarter to quarter.

### Provision for Loan Losses

The provision for loan losses was \$2.4 million for the first six months of 2008, compared to \$.5 million for the same period of 2007. The increase in the provision was in response to the increase in net charge-offs, loan growth, and specific allocations for impaired loans. See additional comments regarding risk elements in the loan portfolio and management's assessment of the adequacy of the allowance for loan losses below.

### Other Operating Income

Other operating income increased \$2.5 million during the first six months of 2008 when compared to the same period of 2007. The increase was a result of the recognition in the first six months of 2008 of \$.5 million in securities gains from sales and calls in our investment portfolio, compared to \$1.6 million in securities losses recognized in the same period of 2007. Other income for the second quarter of 2008 increased \$.6 million when compared to the second quarter of 2007. Insurance commissions increased 9.7% in the second quarter compared to the same period in 2007 due in part to the acquisitions of books of business in 2007. The composition of operating income is illustrated in the following table.

	Income as % of Tota	al Other Operating In	ncome as % of Tota	l Other Operating
	Inco	me	Inco	me
	Six Month	is ended	Three Mont	ths ended
	June 30, 2008	June 30, 2007	June 30, 2008	June 30, 2007
Service charges	35%	44%	37%	37%
Trust department	23%	31%	21%	25%
Securities (losses)/gains	5%	(25%)	2%	(2%)
Insurance commissions	12%	17%	12%	12%
Bank owned life insurance	5%	9%	4%	7%
Other income	20%	24%	24%	21%
	100%	100%	100%	100%

### Other Operating Expenses

Other operating expenses increased \$1.9 million or 10% for the first half of 2008 when compared to the first half of 2007. For second quarter 2008, other operating expenses increased \$.8 million, or 8%, when compared to the same time period of 2007. The increases for both periods were due principally to higher personnel costs that resulted from the hiring of several regional market presidents to strengthen our presence in key market areas and due to normal merit increases.

In July 2007, the Board of Directors approved the conversion of our core operating system, which was completed in April 2008. The expense for the conversion process is a large portion of the other expense category. We anticipate that this conversion will create operating efficiencies and better position the organization to respond to future advances in technology.

	Expense as % of Total Other Operating Expenses					
	Six Month	is ended	Three months ended			
	June 30, 2008	June 30, 2007	June 30, 2008	June 30, 2007		
Salaries and employee benefits	54%	52%	51%	52%		
Occupancy, equipment and data						
processing	18%	19%	18%	19%		
Other	28%	29%	31%	29%		
	100%	100%	100%	100%		

### Applicable Income Taxes

The effective tax rate for the first six months of 2008 was 33%, compared to 32% for the first six months of 2007. The effective tax rate for the year-ended December 31, 2007 was 31%. The slight increase from year-end is primarily attributable to an increase in the Maryland tax rate, decreased tax exempt income from Bank Owned Life Insurance, and an increase in income.

### FINANCIAL CONDITION

#### Balance Sheet Overview

Total assets were \$1.59 billion at June 30, 2008, an increase of \$115.6 million (7.8%) since December 31, 2007. During this time period, gross loans increased \$35.8 million, cash and interest-bearing deposits in banks decreased \$2.0 million and our investment portfolio increased \$66.1 million. Total liabilities increased by approximately \$125.6 million during the first six months of 2008, reflecting increases in total deposits of \$37.5 million and an increase in long-term borrowings of \$99.5 million offset by a decline in short-term borrowings of \$13.7 million. The increase in long-term borrowings reflect the funding of the leverage strategies implemented during the first half of 2008 and management's desire to lengthen the duration of liabilities in anticipation of rising interest rates. The decrease of \$10 million in shareholders' equity is attributable to the increase in the unrealized losses on securities at June 30, 2008.

### Loan Portfolio

The following table presents the composition of our loan portfolio at the dates indicated:

(Dollars in millions)	June 30, 2008		December 31, 2007	
Commercial	\$ 532.9	50%\$	492.3	47%
Residential – Mortgage	392.1	36	384.4	37
Installment	140.1	13	153.6	15
Residential – Construction	13.9	1	13.0	1
Total Loans	\$ 1,079.0	100%\$	1,043.3	100%

Comparing loans at June 30, 2008 to loans at December 31, 2007, our loan portfolio has increased by \$35.8 million (3.4%). Continued growth in commercial loans (\$40.6 million) and in the residential mortgage portfolio (\$7.7 million) was offset by a decline in our installment portfolio (\$13.5 million). The decrease in installment loans is primarily attributable to a decline in the indirect loan portfolio resulting from a slowdown in economic activity and management's de-emphasis of this form of lending product. The growth in the commercial portfolio is a result of both in-house production and commercial participations with other institutions. At June 30, 2008, approximately 77% of the commercial loan portfolio was collateralized by real estate compared to 81% at December 31, 2007.

### Risk Elements of Loan Portfolio

The following table presents the risk elements of our loan portfolio at the dates indicated. Management is not aware of any potential problem loans other than those listed in this table.

(Dollars in millions)	June	30, 2008	Dece	ember 31, 2007
Non-accrual loans	\$	10,773	\$	5,443
Accruing loans past due 90 days or more		1,716		3,260
Total	\$	12,489	\$	8,703
Total as a percentage of total loans		1.169	%	.83%

Problem loans increased to \$12.5 million at June 30, 2008, a \$3.8 million increase since December 31, 2007. This increase is directly attributable to the movement of two commercial loans to non-accrual status. Management has performed an extensive review of these loan relationships and the impaired loans and believes that the collateral securing the loans is adequate to protect our interests.

As of June 30, 2008, we have \$88.4 million in funded real estate acquisition and development loans throughout our market areas. We rely on various monitoring policies and procedures and the extensive experience of our lending and credit personnel to help mitigate the risks related to this type of lending activity.

During the past several quarters, there has been significant coverage in the media regarding the topic of "sub-prime" loans and the resulting increase in loan delinquencies and foreclosures. A sub-prime loan is defined generally as a loan to a borrower with a weak credit record or a reduced repayment capacity. These borrowers typically pose a higher risk of defaults and foreclosure. We generally do not make sub-prime loans, and when we do the decision to lend is based on the presence of facts and circumstances that management believes mitigate the risks inherent in this type of loan. As of June 30, 2008, management believes that our exposure to risk related to sub-prime loans is very low. However, it should be noted that the problems in the current sub-prime market have adversely affected local housing markets and the general availability of credit.

# Allowance and Provision for Loan Losses

An allowance for loan losses is maintained to absorb losses from the loan portfolio. The allowance for loan losses is based on management's continuing evaluation of the quality of the loan portfolio, assessment of current economic conditions, diversification and size of the portfolio, adequacy of collateral, past and anticipated loss experience, and the amount of non-performing loans.

We use the methodology outlined in FDIC Statement of Policy on Allowance for Loan Losses. The starting point for this methodology is to segregate the loan portfolio into two pools, non-homogeneous (i.e., commercial) and homogeneous (i.e., consumer and residential mortgage) loans. Each loan pool is analyzed with general allowances and specific allocations being made as appropriate. For general allowances, the previous eight quarters of loss activity are used in the estimation of losses in the current portfolio. These historical loss amounts are modified by the following qualitative factors: levels of and trends in delinquency rates and non-accrual loans; trends in volumes and terms of loans; effects of changes in lending policies; experience, ability, and depth of management; national and local economic trends and conditions; and concentrations of credit in the determination of the general allowance. The qualitative factors are updated each quarter by information obtained from internal, regulatory, and governmental sources. Specific allocations of the allowance for loan losses are made for those loans on the "Watchlist" in which the collateral value is less than the outstanding loan balance with the allocation being the dollar difference between the two. The Watchlist represents loans, identified and closely monitored by management, which possess certain qualities or characteristics that may lead to collection and loss issues. Allocations are not made for loans that are cash secured, for the Small Business Administration and Farm Service Agency guaranteed portion of loans, or for loans that are sufficiently collateralized.

The allowance for loan losses is based on estimates, and actual losses will vary from current estimates. These estimates are reviewed quarterly, and as adjustments, either positive or negative, become necessary, a corresponding increase or decrease is made in the allowance for loan losses. The methodology used to determine the adequacy of the allowance for loan losses is consistent with prior years. An estimate for probable losses related to unfunded lending commitments, such as letters of credit and binding but unfunded loan commitments is also prepared. This estimate is computed in a manner similar to the methodology described above, adjusted for the probability of actually funding the commitment.

The following table presents a summary of the activity in the allowance for loan losses for the six months ended June 30 (dollars in thousands):

	2008	2007
Balance, January 1	\$ 7,304 \$	6,530
Gross charge offs	(1,257)	(907)

Recoveries	478	295
Net credit losses	(779)	(612)
Provision for loan losses	2,353	530
Balance at end of period	\$ 8,878 \$	6,448
Allowance for Loan Losses to loans outstanding		
(as %)	.83%	.64%
Net charge-offs to average loans outstanding		
during the period, annualized (as %)	.15%	.13%

The allowance for loan losses increased to \$8.9 million at June 30, 2008, compared to \$7.3 million at December 31, 2007. The provision for loan losses was \$2.4 million for the first six months of 2008, compared to \$.5 million for the same period of 2007. The increase in the provision for loan losses in the first six months of 2008 compared to the same period of 2007 was in response to the increase in net charge-offs, loan growth, the results of our quarterly review of the adequacy of the factors discussed previously, and specific allocations for impaired loans. As part of our loan review process, management has noted an increase in foreclosures and bankruptcies in the geographic areas where we operate. Additionally, the current economic environment has caused a decline in real estate sales. Consequently, we have closely reviewed and applied sensitivity analysis to collateral values to more adequately measure potential future losses. Where necessary, we have obtained new appraisals on collateral. Specific allocations have been provided in all instances where we have recognized probable losses.

Net charge offs relating to the installment loan portfolio represent 56% of our total net charge-offs for the first six months of 2008. Generally, installment loans are charged off after they are 120 days contractually past due. However, we have seen a slight improvement in the quality of the installment loan portfolio, as loans past due 30 days or more were \$3.44 million or 2.38% of the installment portfolio at June 30, 2008, compared to \$4.54 million or 2.9% at December 31, 2007.

Management believes that the allowance at June 30, 2008 is adequate to provide for probable losses inherent in our loan portfolio. Amounts that will be recorded for the provision for loan losses in future periods will depend upon trends in the loan balances, including the composition of the loan portfolio, changes in loan quality and loss experience trends, potential recoveries on previously charged-off loans and changes in other qualitative factors.

# **Investment Securities**

At June 30, 2008, \$362.2 million of our investment securities portfolio was classified as available-for-sale and \$8.8 million was classified as held-to-maturity. Unrealized gains and losses on securities available-for-sale are reflected in accumulated other comprehensive income or loss, a component of shareholders' equity. At June 30, 2008, the total cost basis of the investment portfolio was \$399.0 million, compared to a fair value of \$371.0 million.

The following table presents the composition of our securities portfolio, available-for-sale at fair values and held-to-maturity at cost at the dates indicated:

(Dollars in millions)	June 30, 2008		December 31, 2007	
Securities Available-for-Sale:				
U.S. government and agencies	\$ 98.2	27%\$	90.8	30%
Mortgage-backed securities	130.4	35	60.9	20
Obligations of states and political				
subdivisions	61.9	17	85.9	28
Corporate and other debt securities	71.7	19	67.3	22
Securities Held-to-Maturity:				
Other debt securities	8.8	2	—	
Total Investment Securities	\$ 371.0	100%\$	304.9	100%

The increase in our investment portfolio since year-end 2007 is primarily due to the purchase of \$89 million in mortgage-backed securities during the first half of 2008. These purchases were part of a leverage strategy which was funded with FHLB advances, matching the duration of the securities. As of June 30, 2008, \$81.5 million of this funding is reflected in our long-term FHLB borrowings. The remaining \$7.5 million was in overnight borrowings.

At June 30, 2008, the securities classified as available-for-sale included a net unrealized loss of \$28.0 million, which represents the difference between the fair value and amortized cost of securities in the portfolio. The comparable

amount at December 31, 2007 was an unrealized loss of \$4.2 million. Typically, the fair values of securities available-for-sale will generally decrease whenever interest rates increase, and the fair values will typically increase in a declining rate environment. However, in the current economic environment, fair values have also been affected by factors such as credit quality, marketability, and liquidity.

As discussed in Note D, effective January 1, 2008, the Corporation began measuring fair market values based on the fair value hierarchy established in SFAS 157. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). Level 3 prices or valuation techniques require inputs that are both significant to the valuation assumptions and are not readily observable in the market (i.e. supported with little or no market activity). These Level 3 instruments are valued based on the best available data, some of which is internally developed, and considers risk premiums that a market participant would require. Approximately \$50.3 million (14%) of our securities available-for-sale were classified using significant unobservable inputs (level 3 assets). These Preferred Term Securities are classified as corporate securities and contributed approximately \$14.0 million to the unrealized loss reported in our accumulated other comprehensive income (loss) on the Statement of Financial Condition. The underlying issuers for these securities are primarily financial institutions and insurance companies. We have completed an in-depth analysis of the securities and based upon the information available to us at this time believe that the decline in fair value experienced on the securities is due to the recent downturn in the economic environment and the lack of demand for this type of investment. By contract, Preferred Term Securities allow an issuer to defer interest payments for up to twenty quarters. Although there have been deferrals and defaults of some of the underlying issuers, the structured securities held are generally secured by over collateralization or default protection provided by subordinated tranches. Within this category, securities subject to Emerging Issues Task Force (EITF) Issue No. 99-20, Recognition of Interest Income and Impairment on Purchased and Retained Beneficial Interests in Securitized Financial Assets (EITF 99-20), are monitored for significant adverse changes in cash flow projections. If there are adverse changes in cash flows, the amount of accretable yield is prospectively adjusted and an other than temporary impairment (OTTI) loss is recognized. As of June 30, 2008, there was no adverse change in estimated cash flows noted for the securities in an unrealized loss position held subject to EITF 99-20. We anticipate a recovery in the fair market value over time. The decline in fair market value of these securities does not have a material impact on operations, liquidity or the capital resources of the company.

Management evaluates on a quarterly basis each security in an unrealized loss position for other than temporary impairment. In its evaluation, management considers such factors as the length of time and the extent to which the market value has been below cost, the financial condition of the issuer, and our intent and ability to hold the security to an expected recovery in market value. Management does not believe that an unrealized loss on any individual security as of June 30, 2008 represents an other-than-temporary impairment. We have both the intent and ability to hold the securities presented in the preceding table for the period of time necessary to recover their amortized cost or until maturity.

There has been a lot of media attention regarding "sub-prime" mortgage investments. "Sub-prime" mortgages with similar characteristics can be packaged together and sold as investments. We believe that our exposure to losses arising from these types of securities is insignificant.

# Deposits

The following table presents the composition of our deposits as of the dates indicated:

(Dollars in millions)	June 30, 2008		December 31	, 2007
Non-interest-bearing demand deposits	\$ 112.8	10% \$	98.0	9%
Interest-bearing demand deposits	391.7	35	420.3	38
Savings deposits	37.0	3	38.6	4
Time deposits less than \$.1	228.5	20	236.2	22
Time deposits \$.1 or more	360.2	32	299.6	27
Total Deposits	\$ 1,130.2	100% \$	1,092.7	100%

Deposits increased \$37.5 million during the first six months of 2008 when compared to deposits at December 31, 2007. Interest-bearing demand deposits decreased \$28.6 million and time deposits increased \$52.9 million due to a shift of brokered money market funds to longer term brokered time deposits and a successful promotion of three and five year time deposit products. We have shifted our focus to longer-term liabilities as we anticipate a flat to rising interest rate environment.

# Borrowed Funds

The following table presents the composition of our borrowings at the dates indicated:

(Dollars in millions)	Jı	une 30, 2008	Dec	ember 31, 2007
FHLB short-term borrowings	\$	11.5	\$	21.0
Securities sold under agreements to repurchase		63.8		67.9
Total short-term borrowings	\$	75.3	\$	88.9
FHLB advances	\$	242.0	\$	142.5
Junior subordinated debt		35.9		35.9
Total long-term borrowings	\$	277.9	\$	178.4

Total short-term borrowings decreased by approximately \$13.6 million during the first six months of 2008, primarily as a result of a decrease in overnight borrowings and a decline in our Treasury Management product. Long-term borrowings increased during the first six months of 2008 by \$100 million. The increase in long-term borrowings was to fund leverage strategies implemented in the first half of 2008.

### Liquidity and Capital

We derive liquidity through increased customer deposits, maturities in or sale of the investment portfolio, loan repayments and income from earning assets. When deposits are not adequate to fund customer loan demand, liquidity needs can be met in the short-term funds markets through arrangements with our correspondent banks or through the purchase of brokered certificates of deposit. The Bank is also a member of the Federal Home Loan Bank of Atlanta, which provides another source of liquidity. As discussed in Note F to the consolidated financial statements presented elsewhere in this report, we may from time to time access capital markets and/or borrow funds from private investors to meet some of our liquidity needs. We actively manage our liquidity position through the Asset and Liability Management Committee of the Board of Directors. Monthly reviews by management and quarterly reviews by the committee under prescribed policies and procedures are designed to ensure that we will maintain adequate levels of available funds.

Management believes that we have adequate liquidity available to respond to current and anticipated liquidity demands and is unaware of any trends or demands, commitments, events or uncertainties that will materially affect our ability to maintain liquidity at satisfactory levels.

The following table presents our capital ratios at June 30, 2008:

	Actual	Required For Capital Adequacy Purposes	Required To Be Well Capitalized
Total Capital (to risk-weighted assets)	12.38%	8.00%	10.00%
Tier 1 Capital (to risk-weighted assets)	11.20	4.00	6.00
Tier 1 Capital (to average assets)	8.41	3.00	5.00

At June 30, 2008, First United Corporation and the Bank were categorized as "well capitalized" under federal banking regulatory capital requirements.

First United Corporation paid a cash dividend of \$.20 per share on May 1, 2008. On June 18, 2008, the Board of Directors declared another dividend of an equal amount, to be paid on August 1, 2008 to shareholders of record as of July 14, 2008.

### Contractual Obligations, Commitments and Off-Balance Sheet Arrangements

Loan commitments are made to accommodate the financial needs of our customers. Letters of credit commit us to make payments on behalf of customers when certain specified future events occur. The credit risks inherent in loan commitments and letters of credit are essentially the same as those involved in extending loans to customers, and these arrangements are subject to our normal credit policies. Loan commitments and letters of credit totaled \$166.9 million and \$7.1 million, respectively, at June 30, 2008, compared to \$143.8 million and \$7.5 million, respectively, at December 31, 2007. We are not a party to any other off-balance sheet arrangements.

See Note G for further disclosure on Borrowed Funds. There have been no other significant changes to contractual obligations as presented at December 31, 2007.

#### Item 3. Quantitative and Qualitative Disclosures About Market Risk

Our primary market risk is interest rate fluctuation and we have procedures in place to evaluate and mitigate this risk. This market risk and our procedures are described in First United Corporation's Annual Report on Form 10-K for the year ended December 31, 2007 under the caption "Management's Discussion and Analysis of Financial Condition and Results of Operation – Interest Rate Sensitivity". Management believes that no material changes in our market risks or in the procedures used to evaluate and mitigate these risks have occurred since December 31, 2007.

#### **Item 4. Controls and Procedures**

We maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed in our reports filed under the Securities Exchange Act of 1934 with the SEC, such as this Quarterly Report, is recorded, processed, summarized and reported within the periods specified in those rules and forms, and that such information is accumulated and communicated to our management, including the Chief Executive Officer ("CEO") and the Chief Financial Officer ("CFO"), as appropriate, to allow for timely decisions regarding required disclosure. A control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. Further, the design of a control system must reflect the fact that there are resource constraints, and the benefits of controls must be considered relative to their costs. These inherent limitations include the realities that judgments in decision-making can be faulty, and that breakdowns can occur because of simple error or mistake. Additionally, controls can be circumvented by the individual acts of some persons, by collusion of two or more people, or by management override of the control. The design of any system of controls is also based in part upon certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions. Over time, controls may become inadequate because of changes in conditions, or the degree of compliance with the policies or procedures may deteriorate.

An evaluation of the effectiveness of these disclosure controls as of June 30, 2008 was carried out under the supervision and with the participation of Management, including the CEO and the CFO. Based on that evaluation, Management, including the CEO and the CFO, has concluded that our disclosure controls and procedures are, in fact, effective at the reasonable assurance level.

During the second quarter of 2008, there was no change in our internal control over financial reporting that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

### Part II. OTHER INFORMATION

#### **Item 1. Legal Proceedings**

None.

# Item 1A. Risk Factors

The risks and uncertainties to which our financial condition and operations are subject are discussed in detail in Item 1A of Part I of the Corporation's Annual Report on Form 10-K for the year ended December 31, 2007. Management does not believe that any material changes in our risk factors have occurred since they were last updated.

### Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

The following table provides information about shares of common stock purchased by or on behalf of First United Corporation and its affiliates (as defined by Exchange Act Rule 10b-18) during the three-month period ended June 30, 2008:

### **Issuer Purchases of Equity Securities**

		1	J		Marine Number

Note:

(1) All shares were purchased under First United Corporation's repurchase plan that was adopted effective August 15, 2007. The adoption of this plan was publicly announced on August 20, 2007. The plan authorizes the repurchase of up to 307,500 shares of common stock in open market and/or private transactions at such times and in such amounts per transaction as the Chairman and Chief Executive Officer of First United Corporation determines to be appropriate. The repurchase plan will continue until all shares are repurchased, unless earlier terminated by First United Corporation.

### Item 3. Defaults upon Senior Securities

None.

### Item 4. Submission of Matters to a Vote of Security Holders

At the 2008 annual meeting of shareholders held on May 8, 2008, the shareholders elected six individuals to serve as directors until the 2011 annual meeting of shareholders and until their successors are duly elected and qualify. Our Board of Directors submitted the matters to a vote through solicitation of proxies. The results of the elections were as follows:

Class I (Terms expires 2011)	FOR	WITHHELD	ABSTAINED	BROKER NON-VOTES
<ul> <li>01 David J. Beachy</li> <li>02 Faye E. Cannon</li> <li>03 Paul Cox, Jr.</li> <li>04 William B. Grant</li> <li>05 John W. McCullough</li> </ul>	4,558,314 4,556,544 4,559,157 4,541,189 4,569,807	124,643 126,413 123,800 141,768 113,150	N/A N/A N/A N/A	N/A N/A N/A N/A N/A

Also at the 2008 annual meeting of shareholders, a vote was cast through solicitation of proxies for the ratification of the Audit Committee's appointment of Beard Miller Company LLP as the Corporation's registered public accounting firm for 2008. The results of the election are as follows:

FOR AGAINSTABSTAINED BROKER NON-VOTES

4,593,027 69,956 19,974 N/A

### **Item 5. Other Information**

None.

# Item 6. Exhibits

The exhibits filed or furnished with this quarterly report are listed in the Exhibit Index that follows the signatures, which index is incorporated herein by reference.

#### SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned thereunto duly authorized.
